RBS Exchange Traded Notes

RBS Oil Trendpilot[] ETN (TWII)

The RBS Oil Trendpilot[] Exchange Traded Notes (RBS ETNs) are unsecured and senior obligations of The Royal Bank of Scotland plc (RBS plc), and are fully and unconditionally guaranteed by The Royal Bank of Scotland Group plc (RBS Group). Any payments on the RBS ETNs when they become due at maturity or upon early repurchase or redemption are dependent on the ability of RBS plc and RBS Group to pay, and are also subject to market risk.

RBS Oil Trendpilot[] ETNs track the RBS Oil Trendpilot[] Index (USD) which provides:

Trend-following exposure using an objective and transparent methodology to either the RBS 12-Month Oil Total Return Index (USD) or the Cash Rate; Oil Exposure in positive trending markets by tracking the RBS 12-Month Oil Total Return Index (USD); and Cash Rate Exposure in negative trending markets by tracking a hypothetical investment in 3-month U.S. Treasury bills as of the most recent weekly auction.

Illustration of the Trendpilot([]) Index Methodology

A positive trend is established:

The Index will track the Benchmark Index

If the closing level of the Benchmark Index is at or above its historical 100-Index business day simple moving average for five consecutive Index business days

A negative trend is established:

The Index will track the Cash Rate

If the closing level of the Benchmark Index is below its historical 100-Index business day simple moving average for five consecutive Index business days

A negative trend is established

A positive trend is established

RBS 12-Month Oil Total Return Index (USD) (the "Benchmark Index")

The Benchmark Index utilizes a rules-based methodology to provide exposure to a hypothetical notional investment in a series of 12 light sweet crude oil (WTI) futures contracts that are traded on the New York Mercantile Exchange. The 12 futures contracts comprising the Benchmark Index on any given day will be the futures contracts scheduled to expire in the immediately following calendar month and futures contracts scheduled to expire in each of the eleven months thereafter. The Benchmark Index is rebalanced on a monthly basis so that each of the 12 contracts is equally weighted upon each rebalancing. For more information regarding the RBS 12-Month Oil Total Return Index (USD) methodology please see the RBS Oil Trendpilot ETN pricing supplement.

Source: Bloomberg. The table above presents the actual historical performance of the RBS ETNs, the Index and the RBS 12-Month Oil Total Return Index over the specified periods. It is not possible to invest directly in an index. For information regarding the performance of the Index, see pages PS-14 to PS-17 of the pricing supplement of the RBS ETNs filed with the U.S. Securities and Exchange Commission (SEC). Past performance does not guarantee future results.

(1) Includes the deduction of the annual investor fee, which accrues on a daily basis. The annual investor fee will be equal to (i) 1.10% per annum when the Index is tracking the Benchmark Index, and (ii) 0.50% per annum when the Index is tracking the Cash Rate.

CERTAIN RISK CONSIDERATIONS: The RBS ETNs involve risks not associated with an investment in conventional debt securities, including a possible loss of some or all of your investment. The level of the Index must increase by an amount sufficient to offset the aggregate investor fee applicable to the RBS ETNs in order for you to receive at least the principal amount of your investment back at maturity or upon early repurchase or redemption. The RBS ETNs and the Index do not provide exposure to spot prices of crude oil and, consequently, may not be representative of an investment that provides exposure to crude oil. The Index may underperform the Benchmark Index, and is expected to perform poorly in volatile markets. Even though the RBS ETNs are listed on the NYSE Arca, a trading market may not develop and the liquidity of the RBS ETNs may be limited and/or vary over time, as RBS plc is not required to maintain any listing of the RBS ETNs. The RBS ETNs are not principal protected and do not pay interest. The intraday indicative value and the daily redemption value are not the same as the trading price or market price of the RBS ETNs in the secondary market. Any payment on the RBS ETNs is subject to the ability of RBS plc, as the issuer, and RBS Group, as the guarantor, to pay their respective obligations

when they become due. You should carefully consider whether the RBS ETNs are suited to your particular circumstances before you decide to purchase them. We urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the RBS ETNs.

The RBS ETNs are not suitable for all investors. You should carefully read the relevant pricing supplement and prospectus, including the more detailed explanation of the risks involved in any investment in the RBS ETNs as described in the "Risk Factors" section of the pricing supplement, before investing.

IMPORTANT INFORMATION: RBS plc and RBS Group have filed a registration statement (including a prospectus) with the U.S. Securities and Exchange Commission (SEC) for the offering of RBS ETNs to which this communication relates. Before you invest in any RBS ETNs, you should read the prospectus in that registration statement and other documents that have been filed by RBS plc and RBS Group with the SEC for more complete information about RBS plc and RBS Group, and the offering. You may

get these documents for free by visiting EDGAR on the SEC's web site at www.sec.gov. Alternatively, RBS plc, RBS Securities Inc. (RBSSI) or any dealer participating in the offering will arrange to send you the prospectus and the pricing supplement at no charge if you request it by calling 1-855-RBS-ETPS (toll-free).

RECENT DEVELOPMENTS: On June 13, 2013, we announced that we would be exiting the structured retail investor products business that is responsible for issuing and maintaining the RBS ETNs, and that we expect to move such business into a runoff organization which will go through a process of restructuring and / or business sales (the "RBS Retail Investor Products Exit Plan"). The implementation of the RBS Retail Investor Products Exit Plan increases the likelihood that the RBS ETNs will be redeemed by us prior to maturity. We plan to continue to maintain and issue the RBS ETNs, but our plans could change. We cannot give you any assurances as to any minimum period of time that you may hold the RBS ETNs before we redeem them at our option.
