PART III NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

Superior Offshore International, Inc. (the Company,) was unable to file its Quarterly Report on Form 10-Q for the quarter ended September 30, 2007 (the Form 10-Q) within the prescribed time period due to unforeseen delays in determining whether the Company would be required to reclassify its long-term indebtedness to current indebtedness in light of recent developments with respect to the Company's financing arrangements. The Company is currently negotiating a term loan facility with an alternate lender to refinance its existing senior secured term loan facility. However, due to the terms of the waiver with respect to certain covenant defaults that the Company obtained on November 14, 2007 from the lender under its existing senior secured term loan facility, in the absence of a written commitment with respect to a replacement term loan facility the Company's external auditors believe that a reclassification of its long-term debt may be required. The Company and its external auditors are reviewing this matter and expect to complete the analysis in the near future. The Company expects that the third quarter results of operations that will be reflected in the Form 10-Q when filed will not differ materially from the third quarter results of operations publicly announced by the Company on November 14, 2007. The Company represents that the Form 10-Q will be filed no later than the fifth calendar day following its prescribed due date.

The Company's preliminary results of operations for the three months ended September 30, 2007 are summarized below. Preliminary consolidated financial statements as of and for the three months ended September 30, 2007 are attached hereto as Annex A.

The Company's revenues for the three months ended September 30, 2007 were \$75.5 million compared with \$64.4 million for the three months ended September 30, 2006, an increase of \$11.1 million. The increase in the Company's revenues from the three months ended September 30, 2006 to the three months ended September 30, 2007 was mainly due to the Company's Trinidad project, which commenced early in the third quarter of 2007. In addition, the Company's revenues in the third quarter of 2007 were favorably affected by continued provision of diving personnel and technical expertise on vessels and platforms owned and operated by third parties. Revenues were negatively affected by the drydocking of the *Superior Endeavour* for scheduled upgrades beginning in early February 2007 and the drydocking of the *Gulmar Falcon* for scheduled upgrades beginning in July 2007, which collectively resulted in a loss of approximately 154 vessel revenue days in the third quarter of 2007. The Company placed the *Superior Endeavour* and the *Gulmar Falcon* back in service in September 2007 and October 2007, respectively. The *Superior Endeavour*, despite reentering service in the third quarter of 2007, did not generate revenues until early October, while the *Gulmar Falcon* did not generate revenues until early November. Revenues relating to the Company's fabrication facility for the three months ended September 30, 2007 were \$2.5 million compared with \$2.8 million for the three months ended September 30, 2006, a decrease of \$0.3 million, due to a decrease in the number of Gulf of Mexico projects requiring fabrication.

The Company's costs of revenues for the three months ended September 30, 2007 were \$55.6 million compared with \$36.7 million for the three months ended September 30, 2006, an increase of \$18.9 million. This increase was substantially due to increased third party equipment and vessel rentals and related mobilization of \$36.0 million in the third quarter of 2007 compared with \$19.4 million for the third quarter of 2006. In addition, labor costs and related employee benefits costs were \$14.8 million for the three months ended September 2007 compared with \$8.4 million for the three months ended September 30, 2006, due to the addition of the Company's foreign subsidiaries. Increased downtime for certain of the Company's vessels due to equipment upgrades or low utilization also contributed to higher costs, as these vessels were unable to generate sufficient revenues to offset labor and other operating costs associated with the vessels.

The Company's operating expenses for the three months ended September 30, 2007 were \$14.5 million compared with \$5.8 million for the three months ended September 30, 2006, an increase of \$8.7 million. This increase was attributable to several factors: salaries, labor costs and related employee benefits increased \$2.1 million due to

Edgar Filing: Superior Offshore International Inc. - Form NT 10-Q

increases in salaries and the size of the Company's staff; stock based compensation increased \$3.3 million due to awards made under the 2007 stock incentive plan; professional fees increased \$1.7 million due to reporting and other obligations under the Securities Exchange Act of 1934, as well as compliance with the Sarbanes-Oxley Act.
