PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights information about our company. It is not complete and does not contain all the information that you should consider before investing in our common stock. You should read all of this prospectus supplement, the accompanying prospectus and the documents incorporated by reference to fully understand our company. Unless the context indicates otherwise, when we refer to El Paso, us, we, our, or ours, we are describing El Paso Corporation, together with its subsidiaries.

Our Business

Overview

We are an energy company, originally founded in 1928 in El Paso, Texas, with a stated purpose to provide natural gas and related energy products in a safe, efficient and dependable manner. Our long-term business strategy is focused on participating in the energy industry through a rate regulated natural gas transmission business in North America and a large, independent exploration and production business operating both domestically and internationally.

Natural Gas Transmission. We own North America's largest interstate pipeline system, which has approximately 55,500 miles of pipe that connect North America's major producing basins to its major consuming markets. We also own approximately 420 billion cubic feet, or Bcf, of storage capacity and a liquefied natural gas, or LNG, import facility with 806 million cubic feet, or MMcf, of daily base load sendout capacity.

Exploration and Production. Our exploration and production business is focused on the exploration for and the acquisition, development, and production of natural gas, oil and natural gas liquids, or NGL, in the United States and Brazil and related marketing activities. As of December 31, 2005, we held an estimated 2.4 trillion cubic feet of natural gas equivalents, or Tcfe, of proved natural gas and oil reserves in the United States and Brazil, exclusive of our equity share in the proved reserves of an unconsolidated affiliate of 253 billion cubic feet of natural gas equivalents, or Bcfe.

Other. We currently own or have owned other non-core assets acquired as part of a number of mergers and acquisitions and growth initiatives when we expanded from a regional gas pipeline company in the mid-1990's to an international energy company by early 2001. Since 2003, a substantial portion of these assets have been sold, have pending sales contracts or are in the process of being sold. The divestiture of these assets was targeted at improving our operating results, financial condition and liquidity, which were negatively impacted by the decline of the energy trading industry, bankruptcy of several energy industry participants and our credit downgrades.

Business Objective and Strategy

We conduct our core natural gas transmission and exploration and production operations through our Pipelines, Exploration and Production and Marketing and Trading segments. We also have a Power segment and, prior to January 1, 2006, had a Field Services segment. Our business segments provide a variety of energy products and services and are managed separately as each segment requires different technology and marketing strategies. For further discussion of our business segments, including their operating results and assets, see the information set forth under the headings Business, Management's Discussion and Analysis of Financial Condition and Results of Operations, and Financial Statements and Supplementary Data, Note 20 of our May 12, 2006 Current Report on Form 8-K. Our business strategy in each of our operating segments can be summarized as follows:

Pipelines	Enhancing the value of our transmission business through successful recontracting, continuous efficiency improvements through cost management and prudent capital spending in the United States and Mexico, while providing outstanding customer service through safe operations.
-----------	---

Table of Contents

Exploration and Production Growing our reserve base in a manner that creates shareholder value through disciplined capital allocation, cost control and portfolio management.

Marketing and Trading Marketing our natural gas and oil production at optimal prices and managing associated price risks and legacy contracts.

The assets remaining in our Power segment are used to serve customers under long-term power sales contracts or sell power to the open market in spot market transactions. Prior to January 1, 2006, our Field Services segment provided processing and gathering services. As of January 1, 2006, our Field Services segment ceased to be a business segment as we had divested of substantially all of its operations.

We are a Delaware corporation with principal executive offices in the El Paso Building, located at 1001 Louisiana Street, Houston, Texas 77002, and our telephone number at that address is (713) 420-2600.

RISK FACTORS

Before you invest in our common stock, you should consider the risks, uncertainties and factors that may adversely affect us that are discussed under the caption Risk Factors Cautionary Statement For Purposes of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995 in our 2005 Form 10-K, which is incorporated by reference herein.

The price of our common stock may fluctuate significantly, which may make it difficult for you to resell common stock when you want or at prices you find attractive.

The price of our common stock on the New York Stock Exchange constantly changes. We expect that the market price of our common stock will continue to fluctuate.

Our common stock price can fluctuate as a result of a variety of factors, many of which are beyond our control. In addition, the stock market in general has experienced extreme volatility that has often been unrelated to the operating performance of a particular company. These broad market fluctuations may adversely affect the market price of our common stock.

Our corporate documents and Delaware law contain provisions that could discourage, delay or prevent a change in control of our company even if some stockholders might consider such a development favorable, which may adversely affect the price of our common stock.

Provisions in our amended and restated certificate of incorporation and amended and restated by-laws may discourage, delay or prevent a merger or acquisition involving us that our stockholders may consider favorable. For example, our amended and restated certificate of incorporation authorizes our board of directors to issue shares of preferred stock to which special rights are attached, including voting and dividend rights.

We are also subject to the anti-takeover provisions of Section 203 of the Delaware General Corporation Law. Under these provisions, if anyone becomes an interested stockholder, we may not enter into a business combination with that person for three years without special approval, which could discourage a third party from making a takeover offer and could delay or prevent a change of control. For purposes of Section 203, interested stockholder means, generally, someone owning 15% or more of our outstanding voting stock or an affiliate of ours that owned 15% or more of our outstanding voting stock during the past three years, subject to certain exceptions as described in Section 203.

Upon a change in control as defined in our existing credit facilities, the lenders under such existing credit facilities will have the right to require us to repay all of our outstanding obligations under the facility. In addition, the holders of certain series of indebtedness of certain of our subsidiaries will have the right upon the occurrence of a change of control as defined in such indebtedness or the indenture relating thereto, subject to certain conditions, to require us to repurchase their notes at a price equal to 100% or 101% of their principal amount, plus accrued and unpaid interest to the date of repurchase. These provisions in our debt instruments may deter a change in control transaction that would result in an increase in the trading price of our common stock, and accordingly, these provisions may adversely affect the price of our common stock.

Table of Contents**USE OF PROCEEDS**

We estimate that the net proceeds of this offering, after giving effect to any deemed underwriting discounts and estimated expenses payable by us, will be approximately \$500.5 million. We intend to use the net proceeds to repay amounts outstanding under the secured credit agreement of our subsidiary, El Paso Exploration & Production Company, or EPEP, and to the extent of any excess net proceeds, for general corporate purposes.

Affiliates of the underwriter are lenders under the EPEP loan. We intend to repay approximately \$500 million of the amounts outstanding under the EPEP loan with a portion of the net proceeds of this offering, of which approximately \$13.5 million will reduce the indebtedness outstanding to such affiliates. See Underwriting.

Borrowings under the EPEP credit agreement bear interest at either (a) the domestic bank rate plus 0.25% to 0.875%, or (b) the London InterBank Offered Rate, or LIBOR, plus 1.25% to 1.875%. The applicable interest rate was 6.875% as of May 23, 2006. Borrowings under the EPEP loan mature on August 30, 2010. EPEP incurred borrowings under the EPEP loan to finance a portion of the purchase price for the Medicine Bow Energy Corporation acquisition in August 2005. The EPEP loan is secured by a perfected lien on some of EPEP's oil and gas assets.

PRICE RANGE OF COMMON STOCK AND DIVIDEND POLICY

Our common stock is listed for trading on the NYSE under the symbol EP. The following table sets forth the quarterly intra-day high and low share price information for the periods indicated. See the table under the caption

Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities in our 2005 Form 10-K.

	High	Low	Dividends
Year Ended December 31, 2006			
First Quarter	\$13.95	\$11.80	\$0.04
Second Quarter (through May 22, 2006)	\$16.00	\$11.85	\$0.04

On May 22, 2006, the closing sale price of our common stock was \$14.20.

Holders of our common stock are entitled to receive dividends when, as and if declared by our board of directors. Under the terms of our outstanding preferred stock, we are restricted from paying any cash dividend on our common stock if we are not current in our dividend payments with respect to that preferred stock. Also, although our secured credit facility does not contain any direct restriction on the payment of dividends, dividends are included as a fixed charge in the calculation of our fixed charge coverage ratio in that facility, and consequently, that facility's fixed charge coverage ratio requirement may function as an indirect restriction our ability to pay additional dividends. In the future, we may agree to further restrictions on our ability to pay dividends. Our future dividend policy may depend on earnings, financial condition, liquidity, capital requirements and other factors.

UNDERWRITING

We and Banc of America Securities LLC have entered into an underwriting agreement with respect to the shares of common stock being offered and sold in this offering. Subject to certain conditions, the underwriter has agreed to purchase the number of shares indicated on the cover page of this prospectus supplement.

The underwriter may receive from purchasers of the shares normal brokerage commissions in amounts agreed with such purchasers.

The underwriter proposes to offer the shares of common stock from time to time for sale in one or more transactions in the NYSE, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by it and subject to its right to reject any order in whole or in part. In connection with the sale of the shares of common stock offered hereby, the underwriter may be deemed to have received compensation in the form of underwriting discounts. The underwriter may effect such transactions by selling shares of common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriter and / or purchasers of shares of common stock for whom they may act as agents or to whom they may sell as principal.

In connection with the offering, the underwriter may purchase and sell shares of common stock in the open market. These transactions may include short sales and purchases to cover positions created by short sales. Short sales involve the sale by the underwriter of a greater number of shares than it is required to purchase in the offering. The underwriter will need to close out any short sale by purchasing shares in the open market. The underwriter is likely to create a short position if it is concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering.

Purchases to cover a short position, as well as other purchases by the underwriter for its own account, may have the effect of preventing or retarding a decline in the market price of the company's stock, and may maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on NYSE, in the over-the-counter market or otherwise.

El Paso Corporation has agreed with the underwriter, subject to certain exceptions, not to offer, sell or otherwise dispose of or hedge its common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus supplement continuing through the date 90 days after the date of this prospectus supplement, except with the prior written consent of the underwriter.

El Paso Corporation's officers and directors have agreed with the underwriter not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus supplement continuing through the date 60 days after the date of this prospectus supplement, except with the prior written consent of the underwriter. This agreement does not apply to transfers of (a) shares of common stock sold pursuant to any existing written plan consistent with Rule 10b5-1 of the Securities Exchange Act of 1934, as amended, (b) shares of common stock withheld by El Paso Corporation to satisfy withholding tax obligations in connection with the vesting of restricted stock, (c) shares of common stock of El Paso Corporation if the transfer is by gift, will or intestacy or to a member of such person's immediate family or to a trust of which such person or immediate family member is the beneficiary, (d) shares of common stock acquired upon the exercise of options granted under El Paso Corporation's stock option or stock incentive plans that would otherwise expire during the 60-day lock-up period described above and (e) shares of common stock with the prior written consent of the underwriter; *provided* that in the case of a transfer pursuant to clause (c) above, it shall be a condition to the transfer that (1) the transferee execute an agreement stating that the transferee is receiving and holding the securities subject to the lock-up restrictions described in this paragraph and

Table of Contents

(2) any such transfer shall not involve a disposition for value and no party, including the transferor, shall be required to, nor shall it voluntarily, file a report under Section 16(a) of the Securities Exchange Act of 1934, as amended, in connection with such transfer (other than a filing on Form 5 made after the expiration of the 60-day lock-up period referred to above). Furthermore, such restrictions shall not be applicable to the adoption by any such officer or director of a written plan consistent with Rule 10b5-1 of the Securities Exchange Act of 1934, as amended, so long as any sales under such written plan occur after the expiration of the 60-day lock-up period described above.

The underwriter has represented and agreed that:

(a) it has not made or will not make an offer of shares to the public in the United Kingdom within the meaning of section 102B of the Financial Services and Markets Act 2000 (as amended), or FSMA, except to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities or otherwise in circumstances which do not require the publication by El Paso Corporation of a prospectus pursuant to the Prospectus Rules of the Financial Services Authority, or FSA;

(b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of FSMA) to persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 or in circumstances in which section 21 of FSMA does not apply to El Paso Corporation; and

(c) it has complied with, and will comply with all applicable provisions of FSMA with respect to anything done by it in relation to the shares in, from or otherwise involving the United Kingdom.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), the underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date) it has not made and will not make an offer of shares to the public in that Relevant Member State prior to the publication of a prospectus in relation to the shares which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of shares to the public in that Relevant Member State at any time:

(c) in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an offer of shares to the public in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression Prospectus Directive means Directive 2003/71/ EC and includes any relevant implementing measure in each Relevant Member State.

The shares may not be offered or sold by means of any document other than to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent, or in circumstances which do not constitute an offer

to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong, and no advertisement, invitation or document relating to the shares may be

You should rely only on the information provided in or incorporated by reference in this prospectus, any prospectus supplement, or documents to which we otherwise refer you. We have not authorized anyone else to provide you with different information. We are not making an offer of any securities in any jurisdiction where the offer is not permitted. This prospectus is part of a registration statement that we have filed with the Securities and Exchange Commission, or SEC, utilizing a shelf registration process. Under this shelf process, we may sell different types of securities described in this prospectus in one or more offerings. CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

We have made statements in this document and in documents that we have incorporated by reference into this document that constitute forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements include information concerning possible or assumed future results of operations of El Paso. The words **believe**, **expect**, **estimate**, **anticipate** and similar expressions will generally identify forward-looking statements. These statements may relate to information or assumptions about:

earnings per share;

capital and other expenditures;

dividends;

financing plans;

capital structure;

liquidity and cash flow;

pending legal proceedings, claims and governmental proceedings, including environmental matters;

future economic and financial performance;

management's plans; and

goals and objectives for future operations.

Forward-looking statements are subject to risks and uncertainties. While we believe the assumptions or bases underlying the forward-looking statements are reasonable and are made in good faith, we caution that assumed facts or bases almost always vary from actual results, and these variances can be material, depending upon the circumstances. We cannot assure you that the statements of expectation or belief contained in the forward-looking statements will result or be achieved or accomplished. Important factors that could cause actual results to differ materially from estimates or projections contained in forward-looking statements include, among others, the following:

the risk that earnings may be adversely affected by fluctuating energy commodity prices;

Table of Contents

the risk that rates charged to customers may be reduced by governmental authorities;

the risks associated with the construction of new facilities, including cost overruns, the realization of anticipated future growth in natural gas supplies and our ability to obtain the necessary consents and approvals;

the highly competitive nature of the natural gas transportation, gathering, processing and storage businesses and the oil and gas exploration and production business;

the risk of favorable customer contracts expiring or being renewed on less attractive terms;

the timing, success, and capital allocated to our exploration and development drilling programs, which would affect production levels and reserves;

changes to our estimates of oil and gas reserves;

the risk of financial losses arising out of derivative transactions;

risks incident to the drilling and operation of oil and gas wells;

future drilling, production and development costs, including drilling rig rates and oil field service costs;

the risks associated with our foreign operations and investments;

risks associated with retained liabilities and indemnification obligations in connection with the sale of certain of our businesses and assets;

the costs of environmental liabilities, regulations and litigation;

the impact of operational hazards;

the risks associated with future weather conditions;

the outcome of pending governmental investigations;

the risk that other firms will further expand into markets in which we operate; and

risks associated with our significant debt, interest rates and below investment grade credit ratings.

These factors are more fully described in our 2005 Form 10-K (as defined below), under the heading Risk Factors Cautionary Statement for Purposes of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995 and are incorporated herein by reference. Other factors that could cause actual results to differ materially from estimates and projections contained in forward-looking statements are described in the other documents that we incorporated by reference into this document.

Accordingly, you should not place undue reliance on forward-looking statements, which speak only as of the date of this prospectus, or, in the case of documents incorporated by reference, the date of those documents.

All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. We do not undertake any obligation to release publicly any revisions to these forward-looking statements to reflect events or circumstances after the date of this prospectus or to reflect the occurrence of unanticipated events, unless the securities laws require us to do so.

USE OF PROCEEDS

We will use the net proceeds we receive from the sale of the securities offered by this prospectus for general corporate purposes unless we specify otherwise in an applicable prospectus supplement. We may invest any funds we do not require immediately for general corporate purposes in marketable securities and short-term investments.

DESCRIPTION OF THE DEBT SECURITIES

Any debt securities we offer will be our direct, unsecured general obligations. The debt securities will be our senior debt securities and will be issued under an indenture between us and HSBC Bank USA, National Association (as successor-in-interest to JPMorgan Chase Bank, (formerly The Chase Manhattan Bank)), as indenture trustee.

We have summarized selected provisions of the indenture below. The following description is a summary of the material provisions of the indenture. It does not restate that agreement in its entirety. We urge you to read the indenture because it, and not this description, defines your rights as holders of the debt securities. The indenture between us and HSBC Bank USA, National Association, as trustee, has been incorporated by reference into this prospectus. Please read [Where You Can Find More Information](#).

General

The debt securities will be our direct, unsecured obligations and will rank equally with all of our other senior and unsubordinated debt.

A prospectus supplement and a supplemental indenture relating to any series of debt securities being offered will include specific terms relating to the offered debt securities. These terms will include some or all of the following:

the title and type of the debt securities;

the total principal amount of the debt securities and the currency, if other than U.S. dollars, in which such debt securities are denominated;

the percentage of the principal amount at which the debt securities will be issued and any payments due if the maturity of the debt securities is accelerated;

the dates on which the principal of the debt securities will be payable and the terms on which any such maturity date may be extended;

the interest rate which the debt securities will bear and the interest payment dates for the debt securities;

any provisions relating to the convertibility of exchangeability of the debt securities for other debt securities or equity securities;

any optional redemption periods;

Table of Contents

any sinking fund or other provisions that would obligate us to repurchase or otherwise redeem some or all of the debt securities;

any changes to or additional events of defaults or covenants;

any special tax implications of the debt securities, including provisions for original issue discount securities, if offered;

restrictions on the declaration of dividends or requiring the maintenance of any asset ratio or the creation or maintenance of reserves; and

any other terms of the debt securities.

The indenture does not limit the amount of debt securities that may be issued. The indenture allows debt securities to be issued up to the principal amount that we may authorize and may be in any currency or currency unit we designate.

Debt securities of a series may be issued in registered, bearer, coupon or global form.

Denominations

The prospectus supplement for each issuance of debt securities will state whether the securities will be issued in registered form of \$1,000 each or multiples of \$1,000 or bearer form of \$5,000 each.

Consolidation, Merger or Sale

The indenture generally permits a consolidation or merger between us and another corporation. It also permit us to sell all or substantially all of our property and assets. If this occurs, the remaining or acquiring corporation will assume all of our responsibilities and liabilities under the indenture, including the payment of all amounts due on the debt securities and performance of the covenants in the indenture. However, we will consolidate or merge with or into any other corporation or sell all or substantially all of our assets only according to the terms and conditions of the indenture. The remaining or acquiring corporation will be substituted for us in the indenture with the same effect as if it had been an original party to the indenture. After that the successor corporation may exercise our rights and powers under the indenture, in our name or in its own name. Any act or proceeding required or permitted to be done by our board or any of our officers may be done by the board or officers of the successor corporation. If we sell all or substantially all of our assets, we will be released from all our liabilities and obligations under the indenture and under the debt securities.

Modification of Indenture

Under the indenture our rights and obligations and the rights of the holders may be modified with the consent of the holders of a majority in aggregate principal amount of the outstanding debt securities of each series affected by the modification. No modification of the principal or interest payment terms, and no modification reducing the percentage required for modifications, is effective against any holder without its consent.

Events of Default

Event of default when used in the indenture, will mean any of the following:

failure to pay the principal of or any premium on any debt security when due;

failure to pay interest on any debt security for 30 days;

failure to perform any other covenant in the indenture that continues for 60 days after being given written notice;

Table of Contents

certain events in our bankruptcy, insolvency or reorganization; or

any other event of default included in any supplemental indenture.

An event of default for a particular series of debt securities does not necessarily constitute an event of default for any other series of debt securities issued under the indenture. The trustee may withhold notice to the holders of debt securities of any default, except in the payment of principal or interest, if it considers such withholding of notice to be in the best interests of the holders.

If an event of default for any series of debt securities occurs and continues, the trustee or the holders of at least 25% in aggregate principal amount of the debt securities of the series may declare the entire principal of all the debt securities of that series to be due and payable immediately. If this happens, subject to certain conditions, the holders of a majority of the aggregate principal amount of the debt securities of that series can void the declaration.

Other than its duties in case of a default, the trustee is not obligated to exercise any of its rights or powers under the indenture at the request, order or direction of any holders, unless the holders offer the trustee reasonable indemnity. If they provide this reasonable indemnification, the holders of a majority in principal amount of any series of debt securities may direct the time, method and place of conducting any proceeding or any remedy available to the trustee, or exercising any power conferred upon the trustee, for any series of debt securities.

Covenants

General

Under the indenture, we will:

pay the principal of, and interest and any premium on, the debt securities when due;

maintain a place of payment;

deliver a report to the trustee at the end of each fiscal year reviewing our obligations under the indenture; and

deposit sufficient funds with any paying agent on or before the due date for any principal, interest or premium.

The indenture provides that we will not, nor will we permit any restricted subsidiary to, create, assume, incur or suffer to exist any lien upon any principal property, whether owned or leased on the date of the indenture or thereafter acquired, to secure any of our debt or any other person (other than the senior debt securities issued under the indenture), without causing all of the senior debt securities outstanding under the indenture to be secured equally and ratably with, or prior to, the new debt so long the new debt is so secured. This restriction does not prohibit us from creating the following:

(i) any lien upon any of our property or assets or any restricted subsidiary in existence on the date of the indenture or created pursuant to an after-acquired property clause or similar term in existence on the date of the indenture or any mortgage, pledge agreement, security agreement or other similar instrument in existence on the date of the indenture;

(ii) any lien upon any property or assets created at the time of acquisition of such property or assets by or any of our restricted subsidiaries or within one year after such time to secure all or a portion of the purchase price for such property or assets or debt incurred to finance such purchase price, whether such debt was incurred prior to, at the time

of or within one year of such acquisition;

(iii) any lien upon any property or assets existing on the property at the time of the acquisition of the property by us or any of our restricted subsidiaries (whether or not the obligations secured are assumed by us or any of our restricted subsidiaries);

Table of Contents

- (iv) any lien upon any property or assets of a person existing on the property at the time that person becomes a restricted subsidiary by acquisition, merger or otherwise;
- (v) the assumption by us or any of our restricted subsidiaries of obligations secured by any lien existing at the time of the acquisition by us or any of our restricted subsidiaries of the property or assets subject to such lien or at the time of the acquisition of the person which owns that property or assets;
- (vi) any lien on property to secure all or part of the cost of construction or improvements on the property or to secure debt incurred prior to, at the time of, or within one year after completion of such construction or making of such improvements, to provide funds for any such purpose;
- (vii) any lien on any oil, gas, mineral and processing and other plant properties to secure the payment of costs, expenses or liabilities incurred under any lease or grant or operating or other similar agreement in connection with or incident to the exploration, development, maintenance or operation of such properties;
- (viii) any lien arising from or in connection with a conveyance by us or any of our restricted subsidiaries of any production payment with respect to oil, gas, natural gas, carbon dioxide, sulphur, helium, coal, metals, minerals, steam, timber or other natural resources;
- (ix) any lien in favor of us or any of our restricted subsidiaries;
- (x) any lien created or assumed by us or any of our restricted subsidiaries in connection with the issuance of debt the interest on which is excludable from gross income of the holder of such debt pursuant to the Internal Revenue Code of 1986, as amended, or any successor statute, for the purpose of financing, in whole or in part, the acquisition or construction of property or assets to be used by us or any of our subsidiaries;
- (xi) any lien upon property or assets of any foreign restricted subsidiary to secure debt of that foreign restricted subsidiary;
- (xii) permitted liens (as defined below);
- (xiii) any lien upon any additions, improvements, replacements, repairs, fixtures, appurtenances or component parts thereof attaching to or required to be attached to property or assets pursuant to the terms of any mortgage, pledge agreement, security agreement or other similar instrument, creating a lien upon such property or assets permitted by clauses (i) through (xii), inclusive, above; or
- (xiv) any extension, renewal, refinancing, refunding or replacement (or successive extensions, renewals, refinancing, refundings or replacements) of any lien, in whole or in part, that is referred to in clauses (i) through (xiii), inclusive, above, or of any debt secured thereby; provided, however, that the principal amount of debt secured shall not exceed the greater of the principal amount of debt so secured at the time of such extension, renewal, refinancing, refunding or replacement and the original principal amount of debt so secured (plus in each case the aggregate amount of premiums, other payments, costs and expenses required to be paid or incurred in connection with such extension, renewal, refinancing, refunding or replacement); provided further, however, that such extension, renewal, refinancing, refunding or replacement shall be limited to all or a part of the property (including improvements, alterations and repairs on such property) subject to the encumbrance so extended, renewed, refinanced, refunded or replaced (plus improvements, alterations and repairs on such property).

Notwithstanding the foregoing, under the indenture, we may, and may permit any restricted subsidiary to, create, assume, incur, or suffer to exist any lien upon any principal property to secure our debt or any person (other than the

senior debt securities) that is not excepted by clauses (i) through (xiv) above without securing the senior debt securities issued under the indenture, provided that the aggregate principal amount of all debt then outstanding secured by such lien and all similar liens, together with all net sale proceeds from sale-leaseback transactions (excluding sale-leaseback transactions permitted by clauses (i) through (iv), inclusive, of the first paragraph of the restriction on sale-leasebacks covenant described below) does not exceed 15% of consolidated net tangible assets.

Table of Contents

The indenture also provides that we will not, nor will we permit any restricted subsidiary to, engage in a sale-leaseback transaction, unless: (i) such sale-leaseback transaction occurs within one year from the date of acquisition of the principal property subject thereto or the date of the completion of construction or commencement of full operations on such principal property, whichever is later; (ii) the sale-leaseback transaction involves a lease for a period, including renewals, of not more than three years; (iii) we or any of our restricted subsidiaries would be entitled to incur debt secured by a lien on the principal property subject thereto in a principal amount equal to or exceeding the net sale proceeds from such sale-leaseback transaction without securing the senior debt securities; or (iv) we or any of our restricted subsidiaries, within a one-year period after such sale-leaseback transaction, applies or causes to be applied an amount not less than the net sale proceeds from such sale-leaseback transaction to (A) the repayment, redemption or retirement of funded debt of us or any such restricted subsidiary, or (B) investment in another principal property.

Notwithstanding the foregoing, under the indenture we may, and may permit any restricted subsidiary to, effect any sale-leaseback transaction that is not excepted by clauses (i) through (iv), inclusive, of the above paragraph, provided that the net sale proceeds from such sale-leaseback transaction, together with the aggregate principal amount of outstanding debt (other than the senior debt securities) secured by liens upon principal properties not excepted by clauses (i) through (xiv), inclusive, of the first paragraph of the limitation on liens covenant described above, do not exceed 15% of the consolidated net tangible assets.

Payment and Transfer

Unless we specify otherwise in a prospectus supplement, we will pay principal, interest and any premium on the debt securities, and they may be surrendered for payment or transferred, at the offices of the trustee. We will make payment on registered securities by check mailed to the persons in whose names the debt securities are registered or by transfer to an account maintained by the registered holder on days specified in the indenture or any prospectus supplement. If we make debt securities payments in other forms, we will specify the form and place in a prospectus supplement.

We will maintain a corporate trust office of the trustee or another office or agency for the purpose of transferring or exchanging fully registered securities, without the payment of any service charge except for any tax or governmental charge.

Global Securities

We may issue one or more series of the debt securities as permanent global debt securities deposited with a depository. Unless otherwise indicated in the prospectus supplement, the following is a summary of the depository arrangements applicable to debt securities issued in permanent global form and for which The Depository Trust Company (*DTC*) acts as depository.

Each global debt security will be deposited with, or on behalf of, *DTC*, as depository, and registered in the name of Cede & Co., as *DTC*'s partnership nominee, or such other name as may be requested by an authorized representative of *DTC*. One fully-registered global security will be issued with respect to each \$500 million of principal amount, and an additional certificate will be issued with respect to any remaining principal amount of debt securities. Except under the limited circumstances described below, global debt securities are not exchangeable for definitive certificated debt

securities.

DTC has advised us that DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds

Table of Contents

securities that its participants deposit with DTC. DTC also facilitates the post-trade settlement among direct participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between direct participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). DTCC, in turn, is owned by a number of DTC participants and members of the National Securities Clearing Corporation, Fixed Income Clearing Corporation and Emerging Markets Clearing Corporation (NSCC, FICC, and EMCC, also subsidiaries of DTCC), as well as by the New York Stock Exchange, Inc., the American Stock Exchange LLC and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others, such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of debt securities under the DTC system must be made by or through direct participants, which will receive a credit for the debt securities on DTC's records. The ownership interest of each actual purchaser of each debt security will be recorded on the direct and indirect participants' records. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the participants through which the beneficial owners entered the transaction. Transfers of ownership interests in the debt securities are to be accomplished by entries made on the books of the participants acting on behalf of the beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in debt securities, except in the event that use of the book-entry system for the debt securities is discontinued. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of such securities in definitive form. Such laws may impair the ability to transfer beneficial interests in a global debt security.

To facilitate subsequent transfers, all debt securities deposited by direct participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co, or such other name as may be requested by an authorized representative of DTC. The deposit of debt securities with DTC and their registration in the name of Cede & Co., or such other DTC nominee will not change the beneficial ownership of the debt securities. DTC has no knowledge of the actual beneficial owners of the debt securities; DTC's records reflect only the identity of the direct participants to whose accounts the debt securities are credited, which may or may not be the beneficial owners. The direct and indirect participants will remain responsible for keeping account of their holdings on behalf of their customers.

Delivery of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the debt securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participant in such issue to be redeemed.

Neither DTC nor Cede & Co (nor any other DTC nominee) will consent or vote with respect to debt securities unless authorized by a direct participant in accordance with DTC's procedures. Under its usual procedures, DTC mails an omnibus proxy to El Paso as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts the debt securities are credited on the record date (identified in a listing attached to the omnibus proxy).

Principal and interest payments, if any, on the debt securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC has told us that its practice is to credit direct

participants' accounts upon DTC's receipt of funds and corresponding detail information from El Paso or the trustee, on the applicable payable date in accordance with their respective holdings shown on

Table of Contents

DTC's records. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of that participant and not of DTC, the trustee or El Paso, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of El Paso or the trustee. Disbursement of payments from Cede & Co. to direct participants is DTC's responsibility. Disbursement of payments to beneficial owners is the responsibility of direct and indirect participants.

A beneficial owner must give notice through a participant to a tender agent to elect to have its debt securities purchased or tendered. The beneficial owner must deliver debt securities by causing the direct participants to transfer the participant's interest in the debt securities, on DTC's records, to a tender agent. The requirement for physical delivery of debt securities in connection with an optional tender or a mandatory purchase is satisfied when the ownership rights in the debt securities are transferred by direct participants on DTC's records and followed by a book-entry credit of tendered debt securities to the tender agent's account.

Neither we, any trustee nor any of our respective agents, will be responsible for any aspect of the records of DTC, any nominee or any participant relating to, or payments made on account of, beneficial interests in a permanent global debt security or for maintaining, supervising or reviewing any of the records of DTC, any nominee or any participant relating to such beneficial interests.

DTC may discontinue providing its services as securities depository at any time by giving reasonable notice to us or the Trustee, as agent. Under such circumstances, we would attempt to obtain a successor securities depository. If we were unable to obtain a successor depository, we would issue debt securities in definitive form.

El Paso may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, we would issue debt securities in definitive form.

The information in this section concerning DTC and DTC's book entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy of such information.

Defeasance

We will be discharged from our obligations on the debt securities of any series at any time if we deposit with the trustee sufficient cash or government securities to pay the principal, interest, any premium and any other sums due to the stated maturity date or a redemption date of the debt securities of the series. If this happens, the holders of the debt securities of the series will not be entitled to the benefits of the indenture except for registration of transfer and exchange of debt securities and replacement of lost, stolen or mutilated debt securities.

Under U.S. federal income tax laws as of the date of this prospectus, a discharge may be treated as an exchange of the related debt securities. Each holder might be required to recognize gain or loss equal to the difference between the holder's cost or other tax basis for the debt securities and the value of the holder's interest in the trust. Holders might be required to include as income a different amount than would be includable without the discharge. Prospective investors should seek tax advice to determine their particular consequences of a discharge, including the applicability and effect of tax laws other than the U.S. federal income tax laws.

Governing Law

The indenture and the debt securities will be governed by and construed in accordance with the laws of the State of New York.

DESCRIPTION OF CAPITAL STOCK

The statements under this caption are brief summaries and are subject to, and are qualified in their entirety by reference to, the more complete descriptions contained in (1) our Second Amended and Restated Certificate of Incorporation, which includes the Certificate of Designations relating to our convertible perpetual preferred stock (the *charter*), copies of which are available upon request to El Paso, and (2) the certificate of designation relating to each series of preferred stock, which will be filed with the SEC in connection with an offering of such series of preferred stock. Please read [Where You Can Find More Information](#).

General

We are currently authorized by our charter to issue up to 1,500,000,000 shares of common stock and up to 50,000,000 shares of preferred stock. As of May 3, 2006, there were 660,021,504 shares of common stock and 750,000 shares of 4.99% Convertible Perpetual Preferred Stock issued and outstanding.

Common Stock

We are currently authorized by our charter to issue up to 1,500,000,000 shares of common stock. The holders of common stock are entitled to one vote for each share held of record on all matters submitted to a vote of stockholders. Holders of common stock do not have the right to cumulate votes in the election of directors. Subject to preferences that may be applicable to any outstanding preferred stock, holders of common stock are entitled to receive ratably dividends which are declared by our board of directors out of funds legally available for such a purpose. In the event of our liquidation, dissolution, or winding up, holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities and liquidation preference of any outstanding preferred stock. Holders of common stock have no preemptive rights and have no rights to convert their common stock into any other securities. The common stock is not redeemable. All of the outstanding shares of common stock are fully paid and nonassessable upon issuance against full payment of the purchase price.

Preferred Stock

Our board of directors, without any further action by our stockholders, is authorized to issue up to 50,000,000 shares of preferred stock and to divide the preferred stock into one or more series. The Board will fix by resolution or resolutions any of the designations, powers, preferences and rights, and the qualifications, limitations, or restrictions of the shares of each such series, including, but not limited to, dividend rates, conversion rights, voting rights, terms of redemption and liquidation preferences, and the number of shares constituting each such series. The issuance of preferred stock may have the effect of delaying, deterring or preventing a change in control of El Paso. Preferred stock, upon issuance against full payment of the purchase price therefor, will be fully paid and nonassessable. The specific terms of a particular series of preferred stock will be described in the certificate of designation relating to that series. The description of preferred stock set forth below does not purport to be complete and is qualified in its entirety by reference to the certificate of designation relating to the particular series of preferred stock.

The designations, powers, preferences and rights, and the qualifications, limitations, or restrictions of preferred stock of each series will be fixed by the certificate of designation relating to such series. The certificate of designation relating to each series will specify the terms of the preferred stock as follows:

the number of shares to constitute each series and the distinctive designation of the shares;

Table of Contents

the annual dividend rate, if any, on shares of each series, whether such rate is fixed or variable or both, the date or dates from which dividends will begin to accrue or accumulate and whether dividends will be cumulative;

the purchase price and terms and conditions of the shares of each series, including the time during which shares of each series may be redeemed and any accumulated dividends that the holders of shares of each series shall be entitled to receive upon the redemption of the shares;

the liquidation preference, if any, and any accumulated dividends thereon, that the holders of shares of each series shall be entitled to receive upon the liquidation, dissolution or winding up of the affairs of El Paso;

whether or not the shares of each series will be subject to operation of a retirement or sinking fund, and, if so, the extent and manner in which any such fund shall be applied to the purchase or redemption of the shares of such series for retirement or for other corporate purposes and the terms and provisions relating to the operation of such fund;

the terms and conditions, if any, on which the shares of each series shall be convertible into, or exchangeable for, debt securities, shares of any other class or classes of our capital stock, or any series of any other class or classes, or of any other series of the same class, including the price or prices or the rate or rates of conversion or exchange and the method, if any, of adjusting the same;

the voting rights, if any, on the shares of each series; and

any or all other preferences and relative, participating, operational, or other special rights, qualifications, limitations, or restrictions on each series.

As of the date of this prospectus, 750,000 shares of 4.99% convertible perpetual preferred stock are outstanding. A summary description of the 4.99% Convertible Perpetual Preferred Stock is set forth below. You should refer to the full text of the certificate of designation for a more complete description.

Convertible Perpetual Preferred Stock

In April 2005, we issued \$750 million of convertible perpetual preferred stock. Cash dividends on the preferred stock are paid quarterly at the rate of 4.99% per year. The terms of our preferred stock prohibit the payment of dividends on our common stock unless we have paid or set apart for payment all accumulated and unpaid dividends on such preferred stock for all preceding dividend periods.

Each share of the preferred stock is convertible at the holder's option, at any time, subject to adjustment, into 76.7754 shares of our common stock under certain conditions. This conversion rate represents an equivalent conversion price of approximately \$13.03 per share. The conversion rate is subject to adjustment based on certain events which include, but are not limited to, fundamental changes in our business such as mergers or business combinations, as well as distributions of our common stock or adjustments to the current rate of dividends on our common stock. We will be able to cause the preferred stock to be converted into common stock after five years if our common stock is trading at a premium of 130% to the conversion price.

The amount payable on shares of convertible perpetual preferred stock in the event of a liquidation, dissolution or winding up of the affairs of El Paso is \$1,000 per share, together with accrued and unpaid dividends to the date of payment. These dividend and liquidation rights are senior to the dividend and liquidation rights of the El Paso common stock.

Certain Anti-Takeover Matters

General

Our charter and by-laws contain the following additional provisions, some of which are intended to enhance the likelihood of continuity and stability in the composition of our board of directors and in the policies formulated by our board of directors. In addition, some provisions of the Delaware General Corporation Law, if applicable to us, may hinder or delay an attempted takeover without prior approval of our

Table of Contents

board of directors. Provisions of the Delaware General Corporation Law, or the DGCL, and of our charter and by-laws could discourage attempts to acquire us or remove incumbent management even if some or a majority of our stockholders believe this action is in their best interest. These provisions could, therefore, prevent stockholders from receiving a premium over the market price for the shares of common stock they hold.

Call of Special Meetings

Our by-laws provide that special meetings of our stockholders may be called only by a majority of the board of directors, the Chairman of the Board, the Chief Executive Officer or the President and not the stockholders.

No Cumulative Voting

The DGCL provides that stockholders are not entitled to the right to cumulate votes in the election of directors unless our charter provides otherwise. Our charter does not expressly provide for cumulative voting. Under cumulative voting, a majority stockholder holding a sufficient percentage of a class of shares may be able to ensure the election of one or more directors.

Advanced Notice Requirements for Stockholder Proposals and Director Nominations

Our by-laws provide that stockholders seeking to bring business before or to nominate candidates for election as directors at an annual meeting of stockholders must provide timely notice of their proposal in writing to the corporate secretary. To be timely, a stockholder's notice must be received by our corporate secretary at our principal executive offices not earlier than 120 days nor later than 90 days prior to the first anniversary of the preceding year's annual meeting. If, however, the date of the annual meeting is more than 30 days before or more than 60 days after such anniversary date, notice by the stockholder in order to be timely must be received by the secretary not earlier than 120 days prior to such annual meeting and not later than 90 days prior to such annual meeting, or if later, the 10th day following the day on which public announcement of the date of such meeting is first made. Our by-laws also specify requirements as to the form and content of a stockholder's notice. These provisions may preclude stockholders from bringing matters before an annual meeting of stockholders or from making nominations for directors at an annual meeting of stockholders or may discourage or defer a potential acquirer from conducting a solicitation of proxies to elect its own slate of directors or otherwise attempting to obtain control of us.

No Stockholder Action by Written Consent

Our charter prohibits the taking of any action by written stockholder consent in lieu of a meeting.

Section 203 of the DGCL

We are a Delaware corporation subject to Section 203 of the DGCL. Generally, Section 203 prohibits a publicly held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless (1) prior to such date, either the business combination or such transaction which resulted in the stockholder becoming an interested stockholder is approved by the board of directors of the corporation, (2) upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owns at least 85% of the outstanding voting stock, or (3) on or after such date, the business combination is approved by the board of directors of the corporation and by the affirmative vote at least 66²/₃% of the outstanding voting stock that is not owned by the interested stockholder. A business combination includes merger, asset sales and other transactions resulting in a financial benefit to the interested stockholder. An interested stockholder is a person who, together with affiliates and associates, owns, or, within three years, did own, 15% or more of the corporation's outstanding voting stock.

The applicable prospectus supplement will also specify the methods by which the holders may purchase or sell such securities, currencies or commodities and any acceleration, cancellation or termination provisions or other provisions relating to the settlement of a purchase contract.
