ROYAL BANK OF SCOTLAND GROUP PLC

Form FWP

January 14, 2013

Filed pursuant to Rule 433

Registration Statement Nos. 333-184147 and 333-184147-01

Selected Group Key Performance Indicators

The Group's businesses and performance are affected by local and global economic conditions and perceptions of those conditions and future economic prospects. As a result of the global economic and financial crisis that began in 2008 and the changed global economic outlook, the Group is engaged in a financial and core business restructuring which is focused on achieving appropriate risk-adjusted returns under these changed circumstances, reducing reliance on wholesale funding and lowering exposure to capital-intensive businesses. A key part of this restructuring is the program announced in February 2009 to run-down and sell the Group's non-core assets and businesses and the continued review of the Group's portfolio to identify further disposals of certain non-core assets and businesses. This balance sheet reduction program continues alongside the disposals under the State Aid restructuring plan approved by the European Commission. As part of its core business restructuring, in January 2012 the Group announced changes to its wholesale banking operations, including the reorganization of its wholesale businesses and the exit and downsizing of selected existing activities (including cash equities, corporate banking, equity capital markets, and mergers and acquisitions).

The following table sets forth selected key financial information of the Group. Investors should read the following information together with the RBS Group's 2011 Annual Report on Form 20-F as restated on Form 6-K filed on August 10, 2012, the Results as of and for the three months ended March 31, 2012 on Form 6-K filed on May 11, 2012, the Interim Results as of and for the six months ended June 30, 2012 on Form 6-K filed on August 8, 2012 and the Results as of and for the nine months ended September 30, 2012 on Form 6-K filed on November 9, 2012.
