PART I

ITEM 1. BUSINESS

BUSINESS SEGMENTS AND GEOGRAPHIC AREA INFORMATION

Alberto-Culver Company and its consolidated subsidiaries (herein referred to collectively as the "company," unless indicated otherwise) have three principal business segments. The company's consumer products business includes two segments, "Alberto-Culver North America" and "Alberto-Culver International," and includes developing, manufacturing, distributing and marketing branded consumer products worldwide. Alberto-Culver North America includes the company's consumer products operations in the United States and Canada while Alberto-Culver

Edgar Filing: ALBERTO CULVER CO - Form 10-K405

International sells consumer products in more than 120 other countries.

The classes of products in the Alberto-Culver North America and the Alberto-Culver International business segments include health and beauty care products as well as food and household products. Health and beauty care products accounted for approximately 37%, 39% and 39% of the company's consolidated net sales for the years ended September 30, 2001, 2000 and 1999, respectively. Food and household products accounted for approximately 5%, 5% and 6% of the company's consolidated net sales for the years ended September 30, 2001, 2000 and 1999, respectively.

The company's third segment, "Specialty distribution - Sally", consists of Sally Beauty Company ("Sally Beauty"), a distributor of professional beauty supplies through its Sally Beauty Supply stores and its Beauty Systems Group full-service operations. Sales of the Specialty distribution - Sally business segment accounted for approximately 58%, 56% and 55% of the company's consolidated net sales for the years ended September 30, 2001, 2000 and 1999, respectively.

Financial information about business segments and geographic area information is incorporated herein by reference to the "Business Segments and Geographic Area Information" note of "Notes to Consolidated Financial Statements" in the company's annual report to stockholders for the year ended September 30, 2001.

SPECIALTY DISTRIBUTION - SALLY

Sally Beauty Company operates a network of Sally Beauty Supply cash-and-carry professional beauty supply stores and also sells professional beauty products to hairdressers, beauticians and cosmetologists through its Beauty Systems Group full-service distribution business. Sally Beauty Supply stores provide salon owners, hairdressers and consumers with an extensive selection of hair care and skin care products, cosmetics, styling appliances and other beauty items. Sally's Beauty Systems Group distributes products in exclusive, licensed territories in the Northeast, Midwest, Midsouth, East and Southeast United States and portions of Canada. Beauty Systems Group sells only to the professional market through its stores and approximately 550 professional distributor sales consultants. As of September 30, 2001, Sally Beauty, including its Beauty Systems Group, had 2,428 stores in the United States, Puerto Rico, the United Kingdom, Canada, Japan and Germany.

PRODUCT DEVELOPMENT AND MARKETING

Many of the company's consumer products are developed in the company's laboratories. New products introduced by the company are assigned product managers who guide the products from development to the consumer. The product managers are responsible for the overall marketing plans for the products and coordinate advertising, promotion and market research activities.

The company allocates a large portion of its revenues to the advertising, promotion and market research of consumer products. Net earnings are materially affected by these expenditures, which are charged to income in the period incurred. Advertising, promotion and market research expenditures were \$305.1 million in 2001, \$286.4 million in 2000 and \$259.7 million in 1999.

-3-

Advertising, promotion and market research expenditures relating to a new product will ordinarily constitute a higher percentage of sales than in the case of a well-established product. There can be no assurance that such expenditures will result in consumer acceptance and profitability for a product.

The company regards television as the best medium for its advertising and uses it to conduct extensive network, spot and cable television advertising campaigns. The company also advertises through other media such as newspapers, magazines and radio as well as through Sally Beauty Company's direct mailings to professional customers.

Extensive advertising and promotion are required to build and protect a product's market position. The company believes there is significant consumer

Edgar Filing: ALBERTO CULVER CO - Form 10-K405

awareness of its major brands and that such awareness is an important factor in the company's operating results.

COMPETITION

The domestic and international markets for the company's branded consumer products are highly competitive and sensitive to changes in consumer preferences and demands. The company's competitors range in size from large, highly diversified companies (some of which have substantially greater financial resources than the company) to small, specialized producers. The company competes on the basis of product quality and price and believes that brand loyalty and consumer acceptance are important factors. The company's markets are characterized by frequent introductions of competitive products and by the entry of other manufacturers as new competitors, both of which are typically accompanied by extensive advertising and promotional campaigns. Such campaigns are often very costly and can significantly affect the sales and earnings of the company and its competitors.

Sally Beauty Company experiences domestic and international competition from a wide range of retail outlets, including mass merchandisers, drug stores and supermarkets, carrying a full line of health and beauty products. In addition, Sally Beauty competes with local and regional beauty supply stores and full-service dealers selling directly to salons through both professional distributor sales consultants and cash and carry outlets open only to salon professionals. Sally also faces competition from certain manufacturers which use their own sales forces to distribute their professional beauty products directly to salons.

DISTRIBUTION IN THE UNITED STATES

Retail health and beauty care products and food and household products are sold through the company's sales force and independent brokers calling upon wholesale drug establishments and retail outlets such as supermarkets, drug stores, mass merchandisers and variety stores.

Professional hair care products in the United States (primarily for the ethnic market) are sold by company sales representatives and brokers to beauty supply outlets and to beauty distributors who in turn sell to beauty salons, barber shops and beauty schools.

SALLY BEAUTY COMPANY DISTRIBUTION

Sally Beauty Company, including its Beauty Systems Group, sells professional beauty supplies through its 2,428 stores located in 47 states, Puerto Rico, the United Kingdom, Canada, Japan and Germany. Sally Beauty Supply stores are self-service, cash-and-carry and are primarily located in strip shopping centers. Sally operates the world's largest chain of professional beauty supply stores and as such is a major customer of some of the company's competitors in the personal care products industry. In addition, Sally's Beauty Systems Group distributes products in exclusive, licensed territories in the Northeast, Midwest, Midsouth, East and Southeast United States and portions of Canada and sells only to the professional market through its stores and approximately 550 professional distributor sales consultants. Sally sells Alberto-Culver North America's professional hair care products, but these products represent only a small portion of Sally's selection of salon brands.

Edgar Filing: ALBERTO CULVER CO - Form 10-K405

FOREIGN OPERATIONS

Products of the company are sold in more than 120 countries or geographic regions, primarily through direct sales by subsidiaries, independent distributors and licensees.

The company's foreign operations are subject to risks inherent in transactions involving foreign currencies and political uncertainties.

EMPLOYEES

In its domestic and foreign operations, the company had approximately 16,100 full-time equivalent employees as of September 30, 2001, consisting of approximately 9,600 hourly personnel and 6,500 salaried employees. At September 30, 2000, the company had approximately 15,300 full-time equivalent employees. The increase in employees during fiscal year 2001 is principally due to the expansion of Sally's Beauty Systems Group full-service operations and the growth in the number of Sally Beauty Supply stores.

Certain subsidiaries of the company have union contracts covering production, warehouse, shipping and maintenance personnel. The company considers relations with its employees to be satisfactory.

REGULATION

The company is subject to the regulations of a number of federal and state agencies, including the Food and Drug Administration and the Federal Trade Commission.

TRADEMARKS AND PATENTS

The company's trademarks, certain of which are material to its business, are registered or legally protected in the United States, Canada and other countries throughout the world in which products of the company are sold. Although the company owns patents and has other patent applications pending, its business is not materially dependent upon patents or patent protection.
