**Table of Contents**

The merger of shares is still subjected to the opinions of the members of the Fiscal Councils of CVRD and Caemi, in accordance with Article 163, III of the Brazilian Corporate Law.

**Corporate Arrangements That Preceded The Merger of Shares**

Until February 16, 2006, CVRD indirectly held the totality of the common shares, except 6 (six) common shares held by the members of the Board of Directors of Caemi, in compliance with Article 146 of the Brazilian Corporate Law, and 40.06% of the preferred shares issued by Caemi, through its subsidiary Amazon Iron Ore Overseas Co. Ltd., a company organized in accordance with the laws of the Cayman Islands, with head offices at Walkers House, 87 Mary Street, PO Box 908GT, George Town, Grand Cayman, Cayman Islands (Amazon).

As a preliminary measure to the merger of shares, a redemption of shares issued by Amazon was performed on February 16, 2006, and the payment was made in shares issued by Caemi to CVRD.

Upon the conclusion of corporate transactions involving the transfer of the totality of the shares issued by Caemi previously held by Amazon, CVRD became the holder of the above-described interest.

**Reasons, Objectives and Benefits Resulting from the Merger of Shares**

The main purpose of this merger of shares is to allow the consolidation of the companies into a sole vehicle with presence on the capital market, concentrating investments in shares of a single company. It is also expected that such unification will favor the dispersion of free float of shares, with liquidity increase, and will simplify the corporate structure with favorable effects.

The companies expect the following benefits to result from the merger:

- (i) consolidation of the capital structure;
- (ii) rationalization and optimization of the investment plans;
- (iii) stronger financial capacity, increase and diversification of the alternatives related to the raising of funds;
- (iv) higher efficiency of the corporate structure and execution of strategic decisions; and
- (v) potential increase of productivity and competitiveness, mainly in iron ore operations.

**Table of Contents**

The merger of shares, as proposed, preserves and creates value for the shareholders of the companies in light of the fact that it allows a decrease in corporate costs and raising of synergies at an estimated amount of approximately R\$ 300 million.

Regarding specifically to the current shareholders of Caemi, which will continue to be exposed to its assets and results, the companies foresee the following benefits:

- (i) full exposure to CVRD's performance, which invested US\$ 10.5 billion over the last five years and plans to invest US\$ 4.6 billion in 2006, and currently is developing a portfolio of 22 projects and a global research and development program;
- (ii) acquisition of voting rights equal to the political rights granted to the holders of common shares issued by CVRD in all matters subjected to resolution of the General Meeting, except indication of members for the Board of Directors;
- (iii) access to CVRD dividend policy, oriented by financial flexibility, transparency and risk minimization for its shareholders;
- (iv) greater liquidity of its investments, in light of the fact that CVRD shares are tradable at the São Paulo Stock Exchange (Bovespa), where holds a highlighted position at Ibovespa, and at the New York Stock Exchange, where their American Depositary Receipts (ADRs) are among the most actively traded ADRs listed on that stock exchange; and
- (v) large access to the global capital market available for investment grade rated companies and shareholders in more than twenty countries, a fact that enables the reduction of its cost of capital and increases the potential for shareholder value creation,

CVRD's shareholders, besides the above mentioned benefits, will have full exposure to Caemi's world class assets and results.

***EVALUATIONS, SWAP RATIO AND VARIATIONS OF POLITICAL AND EQUITY RIGHTS***

The merger of shares shall result in the increase of CVRD's capital stock, in view of the merger of all the shares issued by CAEMI into CVRD equity.

***Evaluation of the Merged Company for Capital Stock Increase Purposes***

**Table of Contents**

The Capital Stock increase at CVRD, to be carried out in light of the merger of shares, shall be performed based on the report dated March 14, 2006, prepared by Banco Merrill Lynch de Investimentos S.A., established in the City of São Paulo, State of São Paulo, at Av. Brigadeiro Faria Lima 3400, 18th floor, enrolled with the Brazilian Legal Entities Taxpayers Roll of the Ministry of Finance (CNPJ/MF) under the number 62.073.200/0001-21 (Merrill Lynch), in accordance with Exhibit I of the Protocol. The report prepared by Merrill Lynch contains the evaluation of the entirety of shares issued by Caemi based on the exchange market value criteria of Caemi shares, according to the rates of Bovespa throughout the 90 days that preceding the first press release related to the transaction, issued on January 23, 2006. As a result, were considered the closing rates for the trading sessions during the period from October 26, 2005 to January 23, 2006, including these dates, and the result was an average rate of R\$ 3.52311 for each preferred share issued by Caemi, being attributed for the totality of shares of the Merged Company the amount of R\$ 13,809,698,679.97 (thirteen billion, eight hundred and nine million, six hundred and ninety-eight thousand, six hundred and seventy-nine reais and ninety seven cents).

***Swap Ratio Of Preferred Shares Issued By Caemi For Class A Preferred Shares Issued By Cvr***

The swap ratio of preferred shares issued by Caemi for Class A preferred shares issued by CVRD shall be performed based on the market value of such shares, in accordance with their average rating at Bovespa.

In light of the high rates of liquidity and dispersion presented by the preferred shares issued by CVRD and by Caemi, both listed in the Ibovespa Index, in which such shares hold, respectively, the third and the sixth places among the most negotiated shares at Bovespa, according to the theoretical portfolio of such index for the period from January to April 2006, the Companies understand that the substitution rate of the preferred shares issued by Caemi to be merged to the shareholder's equity of CVRD with new shares issued by CVRD, must be set up based on their respective market values, as established by Article 11 of CVM Instruction 319/99. This criteria is, in accordance with the opinion of the Companies, what ensures equal treatment to their shareholders, due to the fact that it reflects the value attributed by the market to the shares of the Merging Company and of the Merged Company.

The Companies understand that the closing average of the 90 (ninety) days that preceded the first press release related to the Merger of Shares, which presents an adequate sample of the current market value of such shares and, at the same time, eliminates eventual distortion caused by the volatility and special conditions of the market. Therefore, were considered the closing rates for the trading sessions during the period from October 26, 2005 to January 23, 2006, including this date, being obtained the average

rate of R\$ 85.61640 for Class A preferred share issued by CVRD and R\$3.52311 for the preferred share issued by Caemi, respectively, as indicated in Exhibit II of the Protocol.

As result of the abovementioned, the substitution rate to be adopted upon the Merger of Shares shall be as follows: each preferred share issued by Caemi to be merged will entitle its holder to receive 0.04115 Class A preferred shares issued by CVRD.

**Shares Fraction**

The remaining fractions of Class A preferred shares issued by CVRD, shall be grouped in whole numbers, and then sold at an auction to be held at BOVESPA, according to the terms of the shareholders notice to be published after the Extraordinary General Shareholders Meeting of CVRD that approves the Merger of Shares.
