PROXY STATEMENT
JANUARY 31, 2001

ANNUAL MEETING OF STOCKHOLDERS
MARCH 16, 2001

SOLICITATION AND VOTING RIGHTS

The accompanying proxy is solicited by the Board of Directors of Powell Industries, Inc., a Nevada corporation (the "Company"), for use at the Annual Meeting of Stockholders of the Company to be held on Friday, March 16, 2001 at 11:00 a.m., Houston time, at the offices of the Company at 8550 Mosley Drive, in Houston, Texas, or at any adjournment thereof.

This Proxy Statement and proxy and the accompanying Notice of Annual Meeting, Summary Annual Report to Stockholders, and Form 10-K for the year ended October 31, 2000, including consolidated financial statements, will be mailed to stockholders on or about February 20, 2001. The cost of soliciting proxies in the enclosed form will be borne by the Company. The Board of Directors of the Company has fixed February 16, 2001, as the record date for determination of stockholders entitled to receive notice of and to vote at the Annual Meeting. As of January 31, 2001, there were 10,329,909 shares of the Company's Common Stock, par value \$.01 per share ("Common Stock"), outstanding. Each holder of Common Stock will be entitled to one vote for each share owned, except as noted below.

The presence, in person or by proxy, of the holders of a majority of the outstanding shares of Common Stock of the Company is necessary to constitute a quorum at the meeting. The holders of shares represented by proxies reflecting abstentions or "broker non-votes" are considered present at the meeting and count toward a quorum. Brokers holding shares of record for their customers generally are not entitled to vote on certain matters unless they receive voting instructions from their customers. When brokers complete proxy forms, they generally vote on those matters as to which they are entitled to vote. On those matters as to which brokers are not entitled to vote without instructions from their customers and have not received such instructions, brokers generally indicate on their proxies that they lack voting authority as to those matters. As to those matters, such indications are called "broker non-votes."

Edgar Filing: POWELL INDUSTRIES INC - Form DEF 14A

The persons receiving the greatest number of votes cast at the meeting to fill the directorships with terms to expire in 2004 will be elected as directors of the Company, class of 2004. Thus, abstentions and broker non-votes will have no effect on the election of directors.

Regarding other matters, the vote of a majority of the voting power present, in person or by proxy, and entitled to vote on the matters, at a meeting at which a quorum is present, is the act of the stockholders. Accordingly, abstentions will have the effect of negative votes with respect to any such other matters. Broker

4

non-votes will have the effect of negative votes as to any such other matters as to which the broker is entitled to vote, and no effect on those matters as to which the broker is not entitled to vote.

The shares represented by each valid proxy received by the Company on the form solicited by the Board of Directors will be voted in accordance with instructions specified on the proxy. Under Nevada law, a stockholder giving a duly executed proxy may revoke it before it is exercised only by filing with or transmitting to the Secretary of the Company an instrument or transmission revoking it, or a duly executed proxy bearing a later date.

Only the directors who are not employees of the Company or any of its

Edgar Filing: POWELL INDUSTRIES INC - Form DEF 14A

subsidiaries or affiliates are entitled to receive a fee, plus reimbursement of out-of-pocket expenses, for their services as directors. Under the Company's standard arrangement for compensation of directors, outside directors receive a quarterly retainer of \$2,000 and a fee of \$2,000 for each board meeting attended. Members of a committee other than the chairman receive a fee of \$600 for attending each committee meeting. Committee chairmen receive \$1,000 for attending each committee meeting.

In 1993, the Company adopted the Powell Industries, Inc. Directors' Fee Program which permits directors to defer receipt of the directors' fees to which they would otherwise be entitled and to have such deferred fees allocated to a shadow account as if they were invested in Common Stock of the Company on the date the fees were payable. Then upon expiration of the deferral period or the retirement or death of the director, payment will be made in the form of shares of Common Stock equal to the number of shares in his shadow account (plus any distributions on the Common Stock that were credited to the shadow account).

In 2000, the Company adopted the 2000 Non-Employee Director Stock Option Plan. The Board of Directors has reserved 24,000 shares of Common Stock for issuance under the Plan. The Plan is administered by the Board of Directors. Eligibility to participate in the Plan is limited to those individuals who are members of the Board of the Company and who are not an employee of the Company or any affiliate of the Company. The Plan became effective on June 25, 2000. On June 26, 2000, each of the non-employee directors were issued options to acquire 2,000 shares of the Company's common stock.

Four meetings of the Board of Directors were held in the last fiscal year. No incumbent director attended fewer than seventy-five percent (75%) of the aggregate of (1) the total number of meetings of the Board of Directors and (2) the total number of meetings held by all committees of the Board on which he or she served.

The Board of Directors has a standing Audit Committee which met four times during the last fiscal year. The Audit Committee consists of Messrs. Butler, Seale and Tanner. The Audit Committee has the responsibility to assist the Board of Directors in fulfilling its fiduciary responsibilities as to accounting policies and reporting practices of the Company and its subsidiaries and the sufficiency of the audits of all Company activities. It is the Board's agent in ensuring the integrity of financial reports of the Company and its subsidiaries, and the adequacy of disclosures to shareholders. The Audit Committee is the focal point for communication between other directors, the independent auditors, internal auditor and management as their duties relate to financial accounting, reporting, and controls. During fiscal 2000, the Board of Directors of the Company adopted an Audit Committee Charter. The current members of the Audit Committee are "independent" as that term is defined by Rule 4200(a)(15) of the listing standards of the National Association of Securities Dealers. A copy of the Audit Committee Charter is included as Appendix A to this Proxy Statement. All meetings of the Audit Committee were separate and apart from the full Board of Directors during fiscal 2000.

AUDIT COMMITTEE REPORT

The Audit Committee has (1) reviewed the Company's audited financial statements for fiscal 2000 and discussed them with Management, (2) discussed with the Company's independent accountant the matters required to be discussed by Statement of Auditing Standard 61, as amended, (3) received written disclosures and a letter from the Company's independent accountants required by Independence Standards Board Statement No. 1, and (4) discussed the independence of the Company's accountants with the accountants. Based on the foregoing

Edgar Filing: POWELL INDUSTRIES INC - Form DEF 14A

discussions, the Audit Committee recommended to the Company's Board of Directors that the Company's audited financial statements be included in its annual report on Form 10-K for the year ended October 31, 2000.

The Audit Committee:

Eugene L. Butler
 Stephen W. Seale, Jr.
 Lawrence R. Tanner

The Board of Directors also has a standing Compensation Committee comprised of Mr. Becherer, Mrs. Powell and Mr. Tranchon, all of whom are nonemployee directors of the Company. The Compensation Committee, which held two meetings during the last fiscal year, provides oversight on behalf of the full Board on development and administration of the Company's executive compensation program and each component plan in which officers and directors are eligible to participate. The Compensation Committee also administers the Stock Option Plan, the Director's Fee Program and the Incentive Compensation Plan of the Company.

The Board of Directors does not have a standing nominating committee.

Each of the named executive officers is covered by the Company's Executive Severance Protection Plan, which provides severance pay and other specified benefits upon termination of employment other than for cause (as defined in the Plan) within three years of a change in control of the Company. The benefits

Edgar Filing: POWELL INDUSTRIES INC - Form DEF 14A

payable in such event (grossed up for taxes) are (1) three times the officer's current annual base salary, plus (2) three times the maximum incentive opportunity for the officer under the Company's then current Incentive Compensation Plan, plus (3) continuation of medical, dental, and life insurance benefits for three years or until the officer is covered under another plan, whichever is earlier.

Thomas W. Powell is covered by the Company's Executive Benefit Plan. Pursuant to Mr. Powell's Executive Benefit Agreement executed under such Plan, he is entitled to the following payments: (1) if he should die while in active employment with the Company, a lump sum benefit of \$630,000 payable to his designated beneficiary; (2) upon normal retirement on or after age 65 and the completion of at least ten years of continuous employment, salary continuation payments of \$150,000 per year for five years and then \$75,000 per year for ten years; (3) upon termination of employment prior to qualifying for normal retirement but after attaining age 55 and the completion of at least ten years of continuous employment with the Company, the salary continuation payments payable upon normal retirement, reduced by 1/2% for each month prior to age 65 that employment is terminated, commencing on the later of the date of retirement or attainment of age 60; and (4) upon a sale of all or substantially all of the property and assets of the Company other than in the usual course of its business, or a merger of the Company wherein the Company is not the surviving corporation, and within two years thereafter Mr. Powell's employment with the Company is terminated or he resigns following a change of his position to one of less responsibility, Mr. Powell would be entitled to receive salary continuation payments of \$150,000 per year for five years and then \$75,000 per year

for ten years. If Mr. Powell entered into competition with the Company following termination or retirement described in (3) above, he would (a) forfeit all further payments if the competition occurred within 36 months following termination, or (b) not be entitled to any further payments until age 60, if the competition occurred after 36 months following termination.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During the last fiscal year of the Company, Joseph L. Becherer, Bonnie L. Powell, and Robert C. Tranchon served on the Compensation Committee of the Board of Directors of the Company. None of them has ever served as an officer of the Company or any of its subsidiaries.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee (the "Committee") of your Board of Directors is pleased to present to the shareholders its annual report on executive compensation. This report summarizes the responsibilities of the Committee, the compensation policy and objectives that guide the development and administration of the executive compensation program, each major component of the program, and the basis on which the compensation for the Chief Executive Officer, corporate officers and other key executives was determined for the fiscal year ended October 31, 2000.

The Compensation Committee, at the June 16, 2000 meeting of the Board of Directors, recommended the adoption of a Non-Employee Director Stock Option Plan for the benefit of members of the Board of Directors of the Company who, at the time of their service, are not employees of the Company or any of its affiliates, by providing them an opportunity to become owners of the common stock of the Company, thereby advancing the best interest of the Company by increasing their proprietary interest in the success of the Company and encouraging them to continue in their present capacity. The Plan as presented by

Edgar Filing: POWELL INDUSTRIES INC - Form DEF 14A

the Compensation Committee was approved by the Board of Directors with an effective date of June 25, 2000. The Plan provides, among other things, that a total of 24,000 shares of the Company's common stock was reserved for issuance under the Plan and that each eligible director would receive an annual grant of an option to purchase 2,000 shares of the Company's common stock at the fair market value of such stock on the date of such grant. At this same Board of Directors meeting, grants of 2,000 shares each were made to the Company's six non-employee directors.

The Compensation Committee, which held two meetings during the last fiscal year, provides oversight on behalf of the full Board on development and administration of the Company's executive compensation program and each subcomponent plan under which officers or directors are eligible to participate. The Compensation Committee also administers the Stock Option Plan, Directors Fee Program and the Incentive Compensation Plan of the Company.

Executive Compensation Philosophy

The philosophy of the Committee is that the Company's executive compensation program should be an effective tool for fostering the creation of shareholder value. The following objectives guide the Committee in its deliberations:

- Provide a competitive compensation program that enables the Company to attract and retain key executives and Board members.

13

16

- Assure a strong relationship between the performance results of the Company or subsidiary and the total compensation received.
- Balance both annual and longer performance objectives of the Company.
- Encourage executives to acquire and retain meaningful levels of Common Stock of the Company.
- Work closely with the Chief Executive Officer to assure that the compensation program supports the management style and culture of the Company.

In addition to normal employee benefits, the executive total compensation program includes base salary, annual cash incentive compensation, and longer term stock based grants and awards.

Comparisons are made and surveys taken periodically to determine competitive compensation levels and practices for certain benchmark positions in the Company. Such analysis covers broad group of manufacturing companies, and the results are adjusted for differences in factors such as company size and position responsibilities. This comparison group is broader than the published industry index of companies included in the cumulative total return performance graph presented elsewhere in this Proxy Statement because it is more representative of the executive market in which the Company competes for talent and provides a consistent and stable market reference from year to year. Other comparative information from national survey databases, proxy statement disclosures, and general trend data provided by compensation consultants is also considered.

Variable incentives, both annual and longer term, are important components of the program and are used to link pay and performance results. Variable incentive awards and performance standards are calibrated such that total compensation will generally approximate the market 50th percentile when Company performance results are at target levels which approximate the recent historical

Edgar Filing: POWELL INDUSTRIES INC - Form DEF 14A

performance of the Company (subject to certain minimum target levels), and will exceed the 50th percentile when performance exceeds targets. However, changes in the mission and strategy of the Company or certain of its subsidiaries as well as projected profit and growth are also important considerations in the calibration of the Company's total executive compensation program.

The Internal Revenue Code (Section 162(m)) imposes a \$1,000,000 limit, with certain exceptions, on the deductibility of compensation paid to each of the five highest paid executives. In particular, compensation that is determined to be "performance based" is exempt from this limitation. To be "performance based," incentive payments must use predetermined objective standards, limit the use of discretion in making awards, and be certified by the Compensation Committee made up of "outside directors." While the Committee believes that the use of discretion is appropriate in specific circumstances, it believes that the annual incentive compensation and longer term stock plans comply with the provisions of Section 162(m) as "performance based." It is not anticipated that any executive will receive compensation in excess of this limit during fiscal year 2001. The Committee will continue to monitor this situation and will take appropriate action if it is warranted in the future.

14

17

Following is a discussion of each of the principal components of the executive total compensation program.

BASE SALARY

The base salary program targets the median of the primary comparison group for corporate officers and managers. Since subsidiary presidents generally have a higher incentive opportunity relative to comparable positions in the market, base salaries for subsidiary presidents are targeted somewhat below the market median. Each executive's base salary is reviewed individually each year. Salary adjustments are based on the individual's experience and background, performance during the prior year, the general movement of salaries in the marketplace, and the Company's financial position. Due to these factors, an executive's base salary may be above or below the target point at any point in time.

ANNUAL INCENTIVE COMPENSATION

The Company administers an annual incentive plan for its corporate officers and managers, and subsidiary presidents and selected subsidiary managers. The goal of the plan is to reward participants in proportion to the performance of the Company and/or the subsidiary for which they have direct responsibility, and their individual contributions to the Company's performance.

The amount of annual incentive compensation each participant is eligible to earn varies based on his potential contribution to the future performance of his subsidiary or the Company. The amount of such compensation actually earned by each participant is based on the actual financial performance of his subsidiary or the Company for the year compared to profit and growth target ranges which are set at the beginning of that year. Historical performance, current mission and strategy, and projected profit and growth capability are considered in setting the targets for each subsidiary and the Company.

STOCK BASED COMPENSATION

Stock ownership is encouraged through the use of a stock plan that provides for the grant of stock options and stock awards. Stock option grants are made on a periodic basis (typically every other year) and are based on competitive multiples of base salary. Senior executives typically have a higher multiple and, as a result, have a greater portion of their total compensation linked to

Edgar Filing: POWELL INDUSTRIES INC - Form DEF 14A

the longer term success of the Company. In determining the appropriate grant multiples, the Company targets the market median among publicly held manufacturing companies of similar size. To encourage stock retention, participants who retain the shares obtained through the exercise of an option receive a restricted stock award equal to one additional restricted share for every five option shares retained for five years from the date they were acquired.

Compensation of the Chief Executive Officer

The Chief Executive Officer, Mr. Thomas W. Powell, participates in the executive compensation program described in this report.

In establishing the total compensation program for Mr. Powell, the Committee assessed the pay levels for CEOs in similar companies in the manufacturing industry and the profit performance of the Company.

Respectfully submitted,

The Compensation Committee of the Board of Directors

PROPOSAL TO APPROVE THE AMENDMENT
OF THE 1992 POWELL INDUSTRIES, INC.
STOCK OPTION PLAN

GENERAL

The Board of Directors believes that the Powell Industries, Inc. Stock

Edgar Filing: POWELL INDUSTRIES INC - Form DEF 14A

Option Plan (the "Plan") has been of material benefit to the Company. However, the current Plan provides that the total number of shares of Common Stock of the Company with the respect to which options and other awards may be granted under the Plan is 1,500,000, and only 225,864 shares remain available for grants under the Plan. The Board believes that it is in the best interest of the Company and its stockholders to amend the Plan to increase the maximum number of shares of Common Stock of the Company with the respect to which grants may be made under the Plan from 1,500,000 to 2,100,000 to enable the Company to continue to provide officers and other key employees an opportunity to acquire a proprietary interest in the Company through the acquisition of its Common Stock, thereby rewarding employees for meritorious service and helping them to develop a stronger incentive to work for the continued success of the Company and assisting the Company in attracting and retaining outstanding personnel in today's competitive labor market.

On January 30, 2001 the Board of Directors approved such amendment of the Plan, subject to and contingent upon approval by the Company's stockholders of such amendment. At the annual meeting of stockholders, the stockholders will be asked to approve the amendment to the Plan to increase the maximum number of shares available under the Plan from 1,500,000 shares of the Company's Common Stock to 2,100,000 shares (subject to adjustment in the event of stock dividends, stock splits, and other contingencies).

DESCRIPTION OF THE PLAN

The description of the principal provisions of the Plan set forth herein is intended solely as a summary and is subject to and qualified by the full text of the Plan. The principal features of the Plan are as follows:

Administration. The Plan is administered by the Compensation Committee of the Board of Directors (the "Committee"). The Committee has the authority, subject to the provisions of the Plan, to determine the employees (except as noted in "Eligibility" below) to whom awards, options, or stock appreciation rights may be granted; to determine the number of shares and purchase or exercise price of each award or option; to determine the terms, conditions, and restrictions of each award or option; to determine whether or not to include in any award or option the right of the recipient or optionee to surrender all or a portion of an award or option and receive in exchange therefor an amount in cash or other property and to determine the terms and conditions of any such surrender rights; to determine the effect, if any, on an award or option of the death, disability, retirement, or termination of employment of the employee receiving an award or option; and to otherwise construe, interpret, and administer the Plan.

Eligibility. Any employee of the Company or any subsidiary of the Company is eligible to participate in the Plan, except that no member of the Committee may receive an award or option if receipt of it would cause the individual not to be a "Disinterested Person" as defined in Rule 16b-3 under the Securities Exchange Act of 1934. There are approximately 1,300 employees of the Company and its subsidiaries. However, since the Plan provides that future as well as present employees may participate, it is not possible to determine the number of employees who will be eligible to participate. Further, since receipt of benefits under the Plan depends upon the particular grants made from time to time by the Committee, in its discretion, it is not possible to determine the amounts that will be received under the Plan as a result of this proposed

amendment, or that would have been received during the last fiscal year had such amendment been in effect, by the executive officers listed in the Summary Compensation Table above, by all current executive officers as a group, or by

Edgar Filing: POWELL INDUSTRIES INC - Form DEF 14A

all employees (no current directors of the Company who are not executive officers of the Company are currently eligible to participate in the Plan).

Purchase Price. The Committee has the authority to determine the purchase price, if any, for awards of Common Stock and the exercise price for stock options. The purchase price may be less than the fair market value of the stock. The Committee may determine the consideration, if any, to be received by the Company for granting or extending an award or stock option.

Awards and Options and Stock Appreciation Rights. The Plan provides for the award of restricted stock, the grant of nonincentive stock options, including reload options, and the grant of stock appreciation rights, all with respect to the Common Stock of the Company.

AWARDS: The Committee may grant an award of Common Stock to a participant pursuant to a Restricted Stock Agreement. The Committee may vary the terms and conditions of each award, including without limitation, the period (not to exceed 10 years) during which the award may be restricted or exercised, the manner of exercise, the vesting period, the price to be paid for the stock, if any, and the events which may result in termination of award rights. Unless expressly provided otherwise in the award, the participant's unexercised rights will expire upon termination of employment.

OPTIONS: Options granted under the Plan will be nonincentive or nonqualified stock options ("NSO") which are options that do not meet the requirements of Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"). In 1999, the Board of Directors amended the Plan to provide that the Plan would remain in effect until no grants and no further shares remain outstanding or available under the Plan. This action by the Board of Directors in renewing and amending the Plan had the effect of eliminating grants under the Plan of incentive stock options meeting the requirements of Section 422 of the Code. Additionally, the Plan authorizes the issuance of reload options and stock appreciation rights ("SARs") (discussed below) as part of the stock options.

OPTION PRICE: The price and terms at which the participant may purchase shares of Common Stock subject to a NSO or SAR shall be determined by the Committee in its discretion, but the option price may not be less than the par value of the stock. Shares purchased pursuant to options must be paid in full at the time of exercise. Such payment may be made in the form of cash, Company Common Stock, or other form of payment acceptable to the Committee. As of January 30, 2001, the market value of the Common Stock was \$13.50 per share.

TERMS OF OPTIONS: No option is exercisable after the expiration of ten years from the date of grant, or five years in the case of a 10% shareholder. Unless the option agreement provides otherwise, all options terminate immediately upon severance of employment from the Company for any reason other than death, retirement for age or disability under then established rules of the Company, or severance for disability. In these cases, an extended exercise period is provided, but the exercise period as extended cannot exceed the original option period. At the time of exercise, the optionholder must satisfy any additional conditions imposed by the Committee at the time of grant. Unless the shares purchased pursuant to an option are effectively registered under the Securities Act of 1933, as amended, at the time of exercise, the optionee must represent and agree that such shares are being purchased for investment.

RELOAD OPTIONS: The Committee may grant reload options in connection with issuance of an NSO. Under a reload option, if the exercise of the stock option is paid in whole or in part in Common Stock, the

Edgar Filing: POWELL INDUSTRIES INC - Form DEF 14A

reload option will (1) result in issuance of additional options for the same numbers of shares of Company Stock surrendered; (2) be an NSO; and (3) be subject to the same terms and conditions as the original option unless a change is specifically provided.

STOCK APPRECIATION RIGHTS: The Plan provides that the Committee may, at its discretion, grant stock appreciation rights ("SARs") to some or all optionholders at the time of grant of an option. Each SAR granted with an option will be exercisable at the times and to the extent that the related stock options (the "Related Option") are exercisable. At the time of exercise, the holder will become entitled to receive, in cash and/or shares of Common Stock at the discretion of the Committee, the difference between the fair market value of one share of Common Stock and the exercise price per share specified in the Related Option, multiplied by the number of shares in respect of which the SAR was exercised. The Plan also authorizes the Committee to issue SARs which are not a part of a Related Option. The exercise price and terms of these SARs shall be specified by the Committee in the Stock Appreciation Rights Agreement granting the SAR.

PARTICIPATION: Stock options, SARs, and awards may be granted to officers and key employees (including those who are directors, except as provided above), as selected by the Committee. The Committee selects participants and determines the conditions of exercisability of options.

FORFEITURE: If the Committee finds that a participant has been discharged for fraud, embezzlement, theft, commission of a felony, or proven dishonesty in the course of employment, which conduct has damaged the Company, or if a participant has participated, engaged, or had a financial interest, whether as an employee, officer, director, consultant, contractor, shareholder, owner or otherwise, in any commercial endeavor in the United States which is competitive with the business of the Company without the written consent of the Company, the participant shall forfeit all options, reload options, SARs and awards which have not vested and for which the Company has not delivered a stock certificate.

Amendment and Termination. The Board of Directors may suspend or discontinue the Plan and may amend the Plan with respect to shares at the time not subject to unexercised options of awards, but may not (except with stockholder approval) change the number of shares subject to the Plan or change the class of employees and others eligible to participate.

Tax Status. NSOs -- Under current interpretations of the Code, the grant of a NSO to a Plan participant will not result in the recognition of any taxable income by the participant. A participant will recognize income at the date of exercise of a NSO on the difference between (i) the fair market value of the shares acquired pursuant to the exercise of the NSO, and (ii) the exercise price of the NSO. With regard to a participant who is an Insider, taxation arising by virtue of the exercise of the NSO will be deferred until the sale of the shares acquired would no longer subject the participant to the Section 16(b) Restrictions, unless the participant elects to be taxed on the date of exercise of the NSO. A participant who exercises his option more than six months after the date of grant of such option would not be subject to Section 16(b) Restrictions at the time of exercise.

The Company will be entitled to a deduction in the same amount as the income recognized by a participant due to the exercise of a NSO.

SARs -- Under current interpretations of the Code, the grant of a SAR to a participant will not result in recognition of any taxable income by the participant. If a participant receives cash upon exercise of a SAR, he will recognize ordinary income upon exercise in an amount equal to the payment received. If a participant receives stock upon exercise of a SAR, he will recognize ordinary income at the date of exercise in the same manner and amount

Edgar Filing: POWELL INDUSTRIES INC - Form DEF 14A

as described above with respect to the exercise of a NSO.

19

22

The Company will be entitled to a deduction in the same amount as the income recognized by the participant due to the exercise of a SAR.

Awards -- Generally, the participant will be taxed at the time the restrictions on the subject stock lapse and the stock vests in the participant or is transferable by the participant. At that time, the participant would recognize ordinary income determined by the fair market value of the stock in excess of the price, if any, paid by the participant for the stock.

The Company will be entitled to a deduction in the same amount as the income recognized by the participant related to an award of stock, in the year so recognized.

MATERIAL DIFFERENCE FROM THE EXISTING PLAN

The only difference between the existing Plan and the Plan as proposed to be amended is that the maximum number of shares of the Common Stock of the Company which may be issued under the Plan would be increased from 1,500,000 to 2,100,000 (subject to adjustment in the event of stock dividends, stock splits, and other contingencies).

APPROVAL

Pursuant to the resolution of the Board of Directors approving this amendment to the Plan, this amendment will not become effective until it is approved by the holders of a majority of the shares of voting stock of the Company present and entitled to vote at a meeting of the stockholders of the Company at which a quorum is present.

The Board of Directors recommends a vote FOR approval of this amendment of the Plan.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers and directors, and persons who own more than ten percent of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Officers, directors and greater-than-ten percent stockholders are required by the regulation to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on the Company's review of the copies of such forms received by it, or written representations from certain reporting persons that no Form 5 reports were required for those persons, the Company believes that all filing requirements applicable to its officers and directors and greater-than ten percent beneficial owners during the 2000 fiscal year were complied with, except that Mr. Robert C. Tranchon, a director of the Company, failed to file one report reflecting one transaction that was not reported on a timely basis, and Mr. Thomas C. Burnett, President of Unibus, filed one late report reflecting one transaction that was not reported on a timely basis.

STOCKHOLDER PROPOSALS

Proposals of stockholders to be presented at the Annual Meeting of Stockholders to be held in 2002 must be received at the office of the Secretary of the Company no later than October 1, 2001 in order to be included in the Company's proxy statement and form of proxy relating to that meeting.

A shareholder that intends to present business at the 2002 annual meeting and has not submitted such proposal by the date set forth above must notify the Company no later than January 6, 2002.
