ITEM 8.01 OTHER EVENTS

Delphi Corporation (Delphi) announced on November 28, 2005 it will accelerate its discussions with General Motors Corporation (GM) regarding Delphi s restructuring efforts. Delphi said that GM has agreed to temporarily forego previously agreed-to 2006 price reductions on components provided by Delphi, to provide interim financial support. Additionally, Delphi also said it was continuing to work to achieve consensual agreements with the unions that represent Delphi employees, and that it will suspend its previously contemplated December 16, 2005 motion to petition for rejection of its collective bargaining agreements and modification of retiree health care benefits under Section 1113/1114 of the U.S. Bankruptcy Code, at least until January 20, 2006. A copy of the press release is attached as exhibit 99 (a) hereto.

Delphi and its representatives may periodically make written or oral statements that are forward-looking, including statements included in this report and other filings with the United States Securities and Exchange Commission and in reports to stockholders. All statements contained or incorporated in this report which address operating performance, events or developments that Delphi expects or anticipates may occur in the future are forward-looking statements. These statements are made on the basis of management s current views and assumptions with respect to future events. Important factors, risks and uncertainties which may cause actual results to differ from those expressed in Delphi s forward-looking statements are set forth in its Quarterly Report on Form 10-Q for the period ended September 30, 2005 and its Annual Report on Form 10-K for the year ended December 31, 2004. In particular, these factors, risks and uncertainties include, but are not limited to, the following: the ability of Delphi to continue as a going concern; the ability of Delphi to operate pursuant to the terms of the debtor-in-possession (DIP) facility; Delphi s ability to obtain court approval with respect to motions in the chapter 11 proceeding prosecuted by it from time to time; the ability of Delphi to develop, prosecute, confirm and consummate one or more plans of reorganization with respect to the chapter 11 cases; risks associated with third parties seeking and obtaining court approval to terminate or shorten the exclusivity period for Delphi to propose and confirm one or more plans of reorganization, for the appointment of a chapter 11 trustee or to convert the cases to chapter 7 cases; the ability of Delphi to obtain and maintain contracts that are critical to its operations; the potential adverse impact of the chapter 11 cases on Delphi s liquidity or results of operations; the ability of Delphi to fund and execute its business plan; the ability of Delphi to attract, motivate and/or retain key executives and associates; the ability of Delphi to attract and retain customers; and other factors, risks and uncertainties discussed in its Annual Report on Form 10-K for the year ended December 31, 2004 and other filings with the United States Securities and Exchange Commission. Delphi does not intend or assume any obligation to update any of these forward-looking statements, whether as a result of new information, future events or otherwise.
