Table of Contents**Management Performance and Financial Conditions****(1) Outline of Operations and Business Results**

Komatsu Ltd. (Company) and its consolidated subsidiaries (together Komatsu) embarked on the new three-year management plan, Global Teamwork for Tomorrow in April last year. Under this new mid-range management plan, Komatsu began concerting efforts on activities of importance, including 1) promotion of ICT applications to products and parts; 2) development of products for improved environmental friendliness and safety; 3) expansion of sales and service operations in Strategic Markets, which include China, Southeast Asia, and Latin America; and 4) promotion of continuous Kaizen (improvement) by strengthening workplace capability.

During the nine months from April 1 to December 31, 2010 of the fiscal year ending March 31, 2011, the first year of the ongoing mid-range management plan, demand for construction and mining equipment increased in all regions of the world from the corresponding period a year ago, reflecting strong demand in Strategic Markets such as China, Southeast Asia and Latin America, as well as recovery of demand in the Traditional Markets of Japan, North America and Europe. Demand for industrial machinery began to recover, supported by an increase in the production volume of automobiles in Strategic Markets and the growth of the solar cell industry in Asia, centering on China.

By capitalizing on growth in demand, Komatsu expanded consolidated net sales by 29.7% from the corresponding nine-month period a year ago, to JPY1,301.9 billion (USD15,878 million, at USD1=JPY82). While the Japanese currency appreciated sharply against the U.S. dollar, Euro and Renminbi from the corresponding period a year ago, Komatsu made sizable gains in profits for the nine months by continuing to realize selling prices and decrease production costs in addition to expanding the volume of sales. Specifically, operating income reached JPY162.7 billion (USD1,985 million), up 350.9%, and operating income ratio advanced to 12.5%, an improvement of 8.9 percentage points. Income before income taxes and equity in earnings of affiliated companies increased by 358.1% to JPY158.9 billion (USD1,938 million). Net income attributable to Komatsu Ltd. totaled JPY100.6 billion (USD1,227 million), up 448.2%.

Business results by operation are described below.

Construction, Mining and Utility Equipment

While Komatsu continued to work on expanding production capacity as well as sales and product support capabilities in Strategic Markets by anticipating their medium to long-range market growth, demand remained strong especially in China, Southeast Asia and Latin America and recovered in the Traditional Markets of Japan, North America and Europe in the nine months under review. Against the backdrop of demand recovery worldwide, consolidated net sales of construction, mining and utility equipment advanced by 29.4% from the corresponding nine months a year ago, to JPY1,146.9 billion (USD13,987 million).

Table of Contents

To further expand sales of hybrid hydraulic excavators which offer improved fuel consumption and CO₂ emissions volume, Komatsu decided on a worldwide market launch and tooled up production. Komatsu introduced new HB205 and HB215LC hybrid hydraulic excavators after changing the forerunner model on the Japanese market in December 2010. Komatsu is planning to launch their sales in China, Southeast Asia, Latin and North America, Europe and other regions.

Total	1,146,921	886,487	260,434	29.4%

* Excluding Japan and China

Japan

While public works began to decline around September 2010 as positive effects of the Japanese government's economic stimulus measure faded away, private-sector capital investment remained strong. Against this backdrop, demand for construction equipment headed for recovery centering on the rental equipment industry, and Komatsu's nine-month sales in Japan increased from the corresponding nine months a year ago.

Sales of HB205 and HB215LC hybrid hydraulic excavators made a good start in Japan, as Komatsu implemented a nationwide sales campaign in tune with their market introduction.

Americas

In North America, while the U.S. housing starts remained sluggish, overall demand for equipment headed for recovery, reflecting strong demand in the rental equipment and mining industries. In this market environment, Komatsu concerted efforts to improve its distributors' financial strength by continuing to promote the zero inventory of distributors campaign. In Latin America, demand in the mining industry expanded substantially in Chile, and demand remained brisk in mining, civil engineering, agricultural and forestry sectors in Brazil, the largest Latin American market. In addition to these market recoveries, Komatsu strengthened its sales and product support activities. As a result, nine-month sales in the Americas increased from the corresponding period a year ago.

Table of Contents

Europe & CIS

Demand stopped falling in Europe in the current fiscal year under review, and demand has recovered in western Europe, centering on Germany and the United Kingdom. In addition to this market recovery, Komatsu worked to strengthen its product support capability and expand sales of parts by teaming up with its distributors. Sales for the nine months in Europe improved from the corresponding period a year ago. In CIS, demand for mining equipment advanced particularly in use in the development of natural resources such as coal and gold. Sales for the nine months in CIS also increased from the corresponding period a year ago.

To seize on the medium and long-range demand for mining equipment, Komatsu worked to strengthen its production and product support capabilities by commencing production at Komatsu Manufacturing Rus, LLC. last year and preparing to open the Kuzbass Support Center in Siberia.

China

Demand for construction and mining equipment continued to advance in China, where the Chinese government led urbanization and infrastructure development projects. Sales for the nine months increased from the corresponding period a year ago.

By anticipating the future expansion of demand for mining equipment, Komatsu has established Komatsu China Mining Limited to engage in sales and product support exclusively for large-scale mining companies, and embarked on the development and production of buckets and attachments at Komatsu Construction Attachment Changzhou. In addition, Komatsu continued to ensure the successful plant relocation of Komatsu (Changzhou) Construction Machinery Corp., the opening of the KC Techno Center, and the development of service engineers for its distributors through the special training course at Shandong Jiaotong University, which has been offered continuously since 2004. All in all, Komatsu concerted efforts to reinforce its production, sales and product support capabilities.

Asia & Oceania

In Indonesia, the largest market of Southeast Asia, demand for mining equipment continued to expand, while demand remained strong in the civil engineering, agriculture and forestry sectors. Demand was also strong in India, Thailand and Malaysia. In Australia, demand for mining equipment continued to grow. Under such market conditions, sales accelerated in Asia, and therefore, sales in Asia & Oceania for the nine months advanced from the corresponding period a year ago. In Southeast Asia, Komatsu concerted efforts to introduce KOMTRAX-installed standard equipment to more regions. In Australia, Komatsu continued to reinforce sales and product support capabilities, including the reorganization of Komatsu Australia Pty Ltd in August 2010 with an eye to further strengthening its capabilities as a distributor.

Middle East & Africa

In addition to economies beginning to recover in both regions, commodity prices increased, albeit moderately, and therefore, demand was firm, particularly in the mining sector. As a result, sales for the nine months improved from the corresponding period a year ago. Komatsu is expecting market expansion into the future as accompanied by the development of new mines and the recovery of infrastructure development. In Africa, Komatsu worked to reinforce its product support capability by developing higher skills for service engineers of its distributors at a new training center jointly established with a distributor in Kenya in April 2010. This followed the opening of a training center in Senegal in the previous fiscal year.

Table of Contents**Industrial Machinery and Others**

In the industrial machinery and others business, Komatsu boosted sales of wire saws for use in slicing silicon ingots as capital investment remained brisk in Asia, centering on China, for the solar cell market. As a result, sales for the nine months advanced by 32.0% from the corresponding period a year ago, to JPY155.0 billion (USD1,891 million). In Strategic Markets, such as China, India and Brazil, capital investment by the automobile manufacturing industry uptuned for recovery and Komatsu received an increased number of new orders for large presses and other machinery.

To further enhance the competitive strength of its industrial machinery business under such market conditions, Komatsu reorganized the press business in April 2010 by concentrating all operations of the press business in Komatsu Industries Corporation, involving the development, sales and service functions of small, medium-sized and large presses. In April 2011, Komatsu NTC Ltd. and Komatsu Machinery Corporation, that are both manufacturing machine tools for the automobile manufacturing industry as well as semiconductor manufacturing equipment, are going to merge, and Komatsu is going to absorb Komatsu Engineering Corp. with its leading-edge expertise in system engineering. Komatsu NTC Ltd. is building a new plant designed to expand its production capacity of wire saws and other machinery.

(2) Financial Conditions

As of December 31, 2010, total assets increased by JPY40.8 billion from the previous fiscal year-end, to JPY1,999.9 billion (USD24,390 million), mainly due to increased inventories for high-demand seasons. Interest-bearing debt decreased by JPY45.3 billion from the previous fiscal year-end, to JPY541.0 billion (USD6,598 million). Komatsu Ltd. shareholders' equity increased by JPY19.5 billion from the previous fiscal year-end, to JPY853.5 billion (USD10,409 million). As a result, Komatsu Ltd. shareholders' equity ratio increased by 0.1 point from the previous fiscal year-end, to 42.7%. Net debt-to-equity ratio* was 0.53 compared to 0.60 as of the previous fiscal year-end.

*
$$\text{Net debt-to-equity ratio} = (\text{Interest-bearing debt} - \text{Cash and cash equivalents} - \text{Time deposits}) / \text{Komatsu Ltd. shareholders' equity}$$

For the nine months under review, net cash provided by operating activities increased by JPY17.6 billion from the corresponding period a year ago, to JPY132.9 billion yen (USD1,621 million), largely due to an increase in net income. Net cash used in investing activities increased by JPY14.3 billion from the corresponding period a year ago, to JPY64.9 billion (USD792 million). Net cash used in financing activities declined by JPY0.9 billion from the corresponding period a year ago, to JPY59.6 billion (USD727 million), mainly due to decreased repayments on short-term debt. As a result, cash and cash equivalents, as of December 31, 2010, totaled JPY84.3 billion (USD1,029 million), an increase of JPY1.9 billion from the previous fiscal year-end.

Table of Contents**(3) Projections for the Fiscal Year Ending March 31, 2011**

(From April 1, 2010 to March 31, 2011)

In the construction, mining and utility equipment business, Komatsu continues to meet strong demand around the world. In particular, demand is growing more than we anticipated in China, the Americas and Japan. By anticipating an increase in the volume of sales based on this growth of demand, we are projecting that both sales and profits will outperform our projections disclosed in October 2010.

As preconditions for our current projections, we are assuming the foreign exchange rates as follows: USD1 = JPY82, EUR1 = JPY114 and RMB1 = JPY12.3 in the fourth quarter of the current fiscal year ending March 31, 2011; and USD1 = JPY85, EUR1 = JPY113 and RMB1 = JPY12.7 in the full fiscal year.

Consolidated Business Results

	Earlier projection [A]	Current projection [B]	Millions of yen Changes		Results for FY ended March 31, 2010
			[B-A]	[(B-A)/A]	
Net sales	1,760,000	1,815,000	55,000	3.1%	1,431,564
Operating income	200,000	230,000	30,000	15.0%	67,035
Income before income taxes and equity in earnings of affiliated companies	192,000	225,000	33,000	17.2%	64,979
Net income attributable to Komatsu Ltd.	120,000	140,000	20,000	16.7%	33,559

[Reference]**Projections of the Company for the Fiscal Year Ending March 31, 2011**

Similar to the revised projections for consolidated business results above, the Company continues to meet strong demand around the world in the construction, mining and utility equipment business. In particular, demand is growing more than we anticipated in China, the Americas and Japan. By anticipating an increase in the volume of sales based on this growth in demand, we are projecting that both sales and profits will outperform our projections disclosed in October 2010.

Cautionary Statement

The announcement set forth herein contains forward-looking statements which reflect management's current views with respect to certain future events, including expected financial position, operating results, and business strategies. These statements can be identified by the use of terms such as will, believes, should, projects and similar terms or expressions that identify future events or expectations. Actual results may differ materially from those projected, and the events and results of such forward-looking assumptions cannot be assured.

Factors that may cause actual results to differ materially from those predicted by such forward-looking statements include, but are not limited to, unanticipated changes in demand for Komatsu's principal products, owing to changes in the economic conditions in Komatsu's principal markets; changes in exchange rates or the impact of increased competition; unanticipated cost or delays encountered in achieving Komatsu's objectives with respect to globalized product sourcing and new Information Technology tools; uncertainties as to the results of Komatsu's research and development efforts and its ability to access and protect certain intellectual property rights; and, the impact of regulatory changes and accounting principles and practices.

Date: January 27, 2011

URL: <http://www.komatsu.com/>**Announcement Concerning the Revision of Projected Business Results**

Komatsu Ltd. (hereinafter Company) (President and CEO: Kunio Noji) has revised the projections for consolidated and non-consolidated business results for the fiscal year ending March 31, 2011, which the Company announced on October 28, 2010.

1. Projections for Consolidated Business Results for the Fiscal Year Ending March 31, 2011 (U.S. GAAP)

	Millions of yen except per share amounts				Results for FY ended March 31, 2010
	Earlier	Current	Changes		
	projection [A]	projection [B]	[B-A]	[(B-A)/A]	
Net sales	1,760,000	1,815,000	55,000	3.1%	1,431,564
Operating income	200,000	230,000	30,000	15.0%	67,035
Income before income taxes and equity in earnings of affiliated companies	192,000	225,000	33,000	17.2%	64,979
Net income attributable to Komatsu Ltd.	120,000	140,000	20,000	16.7%	33,559
Net income attributable to Komatsu Ltd. per share (Yen)	124.00	144.66			34.67

2. Projections for Non-consolidated Business Results for the Fiscal Year Ending March 31, 2011

	Millions of yen except per share amounts				Results for FY ended March 31, 2010
	Earlier	Current	Changes		
	projection [A]	projection [B]	[B-A]	[(B-A)/A]	
Net sales	690,000	730,000	40,000	5.8%	457,676
Operating profit (loss)	67,000	78,000	11,000	16.4%	(26,829)

Net income	42,000	51,000	9,000	21.4%	2,378
Net income per share (Yen)	43.37	52.67			2.46

Table of Contents

3. Reasons for the Revision

[Projections for Consolidated Business Results]

In the construction, mining and utility equipment business, Komatsu continues to meet strong demand around the world. In particular, demand is growing more than we anticipated in China, the Americas and Japan. By anticipating an increase in the volume of sales based on this growth of demand, we are projecting that both sales and profits will outperform our projections disclosed in October 2010.

[Projections for Non-consolidated Business Results]

Similar to the revised projections for consolidated business results above, the Company continues to meet strong demand around the world in the construction, mining and utility equipment business. In particular, demand is growing more than we anticipated in China, the Americas and Japan. By anticipating an increase in the volume of sales based on this growth in demand, we are projecting that both sales and profits will outperform our projections disclosed in October 2010.

As preconditions for our current projections, we are assuming the foreign exchange rates as follows: USD1 = JPY82, EUR1 = JPY114 and RMB1 = JPY12.3 in the fourth quarter of the current fiscal year ending March 31, 2011; and USD1 = JPY85, EUR1 = JPY113 and RMB1 = JPY12.7 in the full fiscal year.

Cautionary Statement

The announcement set forth herein contains forward-looking statements which reflect management's current views with respect to certain future events, including expected financial position, operating results, and business strategies. These statements can be identified by the use of terms such as will, believes, should, projects and similar terms or expressions that identify future events or expectations. Actual results may differ materially from those projected, and the events and results of such forward-looking assumptions cannot be assured.

Factors that may cause actual results to differ materially from those predicted by such forward-looking statements include, but are not limited to, unanticipated changes in demand for Komatsu principal products, owing to changes in the economic conditions in Komatsu principal markets; changes in exchange rates or the impact of increased competition; unanticipated cost or delays encountered in achieving Komatsu objectives with respect to globalized product sourcing and new Information Technology tools; uncertainties as to the results of Komatsu research and development efforts and its ability to access and protect certain intellectual property rights; and, the impact of regulatory changes and accounting principles and practices.

(end)
