PART I  
FINANCIAL INFORMATION

Forward-Looking Information

Certain statements in this Form 10-QSB of Halo Technology Holdings, Inc. (the Company) may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (the Reform Act). These forward-looking statements are made only as of the date hereof, and we undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise. The safe harbors for forward-looking statements provided by the Reform Act are unavailable to issuers of penny stock. Our shares may be considered a penny stock and, as a result, the safe harbors may not be available to us. Such forward-looking statements include those relating to future opportunities, the outlook of customers, the reception of new products and technologies, and the success of new initiatives. In addition, such forward-looking statements involve known and unknown risks, uncertainties, and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results expressed or implied by such forward-looking statements. Such factors include: (i) demand for the Company's products; (ii) the actions of current and potential new competitors; (iii) changes in technology; (iv) the nature and amount of the Company's revenues and expenses; and (v) overall economic conditions and other risks detailed from time to time in the Company's periodic earnings releases and reports filed with the Securities and Exchange Commission (SEC) as well as the risks and uncertainties discussed in the Company's Annual Report on Form 10-KSB/A filed with the SEC on October 26, 2006.

**Table of Contents****Supplemental schedule of non-cash investing and financing activities:**

For the three months ended September 30, 2006 and 2005, the Company recorded \$254,674 and \$220,179, respectively, in connection with convertible preferred dividends.

On July 6, 2005 the Company purchased Kenosia Corporation ( Kenosia ) for an aggregate purchase price of \$1,800,000, subject to certain adjustments. Prior to the closing, \$800,000 of the Purchase Price was deposited into an escrow account, and subsequently released to the seller at the closing. The remainder of the Purchase Price was paid in two equal payments of \$500,000 each, in cash. The first payment \$447,175 (net of working capital adjustment) was made on September 1, 2005 and the second payment was made on January 31, 2006. The following table summarizes the purchase transaction:

Purchase price:	
Cash	\$ 1,247,175
Transaction costs	24,750
Note payable	500,000
Total purchase price	1,771,925
Less Fair Value of:	
Assets acquired	1,611,793
Liability assumed	386,024
Goodwill	\$ 546,156

On August 24, 2006, the Company acquired the stock of Tenebril, Inc.( Tenebril ). In connection with the acquisition of Tenebril, the Company issued a promissory note in the amount of \$3,000,000, which is convertible into the Company's common stock. The conversion price is 85% of the market price determined based on the date of the conversion. The Company recorded a total purchase price of \$3,639,412, which was calculated by dividing the principal amount of the note of \$3,000,000 by 85% and adding the \$110,000 of the Target Broker Promissory Note as a transaction cost (see Note 4). The following table summarizes the purchase transaction:

Purchase price:	
Convertible promissory notes	\$ 3,529,412
Transaction costs	110,000
Total purchase price	3,639,412
Fair Value of:	
Assets acquired	(1,572,551)
Liabilities assumed	1,372,339
Goodwill	\$ 3,439,200

On September 15, 2006, the Company acquired RevCast, Inc.( RevCast ). In connection with the acquisition of RevCast, the Company agreed to issue 350,000 shares of common stock to the sellers. The total purchase price recorded was \$248,500 based on the Company's common stock average price of 2 days prior to and 2 days after the acquisition date. (see Note 5). The following table summarizes the purchase transaction:

Purchase price:	
Common stock to be issued	\$ 248,500
Total purchase price	248,500
Fair Value of:	
Assets acquired	(500)

Liabilities assumed		12,715
Goodwill	See accompanying notes to consolidated financial statements.	\$ 260,715

**Table of Contents**

**Halo Technology Holdings, Inc.**

**Notes to Consolidated Financial Statements**

**Note 1. Organization, Merger, Description of Business and Basis of Presentation**

Halo Technology Holdings, Inc. (collectively with its subsidiaries, the Company or Halo ) is a Nevada corporation with its principal executive office in Greenwich, Connecticut. The Company changed its name to Halo Technology Holdings, Inc. from Warp Technology Holdings, Inc, effective April 2, 2006. As a consequence of the name change, the Company's ticker symbol quoted on the OTC Bulletin Board changed from WARP to HALO. The new symbol has been effective since the open of business on Monday, April 3, 2006.

The Company is a holding company whose subsidiaries operate enterprise software and information technology businesses. In addition to holding its existing subsidiaries, the Company's strategy is to pursue acquisitions of businesses which either complement the Company's existing businesses or expand the industries in which the Company operates.

On January 31, 2005, the Company completed the acquisition of Gupta Technologies, LLC (together with its subsidiaries, Gupta ). Gupta is now a wholly owned subsidiary of the Company, and Gupta's wholly owned subsidiaries, Gupta Technologies GmbH, a German corporation, and Gupta Technologies Ltd., a U.K. company, have become indirect subsidiaries of the Company.

Gupta develops, markets and supports software products that enable software programmers to create enterprise class applications, operating on either the Microsoft Windows or Linux operating systems that are used in large and small businesses and governmental entities around the world. Gupta's products include a popular database application and a well-known set of application development tools. The relational database product allows companies to manage data closer to the customer, where capturing and organizing information is becoming increasingly critical. This product is designed for applications being deployed in situations where there are little or no technical resources to support and administer databases or applications. Gupta recently released its Linux product line. Compatible with its existing Microsoft Windows-based product line, the Linux line of products will enable developers to write one application to run in both Microsoft Windows and Linux operating systems. Gupta has headquarters in California, and has a regional office in Munich and sales offices in London and Paris.

On September 13, 2006, the Company entered into a Purchase and Exchange Agreement with Unify Corporation whereby the Company agreed to sell Gupta to Unify in exchange for (i) Unify's risk management software and solution business as conducted by Unify through its Acuitrek, Inc. subsidiary ( Acuitrek ) and its Insurance Risk Management division, including, without limitation, the Acuitrek business and the NavRisk product (the NavRisk Business ), (ii) Unify's ViaMode software product and related intellectual property rights (the ViaMode Product ), (iii) 5,000,000 shares of Unify common stock, (iv) warrants to acquire 750,000 shares of Unify stock, (v) \$5,000,000 in cash, of which Halo has received \$500,000 as a deposit (the Deposit ), and (vi) the amount by which the Gupta Net Working Capital exceeds the NavRisk Net Working Capital (as such terms are defined in the Unify Purchase Agreement, the Working Capital Adjustment ). The sale of Gupta is expected to close in the second quarter of fiscal 2007.

Warp Solutions, Inc. a wholly owned subsidiary of the Company, produces a series of application acceleration products that improve the speed and efficiency of transactions and information requests that are processed over the internet and intranet network systems. The subsidiary's suite of software products and technologies are designed to accelerate network applications, reduce network congestion, and reduce the cost of expensive server deployments for enterprises engaged in high volume network activities.

On July 6, 2005 the Company purchased Kenosia Corporation ( Kenosia ). Kenosia is a software company whose products include its DataAlchemy product line. DataAlchemy is a sales and marketing analytics platform that is utilized by global companies to drive retail sales and profits through timely and effective analysis of transactional data. Kenosia's installed customers span a wide range of industries, including consumer packaged goods, entertainment, pharmaceutical, automotive, spirits, wine and beer, brokers and retailers.

On October 26, 2005, the Company completed the acquisition of Tesseract and four other software companies, DAVID Corporation, Process Software, ProfitKey International, and Foresight Software, Inc. (collectively Process and Affiliates ).

Tesseract, headquartered in San Francisco, is a total Human Resource ( HR ) solutions provider offering an integrated Web-enabled Human Resources Management Solutions ( HRMS ) suite. Tesseract s Web-based solution suite allows HR users, employees and external service providers to communicate securely and electronically in real time. The integrated nature of the system allows for

## **Table of Contents**

easy access to data and a higher level of accuracy for internal reporting, assessment and external data interface. Tesseract's customer base includes corporations operating in a diverse range of industries, including financial services, transportation, utilities, insurance, manufacturing, petroleum, retail, and pharmaceuticals.

DAVID Corporation is a pioneer in Risk Management Information Systems. DAVID Corporation offers client/server-based products to companies that provide their own workers' compensation and liability insurance. Many of DAVID Corporation's clients have been using its products for 10 years or longer.

Process Software develops infrastructure software solutions for mission-critical environments, including industry-leading TCP/IP stacks, an Internet messaging product suite, and an anti-spam software subscription service to large enterprises worldwide. With a loyal customer base of over 5,000 organizations, including Global 2000 and Fortune 1000 companies.

ProfitKey International ( Profitkey ) develops and markets integrated manufacturing software and information control systems for make-to-order and make-to-stock manufacturers. ProfitKey's offering includes a suite of e-business solutions that includes customer, supplier and sales portals. ProfitKey's highly integrated system emphasizes online scheduling, capacity management, and cost management.

On January 13, 2006, the Company acquired Empagio, Inc. ( Empagio ). Empagio delivers innovative on-demand human resources information systems through its SymphonyHR platform. SymphonyHR empowers both large and mid-sized organizations to deliver unparalleled HR services to their employees, while decreasing administrative burden. Featuring 100% on-shore service delivery and native web architecture, SymphonyHR is one of the most comprehensive, dependable, and affordable human resources solutions available for automating HR procedures and reducing paperwork, ranging from payroll to benefits administration.

On March 1, 2006, the Company acquired Executive Consultants, Inc ( ECI ). ECI is an HR professional services firm providing implementation and consulting services for HR, payroll and payroll systems.

Tesseract and ECI have subsequently been merged into Empagio. The combination of the subsidiaries will operate in the HRMS industry, boasting an impressive roster of Fortune 1000 enterprise customers and more than two million customer employees benefited from Empagio's solutions. The merged company will be called Empagio and will be headquartered in Atlanta, Georgia.

On August 24, 2006, the Company purchased Tenebril. Tenebril is a Boston-based software company providing award-winning Internet and spyware protection to consumers and organizations. Tenebril's SpyCatcher(TM) Enterprise is the first and only spyware solution that protects enterprise computers from the most insidious category of evasive threats - hyper-mutating and custom-coded spyware. Tenebril's patent-pending Spyware Profiling Engine(TM) differentiates SpyCatcher from its competitors by providing continuous protection that defeats these newly emerging threats.

On September 15, 2006 the Company acquired an Illinois-based software company, RevCast. RevCast provides forecasting and replenishment solutions to some of the largest manufacturers in the world. RevCast's flagship product, Integrated Merchandising Solution (IMS), is being used today by several manufacturers that work with Wal-Mart and other major retailers, which share direct POS information.

### **Basis of Presentation**

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB and Article 10 of Regulation S-X . Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended September 30, 2006 are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2007. For further information, refer to the financial statements and footnotes thereto included in the Company's Annual Report on Form 10-KSB/A for the year ended June 30, 2006 filed with the SEC on October 26, 2006.

**Table of Contents**

**Going Concern**

The Company has incurred recurring operating losses since its inception, as of September 30, 2006, had an accumulated deficit of \$97,966,309, and, at September 30, 2006, had insufficient working capital to fund all of its obligations. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments to reflect the possible future effect of the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the outcome of this uncertainty.

The Company's continuation as a going concern is dependant upon receiving additional financing. Given the Company's current cash position, and its expectations of cash flows from operations, the Company anticipates requiring additional working capital of approximately \$4 to \$6 million for the year ending June 30, 2007, of which we have received \$1.5 million in a transaction completed October 12, 2006, see Subsequent Events Subordinated Debt Financing. The Company expects to pursue equity or debt financing in order to meet these capital needs. There can be no assurance that the Company will be successful in such efforts. In the absence of such further financing, the Company will either be unable to meet its debt obligations or will have to significantly restructure its operations, or a combination of these two actions. Such actions would significantly negatively affect the value of Halo's common stock.

**Table of Contents****Note 2. Summary of Significant Accounting Policies****Reclassification.**

As a result of the agreement to sell the Gupta's business (see Note 7), certain reclassifications have been made to the prior year financial statements to conform to the current year presentation. Gupta's assets and liabilities are shown as Assets held for sale and liabilities of discontinued operations, respectively, on the Company's Consolidated Balance Sheet. Similarly, Gupta's results of operations are shown as income (loss) from discontinued operations on the Consolidated Statements of Operations.

**Segment**

The Company has reviewed the provisions of SFAS 131, Disclosures about Segments of an Enterprise and Related Information with respect to the criteria necessary to evaluate the number of operating segments that exist, based on its review the Company has determined that it operates in one segment.

**Income (Loss) Per Share**

Basic and diluted net income (loss) per share information for all periods is presented under the requirements of SFAS No. 128, Earnings Per Share. Basic income (loss) per share is calculated by dividing the net income (loss) attributable to common stockholders by the weighted-average common shares outstanding during the period. Diluted income (loss) per share is calculated by dividing net loss attributable to common stockholders by the weighted-average common shares outstanding.

The Company computed its basic and diluted net income (loss) per common share as follows:

	<b>Three Months Ended September 30,</b>	
	<b>2006</b>	<b>2005</b>
Net (loss) income	\$ (3,106,314)	\$ 20,389,641
Preferred stock dividends on convertible stock	(254,674)	(220,179)
Net (loss) income attributable to common stockholders for basic net (loss) income per share	\$ (3,360,988)	\$ 20,169,462
Add back preferred stock dividends on convertible stock	254,674	220,179
Add back interest expense on convertible debt		1,389
Net (loss) income attributable to common stockholders for diluted net (loss) income per share	\$ (3,106,314)	\$ 20,391,030
Weighted average common shares outstanding for basic net (loss) income per share	29,403,325	3,209,597
Impact of dilutive stock options		9,969
Impact of dilutive warrants		5,749,454
Impact of assumed convertible debt conversion		43,479
Impact of assumed convertible preferred stock conversion		13,936,644
Total shares for diluted net income per common share	29,403,325	22,949,143
Basic net (loss) income per common share	\$ (0.11)	\$ 6.28
Diluted net (loss) income per common share	\$ (0.11)	\$ 0.89

The dilutive effect of preferred stock, warrants and options convertible into an aggregate of approximately 25,711,324 for the three months ended September 30, 2006 are not included as the inclusion of such would be anti-dilutive.

For the three months ended September 30, 2005, warrants to purchase 169,576 common shares and stock options to purchase 628,453 common shares were not included in the diluted earnings per share computation as the exercise prices were above the average market price.

**Table of Contents****Stock-Based Compensation**

Prior to January 1, 2006, the Company used the intrinsic value method to account for stock-based compensation in accordance with Accounting Principles Board Opinion No. 25 ( ABP 25 ), Accounting for Stock Issued to Employees, and had adopted the disclosure-only provisions of SFAS No 123, Accounting for Stock-Based Compensation, as amended by SFAS No 148, Accounting for Stock-Based Compensation-Transition and Disclosure.

Effective January 1, 2006, the Company adopted the fair value recognition provisions of SFAS 123(R) (revised 2004), Share-Based Payment ( SFAS 123(R) ) which eliminates the use of APB 25 and the intrinsic value method of accounting, and requires entities to recognize the cost of employee services received in exchange for awards of equity instruments, based on the grant-date fair value of those awards, in the financial statements. The Company has adopted the modified prospective method whereby compensation cost is recognized in the financial statements beginning with the effective date based on the requirements of SFAS 123(R) for all share-based payments granted after that date and for all unvested awards granted prior to that date. Accordingly the prior period amounts have not been restated.

The Company's net income would have been decreased for the three months ended September 30, 2005 had compensation costs for the Company's stock option grants been determined based on the fair value at the date of the grant dates for awards under these plans in accordance with SFAS 123(R). The proforma amounts have been as follows:

	<b>Three Months Ended September 30,</b>	
	<b>2006</b>	<b>2005</b>
Net (loss) income, as reported	\$ (3,106,314)	\$ 20,389,641
Add: Stock-based employee compensation expense included in reported net (loss) income	334,012	47,500
Deduct: Stock-based employee compensation expense determined under fair value method for all awards	(334,012)	(383,778)
Net (loss) income, pro forma	(3,106,314)	20,053,363
Preferred dividends	(254,674)	(220,179)
Net (loss) income attributable to common stockholders pro forma	(3,360,988)	19,833,184
Basic net (loss) income per share, as reported	\$ (0.11)	\$ 6.28
Diluted net (loss) income per share, as reported	\$ (0.11)	\$ 0.89
Basic net (loss) income per share, pro forma	\$ (0.11)	\$ 6.18
Diluted net (loss) income per share, pro forma	\$ (0.11)	\$ 0.87

The fair value for these options was estimated at the date of grant using the Black-Scholes option-pricing model. Option pricing models require the input of highly subjective assumptions. Because the Company's employee stock has characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its employee stock options.

The company used the following weighted-average assumptions in the three months ended September 30, 2006 and 2005:

<b>Three Months Ended September 30, 2006</b>	<b>Three Months Ended September 30, 2005</b>
--	--

Edgar Filing: Halo Technology Holdings, Inc. - Form 10QSB

Expected volatility	161.15%	156.41%
Expected dividend yield	%	%
Expected risk-free interest rate	4.10%	4.10%
Expected term of options	3.8 years	8.4 years
Maximum contractual term	7 years	8.4 years
Range of estimated forfeitures	%	%

15

---

**Table of Contents**

SFAS 123(R) also requires allocating the stock compensation expense to functions of employees who received these options. Below are the stock compensation expenses included in each line of Consolidated Statements of Operations:

	<b>Three Months Ended September 30, 2006</b>
Sales, marketing, and business development	\$ 40,429
General and administrative	293,583
<b>Total stock-based compensation expense</b>	<b>\$ 334,012</b>

**Recent Accounting Pronouncements**

In December 2004, the FASB issued SFAS No. 123(R), *Share-Based Payment*, which establishes standards for transactions in which an entity exchanges its equity instruments for goods or services. This standard requires an entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. This eliminates the exception to account for such awards using the intrinsic method previously allowable under APB Opinion No. 25. For the Company, SFAS No. 123 (R) is effective as of January 1, 2006. The Company did not apply this method to prior periods. The impact on this new standard, if it had been in effect prior to January 1, 2006 is disclosed above in Note 2 *Summary of Significant Accounting Policies* *Stock Based Compensation*.

On March 29, 2005, the Staff of the Securities and Exchange Commission (SEC or the Staff) issued Staff Accounting Bulletin No. 107, *Share-Based Payment (SAB 107)*. Although not altering any conclusions reached in SFAS 123(R), SAB 107 provides the views of the Staff regarding the interaction between SFAS 123(R) and certain SEC rules and regulations and, among other things, provide the Staff's views regarding the valuation of share-based payment arrangements for public companies. The Company followed the interpretative guidance on share-based payment set forth in SAB 107.

In May 2005, the FASB issued SFAS 154, *Accounting Changes and Error Corrections*, that applies to all voluntary changes in accounting principle. This statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. When it is impracticable to determine the period-specific effects of an accounting change on one or more individual prior periods presented, this statement requires that the new accounting principle be applied to the balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable and that a corresponding adjustment be made to the opening balance of retained earnings (or other appropriate components of equity or net assets in the statement of financial position) for that period rather than being reported in an income statement. When it is impracticable to determine the cumulative effect of applying a change in accounting principle to all prior periods, this statement requires that the new accounting principle be applied as if it were adopted prospectively from the earliest date practicable. SFAS 154 will be effective for us for the fiscal year ended June 30, 2007. We do not anticipate that the adoption of SFAS No. 154 will have an impact on our overall results of operations or financial position.

In February 2006, the FASB issued SFAS 155, *Accounting for Certain Hybrid Financial Instruments* an amendment of FASB Statements No. 133 and 140, that allows a preparer to elect fair value measurement at acquisition, at issuance, or when a previously recognized financial instrument is subject to a remeasurement (new basis) event, on an instrument-by-instrument basis, in cases in which a derivative would otherwise have to be bifurcated. It also eliminates the exemption from applying Statement 133 to interests in securitized financial assets so that similar instruments are accounted for similarly regardless of the form of the instruments. This Statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company does not anticipate that the adoption of SFAS No. 155 will have an impact on the Company's overall results of operations or financial position.

In March 2006, the FASB issued SFAS 156, *Accounting for Servicing of Financial Assets* an amendment of FASB Statement No. 140, that applies to the accounting for separately recognized servicing assets and servicing liabilities. This Statement requires that all separately recognized servicing assets and servicing liabilities be initially measured at fair value, if practicable. An entity should adopt this Statement as of the beginning of its first fiscal year that begins after September 15, 2006. The Company does not anticipate that the adoption of SFAS No. 156 will have an impact on the Company's overall results of operations or financial position.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measures* ( SFAS 157 ). SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This statement applies

**Table of Contents**

under other accounting pronouncements that require or permit fair value measurements. However, it does not apply to SFAS 123(R). This statement shall be effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier application is encouraged, provided that the reporting entity has not yet issued financial statements for that fiscal year, including any financial statements for an interim period within that fiscal year. The provisions of this statement should be applied prospectively as of the beginning of the fiscal year in which this Statement is initially applied, except in some circumstances where the statement shall be applied retrospectively. The Company is currently evaluating the effect, if any, of SFAS 157 on its financial statements.

**Note 3. Stockholders Equity*****Common and Preferred Stock***

On July 21, 2006, the Company issued an aggregate of 2,732,392 shares of its common stock in conversion of (1) an aggregate of \$1,850,000 of convertible promissory notes previously issued by the Company in September 2005, October 2005, and January 2006 (and \$126,041.67 of interest on such amount) as described in the Company's Current Report on Form 8-K filed January 18, 2006, and (2) an aggregate of \$1,375,000 of convertible promissory notes previously issued by the Company in January 2006 (and \$64,444.44 of interest on such amount) as described in the Company's Current Report on Form 8-K filed February 2, 2006. The conversion price was \$1.25. Because there was a difference between the conversion price and the fair market value of the converted securities, the Company recognized \$1,522,310 of interest expense for the three months ended September 30, 2006 as a beneficial conversion related to these issuances.

On July 28, 2006, the Company issued an aggregate of 133,075 shares of its common stock for advisory fees and finders fees related to the raising of capital the Company has received in the past. The conversion price was \$1.25. Because there was a difference between the conversion price and the fair market value of the converted securities, the Company recognized \$28,779 of interest expense for the three months ended September 30, 2006 as a beneficial conversion related to these issuances.

On August 10, 2006, the Company issued an aggregate of 496,000 shares of Common Stock for one year of general financial advisory services commencing on the date. The Company recorded \$342,240 for this issuance as a prepaid expense, which will be amortized over the term of the service. For the three months ended September 30, 2006, \$47,533 was amortized and charged to expense.

On August 22 and September 14, 2006, an aggregate of 155,000 shares of the Company's Common Stock were issued for general consulting services performed. The Company recorded \$82,300 for this issuance as an expense.

Effective May 15, 2006, the holders of a majority of the warrants issued to holders of Series C Stock (Series C Warrants) pursuant to the Subscription Agreement, dated January 31, 2005, have agreed to amend and exercise their warrants under the cashless exercise provision contained in Section 1(c) of the Warrants, resulting in a net issuance of shares of Common Stock representing 50% of the shares these stockholders would be entitled to under the Warrants. During the three months ended September 30, 2006, the holders of 182,494 warrants exercised this right and received 91,247 shares of Common Stock under the net exercise provision (for additional information, see under Warrants below). No additional beneficial conversion was recorded as part of the reduction of the conversion price as all the proceeds were originally allocated to the warrants.

During the three months ended September 30, 2006, the Company issued 75,664 shares of Common Stock to pay \$62,500 of interest on its Subordinated Notes, which covers the interest period of May 1, 2006 to July 31, 2006.

***Stock Options***

At the Annual Meeting of Stockholders of the Company held on October 21, 2005, the stockholders of the Company approved the Halo Technology Holdings 2005 Equity Incentive Plan (the 2005 Plan). Subject to adjustment for stock splits and similar events, the total number of shares of common stock that can be delivered under the 2005 Plan is 8,400,000 shares. No employee may receive options, stock appreciation rights, shares or dividend equivalent rights for more than four million shares during any calendar year.

As of September 30, 2006, the employees and directors of the Company holds an aggregate of 3,643,500 options outstanding under the 2005 Plan. For the three months ended September 30, 2006, the Company recognized \$216,018 in compensation expense related to these options. There were also 570,077 options outstanding from previous plans.

For the three months ended September 30, 2006, the Company recognized \$117,994 in compensation expense related to these previous plan options.

**Table of Contents**

There was no issuance of stock options during the three months ended September 30, 2006.

**Warrants**

In connection with the July 21, 2006 debt conversion into 2,732,392 shares of common stock described in Common Stock, the investors also received warrants to acquire an aggregate of 2,049,296 shares of common stock of the Company. The warrants have an exercise price of \$1.25 per share and are exercisable over a five-year term, and include a cashless exercise feature. Of the total \$3,415,486 proceeds and accrued interest of the original debt, \$1,151,052 was allocated to these warrants. The Company recognized this amount on the conversion, and expensed it as interest expense in the three months ended September 30, 2006.

In connection with the July 28, 2006 issuance of 133,075 shares of common stocks described in Common Stock, the Company issued warrants to acquire an aggregate of 99,807 shares of common stock of the Company. The warrants have an exercise price of \$1.25 per share and are exercisable over a five-year term, and include a cashless exercise feature. Of the total \$166,343 proceeds and accrued interest of the original debt, \$68,689 was allocated to these warrants. The Company recognized this amount on the conversion, and expensed it as interest expense in the three months ended September 30, 2006.

In accordance with EITF 00-19 Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock, the Company treats warrants with a cashless exercise feature as a derivative. In addition to recognizing the value of the warrants by discounting the related debt and amortizing the discount to interest expense over the life of the debt, the value of the warrants are recognized as liabilities and revalued at the end of each period. The Company grouped series of warrants that are treated as derivative into three categories: 1) warrants to acquire common stock issued in connection with the Series C preferred stock issued by the Company between March and June 2005, 2) warrants issued in connection with senior and subordinated debt issued by the Company in January 2005, and 3) other warrants issued to Fortress and others in various time periods, including the warrants issued in the three months ended September 30, 2006. The following is the summary of the outstanding warrants in each category as of and for the period ended September 30, 2006:

	Liability as of September 30, 2006	(Gain) Loss on Warrants Liability Three Months Ended September 30, 2006	Interest Expense Three Months Ended September 30, 2006
Series C warrants	\$ 2,188,244	\$ (1,459,476)	\$
Senior and Sub warrants	804,289	(529,653)	312,501
Other warrants	3,160,878	(679,212)	1,492,021
Total	\$ 6,153,411	\$ (2,668,341)	\$ 1,804,522

**Note 4. Acquisition of Tenebril, Inc**

On August 24, 2006, the Company completed a purchase of Tenebril, Inc. (Tenebril), a privately held Boston based software company providing award-winning Internet and spyware protection to consumers and organizations. The company's SpyCatcher(TM) Enterprise protects enterprise computers from the most insidious category of evasive threats hyper-mutating and custom-coded spyware. Tenebril's patent-pending Spyware Profiling Engine(TM) differentiates SpyCatcher from its competitors by providing continuous protection that defeats these newly emerging threats.

Under the terms of the purchase agreement, Tenebril shall be merged with and into the Merger Sub (the Merger) with Tenebril surviving as a wholly-owned subsidiary of the Company. At the effective time of the Merger, the shares of Target Capital Stock issued and outstanding immediately prior to the effective time were converted into promissory notes issued by the Company (each, a Promissory Note and collectively, the Promissory Notes). The aggregate original principal amount of all Promissory Notes issued by Company was \$3,000,000.

The Promissory Notes are due February 15, 2007, and accrue interest at a rate equal to eight and one-quarter percent (8.25%) per annum. At the Company option, the Company may convert some or all of the amount due under the Promissory Notes into shares of

**Table of Contents**

Common Stock of the Company. The number of shares issued upon conversion will be the total amount being converted divided by the Conversion Price then in effect. The Conversion Price is 85% of the Market Price as defined in the Promissory Notes.

At the Closing, the Company also delivered to a certain broker a promissory note (the Target Broker Promissory Note). The Target Broker Promissory Note was in the original principal amount of \$110,000, plus applicable interest, and is due on February 15, 2007.

The Company recorded a total purchase price of \$3,639,412, which is calculated by dividing the principal amount of the notes of \$3,000,000 by 85% and adding the \$110,000 of the Target Broker Promissory Note as a transaction cost.

The purchase of Tenebril resulted in approximately \$3,439,000 of goodwill. The Company agreed to a transaction that resulted in a significant amount of goodwill for a number of reasons including: Tenebril's market position and brand; Tenebril's business model which complements the business models of certain of the Company's other businesses; and growth opportunities in the markets in which Tenebril operates. Tenebril was acquired with the plan of merging Tenebril into Process Software, Inc, one of the Company's existing subsidiaries, with complementary products and services. The predominant portion of the consideration paid for Tenebril was based on the expected financial performance of Tenebril and the combined business after the merger. The tax deductibility of the acquired goodwill is to be determined.

The preliminary purchase price allocation, which is subject to adjustment, is as follows:

Cash	\$ 622,683
Accounts receivable	325,289
Prepays and other assets	165,964
Property and equipment	218,615
Intangibles	240,000
Goodwill	3,439,200
Accounts payable and accrued expenses	(912,737)
Deferred revenue	(402,780)
Long-term liabilities	(56,822)
	<b>\$ 3,639,412</b>

The Company's results include operations of Tenebril since August 25, 2006.

**Note 5. Acquisition of RevCast, Inc.**

On September 15, 2006, the Company acquired RevCast, Inc., ( RevCast ). RevCast provides forecasting and replenishment solutions to some of the largest manufacturers in the world. RevCast's flagship product, Integrated Merchandising Solution (IMS), is being used today by several manufacturers that work with Wal-Mart and other major retailers, which share direct POS information.

The purchase consideration was 350,000 shares of the Halo's common stock, as well as the royalty payments, if and when due under the purchase agreement. The common stock shares were issued in October 2006. The royalty payments are defined in the purchase agreement as twenty percent (20%) of revenues generated by the assets of the acquired company. The royalty payments will be paid in cash quarterly. The maximum royalty payment will be \$400,000.

The total purchase price recorded was \$248,500 based on the Company's common stock average price of 2 days prior to and 2 days after the acquisition date. The royalty payments will be added to the purchase price as they are incurred.

The purchase of RevCast resulted in approximately \$261,000 of goodwill. The Company agreed to this transaction which resulted in a significant amount of goodwill for a number of reasons including: RevCast's market position and brand; RevCast's business model which complements the business models of certain of the Company's other businesses; and growth opportunities in the markets in which RevCast operates. RevCast was acquired with the plan

of merging RevCast into the Company's Kenosia subsidiary since the businesses are related. The predominant portion of the consideration paid for RevCast was based on the expected financial performance of RevCast and the combined business after the merger. The tax deductibility of the acquired goodwill is to be determined.

The preliminary purchase price allocation, which is subject to adjustment, is as follows:

Cash and cash equivalents	\$ 500
Goodwill	260,715
Accounts payable and accrued expenses	(12,715)
	\$ 248,500

The Company's results include operations of RevCast since September 16, 2006.

**Table of Contents****Note 6. Unaudited Pro Forma Financial Information**

The following unaudited pro forma financial information includes David, Profitkey, Process, Empagio, Tenebril, and RevCast. The pro forma consolidated operations of the Company for the three months ended September 30, 2006 and September 30, 2005 assume that the acquisitions had occurred as of July 1, 2006 and July 1, 2005, respectively. This financial information is provided for informational purposes only and should not be construed to be indicative of the Company's consolidated results of operations had the acquisitions of David, ProfitKey, Process, Empagio, Tenebril, and RevCast been consummated on the dates assumed and does not project the Company's results of operations for any future period:

	<b>Three Months Ended</b>	
	<b>September 30,</b>	
	<b>2006</b>	<b>2005</b>
Revenue	\$ 6,861,474	\$ 8,300,161
Net (loss) income (1)	(2,997,587)	19,213,606
Preferred dividends	(254,674)	(220,179)
(Loss) income attributable to common stockholders	\$ (3,252,261)	\$ 18,993,427
(Loss) income per share basic	\$ (0.11)	\$ 3.56
(Loss) income per share diluted	\$ (0.11)	\$ 0.77
Weighted-average number of common shares basic	29,753,325	5,328,740
Weighted-average number of common shares diluted	29,753,325	25,068,286

(1) Net (loss) income includes fair value gains on warrants of \$2,668,341 and \$23,806,784 for the three months ended September 30, 2006 and 2005, respectively.

**Note 7. Purchase and Exchange Agreement with Unify and Discontinued Operations**

On September 13, 2006, Halo and Unify Corporation ( Unify ) entered into a Purchase and Exchange Agreement (the Unify Purchase Agreement ). Under the Unify Purchase Agreement, Halo agreed to sell its subsidiary, Gupta Technologies, LLC, to Unify in exchange for (i) Unify's risk management software and solution business as conducted by Unify through its Acuitrek, Inc. subsidiary ( Acuitrek ) and its Insurance Risk Management division, including, without limitation, the Acuitrek business and the NavRisk product (the NavRisk Business ), (ii) Unify's ViaMode software product and related intellectual property rights (the ViaMode Product ), (iii) 5,000,000 shares of Unify common stock, (iv) warrants to acquire 750,000 shares of Unify stock, (v) \$5,000,000 in cash, of which Halo has received \$500,000 as a deposit (the Deposit ), and (vi) the amount by which the Gupta Net Working Capital exceeds the NavRisk Net Working Capital (as such terms are defined in the Unify Purchase Agreement, the Working Capital Adjustment ).

The Unify Purchase Agreement includes customary representations and warranties concerning the parties to the agreement and the assets and liabilities of the businesses being exchanged. The Unify Purchase Agreement also includes covenants governing, among other things, the operations of these businesses in the ordinary course of business prior to the closing.

Consummation of the transactions is subject to several closing conditions, including, among others, that neither of the businesses being exchanged shall have suffered a material adverse change, and that Unify has received financing in an amount sufficient, together with any available funds from Unify's working capital, to enable Unify to pay the remaining portion of the Cash Purchase Price to Halo at the Closing. In addition, it is a condition to the Closing that Halo shall have received all consents required from its secured lenders.

The Unify Purchase Agreement contains indemnity terms which provide that each party shall indemnify the other party for breaches of representations and warranties and covenants made under the agreement, provided that neither party shall be required to pay any damages unless the aggregate amount of all damages exceeds certain limits contained in the Unify Purchase Agreement and provided further that neither party shall be liable for damages in excess of certain limits contained in the Unify Purchase Agreement.

The Unify Purchase Agreement may be terminated if the transactions do not close on or before December 29, 2006, for failure to meet closing conditions, and for other reasons set forth in the agreement. In the event of termination, the Deposit may be converted

**Table of Contents**

into equity securities of Halo (shares and warrants, if applicable), retained by Halo, or refunded by Halo depending on the reason for termination.

Pursuant to Statement of Financial Accounting Standards No. 144 Accounting for the Impairment or Disposal of Long-Lived Assets ( SFAS 144 ), Gupta's assets and liabilities are shown as Assets held for sale and liabilities of discontinued operations, respectively, on the Company's Consolidated Balance Sheet as of September 30, 2006 and June 30, 2006. Similarly, Gupta's results of operations are shown as income (loss) from discontinued operations on the Consolidated Statements of Operations.

Assets and liabilities of the discontinued operations are comprised of the following:

	<b>September 30, 2006</b>	<b>June 30, 2006</b>
<b>Assets held for sale:</b>		
Accounts receivable	\$ 1,544,061	\$ 2,033,096
Property and equipment, net	101,439	112,882
Intangible assets, net	13,491,193	13,864,183
Goodwill	1,855,264	1,855,264
Other assets	446,720	447,743
 Total assets held for sale	 \$ 17,438,677	 \$ 18,313,168
 <b>Liabilities of discontinued operations</b>		
Accounts payable	\$ 835,014	\$ 646,122
Accrued expenses	767,494	819,239
Deferred revenue	3,687,131	4,435,131
Other liabilities	43,816	44,735
 Total liabilities	 \$ 5,333,455	 \$ 5,945,227

Condensed financial information related to these discontinued operations is as follows:

	<b>Three Months Ended September 30,</b>	
	<b>2006</b>	<b>2005</b>
Total revenues	\$ 2,728,866	\$ 2,920,551
Income (loss) before taxes	157,137	(631,603)
Income taxes	30,534	50,945
 Net income (loss) from discontinued operations	 \$ 126,603	 \$ (682,548)

**Note 8. Credit Agreement**

On August 2, 2005, the Company entered a Credit Agreement (the Credit Agreement ), with Fortress Credit Corp. as original lender (together with any additional lenders, the Lenders ), and Fortress Credit Corp. as Agent (the Agent ). In addition, the Company entered into a \$10,000,000 Promissory Note (the Note ) with the Lenders, an Intercreditor Agreement with the Lenders, the Agent and certain subordinated lenders (the Intercreditor Agreement ), a security agreement with the Agent (the Security Agreement ), Pledge Agreements with the Lender (the Pledge Agreements ), and a Warrant Agreement with the Agent (the Warrant Agreement ).

Collectively the Credit Agreement, such other agreements and the subsidiary security agreements referenced below are referred to as the Financing Documents .

**Table of Contents**

The Credit Agreement and the other Financing Documents have the following material terms:

Subject to the terms and conditions of the Credit Agreement, the Lenders agreed to make available to the Company a term loan facility in three Tranches, Tranches A, B and C, in an aggregate amount equal to \$50,000,000.

The maximum amount of loans under Tranche A of the credit facility is \$10,000,000. The purpose of amounts borrowed under Tranche A is to refinance certain of the Company's existing debt and to pay certain costs and expenses incurred in connection with the closing under the Credit Agreement.

The maximum amount of loans under Tranche B of the credit facility is \$15,000,000. Amounts borrowed under Tranche B may be used only to partially fund the acquisition by the Company of one or more companies, the acquisition costs related thereto, and other costs and expenses incurred in connection with the Credit Agreement and to finance an agreed amount of working capital for the companies being acquired.

The maximum amount of loans under Tranche C of the credit facility is \$25,000,000. Amounts borrowed under Tranche C may be used only to partially fund the acquisition by the Company of one or more publicly-traded companies, the acquisition costs related thereto, and other costs and expenses incurred in connection with the Credit Agreement and to finance an agreed amount of working capital for the companies being acquired.

The Company has borrowed \$10,000,000 under Tranche A of the credit facility to pay-off its existing senior indebtedness, in the aggregate principal amount of \$6,825,000, plus accrued interest thereon, as well as certain existing subordinated indebtedness, in the aggregate principal amount of \$1,500,000. In addition, amounts borrowed under this Tranche A were used to pay certain closing costs, including the Lender's legal fees, commitment fees, and other costs and expenses under the Credit Agreement amounting to \$1,083,872. In addition, the Company paid \$642,614 in consulting and other fees in connection with the credit facility and in connection with the Tranche B described below. These closing costs have been deferred, and will be amortized over 4 years. For the three months ended September 30, 2006, \$107,905 were amortized. The remaining balance of \$664,003 was used for working capital needs.

The obligation to repay the \$10,000,000 principal amount borrowed at the closing, along with interest as described below, is further evidenced by the Note.

Advances under Tranche B and Tranche C must be approved by the Lenders, and are subject to the satisfaction of all conditions precedent required by the Lenders including the condition that a default not occur under the loans as a result of the advance.

The rate of interest (the **Interest Rate**) payable on the Loan for each calendar month (an **Interest Period**) is a floating percentage rate per annum equal to the sum of the **LIBOR** for that period plus the **Margin**. For these purposes, **LIBOR** means for any Interest Period the rate offered in the London interbank market for U.S. Dollar deposits for the relevant Interest Period; provided, however, that for purposes of calculating the Interest Rate, **LIBOR** shall at no time be less than a rate equal to 2.65%. For these purposes, **Margin** means 9% per annum. Interest is due and payable monthly in arrears.

Provided there has been no event of default under the Loan, an amount of interest equal to 4% per annum that would otherwise be paid in cash instead may be paid in kind (**PIK**) by such amount being added to the principal balance of the Loan on the last day of each month. Such **PIK** amount will then accrue interest and be due and payable on the same terms and conditions as the Loan. The Company may, at its option, elect to terminate the **PIK** interest arrangement and instead pay such amount in cash. As of September 30, 2006, the Company accrued and expensed \$1,051,399 in relation to the **PIK** interest.

If any sum due and payable under the credit facility is not paid on the due date therefore, the Company shall be liable to pay interest on such overdue amount at a rate equal to the then current Interest Rate plus 3% per annum.

**Table of Contents**

Principal amounts due under the Loans begin to be amortized on August 2, 2006, with the complete Loan to be repaid in full no later than the Maturity Date which is four years after the closing. The repayment due within one year is \$2,769,189 as of September 30, 2006. \$873,000 for the fair value of the warrants issued in connection of this loan will also be amortized within one year. Net of these two amounts, \$1,896,189, is classified under Current portion of senior notes payable on the Consolidated Balance Sheet. At September 30, 2006, maturities for the Credit Agreement are as follows:

Years ended June 30,	
2007 - remainder	\$ 1,936,000
2008	3,333,000
2009	3,333,000
2010	19,861,000
Total	\$ 28,463,000

A mandatory prepayment is required if, prior to the date which is 9 months after the Closing Date, (i) the Company has not borrowed under Tranche B, and (ii) the Company has not acquired (without the incurrence of any indebtedness) 100% of the equity interests of any new subsidiary which at the time of acquisition had a twelve month trailing EBITDA of greater than \$1,000,000. If prepayments are required due to this reason, the amount of the prepayment is 85% of the Excess Cash Flow which means, cash provided by operations by the Company and its subsidiaries determined quarterly less capital expenditures for such period, provided that the Company shall at all times be allowed to retain a minimum of \$1,500,000 of cash for operating purposes. In addition, the Company must prepay the loan in full no later than the date which is 21 months after the Closing Date.

The Credit Agreement contains certain financial covenants usual and customary for facilities and transactions of this type. These financial covenants include Total Debt to EBITDA, Cash Interest Coverage Ratio, and Fixed Charge Covenant Ratio as defined. In the event the Company completes further acquisitions, the Company and the Agent and lenders will agree upon modifications to the financial covenants to reflect the changes to the Company's consolidated assets, liabilities, and expected results of operations in amounts to be mutually agreed to by the parties. On October 12, 2006 Company entered into Amendment Agreement No. 2 ( Amendment Agreement No. 2 ) Pursuant to this Amendment Agreement No. 2, certain financial covenants were amended or replaced to reflect the changes to the Company's current consolidated assets, liabilities, and expected results of operations. The Company is in compliance with all covenants under the Credit Agreement, Amendment Agreement, and Amendment Agreement No. 2. The Company anticipates that due to recent transactions, certain of the covenants under the Credit Agreement may have to be further modified in the future in order for the Company to continue to comply for future periods. The Company has engaged in discussions with Fortress, and anticipates negotiating appropriate modifications to the covenants to reflect these changes in the Company's business as they occur. In the event the Company completes further acquisitions, the Company and the Lenders will be required to agree upon modifications to the financial covenants to reflect the changes to the Company's consolidated assets, liabilities, and expected results of operations in amounts to be mutually agreed to by the parties. If the Company were to fail to comply with the financial covenants under the Credit Agreement and the Lenders failed to agree to amend or waive compliance with the covenants that Halo did not meet, Halo would be in default under the Credit Agreement. Any default under the Credit Agreement would result in a default under most or all of Halo's other financing arrangements. The Lenders could foreclose on all of Halo's assets, including the stock in its subsidiaries, and could cause Halo to cease operating.

The Company's obligations are guaranteed by the direct and indirect subsidiaries of the Company, including, without limitation, Gupta Technologies, LLC, Kenosia Corporation, and Warp Solutions, Inc. The amendment agreements described below added TAC/Halo, LLC, Process Software, LLC, David Corporation, Profitkey International, LLC, Empagio, Inc, Tenebril, Inc, and RevCast, Inc to this guarantee.

The Company and its subsidiaries granted first priority security interests in their assets, and pledged the stock or equity interests in their respective subsidiaries, to the Agent as security for the financial obligations under the Credit Agreement and the Financing Documents. In addition, the Company has undertaken to complete certain matters, including the delivery of stock certificates in subsidiaries, and the completion of financing statements perfecting the security interests granted under the applicable state or foreign jurisdictions concerning the security interests and rights granted to the Lenders and the Agent.

**Table of Contents**

As additional security for the lenders making the loans under the Credit Agreement, certain subsidiaries of the Company have entered into Security Agreements with Fortress Credit Corp. relating to their assets in the U.K., and have pledged their interests in the subsidiaries organized under English law, Gupta Technologies Limited and Warp Solutions Limited, by entering into a Mortgages of Shares with Fortress. Also, the Company's subsidiary, Gupta Technologies, LLC ( Gupta ) and its German subsidiary, Gupta Technologies GmbH, have entered into a Security Trust Agreement with Fortress Credit Corp. granting a security interest in the assets of such entities located in Germany. Gupta has also pledged its interests in the German subsidiary under a Share Pledge Agreement with Fortress Credit Corp.

Under the Intercreditor Agreement, the holders of the Company's outstanding subordinated notes which were issued pursuant to that certain Subordinated Note and Warrant Purchase Agreement dated January 31, 2005, agreed to subordinate the payment terms and security interests of the subordinated notes to the payment terms and security interests of the senior lenders under the Credit Agreement.

Pursuant to the Warrant Agreement, the Company agreed to issue warrants to acquire up to an aggregate of 7% of the fully diluted stock of the Company (as of the date of the Warrant Agreement) if the Lenders make all the advances under the total commitments of the credit facility. All warrants will have an exercise price of \$0.01 per share. The exercise price and number of shares issuable upon exercise of each warrant are subject to adjustment as provided in the Warrant Agreement, including weighted average anti-dilution protection.

Warrants to acquire an aggregate of 5% of the fully diluted stock of the Company (2,109,042 shares of Common Stock, par value \$.00001 per share) are issuable upon the Company receiving advances under Tranche A or B of the credit facility ( Tranche A/B Available Shares ) in proportion to the amount of the advance compared with the total \$25,000,000 in commitments under Tranche A and B.

Since the Company borrowed \$10,000,000 under Tranche A at the closing, warrants to acquire 40% of the Available Tranche A/B Shares (843,617 shares of the Company's Common Stock) were issued at closing to the Lenders. The warrants have an exercise price of \$.01 per share, have a cashless exercise feature, and are exercisable until December 10, 2010. As further advances are made to the Company under Tranche B, the Company will issue additional warrants in proportion to the advances received. Additionally, if the unused total commitments attributable to Tranche A and Tranche B are cancelled in accordance with the Credit Agreement, warrants shall be used for the number of shares based on the Pro Rata Portion of the Total Commitments attributable to Tranche A or Tranche B which are cancelled. The proceeds from the Tranche A were allocated to the fair value of the warrants and Tranche A. Based on the fair market value, \$1,599,615 was allocated to the warrants and the remainder of \$8,400,385 was allocated to Tranche A. The fair value of the warrants was determined by utilizing Black-Scholes method. The discount to Tranche A will be amortized over 48 months. For the three months ended September 30, 2006, \$99,975 was amortized and charged to interest expense.

On October 26, 2005, in connection with the acquisition of Tesseract, Process and Affiliates, the Company entered into Amendment Agreement No. 1 ( Amendment Agreement ) between the Company, Fortress Credit Opportunities I LP ( Lender ) and Fortress Credit Corp., as Agent (the Agent ) relating to the Credit Agreement dated August 2, 2005 between the Company, Fortress Credit Corp., as original lender (together with any additional lenders, the Original Lenders ), and the Agent. Pursuant to this Amendment Agreement, the Lender made a loan of \$15,000,000 under Tranche B of the credit facility under the Credit Agreement. Additional information of this amendment is qualified in its entirety by reference to Amendment Agreement No. 1, which was previously filed as Exhibit 10.87 of the Current Report on Form 8-K filed by the Company with the Securities and Exchange Commission on November 1, 2005.

Since the Company borrowed \$15,000,000 under Tranche B on October 26, 2005, warrants to acquire 60% of the Available Tranche A/B Shares (1,265,425 shares of the Company's Common Stock) were issued to the Lenders. The warrants have an exercise price of \$.01 per share, have a cashless exercise feature, and are exercisable until December 10, 2010. Based on the fair market value, \$1,892,415 was allocated to the warrants and the remainder of \$13,107,585 was allocated to Tranche B. The fair value of the warrants was determined by utilizing Black-Scholes method. The discount to Tranche B will be amortized over 45 months. For the three months ended September 30, 2006, \$118,275 was amortized and charged to interest expense.

Warrants to acquire an aggregate of 2% of the fully diluted stock of the Company (843,617 shares of Common Stock) are issuable upon the Company receiving advances under Tranche C of the credit facility ( Tranche C Available Shares ) in proportion to the amount of the Tranche C advance compared with the total \$25,000,000 in commitments under Tranche C.

**Table of Contents****Note 9. Notes Payable***Notes Payable to Platinum Equity, LLC*

On October 26, 2005, as part of the Merger Consideration under the Tesseract Merger Agreement, the Company issued a Promissory Note in the amount of \$1,750,000 to Platinum. The principal under the Promissory Note accrues interest at a rate of 9.0% per annum. The principal and accrued interest under the Promissory Note are due on March 31, 2006. Interest is payable in registered shares of common stock of the Company, provided that until such shares are registered, interest shall be paid in cash. During the three months ended September 30, 2006, interest of \$17,250 was accrued and charged to interest expense. The Promissory Note contains certain negative covenants including that the Company will not incur additional indebtedness, other than permitted indebtedness under the Promissory Note. Under the Promissory Note, the following constitute an Event of Default: (a) the Company shall fail to pay the principal and interest when due and payable; (b) the Company fails to pay any other amount under the Promissory Note when due and payable; (c) any representation or warranty of the Company was untrue or misleading in any material respect when made; (d) there shall have occurred an acceleration of the state maturity of any indebtedness for borrowed money of the Company or any Subsidiary of \$50,000 or more in aggregate principal amount; (e) the Company shall sell, transfer, lease or otherwise dispose of all or any substantial portion of its assets in one transaction or a series of related transactions, participate in any share exchange, consummate any recapitalization, reclassification, reorganization or other business combination transaction or adopt a plan of liquidation or dissolution or agree to do any of the foregoing; (f) one or more judgments in an aggregate amount in excess of \$50,000 shall have been rendered against the Company or any subsidiary; (g) the Company breaches any covenant set forth in Section 4 of the Promissory Note; or (h) an Insolvency Event (as defined in the Promissory Note) occurs with respect to the Company or a subsidiary. Upon an Event of Default, the Holder may, at its option, declare all amounts owed under the Promissory Note to be due and payable.

On March 31, 2006, the Company and Platinum entered into an Amendment and Consent, (the Amendment ). Pursuant to the Amendment, the maturity of the Note was modified such that the aggregate principal amount of the Note and all accrued interest thereon shall be due and payable as follows: (i) \$1,000,000 on March 31, 2006; and (ii) the remaining \$750,000 in principal, plus all accrued but unpaid interest on the earliest of (a) the second business day following the closing of the acquisition of Unify Corporation ( Unify ) by the Company, (b) the second business day following termination of the merger agreement pursuant to which Unify is to be acquired by the Company, (c) the second business day after the Company closes an equity financing of at least \$2.0 million subsequent to the date of the Amendment or (d) July 31, 2006. In accordance with the Amendment, \$1,000,000 was paid to Platinum on March 31, 2006. Subsequently, the parties have engaged in discussions to further modify the terms of the amounts owed to Platinum. Platinum has indicated it will waive any current breaches of these obligations, but the parties have not yet entered into any definitive agreement. However, in the event Platinum does not agree to modify such terms, the Company would be in breach of such agreements.

The Tesseract Merger Agreement also provided for a Working Capital Adjustment of \$1,000,000 to be paid no later than November 30, 2005. Since the Working Capital Adjustment was not paid by such date, at the option of Platinum, the Working Capital Adjustment may be converted into up to 1,818,181 shares of Series D Preferred Stock. Additionally, since the Working Capital Adjustment was not paid on or before November 30, 2005, the Company must pay Platinum a monthly transaction advisory fee of \$50,000 per month, commencing December 1, 2005. As of September 30, 2006, the Working Capital Adjustment has not been paid or converted to Series D Preferred Stock. As such, the Company accrued \$150,000 for the advisory fee for the three months ended September 30, 2006. The accrued advisory fee balance is \$500,000 as of September 30, 2006..

*Notes payable to Tenebril sellers*

On August 24, 2006, the Company completed a purchase of Tenebril, Inc.( Tenebril ), a privately held Boston based software company providing award-winning Internet and spyware protection to consumers and organizations (See Note 4). The aggregate principal amount of all promissory notes issued as the purchase consideration by Company was \$3,000,000.

The Promissory Notes are due February 15, 2007, and accrue interest at a rate equal to eight and one-quarter percent (8.25%) per annum. At the Company's option, the Company may convert some or all of the amount due under the Promissory Notes into shares of Common Stock of the Company. The number of shares issued upon conversion will

be the total amount being converted divided by the conversion price then in effect. The conversion price is 85% of the market price of the Company's common stock as defined in the promissory notes. At the Closing, the Company also delivered to a certain broker a promissory note (the "Target Broker Promissory Note"). The Target Broker Promissory Note was in the original principal amount of \$110,000, plus applicable interest, and is due on February 15, 2007. For the period ended September 30, 2006, the Company recorded \$26,370 in accrued interest expense for these notes.

**Table of Contents****Note 10. Commitments and Contingencies*****Legal Proceedings.***

From time to time, Halo may be involved in litigation that arises in the normal course of its business operations. As of the date of this report, Halo is not a party to any litigation that it believes could reasonably be expected to have a material adverse effect on its business or results of operations.

**Note 11. Subsequent Events*****Subordinated Debt Financing***

On October 12, 2006, the Company entered into that certain Subscription Agreement (the *Subscription Agreement*) for the sale of the certain convertible promissory notes (each a *Note* and collectively, the *Notes*) and warrants (the *Warrants*) to acquire common stock in the Company. In connection with these transactions, the Company and the investors entered into certain subordination agreements concerning the priority of the Company's debt, and certain ancillary agreements, which are all described below.

The Company sold Notes in the aggregate principal amount of One Million Five Hundred Thousand Dollars (\$1,500,000) under the Subscription Agreement. The Company received \$1,500,000 in cash from the Investor. The Notes are convertible into common stock at any time at the option of the holder. The maturity date of the Notes is three years after the date of issuance. In the event that the Notes are not converted by the maturity dates of the Notes, any principal outstanding will then be due and payable. Interest on outstanding principal amounts accrues at the rate of ten percent (10%) per annum and is payable in shares of the Company's common stock. The Company may prepay the amount due under the Notes at any time, provided that the Company make a proportional prepayment on any other Notes sold under the Subscription Agreement. If the holder of the Notes elects to convert the Note into common stock, the holder will receive a number of shares equal to the amount of principal being converted, divided by the conversion price, which is \$0.68, subject to change as provided in the Note. In addition, the Company issued Notes in the aggregate principal amount of One Million Two Hundred Fifty Thousand Dollars (\$1,250,000) under the Subscription Agreement in exchange for 1,000,000 shares of the Company's common stock previously held by the investor.

Pursuant to the Subscription Agreement the Company issued Warrants to purchase a number of shares of the Company's common stock equal to 50% of the number of shares which would be issued upon conversion of the Notes. Accordingly, the Company issued warrants to acquire 1,102,942 shares of common stock in connection with the issuance of Notes in the aggregate principal amount of \$1,500,000. The warrants have a conversion price of \$.80 per share (subject to certain anti-dilution adjustments as provided in the Warrant) and are exercisable for a period of 5 years. The Company did not issue warrants in connection with the issuance of the \$1,250,000 Note.

The material terms of the Subscription Agreements are as follows. The Company and the investors (the *Investors*) under the Subscription Agreements made certain representations and warranties customary in private financings, including representations from the Investors that they are *accredited investors* as defined in Rule 501(a) of Regulation D (Regulation D) under the Securities Act of 1933, as amended.

The Company undertakes to register the shares of Common Stock issuable upon conversion of the Notes, and upon conversion of the Warrants (together, the Registrable Shares) via a suitable registration statement pursuant to the registration rights set forth in the Subscription Agreement. If a registration statement covering the Registrable Shares has not been declared effective no later than 120 days from the closing, the Investors will receive certain penalties either in cash or in additional shares of common stock as set forth in the Subscription Agreement. The Investors will also have rights to participate in up to \$5,000,000 of any future equity or convertible debt offerings by the Company.

On October 12, 2006, the Company entered into that a letter agreement (the *Vision Agreement*) with Vision Opportunity Master Fund, Ltd. (*Vision*). In consideration for Vision's entering into the Subscription Agreement and acting as lead investor, in addition to the Notes and Warrants that issued pursuant to the Subscription Agreement, the Company also issued to Vision warrants to purchase a number of shares of the Company's common stock equal to 50% of the number of shares which would be issued upon conversion of the Notes purchased by Vision. Accordingly, the Company issued to Vision additional warrants (the *Additional Warrants*) to acquire 1,102,942 shares of common stock in connection with the issuance of Notes in the aggregate principal amount of \$1,500,000.

**Table of Contents**

Furthermore, the Company agreed that, for as long as Vision is a holder of at least 25% of the Notes or Warrants purchased under the Subscription Agreement (or the shares of Common Stock issuable upon the conversion or exercise thereof), Vision will have the right to nominate one director to the Company's board of directors. The Company shall recommend that its shareholders approve such nomination at any shareholders' meeting for the election of directors or in connection with any written consent of shareholders of the election of directors.

Under the Vision Agreement, the Company agreed to reduce its parent company overhead by a minimum of 25% within six (6) months of the Closing and represented that it shall use at least \$5 million of the estimated \$6 million in proceeds from the sale of its Gupta subsidiary to reduce the amount of its indebtedness to Fortress Credit Corp.

On October 12, 2006 the Company entered into that certain Subordination Agreement (the "Subordination Agreement") with the Investor under the Subscription Agreement and Fortress Credit Corp. ("Fortress"), Halo's senior creditor pursuant to which the Investor agreed that the Notes are expressly subordinate and junior in right of payment to all senior obligations owed by the Company to Fortress or another senior lender under Halo's existing senior credit facility with Fortress. Also under this Subordination Agreement, Fortress consented to the issuance of the Notes and the other transactions set forth in the Subscription Agreement.

On October 12, 2006 the Company entered into that certain Intercreditor and Subordination Agreement (the "Intercreditor Agreement") with the Investor under the Subscription Agreement and Halo's existing subordinated debt lenders (the "Existing Lenders"), Crestview Capital Master, LLC ("Crestview") and CAMOFI Master LDC ("CAMOFI"). Under the Intercreditor Agreement the Investor agreed that the Notes are expressly subordinate and junior in right of payment to all senior obligations owed by the Company to the Existing Lenders under Halo's existing subordinated notes purchased by the Existing Lenders under that certain Subordinated Note and Warrant Purchase Agreement dated January 31, 2005.

On October 12, 2006 the Company, the Investor, the Existing Lenders, and Fortress entered into a letter agreement (the "Fortress Letter Agreement") whereby the parties agreed not to amend or modify the Intercreditor Agreement without the prior written consent of Fortress.

On October 12, 2006 the Company, Crestview and CAMOFI entered into a Consent Agreement (the "Consent") whereby Crestview and CAMOFI consented to the transactions contemplated by the Subscription Agreement in consideration of: (i) the Company adjusting the Conversion Price set forth in the Subordinated Notes held by Crestview and CAMOFI to be modified from \$1.00 to \$0.68, and (ii) the Warrant Price set forth in the existing warrants held by those entities to be modified from \$1.25 to \$0.68. Subsequently, pursuant to the Consent, the Conversion Price and the Warrant Price were modified to \$0.55.

***Amendment No. 2 to Fortress Credit Agreement***

On October 12, 2006 Company entered into Amendment Agreement No. 2 ("Amendment Agreement") between the Company and Fortress relating to the Credit Agreement dated August 2, 2005 between the Company, the Subsidiaries of the Company listed in Schedule 1 thereto (the "Subsidiaries"), Fortress Credit Corp., as original lender (together with any additional lenders, the "Original Lenders"), and the Agent. Pursuant to this Amendment Agreement, certain covenants were amended. The covenants amended related to the financial ratios between the earnings of the Company's operating subsidiaries and the Company's debt, to reflect the changes to the Company since the first amendment to the Credit Agreement, in October of 2005, primarily the addition of Empagio, Tenebril and RevCast as subsidiaries of the Company, the sale of Foresight, and the impending sale of Gupta.

**Table of Contents**

**ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

The following discussion and analysis provides information that the Company's management believes is relevant to an assessment and understanding of the Company's results of operations and financial condition. This discussion is based on, and should be read together with, the Company's accompanying unaudited consolidated financial statements, and the notes to such financial statements, which are included in this report, and with the Company's Form 10-KSB/A for the year ended June 30, 2006, which was filed with the SEC on October 26, 2006.

***Description of Business***

Halo Technology Holdings, Inc. is a Nevada corporation with its principal executive office in Greenwich, Connecticut.

The Company is a holding company whose subsidiaries operate enterprise software and information technology businesses. In addition to holding its existing subsidiaries, the Company's strategy is to pursue acquisitions of businesses which either complement the Company's existing businesses or expand the industries in which the Company operates.

**Historical Background**

Halo Technology Holdings, Inc. (the Company) was incorporated in the State of Nevada on June 26, 2000 under the name Abbott Mines, Ltd. to engage in the acquisition and exploration of mining properties. The Company obtained an interest in one mining property with mining claims on land located near Vancouver in British Columbia, Canada. To finance its exploration activities, the Company completed a public offering of its common stock, par value \$.00001 per share, on March 14, 2001 and listed its common stock on the OTC Bulletin Board on July 3, 2001. The Company conducted its exploration program on the mining property and the results did not warrant further mining activity. Halo then attempted to locate other properties for exploration but was unable to do so.

**The Acquisition of WARP Solutions, Inc.**

On May 24, 2002, the Company and WARP Solutions, Inc. (WARP Solutions) closed a share exchange transaction (the Share Exchange) pursuant to a Share Exchange Agreement (the Exchange Agreement) dated as of May 16, 2002, by and among the Company, Carlo Civelli, Mike Muzykowski, WARP Solutions, Karl Douglas, John Gnip and related Sellers. Following the closing of the Share Exchange, WARP Solutions became a subsidiary of the Company and the operations of WARP Solutions became the sole operations of the Company.

Subsequent to the closing of the Share Exchange, the Company ceased all mineral exploration activities and the sole operations of the Company were the operations of its subsidiary, WARP Solutions.

**Name Changes**

On August 19, 2002, the Board of Directors of the Company authorized and approved the upstream merger of WARP Technology Holdings, Inc., a wholly owned subsidiary of the Company which had no operations, with and into the Company pursuant to Chapter 92A of the Nevada Revised Statutes (the Upstream Merger). The Upstream Merger became effective on August 21, 2002, when the Company filed Articles of Merger with the Nevada Secretary of State. In connection with the Upstream Merger, and as authorized by Section 92A.180 of the Nevada Revised Statutes, the Company changed its name from Abbott Mines Ltd. to WARP Technology Holdings, Inc.

In February, 2006, Halo's board of directors approved resolutions to change the Company's name from Warp Technology Holdings, Inc. to Halo Technology Holdings, Inc. by amending our Articles of Incorporation. We received the consent of holders of a majority of the outstanding votes entitled to be cast approving the amendment. Accordingly, effective April 2, 2006, our name changed to Halo Technology Holdings, Inc.

**The Acquisition of Spider Software, Inc.**

On January 10, 2003, the Company, through its wholly-owned subsidiary 6043577 Canada Inc., acquired one hundred percent (100%) of the issued and outstanding capital stock of Spider Software, Inc. (Spider), a privately held Canadian corporation, through a share exchange transaction pursuant to a Share Exchange Agreement (the Spider Exchange Agreement) dated as of December 13, 2002. Pursuant to the Spider Exchange Agreement the Spider shareholders were issued 1,500,000 shares of the preferred stock of 6043577 Canada Inc., and the Company forgave outstanding Spider promissory notes of approximately \$262,000, all in exchange for

**Table of Contents**

one hundred percent (100%) of the issued and outstanding capital stock of Spider. The Company owns 100% of the voting common stock of 6043577 Canada Inc. The preferred stock of 6043577 Canada Inc. has no voting rights or other preferences but is convertible on a 100 for 1 basis into the common stock of the Company. As a result, following the closing, Spider became a wholly-owned subsidiary of 6043577 Canada Inc. and thereby an indirect, wholly-owned subsidiary of the Company.

**Acquisition of Gupta Technologies, LLC**

On January 31, 2005, the Company completed the acquisition of Gupta Technologies, LLC and its wholly-owned subsidiaries Gupta Technologies GmbH, a German company, Gupta Technologies Ltd., a U.K. company, and Gupta Technologies S.A. de C.V., a Mexican company (collectively referred to herein as **Gupta**). The acquisition of Gupta (the **Gupta Acquisition**) was made pursuant to a Membership Interest Purchase Agreement (as amended, the **Gupta Agreement**) between the Company and Gupta Holdings, LLC (the **Gupta Seller**).

Under the Gupta Agreement, the total purchase price was \$21,000,000, excluding transaction costs, of which the Company delivered \$15,750,000 in cash on or before the closing. The remainder of the purchase price was paid in equity and debt securities issued or provided by the Company with the terms described herein. As a result, following the closing, Gupta became a wholly-owned subsidiary of the Company.

On September 13, 2006, the Company entered into a Purchase and Exchange Agreement with Unify Corporation whereby the Company agreed to sell Gupta to Unify in exchange for (i) Unify's risk management software and solution business as conducted by Unify through its Acuitrek, Inc. subsidiary (**Acuitrek**) and its Insurance Risk Management division, including, without limitation, the Acuitrek business and the NavRisk product (the **NavRisk Business**), (ii) Unify's ViaMode software product and related intellectual property rights (the **ViaMode Product**), (iii) 5,000,000 shares of Unify common stock, (iv) warrants to acquire 750,000 shares of Unify stock, (v) \$5,000,000 in cash, of which Halo has received \$500,000 as a deposit (the **Deposit**), and (vi) the amount by which the Gupta Net Working Capital exceeds the NavRisk Net Working Capital (as such terms are defined in the Unify Purchase Agreement, the **Working Capital Adjustment**). The sale of Gupta is expected to close in the second quarter of fiscal 2007.

**Acquisition of Kenosia Corporation**

On July 6, 2005, the Company completed the acquisition of Kenosia Corporation (**Kenosia**) pursuant to a Stock Purchase Agreement (**The Kenosia Agreement**) with Bristol Technology, Inc. (**Bristol**) and Kenosia. Under the Kenosia Agreement (the **Kenosia Agreement**) the Company purchased all of the stock of Kenosia from Bristol for a purchase price of \$1,800,000 (net of a working capital adjustment). Kenosia is now a wholly-owned subsidiary of the Company, but as it was acquired after the end of our fiscal year, its results are not included in the financial results reported herein.

**Acquisition of Five Enterprise Software Companies**

On October 26, 2005, Halo completed the acquisition of Tesseract and four other companies; DAVID Corporation, Process Software, ProfitKey International, and Foresight Software, Inc. (collectively **Process and Affiliates**). These transactions were related party transactions.

Tesseract, headquartered in San Francisco, is a total HR solutions provider offering an integrated Web-enabled HRMS suite. Tesseract's Web-based solution suite allows HR users, employees and external service providers to communicate securely and electronically in real time. The integrated nature of the system allows for easy access to data and a higher level of accuracy for internal reporting, assessment and external data interface. Tesseract's customer base includes corporations operating in a diverse range of industries, including financial services, transportation, utilities, insurance, manufacturing, petroleum, retail, and pharmaceuticals.

DAVID Corporation is a pioneer in Risk Management Information Systems. DAVID Corporation offers client/server-based products to companies that provide their own workers' compensation and liability insurance. Many of DAVID Corporation's clients have been using its products for 10 years or longer.

Process Software develops infrastructure software solutions for mission-critical environments, including industry-leading TCP/IP stacks, an Internet messaging product suite, and an anti-spam software subscription service to large enterprises worldwide. With a loyal customer base of over 5,000 organizations, including Global 2000 and Fortune 1000 companies, Process Software has earned a strong reputation for meeting the stringent reliability and

performance requirements of enterprise networks.

**Table of Contents**

ProfitKey International develops and markets integrated manufacturing software and information control systems for make-to-order and make-to-stock manufacturers. ProfitKey's offering includes a suite of e-business solutions that includes customer, supplier and sales portals. ProfitKey's highly integrated system emphasizes online scheduling, capacity management, and cost management.

Foresight Software, Inc., a client/server Enterprise Resource Planning and Customer Relationship Management software company, was acquired as part of the acquisition of these five enterprise software companies. Foresight Software, Inc. was sold to a third-party on May 23, 2006 and is no longer a subsidiary of Halo.

The purchase price for the acquisition of DAVID Corporation, Process Software, ProfitKey International, and Foresight Software was an aggregate of \$12,000,000, which Halo paid in cash. Under the merger agreement for the acquisition of Tesseract (the Tesseract Merger Agreement), the merger consideration consisted of (i) \$4,500,000 in cash which was paid at closing, (ii) 7,045,454 shares of Series D Preferred Stock of Halo, and (iii) \$1,750,000 originally due no later than March 31, 2006 and evidenced by a promissory note to Platinum Equity, LLC (the Platinum Note). Additionally, Halo was required to pay a working capital adjustment of \$1,000,000. Since this amount was not paid by November 30, 2005, Platinum Equity, LLC (Platinum), the seller of Tesseract, has the option to convert the working capital adjustment into up to 1,818,182 shares of Series D Preferred Stock. To date, the Platinum has not elected to do so. Furthermore, since the working capital adjustment was not paid by November 30, 2005, Halo must pay Platinum a monthly transaction advisory fee of \$50,000 per month, commencing December 1, 2005. As of September 30, 2006, Halo has accrued and expensed approximately \$500,000 for such fees.

On March 31, 2006, the Company and Platinum entered into an Amendment and Consent (the Amendment and Consent) to the Platinum Note. Pursuant to the Amendment and Consent, the maturity of the Platinum Note was modified such that the aggregate principal amount of the Platinum Note and all accrued interest thereon shall be due and payable as follows: (i) \$1,000,000 on March 31, 2006; and (ii) the remaining \$750,000 in principal, plus all accrued but unpaid interest shall be paid on the earliest of (w) the second business day following the closing of the acquisition of Unify by the Company, (x) the second business day following termination of the merger agreement pursuant to which Unify is to be acquired by the Company, (y) the second business day after the Company closes an equity financing of at least \$2.0 million subsequent to the date of the Amendment and Consent or (z) July 31, 2006. In accordance with the Amendment and Consent, \$1,000,000 was paid to Platinum on March 31, 2006. Since the entire amount of the Platinum Note was not paid on or before March 31, 2006, Platinum retained 909,091 shares of Series D Preferred Stock of the Company, which had been previously issued to Platinum as part of the consideration under the Tesseract Merger Agreement. These shares would have been canceled if the Platinum Note had been paid in full by that date. Subsequently, the parties have engaged in discussions to further modify the terms of the amounts owed to Platinum. Platinum has indicated it will waive any current breaches of these obligations, but the parties have not yet entered into any definitive agreement. However, in the event Platinum does not agree to modify such terms, the Company would be in breach of such agreements.

The Tesseract Merger Agreement further provides that the rights, preferences and privileges of the Series D Preferred Stock will adjust to equal the rights, preferences and privileges of the next round of financing if such financing is a Qualified Equity Offering. Under the Tesseract Merger Agreement, a Qualified Equity Offering is defined as an equity financing (i) greater than \$5,000,000, (ii) not consummated with any affiliate of Halo, and (iii) the securities issued in such equity financing are equal or senior in liquidation and dividend preference to the Series D Preferred Stock. If Halo's next round of equity financing is not a Qualified Equity Offering, the shares of the Series D Preferred Stock will convert at the option of Platinum into the terms of the offering, or maintain the terms of the Series D Preferred Stock. In addition, the Series D Stock may be converted into common stock at the election of the holder.

On April 3, 2006, the Company filed a Registration Statement on Form SB-2, File No. 333-132962, registering for resale the shares of common stock of the Company issuable upon conversion of the Series D Preferred Stock issued to Platinum in connection with the Tesseract Merger and as payment of dividends on such stock. This Registration Statement is currently pending before the Securities and Exchange Commission and is not yet effective. The Company will not receive any proceeds from the resale of the shares nor will the Company control the timing, manner and size of each sale pursuant to this Registration Statement. If this Registration Statement becomes effective, the holder of the

Series D Preferred Stock will be permitted to convert its shares of Series D Preferred Stock to common stock and to resell such shares of common stock, subject to securities law restrictions as a result of Platinum being an affiliate of Halo. Since the average daily trading volume of Halo's common stock is relatively low (approximately 11,000 shares per day during the fiscal year ended June 30, 2006), attempts by the holder of the Series D Preferred Stock to resell any substantial portion of its shares could result in there being more shares offered for sale than buyers wishing to purchase shares of Halo common stock. This could limit the ability of shareholders to sell their shares in the manner or at the price that might be attainable if Halo's common stock were more actively traded or if the Series D Preferred Stock was not able to be resold pursuant to the Registration Statement on Form SB-2, File No. 333-132962.

## **Table of Contents**

### **Acquisition of Empagio**

Halo entered into a merger agreement dated December 19, 2005, to acquire Empagio. On January 13, 2006, the closing occurred under the merger agreement and Empagio is now a wholly-owned subsidiary of Halo. The merger consideration consisted of 1,438,455 shares of common stock. Based on the closing price of Halo's Common Stock on the day of the closing, the total purchase price was \$1,869,992, subject to adjustment.

Empagio is a human resources management software company. Its signature product is its SymphonyHR hosted software solution which automates HR procedures and reduces paperwork, ranging from payroll to benefits administration. Halo intends to integrate Empagio with additional HR solutions already within its portfolio to create a premier human resources management solutions provider. Empagio's operations have been consolidated with the operations of Tesseract and the consolidated entity operates under the name Empagio.

### **Acquisition of ECI**

On January 30, 2006, Halo entered into a merger agreement with ECI (the ECI Merger Agreement). On March 1, 2006, the closing occurred under the ECI Merger Agreement, and ECI became a wholly owned subsidiary of Halo. The total merger consideration for all of the equity interests in ECI was \$578,571 in cash and cash equivalents and 330,688 shares of Halo's common stock (with a value of \$558,863 at the closing price of Halo's common stock), subject to adjustment based on the Net Working Capital (as defined in the ECI Merger Agreement) on the closing date. The acquisition of ECI's clients will enhance Empagio's human resources software offerings. ECI's operations will be consolidated with the operations of Empagio.

### **Foresight Sale**

On May 23, 2006, the Company and Foresight Acquisition Company, LLC (Buyer) entered into a Merger Agreement pursuant to which Buyer acquired 100% of the outstanding common stock of Foresight Software, Inc., a wholly-owned subsidiary of Halo in exchange for a cash payment to Halo. The Company received \$266,402 for this sale, of which \$114,500 was applied to the principal of the outstanding Fortress debt. The Company recorded a gain of \$12,072 on this sale.

### **Acquisition of Tenebril**

On August 24, 2006, the Company purchased Tenebril. Tenebril is a Boston-based software company providing award-winning Internet and spyware protection to consumers and organizations. Tenebril's SpyCatcher(TM) Enterprise is the first and only spyware solution that protects enterprise computers from the most insidious category of evasive threats hyper-mutating and custom-coded spyware. Tenebril's patent-pending Spyware Profiling Engine(TM) differentiates SpyCatcher from its competitors by providing continuous protection that defeats these newly emerging threats. The convertible promissory notes of \$3,000,000 were issued as the purchase consideration. Tenebril was acquired with the plan of merging Tenebril into Process Software, Inc, one of the Company's existing subsidiaries, with complementary products and services.

### **Acquisition of RevCast**

On September 15, 2006 the Company acquired an Illinois-based software company, RevCast. RevCast provides forecasting and replenishment solutions to some of the largest manufacturers in the world. RevCast's flagship product, Integrated Merchandising Solution (IMS), is being used today by several manufacturers that work with Wal-Mart and other major retailers, which share direct POS information. The purchase consideration was 350,000 shares of the Halo's common stock, as well as the royalty payments, which is twenty percent (20%) of revenues generated by RevCast's assets, will be paid in cash quarterly, and has a maximum of \$400,000. RevCast was acquired with the plan of merging into the Kenosia subsidiary since the businesses are related.

### **Business of the Company**

Halo is a holding company whose subsidiaries operate enterprise software and information technology businesses. The following pages describe the business of Halo's existing subsidiaries, Gupta Technologies, LLC, Warp Solutions, Kenosia Corporation, Tesseract Corporation, DAVID Corporation, Process Software, ProfitKey International, Empagio and ECI. In addition to holding its

**Table of Contents**

existing subsidiaries, Halo's strategy is to pursue acquisitions of businesses, which either complement Halo's existing businesses or expand the industries in which Halo operates.

***Recent Accounting Pronouncements***

In December 2004, the FASB issued SFAS No. 123(R), *Share-Based Payment*, which establishes standards for transactions in which an entity exchanges its equity instruments for goods or services. This standard requires an entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. This eliminates the exception to account for such awards using the intrinsic method previously allowable under APB Opinion No. 25. For the Company, SFAS No. 123 (R) is effective as of January 1, 2006. The Company did not apply this method to prior periods. The impact on this new standard, if it had been in effect prior to January 1, 2006 is disclosed above in Note 2 *Summary of Significant Accounting Policies* *Stock Based Compensation*.

On March 29, 2005, the Staff of the Securities and Exchange Commission (SEC or the Staff) issued Staff Accounting Bulletin No. 107, *Share-Based Payment* (SAB 107). Although not altering any conclusions reached in SFAS 123(R), SAB 107 provides the views of the Staff regarding the interaction between SFAS 123(R) and certain SEC rules and regulations and, among other things, provide the Staff's views regarding the valuation of share-based payment arrangements for public companies. The Company followed the interpretative guidance on share-based payment set forth in SAB 107.

In May 2005, the FASB issued SFAS 154, *Accounting Changes and Error Corrections*, that applies to all voluntary changes in accounting principle. This statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. When it is impracticable to determine the period-specific effects of an accounting change on one or more individual prior periods presented, this statement requires that the new accounting principle be applied to the balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable and that a corresponding adjustment be made to the opening balance of retained earnings (or other appropriate components of equity or net assets in the statement of financial position) for that period rather than being reported in an income statement. When it is impracticable to determine the cumulative effect of applying a change in accounting principle to all prior periods, this statement requires that the new accounting principle be applied as if it were adopted prospectively from the earliest date practicable. SFAS 154 will be effective for us for the fiscal year ended June 30, 2007. We do not anticipate that the adoption of SFAS No. 154 will have an impact on our overall results of operations or financial position.

In February 2006, the FASB issued SFAS 155, *Accounting for Certain Hybrid Financial Instruments-an amendment of FASB Statements No. 133 and 140*, that allows a preparer to elect fair value measurement at acquisition, at issuance, or when a previously recognized financial instrument is subject to a remeasurement (new basis) event, on an instrument-by-instrument basis, in cases in which a derivative would otherwise have to be bifurcated. It also eliminates the exemption from applying Statement 133 to interests in securitized financial assets so that similar instruments are accounted for similarly regardless of the form of the instruments. This Statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company does not anticipate that the adoption of SFAS No. 155 will have an impact on the Company's overall results of operations or financial position.

In March 2006, the FASB issued SFAS 156, *Accounting for Servicing of Financial Assets-an amendment of FASB Statement No. 140*, that applies to the accounting for separately recognized servicing assets and servicing liabilities. This Statement requires that all separately recognized servicing assets and servicing liabilities be initially measured at fair value, if practicable. An entity should adopt this Statement as of the beginning of its first fiscal year that begins after September 15, 2006. The Company does not anticipate that the adoption of SFAS No. 156 will have an impact on the Company's overall results of operations or financial position.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measures* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This statement applies under other accounting pronouncements that require or permit fair value measurements. However, it does not apply to SFAS 123(R). This statement shall be effective for financial statements issued for fiscal years

beginning after November 15, 2007, and interim periods within those fiscal years. Earlier application is encouraged, provided that the reporting entity has not yet issued financial statements for that fiscal year, including any financial statements for an interim period within that fiscal year. The provisions of this statement should be applied prospectively as of the beginning of the fiscal year in which this Statement is initially applied, except in some circumstances where the statement shall be applied retrospectively. The Company is currently evaluating the effect, if any, of SFAS 157 on its financial statements.

**Table of Contents**

***Critical Accounting Policies***

The discussion and analysis of the Company's financial condition and results of operations is based on the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and disclosure of contingent liabilities.

On an on-going basis, we evaluate our estimates, including those related to revenue recognition and accounting for intangible assets. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

We have identified the accounting policies below as the policies critical to the Company's business operations and the understanding of the Company's results of operations. We believe the following critical accounting policies and the related judgments and estimates affect the preparation of the Company's consolidated financial statements:

***Revenue Recognition***

The Company recognizes revenue in accordance with the American Institute of Certified Public Accountants Statement of Position (SOP) 97-2, Software Revenue Recognition.

Revenues are derived from the licensing of software, maintenance contracts, training, and other consulting services.

In arrangements that include rights to multiple software products and/or services, the Company allocates and defers revenue for the undelivered items, based on vendor-specific objective evidence of fair value, and recognizes the difference between the total arrangement fee and the amount deferred for the undelivered items as revenue. Vendor specific objective evidence of fair value for undelivered elements of an arrangement is based upon the normal pricing and discounting practices for those products and services when sold separately and for maintenance contracts, is additionally measured by the renewal rate offered to the customer. In arrangements in which the Company does not have vendor-specific objective evidence of fair value of maintenance, and maintenance is the only undelivered item, the Company recognizes the total arrangement fee ratably over the contractual maintenance term.

Software license revenues are recognized upon receipt of a purchase order and delivery of software, provided that the license fee is fixed or determinable; no significant production, modification, or customization of the software is required; and collection is considered probable by management. For licensing of Company's software through its indirect sales channel, revenue is recognized when the distributor sells the software to its end-users, including value-added resellers. For licensing of software to independent software vendors, revenue is recognized upon shipment to the independent software vendors.

Service revenue for maintenance contracts is deferred and recognized ratably over the term of the agreement. Revenue from training and other consulting services is recognized as the related services are performed.

***Business Combinations and Deferred Revenue.***

In accordance with business combination accounting, we allocate the purchase price of acquired companies to the tangible and intangible assets acquired, and liabilities assumed, based on their estimated fair values. We engage third-party appraisal firms to assist management in determining the fair values of certain assets acquired and liabilities assumed. Such a valuation requires management to make significant estimates and assumptions, especially with respect to intangible assets and deferred revenue.

Management makes estimates of fair value based upon assumptions believed to be reasonable. These estimates are based on historical experience and information obtained from the management of the acquired companies and are inherently uncertain. Critical estimates in valuing certain of the intangible assets include but are not limited to: future expected cash flows from license sales, maintenance agreements, consulting contracts, customer contracts and acquired developed technologies and patents; the acquired company's brand awareness and market position, as well as assumptions about the period of time the acquired brand will continue to be used in the combined company's product portfolio; and discount rates. Unanticipated events and circumstances may occur which may affect the accuracy or validity of such assumptions, estimates or actual results.

We have acquired several software companies in fiscal 2006, and we plan to make more acquisitions in the future. Acquired deferred revenue is recognized at fair value to the extent it represents a legal obligation assumed by us in accordance with EITF 01-03, Accounting in a Business Combination for Deferred Revenue of an Acquiree. Under this guidance, the Company estimates fair values of acquired deferred revenue by adding an approximated normal profit margin to the estimated cost required to fulfill the

## **Table of Contents**

obligation underlying the deferred revenue. As a result of this valuation, the deferred revenues of the acquired companies normally decrease substantially. In the enterprise software industry, this reduction averages between forty to sixty percent of the original balance. The reduction of the deferred revenue has a negative effect on the recognized revenue until the deferred revenue balance builds up to a normal level of the acquired business. The length of this effect depends on contracts underlying the deferred revenue. As the Company continues to acquire more businesses in the enterprise software industry, the effect of this deferred revenue valuation will have significant effect on the Company's results of operations.

### *Product Development Costs*

Product development costs incurred in the process of developing product improvements and enhancements or new products are charged to expense as incurred. Statement of Financial Accounting Standards ( SFAS ) No. 86, Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed, requires capitalization of certain software development costs subsequent to the establishment of technological feasibility. Based on the Company's product development process, technological feasibility is established upon the completion of a working model. Costs incurred by the Company between the completion of the working model and the point at which the product is ready for general release has been insignificant.

### *Intangible assets and Goodwill*

Intangible assets are primarily comprised of customer relationships, developed technology, trade names and contracts. Goodwill represents acquisition costs in excess of the net assets of businesses acquired. In accordance with SFAS 142, Goodwill and Other Intangible Assets goodwill is no longer amortized; instead goodwill is tested for impairment on an annual basis. We assess the impairment of identifiable intangibles and goodwill whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors we consider to be important which could trigger an impairment review include the following:

Significant underperformance relative to expected historical or projected future operating results;

Significant changes in the manner of use of the acquired assets or the strategy for the overall business; and

Significant negative industry or economic trends.

When we determine that the carrying value of intangibles and other long-lived assets may not be recoverable based upon the existence of one or more of the above indicators of impairment and the carrying value of the asset cannot be recovered from projected undiscounted cash flows, we record an impairment charge. We measure any impairment based on a projected discounted cash flow method using a discount rate determined by management to be commensurate with the risk inherent in the current business model. Significant management judgment is required in determining whether an indicator of impairment exists and in projecting cash flows. Trade names are considered to have indefinite life. All other intangibles are being amortized over their estimated useful life of three to ten years. We have recorded a significant amount of goodwill on our balance sheet. As of September 30, 2006, goodwill was approximately \$30 million, representing approximately 48% of our total assets and approximately 72% of our long-lived assets subject to depreciation, amortization and impairment. In the future, goodwill may increase as a result of additional acquisitions we will make. Goodwill is recorded on the date of acquisition and is reviewed at least annually for impairment. Impairment may result from, among other things, deterioration in the performance of our business, adverse market conditions and a variety of other circumstances. Any future determination requiring the write-off of a significant portion of the goodwill recorded on our balance sheet could have an adverse effect on our financial condition and results of operations.

### *Stock-Based Compensation*

Prior to January 1, 2006, the Company used the intrinsic value method to account for stock-based compensation in accordance with Accounting Principles Board Opinion No. 25 ( APB 25 ), Accounting for Stock Issued to Employees, and had adopted the disclosure-only provisions of SFAS No. 123, Accounting for Stock-Based Compensation, as amended by SFAS No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure. Effective January 1, 2006, the Company adopted the fair value recognition provisions of SFAS 123(R), Share-Based Payment ( SFAS 123(R) ). SFAS 123(R) requires entities to recognize the cost of employee services received in exchange for

awards of equity instruments based on the grant-date fair value of those awards (with limited exceptions). As a result, compensation cost of the Company for the year ended September 30, 2006 includes compensation expense for unvested portion of all the stock options outstanding and all the stock options granted after the effective date. No restatement has been made to prior periods. We had applied APB 25's intrinsic value method up to December 31, 2005, and

**Table of Contents**

presented pro forma income statements in the footnote to show the effect of FAS123(R) as if it had been implemented in the prior periods.

***Results of Operations***

The following table sets forth selected unaudited financial data for the periods indicated in dollars and as a percentage of total revenue.

	<b>Three Months Ended September 30,</b>			
	<b>2006</b>		<b>2005</b>	
	(in 000 s)	% of Revenue	(in 000 s)	% of Revenue
Revenue	6,487	100%	288	100%
Cost of revenue	1,716	26%	64	22%
Gross Profit	4,771	74%	223	78%
Product development	1,215	19%	86	30%
Sales, marketing and business development	1,021	16%	131	45%
General and administrative	3,654	56%	634	220%
Fair value gain on warrants	2,668	41%	23,807	8,266%
Interest expense	4,773	74%	2,106	731%

**Revenue**

Revenue is derived from the licensing of software, maintenance contracts, training, and other consulting services. License revenue is derived from licensing of our software and third-party software products. Services revenue results from consulting and education services, and maintaining, supporting and providing periodic unspecified upgrades for previously licensed products.

Total revenue increased by \$6.2 million to \$6.5 million for the three months ended September 30, 2006 from \$288,000 for the three months ended September 30, 2005. This increase was primarily due to the acquisitions of Empagio, \$2.9 million, Process and Affiliates, \$2.9 million and Tenebril, \$97,000. In addition, there was a net increase in Kenosia of \$243,000 of which approximately \$166,000 was due to increase in consulting revenue and \$122,000 was due to more deferred revenue purchase accounting adjustments recognized in fiscal year 2005. Kenosia's increase was partially offset by a decrease in the license revenue.

License revenue increased by \$552,000 to \$637,000 for the three months ended September 30, 2006 from \$85,000 for the three months ended September 30, 2005. This increase was primarily due to the acquisitions of Empagio, \$38,000, Process and Affiliates, \$560,000 and the increase was partially offset by a decrease in Kenosia of \$45,000.

Services revenue increased \$5.7 million to \$5.9 million for the three months ended September 30, 2006 from \$203,000 for the three months ended September 30, 2005. This increase was primarily due to the acquisitions of Empagio, \$2.9 million, Process and Affiliates, \$2.4 million and Tenebril, \$97,000. In addition, there was a net increase in Kenosia of \$288,000 of which approximately \$166,000 was due to increase in consulting revenue and \$122,000 was due to more deferred revenue purchase accounting in fiscal year 2005.

Because of the reduction of deferred revenue after an acquisition under generally accepted accounting principles, which has the effect of reducing the amount of revenue recognized in a given period from what would have been recognized had the acquisition not occurred, past reported periods should not be relied upon as predictive of future performance. Additionally, the Company's operating strategy is to continue to acquire technology companies. Each of such transactions will cause a change to our future financial results.

**Cost of Revenue**

Total cost of revenue increased by \$1.6 million to \$1.7 million for the three months ended September 30, 2006 from \$64,000 for the three months ended September 30, 2005. This increase was primarily due to the acquisitions of Empagio, \$993,000, Process and Affiliates, \$582,000 and Tenebril, \$69,000.

**Table of Contents**

The principal components of cost of license fees are manufacturing costs, shipping costs, royalties paid to third-party software vendors, and amortization of acquired technologies. Cost of license revenue increased by \$205,000 to \$212,000 for the three months ended September 30, 2006 from \$7,000 for the three months ended September 30, 2005. This increase was primarily due to the acquisitions of Empagio, \$69,000 and Process and Affiliates, \$137,000.

The principal components of cost of services are salaries paid to our customer support personnel and professional services personnel, amounts paid for contracted professional services personnel and third-party resellers, maintenance royalties paid to third-party software vendors and hardware costs. Cost of services revenue increased by \$1.4 million to \$1.5 million for the three months ended September 30, 2006 from \$58,000 for the three months ended September 30, 2005. This increase was primarily a result of an increase in employee compensation directly related to additional headcounts added in conjunction with the acquisitions of Empagio, \$924,000, Process and Affiliates, \$445,000 and Tenebril \$69,000.

Gross profit margins were 74% for the three months ended September 30, 2006, compared to 78% for the three months ended September 30, 2005. The gross margin decrease was mainly due to the change in the product mix (increase in the proportion of maintenance and services revenue) the Company sells from the new subsidiaries.

**Table of Contents****Operating Expenses*****Research and Development***

Research and development expense consists primarily of salaries and other personnel-related expenses for engineering personnel, expensable hardware and software costs, overhead costs and costs of contractors. Research and development expenses increased by approximately \$1.1 million to \$1.2 million for the three months ended September 30, 2006 from \$86,000 for the three months ended September 30, 2005. This increase primarily resulted from the acquisitions of Empagio, \$425,000, Process and Affiliates, \$561,000, and Tenebril, \$117,000. To date, all software development costs have been expensed as incurred.

***Sales and Marketing***

Selling and marketing expenses consist primarily of salaries, commissions, benefits, advertising, tradeshow, travel and overhead costs for the Company's sales, marketing, and business development personnel. Sales and marketing expenses increased by approximately \$890,000 to \$1 million for the three months ended September 30, 2006 from \$130,000 for the three months ended September 30, 2005. This increase was primarily attributable to the acquisitions of Empagio, \$351,000, Process and Affiliates, \$315,000 and Tenebril, \$42,000. There was also an increase of \$187,000 in corporate headcount to manage the increasing size and complexity of the Company's operation.

***General and Administrative***

General and administrative costs include salaries and other direct employment expenses of our administrative and management employees, as well as legal, accounting and consulting fees and bad debt expense. General and administrative expenses increased by approximately \$3 million to \$3.7 million for the three months ended September 30, 2006 from \$634,000 for the three months ended September 30, 2005. This increase was primarily attributable to the acquisitions of Empagio, \$1 million, Process and Affiliates, \$907,000 and Tenebril, \$74,000. There was also an increase of approximately \$1.1 million in corporate headcount to manage the increasing size and complexity of the Company's operations, as the Company has acquired new subsidiaries, as well as professional services fees associated with the acquisitions, securities laws, and tax compliance.

**Fair Value Gain on Warrants**

Certain warrants the Company issued as part of its financing activities have features that require them to be treated as a derivative in accordance with EITF 00-19, Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Owned Stock. In addition to recognizing the value of the warrants by discounting the related debt and amortizing the discount to interest expense over the life of the debt, the value of the warrants are recognized as liabilities and revalued at the end of each period. The fair values of these warrants are determined based on the Black-Scholes model. Changes in fair values are charged to the Statements of Operations. Generally, if the Company's stock price increases, the fair value of the warrants increases, causing the liability to increase and resulting in loss, and vice versa.

Fair value gain on warrants revaluation was approximately \$2.7 million and \$23.8 million for the three months ended September 30, 2006 and September 30, 2005, respectively. The gains were results of the stock price decrease. These gains relate to the change in the fair value of the warrants relating to the Series C Preferred Stock, Senior Notes, Subordinated Notes, Fortress, DCI Master LDC and notes issued to other investors.

**Interest Expense**

Interest expense increased by \$2.7 million to \$4.8 million for the three months ended September 30, 2006 from \$2.1 million for the three months ended September 30, 2005. The increase was primarily due to the beneficial conversion of convertible notes of \$1.5 million, cash and accrued interest of \$927,000, amortization of warrants of \$257,000. The increase was partially offset by the decrease in amortization of deferred financing costs of \$74,000.

***Results of Discontinued Operations***

On September 13, 2006, the Company entered into an agreement to sell its subsidiary, Gupta Technologies, LLC, to Unify Corporation in exchange for Unify's two business units and other considerations. Pursuant to Statement of Financial Accounting Standards No. 144 Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144), Gupta's results of operations

**Table of Contents**

are shown as income (loss) from discontinued operations on the Consolidated Statements of Operations. Condensed financial information related to these discontinued operations is as follows:

	<b>Three Months Ended</b>	
	<b>September 30,</b>	
	<b>2006</b>	<b>2005</b>
Revenues	\$ 2,728,866	\$ 2,920,551
Income (loss) before taxes	157,137	(631,603)
Income taxes	30,534	50,945
Net income (loss) from discontinued operations	\$ 126,603	\$ (682,548)

Revenues of the discontinued operations decreased by \$200,000 to \$2.7 million for the three months ended September 30, 2006 from \$2.9 million for the three months ended September 30, 2005. This decrease was primarily due to the lower billing of the license sale in the anticipation of a new version release of Gupta's main product lines. Income before taxes from the discontinued operations increased by \$789,000 to \$157,000 for the three months ended September 30, 2006 from a loss of \$632,000 for the three months ended September 30, 2005. This increase was primarily due to the lower cost structure from a reduction in force Gupta executed in April 2006. The increase was partially offset by the lower revenues described above.

**Net Operating Loss Carryforwards**

The Company has a U.S. Federal net operating loss carryforward of approximately \$54,625,000 as of September 30, 2006, which may be used to reduce taxable income in future years through the year 2026. The deferred tax asset primarily resulting from net operating losses was approximately \$21,782,000. Due to uncertainty surrounding the realization of the favorable tax attributes in future tax returns, the Company has placed a full valuation allowance against its net deferred tax asset. At such time as it is determined that it is more likely than not that the deferred tax asset is realizable, the valuation allowance will be reduced. Furthermore, the net operating loss carryforward may be subject to further limitation pursuant to Section 382 of the Internal Revenue Code

**Liquidity and Capital Resources**

Halo has three primary cash needs. These are (1) operations, (2) acquisitions and (3) debt service and repayment. Halo has financed a significant component of its cash needs through the sale of equity securities and debt.

For the three months ended September 30, 2006, cash used in continuing operations was approximately \$1.4 million. Our net loss \$3.1 million was offset by gain on warrants revaluation of \$2.7 million and decrease in deferred revenue of \$1.1 million. In addition, components of cash used for operating activities included non-cash interest expense of \$3.5 million, depreciation and amortization expense of \$404,000, and non-cash compensation expense of \$558,000, and increase in accounts payable and accrued expenses of \$1 million. The Company acquired cash of \$623,000 through the acquisition of Tenebril. The Company also received \$500,000 as a deposit for the anticipated sale of Gupta. \$270,000 was used to repay the principal portion of the outstanding debt. \$390,000 was also provided by Gupta's operations, which were classified as discontinuing operations, pending the sale of the business.

On January 31, 2005, Halo issued \$2,500,000 principal amount of subordinated convertible promissory notes (the Subordinated Notes). The Subordinated Notes bear interest at 10%, payable in common stock or cash, and mature January 31, 2007. The Subordinated Notes are convertible at any time into shares of Halo common stock at \$1.00 per share, which conversion rate is subject to certain anti-dilution adjustments. The common stock issuable upon conversion of the Subordinated Notes has certain registration rights.

Halo entered into a \$50,000,000 credit facility with Fortress Credit Opportunities I LP and Fortress Credit Corp. on August 2, 2005 (the Credit Agreement). Subject to the terms and conditions of the Credit Agreement, the lenders thereunder (the Lenders)

**Table of Contents**

agreed to make available to Halo a term loan facility in three Tranches, Tranches A, B and C, in an aggregate amount equal to \$50,000,000 (the Loan). In connection with entering into the Credit Agreement, Halo borrowed \$10,000,000 under Tranche A to repay its then-existing senior indebtedness, as well as certain existing subordinated indebtedness and to pay certain closing costs. On October 26, 2005, in connection with the closings of the acquisition of Tesseract, DAVID Corporation, Process Software, ProfitKey International and Foresight Software, Inc., Halo entered into Amendment Agreement No. 1 (Amendment Agreement) to the Credit Agreement under which the Lenders made an additional loan of \$15,000,000 under Tranche B of the credit facility under the Credit Agreement. The rate of interest payable on the amounts borrowed under the Loan is a floating percentage rate per annum equal to the sum of the LIBOR for that period plus the Margin. For these purposes, LIBOR means the rate offered in the London interbank market or U.S. Dollar deposits for the relevant period but no less than 2.65%. For these purposes, Margin means 9% per annum. Interest is due and payable monthly in arrears.

The Credit Agreement contains certain financial covenants usual and customary for facilities and transactions of this type. These financial covenants include Total Debt to EBITDA, Cash Interest Coverage Ratio, and Fixed Charge Covenant Ratio as defined. As of September 30, 2006, the Company is in compliance with these financial covenants. The Company anticipates that due to recent transactions, certain of the covenants under the Credit Agreement may have to be modified in the future in order for the Company to continue to comply for future periods. The Company has engaged in discussions with Fortress, and anticipates negotiating appropriate modifications to the covenants to reflect these changes in the Company's business as they occur. In the event the Company completes further acquisitions, the Company and the Lenders will be required to agree upon modifications to the financial covenants to reflect the changes to the Company's consolidated assets, liabilities, and expected results of operations in amounts to be mutually agreed to by the parties. If the Company were to fail to comply with the financial covenants under the Credit Agreement and the Lenders failed to agree to amend or waive compliance with the covenants that Halo did not meet, Halo would be in default under the Credit Agreement. Any default under the Credit Agreement would result in a default under most or all of Halo's other financing arrangements. The Lenders could foreclose on all of Halo's assets, including the stock in its subsidiaries, and could cause Halo to cease operating.

In addition, the Credit Agreement provides that in the event of certain changes of control, including (i) a reduction in the equity ownership in Halo of Ron Bienvenu or his immediate family members below 90% of such equity interests on the date of the Credit Agreement, or (ii) Ron Bienvenu ceases to perform his current management functions and is not replaced within 90 days by a person satisfactory to Fortress, all amounts due may be declared immediately due and payable.

The Credit Agreement contains specific events of default, including failure to make a payment, the breach of certain representations and warranties, and insolvency events. There is also a cross-default provision that provides that certain events of default under certain contracts between Halo or its subsidiaries and third parties will constitute an event of default under the Credit Agreement.

Halo's obligations under the Credit Agreement are guaranteed by the direct and indirect subsidiaries of Halo, and any new subsidiaries of Halo are obligated to become guarantors. Halo and its subsidiaries granted first priority security interests in their assets, and pledged the stock or equity interests in their respective subsidiaries, as collateral for the Loans. In addition, Halo has undertaken to complete certain matters, including the delivery of stock certificates in subsidiaries, and the completion of financing statements perfecting the security interests granted under the applicable state or foreign jurisdictions concerning the security interests and rights granted to the Lenders. Any new subsidiary of Halo will become subject to the same provisions.

On October 26, 2005, as part of the acquisition of Tesseract, Halo issued to Platinum Equity, LLC, a promissory note in the amount of \$1,750,000 (the Platinum Note). The Platinum Note was issued in a related party transaction. The principal under the Platinum Note accrues interest at a rate of 9.0% per annum. The principal and accrued interest under the Platinum Note was originally due on March 31, 2006. Interest is payable in registered shares of common stock of Halo, provided that until such shares are registered, interest shall be paid in cash. The Platinum Note contains certain negative covenants including that Halo will not incur additional indebtedness, other than permitted indebtedness under the Platinum Note. Under the Platinum Note, the following constitute an event of default: (a) Halo shall fail to pay the principal and interest when due and payable: (b) Halo fails to pay any other amount under the

Platinum Note when due and payable: (c) any representation or warranty of Halo was untrue or misleading in any material respect when made; (d) there shall have occurred an acceleration of the state maturity of any indebtedness for borrowed money of Halo or any Halo subsidiary of \$50,000 or more in aggregate principal amount; (e) Halo shall sell, transfer, lease or otherwise dispose of all or any substantial portion of its assets in one transaction or a series of related transactions, participate in any share exchange, consummate any recapitalization, reclassification, reorganization or other business combination transaction or adopt a plan of liquidation or dissolution or agree to do any of the foregoing; (f) one or more judgments in an aggregate amount in excess of \$50,000 shall have been rendered against Halo or any Halo subsidiary; (g) Halo breaches certain of its covenants set forth in the Platinum Note; or (h) an

**Table of Contents**

Insolvency Event (as defined in the Platinum Note) occurs with respect to Halo or a Halo subsidiary. Upon such an event of default, the holder may, at its option, declare all amounts owed under the Platinum Note to be due and payable.

Additionally, under the Tesseract Merger Agreement, Halo was required to pay Platinum a working capital adjustment of \$1,000,000. Since this amount was not paid by November 30, 2005, Platinum has the option to convert the working capital adjustment into up to 1,818,182 shares of Series D Preferred Stock. To date, the Platinum has not elected to do so. Furthermore, since the working capital adjustment was not paid by November 30, 2005, Halo must pay Platinum a monthly transaction advisory fee of \$50,000 per month, commencing December 1, 2005. As of September 30, 2006, Halo has accrued and expensed approximately \$500,000 for such fees.

On March 31, 2006, the Company and Platinum entered into an Amendment and Consent (the Amendment and Consent ) to the Platinum Note. Pursuant to the Amendment and Consent, the maturity of the Platinum Note was modified such that the aggregate principal amount of the Platinum Note and all accrued interest thereon shall be due and payable as follows: (i) \$1,000,000 on March 31, 2006; and (ii) the remaining \$750,000 in principal, plus all accrued but unpaid interest shall be paid on the earliest of (w) the second business day following the closing of the acquisition of Unify by the Company, (x) the second business day following termination of the merger agreement pursuant to which Unify is to be acquired by the Company, (y) the second business day after the Company closes an equity financing of at least \$2.0 million subsequent to the date of the Amendment and Consent or (z) July 31, 2006. In accordance with the Amendment and Consent, \$1,000,000 was paid to Platinum on March 31, 2006. Since the entire amount of the Platinum Note was not paid on or before March 31, 2006, Platinum retained 909,091 shares of Series D Preferred Stock of the Company, which had been previously issued to Platinum as part of the consideration under the Tesseract Merger Agreement. These shares would have been canceled if the Platinum Note had been paid in full by that date. Subsequently, the parties have engaged in discussions to further modify the terms of the amounts owed to Platinum. Platinum has indicated it will waive any current breaches of these obligations, but the parties have not yet entered into any definitive agreement. However, in the event Platinum does not agree to modify such terms, the Company would be in breach of such agreements.

*Conversion of Notes Payable into Common Stock and Warrants*

On July 21, 2006, Halo issued an aggregate of 2,732,392 shares of common stock in conversion of (1) an aggregate of \$1,850,000 of convertible promissory notes previously issued by the Company in September 2005, October 2005, and January 2006 (and \$126,041.67 of interest on such amount) as described in the Halo's Current Report on Form 8-K filed January 18, 2006, and (2) an aggregate of \$1,375,000 (and \$64,444.44 of interest on such amount) previously issued by the Company in January 2006 as described in the Halo's Current Report on Form 8-K filed February 2, 2006. In addition, the investors received warrants to acquire an aggregate of 2,049,296 shares of common stock of the Company. The warrants have an exercise price of \$1.25 per share, are exercisable over a five year term and subject to certain adjustments as set forth in the warrant. A copy of the form of the warrant is attached as Exhibit 10.126 to the Company's Current Report on Form 8-K filed July 27, 2006, and is incorporated herein by reference. In addition, 54,000 shares of common stock and warrants to acquire 40,500 shares of common stock were issued in payment of \$67,500 in advisory fees.

*Working Capital Requirements*

Halo's future capital requirements will depend on many factors, including cash flow from operations, continued progress in research and development programs, competing technological and market developments, and Halo's ability to maintain its current customers and successfully market its products, as well as any future acquisitions it undertakes. Halo intends to meet its cash needs, as in the past, through cash generated from operations, the proceeds of privately placed equity issuances and debt. Even without further acquisitions, in order to meet its financial obligations including repayment of outstanding debt obligations, Halo will have to issue further equity and engage in further debt transactions. There can be no guarantee that Halo will be successful in such efforts. In the absence of such further financing, Halo will either be unable to meet its debt obligations or will have to significantly restructure its operations, or a combination of these two actions. Such actions would significantly negatively affect the value of Halo's common stock.

Halo's working capital requirements as of September 30, 2006 was a deficit of approximately \$10.2 million, comprised primarily of accounts payable and accrued expenses, \$8.3 million, deferred revenue, \$8.8 million, short-term debt, \$8.6 million, and liabilities of discontinued operations of \$5.3 million which was partially offset by cash \$510,000, accounts receivable, \$2.3 million, prepaid expenses and other current assets, \$1 million, and assets held for sale, \$17.4 million. Halo's working capital requirements as of June 30, 2006 was a deficit of approximately \$7.8 million, comprised primarily of accounts payable and accrued expenses, \$6.7 million, deferred revenue, \$9.5 million, short-term debt, \$7.6 million, and liabilities of discontinued operations of \$5.9 million

## **Table of Contents**

which was partially offset by cash \$854,000, accounts receivable, \$2 million, prepaid expenses and other current assets, \$315,000, and assets held for sale, \$18.3 million.

The increase in our capital requirements for the three months ended September 30, 2006 is primarily due to the issuance of the promissory note in the principal amount of \$3,000,000 to the sellers of Tenebril, Inc.. This note is convertible into Halo's Common stock at the option of Halo. It is probable that this conversion will take place and the liability will be removed by the issuance of the equity. The Company recorded \$3.5 million in liability for this note to adjust for the conversion terms. The Company also experienced an increase of \$1.6 million in accounts payable and accrued expenses, reflecting temporary shortage of cash. The increase in the capital requirements is mainly offset by the conversion of the short-term notes. As described in *Conversion of Notes Payable into Common Stock and Warrants*, the Company converted approximately \$3.6 million of its convertible notes and accrued interest into the Common Stock and warrants.

The Company expects its spending on research and development in the current fiscal year to remain consistent with the level of such expenditures in the fiscal year ended June 30, 2006, subject to changes in operations due to acquisitions or sales of subsidiary companies.

The Company anticipates further material increases in its operating costs for the current fiscal year ending June 30, 2007. We expect substantially increasing operating expenses in connection with the growth of our operations, the development of our enterprise technologies, the expansion of our services operations and our acquisition activity. Our capital requirements during the year ending June 30, 2007 will depend on numerous factors including the amount of resources we devote to:

Funding the continued development of our products;

Sales and marketing efforts;

improving and extending our services and the technologies used to deliver these services to our customers;

pursuing other strategic acquisitions and alliances; and

making possible investments in businesses, products and technologies.

The Company has incurred recurring operating losses since its inception, as of September 30, 2006, had an accumulated deficit of \$97,966,309, and, at September 30, 2006, had insufficient working capital to fund all of its obligations. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments to reflect the possible future effect of the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the outcome of this uncertainty.

The Company's continuation as a going concern is dependant upon receiving additional financing. Given our current cash position, and our expectations of cash flows from operations, we anticipate requiring additional working capital of approximately \$4 to \$6 million for the year ending June 30, 2007 of which we have received \$1.5 million in a transaction completed October 12, 2006, see Subsequent Events Subordinated Debt Financing. We expect to pursue equity or debt financing in order to meet these capital needs. There can be no assurance that we will be successful in such efforts. In the absence of such further financing, Halo will either be unable to meet its debt obligations or will have to significantly restructure its operations, or a combination of these two actions. Such actions would significantly negatively affect the value of Halo's common stock.

### *Investing Activities and Current Debt*

As of September 30, 2006, the Company had debt that matures in the next 12 months in the amount of approximately \$8,923,000. This consists of \$1,750,000 payable to Platinum Equity, LLC (seller of Tesseract, Process, David, Profitkey, and Foresight), \$2,769,189 as current portion of Fortress debt, \$1,243,885 due to ISIS, \$3,000,000 payable to Tenebril seller, and \$160,000 notes payable to other investors. \$1,000,000 was paid to Platinum Equity, LLC on March 31, 2006 to reduce the note to the current balance. On July 21, 2006, the Company converted \$3,225,000 of notes payables into equity securities in the quarter ended September 30, 2006. See *Conversion of Notes*

*Payable into Common Stock and Warrants* above. In addition, the principal amounts due under the Credit Agreement with Fortress begin to amortize on August 2, 2006. The Company paid \$270,000 to Fortress in the three months ended September 30, 2006.

**Table of Contents**

Halo continues to evaluate strategic alternatives, including opportunities to strategically grow the business, enter into strategic relationships, make acquisitions or enter into business combinations. Halo can provide no assurance that any such strategic alternatives will come to fruition and may elect to terminate such evaluations at any time.

***Subsequent Events******Restatement of Financial Results***

In the course of responding to comments received from the SEC in connection with the Company's registration statement on Form S-4 filed April 5, 2006, and amended on June 1, 2006, the Company identified errors resulting from the improper treatment of certain warrants to acquire common stock of the Company in accordance with EITF 00-19, *Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock*. . . The Company had treated the warrants as equity, but the warrants should have been treated as liabilities.

Accordingly, on September 1, 2006, the Company's Board of Directors determined that investors should not rely on the Company's (a) consolidated financial statements for the period ended June 30, 2005 and the report thereon of the Company's independent registered public accountants, included in the Company's Annual Report on Form 10-KSB filed with the SEC on September 28, 2005, (b) condensed consolidated financial statements for the period ended September 30, 2005, included in the Company's Quarterly Report on Form 10-QSB filed with the SEC on November 14, 2005, (c) condensed consolidated financial statements for the period ended December 31, 2005, included in the Company's Quarterly Report on Form 10-QSB filed with the SEC on February 15, 2006, and (d) condensed consolidated financial statements for the period ended March 31, 2006, included in the Company's Quarterly Report on Form 10-QSB filed with the SEC on May 15, 2006. On October 10, 2006, the Board of Directors subsequently determined that investors should not rely on the Company's condensed consolidated financial statements for the period ended March 31, 2005, included in the Company's Quarterly Report on Form 10-QSB filed with the SEC on May 20, 2005.

As a result of these determinations, the Company has amended its Annual Report for the year ended June 30, 2005 and its Quarterly Reports for the interim periods ended March 31, 2006, December 31, 2005, September 30, 2005, and March 31, 2005. The amended Annual Report and the amended Quarterly Reports were filed with the SEC on October 11, 2006. The Company's Board of Directors have discussed these matters with the Company's independent registered public accounting firm.

***Subordinated Debt Financing***

On October 12, 2006, the Company entered into that certain Subscription Agreement (the *Subscription Agreement*) for the sale of the certain convertible promissory notes (each a *Note* and collectively, the *Notes*) and warrants (the *Warrants*) to acquire common stock in the Company. In connection with these transactions, the Company and the investors entered into certain subordination agreements concerning the priority of the Company's debt, and certain ancillary agreements, which are all described below.

The Company sold Notes in the aggregate principal amount of One Million Five Hundred Thousand Dollars (\$1,500,000) under the Subscription Agreement. The Company received \$1,500,000 in cash from the Investor. The Notes are convertible into common stock at any time at the option of the holder. The maturity date of the Notes is three years after the date of issuance. In the event that the Notes are not converted by the maturity dates of the Notes, any principal outstanding will then be due and payable. Interest on outstanding principal amounts accrues at the rate of ten percent (10%) per annum and is payable in shares of the Company's common stock. The Company may prepay the amount due under the Notes at any time, provided that the Company make a proportional prepayment on any other Notes sold under the Subscription Agreement. If the holder of the Notes elects to convert the Note into common stock, the holder will receive a number of shares equal to the amount of principal being converted, divided by the conversion price, which is \$0.68, subject to change as provided in the Note. In addition, the Company issued Notes in the aggregate principal amount of One Million Two Hundred Fifty Thousand Dollars (\$1,250,000) under the Subscription Agreement in exchange for 1,000,000 shares of the Company's common stock previously held by the investor.

Pursuant to the Subscription Agreement the Company issued Warrants to purchase a number of shares of the Company's common stock equal to 50% of the number of shares which would be issued upon conversion of the Notes. Accordingly, the Company issued warrants to acquire 1,102,942 shares of common stock in connection with the issuance of Notes in the aggregate principal amount of \$1,500,000. The warrants have a conversion price of \$.80 per

share (subject to certain anti-dilution adjustments as provided in the

42

---

**Table of Contents**

Warrant) and are exercisable for a period of 5 years. The Company did not issue warrants in connection with the issuance of the \$1,250,000 Note.

The material terms of the Subscription Agreements are as follows. The Company and the investors (the Investors) under the Subscription Agreements made certain representations and warranties customary in private financings, including representations from the Investors that they are accredited investors as defined in Rule 501(a) of Regulation D (Regulation D) under the Securities Act of 1933, as amended.

The Company undertakes to register the shares of Common Stock issuable upon conversion of the Notes, and upon conversion of the Warrants (together, the Registrable Shares) via a suitable registration statement pursuant to the registration rights set forth in the Subscription Agreement. If a registration statement covering the Registrable Shares has not been declared effective no later than 120 days from the closing, the Investors will receive certain penalties either in cash or in additional shares of common stock as set forth in the Subscription Agreement. The Investors will also have rights to participate in up to \$5,000,000 of any future equity or convertible debt offerings by the Company.

On October 12, 2006, the Company entered into that a letter agreement (the Vision Agreement) with Vision Opportunity Master Fund, Ltd. (Vision). In consideration for Vision's entering into the Subscription Agreement and acting as lead investor, in addition to the Notes and Warrants that issued pursuant to the Subscription Agreement, the Company also issued to Vision warrants to purchase a number of shares of the Company's common stock equal to 50% of the number of shares which would be issued upon conversion of the Notes purchased by Vision. Accordingly, the Company issued to Vision additional warrants (the Additional Warrants) to acquire 1,102,942 shares of common stock in connection with the issuance of Notes in the aggregate principal amount of \$1,500,000.

Furthermore, the Company agreed that, for as long as Vision is a holder of at least 25% of the Notes or Warrants purchased under the Subscription Agreement (or the shares of Common Stock issuable upon the conversion or exercise thereof), Vision will have the right to nominate one director to the Company's board of directors. The Company shall recommend that its shareholders approve such nomination at any shareholders' meeting for the election of directors or in connection with any written consent of shareholders of the election of directors.

Under the Vision Agreement, the Company agreed to reduce its parent company overhead by a minimum of 25% within six (6) months of the Closing and represented that it shall use at least \$5 million of the estimated \$6 million in proceeds from the sale of its Gupta subsidiary to reduce the amount of its indebtedness to Fortress Credit Corp.

On October 12, 2006 the Company entered into that certain Subordination Agreement (the Subordination Agreement) with the Investor under the Subscription Agreement and Fortress Credit Corp. (Fortress), Halo's senior creditor pursuant to which the Investor agreed that the Notes are expressly subordinate and junior in right of payment to all senior obligations owed by the Company to Fortress or another senior lender under Halo's existing senior credit facility with Fortress. Also under this Subordination Agreement, Fortress consented to the issuance of the Notes and the other transactions set forth in the Subscription Agreement.

On October 12, 2006 the Company entered into that certain Intercreditor and Subordination Agreement (the Intercreditor Agreement) with the Investor under the Subscription Agreement and Halo's existing subordinated debt lenders (the Existing Lenders), Crestview Capital Master, LLC (Crestview) and CAMOFI Master LDC (CAMOFI). Under the Intercreditor Agreement the Investor agreed that the Notes are expressly subordinate and junior in right of payment to all senior obligations owed by the Company to the Existing Lenders under Halo's existing subordinated notes purchased by the Existing Lenders under that certain Subordinated Note and Warrant Purchase Agreement dated January 31, 2005.

On October 12, 2006 the Company, the Investor, the Existing Lenders, and Fortress entered into a letter agreement (the Fortress Letter Agreement) whereby the parties agreed not to amend or modify the Intercreditor Agreement without the prior written consent of Fortress.

On October 12, 2006 the Company, Crestview and CAMOFI entered into a Consent Agreement (the Consent) whereby Crestview and CAMOFI consented to the transactions contemplated by the Subscription Agreement in consideration of: (i) the Company adjusting the Conversion Price set forth in the Subordinated Notes held by Crestview and CAMOFI to be modified from \$1.00 to \$0.68, and (ii) the Warrant Price set forth in the existing warrants held by those entities to be modified from \$1.25 to \$0.68.

*Amendment No. 2 to Fortress Credit Agreement*

**Table of Contents**

On October 12, 2006 Company entered into Amendment Agreement No. 2 ( Amendment Agreement ) between the Company and Fortress relating to the Credit Agreement dated August 2, 2005 between the Company, the Subsidiaries of the Company listed in Schedule 1 thereto (the Subsidiaries ), Fortress Credit Corp., as original lender (together with any additional lenders, the Original Lenders ), and the Agent. Pursuant to this Amendment Agreement, certain covenants were amended. The covenants amended related to the financial ratios between the earnings of the Company s operating subsidiaries and the Company s debt, to reflect the changes to the Company since the first amendment to the Credit Agreement, in October of 2005, primarily the addition of Empagio, Tenebril and RevCast as subsidiaries of the Company, the sale of Foresight, and the impending sale of Gupta.

*Resignation of Director*

Effective October 20, 2006, John L. Kelly resigned from the board of directors of the Company due to other commitments. Mr. Kelly s resignation is not attributable to any disagreement with the Company on any matter relating to the Company s operations, policies or practices.

*Decision not to Stand for Re-election.*

Effective October 27, 2006, John A. Boehmer has determined not to stand for re-election to the board of directors of the Company at the Company s next Annual Meeting of Stockholders. Mr. Boehmer s decision not to stand for re-election is not attributable to any disagreement with the Company on any matter relating to the Company s operations, policies or practices.

**CAUTIONARY LANGUAGE CONCERNING FORWARD-LOOKING STATEMENTS**

This Quarterly Report on Form 10-QSB contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (the Reform Act ). Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements, and may contain the words believe, anticipate, expect, estimate, intend, project, plan, will be, will likely continue to result, or words or phrases with similar meaning. All of these forward-looking statements are based on estimates and assumptions made by our management that, although we believe to be reasonable, are inherently uncertain. Forward-looking statements involve risks and uncertainties, including, but not limited to, economic, competitive, governmental and technological factors outside of our control, that may cause our business, strategy or actual results to differ materially from the forward-looking statements. We operate in a changing environment in which new risks can emerge from time to time. It is not possible for management to predict all of these risks, nor can it assess the extent to which any factor, or a combination of factors, may cause our business, strategy or actual results to differ materially from those contained in forward-looking statements. Factors you should consider that could cause these differences include, among other things: general economic and business conditions, including exchange rate fluctuations; our ability to identify acquisition opportunities and effectively and cost-efficiently integrate acquisitions that we consummate; our ability to maintain effective internal control over financial reporting; our ability to attract and retain personnel, including key personnel; our success in developing and introducing new services and products; and, competition in the software industry, as it relates to both our existing and potential new customers. These forward-looking statements are made only as of the date hereof, and we undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise. The safe harbors for forward-looking statements provided by the Reform Act are unavailable to issuers of penny stock . Our shares may be considered a penny stock and, as a result, the safe harbors may not be available to us.

**ITEM 3. Controls And Procedures**

As of September 30, 2006, the Company carried out an evaluation, under the supervision and with the participation of the Company s management, including Rodney A. Bienvenu, Jr., the Company s principal executive officer, and Mark Finkel, the Company s principal financial officer, of the effectiveness of the Company s disclosure controls and procedures (as such term is defined in Rule 13a-15(e) and Rule 15(d)-15(e) of the Securities Exchange Act of 1934 (the Exchange Act ) pursuant to Rule 13a-15(d) and 15(e) of the Exchange Act. Based upon that evaluation, Messrs. Bienvenu and Finkel have each concluded that, as of September 30, 2006, the Company s disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files, furnishes or submits under the Exchange Act is recorded, processed, summarized and reported on a timely basis except as follows:

**Table of Contents**

A material control weakness is a significant deficiency or a combination of significant deficiencies that results in more than a remote likelihood that a material misstatement in financial statements will not be prevented or detected on a timely basis by employees in the normal course of their work. As stated in the Company's Annual Report on Form 10-KSB/A for the year ended June 30, 2006 filed with the SEC on October 26, 2006, the management identified that one of the Company's subsidiaries, Process Software, LLC ( Process ), had a material control weakness in its revenue recognition process.

The Company recognizes revenue in accordance with the American Institute of Certified Public Accountants Statement of Position ( SOP ) 97-2, Software Revenue Recognition. Under SOP 97-2, service revenue for maintenance contracts is deferred and recognized ratably over the term of the agreement. Process sometimes started this ratable recognition earlier or later than the actual contract date while it recognized the revenue over a shorter or longer period on other occasions. These resulted in improper revenue recognition, either understating or overstating the revenue and earnings. Process also demonstrated inconsistency in recording accounts receivable. The Company usually invoices its customers either on receipt of a purchase order or on signing of a contract. The invoiced amount is recorded as accounts receivable as of the invoice date. Process sometimes recorded accounts receivable earlier or later than the actual invoice date, resulting in over or understatement of accounts receivable. Process lacked the discipline and training of the personnel who record its sales transactions. It also lacked the monitoring process to mitigate these weaknesses.

These material weaknesses impacted our ability to properly record and report the financial results during the fiscal year 2006. However, the Company's management is actively engaged in remediation efforts to address this material weaknesses identified in our internal control over financial reporting. The Company has transitioned sales invoicing responsibilities from non-accounting personnel to accounting personnel better trained to process such documents. The Company is also in the process of implementing a new accounting system, which the Company anticipates will enable the Company to monitor ongoing activities without increasing staff level. In the transition, the Company is performing additional revenue testing to identify inconsistencies. As a result of our review, the Company has not yet resolved the revenue recognition issues noted above. The total net adjustments as a result of this weakness was less than \$25,000 for the three months ended September 30, 2006.

There were no other significant changes in our internal control subsequent to the date of the evaluation that are reasonably likely to materially affect our internal control over financial reporting.

The Company's management believes that the Company will be able to improve our disclosure controls and procedures and remedy the identified material weaknesses. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, will be or have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

PART II  
OTHER INFORMATION

**ITEM 1. Legal Proceedings**

From time to time, Halo may be involved in litigation that arises in the normal course of its business operations. As of the date of this report, Halo is not a party to any litigation that it believes could reasonably be expected to have a material adverse effect on its business or results of operations

**ITEM 2. Unregistered Sales of Equity Securities and use of Proceeds.**

***Issuance of Common Stock and Warrants in Conversion of Debt***

On July 21, 2006, Halo issued an aggregate of 2,732,392 shares of common stock in conversion of (1) an aggregate of \$1,850,000 invested Halo (and \$126,041.67 of interest on such amount) as described in the Halo's Current Report on Form 8-K filed January 18, 2006, and (2) an aggregate of \$1,375,000 (and \$64,444.44 of interest on such amount) invested in Halo as described in the Halo's Current Report on Form 8-K filed February 2, 2006. In addition, the investors received warrants to acquire an aggregate of 2,049,296 shares of common stock of the Company. The warrants have an exercise price of \$1.25 per share, are exercisable over a five year term and subject to certain adjustments as set forth in the warrant. A copy of the form of the warrant is attached as Exhibit 10.126 to the Company's Current Report on Form 8-K filed July 27, 2006, and is incorporated herein by reference. In addition, 54,000 shares of common stock and warrants to acquire 40,500 shares of common stock were issued in payment of \$67,500 in advisory fees.
