BUILDING TOMORROW[TM]

RBS US Mid Cap Trendpilot[TM] ETN (TRNM)

[GRAPHIC OMITTED]

The RBS US Mid Cap Trendpilot[TM] Exchange Traded Notes ("RBS ETNs") are unsecured and senior obligations of The Royal Bank of Scotland plc ("RBS plc"), and are fully and unconditionally guaranteed by The Royal Bank of Scotland Group plc ("RBS Group"). Any payments on the RBS ETNs when they become due at maturity or upon early repurchase or redemption are dependent on the ability of RBS plc and RBS Group to pay, and are also subject to market risk.

RBS US Mid Cap Trendpilot[TM] ETNs track the RBS US Mid Cap Trendpilot[TM] Index (USD) which provides:

Trend-following exposure using an objective and transparent methodology to either the S & P MidCap 400([R]) Total Return Index or the Cash Rate; Mid Cap Exposure in positive trending markets by tracking the S & P MidCap 400([R]) Total Return Index, the level of which incorporates the reinvestment of any cash dividends paid on its component securities. The RBS ETNs do not pay interest or dividends; and Cash Rate Exposure in negative trending markets by tracking a hypothetical investment in 3-month U.S. Treasury bills as of the most recent weekly auction.

Time

The above graph illustrates the operation of the Trendpilot[TM] Index Methodology. It does not reflect any actual performance of the Benchmark Index or the Index, and is not an indication of how either index may perform in the future. The hypothetical illustration above also does not include any fees, transaction costs or expenses.

If neither of the above conditions is satisfied, the trend of the Benchmark Index will be the same as the trend of the Benchmark Index on the immediately preceding Index business day. The Index will implement any trend reversal at the open of trading on the second Index business day immediately following the Index business day on which the Benchmark Index trend switches from positive to negative or from negative to positive, as the case may be.

(1)Benchmark Index Dividend Yield means the sum of the gross dividends paid on the securities comprising the Benchmark Index (which is a total return index) over the prior 12 months ending 9/30/2012 divided by the closing level of the price return version of the Benchmark Index as of 9/30/2012.

**RISK CONSIDERATIONS:** The RBS ETNs involve risks not associated with an investment in conventional debt securities, including a possible loss of some or all of your investment. The level of the Index must increase by an amount sufficient to offset the aggregate investor fee applicable to the RBS ETNs in order for you to receive at least the principal amount of your investment back at maturity or upon early repurchase or redemption. The Index may underperform the Benchmark Index, and is expected to perform poorly in volatile markets. Although the RBS ETNs are listed on the NYSE Arca, a trading market may not develop and the liquidity of the RBS ETNs may be limited and/or vary over time,
