PROXY STATEMENT

2525 Armitage Avenue
Melrose Park, Illinois 60160

December 14, 2001

Solicitation of Proxies

The board of directors of Alberto-Culver Company (the "Company") solicits your proxy for use at the annual meeting of stockholders to be held on January 24, 2002 and at any adjournment thereof.

On November 30, 2001, the record date for the meeting, the Company had outstanding shares of common stock consisting of 24,844,301 shares of Class A and 32,525,619 shares of Class B. This Proxy Statement and form of proxy are being mailed to stockholders on or about December 14, 2001.

Each holder of record at the close of business on the record date is entitled to one vote for each Class B share and one-tenth of a vote for each Class A share then held. Class A and Class B shares vote together as a single class in all matters to be voted upon at this meeting. Any person submitting a proxy has the right to revoke it at any time before it is voted, in person at the meeting, by written notice to the Secretary of the Company or by delivery of a later-dated proxy.

The election of directors is decided by a plurality of the votes cast by holders of all shares entitled to vote in the election. Accordingly, withheld votes and broker non-votes will not affect the outcome of the election. A majority of the votes entitled to be cast thereon by holders of shares of stock present in person or by proxy at the meeting is required to re-approve the Alberto-Culver Company 1994 Stock Option Plan For Non-Employee Directors, as amended ("Director Plan"), and the Alberto-Culver Company 1994 Shareholder Value Incentive Plan, as amended ("SVIP"). Although abstentions and broker non-votes will be treated as present at the meeting for purposes of determining a quorum, abstentions will have the effect of a vote against the re-approval of the Director Plan and the SVIP and broker non-votes will have no effect on the re-approval of the Director Plan and the SVIP.

Election of Directors

Unless otherwise instructed, proxies will be voted for the election as directors of the four persons listed as nominees for a term of three years. All of the nominees are currently serving as directors. Should any of the nominees become unable to accept nomination or election (which the Company has no reason to expect), it is the intention of the persons named in the enclosed proxy to vote for a substitute in each case or the board of directors may make an

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

appropriate reduction in the number of directors to be elected.

Effective as of October 1, 2001, each non-employee director's annual retainer was increased from \$25,000 to \$35,000. Non-employee directors receive \$1,500 for (i) each meeting of the board of directors attended and (ii) each meeting of the audit, executive and compensation committees attended and \$750 for each conference call audit committee meeting attended. The chairman of the audit committee and the chairman of the compensation committee receive an additional annual retainer of \$3,500. Employee directors receive no additional compensation for serving on the board of directors or its committees.

In addition, each non-employee director participates in the 1994 Stock Option Plan For Non-Employee Directors (the "Director Plan"). Under the Director Plan, a non-qualified option to purchase 7,500 shares of Class A common stock is automatically granted to each non-employee director upon his or her initial election to the board of directors. The exercise price of options granted under the Director Plan is the fair market value of a share of Class A common stock on the date options are granted. Options are granted for a ten-year term and become exercisable in four equal annual installments commencing one year after the date of grant.

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

Subject to shareholder re-approval, the Director Plan will be amended so that each non-employee director will automatically be granted a non-qualified option to purchase 2,500 shares of Class A common stock as of the day of each regularly scheduled annual meeting of the stockholders of the Company, commencing at the annual meeting scheduled on January 24, 2002. The Director Plan and the material amendments are described in greater detail under "Re-Approval of the 1994 Stock Option Plan For Non-Employee Directors, As Amended."

On July 26, 2001, the board of directors approved the Deferred Compensation Plan for Non-Employee Directors (the "DCP"). Under the DCP, effective as of January 1, 2002, each non-employee director may elect to defer his or her annual retainer and meeting fees ("Director Fees") paid during each calendar year, receive shares of Class B common stock on a quarterly basis equal to the Director Fees payable during such period or receive cash payable under the current payment system. With respect to deferrals, non-employee directors may defer their Director Fees in cash or in common stock units where each unit is equivalent to one share of Class B common stock. Dividends that a director would have received as an owner of Class B common stock will be reinvested into units equal to a commensurate number of additional Class B shares. Director Fees may be deferred at the election of each non-employee director until (i) one month after such director's service on the board of directors ends or (ii) any date selected by such board member. The interest rate earned on money deferred under the DCP is determined by the compensation committee and shall be equal to the interest rate earned on money deferred under the Executive Deferred Compensation Plan. See "Executive Deferred Compensation Plan" below.

(1) Options are granted under the Alberto-Culver Company Employee Stock Option Plan of 1988 (the "ACSOP") which permits the compensation committee to grant non-qualified options to purchase shares of Class A common stock. All options granted have a term of ten years from the date of grant and an exercise price per share equal to the fair market value of a share of Class A common stock on the date of grant. Options become exercisable on a cumulative basis in annual increments of one-fourth of the optioned shares, commencing one year after the date of grant. The compensation committee may accelerate the exercisability of any options subject to such terms and conditions as it deems necessary and appropriate. In the event of a change in control, as defined in the ACSOP and summarized below under "Employment Contracts, Termination of Employment and Change in Control Arrangements," all stock option awards will be immediately vested and all outstanding stock option awards will, depending on the type of consideration given to stockholders in connection with the change in control, either become options to purchase shares of the acquiring corporation or be canceled and option holders will receive a cash payment in lieu of the exercise of such option awards.

(2) The dollar amounts in these columns assume that the market price per share of Class A common stock appreciates in value from the date of grant to the expiration date of the option at the annualized rates indicated. These rates are set by the Securities and Exchange Commission and are not intended to forecast possible future appreciation, if any, of the price of Class A common stock.

Long-Term Incentive Awards

The table below sets forth certain information with respect to the grant of performance units under the SVIP during the fiscal year ended September 30, 2001 to the named executive officers.

Carol L. Bernick	320	3 years	160,000	320,000
Michael H. Renzulli	330	3 years	165,000	330,000

- (1) Awards under the SVIP are made in the form of performance units, each unit having a payout value of \$500 if the threshold performance level is attained, \$1,000 if the target performance level is attained and \$3,000 if the maximum performance level is attained. Units will have no value if the threshold performance level is not attained. In the event of a change in control, payouts of awards may be reduced (but not below zero) under certain circumstances, so as not to constitute "excess parachute payments" within the meaning of the Internal Revenue Code (the "Code").

Performance units were granted at the beginning of fiscal year 2001 for the three-year performance period ending September 30, 2003. At the time the performance units were granted, the compensation committee established objectives for such three-year performance period based on the percentile ranking of the total shareholder return of the Class A common stock among the total shareholder returns of the companies comprising the Standard & Poor's 500 Index. Participants may elect to receive all or a portion of their award, less applicable withholding taxes, in Class A common stock. Participants owning shares of Class A and Class B common stock having a dollar value below a level determined by the compensation committee will be required to take at least 50% of their award, less applicable withholding taxes, in Class A common stock. In the event of a change in control, as defined in the SVIP and summarized below under "Employment Contracts, Termination of Employment and Change in Control Arrangements," all or a pro-rata portion of the outstanding performance units, based on the number of fiscal years of each performance period that have elapsed and the percentile ranking of the Company based on the total shareholder return of the Class A common stock as of the date of the change in control compared to the total shareholder return of the companies comprising the index chosen for each such performance period

by the compensation committee from among those indexes specified in the SVIP ("Applicable Index") as of the end of the last quarter for which such information is available, will become payable in cash within 30 days following such change in control, subject to any reduction of such payment pursuant to the preceding paragraph. If at least six full calendar months of any fiscal year have elapsed, the entire fiscal year shall be deemed to have elapsed.

Subject to stockholder approval, effective for grants made on or after July 26, 2001, the SVIP will be amended to (i) decrease the maximum payout from \$3,000 per unit to \$2,000 per unit, (ii) prohibit any payout if the Company's total shareholder return compared to the total shareholder return of companies comprising the Applicable Index would rank it at less than the 40th percentile (currently payouts are prohibited if the Company's total shareholder return would rank it below the 50th percentile) and (iii) permit the compensation committee to reduce or eliminate any award otherwise payable if the Company's total shareholder return for the applicable performance period is negative. The SVIP and the material amendments are described in greater detail under "Re-Approval of the 1994 Shareholder Value Incentive Plan, As Amended."

Employment Contracts, Termination of Employment and Change in Control Arrangements

Beginning in 1996, the board of directors approved severance agreements with the Company's named executive officers which provide payments and benefits if such officer's employment with the Company terminates under the circumstances set forth in the severance agreement within two years after a change in control, as defined in the agreement and summarized below. The severance agreement for each named executive officer provides for a payment in the amount which, when added to any other payments subject to the limitation set forth in Section 280G of the Code, equals 2.99 times such officer's "base amount" as such term is defined in Section 280G(b)(3) of the Code. Such payment shall be in lieu of any other amount of severance relating to salary or bonus continuation to be received by such officer upon termination of employment under any other severance plan or arrangement of the Company. The severance agreements provide for continuation of such officer's health, life, disability and similar insurance benefits for up to a three-year period. These agreements also provide for payment to the named executive officer of accrued salary and vacation pay, and of all amounts which he or she would otherwise be eligible to receive under the Company's incentive plans applicable to the fiscal year in which the termination occurs. The amounts payable to such an officer under each severance agreement may be reduced so as to not exceed the limitation on tax deductibility of such payments set forth in Section 280G of the Code.

Stock options granted to named executive officers under the ACSOP will be immediately vested upon the occurrence of a change in control, as defined in the ACSOP and summarized below, and all outstanding stock options will, depending on the type of consideration given to stockholders in connection with the change in control, either become options to purchase shares of the acquiring corporation or be canceled and option holders will receive a cash payment in lieu of the exercise of such options. In addition, the payment of awards under the Management Incentive Plan ("MIP") and the SVIP will be accelerated, and all or a pro-rata portion of each such award will become payable as provided in such plans, upon the occurrence of a change in control, as defined in such plans and

13

summarized below. Under certain circumstances, awards paid pursuant to grants made under the SVIP may be reduced. See "Long-Term Incentive Awards" above.

The definition of a change in control is the same for each of the severance agreements, ACSOP, SVIP, MIP and Director Plan. Generally, a change in control is defined as the occurrence of any of the following: (i) the acquisition by any individual, entity or group of both 20% or more of the combined voting power of the outstanding voting securities of the Company and combined voting power in excess of the combined voting power held by the Exempt Persons, as defined below, (ii) the cessation of the individuals who comprise the Incumbent Board, as defined below, to constitute a majority of the board of directors of the Company, (iii) except as provided in the next sentence, the approval by the stockholders of the Company of any merger, reorganization, consolidation or sale or other disposition (other than a tax-free spin-off of a subsidiary or other business unit of the Company) of all or substantially all of the assets of the Company (collectively, a "Fundamental Change") or (iv) the approval by the stockholders of the Company of the complete liquidation or dissolution of the Company. A Fundamental Change will not be a change in control if (a) immediately after such Fundamental Change more than 60% of the combined voting power of the then outstanding voting securities of the resulting corporation or the Company, as the case may be, is then owned by all or substantially all of the individuals and entities who were the owners of the combined voting power of the outstanding

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

voting securities of the Company immediately prior to such Fundamental Change and (b) a majority of the members of the board of directors of the resulting or acquiring corporation, as the case may be, were members of the Incumbent Board at the time of the execution of the initial agreement or action of the board of directors of the Company providing for such Fundamental Change.

A change in control will not be deemed to occur through the acquisition of voting securities of the Company if they were acquired (i) by an Exempt Person, an employee benefit plan or trust sponsored or maintained by the Company or any corporation controlled by the Company or (ii) through an exercise, conversion or exchange privilege acquired directly from the Company. In addition, a change in control will not be deemed to occur if such change in control resulted from the Company acquiring its own voting securities. Exempt Persons are defined as: (i) Mr. and Mrs. Lavin, their descendants and spouses of their descendants, and (ii) any estate of any such individuals or any trust or similar arrangement or charitable organization established by or for the benefit of any such individuals. Incumbent Board is defined as those individuals who comprised the board of directors of the Company as of October 24, 1996 and any individual who becomes a director subsequent to such date whose election or nomination was approved by either a majority of the Incumbent Board or at least a majority of the combined voting power held by the Exempt Persons.

Key Executive Deferred Compensation Agreements

Upon retiring on or after reaching a specified retirement age, each of the named executive officers will be entitled to receive the amount of compensation as set forth in his or her deferred compensation agreement payable in equal monthly installments. Payments range up to a maximum of \$400,000 per year and are payable over a maximum of 15 years. If the named executive officer is terminated for any reason prior to his or her specified retirement age, such executive shall not be entitled to receive any

14

payments under his or her deferred compensation agreement. In the event the executive dies (and was not terminated by the Company) prior to reaching his or her retirement age, the individual(s) designated by such executive will be entitled to 50% of the deceased executive's deferred benefit. Executives retiring prior to their specified retirement age may, at the discretion of a committee of the board of directors, receive all or a portion of those benefits they would have been entitled to receive had they retired at their specified retirement age.

Payments are conditioned upon the named executive officer rendering such reasonable business consulting and advisory services to the Company or any subsidiary as the Chief Executive Officer deems desirable. No executive will be obligated to provide more than eight hours of consulting and advisory services a month without additional compensation. If the executive commits an act of disloyalty, as defined in the deferred compensation agreements, to the Company or any of its subsidiaries, the executive shall have no right to receive any payments under these agreements. The obligations of the Company under these agreements are unfunded and unsecured promises to pay. The Company has voluntarily elected to purchase insurance policies covering the life of each named executive officer. The Company is the sole owner and beneficiary of these policies which have a face value in excess of the present value of all of the amounts payable under all deferred compensation agreements combined.

Executive Deferred Compensation Plan

Effective January 1, 1999, the board of directors approved the Executive

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

Deferred Compensation Plan for all "highly compensated employees" within the meaning of Section 414(q) of the Code, which includes all of the named executive officers. All eligible employees may elect to defer all or a portion of their salary and commissions ("Compensation"). Compensation may be deferred for any period of time, provided it is no less than three years, and can be paid out to the employee in a lump sum payment or annually over any period not to exceed five years. The compensation committee determines the rate of interest earned on money deferred under the plan, and may change that rate as it deems appropriate. Such rate is currently 7% per annum. Under certain circumstances, employees who are unable to receive the maximum Company matching contribution they would have otherwise received (the "Maximum Match") under the Alberto-Culver or Sally Beauty 401(k) Savings Plans because of limitations under the Code, will be credited in this plan with an amount equal to the difference between the Maximum Match and the amount of the matching contribution such employee actually received in such 401(k) plan. Such contribution will be (i) made by the Company, (ii) immediately vested and (iii) required to be deferred in this plan until the termination of such employee's employment with the Company.

Compensation Committee Report

The compensation committee is comprised of Robert H. Rock, Chairman, A. Robert Abboud, Sam J. Susser, and Harold M. Visotsky. The compensation committee is responsible for reviewing executive performance and compensation, approving employment agreements with executive officers and administering benefit plans pursuant to which executive officers receive stock options, incentive awards, retirement income and other compensation awards.

The Company's objectives for its executive compensation program are:

- . To attract, motivate and retain highly qualified individuals.
- . To link the interests of executive officers closely with those of the Company's stockholders.
- . To increase the personal stake of the executive officers in the continued success and growth of the Company by linking a significant portion of executive officers' compensation to the performance of the Company.

In order to achieve these objectives, executive compensation for the last fiscal year was comprised principally of three components: base salary, annual bonus and long-term incentive compensation.

Base Salary

Base salaries of executive officers are reviewed annually by the compensation committee and may be adjusted appropriately effective the beginning of each calendar year. The factors used in determining an executive officer's base salary are the duties and level of responsibility of the executive officer, the past performance of the executive officer, the performance of the executive officer's principal business unit, if any, the performance of the Company and the recommendations of management. The compensation committee exercises its judgment in making a determination of the impact which each of these factors has on setting the executive officers' salaries.

Annual Bonus

Annual bonuses are awarded pursuant to the MIP. The primary objective of

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

the MIP is to strongly link incentive awards to measurable performance and provide higher rewards for exceptional performance.

An executive officer's bonus award opportunity is allocated among one or more of the following criteria: (i) sales of the Company, a subsidiary or a division; (ii) pre-tax earnings of the Company, a subsidiary or a division; (iii) except for the named executive officers, any other measurements the compensation committee may determine; and (iv) except for the named executive officers, individual business objectives. The compensation committee may modify the above criteria during the plan year

16

as deemed appropriate; but may not modify these criteria for the named executive officers so as to increase the award payable to such persons.

Actual awards can range from 0% to 200% of an executive officer's base salary depending on the level of performance achieved. The compensation committee may increase or decrease an individual award to a participant, other than the named executive officers, by up to 25% of such participant's base salary based upon such factors and circumstances as the compensation committee deems appropriate. The named executive officers' fiscal year 2001 annual incentive awards under the MIP were formula based and reflected the tenth consecutive year of record sales and record pre-tax earnings performance for the Company.

Long-Term Incentive Compensation

The Company's long-term incentive compensation program consists of grants of stock options and performance units.

Stock options were granted to executive officers under the ACSOP. Non-qualified stock options were granted for a term of ten years with an option exercise price equal to the fair market value of a share of the Class A common stock on the date of grant. Stock options become exercisable in four equal annual increments commencing one year after the date of grant.

Executive officers were also granted performance units pursuant to the SVIP. Each performance unit has a payout value of \$500 if the threshold performance level is attained, \$1,000 if the target performance level is attained and \$3,000 if the maximum performance level is attained. The threshold, target and maximum performance levels are attained when the total shareholder return on Class A shares meets or exceeds the total shareholder return of 50%, 60% and 90% of the companies in the Standard & Poor's 500 Index, respectively, over a three-year performance period. Under certain circumstances, such awards will be paid in Class A common stock. See "Long-Term Incentive Awards" above. Units will have no value if the threshold performance level is not attained for a given performance period.

At the time performance units were granted, the compensation committee, based on the recommendations of management and in consultation with the Company's outside compensation consultants, established objectives for the three-year performance period, October 1, 2000 through September 30, 2003, based on the percentile ranking of the Class A common stock measured by total shareholder return among companies comprising the Standard & Poor's 500 Index. For the three-year performance period ended September 30, 2001, the total shareholder return on the Company's Class A common stock was 62.75%, placing it in the 88.6th percentile of the Standard & Poor's 500 Index with a corresponding payout per unit of \$2,902.

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

Subject to shareholder re-approval, for grants made on or after July 26, 2001, the SVIP will be amended to (i) decrease the maximum payout from \$3,000 per unit to \$2,000 per unit, (ii) prohibit any payout if the Company's total shareholder return compared to the total shareholder return of companies

17

comprising the Applicable Index would rank it at less than the 40th percentile (currently payouts are prohibited if the Company's total shareholder return would rank it below the 50th percentile) and (iii) permit the compensation committee to reduce or eliminate any award otherwise payable if the Company's total shareholder return for the applicable performance period is negative. The SVIP and the material amendments are described in greater detail under "Re-Approval of the 1994 Shareholder Value Incentive Plan, As Amended" below.

Decisions with respect to grants of stock options and performance units to executive officers were made based on formulas proposed by the Company's outside compensation consultants. Under these formulas, executive officers received grants of stock options and performance units having a value equal to a percentage of his or her base salary. The number of stock options and performance units granted were then adjusted for certain executive officers based on the same factors used for determining base salary.

In fiscal year 1997, the compensation committee established stock ownership guidelines for all SVIP participants. Under these guidelines, the Chairman and the Chief Executive Officer are required to have at least five times, and senior officers, including the other named executive officers, are required to have at least three times, the amount of their annual base salary invested in common stock of the Company. Participants have until the year 2002 or within five years of first becoming a participant in the SVIP, whichever is later, to achieve these stock ownership guidelines. In addition, in fiscal year 1997 the compensation committee established stock ownership guidelines for outside directors. Under these guidelines, outside directors are required to have at least \$100,000 invested in the common stock of the Company by the year 2002 or within five years of their initial election to the board of directors, whichever is later.

Chief Executive Officer Compensation

Howard B. Bernick's fiscal year 2001 total compensation was established considering competitive market comparisons, Company performance, which included records in each of sales, pre-tax earnings, net earnings and earnings per share for the tenth consecutive year, and the executive compensation philosophy established by the compensation committee. This philosophy targets total compensation at competitive levels and provides significant performance-based variable compensation opportunities.

Mr. Bernick's fiscal year 2001 annual incentive award under the MIP was formula based and reflected record sales and record pre-tax earnings performance.

The number of stock options and performance units granted to Mr. Bernick was based on formulas proposed by the Company's outside compensation consultants and reviewed and approved by the compensation committee. Under these formulas, Mr. Bernick's grants were equal to a percentage of his base salary.

18

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

Deductibility of Compensation

As part of the Omnibus Budget Reconciliation Act passed by Congress in 1993, the Code was amended to add Section 162(m) which limits the deductibility for federal income tax purposes of compensation paid to the Chief Executive Officer and the four other most highly compensated officers of the Company. Under Section 162(m), compensation paid to each of these officers in excess of \$1.0 million per year is deductible by the Company only if it is "performance-based."

It is the Company's policy to take into account the deductibility for federal income tax purposes of the compensation paid to its executive officers. The Company believes that all bonuses and awards paid to executive officers under the MIP and SVIP, respectively, will be tax deductible and that any compensation generated upon the exercise of non-qualified stock options granted under the ACSOP will be tax deductible by the Company.

Audit Committee Report

The primary purpose of the audit committee is to assist the board of directors in fulfilling its oversight responsibilities relating to accounting, reporting practices and the quality and integrity of the financial reports and other publicly disseminated financial information of the Company. In this context, the audit committee has met with management (including the Chief Executive Officer, Chief Financial Officer and Vice President of Corporate Audit) and KPMG LLP, the Company's independent public accountants ("Independent Auditors").

The audit committee held meetings with the Company's internal auditors and Independent Auditors, both in the presence of management and privately, to discuss the overall scope and plans for their respective audits, the results of their examinations, the evaluations of the Company's internal controls, and the overall quality of the Company's financial reports.

The audit committee has reviewed and discussed the audited consolidated financial statements with management and the Independent Auditors. The audit committee also discussed with the Independent Auditors the matters required by Statement on Auditing Standards No. 61 ("Communication With Audit Committees").

With respect to independence, the audit committee has received the written disclosures and the letter from the Independent Auditors required by the Independence Standards Board Standard No. 1 ("Independence Discussions With Audit Committees") and has discussed with the Independent Auditors their independence.

Based upon the reviews and discussions referred to above, the audit committee recommended to the board of directors, and the board has approved, (i) the selection of the Independent Auditors for the 2002 fiscal year and (ii) that

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended September 30, 2001 for filing with the Securities and Exchange Commission.

Performance Graph

The following graph compares the cumulative total shareholder return on the Company's Class A common stock and Class B common stock, the Standard & Poor's 500 Index, and a selected peer group of companies for the last five fiscal years. During 2001, the Company changed its peer group by removing one company and adding 11 companies. The Company changed the peer group to make it more representative of the Company's operations.

The new peer group consists of four companies from the old peer group, Church & Dwight Co., Inc., Claire's Stores, Inc., McCormick & Company, Incorporated, and Regis Corporation, as well as the following new companies: Avon Products, Inc., The Clorox Company, The Dial Corp., Dollar General Corporation, Family Dollar Stores, Inc., The Estee Lauder Companies Inc., Linens

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

^N Things, Inc., Michaels Stores, Inc., Payless Shoesource, Inc., Playtex Products, Inc. and Revlon, Inc. The old per group consists of Applica, Incorporated, Carter-Wallace, Inc., Chattem, Inc., Church & Dwight Co., Inc., Claire's Stores, Inc., Del Laboratories, Inc., E Com Ventures, Inc., Helen of Troy Limited, McCormick & Company, Incorporated, Radio Shack Corporation and Regis Corporation. Block Drug Company, Inc. dropped out of the old peer group during the year as a result of an acquisition.

For the purpose of calculating the peer group average, the cumulative total shareholder returns of each company have been weighted according to its stock market capitalization at the beginning of the fiscal year. The graph assumes \$100 was invested on September 30, 1996 and that all dividends were reinvested.

Re-Approval of the 1994 Stock Option Plan For Non-Employee Directors, As Amended

The 1994 Stock Option Plan For Non-Employee Directors, as Amended (the "Director Plan"), is being presented to stockholders for their re-approval. The stockholders initially approved the Director Plan on January 26, 1995 and re-approved the Director Plan on January 22, 1998. The material amendments proposed for the Director Plan are to (i) provide for the automatic grant to each non-employee director of an option to purchase 2,500 shares of Class A common stock as of the date of each regularly scheduled annual meeting of the stockholders of the Company, commencing at the annual meeting scheduled on January 24, 2002, (ii) eliminate the October 27, 2004 plan termination date and (iii) permit the delivery of previously-owned shares of Class B common stock in payment of the exercise price.

The Director Plan permits the granting of non-qualified options to purchase shares of Class A common stock to eligible directors who are not officers or employees of the Company or any of its subsidiaries. As of November 30, 2001, there were 86,250 Class A shares available to be granted and 76,471 Class A shares subject to options currently outstanding under the Director Plan. Shares subject to options may be made available from unissued or treasury shares. Shares subject to options which terminate, are surrendered or expire unexercised, in whole or in part, may be subsequently used to grant additional options under the Director Plan.

The Director Plan currently provides that an option to purchase 7,500 shares of Class A common stock will automatically be granted by the board of

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

directors, without further action, to each eligible director of the Company upon his or her initial election or appointment as a director of the Company ("Initial Grant"), and has been amended to provide that an option to purchase 2,500 shares of Class A common stock will be granted by the board of directors, without further action, to each eligible director of the Company as of the date of each regularly scheduled annual meeting of the stockholders of the Company ("Subsequent Grants"), starting at the annual meeting scheduled on January 24, 2002. Currently, seven directors participate in the Director Plan. No director who has received an Initial Grant shall be entitled to receive a Subsequent Grant during the same fiscal year of the Company.

The exercise price of options granted under the Director Plan will be the fair market value of the Class A common stock on the date of grant. Each option and the number and kind of shares subject to future options may be adjusted, as may be determined to be equitable in the sole and absolute discretion of the board of directors, in the event there is any change in the outstanding Class A common stock, or any event that could cause a change in the outstanding Class A common stock, including, without limitation, by reason of a stock dividend, recapitalization, reclassification, issuance of Class A common stock, issuance of rights to purchase Class A common stock, issuance of securities

26

convertible into or exchangeable for Class A common stock, merger, consolidation, stock split, reverse stock split, spin-off, combination, exchange or conversion of shares, or any other similar type of event.

On November 30, 2001, the closing price of the Class A common stock, as reported on the composite tape of the New York Stock Exchange, was \$37.32 per share.

Each option granted under the Director Plan will be for a ten-year term and will become exercisable with respect to 25% of the total number of shares one year after the date of grant and with respect to an additional 25% at the end of each of the three years thereafter.

All outstanding stock option awards will be immediately vested upon the occurrence of a change in control, as defined in the Director Plan and summarized above under "Employment Contracts, Termination of Employment and Change in Control Arrangements," and all outstanding stock option awards will, depending on the type of consideration given to stockholders in connection with the change in control, either become options to purchase shares of the acquiring corporation or be canceled and option holders will receive a cash payment in lieu of the exercise of such option awards.

Options are not transferable other than by will or the laws of descent and distribution and an option may be exercised during the director's lifetime only by the director. If the director dies without having fully exercised his or her option, the executor or administrator or his or her estate or his or her legatees or distributees may exercise the option during a one-year period following the director's death (or at the expiration of the term of such option if sooner) but only to the extent the director could have exercised the option at the date of his or her death. If a director resigns from the board of directors due to disability or retirement, the director's option shall terminate three months after his or her resignation (or at the expiration of the term of such option if sooner) and may be exercised only to the extent the director could have exercised the option at the date of his or her resignation. If a director resigns from the board of directors for any reason other than disability or retirement, the director's option shall terminate upon said resignation.

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

Options may be exercised by giving written notice to the Secretary of the Company, specifying the number of shares to be purchased, accompanied by the full purchase price for such number of shares, in cash, by check, in shares of Class A common stock, in shares of Class B common stock, or a combination thereof. Any Class A and/or Class B common stock delivered in payment of the exercise price will be valued at its fair market value on the date of exercise.

The Company understands that under existing federal income tax law, there will be no federal income tax consequences to either the director or the Company on the grant of the option. Upon the exercise of an option, the director will have taxable ordinary income equal to the difference between the option price and the fair market value of the shares received on the exercise. The Company will be entitled to a tax deduction in an amount equal to such difference, provided the Company complies with applicable tax reporting rules. The director will have a tax basis in the shares acquired equal to the fair market value of the shares on the exercise date. Any additional gain or loss realized on the sale or exchange of shares received upon exercise will be long-term or short-term capital gain or loss, depending on how long the director held the shares after the date of exercise.

27

Directors may deliver previously-owned shares of Class A common stock, Class B common stock or a combination thereof in payment of the option price. In such case, the Company understands that (i) with respect to the shares exchanged to pay the option price, no gain or loss will be recognized by the director at the time of exercise, and the basis and holding period of a portion of the shares received in the exchange (to the extent such shares are equal to the fair market value of the shares surrendered to pay the option price) will be the same as the basis and the holding period of the surrendered shares, and (ii) with respect to the additional shares received upon exercise (such additional shares being the shares received in excess of the fair market value of the surrendered shares), the director will be required to recognize as ordinary income in the year of exercise an amount equal to the fair market value of the additional shares received on the date of exercise less any cash paid upon exercise. The tax basis of additional shares received will be equal to their fair market value on the date of exercise.

The Director Plan may be amended or discontinued by the board of directors at any time, provided, however, that no such amendment or discontinuance shall (i) adversely affect or impair any option previously granted without the consent of the director or (ii) except as otherwise provided in the plan, without stockholder approval increase the total number of shares for which options may be granted to eligible directors pursuant to the Director Plan or change the purchase price.

Assuming that the Director Plan is re-approved, the non-employee directors as a group will receive options to purchase 17,500 Class A shares as of January 24, 2002.

The board of directors recommends that the stockholders vote FOR the re-approval of the Alberto-Culver Company 1994 Stock Option Plan For Non-Employee Directors, As Amended.

Re-Approval of the 1994 Shareholder Value Incentive Plan, As Amended

The 1994 Shareholder Value Incentive Plan, as Amended (the "SVIP"), is being presented to shareholders for their re-approval. The SVIP was originally approved by the shareholders on January 26, 1995 and re-approved on January 27,

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

2000. The material amendments proposed for the SVIP are to (i) decrease the maximum payout from \$3,000 per unit to \$2,000 per unit, (ii) prohibit any payout if the Company's total shareholder return ("TSR"), as defined below, compared to the TSR of companies comprising the Applicable Index, as defined below, would rank it at less than the 40th percentile (currently payouts are prohibited if the Company's TSR would rank it below the 50th percentile) and (iii) permit the compensation committee to reduce or eliminate any award otherwise payable if the Company's TSR for the applicable performance period is negative.

The SVIP is intended to provide key salaried employees of the Company and its subsidiaries who have substantial responsibility for the Company's management and growth with additional incentives through the grant of awards based upon the Company's TSR, thereby (i) more closely linking the interests of such employees with stockholders, (ii) increasing the personal stake of such employees in the continued success and growth of the Company, and (iii) encouraging them to remain in the employ of the Company. Approximately 80 employees currently participate in the SVIP. Below is a summary of the material terms of the SVIP.

28

The SVIP is administered by the compensation committee of the board of directors. Under the SVIP, eligible employees selected by the compensation committee will receive performance units having a target value at the time of grant of \$1,000 per unit. At the time performance units are granted, the compensation committee will establish objectives for the next three consecutive fiscal years based on the percentile ranking of the performance of the Class A common stock among the performance of the companies comprising the (i) Standard & Poor's 500 Index, (ii) Standard & Poor's MidCap 400 Index, (iii) Standard & Poor's SmallCap 600 Index, (iv) Standard & Poor's SuperComposite 1500 Index, (v) Russell 3000 Index, or (vi) Russell 2000 Index. The index chosen by the compensation committee for a particular performance period shall be referred to as the "Applicable Index." The Class A common stock is not included in any of these indexes. For the performance period ended September 30, 2004, the Applicable Index is the Standard & Poor's 500 Index.

Performance of the Company and the Applicable Index companies will be measured by the TSR. TSR is defined as the percentage by which the ending per share price of common stock (determined by using the average closing price for the ten trading days prior to and including the last day of the applicable performance period), as adjusted for any stock split or other recapitalization, plus reinvested dividends, exceeds the beginning per share price of the common stock (determined by the average closing price for the ten days prior to and including the first day of the applicable performance period). For purposes of the Company's performance, TSR is computed using the Class A common stock. A performance period is any three consecutive fiscal years of the Company, unless accelerated pursuant to a change in control as described below.

Prior to or within 90 days following the beginning of a performance period, the compensation committee will establish a matrix to determine the amount of the awards payable upon the attainment of the objectives. As the Company's percentile ranking among the Applicable Index companies improves, the commensurate amount of the award will increase to a maximum of \$2,000 (200% of the target award) per unit. No award will be payable if the Company's TSR compared to the TSR of the companies comprising the Applicable Index would rank it at less than the 40th percentile. The Compensation Committee may reduce or eliminate an award if the Company's TSR for a performance period is negative.

At the end of the performance period, the compensation committee will certify the Company's TSR percentile ranking among the companies comprising the

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

Applicable Index and to what extent the objectives established by the compensation committee for the performance period have been attained. The maximum award payable to a single SVIP participant in cash or in Class A common stock for any performance period may not exceed the lesser of 200% of the target award or \$4.0 million. Awards will be distributed on or before the 15/th/ day of the third month following the end of the applicable performance period.

Participants may elect to receive all or a portion of their award in Class A common stock. Participants owning shares of Class A and Class B common stock having a dollar value below a level determined by the compensation committee will be required to take at least 50% of their awards, less applicable withholding taxes, in Class A common stock.

29

If a participant's employment is terminated prior to the end of a performance period for any reason other than death, retirement, disability, or a change in control as defined in the SVIP and summarized above under "Employment Contracts, Termination of Employment and Change in Control Arrangements," any performance units held by the participant shall be immediately cancelled. If a participant's employment terminates due to death, disability or retirement, the participant, or in the case of death, his or her estate or named beneficiary, will receive a prorated cash award based on the number of full calendar months the participant was employed during the performance period.

In the event of a change in control of the Company, all or a pro-rata portion of the outstanding performance units, based on the number of fiscal years of each performance period that have elapsed and the TSR for the Company as of the date of the change in control compared to the TSR for the Applicable Index companies as of the end of the last quarter for which such information is available, will become payable in cash within 30 days following such change in control. If at least six full calendar months of any fiscal year have elapsed, the entire fiscal year shall be deemed to have elapsed.

In event of a change in control of the Company, awards may be reduced (but not below zero) so that the present value, as determined in accordance with Section 280G(d)(4) of the Internal Revenue Code (the "Code"), of such payments plus any other payments relating to a participant under Section 280G(b)(2)(A)(ii) of the Code shall not, in the aggregate, exceed 2.99 times such participant's "base amount" as defined in Section 280G(b)(3) of the Code. No such reduction, however, shall be applied to any payments which do not constitute "excess parachute payments" within the meaning of the Code.

A participant's rights in, and performance units granted under, the SVIP may not be assigned or transferred except by will or the laws of descent and distribution. A participant's benefits under the SVIP are reflected on the Company's books as general, unsecured and unfunded obligations of the Company, and the SVIP does not give any person any right or security interest in any asset of the Company, nor does it imply a trust or segregation of assets by the Company. The compensation committee or the board of directors may terminate or amend the SVIP at any time, provided no such amendment may adversely affect or impair previously granted performance units and the termination of the SVIP shall have no impact on previously granted performance units.

The board of directors recommends that the stockholders vote FOR the re-approval of the Alberto-Culver Company 1994 Shareholder Value Incentive Plan, as Amended.

1994 STOCK OPTION PLAN FOR NON-EMPLOYEE DIRECTORS

(as amended through January 24, 2002)

1. Purpose. The principal purpose of the 1994 Stock Option Plan for Non-Employee Directors (the "Director Plan") is to benefit Alberto-Culver Company (the "Company") and its subsidiaries by offering its non-employee directors an opportunity to become holders of the Company's Class A common stock, par value \$.22 per share, in order to enable them to represent the viewpoint of other stockholders of the Company more effectively and to encourage them to continue serving as directors of the Company.

2. Administration. The Director Plan shall be administered by the Board of Directors, whose interpretation of the terms and provisions of the Director Plan shall be final, conclusive and binding. No member of the Board of Directors shall be liable for any action or determination made in good faith with respect

Edgar Filing: ALBERTO CULVER CO - Form DEF 14A

to the Director Plan or any option thereunder.

3. Eligibility. Options shall be granted under this Director Plan only to members of the Board of Directors who are not officers or employees of the Company or any of its subsidiaries.

4. Granting of Options.

(a) An option to purchase 7,500 shares of Class A common stock from the Company shall be automatically granted by the Board of Directors, without further action required, to each director of the Company upon his or her initial election or appointment as a director of the Company and to each person who is an incumbent director on October 27, 1994 ("Initial Grant"); provided such director is eligible at that time under the terms of paragraph 3 of this Director Plan. No person may be granted more than one option pursuant to this paragraph 4(a) of this Director Plan.

(b) An option to purchase 2,500 shares of Class A common stock from the Company shall be automatically granted by the Board of Directors, without further action required, at every Annual Meeting of the Stockholders of the Company commencing on the Annual Meeting of the Stockholders of the Company scheduled to occur in January, 2002, to each director of the Company ("Subsequent Grant"); provided such director is eligible at that time under the terms of paragraph 3 of this Director Plan. No director who has received an Initial Grant shall be entitled to receive a Subsequent Grant during the same fiscal year of the Company.

(c) An aggregate of 210,000 shares shall be available under this Director Plan. Such number of shares, and the number of shares subject to options outstanding under this Director Plan, shall be subject in all cases to adjustment as provided in paragraph 10. Shares subject to options may be made available from unissued or treasury shares of stock. If any option granted under the Director Plan shall terminate or be surrendered or expire unexercised, in whole or in part, the shares

so released from such option may be made the subject of additional options granted under the Director Plan.

(d) Nothing contained in this Director Plan or in any option granted pursuant hereto shall confer upon any optionee any right to continue serving as a director of the Company or interfere in any way with any right of the Board of Directors or stockholders of the Company to remove such director pursuant to the certificate of incorporation or by-laws of the Company or applicable law.

5. Option Price. Subject to adjustment under paragraph 10, the option price shall be the Fair Market Value (as defined below) of the Company's Class A common stock on the date the option is granted. For purposes of the Director Plan, "Fair Market Value" shall mean the average of the high and low transaction prices of a share of Class A common stock or Class B common stock of the Company (the "Class B common stock"), as the case may be, as reported in the New York Stock Exchange Composite Transactions on the date as of which such value is being determined or, if there shall be no reported transactions for such date, on the next preceding date for which transactions were reported.

6. Duration of Options, Increments and Extensions. Subject to the provisions of paragraph 8, each option shall be for a term of ten (10) years. Subject to the provisions of paragraph 11, each option shall become exercisable with respect to 25% of the total number of shares on the day preceding the one (1) year anniversary of the date of grant and with respect to an additional 25% at the end of each twelve-month period thereafter during the succeeding three

years.

7. Exercise of Option. An option may be exercised by giving written notice to the Company, attention of the Secretary, specifying the number of shares of Class A common stock to be purchased, accompanied by the full purchase price for such number of shares, (i) in cash, (ii) by check, (iii) by delivery of previously owned shares of Class A common stock, (iv) by delivery of previously owned shares of Class B common stock or (v) by a combination of these methods of payment. However, under no circumstances may any optionee deliver previously owned shares of Class A common stock obtained from the exercise of options hereunder during the six months immediately preceding the exercise date. The per share value of the Class A common stock and/or Class B common stock delivered in payment of the option price shall be the Fair Market Value of the Class A common stock and/or Class B common stock on the date of exercise.

8. Termination - Exercise Thereafter.

(a) If an optionee dies without having fully exercised his or her options, the executors or administrators of his or her estate or legatees or distributees shall have the right during the one (1) year period following his or her death (but not after the expiration of the term of any such options) to exercise such options in whole or in part but only to the extent that the optionee could have exercised each such option at the date of his or her death.
