The Employee Benefits Committee

Comerica Incorporated Preferred Savings Plan

We have audited the accompanying statements of assets available for benefits of the Comerica Incorporated Preferred Savings Plan as of December 31, 2005 and 2004, and the related statement of changes in assets available for benefits for the year ended December 31, 2005. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets available for benefits of the Plan at December 31, 2005 and 2004, and the changes in its assets available for benefits for the year ended December 31, 2005, in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2005, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

Comerica Incorporated Preferred Savings Plan
Notes to Financial Statements
December 31, 2005 and 2004, and
Year Ended December 31, 2005

1. Description of the Plan

The Comerica Incorporated Preferred Savings Plan (the Plan) is a defined contribution plan covering all eligible employees of Comerica Incorporated (the Corporation) and certain subsidiaries.

Information about the Plan agreement, participants' investment alternatives and the vesting and benefit provisions is contained in the summary plan description captioned Comerica Incorporated Preferred Savings Plan. Copies of this summary plan description are available through the Corporation's Human Resources Office.

Participants may make annual contributions to the Plan on a pre-tax basis, not to exceed the lesser of 50% of the participant's annual compensation, or the IRS allowed maximum (\$14,000, plus an additional \$4,000 for participants age 50 or over, in 2005, and \$13,000, plus an additional \$3,000 for participants age 50 or over, in 2004).

The Corporation will match a percentage of the first \$3,000 of the participant's pre-tax contributions, as defined by the Plan. In addition, the Corporation may make discretionary contributions based upon attaining certain corporate financial performance measurements. Both the Corporation match and discretionary contribution are invested in the Corporation's common stock.

Participants' investments in the Corporation's common stock, including vested corporate matching contributions, are held in an Employee Stock Ownership Plan (ESOP). Participants may elect to either reinvest the dividends in the Corporation's common stock within the Plan or receive the dividends as cash with their regular pay.

Contributions receivable represent amounts due from the Corporation under a performance match program, which rewards employees through a corporate contribution to the participants' accounts.

Participants direct the investment of their accounts, except the current period's nonparticipant-directed investment in the Corporation's common stock, among the investment funds offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Table of Contents

Comerica Incorporated Preferred Savings Plan
Notes to Financial Statements
December 31, 2005 and 2004, and
Year Ended December 31, 2005

1. Description of the Plan (continued)

The Corporation's matching contributions based on the first \$3,000 of the participant's pretax contributions are held in a restricted Comerica Incorporated Common Stock account until the end of the calendar year, when the assets held in such account become unrestricted and, therefore, eligible to be reallocated by the participants to other fund options. Approximately \$7.1 million of restricted common stock was transferred to unrestricted funds during the plan year ended December 31, 2005.

Unallocated matching employer contributions resulting from employee forfeitures are retained in the Plan and used to reduce future employer contributions. Employee forfeitures during the period are included in employer contributions in the accompanying statement of changes in assets available for benefits and are primarily retained in the Comerica Incorporated Common Stock balance as of December 31, 2005.

The following table presents a summary of changes in unallocated matching employer contributions during the plan year:

| | |
|---|-----------------------|
| Balance at January 1, 2005 | \$ 612,546 |
| Employee forfeitures during the year | 537,709 |
| Reduction of employer contributions | (436,157) |
| Net depreciation in fair value of investments | (56,129) |
| Dividend income | 18,322 |
| Balance at December 31, 2005 | \$ 676,291 |

The Corporation has the right to amend or terminate the Plan at any time. In the event the Plan is terminated, all participants' accounts become fully vested and nonforfeitable.

Effective January 1, 2004, the Plan year changed to a calendar year ending December 31. Transactions occurring on December 31, 2003 are included in the plan period ended December 31, 2004.

2. Summary of Significant Accounting Policies

The fair values of the participation units owned by the Plan in mutual and collective trust funds are based on the net asset values on the last business day of the plan year.

Table of Contents

Comerica Incorporated Preferred Savings Plan
Notes to Financial Statements
December 31, 2005 and 2004, and
Year Ended December 31, 2005

2. Summary of Significant Accounting Policies (continued)

Marketable securities are stated at fair value. Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the plan year. Investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices.

The fair value of investments in the Corporation's common stock is based on the last reported sales price on the last business day of the plan year as traded on the New York Stock Exchange.

The participant loans are valued at their outstanding balances, which approximate fair value.

Administrative expenses incurred in connection with the operation of the Plan are borne by the Corporation, except for a \$10 per quarter loan fee paid by participants for loans originated prior to July 1, 2004, which is reported in loan fees in the accompanying statement of changes in assets available for benefits. In addition, a one-time \$50 loan application fee was charged directly to the participant's account for each new loan originated prior to July 15, 2005. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

The fair value of individual investments that represent 5% or more of the Plan assets at the end of the respective years are as follows:

| | December 31, | |
|--------------------------------------|----------------------|---------------|
| | 2005 | 2004 |
| Comerica Incorporated Common Stock * | \$233,973,874 | \$263,011,048 |

Year Ended December 31, 2005

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated November 14, 2003, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

7. Differences Between Financial Statements and Form 5500

Amounts allocated to withdrawn participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to year-end but not yet paid. At December 31, 2005, there were no claims approved but not yet paid. The amount allocated on Form 5500 to withdrawn participants at December 31, 2004 was \$2,739,391.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.
