

ALLIED CAPITAL CORP
Form 497
July 19, 2006

Filed Pursuant to Rule 497
Registration Statement No. 333-132515

PROSPECTUS SUPPLEMENT
(To Prospectus dated April 27, 2006)

4,500,000 Shares
Common Stock

We are offering 4,500,000 shares of our common stock, par value \$0.0001 per share. We will receive all of the net proceeds from the sale of our common stock.

Our common stock is traded on the New York Stock Exchange under the symbol ALD. The last reported sale price for our common stock on July 18, 2006, was \$27.45 per share.

Please read this prospectus supplement, and the accompanying prospectus, before investing, and keep it for future reference. The prospectus supplement and the accompanying prospectus contain important information about us that a prospective investor should know before investing in our common stock. We file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission. This information is available free of charge by contacting us at 1919 Pennsylvania Avenue, NW, Washington, DC, 20006, or by telephone at (202) 721-6100 or on our website at www.alliedcapital.com. The information on this website is not incorporated by reference into this prospectus supplement and the accompanying prospectus. The SEC also maintains a website at www.sec.gov that contains such information.

Before buying any of these shares of our common stock, you should review the information, including the risk of leverage, set forth under Risk Factors on page 10 of the accompanying prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

	Per Share	Total
Public offering price	\$ 27.450	\$ 123,525,000
Underwriting discounts and commissions	\$ 1.098	\$ 4,941,000
Proceeds, before expenses, to us ⁽¹⁾	\$ 26.352	\$ 118,584,000

⁽¹⁾ Expenses payable by us are estimated to be approximately \$460,000.

The underwriters may also purchase from us up to an additional 675,000 shares of our common stock at the public offering price less the underwriting discounts and commissions, to cover over-allotments, if any, within 30 days of the date of this prospectus supplement.

The underwriters are offering the shares of our common stock as described in Underwriting. Delivery of the shares will be made on or about July 24, 2006.

Merrill Lynch & Co.	<i>Joint Book-Running Managers</i> Banc of America Securities LLC	Citigroup
Lehman Brothers	<i>Co-Managers</i>	SunTrust Robinson Humphrey

The date of this prospectus supplement is July 18, 2006

You should rely only on the information contained in this prospectus supplement and the accompanying prospectus. We have not, and the underwriters have not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and the underwriters are not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing in this prospectus supplement and the accompanying prospectus is accurate only as of their respective dates. Our business, financial condition and results of operations may have changed since those dates. This prospectus supplement supersedes the accompanying prospectus to the extent it contains information that is different from or additional to the information in that prospectus.

In this prospectus supplement and the accompanying prospectus, unless otherwise indicated, Allied Capital, Company, we, us or our refers to Allied Capital Corporation and its subsidiaries.

Information contained in this prospectus supplement and the accompanying prospectus may contain forward-looking statements, which can be identified by the use of forward-looking terminology such as may, will, expect, intend, anticipate, estimate, or continue or the negative thereof or other variations thereon or comparable terminology. The matters described in Risk Factors in the accompanying prospectus and certain other factors noted throughout this prospectus supplement and the accompanying prospectus constitute cautionary statements identifying important factors with respect to any such forward-looking statements, including certain risks and uncertainties, that could cause actual results to differ materially from those in such forward-looking statements.

(i)

FEES AND EXPENSES

This table describes the various costs and expenses that an investor in our shares of common stock will bear directly or indirectly.

Shareholder Transaction Expenses	
Sales load (as a percentage of offering price) ⁽¹⁾	4.0%
Dividend reinvestment plan fees ⁽²⁾	None
Annual Expenses (as a percentage of consolidated net assets attributable to common stock)⁽³⁾	
Operating expenses ⁽⁴⁾	5.5%
Interest payments on borrowed funds ⁽⁵⁾	3.9%
Total annual expenses⁽⁶⁾⁽⁷⁾	9.4%

- (1) Represents the underwriting discounts and commissions with respect to the shares sold by us in this offering.
- (2) The expenses of our dividend reinvestment plan are included in Operating expenses. We do not have a stock purchase plan. The participants in the dividend reinvestment plan will bear a pro rata share of brokerage commissions incurred with respect to open market purchases or sales, if any. See Dividend Reinvestment Plan in the accompanying prospectus.
- (3) Consolidated net assets attributable to common stock equals net assets (*i.e.*, total consolidated assets less total consolidated liabilities), which at March 31, 2006, was \$2.7 billion.
- (4) Operating expenses represent our estimated operating expenses for the year ending December 31, 2006, excluding interest on indebtedness. Estimated operating expenses for the year ending December 31, 2006, exclude any expense related to option cancellation payments (OCP) described below under Recent Developments. This percentage for the year ended December 31, 2005, was 5.7%. See Management and Compensation of Executive Officers and Directors in the accompanying prospectus.
- (5) Interest payments on borrowed funds represents our estimated interest expense for the year ending December 31, 2006. We had outstanding borrowings of \$1.3 billion at March 31, 2006. This percentage for the year ended December 31, 2005, was 2.9%. See Risk Factors in the accompanying prospectus.
- (6) Total annual expenses as a percentage of consolidated net assets attributable to common stock are higher than the total annual expenses percentage would be for a company that is not leveraged. We borrow money to leverage our net assets and increase our total assets. The SEC requires that Total annual expenses percentage be calculated as a percentage of *net* assets, rather than the total assets, including assets that have been funded with borrowed monies. If the Total annual expenses percentage were calculated instead as a percentage of consolidated total assets, our Total annual expenses would be 6.2% of consolidated total assets.
- (7) The holders of shares of our common stock (and not the holders of our debt securities or preferred stock, if any) indirectly bear the cost associated with our annual expenses.

Example

The following example, required by the SEC, demonstrates the projected dollar amount of total cumulative expenses that would be incurred over various periods with respect to a hypothetical investment in us. In calculating the following expense amounts, we assumed we would have no additional leverage and that our operating expenses

would remain at the levels set forth in the table above.

	1 Year	3 Years	5 Years	10 Years
You would pay the following expenses on a \$1,000 investment, assuming a 5.0% annual return	\$ 131	\$ 309	\$ 483	\$ 900

Although the example assumes (as required by the SEC) a 5.0% annual return, our performance will vary and may result in a return of greater or less than 5.0%. In addition, while the example assumes reinvestment of all dividends and distributions at net asset value, participants in the dividend reinvestment plan may receive shares of common stock that we issue at or above net asset value or are purchased by the administrator of the dividend reinvestment plan, at the market price in effect at the time, which may be higher than, at, or below net asset value.

The example should not be considered a representation of future expenses, and the actual expenses may be greater or less than those shown.

S-1

RECENT DEVELOPMENTS

At March 31, 2006, we had a \$772.5 million unsecured revolving line of credit. Effective May 22, 2006, we expanded the committed amount under the facility by \$150.0 million, which brought the total committed amount to \$922.5 million. The facility is now fully committed. The revolving line of credit expires on September 30, 2008.

On May 11, 2006, we amended the terms of the facility related to interest rates and certain reporting requirements. The interest rate spread was reduced from 1.30% to 1.05%. At our option, borrowings under the revolving line of credit will now generally bear interest at a rate equal to (i) LIBOR (for the period selected by us) plus 1.05% or (ii) the higher of the Federal Funds rate plus 0.50% or the Bank of America N.A. prime rate. The revolving line of credit continues to require the payment of an annual commitment fee equal to 0.20% of the committed amount (whether used or unused). The revolving line of credit generally requires payments of interest at the end of each LIBOR interest period, but no less frequently than quarterly, on LIBOR based loans, and monthly payments of interest on other loans. All principal is due upon maturity. At May 11, 2006, there was \$99.3 million in outstanding borrowings under the revolving line of credit.

The revolving credit facility continues to provide for a sub-facility for the issuance of letters of credit for up to an amount equal to 16.67% of the committed facility. The letter of credit fee will now be 1.05% per annum on letters of credit issued, which is payable quarterly. At May 11, 2006, there were \$39.8 million of standby letters of credit issued under the facility.

In connection with our 2006 Annual Meeting of Stockholders, the stockholders approved the issuance of up to 2,500,000 shares of our common stock in exchange for the cancellation of vested in-the-money stock options granted to certain officers and directors under the Amended Stock Option Plan. Under the initiative, which has been reviewed and approved by our Board of Directors, all optionees who hold vested stock options with exercise prices below the market value of the stock (or in-the-money options), would be offered the opportunity to receive cash and common stock in exchange for their voluntary cancellation of their vested stock options. The sum of the cash and common stock to be received by each optionee would equal the in-the-money value of the stock option cancelled. As part of this initiative, the Board of Directors is also considering the adoption of a target ownership structure that would establish minimum ownership levels for our senior officers and continue to further align the interests of our officers with those of our stockholders. Unlike the accounting treatment typically associated with a stock option exercise, the option cancellation payment (OCP) would be recorded as an expense for financial reporting purposes, and the expense may be significant. Based on the 13 million vested options outstanding and the market price of \$30.50 of our stock on March 10, 2006, the expense related to the OCP would be approximately \$106 million if all option holders choose to cancel all vested in-the-money options in exchange for the OCP. For income tax purposes, our tax expense resulting from the OCP would be similar to the tax expense that would result from an exercise of stock options in the market. Any tax deduction for us resulting from the OCP or an exercise of stock options in the market would be limited by Section 162(m) of the Code for persons subject to Section 162(m).

On June 22, 2006, the Securities and Exchange Commission declared our registration statement registering debt securities up to an aggregate principal amount of \$1 billion using the shelf registration process effective. We may raise new debt and equity capital from time to time in order to fund our investments and operations.

USE OF PROCEEDS

We estimate that our net proceeds from the sale of the 4,500,000 shares of common stock we are offering will be approximately \$118.1 million and approximately \$135.9 million, if the underwriters' over-allotment option is exercised in full, and after deducting the underwriting discounts and commissions and estimated offering expenses payable by us.

We expect to use the net proceeds from this offering to reduce borrowings under our revolving line of credit, to invest in debt or equity securities in primarily privately negotiated transactions, and for other general corporate purposes. Amounts repaid under our revolving line of credit will remain available for future borrowings. At July 14, 2006, the interest rate on our revolving line of credit was approximately 6.7% and there was approximately \$85.0 million outstanding. This revolving line of credit expires on September 30, 2008.

S-3

UNDERWRITING

Subject to the terms and conditions set forth in our underwriting agreement, we are offering the shares of our common stock described in this prospectus supplement through the underwriters named below. Merrill Lynch, Pierce, Fenner & Smith Incorporated, Banc of America Securities LLC and Citigroup Global Markets Inc. are acting as representatives. Each of the underwriters has severally agreed to purchase the number of shares of common stock listed next to its name in the following table:

Underwriters	Number of shares
Merrill Lynch, Pierce, Fenner & Smith Incorporated	1,800,000
Banc of America Securities LLC	1,125,000
Citigroup Global Markets Inc.	1,125,000
Lehman Brothers Inc.	292,500
SunTrust Capital Markets, Inc.	157,500
Total	4,500,000

The underwriting agreement provides that the obligations of the underwriters to purchase the shares of common stock offered hereby are subject to certain conditions precedent and that the underwriters will purchase all of the shares of common stock offered by this prospectus supplement, other than those covered by the over-allotment option described below, if any of these shares are purchased.

The underwriters propose to offer the shares of common stock to the public at the public offering price set forth on the cover of this prospectus supplement and to dealers at a price that represents a concession not in excess of \$0.65 per share under the public offering price. The underwriters may allow, and these dealers may re-allow, a concession of not more than \$0.10 per share to other dealers. If all the shares are not sold at the public offering price, the underwriters may change the offering price and the other selling terms.

The underwriters have the option to purchase up to 675,000 additional shares of common stock from us at the same price they are paying for the 4,500,000 shares offered hereby. The underwriters may purchase additional shares only to cover over-allotments made in connection with this offering and only within 30 days after the date of this prospectus supplement. The underwriters will offer any additional shares that they purchase on the terms described in the preceding section.

The underwriting discounts and commissions per share are equal to the public offering price per share of common stock less the amount paid by the underwriters to us per share of common stock. The underwriting discounts and commissions are 4.0% of the public offering price. We have agreed to pay the underwriters the following discounts and commissions. These amounts are shown assuming either no exercise or full exercise by the underwriters of the underwriters over-allotment option:

	Total Fees		
	Fee Per Share	Without Exercise of Over-Allotment Option	With Full Exercise of Over-Allotment Option
Underwriting discounts and commissions	\$ 1.098	\$ 4,941,000	\$ 5,682,150

We estimate that the total expenses of this offering, which will be paid by us, excluding the underwriting discounts and commissions, will be approximately \$460,000.

S-4

We have agreed to indemnify the underwriters against some specified types of liabilities, including liabilities under the Securities Act, and to contribute to payments the underwriters may be required to make in respect of these liabilities.

We and certain of our executive officers have agreed not to offer, sell, contract to sell or otherwise dispose of, or to engage in certain hedging and derivative transactions with respect to, our common stock for a period of 60 days after the date of this prospectus supplement without first obtaining the written consent of Merrill Lynch, Pierce, Fenner & Smith Incorporated, Banc of America Securities LLC and Citigroup Global Markets Inc., except in limited circumstances, including our additional issuance of equity securities through privately negotiated transactions that may or may not involve an underwriter, whether or not registered with the SEC, aggregating not more than \$75 million. This consent may be given at any time without public notice.

The underwriters do not intend to confirm sales to any account over which they exercise discretionary authority.

In connection with this offering, the underwriters may purchase and sell shares of our common stock in the open market. These transactions may include stabilizing transactions, short sales and purchases to cover positions created by short sales and stabilizing transactions.

Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in this offering. Covered short sales are sales made in an amount not greater than the underwriters' over-allotment option to purchase additional shares in this offering. The underwriters may close out any covered short position by either exercising their over-allotment option or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option.

Naked short sales are sales in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned there may be downward pressure on the price of shares in the open market prior to the completion of this offering.

Stabilizing transactions consist of various bids for or purchases of our common stock made by the underwriters in the open market prior to the completion of this offering.

The underwriters may impose a penalty bid. This occurs when a particular underwriter repays to the other underwriters a portion of the underwriting discount received by it because the representatives of the underwriters have repurchased shares sold by or for the account of that underwriter in stabilizing or short covering transactions.

Purchase to cover a short position and stabilizing transactions may have the effect of preventing or slowing a decline in the market price of our common stock. Additionally, these purchases, along with the imposition of a penalty bid, may stabilize, maintain or otherwise affect the market price for our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the New York Stock Exchange, in the over-the-counter market or otherwise.

In the ordinary course of business certain of the underwriters or their affiliates have engaged and may in the future engage in various financing, commercial banking and investment banking services with, and provide financial advisory services to, us and our affiliates, for which they have received or may receive customary fees and expenses. Affiliates of Merrill Lynch, Pierce, Fenner & Smith Incorporated, Banc of America Securities LLC, Citigroup Global Markets Inc. and SunTrust Capital Markets, Inc. are members of the lending syndicate for our unsecured revolving line of credit and will receive proceeds of this offering by reason of the repayment of amounts outstanding thereunder.

Because more than 10% of the net proceeds of the offering may be received by members of the National Association of Securities Dealers, Inc. (NASD) participating in the offering or their affiliates, the offering is being conducted in accordance with NASD Conduct Rule 2710(h).

This offering is being conducted in compliance with Rule 2810 of the Conduct Rules of the National Association of Securities Dealers, Inc.

The principal business address of Merrill Lynch, Pierce, Fenner & Smith Incorporated is 4 World Financial Center, 250 Vesey Street, New York, NY 10080. The principal business address of Banc of America Securities LLC is 9 West 57th Street, New York, NY 10019. The principal business address of Citigroup Global Markets Inc. is 388 Greenwich Street, New York, NY 10013.

LEGAL MATTERS

Certain legal matters with respect to the validity of the shares of common stock we are offering will be passed upon for us by Sutherland Asbill & Brennan LLP, Washington, D.C. Certain legal matters related to the offering will be passed upon for the underwriters by Fried, Frank, Harris, Shriver & Jacobson LLP, Washington D.C.

**INTERIM MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following analysis of the financial condition and results of operations of the Company should be read in conjunction with the Company's Consolidated Financial Statements and the Notes thereto included herein and in the Company's annual report on Form 10-K for the year ended December 31, 2005. In addition, this quarterly report on Form 10-Q contains certain forward-looking statements. These statements include the plans and objectives of management for future operations and financial objectives and can be identified by the use of forward-looking terminology such as may, will, expect, intend, anticipate, estimate, or continue or the negative thereof or other variations thereon or comparable terminology. These forward-looking statements are subject to the inherent uncertainties in predicting future results and conditions. Certain factors that could cause actual results and conditions to differ materially from those projected in these forward-looking statements are set forth below in the Risk Factors section. Other factors that could cause actual results to differ materially include:

changes in the economy and general economic conditions;

risks associated with possible disruption in our operations due to terrorism;

future changes in laws or regulations and conditions in our operating areas; and

other risks and uncertainties as may be detailed from time to time in our public announcements and SEC filings.

Financial or other information presented for private finance portfolio companies has been obtained from the portfolio companies, and the financial information presented may represent unaudited, projected or pro forma financial information, and therefore may not be indicative of actual results. In addition, the private equity industry uses financial measures such as EBITDA or EBITDAM (Earnings Before Interest, Taxes, Depreciation, Amortization and, in some instances, Management fees) in order to assess a portfolio company's financial performance and to value a portfolio company. EBITDA and EBITDAM are not intended to represent cash flow from operations as defined by U.S. generally accepted accounting principles and such information should not be considered as an alternative to net income, cash flow from operations or any other measure of performance prescribed by U.S. generally accepted accounting principles.

OVERVIEW

As a business development company, we are in the private equity business. Specifically, we provide long-term debt and equity investment capital to companies in a variety of industries. Our lending and investment activity has generally been focused on private finance and commercial real estate finance, which included primarily the investment in non-investment grade commercial mortgage-backed securities, which we refer to as CMBS, and collateralized debt obligation bonds and preferred shares, which we refer to as CDOs.

On May 3, 2005, we completed the sale of our portfolio of CMBS and real estate related CDO investments. Upon the completion of this transaction, our lending and investment activity has been focused primarily on private finance investments. Our private finance activity principally involves providing financing to middle market U.S. companies through privately negotiated long-term debt and equity investment capital. Our financing is generally used to fund growth, acquisitions, buyouts, recapitalizations, note purchases, bridge financings, and other types of financings. We generally invest in private companies though, from time to time, we may invest in companies that are public but lack

access to additional public capital. Our investment objective is to achieve current income and capital gains.

Our portfolio composition at March 31, 2006 and 2005, and December 31, 2005, was as follows:

	March 31,		December
	2006	2005	31, 2005
Private finance	96%	74%	96%
Commercial real estate finance	4%	26%	4%

Our earnings depend primarily on the level of interest and dividend income, fee and other income, and net realized and unrealized gains or losses on our investment portfolio after deducting interest expense on borrowed capital, operating expenses and income taxes including excise tax. Interest income results from the stated interest rate earned on a loan or debt security and the amortization of loan origination fees and discounts. The level of interest income is directly related to the balance of the interest-bearing investment portfolio outstanding during the period multiplied by the weighted average yield. Our ability to generate interest income is dependent on economic, regulatory, and competitive factors that influence new investment activity, interest rates on the types of loans we make, the level of repayments in the portfolio, the amount of loans and debt securities for which interest is not accruing and our ability to secure debt and equity capital for our investment activities.

Because we are a regulated investment company for tax purposes, we intend to distribute substantially all of our annual taxable income as dividends to our shareholders. See **Other Matters** below.

PORTFOLIO AND INVESTMENT ACTIVITY

The total portfolio at value, investment activity, and the yield on interest-bearing investments at and for the three months ended March 31, 2006 and 2005, and at and for the year ended December 31, 2005, were as follows:

	At and for the Three Months Ended March 31,		At and for the Year Ended December 31,
	2006	2005	2005
	(\$ in millions)		
Portfolio at value	\$ 3,691.0	\$ 3,195.0	\$ 3,606.4
Investments funded ⁽¹⁾	\$ 797.9	\$ 265.6	\$ 1,675.8
Change in accrued or reinvested interest and dividends ⁽²⁾	\$ (2.1)	\$ 10.5	\$ 6.6
Principal collections related to investment repayments or sales	\$ 340.4	\$ 158.3	\$ 1,503.4
Yield on interest-bearing investments ⁽³⁾	12.3%	13.6%	12.8%

(1) Investments funded for the three months ended March 31, 2006, included a \$150 million subordinated debt investment in Advantage Sales & Marketing, Inc. received in conjunction with the sale of Advantage as discussed below.

(2) Includes a change in accrued or reinvested interest of \$1.1 million for the three months ended March 31, 2006, related to our investments in money market securities.

(3) The weighted average yield on interest-bearing investments is computed as the (a) annual stated interest plus the annual amortization of loan origination fees, original issue discount, and market discount on accruing

interest-bearing investments less the annual amortization of loan origination costs, divided by (b) total interest-bearing investments at value. The weighted average yield is computed as of the balance sheet date.

S-8

Private Finance

The private finance portfolio at value, investment activity, and the yield on loans and debt securities at and for the three months ended March 31, 2006 and 2005, and at and for the year ended December 31, 2005, were as follows:

(\$ in millions)	At and for the Three Months Ended March 31,				At and for the Year Ended December 31, 2005	
	2006		2005		Value	Yield ⁽²⁾
	Value	Yield ⁽²⁾	Value	Yield ⁽²⁾		
Portfolio at value:						
Loans and debt securities:						
Senior loans	\$ 420.1	9.3%	\$ 253.5	8.6%	\$ 239.8	9.5%
Unitranche debt	362.7	11.1%	44.2	14.8%	294.2	11.4%
Subordinated debt	1,747.2	13.6%	1,258.7	14.9%	1,560.9	13.8%
Total loans and debt securities	\$ 2,530.0	12.5%	\$ 1,556.4	13.8%	\$ 2,094.9	13.0%
Equity securities	1,031.6		822.1		1,384.4	
Total portfolio	\$ 3,561.6		\$ 2,378.5		\$ 3,479.3	
Investments funded ⁽¹⁾	\$ 795.9		\$ 168.2		\$ 1,462.3	
Change in accrued or reinvested interest and dividends	\$ (4.2)		\$ 7.9		\$ 24.6	
Principal collections related to investment repayments or sales	\$ 336.6		\$ 151.2		\$ 703.9	

(1) Investments funded for the three months ended March 31, 2006, included a \$150 million subordinated debt investment in Advantage Sales & Marketing, Inc. received in conjunction with the sale of Advantage as discussed below.

(2) The weighted average yield on loans and debt securities is computed as the (a) annual stated interest plus the annual amortization of loan origination fees, original issue discount, and market discount on accruing loans and debt securities less the annual amortization of loan origination costs, divided by (b) total loans and debt securities at value. The weighted average yield is computed as of the balance sheet date.

Our investment activity is focused on making long-term investments in the debt and equity of primarily private middle market companies. Debt investments may include senior loans, unitranche debt (a single debt investment that is a blend of senior and subordinated debt), or subordinated debt (with or without equity features). The junior debt that we invest in that is lower in repayment priority than senior debt is also known as mezzanine debt. Equity investments may include a minority equity stake in connection with a debt investment or a substantial equity stake in connection with a buyout transaction. In a buyout transaction, we generally invest in senior and/or subordinated debt and equity (preferred and/or voting or non-voting common) where our equity ownership represents a significant portion of the equity, but may or may not represent a controlling interest.

In addition, we may fund most or all of the debt and equity capital upon the closing of certain buyout transactions, which may include investments in lower-yielding senior debt. Subsequent to the closing, the portfolio company may

refinance all or a portion of the lower-yielding senior debt, which would reduce our investment. Senior loans at March 31, 2006, included approximately \$200 million of senior loans that are currently in the process of being refinanced. Repayments include repayments of senior debt funded by us that was subsequently refinanced or repaid by the portfolio companies.

We intend to take a balanced approach to private equity investing that emphasizes a complementary mix of debt investments and buyout investments. The combination of these two types of investments provides current interest and related portfolio income and the potential for future capital gains. Recently, we believe many junior debt financing opportunities in the market have become less attractive from a risk/return perspective. To address the current market, our strategy is

S-9

to focus on buyout and recapitalization transactions where we can manage risk through the structure and terms of our debt and equity investments and where we can potentially realize more attractive total returns from both current interest and fee income and future capital gains. We are also focusing our debt investing on smaller middle market companies where we can provide both senior and subordinated debt or unitranche debt, where our current yield may be lower than traditional subordinated debt only. We believe that providing both senior and subordinated debt or unitranche debt provides greater protection in the capital structures of our portfolio companies.

Investments Funded. Investments funded and the weighted average yield on investments funded for the three months ended March 31, 2006 and 2005, and for the year ended December 31, 2005, consisted of the following:

For the Three Months Ended March 31, 2006

	Debt Investments		Buyout Investments		Total	
	Amount	Weighted Average Yield ⁽¹⁾	Amount	Weighted Average Yield ⁽¹⁾	Amount	Weighted Average Yield ⁽¹⁾
(\$ in millions)						
Loans and debt securities:						
Senior loans	\$ 85.0	9.1%	\$ 117.8	8.9%	\$ 202.8	9.0%
Unitranche debt ⁽²⁾	75.0	10.6%			75.0	10.6%
Subordinated debt ⁽³⁾	279.3	12.5%	145.4	13.9%	424.7	13.0%

Total	\$ 105.2		\$ 63.0		\$ 168.2	

- (1) The weighted average yield on interest-bearing investments is computed as the (a) annual stated interest on accruing interest-bearing investments, divided by (b) total interest-bearing investments funded.
- (2) Unitranche debt is a single debt investment that is a blend of senior and subordinated debt terms. The yield on a unitranche investment reflects the blended yield of senior and subordinated debt combined.
- (3) Debt investments for the three months ended March 31, 2006, included a \$150 million, 12.0% subordinated debt investment in Advantage Sales & Marketing, Inc. received in conjunction with the sale of Advantage as discussed below.
- (4) Buyout senior loans funded included \$174.9 million that was repaid during the year.

S-10

For the Year Ended December 31, 2005

	Debt Investments		Buyout Investments		Total	
	Amount	Weighted Average Yield ⁽¹⁾	Amount	Weighted Average Yield ⁽¹⁾	Amount	Weighted Average Yield ⁽¹⁾
(\$ in millions)						
Loans and debt securities:						
Senior loans ⁽⁴⁾	\$ 76.8	10.0%	\$ 250.2	6.4%	\$ 327.0	7.2%
Unitranche debt ⁽²⁾	259.5	10.5%			259.5	10.5%
Subordinated debt	296.9	12.3%	330.9	12.5%	627.8	12.4%
Total loans and debt securities	633.2	11.3%	581.1	9.9%	1,214.3	10.6%
Equity	82.5		165.5		248.0	
Total	\$ 715.7		\$ 746.6		\$ 1,462.3	

- (1) The weighted average yield on interest-bearing investments is computed as the (a) annual stated interest on accruing interest-bearing investments, divided by (b) total interest-bearing investments funded.
- (2) Unitranche debt is a single debt investment that is a blend of senior and subordinated debt terms. The yield on a unitranche investment reflects the blended yield of senior and subordinated debt combined.
- (3) Debt investments for the three months ended March 31, 2006, included a \$150 million, 12.0% subordinated debt investment in Advantage Sales & Marketing, Inc. received in conjunction with the sale of Advantage as discussed below.

- (4) Buyout senior loans funded included \$174.9 million that was repaid during the year. In April 2006, we funded private finance investments totaling \$254.9 million.

We generally fund new investments using cash. In addition, we may acquire securities in exchange for our common equity. Also, we may acquire new securities through the reinvestment of previously accrued interest and dividends in debt or equity securities, or the current reinvestment of interest and dividend income through the receipt of a debt or equity security (payment-in-kind income). From time to time we may opt to reinvest accrued interest receivable in a new debt or equity security in lieu of receiving such interest in cash.

The level of investment activity for investments funded and principal repayments for private finance investments can vary substantially from period to period depending on the number and size of investments that we make or that we exit and many other factors, including the amount of debt and equity capital available to middle market companies, the level of merger and acquisition activity for such companies, the general economic environment, and the competitive environment for the types of investments we make. We believe that merger and acquisition activity in the middle market is strong, which has resulted in an increase in private finance investment opportunities, as well as increased repayments. We continue to have an active pipeline of new investments under consideration. We believe that merger and acquisition activity for middle market companies will remain strong in 2006.

Portfolio Yield. The yield on private finance loans and debt securities was 12.5% at March 31, 2006, as compared to 13.8% and 13.0% at March 31, 2005, and December 31, 2005, respectively. The weighted average yield on the private finance loans and debt securities may fluctuate from period to period depending on the yield on new loans and debt securities funded, the yield on loans and debt securities repaid, the amount of loans and debt securities for which interest is not accruing and the amount of lower-yielding senior or unitranche debt in the portfolio at the end of the period. The yield on the private finance portfolio has declined partly due to our strategy to pursue more buyout and recapitalization transactions, which may include investing in lower-yielding senior debt, as well as pursue unitranche investments.

S-11

Outstanding Investment Commitments. At March 31, 2006, we had outstanding private finance investment commitments totaling \$316.3 million, including the following:

\$33.3 million in the form of debt to Promo Works, LLC.

\$30.0 million in the form of debt to Business Loan Express, LLC.

\$29.9 million in the form of equity to eleven private equity and venture capital funds.

\$14.0 million in the form of debt to S.B. Restaurant Company.

\$14.0 million in the form of debt to Integrity Interactive Corp.

\$9.6 million in the form of debt to 3SI Security Systems Inc.

\$8.3 million in the form of debt to Hot Stuff Foods, LLC.

\$7.8 million in the form of debt to Mercury Air Centers, Inc.

\$6.5 million in co-investment commitments to Pine Creek Equity Partners, LLC.

We have various commitments to Callidus Capital Corporation (Callidus), which owns 80% (subject to dilution) of Callidus Capital Management, LLC, an asset management company that structures and manages collateralized debt obligations (CDOs), collateralized loan obligations (CLOs), and other related investments. Our commitment to Callidus consisted of the following at March 31, 2006:

(\$ in millions)	Committed Amount	Amount Drawn	Amount Available to be Drawn
Subordinated debt to support warehouse facilities & warehousing activities ⁽¹⁾	\$ 40.0	\$	\$ 40.0
Revolving line of credit for working capital	4.0	3.8	0.2
Revolving line of credit facility to support warehousing activities ⁽²⁾	50.0	3.7	46.3
Total	\$ 94.0	\$ 7.5	\$ 86.5

(1) Callidus has a secured warehouse credit facility with a third party for up to \$400 million. The facility is used primarily to finance the acquisition of loans pending securitization through a CDO or CLO. In conjunction with this warehouse credit facility, we have agreed to designate our \$40 million subordinated debt commitment for Callidus to draw upon to provide first loss capital as needed to support the warehouse facility.

(2) This facility supports Callidus purchase of middle market senior loans pending the sale of such loans to its warehouse credit facilities.

In addition, at March 31, 2006, we had a commitment to Callidus to purchase preferred equity in future CLO transactions of \$32.4 million.

In addition to these outstanding investment commitments at March 31, 2006, we may be required to fund additional amounts under earn-out arrangements primarily related to buyout transactions in the future if those companies meet agreed-upon performance targets. We also had commitments to private finance portfolio companies in the form of standby letters of credit and guarantees totaling \$184.7 million. See Financial Condition, Liquidity and Capital Resources.

Our largest investment at value at March 31, 2006, was in Business Loan Express, LLC and our largest investments at value at December 31, 2005, were in Advantage Sales & Marketing, Inc. (Advantage) and Business Loan Express, LLC (BLX).

S-12

Business Loan Express, LLC. At March 31, 2006, our investment in BLX totaled \$291.3 million at cost and \$326.2 million at value, or 7.9% of our total assets, which includes unrealized appreciation of \$35.0 million. We acquired BLX in 2000.

Total interest and related portfolio income earned from the Company's investment in BLX for the three months ended March 31, 2006 and 2005, was as follows:

	2006	2005
(\$ in millions)		
Interest income	\$ 3.9	\$ 3.4
Dividend income		2.0
Fees and other income	2.2	2.4
 Total interest and related portfolio income	 \$ 6.1	 \$ 7.8

Interest and dividend income from BLX for the three months ended March 31, 2006 and 2005, included interest and dividend income of \$1.8 million and \$1.6 million, respectively, which was paid in kind. The interest and dividends paid in kind were paid to us through the issuance of additional debt or equity interests. Accrued interest and dividends receivable and other assets at March 31, 2006, included accrued interest and fees due from BLX totaling \$3.4 million, of which \$2.2 million was paid in cash in the second quarter of 2006.

Net change in unrealized appreciation or depreciation included a net decrease in unrealized appreciation on our investment in BLX of \$22.7 million and \$6.3 million for the three months ended March 31, 2006 and 2005, respectively. See Results of Operations for a discussion of the net change in unrealized appreciation or depreciation related to this investment.

BLX is a national, non-bank lender that participates in the SBA's 7(a) Guaranteed Loan Program and is licensed by the SBA as a Small Business Lending Company (SBLC). BLX is a nationwide preferred lender, as designated by the SBA, and originates, sells, and services small business loans. In addition, BLX originates conventional small business loans and small investment real estate loans. BLX has offices across the United States and is headquartered in New York, New York. Changes in the laws or regulations that govern SBLCs or the SBA 7(a) Guaranteed Loan Program or changes in government funding for this program could have a material adverse impact on BLX and, as a result, could negatively affect our financial results.

As a limited liability company, BLX's taxable income flows through directly to its members. BLX's annual taxable income generally differs from its book income for the fiscal year due to temporary and permanent differences in the recognition of income and expenses. We hold all of BLX's Class A and Class B interests, and 94.9% of the Class C interests. BLX's taxable income is first allocated to the Class A interests to the extent that dividends are paid in cash or in kind on such interests, with the remainder being allocated to the Class B and C interests. BLX declares dividends on its Class B interests based on an estimate of its annual taxable income allocable to such interests.

We had a commitment to BLX of \$30.0 million in the form of a subordinated revolving credit facility to provide working capital to the company that expired on April 30, 2006. There were no amounts outstanding under this facility at March 31, 2006.

At December 31, 2005, BLX had a three-year \$275.0 million revolving credit facility provided by third party lenders that was scheduled to mature in January 2007. As the controlling equity owner in BLX, we had provided an unconditional guaranty to the revolving credit facility lenders in an amount equal to 50% of the total obligations (consisting of principal, letters of credit issued under the facility, accrued interest, and other fees) of BLX under the revolving credit facility. At December 31, 2005, the principal amount of loans outstanding on the revolving credit facility was \$228.2 million and

letters of credit issued under the facility were \$41.7 million. The total obligation guaranteed by us at December 31, 2005, was \$135.4 million.

On March 17, 2006, BLX closed on a new three-year \$500.0 million revolving credit facility that matures in March 2009, which replaced the existing facility. The revolving credit facility may be expanded through new or additional commitments up to \$600.0 million at BLX's option. This new facility provides for a sub-facility for the issuance of letters of credit for up to an amount equal to 25% of the committed facility. We have provided an unconditional guaranty to these revolving credit facility lenders in an amount equal to 50% of the total obligations (consisting of principal, letters of credit issued under the facility, accrued interest, and other fees) of BLX under this facility. At March 31, 2006, the principal amount outstanding on the revolving credit facility was \$240.2 million and letters of credit issued under the facility were \$41.7 million. The total obligation guaranteed by us at March 31, 2006, was \$141.1 million. This guaranty can be called by the lenders only in the event of a default under the BLX credit facility, which includes certain defaults under our revolving credit facility. BLX was in compliance with the terms of this facility at March 31, 2006. At March 31, 2006, we had also provided four standby letters of credit totaling \$34.1 million in connection with four term securitization transactions completed by BLX.

Advantage Sales & Marketing, Inc. At December 31, 2005, our investment in Advantage totaled \$257.7 million at cost and \$660.4 million at value, or 16.4% of our total assets, which included unrealized appreciation of \$402.7 million. We completed the purchase of a majority ownership in Advantage in June 2004.

On March 29, 2006, we sold our majority equity interest in Advantage. We were repaid our \$184 million in subordinated debt outstanding and realized a gain on our equity investment sold of \$433.1 million, subject to post-closing adjustments. As consideration for the common stock sold in the transaction, we received a \$150 million subordinated note, with the balance of the consideration paid in cash. Approximately \$34 million of our cash proceeds from the sale of the common stock have been held in escrow, subject to certain holdback provisions. In addition, there is potential for us to receive additional consideration through an earn-out payment that would be based on Advantage's 2006 audited results. Our realized gain of \$433.1 million excludes any earn-out amounts. For tax purposes, the receipt of the \$150 million subordinated note as part of our consideration for the common stock sold will allow us, through installment treatment, to defer the recognition of taxable income for a portion of our realized gain until the note is collected. In connection with the transaction, we retained an equity investment in the business valued at \$15 million as a minority shareholder.

Total interest and related portfolio income earned from our investment in Advantage while we held a majority equity interest for the three months ended March 31, 2006 and 2005, was as follows:

	2006	2005
(\$ in millions)		
Interest income	\$ 7.3	\$ 7.7
Loan prepayment premiums	5.0	
Fees and other income	1.8	1.5
 Total interest and related portfolio income	 \$ 14.1	 \$ 9.2

In addition, we earned structuring fees of \$2.3 million on our new \$150 million subordinated debt investment in Advantage upon the closing of the sale transaction.

After the completion of the sale transaction, our investment in Advantage at March 31, 2006, which was composed of subordinated debt and a minority equity interest, totaled \$151.3 million at cost and \$164.3 million at value, which included unrealized appreciation of \$13.0 million. Subsequent

to the completion of the sale transaction, we estimate that our interest income from our subordinated debt investment in Advantage will be approximately \$4.5 million per quarter.

Advantage is a sales and marketing agency providing outsourced sales, merchandising, and marketing services to the consumer packaged goods industry. Advantage has offices across the United States and is headquartered in Irvine, CA.

STS Operating, Inc. On May 1, 2006, we announced the completion of the sale of STS Operating, Inc. (STS). We were repaid our \$6.8 million in subordinated debt outstanding and we realized a gain on the sale of our common stock in STS of approximately \$94 million, subject to post-closing adjustments. The cost basis of our equity was \$3.5 million. As part of the consideration for the sale of our equity, we received a \$30 million subordinated note. Approximately \$10.7 million of our proceeds are subject to certain holdback provisions and post-closing adjustments. For tax purposes, the receipt of the \$30 million subordinated note as part of our consideration for the common stock sold will allow us, through installment treatment, to defer the recognition of taxable income for a portion of our realized gain until the note is collected.

Commercial Real Estate Finance

The commercial real estate finance portfolio at value, investment activity, and the yield on interest-bearing investments at and for the three months ended March 31, 2006 and 2005, and at and for the year ended December 31, 2005, were as follows:

	At and for the Three Months Ended March 31,				At and for the Year Ended December 31,	
	2006		2005		2005	
	Value	Yield ⁽¹⁾	Value	Yield ⁽¹⁾	Value	Yield ⁽¹⁾
(\$ in millions)						
Portfolio at value:						
CMBS bonds	\$		\$ 466.1	13.0%	\$	
CDO bonds and preferred shares			227.1	15.8%		
Commercial mortgage loans	102.7	7.6%	89.7	6.4%	102.6	7.6%
Real estate owned	15.0		18.4		13.9	
Equity interests	11.7		15.2		10.6	
Total portfolio	\$ 129.4		\$ 816.5		\$ 127.1	
Investments funded	\$ 2.0		\$ 97.4		\$ 213.5	
Change in accrued or reinvested interest	\$ 1.0		\$ 2.6		\$ (18.0)	
Principal collections related to investment repayments or sales ⁽²⁾	\$ 3.8		\$ 7.1		\$ 799.5	

⁽¹⁾ The weighted average yield on the interest-bearing investments is computed as the (a) annual stated interest plus the annual amortization of loan origination fees, original issue discount, and market discount on accruing interest-bearing investments less the annual amortization of origination costs, divided by (b) total interest-bearing investments at value. The weighted average yield is computed as of the balance sheet date. Interest-bearing investments for the commercial real estate finance portfolio include all investments except for real estate owned and equity interests.

(2) Principal collections related to investment repayments or sales for the year ended December 31, 2005, included \$718.1 million related to the sale of our CMBS and CDO portfolio in May 2005.

S-15

Our commercial real estate investments funded for the three months ended March 31, 2006 and 2005, and for the year ended December 31, 2005, was as follows:

(\$ in millions)	Face Amount	Discount	Amount Funded
<i>For the Three Months Ended March 31, 2006</i>			
Commercial mortgage loans	\$ 0.6	\$	\$ 0.6
Equity interests	1.4		1.4
Total	\$ 2.0	\$	\$ 2.0
<i>For the Three Months Ended March 31, 2005</i>			
CMBS bonds (3 new issuances) ⁽¹⁾	\$ 160.6	\$ (67.4)	\$ 93.2
Commercial mortgage loans	4.1	(0.7)	3.4
Equity interests	0.8		0.8
Total	\$ 165.5	\$ (68.1)	\$ 97.4
<i>For the Year Ended December 31, 2005</i>			
CMBS bonds (4 new issuances) ⁽¹⁾	\$ 211.5	\$ (90.5)	\$ 121.0
Commercial mortgage loans	88.5	(0.8)	87.7
Equity interests	4.8		4.8
Total	\$ 304.8	\$ (91.3)	\$ 213.5

⁽¹⁾ The CMBS bonds invested in during 2005 were sold on May 3, 2005.

At March 31, 2006, we had outstanding funding commitments related to commercial mortgage loans and equity interests of \$13.6 million and commitments in the form of standby letters of credit and guarantees related to equity interests of \$7.0 million.

Sale of CMBS Bonds and Collateralized Debt Obligation Bonds and Preferred Shares. On May 3, 2005, we completed the sale of our portfolio of commercial mortgage-backed securities (CMBS) and real estate related collateralized debt obligation (CDO) bonds and preferred shares to affiliates of Caisse de dépôt et placement du Québec (the Caisse) for cash proceeds of \$976.0 million and a net realized gain of \$227.7 million, after transaction and other costs of \$7.8 million, in the second quarter of 2005. Transaction costs included investment banking fees, legal and other professional fees, and other transaction costs. The CMBS and CDO assets sold had a cost basis at closing of \$739.8 million, including accrued interest of \$21.7 million. Upon the closing of the sale, we settled all the hedge positions relating to these assets, which resulted in a net realized loss of \$0.7 million, which was included in the net realized gain on the sale.

Simultaneous with the sale of our CMBS and CDO portfolio, we entered into a platform assets purchase agreement with CWC Capital Investments LLC, an affiliate of the Caisse (CWC Capital), pursuant to which we agreed to sell certain commercial real estate related assets, including servicer advances, intellectual property, software and other platform assets, subject to certain adjustments. Under this agreement, we have agreed not to invest in CMBS and real estate-related CDOs and refrain from certain other real estate-related investing or servicing activities for a period of three years, or through May 2008, subject to certain limitations and excluding our existing portfolio and related activities.

The real estate securities purchase agreement, under which we sold the CMBS and CDO portfolio, and the platform asset purchase agreement contain customary representations and warranties, and require us to indemnify the affiliates of the Caisse that are parties to the agreements for certain liabilities arising under the agreements, subject to certain limitations and conditions.

S-16

Hedging Activities

We have invested in commercial mortgage loans, which were purchased at prices that were based in part on comparable Treasury rates. We have entered into transactions with one or more financial institutions to hedge against movement in Treasury rates on certain of these commercial mortgage loans. These transactions, referred to as short sales, involve receiving the proceeds from the short sales of borrowed Treasury securities, with the obligation to replenish the borrowed Treasury securities at a later date based on the then current market price, whatever that price may be. Risks in these contracts arise from movements in the value of the borrowed Treasury securities due to changes in interest rates and from the possible inability of counterparties to meet the terms of their contracts. If the value of the borrowed Treasury securities increases, we will incur losses on these transactions. These losses are limited to the increase in value of the borrowed Treasury securities; conversely, the value of the hedged commercial mortgage loans would likely increase. If the value of the borrowed Treasury securities decreases, we will incur gains on these transactions which are limited to the decline in value of the borrowed Treasury securities; conversely, the value of the hedged commercial mortgage loans would likely decrease. We do not anticipate nonperformance by any counterparty in connection with these transactions.

The total obligations to replenish borrowed Treasury securities, including accrued interest payable on the obligations, were \$17.5 million and \$17.7 million at March 31, 2006, and December 31, 2005, respectively. The net proceeds related to the sales of the borrowed Treasury securities plus or minus the additional cash collateral provided or received under the terms of the transactions were \$17.5 million and \$17.7 million at March 31, 2006, and December 31, 2005, respectively. The amount of the hedge will vary from period to period depending upon the amount of commercial mortgage loans that we own and have hedged as of the balance sheet date.

Portfolio Asset Quality

Portfolio by Grade. We employ a grading system for our entire portfolio. Grade 1 is used for those investments from which a capital gain is expected. Grade 2 is used for investments performing in accordance with plan. Grade 3 is used for investments that require closer monitoring; however, no loss of investment return or principal is expected. Grade 4 is used for investments that are in workout and for which some loss of current investment return is expected, but no loss of principal is expected. Grade 5 is used for investments that are in workout and for which some loss of principal is expected.

At March 31, 2006, and December 31, 2005, our portfolio was graded as follows:

Grade	2006		2005	
	Portfolio at Value	Percentage of Total Portfolio	Portfolio at Value	Percentage of Total Portfolio
(\$ in millions)				
1	\$ 1,287.9	34.9%	\$ 1,643.0	45.6%
2	2,183.2	59.2	1,730.8	48.0
3	89.1	2.4	149.1	4.1
4	64.5	1.7	26.5	0.7
5	66.3	1.8	57.0	1.6
	\$ 3,691.0	100.0%	\$ 3,606.4	100.0%

Grade 1 portfolio assets decreased from \$1.6 billion at December 31, 2005, to \$1.3 billion at March 31, 2006, primarily as a result of the sale of Advantage Sales & Marketing, Inc. (Advantage) on March 29, 2006. Advantage had a value of \$660.4 million, including \$402.7 million of unrealized appreciation, at December 31, 2005. Our investment in Advantage after the sale transaction was

\$164.3 million at value, including \$13.0 million of unrealized appreciation, at March 31, 2006, and was included in Grade 1 assets. See Portfolio and Investment Activity above for further discussion. Grade 2 portfolio assets increased from \$1.7 billion at December 31, 2005, to \$2.2 billion at March 31, 2006, primarily as a result of the level of new investments made during the first quarter of 2006, as new investments generally enter the portfolio as Grade 2 assets.

Total Grade 3, 4 and 5 portfolio assets were \$219.9 million and \$232.6 million, respectively, or were 5.9% and 6.4%, respectively, of the total portfolio at value at March 31, 2006, and December 31, 2005.

Grade 4 and 5 assets include loans, debt securities, and equity securities. We expect that a number of portfolio companies will be in the Grades 4 or 5 categories from time to time. Part of the private equity business is working with troubled portfolio companies to improve their businesses and protect our investment. The number of portfolio companies and related investment amount included in Grade 4 and 5 may fluctuate from period to period. We continue to follow our historical practice of working with such companies in order to recover the maximum amount of our investment.

Loans and Debt Securities on Non-Accrual Status. At March 31, 2006, and December 31, 2005, loans and debt securities at value not accruing interest for the total investment portfolio were as follows:

	2006	2005
(\$ in millions)		
Loans and debt securities in workout status (classified as Grade 4 or 5) ⁽¹⁾		
Private finance		
Companies more than 25% owned	\$ 29.0	\$ 15.6
Companies 5% to 25% owned	5.6	
Companies less than 5% owned	51.8	11.4
Commercial real estate finance	12.6	12.9
Loans and debt securities not in workout status		
Private finance		
Companies more than 25% owned	40.6	58.0
Companies 5% to 25% owned	5.1	0.5
Companies less than 5% owned	4.4	49.5
Commercial real estate finance	8.6	7.9
Total	\$ 157.7	\$ 155.8
Percentage of total portfolio	4.3%	4.3%

⁽¹⁾ Workout loans and debt securities exclude equity securities that are included in the total Grade 4 and 5 assets above.

Loans and Debt Securities Over 90 Days Delinquent. Loans and debt securities greater than 90 days delinquent at value at March 31, 2006, and December 31, 2005, were as follows:

	2006	2005
(\$ in millions)		
Private finance	\$ 82.6	\$ 74.6
Commercial mortgage loans	6.0	6.1
Total	\$ 88.6	\$ 80.7

Percentage of total portfolio

2.4%

2.2%

S-18

In general, interest is not accrued on loans and debt securities if we have doubt about interest collection or where the enterprise value of the portfolio company may not support further accrual. In addition, interest may not accrue on loans to portfolio companies that are more than 50% owned by us depending on such company's capital requirements. To the extent interest payments are received on a loan that is not accruing interest, we may use such payments to reduce our cost basis in the investment in lieu of recognizing interest income.

As a result of these and other factors, the amount of the portfolio that is greater than 90 days delinquent or on non-accrual status may vary from period to period. Loans and debt securities on non-accrual status and over 90 days delinquent should not be added together as they are two separate measures of portfolio asset quality. Loans and debt securities that are in both categories (i.e., on non-accrual status and over 90 days delinquent) totaled \$88.6 million and \$60.7 million at March 31, 2006, and December 31, 2005, respectively.

S-19

RESULTS OF OPERATIONS**Comparison of Three Months Ended March 31, 2006 and 2005**

The following table summarizes the Company's operating results for the three months ended March 31, 2006 and 2005.

(\$ in thousands, except per share amounts)	For the Three Months Ended March 31,		Change	Percentage Change
	2006	2005		
	(unaudited)			
Interest and Related Portfolio Income				
Interest and dividends	\$ 88,881	\$ 84,945	3,936	5%
Loan prepayment premiums	5,286	1,677	3,609	215%
Fees and other income	16,844	8,297	8,547	103%
Total interest and related portfolio income	111,011	94,919	16,092	17%
Expenses				
Interest	24,300	20,225	4,075	20%
Employee	21,428	15,456	5,972	39%
Stock options	3,606		3,606	100%
Administrative	11,519	20,754	(9,235)	(44)%
Total operating expenses	60,853	56,435	4,418	8%
Net investment income before income taxes	50,158	38,484	11,674	30%
Income tax expense (benefit), including excise tax	8,858	(268)	9,126	**
Net investment income	41,300	38,752	2,548	7%
Net Realized and Unrealized Gains (Losses)				
Net realized gains	432,835	10,285	422,550	*
Net change in unrealized appreciation or depreciation	(374,548)	70,584	(445,132)	*
Total net gains	58,287	80,869	(22,582)	*
Net income	\$ 99,587	\$ 119,621	(20,034)	(17)%
Diluted earnings per common share	\$ 0.70	\$ 0.88	(0.18)	(20)%
Weighted average common shares outstanding diluted	141,738	135,579	6,159	5%

* Net realized gains (losses) and net change in unrealized appreciation or depreciation can fluctuate significantly from period to period. As a result, quarterly comparisons may not be meaningful.

** Percentage change is not meaningful.

Total Interest and Related Portfolio Income. Total interest and related portfolio income includes interest and dividend income, loan prepayment premiums, and fees and other income.

Interest and Dividends. Interest and dividend income for the three months ended March 31, 2006 and 2005, was composed of the following:

	2006	2005
(\$ in millions)		
Interest		
Private finance loans and debt securities	\$ 82.6	\$ 56.8
CMBS and CDO portfolio		22.1
Commercial mortgage loans	2.8	1.5
Cash and cash equivalents and other	2.9	0.4
Total interest	88.3	80.8
Dividends		
	0.6	4.1
Total interest and dividends	\$ 88.9	\$ 84.9

Our interest income from our private finance loans and debt securities has increased period over period as a result of the growth in this portfolio since March 31, 2005, as shown below. In addition, during the first quarter of 2006, we resumed accruing interest for certain private finance portfolio companies. Such additional interest income totaled \$3.8 million for the three months ended March 31, 2006.

There was no interest income from the CMBS and CDO portfolio in the first quarter of 2006 as we sold this portfolio on May 3, 2005. The CMBS and CDO portfolio sold had a cost basis of \$718.1 million and a weighted average yield on the cost basis of the portfolio of approximately 13.8%. We generally reinvested the principal proceeds from the CMBS and CDO portfolio into our private finance portfolio.

The level of interest income, which includes interest paid in cash and in kind, is directly related to the balance of the interest-bearing investment portfolio outstanding during the period multiplied by the weighted average yield. The interest-bearing investments in the portfolio at value and the weighted average yield on the interest-bearing investments in the portfolio at March 31, 2006 and 2005, were as follows:

	2006		2005	
	Value	Weighted Average Yield ⁽¹⁾	Value	Weighted Average Yield ⁽¹⁾
(\$ in millions)				
Private finance loans and debt securities	\$ 2,530.0	12.5%	\$ 1,556.4	13.8%
CMBS and CDO portfolio			693.2	13.9%
Commercial mortgage loans	102.7	7.6%	89.7	6.4%
Total	\$ 2,632.7	12.3%	\$ 2,339.3	13.6%

⁽¹⁾ The weighted average yield on loans and debt securities is computed as the (a) annual stated interest plus the annual amortization of loan origination fees, original issue discount, and market discount on accruing loans and

debt securities less the annual amortization of loan origination costs, divided by (b) total loans and debt securities at value. The weighted average yield is computed as of the balance sheet date.

The private finance portfolio yield at March 31, 2006, of 12.5% as compared to the private finance portfolio yield of 13.8% at March 31, 2005, reflects the mix of debt investments in the private finance portfolio. The weighted average yield varies from period to period based on the current stated

S-21

interest on interest-bearing investments and the amount of loans and debt securities for which interest is not accruing. See the discussion of the private finance portfolio yield above under the caption Private Finance.

Dividend income results from the dividend yield on preferred equity interests, if any, or the declaration of dividends by a portfolio company on preferred or common equity interests. Dividend income will vary from period to period depending upon the timing and amount of dividends that are declared or paid by a portfolio company on preferred or common equity interests. Dividend income for the three months ended March 31, 2006 and 2005, included \$0 and \$2.0 million, respectively, of dividends from BLX on the Class B equity interests held by us, which were paid in cash.

Loan Prepayment Premiums. Loan prepayment premiums were \$5.3 million and \$1.7 million for the three months ended March 31, 2006 and 2005, respectively. Loan prepayment premiums for the three months ended March 31, 2006, included \$5.0 million related to the repayment of our subordinated debt in connection with the sale of our majority equity interest in Advantage. See Portfolio and Investment Activity above for further discussion. While the scheduled maturities of private finance and commercial real estate loans generally range from five to ten years, it is not unusual for our borrowers to refinance or pay off their debts to us ahead of schedule. Therefore, we generally structure our loans to require a prepayment premium for the first three to five years of the loan. Accordingly, the amount of prepayment premiums will vary depending on the level of repayments and the age of the loans at the time of repayment.

Fees and Other Income. Fees and other income primarily include fees related to financial structuring, diligence, transaction services, management and consulting services to portfolio companies, guarantees, and other services. As a business development company, we are required to make significant managerial assistance available to the companies in our investment portfolio. Managerial assistance includes, but is not limited to, management and consulting services related to corporate finance, marketing, human resources, personnel and board member recruiting, business operations, corporate governance, risk management and other general business matters.

Fees and other income for the three months ended March 31, 2006 and 2005, included fees relating to the following:

	2006	2005
(\$ in millions)		
Structuring and diligence	\$ 11.0	\$ 1.3
Transaction and other services provided to portfolio companies	0.1	1.2
Management, consulting and other services provided to portfolio companies and guaranty fees	5.7	4.8
Other income		1.0
Total fees and other income	\$ 16.8	\$ 8.3

Fees and other income are generally related to specific transactions or services and therefore may vary substantially from period to period depending on the level of investment activity and types of services provided. Loan origination fees that represent yield enhancement on a loan are capitalized and amortized into interest income over the life of the loan.

Structuring and diligence fees for the three months ended March 31, 2006, included structuring fees from Advantage Sales and Marketing, CR Brands, Hot Stuff Foods, and 3SI Security Systems totaling \$8.1 million. Structuring and diligence fees may vary substantially from period to period based on the level of new investment originations and the market rates for these types of fees. Private finance investments funded were \$795.9 million for the three months ended March 31, 2006, as compared to \$168.2 million for the three months ended March 31, 2005.

Management fees for the three months ended March 31, 2006, included \$1.8 million in management fees from Advantage prior to its sale on March 29, 2006. See Portfolio and Investment Activity above for further discussion.

Fees and other income related to the CMBS and CDO portfolio for the three months ended March 31, 2005, were \$1.7 million. As noted above, we sold our CMBS and CDO portfolio on May 3, 2005.

BLX and Advantage. BLX was our largest investment at value at March 31, 2006, and represented 7.9% of our total assets. Advantage and BLX were our largest investments at March 31, 2005, and together represented 19.5% of our total assets.

Total interest and related portfolio income from these investments for the three months ended March 31, 2005 and 2006, was as follows:

	2006	2005
(\$ in millions)		
Advantage ⁽¹⁾	\$ 14.1	\$ 9.2
BLX	\$ 6.1	\$ 7.8

⁽¹⁾ Includes income from the period we held a majority equity interest only. See Portfolio and Investment Activity above for further discussion.

Operating Expenses. Operating expenses include interest, employee, and administrative expenses.

Interest Expense. The fluctuations in interest expense during the three months ended March 31, 2006 and 2005, were primarily attributable to changes in the level of our borrowings under various notes payable and debentures and our revolving line of credit. Our borrowing activity and weighted average cost of debt, including fees and closing costs, at and for the three months ended March 31, 2006 and 2005, were as follows:

	At and for the Three Months Ended March 31,	
	2006	2005
(\$ in millions)		
Total outstanding debt	\$ 1,274.2	\$ 1,296.4
Average outstanding debt	\$ 1,491.5	\$ 1,125.0
Weighted average cost ⁽¹⁾	6.5%	6.4%

⁽¹⁾ The weighted average annual interest cost is computed as the (a) annual stated interest rate on the debt plus the annual amortization of commitment fees and other facility fees that are recognized into interest expense over the contractual life of the respective borrowings, divided by (b) debt outstanding on the balance sheet date.

In addition, interest expense includes interest on our obligations to replenish borrowed Treasury securities related to our hedging activities of \$0.2 million and \$0.5 million for the three months ended March 31, 2006 and 2005, respectively.

Employee Expense. Employee expenses for the three months ended March 31, 2006 and 2005, were as follows:

	2006	2005
(\$ in millions)		
Salaries and employee benefits ⁽¹⁾	\$ 17.3	\$ 12.0
Individual performance award (IPA)	1.7	1.9
IPA mark to market expense (benefit)	1.0	0.1
Individual performance bonus (IPB)	1.4	1.5
Total employee expense	\$ 21.4	\$ 15.5
Number of employees at end of period	155	158

⁽¹⁾ Salaries and employee benefits included accrued bonuses of \$7.9 million and \$3.7 million for the three months ended March 31, 2006 and 2005, respectively.

The change in salaries and employee benefits reflects the effect of wage increases and the change in mix of employees given their area of responsibility and relevant experience level. Salaries and employee benefits expense has generally increased due to changes in the composition of our employee resources and compensation increases.

The Individual Performance Award (IPA) is a long-term incentive compensation program for certain officers. The IPA, which is generally determined annually at the beginning of each year, is deposited into a deferred compensation trust generally in four equal installments, on a quarterly basis, in the form of cash. The accounts of the trust are consolidated with our accounts. We are required to mark to market the liability of the trust and this adjustment is recorded to the IPA compensation expense. Because the IPA is deferred compensation, the cost of this award is not a current expense for purposes of computing our taxable income. The expense is deferred for tax purposes until distributions are made from the trust.

As a result of changes in regulation by the Jobs Creation Act of 2004 associated with deferred compensation arrangements, as well as an increase in the competitive market for recruiting talent in the private equity industry, the Compensation Committee and the Board of Directors determined that for 2005 and 2006 a portion of the IPA should be replaced with an individual performance bonus (IPB). The IPB is distributed in cash to award recipients in equal bi-weekly installments (beginning in February of each respective year) as long as the recipient remains employed by us.

The Compensation Committee and the Board of Directors have determined the IPA and the IPB for 2006. We currently estimate the IPA and IPB to be approximately \$8.1 million each; however, the Compensation Committee may adjust the IPA or IPB as needed, or make new awards as new officers are hired. If a recipient terminates employment during the year, any further cash contribution for the IPA or remaining cash payments under the IPB would be forfeited.

In connection with our 2006 Annual Meeting of Stockholders, the stockholders are being requested to vote to approve the issuance of up to 2,500,000 shares of our common stock in exchange for the cancellation of vested in-the-money stock options granted to certain officers and directors under the Amended Stock Option Plan. Under the initiative, which has been reviewed and approved by our Board of Directors, all optionees who hold vested stock options with exercise prices below the market value of the stock (or in-the-money options), would be offered the opportunity to receive cash and common stock in exchange for their voluntary cancellation of their vested stock options. The sum of the cash and common stock to be received by each optionee would equal the in-the-money value of the stock option cancelled. As part of this initiative, the Board of Directors is also considering the adoption of a target ownership structure that would establish minimum ownership levels for our senior officers and continue to further align the interests of our officers with those of our stockholders. Unlike the accounting treatment typically associated with a stock option exercise, the

option cancellation payment (OCP) would be recorded as an expense for financial reporting purposes, and the expense may be significant. Based on the 13 million vested options outstanding and the market price of \$30.50 of our stock on March 10, 2006, the expense related to the OCP would be approximately \$106 million if all option holders choose to cancel all vested in-the-money options in exchange for the OCP. For income tax purposes, our tax expense resulting from the OCP would be similar to the tax expense that would result from an exercise of stock options in the market. Any tax deduction for us resulting from the OCP or an exercise of stock options in the market would be limited by Section 162(m) of the Code for persons subject to Section 162(m).

Employee Stock Options Expense. In December 2004, the FASB issued Statement No. 123 (Revised 2004), *Share-Based Payment* (the Statement), which requires companies to recognize the grant-date fair value of stock options and other equity-based compensation issued to employees in the income statement. The Statement was effective January 1, 2006, and it applies to our stock option plan. Our stock options are typically granted with ratable vesting provisions, and we amortize the compensation cost over the service period. With respect to options granted prior to January 1, 2006, we have used the modified prospective method for adoption of the Statement. Under this method, the unamortized cost of previously awarded options that were unvested as of January 1, 2006, is recognized over the service period in the statement of operations beginning in 2006. With respect to options granted on or after January 1, 2006, compensation cost is recognized in the statement of operations over the service period. The effect of this adoption for the three months ended March 31, 2006, was employee-related stock option expense of \$3.6 million, which included \$3.4 million related to previously awarded options that were unvested as of January 1, 2006, and \$0.2 million related to options granted during the three months ended March 31, 2006.

We estimate that the stock option expense that will be recorded in our statement of operations under the Statement, will be approximately \$14.3 million, \$9.3 million, and \$2.8 million for the years ended December 31, 2006, 2007, and 2008, respectively, which includes stock option expense related to options granted in the first quarter of 2006 of approximately \$0.8 million, \$0.5 million, and \$0.2 million, respectively. This estimate may change if the Company's assumptions related to future option forfeitures change. This estimate does not include any expense related to future stock option grants as the fair value of those stock options will be determined at the time of grant.

Administrative Expense. Administrative expenses include legal and accounting fees, valuation assistance fees, insurance premiums, the cost of leases for our headquarters in Washington, DC, and our regional offices, portfolio origination and development expenses, stock record expenses, directors' fees, and various other expenses. Administrative expenses for the three months ended March 31, 2006 and 2005, were as follows:

	2006	2005
(\$ in millions)		
Administrative expenses, excluding investigation related costs	\$ 8.6	\$ 8.5
Investigation related costs	2.9	12.3
Total administrative expenses	\$ 11.5	\$ 20.8

Investigation related costs include costs associated with requests for information in connection with two government investigations. These expenses remain difficult to predict. See Note 14 to the Consolidated Financial Statements.

Income Tax Expense (Benefit), Including Excise Tax. Income tax expense (benefit) for the three months ended March 31, 2006 and 2005, were as follows:

	2006	2005
(\$ in millions)		
Income tax expense (benefit)	\$ 0.5	\$ (0.3)
Excise tax expense	8.4	
Income tax expense (benefit), including excise tax	\$ 8.9	\$ (0.3)

Our wholly owned subsidiary, A.C. Corporation, is a corporation subject to federal and state income taxes and records a benefit or expense for income taxes as appropriate based on its operating results in a given period. In addition, our estimated annual taxable income for 2006 currently exceeds our estimated dividend distributions to shareholders from such taxable income in 2006, and such estimated excess taxable income will be distributed in 2007. Therefore, we will be required to pay a 4% excise tax on the excess of 98% of our taxable income over the amount of actual distributions from such taxable income. Accordingly, we have accrued an estimated excise tax of \$8.4 million for the three months ended March 31, 2006, based upon our estimated excess taxable income earned for that period. See Financial Condition, Liquidity and Capital Resources.

Realized Gains and Losses. Net realized gains primarily result from the sale of equity securities associated with certain private finance investments, the sale of CMBS bonds and CDO bonds and preferred shares, and the realization of unamortized discount resulting from the sale and early repayment of private finance loans and commercial mortgage loans, offset by losses on investments. Net realized gains for the three months ended March 31, 2006 and 2005, were as follows:

	For the Three Months Ended March 31,	
	2006	2005
(\$ in millions)		
Realized gains	\$ 436.5	\$ 14.7
Realized losses	(3.7)	(4.4)
Net realized gains	\$ 432.8	\$ 10.3

When we exit an investment and realize a gain or loss, we make an accounting entry to reverse any unrealized appreciation or depreciation, respectively, we had previously recorded to reflect the appreciated or depreciated value of the investment. For the three months ended March 31, 2006 and 2005, we reversed previously recorded unrealized appreciation or depreciation when gains or losses were realized as follows:

	For the Three Months Ended March 31,	
	2006	2005
(\$ in millions)		
Reversal of previously recorded unrealized appreciation associated with realized gains	\$ (393.6)	\$ (9.9)

Reversal of previously recorded unrealized depreciation associated with realized losses	2.7	4.8
Total reversal	\$ (390.9)	\$ (5.1)

S-26

Realized gains for the three months ended March 31, 2006 and 2005, were as follows:

Total gross realized losses	\$ 4.4

Change in Unrealized Appreciation or Depreciation. We determine the value of each investment in our portfolio on a quarterly basis, and changes in value result in unrealized appreciation or depreciation being recognized in our statement of operations. Value, as defined in Section 2(a)(41) of the Investment Company Act of 1940, is (i) the market price for those securities for which a market quotation is readily available and (ii) for all other securities and assets, fair value is as determined in good faith by the Board of Directors. Since there is typically no readily available market value for the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by the Board of Directors pursuant to our valuation policy and a consistently applied valuation process. At March 31, 2006, portfolio investments recorded at fair value were approximately 90% of our total assets. Because of the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments determined in good faith by the Board of Directors may differ significantly from the values that would have been used had a ready market existed for the investments, and the differences could be material.

There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments we make. Unlike banks, we are not permitted to provide a general reserve for anticipated loan losses. Instead, we are required to specifically value each individual investment on a quarterly basis. We will

S-27

record unrealized depreciation on investments when we believe that an investment has become impaired, including where collection of a loan or realization of an equity security is doubtful, or when the enterprise value of the portfolio company does not currently support the cost of our debt or equity investment. Enterprise value means the entire value of the company to a potential buyer, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time. We will record unrealized appreciation if we believe that the underlying portfolio company has appreciated in value and/or our equity security has also appreciated in value. Changes in fair value are recorded in the statement of operations as net change in unrealized appreciation or depreciation.

As a business development company, we have invested in illiquid securities including debt and equity securities of companies. The structure of each debt and equity security is specifically negotiated to enable us to protect our investment and maximize our returns. We include many terms governing interest rate, repayment terms, prepayment penalties, financial covenants, operating covenants, ownership parameters, dilution parameters, liquidation preferences, voting rights, and put or call rights. Our investments may be subject to certain restrictions on resale and generally have no established trading market. Because of the type of investments that we make and the nature of our business, our valuation process requires an analysis of various factors. Our fair value methodology includes the examination of, among other things, the underlying investment performance, financial condition, and market changing events that impact valuation.

Valuation Methodology Private Finance. Our process for determining the fair value of a private finance investment begins with determining the enterprise value of the portfolio company. The fair value of our investment is based on the enterprise value at which the portfolio company could be sold in an orderly disposition over a reasonable period of time between willing parties other than in a forced or liquidation sale. The liquidity event whereby we exit a private finance investment is generally the sale, the recapitalization or, in some cases, the initial public offering of the portfolio company.

There is no one methodology to determine enterprise value and, in fact, for any one portfolio company, enterprise value is best expressed as a range of fair values, from which we derive a single estimate of enterprise value. To determine the enterprise value of a portfolio company, we analyze its historical and projected financial results. We generally require portfolio companies to provide annual audited and quarterly unaudited financial statements, as well as annual projections for the upcoming fiscal year. Typically in the private equity business, companies are bought and sold based on multiples of EBITDA, cash flow, net income, revenues or, in limited instances, book value. The private equity industry uses financial measures such as EBITDA or EBITDAM (Earnings Before Interest, Taxes, Depreciation, Amortization and, in some instances, Management fees) in order to assess a portfolio company's financial performance and to value a portfolio company. EBITDA and EBITDAM are not intended to represent cash flow from operations as defined by U.S. generally accepted accounting principles and such information should not be considered as an alternative to net income, cash flow from operations, or any other measure of performance prescribed by U.S. generally accepted accounting principles. When using EBITDA to determine enterprise value, we may adjust EBITDA for non-recurring items. Such adjustments are intended to normalize EBITDA to reflect the portfolio company's earnings power. Adjustments to EBITDA may include compensation to previous owners, acquisition, recapitalization, or restructuring related items or one-time non-recurring income or expense items.

In determining a multiple to use for valuation purposes, we generally look to private merger and acquisition statistics, discounted public trading multiples or industry practices. In estimating a reasonable multiple, we consider not only the fact that our portfolio company may be a private company relative to a peer group of public comparables, but we also consider the size and scope of our portfolio company and its specific strengths and weaknesses. In some cases, the best valuation

methodology may be a discounted cash flow analysis based on future projections. If a portfolio company is distressed, a liquidation analysis may provide the best indication of enterprise value.

If there is adequate enterprise value to support the repayment of our debt, the fair value of our loan or debt security normally corresponds to cost unless the borrower's condition or other factors lead to a determination of fair value at a different amount. The fair value of equity interests in portfolio companies is determined based on various factors, including the enterprise value remaining for equity holders after the repayment of the portfolio company's debt and other preference capital, and other pertinent factors such as recent offers to purchase a portfolio company, recent transactions involving the purchase or sale of the portfolio company's equity securities, liquidation events or other events. The determined equity values are generally discounted when we have a minority position, restrictions on resale, specific concerns about the receptivity of the capital markets to a specific company at a certain time, or other factors.

As a participant in the private equity business, we invest primarily in private middle market companies for which there is generally no publicly available information. Because of the private nature of these businesses, there is a need to maintain the confidentiality of the financial and other information that we have for the private companies in our portfolio. We believe that maintaining this confidence is important, as disclosure of such information could disadvantage our portfolio companies and could put us at a disadvantage in attracting new investments. Therefore, we do not intend to disclose financial or other information about our portfolio companies, unless required, because we believe doing so may put them at an economic or competitive disadvantage, regardless of our level of ownership or control.

We will continue to work with third-party consultants to obtain assistance in determining fair value for a portion of the private finance portfolio each quarter. We work with these consultants to obtain assistance as additional support in the preparation of our internal valuation analysis for a portion of the portfolio each quarter. In addition, we may receive third-party assessments of a particular private finance portfolio company's value in the ordinary course of business, most often in the context of a prospective sale transaction or in the context of a bankruptcy process. The valuation analysis prepared by management using these third-party valuation resources, when applicable, is submitted to our Board of Directors for its determination of fair value of the portfolio in good faith.

For the three months ended March 31, 2006 and 2005, we received third-party valuation assistance from Duff & Phelps, LLC (Duff & Phelps) and Houlihan Lokey Howard and Zukin (Houlihan Lokey) for our private finance portfolio as follows:

	2006	2005
Number of private finance portfolio companies reviewed:		
Duff & Phelps ⁽¹⁾	76	35
Houlihan Lokey	2	1
Total number of private finance portfolio companies reviewed	78	36
Percentage of private finance portfolio reviewed at value:		
Duff & Phelps ⁽¹⁾	82.2%	59.6%
Houlihan Lokey	4.8%	14.9%
Percentage of private finance portfolio reviewed at value	87.0%	74.5%

⁽¹⁾ During the third quarter of 2005, S&P Corporate Value Consulting merged with Duff & Phelps, LLC, a financial advisory and investment banking firm. The merged company operates under the name of Duff & Phelps, LLC.

Professional fees for third-party valuation assistance were \$1.4 million for the year ended December 31, 2005, and are estimated to be approximately \$1.5 million for 2006.

S-29

Valuation Methodology CDO and CLO Bonds and Preferred Shares/Income Notes (CDO/CLO Assets). CDO/CLO Assets are carried at fair value, which is based on a discounted cash flow model that utilizes prepayment and loss assumptions based on historical experience and projected performance, economic factors, the characteristics of the underlying cash flow and comparable yields for similar bonds and preferred shares/income notes, when available. We recognize unrealized appreciation or depreciation on our CDO/CLO Assets as comparable yields in the market change and/or based on changes in estimated cash flows resulting from changes in prepayment or loss assumptions in the underlying collateral pool. As each bond ages, the expected amount of losses and the expected timing of recognition of such losses in the underlying collateral pool is updated and the revised cash flows are used in determining the fair value of the bonds. We determine the fair value of our CDO/CLO Assets on an individual security-by-security basis. If we were to sell a group of these CDO/CLO Assets in a pool in one or more transactions, the total value received for that pool may be different than the sum of the fair values of the individual bonds or preferred shares/income notes.

Net Change in Unrealized Appreciation or Depreciation. Net change in unrealized appreciation or depreciation for the three months ended March 31, 2006 and 2005, consisted of the following:

(\$ in millions)	2006 ⁽¹⁾	2005 ⁽¹⁾
Net unrealized appreciation or depreciation	\$ 16.4	\$ 75.7
Reversal of previously recorded unrealized appreciation associated with realized gains	(393.6)	(9.9)
Reversal of previously recorded unrealized depreciation associated with realized losses	2.7	4.8
Net change in unrealized appreciation or depreciation	\$ (374.5)	\$ 70.6

⁽¹⁾ The net change in unrealized appreciation or depreciation can fluctuate significantly from period to period. As a result, quarterly comparisons may not be meaningful.

At March 31, 2006, our largest investment was in BLX. The following is a summary of the methodology that we used to determine the fair value of this investment.

Business Loan Express, LLC. To determine the value of our investment in BLX at March 31, 2006, we performed four separate valuation analyses to determine a range of values: (1) analysis of comparable public company trading multiples, (2) analysis of BLX's value assuming an initial public offering, (3) analysis of merger and acquisition transactions for financial services companies, and (4) a discounted dividend analysis. We received valuation assistance from Duff & Phelps for our investment in BLX at March 31, 2006, and December 31, 2005.

With respect to the analysis of comparable public company trading multiples and the analysis of BLX's value assuming an initial public offering, we compute a median trailing and forward price earnings multiple to apply to BLX's pro-forma net income adjusted for certain capital structure changes that we believe would likely occur should the company be sold. Each quarter we evaluate which public commercial finance companies should be included in the comparable group. The comparable group at March 31, 2006, was made up of CIT Group, Inc., Financial Federal Corporation, GATX Corporation, and Marlin Business Services Corporation, which is consistent with the comparable group at December 31, 2005.

Our investment in BLX at March 31, 2006, was valued at \$326.2 million. This fair value was within the range of values determined by the four valuation analyses. Unrealized appreciation on our investment was \$35.0 million at March 31, 2006. We decreased unrealized appreciation in the first quarter of 2006 by \$22.7 million from December 31, 2005. This decrease resulted from a reduction in enterprise value at March 31, 2006, of approximately 4% as compared to the enterprise value at December 31, 2005. BLX has experienced higher loan prepayments in

recent months, which BLX

S-30

management believes is due to a robust economy and increased competition from banks, and as a result, BLX management has scaled back their projected loan originations as a result of this more competitive lending environment.

Per Share Amounts. All per share amounts included in the Management's Discussion and Analysis of Financial Condition and Results of Operations section have been computed using the weighted average common shares used to compute diluted earnings per share, which were 141.7 million and 135.6 million for the three months ended March 31, 2006 and 2005, respectively.

OTHER MATTERS

Regulated Investment Company Status. We have elected to be taxed as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986. As long as we qualify as a regulated investment company, we are not taxed on our investment company taxable income or realized net capital gains, to the extent that such taxable income or gains are distributed, or deemed to be distributed, to shareholders on a timely basis.

Taxable income generally differs from net income for financial reporting purposes due to temporary and permanent differences in the recognition of income and expenses, and generally excludes net unrealized appreciation or depreciation, as gains or losses are not included in taxable income until they are realized. In addition, gains realized for financial reporting purposes may differ from gains included in taxable income as a result of our election to recognize gains using installment sale treatment, which results in the deferment of gains for tax purposes until notes received as consideration from the sale of investments are collected in cash.

Dividends declared and paid by us in a year generally differ from taxable income for that year as such dividends may include the distribution of current year taxable income, the distribution of prior year taxable income carried over into and distributed in the current year, or returns of capital. We are generally required to distribute 98% of our taxable income during the year the income is earned to avoid paying an excise tax. If this requirement is not met, the Internal Revenue Code imposes a nondeductible excise tax equal to 4% of the amount by which 98% of the current year's taxable income exceeds the distribution for the year. The taxable income on which an excise tax is paid is generally carried over and distributed to shareholders in the next tax year. Depending on the level of taxable income earned in a tax year, we may choose to carry over taxable income in excess of current year distributions into the next tax year and pay a 4% excise tax on such income, as required. See Financial Condition, Liquidity and Capital Resources below.

In order to maintain our status as a regulated investment company and obtain regulated investment company tax benefits, we must, in general, (1) continue to qualify as a business development company; (2) derive at least 90% of our gross income from dividends, interest, gains from the sale of securities and other specified types of income; (3) meet asset diversification requirements as defined in the Internal Revenue Code; and (4) timely distribute to shareholders at least 90% of our annual investment company taxable income as defined in the Internal Revenue Code. We intend to take all steps necessary to continue to qualify as a regulated investment company. However, there can be no assurance that we will continue to qualify for such treatment in future years.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Dividends and Distributions

Dividends to common shareholders for the three months ended March 31, 2006 and 2005, were \$82.5 million and \$76.1 million, respectively, or \$0.59 per common share for the first quarter of 2006 and \$0.57 per common share for the first quarter of 2005. An extra cash dividend of \$0.03 per common share was declared during 2005 and was paid to shareholders on January 27, 2006.

The Board of Directors has declared a dividend of \$0.60 per common share for the second quarter of 2006.

Dividends are generally determined based upon an estimate of annual taxable income and the amount of taxable income carried over from the prior year for distribution in the current year. Taxable income includes our taxable interest, dividend and fee income, as well as taxable net capital gains. As discussed above, taxable income generally differs from net income for financial reporting purposes due to temporary and permanent differences in the recognition of income and expenses, and generally excludes net unrealized appreciation or depreciation, as gains or losses are not included in taxable income until they are realized. Taxable income includes non-cash income, such as changes in accrued and reinvested interest and dividends and the amortization of discounts and fees. Cash collections of income resulting from contractual payment-in-kind interest or the amortization of discounts and fees generally occur upon the repayment of the loans or debt securities that include such items. Non-cash taxable income is reduced by non-cash expenses, such as realized losses and depreciation and amortization expense.

Our Board of Directors reviews the dividend rate quarterly, and may adjust the quarterly dividend throughout the year. Dividends are declared based upon our estimate of annual taxable income available for distribution to shareholders and the amount of taxable income carried over from the prior year for distribution in the current year. Our goal is to declare what we believe to be sustainable increases in our regular quarterly dividends. To the extent that we earn annual taxable income in excess of dividends paid for the year, we may carry over the excess taxable income into the next year and such excess income will be available for distribution in the next year as permitted under the Internal Revenue Code of 1986. Excess taxable income carried over and paid out in the next year may be subject to a 4% excise tax. See *Other Matters* *Regulated Investment Company Status* above. We believe that carrying over excess taxable income into future periods may provide increased visibility with respect to taxable earnings available to pay the regular quarterly dividend. We currently estimate that the taxable income carried over from 2005 for distribution to shareholders in 2006 is \$163.8 million. However, our taxable income for 2005 is an estimate and will not be finally determined until we file our 2005 tax return in September 2006, and therefore, the amount of excess taxable income carried over from 2005 into 2006 may be different from this estimate.

We currently expect that our estimated annual taxable income for 2006 will be in excess of our estimated dividend distributions to shareholders in 2006 from such taxable income, and, therefore, we expect to carry over excess taxable income for distribution to shareholders in 2007. We expect that we will generally be required to pay a 4% excise tax on the excess of 98% of our taxable income for 2006 over the amount of actual distributions from such taxable income in 2006. Accordingly, for the three months ended March 31, 2006, we have accrued an excise tax of \$8.4 million. Excise taxes are accrued based upon estimated excess taxable income as estimated taxable income is earned, therefore, the excise tax accrued to date in 2006 may be adjusted as appropriate in the remainder of 2006 to reflect changes in our estimate of the carry over amount and additional excise tax may be accrued during the remainder of 2006 as additional excess taxable income is earned, if any. Our ability to earn the estimated annual taxable income for 2006 depends on many factors, including our ability to make new investments at attractive yields, the level of repayments in the portfolio, the realization of gains or losses from portfolio exits, and the level of operating expenses incurred. See *Management's Discussion and Analysis of Financial Condition and Results of Operations* and *Risk Factors* in the accompanying prospectus.

Because we are a regulated investment company, we distribute our taxable income and, therefore, from time to time we will raise new debt or equity capital in order to fund our investments and operations.

Liquidity and Capital Resources

At March 31, 2006, and December 31, 2005, our liquidity portfolio (see below), cash and investments in money market securities, total assets, total debt outstanding, total shareholders equity, debt to equity ratio and asset coverage for senior indebtedness were as follows:

(\$ in millions)	2006	2005
Liquidity portfolio (including money market securities: 2006-\$101.1; 2005-\$100.0)	\$ 202.4	\$ 200.3
Cash and investments in money market securities (including money market securities: 2006-\$38.7; 2005-\$22.0)	\$ 43.5	\$ 53.3
Total assets	\$ 4,121.2	\$ 4,025.9
Total debt outstanding	\$ 1,274.2	\$ 1,284.8
Total shareholders equity	\$ 2,729.8	\$ 2,620.5
Debt to equity ratio	0.47	0.49
Asset coverage ratio ⁽¹⁾	317%	309%

⁽¹⁾ As a business development company, we are generally required to maintain a minimum ratio of 200% of total assets to total borrowings.

We currently target a debt to equity ratio ranging between 0.50:1.00 to 0.70:1.00 because we believe that it is prudent to operate with a larger equity capital base and less leverage.

During the fourth quarter of 2005, we established a liquidity portfolio that is composed of money market securities and U.S. Treasury bills. At March 31, 2006, the value and yield of the money market securities were \$101.1 million and 4.6%, respectively, and were held in money market funds. The value and yield of the Treasury bills were \$101.3 million and 4.2%, respectively, at March 31, 2006. The Treasury bills are due in June 2006. The liquidity portfolio was established to provide a pool of liquid assets within our balance sheet. Our investment portfolio is primarily composed of private, illiquid assets for which there is no readily available market. Our liquidity was reduced when we sold our portfolio of CMBS assets in May 2005, particularly BB rated bonds, which were generally more liquid than assets in our private finance portfolio. Given the level of taxable income that we estimate has been carried over from 2005 for distribution in 2006, we established the liquidity portfolio to provide a liquid resource from which to distribute this excess taxable income. We will assess the amount held in and the composition of the liquidity portfolio throughout the year.

We invest otherwise uninvested cash in U.S. government- or agency-issued or guaranteed securities that are backed by the full faith and credit of the United States, or in high quality, short-term securities. We place our cash with financial institutions and, at times, cash held in checking accounts in financial institutions may be in excess of the Federal Deposit Insurance Corporation insured limit.

During the three months ended March 31, 2006, we sold equity of \$83.0 million. We did not sell new equity in a public offering during the three months ended March 31, 2005, or for the year ended December 31, 2005. In addition, shareholders equity increased by \$7.7 million, \$4.1 million and \$77.5 million through the exercise of employee options, the collection of notes receivable from the sale of common stock, and the issuance of shares through our dividend reinvestment plan for the three months ended March 31, 2006 and 2005, and the year ended December 31, 2005.

We employ an asset-liability management strategy that focuses on matching the estimated maturities of our loan and investment portfolio to the estimated maturities of our borrowings. We use our revolving line of credit facility as a means to bridge to long-term financing in the form of debt or equity capital, which may or may not result in temporary differences in the matching of estimated maturities. Availability on the revolving line of credit, net of amounts committed for standby letters of credit issued under the line of credit facility, was \$641.8 million on March 31, 2006. We evaluate

our interest rate exposure on an ongoing basis. Generally, we seek to fund our primarily fixed-rate investment portfolio with fixed-rate debt or equity capital. To the extent deemed necessary, we may hedge variable and short-term interest rate exposure through interest rate swaps or other techniques.

At March 31, 2006, we had outstanding debt as follows:

(\$ in millions)	Facility Amount	Amount Outstanding	Annual Interest Cost ⁽¹⁾	Annual Return to Cover Interest Payments ⁽⁴⁾
Notes payable and debentures:				
Unsecured notes payable	\$ 1,164.7	\$ 1,164.7	6.2%	1.8%
SBA debentures	16.5	16.5	7.4%	0.0%
Total notes payable and debentures	1,181.2	1,181.2	6.2%	1.8%
Revolving line of credit	772.5	93.0	6.2% ⁽²⁾	0.2%
Total debt	\$ 1,953.7	\$ 1,274.2	6.5% ⁽³⁾	2.0%

⁽¹⁾ The weighted average annual interest cost is computed as the (a) annual stated interest on the debt plus the annual amortization of commitment fees and other facility fees that are recognized into interest expense over the contractual life of the respective borrowings, divided by (b) debt outstanding on the balance sheet date.

⁽²⁾ The annual interest cost reflects the interest rate payable for borrowings under the revolving line of credit. In addition to the current interest rate payable, there were annual costs of commitment fees and other facility fees of \$3.3 million at March 31, 2006.

⁽³⁾ The annual interest cost for total debt includes the annual cost of commitment fees and other facility fees on the revolving line of credit regardless of the amount outstanding on the facility as of the balance sheet date.

⁽⁴⁾ The annual portfolio return to cover interest payments is calculated as the March 31, 2006, annualized cost of debt per class of financing outstanding divided by total assets at March 31, 2006.

Unsecured Notes Payable. We have issued unsecured long-term notes to institutional investors, primarily insurance companies. The notes have five- or seven-year maturities, with maturity dates beginning in 2006 and generally have fixed rates of interest. The notes generally require payment of interest only semi-annually, and all principal is due upon maturity.

On May 1, 2006, we issued \$50.0 million of long-term debt with a fixed interest rate of 6.75%. This debt matures in May 2013. The proceeds of this issuance were used to repay \$25 million of 7.49% unsecured long-term debt that matured on May 1, 2006, with the remainder being used to fund new portfolio investments and for general corporate purposes.

Small Business Administration Debentures. Through our small business investment company subsidiary, we have debentures payable to the Small Business Administration (SBA) with contractual maturities of ten years. The notes require payment of interest only semi-annually, and all principal is due upon maturity. During the first quarters of 2006 and 2005, we repaid \$12.0 million and \$31.0 million of this outstanding debt. Under the small business investment company program, we may borrow up to \$124.4 million from the SBA. We currently do not have plans to

borrow additional amounts from the SBA.

Revolving Line of Credit. At March 31, 2006, we had an unsecured revolving line of credit with a committed amount of \$772.5 million. The revolving line of credit expires on September 30, 2008. The revolving line of credit may be expanded through new or additional commitments up to \$922.5 million at our option. The revolving line of credit generally bears interest at a rate equal to (i) LIBOR (for the period we select) plus 1.30% or (ii) the higher of the Federal Funds rate plus 0.50% or the Bank of America N.A. prime rate. The revolving line of credit requires the payment of an annual commitment fee equal to 0.20% of the committed amount. The revolving line of credit generally requires payments of interest at the end of each LIBOR interest period, but no less frequently than quarterly, on LIBOR based loans and monthly payments of interest on other loans. All principal is due upon maturity.

S-34

At March 31, 2006, there was \$93.0 outstanding on our unsecured revolving line of credit. The amount available under the line at March 31, 2006, was \$641.8 million, net of amounts committed for standby letters of credit of \$37.7 million. Net borrowings under the revolving line of credit for the three months ended March 31, 2006, were \$1.3 million.

We have various financial and operating covenants required by the revolving line of credit and notes payable and debentures. These covenants require us to maintain certain financial ratios, including debt to equity and interest coverage, and a minimum net worth. These credit facilities provide for customary events of default, including, but not limited to, payment defaults, breach of representations or covenants, cross-defaults, bankruptcy events, failure to pay judgments, attachment of our assets, change of control and the issuance of an order of dissolution. Certain of these events of default are subject to notice and cure periods or materiality thresholds. Our credit facilities also limit our ability to declare dividends if we default under certain provisions. As of March 31, 2006, we were in compliance with these covenants.

The following table shows our significant contractual obligations for the repayment of debt and payment of other contractual obligations as of March 31, 2006.

(\$ in millions)	Payments Due By Year						
	Total	2006	2007	2008	2009	2010	After 2010
Notes payable and debentures:							
Unsecured long-term notes payable	\$ 1,164.7	\$ 175.0	\$	\$ 153.0	\$ 267.2	\$ 408.0	\$ 161.5
SBA debentures	16.5						16.5
Revolving line of credit ⁽¹⁾	93.0			93.0			
Operating leases	27.9	3.3	4.4	4.5	4.7	4.4	6.6
Total contractual obligations	\$ 1,302.1	\$ 178.3	\$ 4.4	\$ 250.5	\$ 271.9	\$ 412.4	\$ 184.6

⁽¹⁾ At March 31, 2006, \$641.8 million remained unused and available, net of amounts committed for standby letters of credit of \$37.7 million issued under the credit facility.

Off-Balance Sheet Arrangements

The following table shows our contractual commitments that may have the effect of creating, increasing, or accelerating our liabilities as of March 31, 2006.

(\$ in millions)	Amount of Commitment Expiration Per Year						
	Total	2006	2007	2008	2009	2010	After 2010
Guarantees	\$ 154.0	\$ 1.3	\$ 0.6	\$ 3.0	\$ 143.6	\$	\$ 5.5
Standby letters of credit ⁽¹⁾	37.7	0.1		37.6			
Total commitments	\$ 191.7	\$ 1.4	\$ 0.6	\$ 40.6	\$ 143.6	\$	\$ 5.5

(1) Standby letters of credit are issued under our revolving line of credit that expires in September 2008. Therefore, unless a standby letter of credit is set to expire at an earlier date, we have assumed that the standby letters of credit will expire contemporaneously with the expiration of our line of credit in September 2008.

In addition, we had outstanding commitments to fund investments totaling \$329.9 million at March 31, 2006. We intend to fund these commitments and prospective investment opportunities with existing cash, through cash flow from operations before new investments, through borrowings under our line of credit or other long-term debt agreements, or through the sale or issuance of new equity capital.

S-35

CRITICAL ACCOUNTING POLICIES

The consolidated financial statements are based on the selection and application of critical accounting policies, which require management to make significant estimates and assumptions. Critical accounting policies are those that are both important to the presentation of our financial condition and results of operations and require management's most difficult, complex, or subjective judgments. Our critical accounting policies are those applicable to the valuation of investments and certain revenue recognition matters as discussed below.

Valuation of Portfolio Investments. As a business development company, we invest in illiquid securities including debt and equity securities of companies and CDO and CLO bonds and preferred shares/ income notes. Our investments may be subject to certain restrictions on resale and generally have no established trading market. We value substantially all of our investments at fair value as determined in good faith by the Board of Directors in accordance with our valuation policy. We determine fair value to be the amount for which an investment could be exchanged in an orderly disposition over a reasonable period of time between willing parties other than in a forced or liquidation sale. Our valuation policy considers the fact that no ready market exists for substantially all of the securities in which we invest. Our valuation policy is intended to provide a consistent basis for determining the fair value of the portfolio. We will record unrealized depreciation on investments when we believe that an investment has become impaired, including where collection of a loan or realization of an equity security is doubtful, or when the enterprise value of the portfolio company does not currently support the cost of our debt or equity investments. Enterprise value means the entire value of the company to a potential buyer, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time. We will record unrealized appreciation if we believe that the underlying portfolio company has appreciated in value and/or our equity security has also appreciated in value. The value of investments in publicly traded securities is determined using quoted market prices discounted for restrictions on resale, if any.

Loans and Debt Securities. For loans and debt securities, fair value generally approximates cost unless the borrower's enterprise value, overall financial condition or other factors lead to a determination of fair value at a different amount. The value of loan and debt securities may be greater than our cost basis if the amount that would be repaid on the loan or debt security upon the sale of the portfolio company is greater than our cost basis.

When we receive nominal cost warrants or free equity securities (nominal cost equity), we allocate our cost basis in our investment between debt securities and nominal cost equity at the time of origination. At that time, the original issue discount basis of the nominal cost equity is recorded by increasing the cost basis in the equity and decreasing the cost basis in the related debt securities.

Interest income is recorded on an accrual basis to the extent that such amounts are expected to be collected. For loans and debt securities with contractual payment-in-kind interest, which represents contractual interest accrued and added to the loan balance that generally becomes due at maturity, we will not accrue payment-in-kind interest if the portfolio company valuation indicates that the payment-in-kind interest is not collectible. In general, interest is not accrued on loans and debt securities if we have doubt about interest collection or where the enterprise value of the portfolio company may not support further accrual. Loans in workout status that are classified as Grade 4 or 5 assets under our internal grading system do not accrue interest. In addition, interest may not accrue on loans or debt securities to portfolio companies that are more than 50% owned by us depending on such company's capital requirements. Loan origination fees, original issue discount, and market discount are capitalized and then amortized into interest income using a method that approximates the effective interest method. Upon the prepayment of a loan or debt security, any unamortized loan origination fees are recorded as interest income and any unamortized original issue discount or market

discount is recorded as a realized gain. Prepayment premiums are recorded on loans and debt securities when received.

Equity Securities. Our equity securities in portfolio companies for which there is no liquid public market are valued at fair value based on the enterprise value of the portfolio company, which is determined using various factors, including cash flow from operations of the portfolio company and other pertinent factors, such as recent offers to purchase a portfolio company, recent transactions involving the purchase or sale of the portfolio company's equity securities, liquidation events, or other events. The determined equity values are generally discounted to account for restrictions on resale or minority ownership positions.

The value of our equity securities in public companies for which market quotations are readily available is based on the closing public market price on the balance sheet date. Securities that carry certain restrictions on sale are typically valued at a discount from the public market value of the security.

Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are expected to be collected and to the extent that we have the option to receive the dividend in cash. Dividend income on common equity securities is recorded on the record date for private companies or on the ex-dividend date for publicly traded companies.

Collateralized Debt Obligations (CDO) and Collateralized Loan Obligations (CLO). CDO and CLO bonds and preferred shares/ income notes (CDO/CLO Assets) are carried at fair value, which is based on a discounted cash flow model that utilizes prepayment and loss assumptions based on historical experience and projected performance, economic factors, the characteristics of the underlying cash flow, and comparable yields for similar bonds and preferred shares/income notes, when available. We recognize unrealized appreciation or depreciation on its CDO/CLO Assets as comparable yields in the market change and/or based on changes in estimated cash flows resulting from changes in prepayment or loss assumptions in the underlying collateral pool. We determine the fair value of its CDO/CLO Assets on an individual security-by-security basis.

We recognize income from the amortization of original issue discount using the effective interest method using the anticipated yield over the projected life of the investment. Yields are revised when there are changes in actual and estimated prepayment speeds or actual and estimated credit losses. Changes in estimated yield are recognized as an adjustment to the estimated yield over the remaining life of the CDO/ CLO Assets from the date the estimated yield was changed.

Net Realized Gains or Losses and Net Change in Unrealized Appreciation or Depreciation. Realized gains or losses are measured by the difference between the net proceeds from the repayment or sale and the cost basis of the investment without regard to unrealized appreciation or depreciation previously recognized, and include investments charged off during the year, net of recoveries. Net change in unrealized appreciation or depreciation reflects the change in portfolio investment values during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized, the change in the value of U.S. Treasury bills and deposits of proceeds from sales of borrowed Treasury securities, and depreciation on accrued interest and dividends receivable and other assets where collection is doubtful.

Fee Income. Fee income includes fees for guarantees and services rendered by us to portfolio companies and other third parties such as diligence, structuring, transaction services, management and consulting services, and other services. Guaranty fees are generally recognized as income over the related period of the guaranty. Diligence, structuring, and transaction services fees are generally recognized as income when services are rendered or when the related transactions are completed. Management, consulting and other services fees are generally recognized as income as the services are rendered.

**ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Information at and for the three months ended March 31, 2006 and 2005 is unaudited)

Note 1. Organization

Allied Capital Corporation, a Maryland corporation, is a closed-end management investment company that has elected to be regulated as a business development company (BDC) under the Investment Company Act of 1940 (1940 Act). Allied Capital Corporation (ACC) has a subsidiary, Allied Investments L.P. (Allied Investments), which is licensed under the Small Business Investment Act of 1958 as a Small Business Investment Company (SBIC). In addition, ACC has a real estate investment trust subsidiary, Allied Capital REIT, Inc. (Allied REIT), and several subsidiaries that are single member limited liability companies established primarily to hold real estate properties. ACC also has a subsidiary, A.C. Corporation (AC Corp), that generally provides diligence and structuring services as well as structuring, transaction, management, consulting and other services to the Company and its portfolio companies. AC Corp has a wholly-owned subsidiary, AC Finance LLC (AC Finance), that generally underwrites and arranges senior loans for the Company s portfolio companies and other third parties.

Allied Capital Corporation and its subsidiaries, collectively, are referred to as the Company.

In accordance with specific rules prescribed for investment companies, subsidiaries hold investments on behalf of the Company or provide substantial services to the Company. Portfolio investments are held for purposes of deriving investment income and future capital gains. The Company consolidates the results of its subsidiaries for financial reporting purposes. The financial results of the Company s portfolio investments are not consolidated in the Company s financial statements.

The investment objective of the Company is to achieve current income and capital gains. In order to achieve this objective, the Company has primarily invested in companies in a variety of industries.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements include the accounts of ACC and its subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. Certain reclassifications have been made to the 2005 balances to conform with the 2006 financial statement presentation.

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete consolidated financial statements. In the opinion of management, the unaudited consolidated financial results of the Company included herein contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position of the Company as of March 31, 2006, and the results of operations, changes in net assets, and cash flows for the three months ended March 31, 2006 and 2005. The results of operations for the three months ended March 31, 2006, are not necessarily indicative of the operating results to be expected for the full year.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies, continued

The private finance portfolio and the interest and related portfolio income and net realized gains (losses) on the private finance portfolio are presented in three categories: companies more than 25% owned, which represent portfolio companies where the Company directly or indirectly owns more than 25% of the outstanding voting securities of such portfolio company and, therefore, are deemed controlled by the Company under the 1940 Act; companies owned 5% to 25%, which represent portfolio companies where the Company directly or indirectly owns 5% to 25% of the outstanding voting securities of such portfolio company or where the Company holds one or more seats on the portfolio company's board of directors and, therefore, are deemed to be an affiliated person under the 1940 Act; and companies less than 5% owned which represent portfolio companies where the Company directly or indirectly owns less than 5% of the outstanding voting securities of such portfolio company and where the Company has no other affiliations with such portfolio company. The interest and related portfolio income and net realized gains (losses) from the commercial real estate finance portfolio and other sources are included in the companies less than 5% owned category on the consolidated statement of operations.

In the ordinary course of business, the Company enters into transactions with portfolio companies that may be considered related party transactions.

Valuation Of Portfolio Investments

The Company, as a BDC, has invested in illiquid securities including debt and equity securities of companies and CDO and CLO bonds and preferred shares/income notes. The Company's investments may be subject to certain restrictions on resale and generally have no established trading market. The Company values substantially all of its investments at fair value as determined in good faith by the Board of Directors in accordance with the Company's valuation policy. The Company determines fair value to be the amount for which an investment could be exchanged in an orderly disposition over a reasonable period of time between willing parties other than in a forced or liquidation sale. The Company's valuation policy considers the fact that no ready market exists for substantially all of the securities in which it invests. The Company's valuation policy is intended to provide a consistent basis for determining the fair value of the portfolio. The Company will record unrealized depreciation on investments when it believes that an investment has become impaired, including where collection of a loan or realization of an equity security is doubtful, or when the enterprise value of the portfolio company does not currently support the cost of the Company's debt or equity investments. Enterprise value means the entire value of the company to a potential buyer, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time. The Company will record unrealized appreciation if it believes that the underlying portfolio company has appreciated in value and/or the Company's equity security has also appreciated in value. The value of investments in publicly traded securities is determined using quoted market prices discounted for restrictions on resale, if any.

Loans and Debt Securities

For loans and debt securities, fair value generally approximates cost unless the borrower's enterprise value, overall financial condition or other factors lead to a determination of fair value at a different amount. The value of loan and debt securities may be greater than the Company's cost basis

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies, continued

if the amount that would be repaid on the loan or debt security upon the sale of the portfolio company is greater than the Company's cost basis.

When the Company receives nominal cost warrants or free equity securities (nominal cost equity), the Company allocates its cost basis in its investment between its debt securities and its nominal cost equity at the time of origination. At that time, the original issue discount basis of the nominal cost equity is recorded by increasing the cost basis in the equity and decreasing the cost basis in the related debt securities.

Interest income is recorded on an accrual basis to the extent that such amounts are expected to be collected. For loans and debt securities with contractual payment-in-kind interest, which represents contractual interest accrued and added to the loan balance that generally becomes due at maturity, the Company will not accrue payment-in-kind interest if the portfolio company valuation indicates that the payment-in-kind interest is not collectible. In general, interest is not accrued if the Company has doubt about interest collection or where the enterprise value of the portfolio company may not support further accrual. Loans in workout status that are classified as Grade 4 or 5 assets under the Company's internal grading system do not accrue interest. In addition, interest may not accrue on loans or debt securities to portfolio companies that are more than 50% owned by the Company depending on such company's capital requirements. Loan origination fees, original issue discount, and market discount are capitalized and then amortized into interest income using a method that approximates the effective interest method. Upon the prepayment of a loan or debt security, any unamortized loan origination fees are recorded as interest income and any unamortized original issue discount or market discount is recorded as a realized gain. Prepayment premiums are recorded on loans and debt securities when received.

The weighted average yield on loans and debt securities is computed as the (a) annual stated interest plus the annual amortization of loan origination fees, original issue discount, and market discount on accruing loans and debt securities less the annual amortization of loan origination costs, divided by (b) total loans and debt securities at value. The weighted average yield is computed as of the balance sheet date.

Equity Securities

The Company's equity securities in portfolio companies for which there is no liquid public market are valued at fair value based on the enterprise value of the portfolio company, which is determined using various factors, including cash flow from operations of the portfolio company and other pertinent factors, such as recent offers to purchase a portfolio company, recent transactions involving the purchase or sale of the portfolio company's equity securities, liquidation events, or other events. The determined equity values are generally discounted to account for restrictions on resale or minority ownership positions.

The value of the Company's equity securities in public companies for which market quotations are readily available is based on the closing public market price on the balance sheet date. Securities that carry certain restrictions on sale are typically valued at a discount from the public market value of the security.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies, continued

Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are expected to be collected and to the extent that the Company has the option to receive the dividend in cash. Dividend income on common equity securities is recorded on the record date for private companies or on the ex-dividend date for publicly traded companies.

Collateralized Debt Obligations (CDO) and Collateralized Loan Obligations (CLO)

CDO and CLO bonds and preferred shares/ income notes (CDO/ CLO Assets) are carried at fair value, which is based on a discounted cash flow model that utilizes prepayment and loss assumptions based on historical experience and projected performance, economic factors, the characteristics of the underlying cash flow, and comparable yields for similar bonds and preferred shares/income notes, when available. The Company recognizes unrealized appreciation or depreciation on its CDO/ CLO Assets as comparable yields in the market change and/or based on changes in estimated cash flows resulting from changes in prepayment or loss assumptions in the underlying collateral pool. The Company determines the fair value of its CDO/ CLO Assets on an individual security-by-security basis.

The Company recognizes income from the amortization of original issue discount using the effective interest method using the anticipated yield over the projected life of the investment. Yields are revised when there are changes in actual and estimated prepayment speeds or actual and estimated credit losses. Changes in estimated yield are recognized as an adjustment to the estimated yield over the remaining life of the CDO/ CLO Assets from the date the estimated yield was changed.

Net Realized Gains or Losses and Net Change in Unrealized Appreciation or Depreciation

Realized gains or losses are measured by the difference between the net proceeds from the repayment or sale and the cost basis of the investment without regard to unrealized appreciation or depreciation previously recognized, and include investments charged off during the year, net of recoveries. Net change in unrealized appreciation or depreciation reflects the change in portfolio investment values during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized, the change in the value of U.S. Treasury bills and deposits of proceeds from sales of borrowed Treasury securities, and depreciation on accrued interest and dividends receivable and other assets where collection is doubtful.

Fee Income

Fee income includes fees for guarantees and services rendered by the Company to portfolio companies and other third parties such as diligence, structuring, transaction services, management and consulting services, and other services. Guaranty fees are generally recognized as income over the related period of the guaranty. Diligence, structuring, and transaction services fees are generally recognized as income when services are rendered or when the related transactions are completed. Management, consulting and other services fees are generally recognized as income as the services are rendered.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies, continued

Guarantees

Guarantees meeting the characteristics described in FASB Interpretation No. 45, *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others* (the Interpretation) and issued or modified after December 31, 2002, are recognized at fair value at inception. However, certain guarantees are excluded from the initial recognition provisions of the Interpretation. See Note 5.

Financing Costs

Debt financing costs are based on actual costs incurred in obtaining debt financing and are deferred and amortized as part of interest expense over the term of the related debt instrument using a method that approximates the effective interest method. Costs associated with the issuance of common stock, such as underwriting, accounting and legal fees, and printing costs are recorded as a reduction to the proceeds from the sale of common stock.

Dividends to Shareholders

Dividends to shareholders are recorded on the record date.

Stock Compensation Plans

The Company has a stock-based employee compensation plan. See Note 9. Effective January 1, 2006, the Company adopted the provisions of Statement No. 123 (Revised 2004), *Share-Based Payment* (the Statement). With respect to options granted prior to January 1, 2006, the Company has used the modified prospective method for adoption of the Statement. Under this method, the unamortized cost of previously awarded options that were unvested as of January 1, 2006, is recognized over the service period in the statement of operations beginning in 2006. With respect to options granted on or after January 1, 2006, compensation cost is recognized over the service period in the statement of operations. The effect of this adoption for the three months ended March 31, 2006, was employee-related stock option expense of \$3.6 million or \$0.03 per basic and diluted share, which included \$3.4 million related to previously awarded options that were unvested as of January 1, 2006, and \$0.2 million related to options granted during the three months ended March 31, 2006.

Prior to January 1, 2006, the Company accounted for this plan under the recognition and measurement principles of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations. Prior to January 1, 2006, no stock-based employee compensation cost was reflected in net increase in net assets resulting from operations, as all options granted under this plan had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net increase in net assets resulting from operations and earnings per share if the Company had applied the fair value recognition provisions of FASB

S-56

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies, continued

Statement No. 123, *Accounting for Stock-Based Compensation*, to stock-based employee compensation for the three months ended March 31, 2005.

	For the Three Months Ended March 31, 2005	
(in thousands, except per share amounts)		
Net increase in net assets resulting from operations as reported	\$	119,621
Less total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects		(2,856)
Pro forma net increase in net assets resulting from operations available to common shareholders	\$	116,765
Basic earnings per common share:		
As reported	\$	0.90
Pro forma	\$	0.88
Diluted earnings per common share:		
As reported	\$	0.88
Pro forma	\$	0.86

The stock option expense for 2006 and the pro forma expense for 2005 shown in the table above were based on the underlying value of the options granted by the Company. The fair value of each option grant was estimated on the date of grant using the Black-Scholes option pricing model and expensed over the vesting period. The following assumptions were used to calculate the fair value of options granted during the three months ended March 31, 2006 and 2005:

	For the Three Months Ended March 31,	
	2006	2005⁽¹⁾
Risk-free interest rate	4.3%	%
Expected life	5.0	
Expected volatility	29.6%	%
Dividend yield	9.0%	%
Weighted average fair value per option	\$ 3.35	\$

⁽¹⁾ The Company did not grant any options during the three months ended March 31, 2005.

The risk free rate was based on the U.S. Treasury bond yield curve at the date of grant. The Company used historical data to estimate option exercise and employee termination in order to determine the expected life of the

option. The expected life of the options granted represents the period of time that such options are expected to be outstanding. Expected volatilities were determined based on the historical volatility of the Company's common stock. The dividend yield was determined based on the Company's historical dividend yield.

The Company estimates that the stock option expense under the Statement that will be recorded in the Company's statement of operations will be approximately \$14.3 million, \$9.3 million, and \$2.8 million for the years ended December 31, 2006, 2007, and 2008, respectively, which includes

S-57

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies, continued

stock option expense related to options granted in the first quarter of 2006 of approximately \$0.8 million, \$0.5 million, and \$0.2 million, respectively. This estimate may change if the Company's assumptions related to future option forfeitures change. This estimate does not include any expense related to future stock option grants as the fair value of those stock options will be determined at the time of grant. The aggregate total stock option expense is expected to be recognized over an estimated weighted-average period of 1.42 years.

Federal and State Income Taxes and Excise Tax

The Company intends to comply with the requirements of the Internal Revenue Code (Code) that are applicable to regulated investment companies (RIC) and real estate investment trusts (REIT). ACC and its subsidiaries that qualify as a RIC or a REIT intend to distribute or retain through a deemed distribution all of their annual taxable income to shareholders; therefore, the Company has made no provision for income taxes for these entities. Income taxes for AC Corp are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases as well as operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

If the Company does not distribute at least 98% of its annual taxable income in the year earned, the Company will generally be required to pay an excise tax equal to 4% of the amount by which 98% of the Company's annual taxable income exceeds the distributions from such taxable income for the year. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such taxable income, the Company accrues excise taxes, if any, on estimated excess taxable income as taxable income is earned using an annual effective excise tax rate. The annual effective excise tax rate is determined by dividing the estimated annual excise tax by the estimated annual taxable income.

Per Share Information

Basic earnings per common share is calculated using the weighted average number of common shares outstanding for the period presented. Diluted earnings per common share reflects the potential dilution that could occur if options to issue common stock were exercised into common stock. Earnings per share is computed after subtracting dividends on preferred shares.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies, continued

The consolidated financial statements include portfolio investments at value of \$3.7 billion and \$3.6 billion at March 31, 2006, and December 31, 2005, respectively. At both March 31, 2006, and December 31, 2005, 90% of the Company's total assets represented portfolio investments whose fair values have been determined by the Board of Directors in good faith in the absence of readily available market values. Because of the inherent uncertainty of valuation, the Board of Directors' determined values may differ significantly from the values that would have been used had a ready market existed for the investments, and the differences could be material.

Note 3. Portfolio*Private Finance*

At March 31, 2006, and December 31, 2005, the private finance portfolio consisted of the following:

	2006			2005		
	Cost	Value	Yield ⁽¹⁾	Cost	Value	Yield ⁽¹⁾
(\$ in thousands)						
Loans and debt securities:						
Senior loans	\$ 468,987	\$ 420,065	9.3%	\$ 284,680	\$ 239,838	9.5%
Unitranche debt ⁽²⁾	362,726	362,726	11.1%	294,201	294,201	11.4%
Subordinated debt	1,801,347	1,747,235	13.6%	1,610,228	1,560,851	13.8%
Total loans and debt securities ⁽³⁾	2,633,060	2,530,026	12.5%	2,189,109	2,094,890	13.0%
Equity securities	934,455	1,031,607		917,314	1,384,400	
Total	\$ 3,567,515	\$ 3,561,633		\$ 3,106,423	\$ 3,479,290	

⁽¹⁾ The weighted average yield on loans and debt securities is computed as the (a) annual stated interest plus the annual amortization of loan origination fees, original issue discount, and market discount on accruing loans and debt securities less the annual amortization of loan origination costs, divided by (b) total loans and debt securities at value. At March 31, 2006, and December 31, 2005, the cost and value of subordinated debt include the Class A equity interests in BLX and the guaranteed dividend yield on these equity interests is included in interest income. The weighted average yield is computed as of the balance sheet date.

⁽²⁾ Unitranche debt is a single debt investment that is a blend of senior and subordinated debt terms.

⁽³⁾ The total principal balance outstanding on loans and debt securities was \$2,662.5 million and \$2,216.3 million at March 31, 2006, and December 31, 2005, respectively. The difference between principal and cost is represented by unamortized loan origination fees and costs, original issue discounts, and market discounts totaling \$29.4 million and \$27.2 million at March 31, 2006, and December 31, 2005, respectively.

The Company's private finance investment activity principally involves providing financing through privately negotiated long-term debt and equity investments. The Company's private finance investments are generally issued by private companies and are generally illiquid and may be subject to certain restrictions on resale.

Private finance debt investments are generally structured as loans and debt securities that carry a relatively high fixed rate of interest, which may be combined with equity features, such as conversion privileges, or warrants or

options to purchase a portion of the portfolio company's equity at a pre-determined strike price, which is generally a nominal price for warrants or options in a private company. The annual stated interest rate is only one factor in pricing the investment relative to the

S-59

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3. Portfolio, continued

Company's rights and priority in the portfolio company's capital structure, and will vary depending on many factors, including if the Company has received nominal cost equity or other components of investment return, such as loan origination fees or market discount. The stated interest rate may include some component of contractual payment-in-kind interest, which represents contractual interest accrued and added to the loan balance that generally becomes due at maturity.

At March 31, 2006, 80% of the private finance loans and debt securities had a fixed rate of interest and 20% had a floating rate of interest. At December 31, 2005, 87% of the private finance loans and debt securities had a fixed rate of interest and 13% had a floating rate of interest. Senior loans generally carry a floating rate of interest, usually set as a spread over LIBOR, and generally require payments of both principal and interest throughout the life of the loan. Senior loans generally have maturities of three to five years and interest is generally paid to the Company monthly or quarterly. Loans other than senior loans generally carry a fixed rate of interest with maturities of five to ten years. These loans generally have interest-only payments in the early years and payments of both principal and interest in the later years, although maturities and principal amortization schedules may vary. Interest is generally paid to the Company quarterly.

Equity securities consist primarily of securities issued by private companies and may be subject to certain restrictions on their resale and are generally illiquid. The Company may make equity investments for minority stakes in portfolio companies in conjunction with its debt investments. The Company may also invest in the equity (preferred and/or voting or non-voting common) of a portfolio company where the Company's equity ownership may represent a significant portion of the equity, but may or may not represent a controlling interest. If the Company invests in non-voting equity in a buyout investment, the Company generally has the option to acquire a controlling stake in the voting securities of the portfolio company at fair market value. The Company may incur costs associated with making buyout investments, such as legal, accounting and other professional fees associated with diligence, referral and investment banking fees, and other costs, which will be added to the cost basis of the Company's equity investment. Equity securities generally do not produce a current return, but are held with the potential for investment appreciation and ultimate gain on sale.

The Company's largest investment at value at March 31, 2006, was in Business Loan Express, LLC (BLX). The Company's largest investments at value at December 31, 2005, were in Advantage Sales & Marketing, Inc. (Advantage) and BLX. On March 29, 2006, the Company sold its majority equity interest in Advantage.

Business Loan Express, LLC. The Company's investment in BLX totaled \$291.3 million at cost and \$326.2 million at value at March 31, 2006, and \$299.4 million at cost and \$357.1 million at value at December 31, 2005. BLX is a small business lender that participates in the U.S. Small Business Administration's 7(a) Guaranteed Loan Program. At March 31, 2006, and December 31, 2005, the Company owned 94.9% of the voting Class C equity interests. BLX has an equity appreciation rights plan for management which will dilute the value available to the Class C equity interest holders. BLX is headquartered in New York, NY.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3. Portfolio, continued

Total interest and related portfolio income earned from the Company's investment in BLX for the three months ended March 31, 2006 and 2005, was as follows:

(\$ in millions)	2006	2005
Interest income on subordinated debt and Class A equity interests	\$ 3.9	\$ 3.4
Dividend income on Class B equity interests		2.0
Fees and other income	2.2	2.4
 Total interest and related portfolio income	 \$ 6.1	 \$ 7.8

Interest and dividend income from BLX for the three months ended March 31, 2006 and 2005, included interest and dividend income of \$1.8 million and \$1.6 million, respectively, which was paid in kind. The interest and dividends paid in kind were paid to the Company through the issuance of additional debt or equity interests.

Net change in unrealized appreciation or depreciation included a net decrease in unrealized appreciation on the Company's investment in BLX of \$22.7 million and \$6.3 million for the three months ended March 31, 2006 and 2005, respectively.

At March 31, 2006, and December 31, 2005, the Company had a commitment to BLX of \$30.0 million in the form of a subordinated revolving credit facility to provide working capital to BLX. There were no amounts outstanding under this facility at March 31, 2006, and there was \$10.0 million outstanding under this facility at December 31, 2005. This facility matured on April 30, 2006.

As a limited liability company, BLX's taxable income flows through directly to its members. BLX's annual taxable income generally differs from its book income for the fiscal year due to temporary and permanent differences in the recognition of income and expenses. The Company holds all of BLX's Class A and Class B interests, and 94.9% of the Class C interests. BLX's taxable income is first allocated to the Class A interests to the extent that dividends are paid in cash or in kind on such interests, with the remainder being allocated to the Class B and Class C interests. BLX may declare dividends on its Class B interests. If declared, BLX would determine the amount of such dividend considering its estimated annual taxable income allocable to such interests.

At the time of the corporate reorganization of BLX, Inc. from a C corporation to a limited liability company in 2003, for tax purposes BLX had a built-in gain representing the aggregate fair market value of its assets in excess of the tax basis of its assets. As a RIC, the Company will be subject to special built-in gain rules on the assets of BLX. Under these rules, taxes will be payable by the Company at the time and to the extent that the built-in gains on BLX's assets at the date of reorganization are recognized in a taxable disposition of such assets in the 10-year period following the date of the reorganization. At such time, the built-in gains realized upon the disposition of these assets will be included in the Company's taxable income, net of the corporate level taxes paid by the Company on the built-in gains. However, if these assets are disposed of after the 10-year period, there will be no corporate level taxes on these built-in gains.

While the Company has no obligation to pay the built-in gains tax until these assets are disposed of in the future, it may be necessary to record a liability for these taxes in the future should the Company intend to sell the assets of BLX within the 10-year period. The Company estimates that its future tax liability resulting from the built-in gains at the date of BLX's reorganization may total up

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3. Portfolio, continued

to \$40 million. At March 31, 2006, and December 31, 2005, the Company considered the increase in fair value of its investment in BLX due to BLX's tax attributes as an LLC and has also considered the reduction in fair value of its investment due to these estimated built-in gain taxes in determining the fair value of its investment in BLX.

At December 31, 2005, BLX had a three-year \$275.0 million revolving credit facility provided by third party lenders that was scheduled to mature in January 2007. As the controlling equity owner in BLX, the Company had provided an unconditional guaranty to the revolving credit facility lenders in an amount equal to 50% of the total obligations (consisting of principal, letters of credit issued under the facility, accrued interest, and other fees) of BLX under the revolving credit facility. The total obligation guaranteed by the Company at December 31, 2005, was \$135.4 million.

On March 17, 2006, BLX closed on a new three-year \$500.0 million revolving credit facility that matures in March 2009, which replaced the existing facility. The revolving credit facility may be expanded through new or additional commitments up to \$600.0 million at BLX's option. This new facility provides for a sub-facility for the issuance of letters of credit for up to an amount equal to 25% of the committed facility. The Company has provided an unconditional guaranty to these BLX credit facility lenders in an amount equal to 50% of the total obligations (consisting of principal, letters of credit issued under the facility, accrued interest, and other fees) on this facility. The amount guaranteed by the Company at March 31, 2006, was \$141.1 million. This guaranty can be called by the lenders only in the event of a default under the BLX credit facility, which includes certain defaults under the Company's revolving credit facility. BLX was in compliance with the terms of this facility at March 31, 2006.

At March 31, 2006, and December 31, 2005, the Company had also provided four standby letters of credit totaling \$34.1 million in connection with four term securitization transactions completed by BLX. In consideration for providing the revolving credit facility guaranty and the standby letters of credit, BLX paid the Company fees of \$1.6 million for both the three months ended March 31, 2006 and 2005.

Advantage Sales and Marketing, Inc. In June 2004, the Company completed the purchase of a majority voting ownership in Advantage, which was subject to dilution by a management option pool. Advantage is a sales and marketing agency providing outsourced sales, merchandising, and marketing services to the consumer packaged goods industry. Advantage has offices across the United States and is headquartered in Irvine, CA.

At December 31, 2005, the Company's investment in Advantage totaled \$257.7 million at cost and \$660.4 million at value, which included unrealized appreciation of \$402.7 million.

On March 29, 2006, the Company sold its majority equity interest in Advantage. The Company was repaid its \$184 million in subordinated debt outstanding and realized a gain on its equity investment sold of \$433.1 million, subject to post-closing adjustments. As consideration for the common stock sold in the transaction, the Company received a \$150 million subordinated note, with the balance of the consideration paid in cash. Approximately \$34 million of the Company's cash proceeds from the sale of the common stock have been held in escrow, subject to certain holdback provisions. In addition, there is potential for the Company to receive additional consideration through an earn-out payment that would be based on Advantage's 2006 audited results. The Company's realized gain of \$433.1 million excludes any earn-out amounts. In connection with the transaction, the

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3. Portfolio, continued

Company retained an equity investment in the business valued at \$15 million as a minority shareholder.

After the completion of the sale transaction, the Company's investment in Advantage at March 31, 2006, which was composed of subordinated debt and a minority equity interest, totaled \$151.3 million at cost and \$164.3 million at value. This investment was included in companies 5% to 25% owned in the consolidated financial statements as the Company continues to hold a seat on Advantage's board of directors.

Total interest and related portfolio income earned from the Company's investment in Advantage while the Company held a majority equity interest for the three months ended March 31, 2006 and 2005, was as follows:

(\$ in millions)	2006	2005
Interest income	\$ 7.3	\$ 7.7
Loan prepayment premiums	5.0	
Fees and other income	1.8	1.5
 Total interest and related portfolio income	 \$ 14.1	 \$ 9.2

Net change in unrealized appreciation or depreciation for the three months ended March 31, 2006, included the reversal of \$389.7 million of previously recorded unrealized appreciation associated with the realization of a gain on the sale of the Company's majority equity interest in Advantage and for the three months ended March 31, 2005, included an increase of \$68.9 million in unrealized appreciation related to the Company's investment in Advantage.

STS Operating, Inc. On May 1, 2006, the Company announced the completion of the sale of STS Operating, Inc. (STS). The Company was repaid its \$6.8 million in subordinated debt outstanding and realized a gain on the sale of its common stock in STS of approximately \$94 million, subject to post-closing adjustments. The cost basis of its equity was \$3.5 million. As part of the consideration for the sale of its equity, the Company received a \$30 million subordinated note. Approximately \$10.7 million of its proceeds are subject to certain holdback provisions and post-closing adjustments.

Collateralized Loan Obligations (CLOs) and Collateralized Debt Obligations (CDOs) At March 31, 2006, and December 31, 2005, the Company owned bonds and preferred shares/income notes in two collateralized loan obligations (CLOs) totaling \$90.9 million and \$89.3 million at value, respectively, and bonds in one collateralized debt obligation (CDO) totaling \$28.5 million at value at both periods. These CLOs and CDO are managed by Callidus Capital Corporation.

The bonds, preferred shares and income notes of the CLOs and CDO in which the Company has invested are junior in priority for payment of interest and principal to the more senior notes issued by the CLOs and CDO. Cash flow from the underlying collateral assets in the CLOs and CDO is generally allocated first to the senior bonds in order of priority, then any remaining cash flow is generally distributed to the preferred shareholders and income note holders. To the extent there are defaults and unrecoverable losses on the underlying collateral assets that result in reduced cash flows, the preferred shares/income notes would bear this loss first and then the subordinated bonds would bear any loss after the preferred shares/income notes.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3. Portfolio, continued

At both March 31, 2006, and December 31, 2005, the face value of the CLO and CDO bonds held by the Company were subordinate to approximately 82% to 85% of the face value of the securities issued in these CLOs and CDO. At both March 31, 2006, and December 31, 2005, the face value of the CLO preferred shares/income notes held by the Company were subordinate to approximately 86% to 91% of the face value of the securities issued in these CLOs.

At March 31, 2006, and December 31, 2005, the Company owned CLO and CDO investments from three issuances. The underlying collateral assets of these CLO and CDO investments, consisting primarily of senior debt, were issued by 332 issuers and 336 issuers, respectively, and had balances as follows:

	2006	2005
(\$ in millions)		
Bonds	\$ 228.9	\$ 230.7
Syndicated Loans	758.9	704.0
Cash ⁽¹⁾	185.0	238.4
Total underlying collateral assets	\$ 1,172.8	\$ 1,173.1

⁽¹⁾ Includes undrawn liability amounts.

At March 31, 2006, and December 31, 2005, there were no delinquencies in the underlying collateral assets of the CLO and CDO issuances owned by the Company.

The initial yields on the CLO and CDO bonds, preferred shares and income notes are based on the estimated future cash flows from the underlying collateral assets expected to be paid to these CLO and CDO classes. As each CLO and CDO bond, preferred share or income note ages, the estimated future cash flows will be updated based on the estimated performance of the underlying collateral assets, and the respective yield will be adjusted as necessary. As future cash flows are subject to uncertainties and contingencies that are difficult to predict and are subject to future events that may alter current assumptions, no assurance can be given that the anticipated yields to maturity will be achieved.

Loans and Debt Securities on Non-Accrual Status. At March 31, 2006, and December 31, 2005, private finance loans and debt securities at value not accruing interest were as follows:

	2006	2005
(\$ in thousands)		
Loans and debt securities in workout status (classified as Grade 4 or 5)		
Companies more than 25% owned	\$ 29,030	\$ 15,622
Companies 5% to 25% owned	5,583	
Companies less than 5% owned	51,776	11,417
Loans and debt securities not in workout status		
Companies more than 25% owned	40,599	58,047
Companies 5% to 25% owned	5,154	534
Companies less than 5% owned	4,369	49,458
Total	\$ 136,511	\$ 135,078

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3. Portfolio, continued

Industry and Geographic Compositions. The industry and geographic compositions of the private finance portfolio at value at March 31, 2006, and December 31, 2005, were as follows:

	2006	2005
Industry		
Business services	33%	45%
Consumer products	25	14
Financial services	14	15
Industrial products	11	10
Retail	3	3

(1) Includes investments in senior debt CDO and CLO funds. These funds invest in senior debt representing a variety of industries.

(2) The geographic region for the private finance portfolio depicts the location of the headquarters for the Company's portfolio companies. The portfolio companies may have a number of other locations in other geographic regions.

Commercial Real Estate Finance

At March 31, 2006, and December 31, 2005, the commercial real estate finance portfolio consisted of the following:

	2006			2005		
	Cost	Value	Yield ⁽¹⁾	Cost	Value	Yield ⁽¹⁾
(\$ in thousands)						
Commercial mortgage loans	\$ 103,422	\$ 102,694	7.6%	\$ 103,878	\$ 102,569	7.6%
Real estate owned	13,002	15,006		14,240	13,932	
Equity interests	13,140	11,669		13,577	10,564	

Total	\$ 129,564	\$ 129,369	\$ 131,695	\$ 127,065
-------	------------	------------	------------	------------

(1) The weighted average yield on the interest-bearing investments is computed as the (a) annual stated interest plus the annual amortization of loan origination fees, original issue discount, and market discount on accruing interest-bearing investments less the annual amortization of origination costs, divided by (b) total interest-bearing investments at value. The weighted average yield is computed as of the balance sheet date. Interest-bearing investments for the commercial real estate finance portfolio include all investments except for real estate owned and equity interests.

S-65

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3. Portfolio, continued

Commercial Mortgage Loans and Equity Interests. The commercial mortgage loan portfolio contains loans that were originated by the Company or were purchased from third-party sellers. At both March 31, 2006, and December 31, 2005, approximately 97% and 3% of the Company's commercial mortgage loan portfolio was composed of fixed and adjustable interest rate loans, respectively. At March 31, 2006, and December 31, 2005, loans with a value of \$21.2 million and \$20.8 million, respectively, were not accruing interest. Loans greater than 120 days delinquent generally do not accrue interest.

Equity interests consist primarily of equity securities issued by privately owned companies that invest in single real estate properties. These equity interests may be subject to certain restrictions on their resale and are generally illiquid. Equity interests generally do not produce a current return, but are generally held in anticipation of investment appreciation and ultimate realized gain on sale.

The property types and the geographic composition securing the commercial mortgage loans and equity interests at value at March 31, 2006, and December 31, 2005, were as follows:

	2006	2005
Property Type		
Hospitality	40%	37%
Housing	29	30
Retail	16	16
Office	11	11

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 4. Debt

At March 31, 2006, and December 31, 2005, the Company had the following debt:

	2006			2005		
	Facility Amount	Amount Drawn	Annual Interest Cost ⁽¹⁾	Facility Amount	Amount Drawn	Annual Interest Cost ⁽¹⁾
(\$ in thousands)						
Notes payable and debentures:						
Unsecured notes payable	\$ 1,164,745	\$ 1,164,745	6.2%	\$ 1,164,540	\$ 1,164,540	6.2%
SBA debentures	16,500	16,500	7.4%	28,500	28,500	7.5%
Total notes payable and debentures	1,181,245	1,181,245	6.2%	1,193,040	1,193,040	6.3%
Revolving line of credit	772,500	93,000	6.2% ⁽²⁾	772,500	91,750	5.6% ⁽²⁾
Total debt	\$ 1,953,745	\$ 1,274,245	6.5% ⁽³⁾	\$ 1,965,540	\$ 1,284,790	6.5% ⁽³⁾

(1) The weighted average annual interest cost is computed as the (a) annual stated interest on the debt plus the annual amortization of commitment fees and other facility fees that are recognized into interest expense over the contractual life of the respective borrowings, divided by (b) debt outstanding on the balance sheet date.

(2) The annual interest cost reflects the interest rate payable for borrowings under the revolving line of credit. In addition to the current interest rate payable, there were annual costs of commitment fees and other facility fees of \$3.3 million at both March 31, 2006, and December 31, 2005.

(3) The annual interest cost for total debt includes the annual cost of commitment fees and other facility fees on the revolving line of credit regardless of the amount outstanding on the facility as of the balance sheet date.

Notes Payable and Debentures

Unsecured Notes Payable. The Company has issued unsecured long-term notes to institutional investors. The notes require semi-annual interest payments until maturity and have original terms of five or seven years. At March 31, 2006, the notes had remaining maturities of one month to seven years. The notes may be prepaid in whole or in part, together with an interest premium, as stipulated in the note agreement.

On May 1, 2006, the Company issued \$50 million of seven-year, unsecured notes with a fixed interest rate of 6.75%. This debt matures in May 2013. The proceeds from the issuance of the notes were used to repay \$25 million of 7.49% unsecured long-term notes that matured on May 1, 2006, with the remainder being used to fund new portfolio investments and for general corporate purposes.

SBA Debentures. At March 31, 2006, and December 31, 2005, the Company had debentures payable to the SBA with original terms of ten years and at fixed interest rates ranging from 5.9% to 6.3% and 5.9% to 6.4%, respectively. At March 31, 2006, the debentures had remaining maturities of five to six years. The debentures require semi-annual interest-only payments with all principal due upon maturity. The SBA debentures are subject to prepayment penalties if paid prior to the fifth anniversary date of the notes. During the first quarters of 2006 and 2005, the Company repaid

\$12.0 million and \$31.0 million, respectively, of the SBA debentures.

S-67

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 4. Debt, continued

Scheduled Maturities. Scheduled future maturities of notes payable and debentures at March 31, 2006, were as follows:

Year	Amount Maturing
	(\$ in thousands)
2006	\$ 175,000
2007	
2008	153,000
2009	267,245
2010	408,000
Thereafter	178,000
Total	\$ 1,181,245

Revolving Line of Credit

At March 31, 2006, and December 31, 2005, the Company had an unsecured revolving line of credit with a committed amount of \$772.5 million. The revolving line of credit expires on September 30, 2008, and may be expanded through new or additional commitments up to \$922.5 million at the Company's option. The revolving line of credit generally bears interest at a rate equal to (i) LIBOR (for the period the Company selects) plus 1.30% or (ii) the higher of the Federal Funds rate plus 0.50% or the Bank of America N.A. prime rate. The revolving line of credit requires the payment of an annual commitment fee equal to 0.20% of the committed amount. The revolving line of credit generally requires payments of interest at the end of each LIBOR interest period, but no less frequently than quarterly, on LIBOR based loans and monthly payments of interest on other loans. All principal is due upon maturity.

The annual cost of commitment fees and other facility fees was \$3.3 million at both March 31, 2006, and December 31, 2005.

The average debt outstanding on the revolving line of credit was \$301.9 million and \$72.3 million for the three months ended March 31, 2006 and 2005, respectively. The maximum amount borrowed under this facility and the weighted average stated interest rate for the three months ended March 31, 2006 and 2005, were \$540.3 million and 5.9%, respectively, and \$263.3 million and 4.1%, respectively. As of March 31, 2006, the amount available under the revolving line of credit was \$641.8 million, net of amounts committed for standby letters of credit of \$37.7 million issued under the credit facility.

Covenant Compliance

The Company has various financial and operating covenants required by the notes payable and debentures and the revolving line of credit. These covenants require the Company to maintain certain financial ratios, including debt to equity and interest coverage, and a minimum net worth. These credit facilities provide for customary events of default, including, but not limited to, payment defaults, breach of representations or covenants, cross-defaults, bankruptcy events, failure to pay judgments, attachment of our assets, change of control and the issuance of an order of dissolution. Certain of these events of default are subject to notice and cure periods or materiality thresholds. The Company's credit facilities limit its ability to declare dividends if the Company defaults under certain

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 4. Debt, continued

provisions. As of March 31, 2006, and December 31, 2005, the Company was in compliance with these covenants.

Note 5. Guarantees and Commitments

In the ordinary course of business, the Company has issued guarantees and has extended standby letters of credit through financial intermediaries on behalf of certain portfolio companies. All standby letters of credit have been issued through Bank of America, N.A. As of March 31, 2006, and December 31, 2005, the Company had issued guarantees of debt, rental obligations, and lease obligations aggregating \$154.0 million and \$148.6 million, respectively, and had extended standby letters of credit aggregating \$37.7 million and \$37.1 million, respectively. Under these arrangements, the Company would be required to make payments to third-party beneficiaries if the portfolio companies were to default on their related payment obligations. The maximum amount of potential future payments was \$191.7 million and \$185.7 million at March 31, 2006, and December 31, 2005, respectively. At both March 31, 2006, and December 31, 2005, \$2.5 million had been recorded as a liability for the Company's guarantees and no amounts had been recorded as a liability for the Company's standby letters of credit.

As of March 31, 2006, the guarantees and standby letters of credit expire as follows:

(in millions)	Total	2006	2007	2008	2009	2010	After 2010
Guarantees	\$ 154.0	\$ 1.3	\$ 0.6	\$ 3.0	\$ 143.6	\$	\$ 5.5
Standby letters of credit ⁽¹⁾	37.7	0.1		37.6			
Total	\$ 191.7	\$ 1.4	\$ 0.6	\$ 40.6	\$ 143.6	\$	\$ 5.5

⁽¹⁾ Standby letters of credit are issued under the Company's revolving line of credit that expires in September 2008.

Therefore, unless a standby letter of credit is set to expire at an earlier date, it is assumed that the standby letters of credit will expire contemporaneously with the expiration of the Company's line of credit in September 2008.

In the ordinary course of business, the Company enters into agreements with service providers and other parties that may contain provisions for the Company to indemnify such parties under certain circumstances.

At March 31, 2006, the Company had outstanding commitments to fund investments totaling \$329.9 million, including \$316.3 million related to private finance investments and \$13.6 million related to commercial real estate finance investments. In addition, during the fourth quarter of 2004 and the first quarter of 2005, the Company sold certain commercial mortgage loans that the Company may be required to repurchase under certain circumstances. These recourse provisions expire by April 2007. The aggregate outstanding principal balance of these sold loans was \$11.3 million at March 31, 2006.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 6. Shareholders' Equity

Sales of common stock for the three months ended March 31, 2006 and 2005, were as follows:

(in thousands)	2006	2005⁽¹⁾
Number of common shares	3,000	
Gross proceeds	\$ 87,750	\$
Less costs, including underwriting fees	4,780	
Net proceeds	\$ 82,970	\$

⁽¹⁾ The Company did not sell any common stock during the three months ended March 31, 2005.

The Company issued 0.3 million shares of common stock with a value of \$7.2 million as consideration for an additional investment in Mercury Air Center, Inc. during the three months ended March 31, 2005.

The Company issued 0.2 million shares of common stock upon the exercise of stock options during each of the three months ended March 31, 2006 and 2005.

The Company has a dividend reinvestment plan, whereby the Company may buy shares of its common stock in the open market or issue new shares in order to satisfy dividend reinvestment requests. If the Company issues new shares, the issue price is equal to the average of the closing sale prices reported for the Company's common stock for the five consecutive trading days immediately prior to the dividend payment date. For the three months ended March 31, 2006 and 2005, the Company issued new shares in order to satisfy dividend reinvestment requests.

Dividend reinvestment plan activity for the three months ended March 31, 2006 and 2005, was as follows:

(in thousands, except per share amounts)	For the Three Months Ended March 31,	
	2006	2005
Shares issued	120	55
Average price per share	\$ 30.29	\$ 25.65

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 7. Earnings Per Common Share

Earnings per common share for the three months ended March 31, 2006 and 2005, were as follows:

	For the Three Months Ended March 31,	
	2006	2005
(in thousands, except per share amounts)		
Net increase in net assets resulting from operations available to common shareholders	\$ 99,587	\$ 119,621
Weighted average common shares outstanding basic	138,759	133,283
Dilutive options outstanding to officers	2,979	2,296
Weighted average common shares outstanding diluted	141,738	135,579
Basic earnings per common share	\$ 0.72	\$ 0.90
Diluted earnings per common share	\$ 0.70	\$ 0.88

Note 8. Employee Compensation Plans

The Company has a deferred compensation plan. Amounts deferred by participants under the deferred compensation plan are funded to a trust, which is administered by trustees. The accounts of the deferred compensation trust are consolidated with the Company's accounts. The assets of the trust are classified as other assets and the liability to the plan participants is included in other liabilities in the accompanying financial statements. The deferred compensation plan accounts at March 31, 2006, and December 31, 2005, totaled \$17.4 million and \$16.6 million, respectively.

The Company has an Individual Performance Award (IPA) plan, which was established as a long-term incentive compensation program for certain officers. In conjunction with the program, the Board of Directors has approved a non-qualified deferred compensation plan (DCP II), which is administered through a trust by a third-party trustee. The administrator of the DCP II is the Compensation Committee of the Company's Board of Directors (DCP II Administrator).

The IPA is generally determined annually at the beginning of each year but may be adjusted throughout the year. The IPA is deposited in the trust in four equal installments, generally on a quarterly basis, in the form of cash. The Compensation Committee of the Board of Directors designed the DCP II to require the trustee to use the cash to purchase shares of the Company's common stock in the open market. During both the three months ended March 31, 2006 and 2005, 0.1 million shares were purchased in the DCP II.

All amounts deposited and then credited to a participant's account in the trust, based on the amount of the IPA received by such participant, are credited solely for purposes of accounting and computation and remain assets of the Company and subject to the claims of the Company's general creditors. Amounts credited to participants under the DCP II are immediately vested and generally non-forfeitable once deposited by the Company into the trust. A participant's account shall generally become distributable only after his or her termination of employment, or in the event of a change of control of the Company. Upon the participant's termination of employment, one-third of the

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 8. Employee Compensation Plans, continued

participant's account will be immediately distributed in accordance with the plan, one-half of the then current remaining balance will be distributed on the first anniversary of his or her employment termination date and the remainder of the account balance will be distributed on the second anniversary of the employment termination date. Distributions are subject to the participant's adherence to certain non-solicitation requirements. All DCP II accounts will be distributed in a single lump sum in the event of a change of control of the Company. To the extent that a participant has an employment agreement, such participant's DCP II account will be fully distributed in the event that such participant's employment is terminated for good reason as defined under that participant's employment agreement. Sixty days following a distributable event, the Company and each participant may, at the discretion of the Company and subject to the Company's trading window during that time, redirect the participant's account to other investment options.

During any period of time in which a participant has an account in the DCP II, any dividends declared and paid on shares of the Company's common stock allocated to the participant's account shall be reinvested by the trustee as soon as practicable in shares of the Company's common stock purchased in the open market.

The IPA amounts are contributed into the DCP II trust and invested in the Company's common stock. The accounts of the DCP II are consolidated with the Company's accounts. The common stock is classified as common stock held in deferred compensation trust in the accompanying financial statements and the deferred compensation obligation, which represents the amount owed to the employees, is included in other liabilities. Changes in the value of the Company's common stock held in the deferred compensation trust are not recognized. However, the liability is marked to market with a corresponding charge or credit to employee compensation expense. At March 31, 2006, and December 31, 2005, common stock held in DCP II was \$21.5 million and \$19.5 million, respectively, and the IPA liability was \$25.4 million and \$22.3 million, respectively.

The IPA expenses for the three months ended March 31, 2006 and 2005, were as follows:

(\$ in millions)	2006	2005
IPA contributions	\$ 1.7	\$ 1.9
IPA mark to market expense	1.0	0.1
Total IPA expense	\$ 2.7	\$ 2.0

The Company also has an individual performance bonus (IPB) plan which is distributed in cash to award recipients in equal bi-weekly installments as long as the recipient remains employed by the Company. If a recipient terminated employment during the year, any remaining cash payments under the IPB would be forfeited. For the three months ended March 31, 2006 and 2005, the IPB expense was \$1.4 million and \$1.5 million, respectively. The IPA and IPB expenses are included in employee expenses.

Note 9. Stock Option Plan

The purpose of the stock option plan (Option Plan) is to provide officers and non-officer directors of the Company with additional incentives. Options are exercisable at a price equal to the fair market value of the shares on the day the option is granted. Each option states the period or

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 9. Stock Option Plan, continued

periods of time within which the option may be exercised by the optionee, which may not exceed ten years from the date the option is granted. The options granted generally vest ratably over a three-to five-year period. Options granted to non-officer directors vest on the grant date.

All rights to exercise options terminate 60 days after an optionee ceases to be (i) a non-officer director, (ii) both an officer and a director, if such optionee serves in both capacities, or (iii) an officer (if such officer is not also a director) of the Company for any cause other than death or total and permanent disability. In the event of a change of control of the Company, all outstanding options will become fully vested and exercisable as of the change of control.

There are 32.2 million shares authorized under the Option Plan. At March 31, 2006, and December 31, 2005, the number of shares available to be granted under the Option Plan was 2.8 million and 3.0 million, respectively.

Information with respect to options granted, exercised and forfeited under the Option Plan for the three months ended March 31, 2006, was as follows:

	Shares	Weighted Average Exercise Price Per Share	Weighted Average Contractual Remaining Term (Years)	Aggregate Intrinsic Value at March 31, 2006 ⁽¹⁾
(in thousands, except per share amounts)				
Options outstanding at January 1, 2006	22,259	\$24.52		
Granted	515	\$29.23		
Exercised	(167)	\$23.53		
Forfeited	(251)	\$27.70		
Outstanding at March 31, 2006	22,356	\$24.60	7.02	\$134,213
Exercisable at March 31, 2006	12,982	\$22.37	5.63	\$106,892
Exercisable and expected to be exercisable at March 31, 2006 ⁽²⁾	21,572	\$24.48	6.95	\$131,930

⁽¹⁾ Represents the difference between the market value of the options at March 31, 2006, and the cost for the option holders to exercise the options.

⁽²⁾ The amount of options expected to be exercisable at March 31, 2006, is calculated based on an estimate of expected forfeitures.

The fair value of the shares vested during the three months ended March 31, 2006 and 2005, was \$6 thousand and \$172 thousand, respectively. The total intrinsic value of options exercised during the three months ended March 31, 2006 and 2005, was \$1.1 million and \$1.0 million, respectively.

Note 10. Dividends and Distributions and Taxes

The Company's Board of Directors declared and the Company paid a dividend of \$0.59 per common share and \$0.57 per common share for the first quarters of 2006 and 2005, respectively. These dividends totaled \$82.5 million

and \$76.1 million for the three months ended March 31, 2006 and 2005, respectively. The Company declared an extra cash dividend of \$0.03 per share during 2005 and this was paid to shareholders on January 27, 2006.

The Company's Board of Directors also declared a dividend of \$0.60 per common share for the second quarter of 2006.

S-73

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 10. Dividends and Distributions and Taxes, continued

The Company will generally be required to pay a nondeductible excise tax equal to 4% of the amount by which 98% of the Company's annual taxable income exceeds the distributions for the year. The Company currently estimates that its 2006 annual taxable income will be in excess of its dividend distributions from such taxable income in 2006, and that such estimated excess taxable income will be carried over for distribution in 2007. Accordingly, the Company has accrued an excise tax of \$8.4 million on the estimated excess taxable income earned for the three months ended March 31, 2006. There was no excise tax accrual for the three months ended March 31, 2005.

Note 11. Supplemental Disclosure of Cash Flow Information

For the three months ended March 31, 2006 and 2005, the Company paid \$7.5 million and \$7.0 million, respectively, for interest.

Principal collections related to investment repayments or sales included the collection of discounts previously amortized into interest income and added to the cost basis of a loan or debt security totaling \$0 and \$1.1 million for the three months ended March 31, 2006 and 2005, respectively.

Non-cash operating activities for the three months ended March 31, 2006, included the following:

a note received as consideration from the sale of the Company's investment in Advantage of \$150.0 million; and

the exchange of existing preferred stock and common stock of Redox Brands, Inc. for common stock in CR Brands, Inc. with a cost basis of \$10.2 million.

Non-cash operating activities for the three months ended March 31, 2005, included the following:

the exchange of existing subordinated debt securities and accrued interest of BLX with a cost basis of \$44.8 million for additional Class B equity interests;

the exchange of debt securities and accrued interest of Coverall North America, Inc. with a cost basis of \$24.2 million for new debt securities and warrants with a total cost basis of \$26.8 million, and;

the contribution to capital of existing debt securities of GAC Investments, Inc. (GAC) with a cost basis of \$11.0 million, resulting in a decrease in the Company's debt cost basis and an increase in the Company's common stock cost basis in GAC. During the third quarter of 2005, GAC changed its name to Triview Investments, Inc.

For the three months ended March 31, 2006 and 2005, the Company's non-cash financing activities included \$3.6 million and \$1.4 million, respectively, related to the issuance of common stock in lieu of cash distributions. In addition, the non-cash financing activities for the three months ended March 31, 2005, also included the issuance of \$7.2 million of the Company's common stock as consideration for an additional investment in Mercury Air Centers, Inc.

Note 12. Hedging Activities

The Company has invested in commercial mortgage loans that were purchased at prices that were based in part on comparable Treasury rates. The Company has entered into transactions with one or more financial institutions to hedge against movement in Treasury rates on certain of these commercial mortgage loans. These transactions, referred to as short sales, involve the Company

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 12. Hedging Activities, continued

receiving the proceeds from the short sales of borrowed Treasury securities, with the obligation to replenish the borrowed Treasury securities at a later date based on the then current market price. Borrowed Treasury securities and the related obligations to replenish the borrowed Treasury securities at value, including accrued interest payable on the obligations, as of March 31, 2006, and December 31, 2005, consisted of the following:

(\$ in thousands)	2006	2005
Description of Issue		
5-year Treasury securities, due April 2010	\$ 17,534	\$ 17,666

As of March 31, 2006, and December 31, 2005, the total obligations to replenish borrowed Treasury securities had decreased since the related original sale dates due to changes in the yield on the borrowed Treasury securities, resulting in unrealized appreciation on the obligations of \$0.7 million and \$0.4 million, respectively.

The net proceeds related to the sales of the borrowed Treasury securities were \$17.9 million at both March 31, 2006, and December 31, 2005. Under the terms of the transactions, the Company had received cash payments of \$0.4 million and \$0.2 million at March 31, 2006, and December 31, 2005, respectively, for the difference between the net proceeds related to the sales of the borrowed Treasury securities and the obligations to replenish the securities.

The Company has deposited the proceeds related to the sales of the borrowed Treasury securities and the additional cash collateral with Wachovia Capital Markets, LLC under repurchase agreements. The repurchase agreements are collateralized by U.S. Treasury securities and are settled weekly. As of March 31, 2006, the repurchase agreements were due on April 5, 2006, and had a weighted average interest rate of 4.0%. The weighted average interest rate on the repurchase agreements as of December 31, 2005, was 3.3%.

Note 13. Financial Highlights

(1) The results for the three months ended March 31, 2006, are not necessarily indicative of the operating results to be expected for the full year.

(2) Based on diluted weighted average number of common shares outstanding for the period.

(3) Net realized gains and net change in unrealized appreciation or depreciation can fluctuate significantly from period to period. As a result, quarterly comparisons may not be meaningful.

(4) Total return assumes the reinvestment of all dividends paid for the periods presented.

Note 14. Litigation

On June 23, 2004, the Company was notified by the SEC that the SEC is conducting an informal investigation of the Company. On December 22, 2004, the Company received letters from the U.S. Attorney for the District of Columbia requesting the preservation and production of information regarding the Company and Business Loan Express, LLC in connection with a criminal investigation. Based on the information available to the Company at this time, the inquiries appear to primarily pertain to matters related to portfolio valuation and the Company's portfolio company, Business Loan Express, LLC. To date, the Company has produced materials in response to requests from both the SEC and the U.S. Attorney's office, and certain current and former employees have provided testimony and have been interviewed by the staff of the SEC and the U.S. Attorney's Office. The Company is voluntarily cooperating with these investigations.

In addition, the Company is party to certain lawsuits in the normal course of business.

While the outcome of these legal proceedings cannot at this time be predicted with certainty, the Company does not expect that the outcome of these proceedings will have a material effect upon the Company's financial condition or

results of operations.

S-76

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders

Allied Capital Corporation:

We have reviewed the accompanying consolidated balance sheet of Allied Capital Corporation and subsidiaries, including the consolidated statement of investments, as of March 31, 2006, and the related consolidated statements of operations, changes in net assets and cash flows and the financial highlights (included in Note 13) for the three-month periods ended March 31, 2006 and 2005. These consolidated financial statements and financial highlights are the responsibility of the Company's management.

We conducted our reviews in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated financial statements and financial highlights referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Allied Capital Corporation and subsidiaries as of December 31, 2005, and the related consolidated statements of operations, changes in net assets and cash flows (not presented herein), and the financial highlights (included in Note 14), for the year then ended; and in our report dated March 9, 2006, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2005, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Washington, D.C.

This schedule should be read in conjunction with the Company's consolidated financial statements, including the consolidated statement of investments and Note 3 to the consolidated financial statements. Note 3 includes additional information regarding activities in the private finance portfolio.

- (1) Common stock, preferred stock, warrants, options, and equity interests are generally non-income producing and restricted. The principal amount for loans and debt securities and the number of shares of common stock and preferred stock is shown in the consolidated statement of investments as of March 31, 2006.
- (2) Other includes interest, dividend, or other income which was applied to the principal of the investment and therefore reduced the total investment. These reductions are also included in the Gross Reductions for the investment, as applicable.
- (3) Gross additions include increases in the cost basis of investments resulting from new portfolio investments, paid-in-kind interest or dividends, the amortization of discounts and closing fees, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company into this category from a different category. Gross additions also include net increases in unrealized appreciation or net decreases in unrealized depreciation.
- (4) Gross reductions include decreases in the cost basis of investments resulting from principal collections related to investment repayments or sales, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company out of this category into a different category. Gross reductions also include net increases in unrealized depreciation or net decreases in unrealized appreciation.
- (5) Loan or debt security is on non-accrual status at March 31, 2006, and is therefore considered non-income producing. Loans or debt securities on non-accrual status at the end of the period may or may not have been on non-accrual status for the full period.
- (6) Represents the total amount of interest or dividends credited to income for the portion of the year an investment was included in the companies more than 25% owned or companies 5% to 25% owned categories, respectively.

(7) Included in the companies more than 25% owned category while the Company held a majority equity interest. On March 29, 2006, the Company sold its majority equity interest in Advantage. The Company's investment in Advantage after the sale transaction is included in the companies 5% to 25% owned category. See Note 3 to the consolidated financial statements for further information.

* All or a portion of the dividend income on this investment was or will be paid in the form of additional securities. Dividends paid-in-kind are also included in the Gross Additions for the investment, as applicable.

**NOTICE REGARDING INDEPENDENT PUBLIC ACCOUNTANTS
REVIEW REPORT**

With respect to the unaudited interim financial information as of March 31, 2006 and for the three-month periods ended March 31, 2006 and 2005, included herein, KPMG LLP has reported that they applied limited procedures in accordance with professional standards for a review of such information. However, their separate report included herein states that they did not audit and they do not express an opinion on that interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. The accountants are not subject to the liability provisions of Section 11 of the Securities Act of 1933 for their report on the unaudited interim financial information because that report is not a report or a part of the registration statement prepared or certified by the accountants within the meaning of Sections 7 and 11 of the Securities Act of 1933.

S-81

40,000,000 Shares

Common Stock

We may offer, from time to time, up to 40,000,000 shares of our common stock in one or more offerings.

The shares of common stock may be offered at prices and on terms to be described in one or more supplements to this prospectus. The offering price per share of our common stock less any underwriting commissions or discounts will not be less than the net asset value per share of our common stock at the time we make the offering.

We are an internally managed closed-end, non-diversified management investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940.

Our investment objective is to achieve current income and capital gains. We seek to achieve our investment objective by investing in primarily private middle market companies in a variety of industries. No assurances can be given that we will continue to achieve our objective.

Please read this prospectus and the accompanying prospectus supplement, if any, before investing, and keep it for future reference. The prospectus and the accompanying prospectus supplement contain important information about us that a prospective investor should know before investing in our common stock. We file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission. This information is available free of charge by contacting us at 1919 Pennsylvania Avenue, NW, Washington, DC, 20006 or by telephone at (202) 721-6100 or on our website at www.alliedcapital.com. The SEC also maintains a website at www.sec.gov that contains such information.

Our common stock is traded on the New York Stock Exchange under the symbol ALD. As of April 26, 2006, the last reported sale price on the New York Stock Exchange for the common stock was \$30.62.

You should review the information, including the risk of leverage, set forth under Risk Factors on page 10 of this prospectus before investing in our common stock.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

This prospectus may not be used to consummate sales of shares of common stock unless accompanied by a prospectus supplement.

April 27, 2006

We have not authorized any dealer, salesman or other person to give any information or to make any representation other than those contained in this prospectus or any prospectus supplement, if any, to this prospectus. You must not rely upon any information or representation not contained in this prospectus or any such supplements as if we had authorized it. This prospectus and any such supplements do not constitute an offer to sell or a solicitation of any offer to buy any security other than the registered securities to which they relate, nor do they constitute an offer to sell or a solicitation of an offer to buy any securities in any jurisdiction to any person to whom it is unlawful to make such an offer or solicitation in such jurisdiction. The information contained in this prospectus and any such supplements is accurate as of the dates on their covers.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we have filed with the Securities and Exchange Commission using the shelf registration process. Under the shelf registration process, we may offer, from time to time, up to 40,000,000 shares of our common stock on the terms to be determined at the time of the offering. Shares of our common stock may be offered at prices and on terms described in one or more supplements to this prospectus. This prospectus provides you with a general description of the shares of our common stock that we may offer. Each time we use this prospectus to offer shares of our common stock, we will provide a prospectus supplement that will contain specific information about the terms of that offering. A prospectus supplement may also add, update or change information contained in this prospectus. Please carefully read this prospectus and any such supplements together with the additional information described under "Where You Can Find Additional Information" in the "Prospectus Summary" and "Risk Factors" sections before you make an investment decision.

PROSPECTUS SUMMARY

The following summary contains basic information about this offering. It may not contain all the information that is important to an investor. For a more complete understanding of this offering, we encourage you to read this entire prospectus and the documents that are referred to in this prospectus, together with any accompanying supplements.

In this prospectus or any accompanying prospectus supplement, unless otherwise indicated, Allied Capital, we, us or our refer to Allied Capital Corporation and its subsidiaries.

BUSINESS (Page 58)

We are a business development company and we are in the private equity business. We provide long-term debt and equity capital to primarily private middle market companies in a variety of industries. We have participated in the private equity business since we were founded in 1958 and have financed thousands of companies nationwide. Our investment objective is to achieve current income and capital gains.

We believe the private equity capital markets are important to the growth of small and middle market companies because such companies often have difficulty accessing the public debt and equity capital markets. We use the term middle market to include companies with annual revenues typically between \$50 million and \$500 million. We believe that we are well positioned to be a source of capital for such companies.

We primarily invest in the American entrepreneurial economy. Our private finance portfolio includes investments in over 100 companies with aggregate annual revenue of over \$10 billion and employ more than 85,000 people.

We generally target companies in less cyclical industries in the middle market with, among other things, high return on invested capital, management teams with meaningful equity ownership, well-constructed balance sheets, and the ability to generate free cash flow. As a private equity investor, we spend significant time and effort identifying, structuring, performing due diligence, monitoring, developing, valuing and ultimately exiting our investments.

Our investment activity is primarily focused on making long-term investments in the debt and equity of primarily private middle market companies. Debt investments may include senior loans, unitranche debt (a single debt investment that is a blend of senior and subordinated debt), or subordinated debt (with or without equity features). Equity investments may include a minority equity stake in connection with a debt investment or a substantial equity stake in connection with a buyout transaction. In a buyout transaction, we generally invest in senior debt, subordinated debt and equity (preferred and/or voting or non-voting common) where our equity ownership represents a significant portion of the equity, but may or may not represent a controlling interest.

Our investments in the debt and equity of primarily private middle market companies are generally long-term in nature and are privately negotiated, and no readily available market exists for them. This makes our investments highly illiquid and, as result, we cannot readily trade them. When we make an investment, we enter into a long-term arrangement where our ultimate exit from that investment may be three to ten years in the future.

The capital we provide is used by portfolio companies to fund buyouts, acquisitions, growth, recapitalizations, note purchases, or other types of financings.

Our investments are typically structured to provide recurring cash flow in the form of interest income to us as the investor. In addition to earning interest income, we may structure our investments to generate income from management, consulting, diligence, structuring, or other fees. We may also enhance our total return from capital gains through equity features, such as nominal cost warrants, or by investing in equity investments.

We provide managerial assistance to our portfolio companies, including management and consulting services related to corporate finance, marketing, human resources, personnel and board member recruiting, business operations, corporate governance, risk management and other general business matters.

We have elected to be taxed as a regulated investment company under the Internal Revenue Code of 1986, as amended, which we refer to as the Code. Our status as a regulated investment company generally eliminates a corporate-level income tax on taxable income we timely distribute to our stockholders as dividends, if certain requirements are met. See *Tax Status*. We determine our regular quarterly dividends considering our estimate of annual taxable income available for distribution. Since 1963, our portfolio has generally provided sufficient ordinary taxable income and net capital gains to sustain or grow our dividends over time.

We are a Maryland corporation and a closed-end, non-diversified management investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940, which we refer to as the 1940 Act.

As a business development company, we are required to meet certain regulatory tests, the most significant relating to our investments and borrowings. A business development company is required to invest at least 70% of its assets in eligible portfolio companies. A business development company must also maintain a coverage ratio of assets to senior securities of at least 200%. See *Certain Government Regulations and Risk Factors*.

Our executive offices are located at 1919 Pennsylvania Avenue, NW, Washington, DC, 20006 and our telephone number is (202) 721-6100. In addition, we have regional offices in New York, Chicago and Los Angeles.

Our Internet website address is www.alliedcapital.com. Information contained on our website is not incorporated by reference into this prospectus and you should not consider information contained on our website to be part of this prospectus.

Our common stock is traded on the New York Stock Exchange under the symbol ALD.

DETERMINATION OF

NET ASSET VALUE (Page 82)

Our portfolio investments are generally recorded at fair value as determined in good faith by our Board of Directors in the absence of readily available public market values.

Pursuant to the requirements of the 1940 Act, we value substantially all of our portfolio investments at fair value as determined in good faith by the Board of Directors on a quarterly basis. Since there is typically no readily available market value for the investments in our portfolio, our Board of Directors determines in good faith the fair value

of these portfolio investments pursuant to our valuation policy and consistently applied valuation process.

There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments we make. Unlike banks, we are not permitted to provide a general reserve for anticipated loan losses. Instead we are required to specifically value each individual investment and record unrealized depreciation for an investment that we believe has become impaired including where collection of a loan or realization of an equity security is doubtful or when the enterprise value of the company does not currently support the cost of our debt or equity investment. Enterprise value means the entire value of the company to a potential buyer including the sum of the values of all debt and equity securities used to capitalize the enterprise at a point in time. Conversely, we will record unrealized appreciation if we believe that the underlying portfolio company has appreciated in value and/or our equity security has appreciated in value. Without a readily available market value and because of the inherent uncertainty of valuation, the fair value of our investments determined in good faith by the Board of Directors may differ significantly from the values that would have been used had a ready market existed for the investments, and the differences could be material.

We adjust the valuation of our portfolio quarterly to reflect the change in the value of each investment in our portfolio. Any changes in value are recorded in our statement of operations as net change in unrealized appreciation or depreciation.

PLAN OF DISTRIBUTION *(Page 127)*

We may offer, from time to time, up to 40,000,000 shares of our common stock, on terms to be determined at the time of the offering.

Shares of our common stock may be offered at prices and on terms described in one or more supplements to this prospectus. The offering price per share of our common stock less any underwriting commission or discount will not be less than the net asset value per share of our common stock at the time we make the offering.

Our shares of common stock may be offered directly to one or more purchasers, through agents designated from time to time by us, or to or through underwriters or dealers. The supplement to this prospectus relating to the offering will identify any agents or underwriters involved in the sale of our shares of common stock, and will set forth any applicable purchase price, fee and commission or discount arrangement or the basis upon which such amount may be calculated.

We may not sell shares of common stock pursuant to this prospectus without delivering a prospectus supplement describing the method and terms of the offering of such shares.

USE OF PROCEEDS *(Page 18)*

We intend to use the net proceeds from selling shares of common stock for general corporate purposes, which includes investing in debt or equity securities in primarily privately negotiated transactions, repayment of indebtedness, acquisitions and other general corporate purposes. The supplement to this prospectus relating to an offering will more fully identify the use of the proceeds from such offering.

PRICE RANGE OF COMMON STOCK AND DISTRIBUTIONS *(Page 19)*

We intend to pay quarterly dividends to holders of our common stock. The amount of our quarterly dividends is determined by our Board of Directors on a quarterly basis.

DIVIDEND REINVESTMENT PLAN *(Page 120)*

We maintain an opt in dividend reinvestment plan for our common shareholders. As a result, if our Board of Directors declares a dividend, then our shareholders that have not opted in to our dividend reinvestment plan will receive cash dividends. New shareholders must notify our transfer agent in writing if they wish to enroll in the dividend reinvestment plan.

RISK FACTORS *(Page 10)*

Investment in shares of our common stock involves a number of significant risks relating to our business and our investment objective that you should consider before purchasing shares of our common stock.

Our portfolio of investments is generally illiquid. Our portfolio includes securities primarily issued by private companies. These investments may involve a high degree of business and financial risk; they are illiquid, and may not produce current returns or capital gains. If we were forced to immediately liquidate some or all of the investments in the portfolio, the proceeds of such liquidation could be significantly less than the current value of such investments. We may be required to liquidate some or all of our portfolio investments to meet our debt service obligations or in the event we are required to fulfill our obligations under agreements pursuant to which we guarantee the repayment of indebtedness by third parties.

An economic slowdown may affect the ability of a portfolio company to engage in a liquidity event, which is a transaction that involves the sale or recapitalization of all or part of a portfolio company. These conditions could lead to financial losses in our portfolio and a decrease in our revenues, net income and assets. Numerous other factors may affect a borrower's ability to repay its loan, including the failure to meet its business plan, a downturn in its industry or negative economic conditions.

Our total investment in companies may be significant individually or in the aggregate. As a result, if a significant investment in one or more companies fails to perform as expected, our financial results could be more negatively affected and the magnitude of the loss could be more significant than if we had made smaller investments in more companies.

We may not borrow money unless we maintain asset coverage for indebtedness of at least 200%, which may affect returns to shareholders. We borrow funds to make investments. As a result, we are exposed to the risks of leverage, which may be considered a speculative investment technique. Borrowings, also known as leverage, magnify the potential for gain and loss on amounts invested and therefore increase the risks associated with investing in our securities.

A large number of entities and individuals compete for the same kind of investment opportunities as we do. Increased competition would make it more difficult for us to purchase or originate investments at attractive prices. As a result of this competition, sometimes we may be precluded from making otherwise attractive investments.

Our business of making private equity investments and positioning them for liquidity events also may be affected by current and future market conditions.

To maintain our status as a business development company, we must not acquire any assets other than qualifying assets unless, at the time of and after giving effect to such acquisition, at least 70% of our total assets are qualifying assets.

We may not be able to pay dividends and failure to qualify as a regulated investment company for tax purposes could have a material adverse effect on the income available for debt service or distributions to our shareholders, which may have a material adverse effect on our total return to common shareholders, if any.

Also, we are subject to certain risks associated with valuing our portfolio, changing interest rates, accessing additional capital, fluctuating financial results, and operating in a regulated environment.

Our common stock price may be volatile due to market factors that may be beyond our control.

CERTAIN ANTI-TAKEOVER

PROVISIONS *(Page 123)*

Our charter and bylaws, as well as certain statutory and regulatory requirements, contain certain provisions that may have the effect of discouraging a third party from making an acquisition proposal for Allied Capital. These anti-takeover provisions may inhibit a change in control in circumstances that could give the holders of our common stock the opportunity to realize a premium over the market price for our common stock.

FEES AND EXPENSES

This table describes the various costs and expenses that an investor in our shares of common stock will bear directly or indirectly.

Shareholder Transaction Expenses	
Sales load (as a percentage of offering price) ⁽¹⁾	%
Dividend reinvestment plan fees ⁽²⁾	None
Annual Expenses (as a percentage of consolidated net assets attributable to common stock)⁽³⁾	
Operating expenses ⁽⁴⁾	5.7%
Interest payments on borrowed funds ⁽⁵⁾	2.9%
Total annual expenses⁽⁶⁾⁽⁷⁾	8.6%

- (1) In the event that the shares of common stock to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will disclose the applicable sales load.
- (2) The expenses of our dividend reinvestment plan are included in Operating expenses. We do not have a stock purchase plan. The participants in the dividend reinvestment plan will bear a pro rata share of brokerage commissions incurred with respect to open market purchases or sales, if any. See Dividend Reinvestment Plan.
- (3) Consolidated net assets attributable to common stock equals net assets (*i.e.*, total consolidated assets less total consolidated liabilities), which at December 31, 2005, was \$2,620.5 million.
- (4) Operating expenses represent our operating expenses for the year ending December 31, 2005, excluding interest on indebtedness. See Management and Compensation of Executive Officers and Directors.
- (5) The Interest payments on borrowed funds represents our interest expense for the year ending December 31, 2005. We had outstanding borrowings of \$1,284.8 million at December 31, 2005. See Risk Factors.
- (6) Total annual expenses as a percentage of consolidated net assets attributable to common stock are higher than the total annual expenses percentage would be for a company that is not leveraged. We borrow money to leverage our net assets and increase our total assets. The SEC requires that Total annual expenses percentage be calculated as a percentage of *net* assets, rather than the total assets, including assets that have been funded with borrowed monies. If the Total annual expenses percentage were calculated instead as a percentage of consolidated total assets, our Total annual expenses would be 5.6% of consolidated total assets.
- (7) The holders of shares of our common stock (and not the holders of our debt securities or preferred stock, if any) indirectly bear the cost associated with our annual expenses.

Example

The following example, required by the SEC, demonstrates the projected dollar amount of total cumulative expenses that would be incurred over various periods with respect to a hypothetical investment in us. In calculating the following expense amounts, we assumed we would have no additional leverage and that our operating expenses would remain at the levels set forth in the table above. In the event that shares to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will restate this example to reflect the applicable sales load.

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
You would pay the following expenses on a \$1,000 investment, assuming a 5.0% annual return	\$133	\$297	\$460	\$858

Edgar Filing: ALLIED CAPITAL CORP - Form 497

Although the example assumes (as required by the SEC) a 5.0% annual return, our performance will vary and may result in a return of greater or less than 5.0%. In addition, while the example assumes reinvestment of all dividends and distributions at net asset value, participants in the dividend reinvestment plan may receive shares of common stock that we issue at or above net asset value or are purchased by the administrator of the dividend reinvestment plan, at the market price in effect at the time, which may be higher than, at, or below net asset value.

The example should not be considered a representation of future expenses, and the actual expenses

may be greater or less than those shown.

SELECTED CONDENSED CONSOLIDATED FINANCIAL DATA

You should read the condensed consolidated financial information below with the Consolidated Financial Statements and Notes thereto included herein. Financial information at and for the years ended December 31, 2005, 2004, 2003, and 2002, has been derived from our financial statements that were audited by KPMG LLP. Financial information at and for the year ended December 31, 2001, has been derived from our financial statements that were audited by Arthur Andersen LLP. For important information about Arthur Andersen LLP, see the section entitled Notice Regarding Arthur Andersen LLP. See **Management's Discussion and Analysis of Financial Condition and Results of Operations** below for more information.

(1) Dividends are based on taxable income, which differs from income for financial reporting purposes.

(2) See Senior Securities for more information regarding our level of indebtedness.

(3) We determine net asset value per common share as of the last day of the period presented. The net asset values shown are based on outstanding shares at the end of each period presented.

(4) As a business development company, we are generally required to maintain a minimum ratio of 200% of total assets to total borrowings.

(5) Dividends declared per common share for the fourth quarter of 2004 included the regular quarterly dividend of \$0.57 per common share and an extra dividend of \$0.02 per common share. Dividends declared per common share for the fourth quarter of 2005 included the regular quarterly dividend of \$0.58 per common share and an extra dividend of \$0.03 per common share.

WHERE YOU CAN FIND

ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form N-2 together with all amendments and related exhibits under the Securities Act of 1933. The registration statement contains additional information about us and the securities being offered by this prospectus.

We file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission under the Securities Exchange Act of 1934. You can inspect any materials we file with the Securities and Exchange Commission, without charge, at the Securities and Exchange Commission's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. Please call the Securities and Exchange Commission at 1-800-SEC-0330 for further information on the Public Reference Room. The Securities and Exchange Commission maintains a web site that contains reports, proxy statements and other information regarding registrants, including us, that file such information electronically with the Securities and Exchange Commission. The address of the Securities and Exchange Commission's web site is www.sec.gov. Information contained on the Securities and Exchange Commission's web site about us is not incorporated into this prospectus and you should not consider information contained on the Securities and Exchange Commission's web site to be part of this prospectus.

RISK FACTORS

Investing in Allied Capital involves a number of significant risks relating to our business and investment objective. As a result, there can be no assurance that we will achieve our investment objective.

Our portfolio of investments is illiquid. We generally acquire our investments directly from the issuer in privately negotiated transactions. The majority of the investments in our portfolio are subject to certain restrictions on resale or otherwise have no established trading market. We typically exit our investments when the portfolio company has a liquidity event such as a sale, recapitalization, or initial public offering of the company. The illiquidity of our investments may adversely affect our ability to dispose of debt and equity securities at times when we may need to or when it may be otherwise advantageous for us to liquidate such investments. In addition, if we were forced to immediately liquidate some or all of the investments in the portfolio, the proceeds of such liquidation could be significantly less than the current value of such investments.

Investing in private companies involves a high degree of risk. Our portfolio primarily consists of long-term loans to and investments in middle market private companies. Investments in private businesses involve a high degree of business and financial risk, which can result in substantial losses for us in those investments and accordingly should be considered speculative. There is generally no publicly available information about the companies in which we invest, and we rely significantly on the diligence of our employees and agents to obtain information in connection with our investment decisions. If we are unable to identify all material information about these companies, among other factors, we may fail to receive the expected return on our investment or lose some or all of the money invested in these companies. In addition, these businesses may have shorter operating histories, narrower product lines, smaller market shares and less experienced management than their competition and may be more vulnerable to customer preferences, market conditions, loss of key personnel, or economic downturns, which may adversely affect the return on, or the recovery of, our investment in such businesses. As an investor, we are subject to the risk that a portfolio company may make a business decision that does not serve our interest, which could decrease the value of our investment. Deterioration in a portfolio company's financial condition and prospects may be accompanied by deterioration in any collateral for the loan.

Substantially all of our portfolio investments are recorded at fair value as determined in good faith by our Board of Directors and, as a result, there is uncertainty regarding the value of our portfolio investments. At December 31, 2005, portfolio investments recorded at fair value were approximately 90% of our total assets. Pursuant to the requirements of the 1940 Act, we value substantially all of our investments at fair value as determined in good faith by our Board of Directors on a quarterly basis. Since there is typically no readily available market value for the investments in our portfolio, our Board of Directors determines in good faith the fair value of these investments pursuant to a valuation policy and a consistently applied valuation process.

There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments we make. Unlike banks, we are not permitted to provide a general reserve for anticipated loan losses; we are instead required by the 1940 Act to specifically value each individual investment on a quarterly basis and record

unrealized depreciation for an investment that we believe has become impaired, including where collection of a loan or realization of an equity security is doubtful, or when the enterprise value of the portfolio company does not currently support the cost of our debt or equity investment. Enterprise value means the entire value of the company to a potential buyer, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time. We will record unrealized appreciation if we believe that the underlying portfolio company has appreciated in value and/or our equity security has appreciated in value. Without a readily available market value and because of the inherent uncertainty of valuation, the fair value of our investments determined in good faith by the Board of Directors may differ significantly from the values that would have been used had a ready market existed for the investments, and the differences could be material. Our net asset value could be affected if our determination of the fair value of our investments is materially different than the value that we ultimately realize.

We adjust quarterly the valuation of our portfolio to reflect the Board of Directors' determination of the fair value of each investment in our portfolio. Any changes in fair value are recorded in our statement of operations as net change in unrealized appreciation or depreciation.

Economic recessions or downturns could impair our portfolio companies and harm our operating results. Many of the companies in which we have made or will make investments may be susceptible to economic slowdowns or recessions. An economic slowdown may affect the ability of a company to repay our loans or engage in a liquidity event such as a sale, recapitalization, or initial public offering. Our nonperforming assets are likely to increase and the value of our portfolio is likely to decrease during these periods. Adverse economic conditions also may decrease the value of collateral securing some of our loans. These conditions could lead to financial losses in our portfolio and a decrease in our revenues, net income, and assets.

Our business of making private equity investments and positioning them for liquidity events also may be affected by current and future market conditions. The absence of an active senior lending environment or a slowdown in middle market merger and acquisition activity may slow the amount of private equity investment activity generally. As a result, the pace of our investment activity may slow. In addition, significant changes in the capital markets could have an effect on the valuations of private companies and on the potential for liquidity events involving such companies. This could affect the timing of exit events in our portfolio and could negatively affect the amount of gains or losses upon exit.

Our borrowers may default on their payments, which may have a negative effect on our financial performance. We primarily make long-term unsecured, subordinated loans and invest in equity securities, which may involve a higher degree of repayment risk. We primarily invest in companies that may have limited financial resources, may be highly leveraged and may be unable to obtain financing from traditional sources. Numerous factors may affect a borrower's ability to repay its loan, including the failure to meet its business plan, a downturn in its industry, or negative economic conditions. A portfolio company's failure to satisfy financial or operating covenants imposed by us or other lenders could lead to defaults and, potentially, termination of its loans or foreclosure on its secured assets, which could trigger cross defaults under other agreements and jeopardize our portfolio company's ability to meet its obligations under the loans or debt securities that we hold. In addition, our portfolio companies may have, or may be permitted to incur, other debt that ranks senior to or equally with our securities. This means that payments on such senior-ranking securities may have to be made before we receive any payments on

our loans or debt securities. Deterioration in a borrower's financial condition and prospects may be accompanied by deterioration in any related collateral and may have a negative effect on our financial results.

Our private finance investments may not produce current returns or capital gains. Our private finance investments are typically structured as unsecured debt securities with a relatively high fixed rate of interest and with equity features such as conversion rights, warrants, or options, or as buyouts of companies where we invest in debt and equity securities. As a result, our private finance investments are generally structured to generate interest income from the time they are made and may also produce a realized gain from an accompanying equity feature. We cannot be sure that our portfolio will generate a current return or capital gains.

Our financial results could be negatively affected if a significant portfolio investment fails to perform as expected. Our total investment in companies may be significant individually or in the aggregate. As a result, if a significant investment in one or more companies fails to perform as expected, our financial results could be more negatively affected and the magnitude of the loss could be more significant than if we had made smaller investments in more companies. At December 31, 2005, our largest investments at value were in Advantage Sales & Marketing, Inc. and Business Loan Express, LLC (BLX) and represented 16.4% and 8.9% of our total assets, respectively, and each individually represented 10.0% of our total interest and related portfolio income for the year ended December 31, 2005. BLX is a lender under the Small Business Administration 7(a) Guaranteed Loan Program. Our financial results could be negatively affected if government funding for, or regulations related to, this program change.

We borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing in us. Borrowings, also known as leverage, magnify the potential for gain or loss on amounts invested and, therefore, increase the risks associated with investing in our securities. We borrow from and issue senior debt securities to banks, insurance companies, and other lenders or investors. Holders of these senior securities have fixed dollar claims on our consolidated assets that are superior to the claims of our common shareholders. If the value of our consolidated assets increases, then leveraging would cause the net asset value attributable to our common stock to increase more sharply than it would have had we not leveraged. Conversely, if the value of our consolidated assets decreases, leveraging would cause net asset value to decline more sharply than it otherwise would have had we not leveraged. Similarly, any increase in our consolidated income in excess of consolidated interest payable on the borrowed funds would cause our net income to increase more than it would without the leverage, while any decrease in our consolidated income would cause net income to decline more sharply than it would have had we not borrowed. Such a decline could negatively affect our ability to make common stock dividend payments. Leverage is generally considered a speculative investment technique. We and, indirectly, our stockholders will bear the cost associated with our leverage activity. Our revolving line of credit, notes payable and debentures contain financial and operating covenants that could restrict our business activities, including our ability to declare dividends if we default under certain provisions.

At December 31, 2005, we had \$1.3 billion of outstanding indebtedness bearing a weighted average annual interest cost of 6.5%. If our portfolio of investments fails to produce adequate returns, we may be unable to make interest or principal payments on our indebtedness when they are due. In order for us to cover annual interest payments on

indebtedness, we must achieve annual returns on our assets of at least 2.1% as of December 31, 2005.

Illustration. The following table illustrates the effect of leverage on returns from an investment in our common stock assuming various annual returns, net of expenses. The calculations in the table below are hypothetical and actual returns may be higher or lower than those appearing below. The calculation assumes (i) \$4,025.9 million in total assets, (ii) an average cost of funds of 6.5%, (iii) \$1,284.8 million in debt outstanding and (iv) \$2,620.5 million of shareholders' equity.

		Assumed Return on Our Portfolio						
		(net of expenses)						
		-20%	-10%	-5%	0%	5%	10%	20%
Corresponding return to shareholder		-33.66%	-18.29%	-10.61%	-2.93%	4.75%	12.43%	27.79%

We may not borrow money unless we maintain asset coverage for indebtedness of at least 200%, which may affect returns to shareholders. We must maintain asset coverage for total borrowings of at least 200%. Our ability to achieve our investment objective may depend in part on our continued ability to maintain a leveraged capital structure by borrowing from banks, insurance companies or other lenders or investors on favorable terms. There can be no assurance that we will be able to maintain such leverage. If asset coverage declines to less than 200%, we may be required to sell a portion of our investments when it is disadvantageous to do so. As of December 31, 2005, our asset coverage for senior indebtedness was 309%.

Changes in interest rates may affect our cost of capital and net investment income. Because we borrow money to make investments, our net investment income is dependent upon the difference between the rate at which we borrow funds and the rate at which we invest these funds. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income. In periods of rising interest rates, our cost of funds would increase, which would reduce our net investment income. We use a combination of long-term and short-term borrowings and equity capital to finance our investing activities. We utilize our revolving line of credit as a means to bridge to long-term financing. Our long-term fixed-rate investments are financed primarily with long-term fixed-rate debt and equity. We may use interest rate risk management techniques in an effort to limit our exposure to interest rate fluctuations. Such techniques may include various interest rate hedging activities to the extent permitted by the 1940 Act. We have analyzed the potential impact of changes in interest rates on interest income net of interest expense.

Assuming that the balance sheet as of December 31, 2005, were to remain constant and no actions were taken to alter the existing interest rate sensitivity, a hypothetical immediate 1% change in interest rates would have affected net income by less than 1% over a one year horizon. Although management believes that this measure is indicative of our sensitivity to interest rate changes, it does not adjust for potential changes in credit quality, size and composition of the assets on the balance sheet and other business developments that could affect net increase in net assets resulting from operations, or net income. Accordingly, no assurances can be given that actual results would not differ materially from the potential outcome simulated by this estimate.

We will continue to need additional capital to grow because we must distribute our income. We will continue to need capital to fund growth in our investments. Historically, we have borrowed from financial institutions and have issued equity securities to grow our portfolio. A reduction in the availability of new debt or equity capital could limit our ability to grow. We must distribute at least 90% of our taxable ordinary income, which excludes realized net long-term capital gains, to our shareholders to maintain our eligibility for the tax benefits available to regulated investment companies. As a result, such earnings will not be available to fund investment originations. In addition, as a business development company, we are generally required to maintain a ratio of at least 200% of total assets to total borrowings, which may restrict our ability to borrow in certain circumstances. We expect to continue to borrow from financial institutions or other investors and issue additional debt and equity securities. If we fail to obtain funds from such sources or from other sources to fund our investments, it could limit our ability to grow, which could have a material adverse effect on the value of our common stock.

Loss of regulated investment company tax treatment would substantially reduce net assets and income available for debt service and dividends. We have operated so as to qualify as a regulated investment company under Subchapter M of the Code. If we meet source of income, asset diversification, and distribution requirements, we will not be subject to corporate-level income taxation on income we timely distribute to our stockholders as dividends. We would cease to qualify for such tax treatment if we were unable to comply with these requirements. In addition, we may have difficulty meeting the requirement to make distributions to our shareholders because in certain cases we may recognize income before or without receiving cash representing such income. If we fail to qualify as a regulated investment company, we will have to pay corporate-level taxes on all of our income whether or not we distribute it, which would substantially reduce the amount of income available for debt service and distributions to our stockholders. Even if we qualify as a regulated investment company, we generally will be subject to a corporate-level income tax on the income we do not distribute. If we do not distribute at least 98% of our annual taxable income in the year earned, we generally will be required to pay an excise tax on amounts carried over and distributed to shareholders in the next year equal to 4% of the amount by which 98% of our annual taxable income exceeds the distributions for the current year.

There is a risk that our common stockholders may not receive dividends or distributions. We intend to make distributions on a quarterly basis to our stockholders. We may not be able to achieve operating results that will allow us to make distributions at a specific level or to increase the amount of these distributions from time to time. In addition, due to the asset coverage test applicable to us as a business development company, we may be limited in our ability to make distributions. Also, certain of our credit facilities limit our ability to declare dividends if we default under certain provisions. If we do not distribute a certain percentage of our income annually, we will suffer adverse tax consequences, including possible loss of the tax benefits available to us as a regulated investment company. In addition, in accordance with U.S. generally accepted accounting principles and tax regulations, we include in income certain amounts that we have not yet received in cash, such as contractual payment-in-kind interest, which represents contractual interest added to the loan balance that becomes due at the end of the loan term, or the accrual of original issue discount. The increases in loan balances as a result of contractual payment-in-kind arrangements are included in income in advance of receiving cash payment and are separately included in the change in accrued or reinvested interest and dividends in our consolidated statement of cash flows. Since we may recognize income

before or without receiving cash representing such income, we may have difficulty meeting the requirement to distribute at least 90% of our investment company taxable income to obtain tax benefits as a regulated investment company.

We operate in a competitive market for investment opportunities. We compete for investments with a large number of private equity funds and mezzanine funds, other business development companies, investment banks, other equity and non-equity based investment funds, and other sources of financing, including specialty finance companies and traditional financial services companies such as commercial banks. Some of our competitors may have greater resources than we do. Increased competition would make it more difficult for us to purchase or originate investments at attractive prices. As a result of this competition, sometimes we may be precluded from making otherwise attractive investments.

Our business depends on our key personnel. We depend on the continued services of our executive officers and other key management personnel. If we were to lose any of these officers or other management personnel, such a loss could result in inefficiencies in our operations and lost business opportunities, which could have a negative effect on our business.

Changes in the law or regulations that govern us could have a material impact on us or our operations. We are regulated by the SEC and the Small Business Administration. In addition, changes in the laws or regulations that govern business development companies, regulated investment companies, real estate investment trusts, and small business investment companies may significantly affect our business. Any change in the law or regulations that govern our business could have a material impact on us or our operations. Laws and regulations may be changed from time to time, and the interpretations of the relevant laws and regulations also are subject to change, which may have a material effect on our operations.

Our ability to invest in private companies may be limited in certain circumstances. If we are to maintain our status as a business development company, we must not acquire any assets other than qualifying assets unless, at the time of and after giving effect to such acquisition, at least 70% of our total assets are qualifying assets. If we acquire debt or equity securities from an issuer that has outstanding marginable securities at the time we make an investment, these acquired assets cannot be treated as qualifying assets. This result is dictated by the definition of eligible portfolio company under the 1940 Act, which in part looks to whether a company has outstanding marginable securities.

Amendments promulgated in 1998 by the Federal Reserve expanded the definition of a marginable security under the Federal Reserve's margin rules to include any non-equity security. Thus, any debt securities issued by any entity are marginable securities under the Federal Reserve's current margin rules. As a result, the staff of the SEC has raised the question as to whether a private company that has outstanding debt securities would qualify as an eligible portfolio company under the 1940 Act.

Until the question raised by the staff of the SEC pertaining to the Federal Reserve's 1998 change to its margin rules has been addressed by legislative, administrative or judicial action, we intend to treat as qualifying assets only those debt and equity securities that are issued by a private company that has no marginable securities outstanding at the time we purchase such securities or those that otherwise qualify as an eligible portfolio company under the 1940 Act.

In November 2004, the SEC issued proposed rules to correct the unintended consequence of the Federal Reserve's 1998 margin rule amendments of apparently limiting the investment opportunities of business development companies. In general, the SEC's proposed rules would define an eligible portfolio company as any company that does not have securities listed on a national securities exchange or association. We currently do not believe that these proposed rules will have a material adverse effect on our operations.

Results may fluctuate and may not be indicative of future performance. Our operating results may fluctuate and, therefore, you should not rely on current or historical period results to be indicative of our performance in future reporting periods. Factors that could cause operating results to fluctuate include, but are not limited to, variations in the investment origination volume and fee income earned, variation in timing of prepayments, variations in and the timing of the recognition of net realized gains or losses and changes in unrealized appreciation or depreciation, the level of our expenses, the degree to which we encounter competition in our markets, and general economic conditions.

Our common stock price may be volatile. The trading price of our common stock may fluctuate substantially. The price of the common stock may be higher or lower than the price paid by stockholders, depending on many factors, some of which are beyond our control and may not be directly related to our operating performance. These factors include, but are not limited to, the following:

price and volume fluctuations in the overall stock market from time to time;

significant volatility in the market price and trading volume of securities of business development companies or other financial services companies;

volatility resulting from trading in derivative securities related to our common stock including puts, calls, long-term equity anticipation securities, or LEAPs, or short trading positions;

changes in laws or regulatory policies or tax guidelines with respect to business development companies or regulated investment companies;

actual or anticipated changes in our earnings or fluctuations in our operating results or changes in the expectations of securities analysts;

general economic conditions and trends;

loss of a major funding source; or

departures of key personnel.

Disclosure Regarding Forward-Looking Statements

Information contained or incorporated by reference in this prospectus, and any prospectus supplement accompanying this prospectus contains forward-looking statements. These statements include the plans and objectives of management for future operations and financial objectives and can be identified by the use of forward-looking terminology such as may, will, expect, intend, anticipate, estimate or con the negative thereof or other variations thereon or comparable terminology. These forward-looking statements are subject to the inherent uncertainties in predicting future results and conditions. Certain factors that could cause actual results and conditions to differ materially from those projected in these forward-looking statements are set forth above in the Risk Factors section. Other factors that could cause actual results to differ materially include:

changes in the economy and general economic conditions;

risks associated with possible disruption in our operations due to terrorism;

future changes in laws or regulations and conditions in our operating areas; and

other risks and uncertainties as may be detailed from time to time in our public announcements and SEC filings.

The matters described in Risk Factors and certain other factors noted throughout this prospectus, and any prospectus supplement accompanying this prospectus and in any exhibits to the registration statement of which this prospectus is a part, constitute cautionary statements identifying important factors with respect to any such forward-looking statements, including certain risks and uncertainties, that could cause actual results to differ materially from those in such forward-looking statements.

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be incorrect. Important assumptions include our ability to originate new investments, maintain certain margins and levels of profitability, access the capital markets for debt and equity capital, the ability to meet regulatory requirements and the ability to maintain certain debt to asset ratios. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this prospectus and any prospectus supplement accompanying this prospectus should not be regarded as a representation by us that our plans and objectives will be achieved. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this prospectus and the date on the cover of any such supplements.

USE OF PROCEEDS

We intend to use the net proceeds from selling shares of our common stock for general corporate purposes, which may include investing in debt or equity securities in primarily privately negotiated transactions, repayment of indebtedness, acquisitions and other general corporate purposes. Because our primary business is to provide long-term debt and equity capital to primarily middle-market companies, we are continuously identifying, reviewing and, to the extent consistent with our investment objective, funding new investments. As a result, we typically raise equity capital as we deem appropriate to fund such new investments. The supplement to this prospectus relating to an offering will more fully identify the use of the proceeds from such offering.

We anticipate that substantially all of the net proceeds of any offering of shares of our common stock will be used, as described above or in any prospectus supplement accompanying this prospectus, within six months, but in no event longer than two years. Pending investment, we intend to invest the net proceeds of any offering of shares of our common stock in time deposits, income-producing securities with maturities of three months or less that are issued or guaranteed by the federal government or an agency of the federal government, high quality debt securities maturing in one year or less from the time of investment or other qualifying investments. Our ability to achieve our investment objective may be limited to the extent that the net proceeds of any offering, pending full investment, are held in lower-yielding time deposits and other short-term instruments.

PRICE RANGE OF COMMON STOCK AND DISTRIBUTIONS

Our common stock is traded on the New York Stock Exchange under the symbol ALD. The following table lists the high and low closing sales prices for our common stock, the closing sales price as a percentage of net asset value (NAV) and quarterly dividends per share. On April 26, 2006, the last reported closing sale price of our common stock was \$30.62 per share.

	NAV ⁽¹⁾	Closing Sales Price		Premium of High Sales Price to NAV ⁽²⁾	Premium of Low Sales Price to NAV ⁽²⁾	Declared Dividends
		High	Low			
Year ending December 31, 2004						
First Quarter	\$ 14.60	\$ 30.85	\$ 27.15	211%	186%	\$ 0.57
Second Quarter	\$ 14.77	\$ 30.25	\$ 23.06	205%	156%	\$ 0.57
Third Quarter	\$ 14.90	\$ 25.80	\$ 22.22	173%	149%	\$ 0.57
Fourth Quarter	\$ 14.87	\$ 28.47	\$ 24.46	191%	164%	\$ 0.57
Extra Dividend						\$ 0.02
Year ended December 31, 2005						
First Quarter	\$ 15.22	\$ 27.84	\$ 24.89	183%	164%	\$ 0.57
Second Quarter	\$ 17.01	\$ 29.29	\$ 25.83	172%	152%	\$ 0.57
Third Quarter	\$ 17.37	\$ 29.17	\$ 26.92	168%	155%	\$ 0.58
Fourth Quarter	\$ 19.17	\$ 30.80	\$ 26.11	161%	136%	\$ 0.58
Extra Dividend						\$ 0.03
Year ended December 31, 2006						
First Quarter	*	\$ 30.68	\$ 28.51	*	*	\$ 0.59
Second Quarter (through April 26, 2006)	*	\$ 31.09	\$ 30.13	*	*	\$ 0.60

(1) Net asset value per share is determined as of the last day in the relevant quarter and therefore may not reflect the net asset value per share on the date of the high and low sales prices. The net asset values shown are based on outstanding shares at the end of each period.

(2) Calculated as the respective high or low closing sales price divided by NAV.

* Not determinable at the time of filing.

Our common stock continues to trade in excess of net asset value. There can be no assurance, however, that our shares will continue to trade at a premium to our net asset value.

We intend to pay quarterly dividends to shareholders of our common stock. The amount of our quarterly dividends is determined by our Board of Directors. Our Board of Directors has established a dividend policy to review the dividend rate quarterly, and may adjust the quarterly dividend rate throughout the year. See Management's Discussion and Analysis of Financial Condition and Results of Operations Debt and Equity Capital and Tax Status. There can be no assurance that we will achieve investment results or maintain a tax status that will permit any particular level of dividend payment. Certain of our credit facilities limit our ability to declare dividends if we default under certain provisions.

We maintain an opt in dividend reinvestment plan for our common shareholders. As a result, if our Board of Directors declares a dividend, then our shareholders will receive cash dividends, unless they specifically opt in to the dividend reinvestment plan to reinvest their dividends and receive additional shares of common stock. See Dividend Reinvestment Plan.

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information contained in this section should be read in conjunction with our Consolidated Financial Statements and the Notes thereto. In addition, this prospectus contains certain forward-looking statements. These statements include the plans and objectives of management for future operations and financial objectives and can be identified by the use of forward-looking terminology such as may, will, expect, intend, anticipate, estimate, or continue or the negative thereof or other variations thereon or comparable terminology. These forward-looking statements are subject to the inherent uncertainties in predicting future results and conditions. Certain factors that could cause actual results and conditions to differ materially from those projected in these forward-looking statements are set forth above in the Risk Factors section. Other factors that could cause actual results to differ materially include:

changes in the economy;

risks associated with possible disruption in our operations due to terrorism;

future changes in laws or regulations and conditions in our operating areas; and

other risks and uncertainties as may be detailed from time to time in our public announcements and SEC filings.

Financial or other information presented for private finance portfolio companies has been obtained from the portfolio companies, and this financial information presented may represent unaudited, projected or pro forma financial information, and therefore may not be indicative of actual results. In addition, the private equity industry uses financial measures such as EBITDA or EBITDAM (Earnings Before Interest, Taxes, Depreciation, Amortization and, in some instances, Management fees) in order to assess a portfolio company's financial performance and to value a portfolio company. EBITDA and EBITDAM are not intended to represent cash flow from operations as defined by U.S. generally accepted accounting principles and such information should not be considered as an alternative to net income, cash flow from operations or any other measure of performance prescribed by U.S. generally accepted accounting principles.

OVERVIEW

As a business development company, we are in the private equity business. Specifically, we provide long-term debt and equity investment capital to companies in a variety of industries. Our lending and investment activity has generally been focused on private finance and commercial real estate finance, which included primarily the investment in non-investment grade commercial mortgage-backed securities, which we refer to as CMBS, and collateralized debt obligation bonds and preferred shares, which we refer to as CDOs.

On May 3, 2005, we completed the sale of our portfolio of CMBS and real estate related CDO investments. Upon the completion of this transaction, our lending and investment activity has been focused primarily on private finance investments. Our private finance activity principally involves providing financing to middle market U.S. companies through privately negotiated long-term debt and equity investment capital. Our financing is generally used to fund growth, acquisitions, buyouts, recapitalizations, note purchases, bridge financings, and other types of financings. We generally invest in private companies though, from time to time, we may invest in companies that are public but lack access to additional public capital. Our investment objective is to achieve current income and capital gains.

Our portfolio composition at December 31, 2005, 2004, and 2003, was as follows:

	<u>2005</u>	<u>2004</u>	<u>2003</u>
Private finance	96%	76%	74%
Commercial real estate finance	4%	24%	26%

Our earnings depend primarily on the level of interest and dividend income, fee and other income, and net realized and unrealized gains or losses on our investment portfolio after deducting interest expense on borrowed capital, operating expenses and income taxes, including excise tax. Interest income results from the stated interest rate earned on a loan or debt security and the amortization of loan origination fees and discounts. The level of interest income is directly related to the balance of the interest-bearing investment portfolio outstanding during the year multiplied by the weighted average yield. Our ability to generate interest income is dependent on economic, regulatory, and competitive factors that influence new investment activity, interest rates on the types of loans we make, the level of repayments in the portfolio, the amount of loans and debt securities for which interest is not accruing and our ability to secure debt and equity capital for our investment activities.

Because we are a regulated investment company for tax purposes, we intend to distribute substantially all of our annual taxable income as dividends to our shareholders. See "Other Matters" below.

PORTFOLIO AND INVESTMENT ACTIVITY

The total portfolio at value, investment activity, and the yield on interest-bearing investments at and for the years ended December 31, 2005, 2004, and 2003, were as follows:

(\$ in millions)	At and for the Years Ended December 31,		
	2005	2004	2003
Portfolio at value	\$3,606.4	\$3,013.4	\$2,584.6
Investments funded	\$1,675.8	\$1,524.5	\$ 931.5
Change in accrued or reinvested interest and dividends	\$ 6.6	\$ 52.2	\$ 45.0
Principal collections related to investment repayments or sales	\$1,503.4	\$ 909.2	\$ 788.3
Yield on interest-bearing investments ⁽¹⁾	12.8%	14.0%	14.7%

- (1) The weighted average yield on interest-bearing investments is computed as the (a) annual stated interest plus the annual amortization of loan origination fees, original issue discount, and market discount on accruing interest-bearing investments less the annual amortization of loan origination costs, divided by (b) total interest-bearing investments at value. The weighted average yield is computed as of the balance sheet date.

Private Finance

The private finance portfolio at value, investment activity, and the yield on loans and debt securities at and for the years ended December 31, 2005, 2004, and 2003, were as follows:

(\$ in millions)	At and for the Years Ended December 31,		
	2005	2004	2003
Portfolio at value:			
Loans and debt securities	\$2,094.9	\$1,602.9	\$1,214.9
Equity securities	1,384.4	699.2	687.8
Total portfolio	\$3,479.3	\$2,302.1	\$1,902.7
Investments funded ⁽¹⁾	\$1,462.3	\$1,140.8	\$ 498.0
Change in accrued or reinvested interest and dividends	\$ 24.6	\$ 45.6	\$ 41.8
Principal collections related to investment repayments or sales	\$ 703.9	\$ 551.9	\$ 318.6
Yield on interest-bearing investments ⁽²⁾	13.0%	13.9%	15.0%

- (1) Investments funded for the year ended December 31, 2004, included a \$47.5 million subordinated debt investment in The Hillman Companies, Inc. received in conjunction with the sale of Hillman as discussed below.
- (2) The weighted average yield on loans and debt securities is computed as the (a) annual stated interest plus the annual amortization of loan origination fees, original issue discount, and market discount on accruing loans and debt securities less the annual amortization of loan origination costs, divided by (b) total loans and debt securities at value. The weighted average yield is computed as of the balance sheet date.

Our investment activity is focused on making long-term investments in the debt and equity of primarily private middle market companies. Debt investments may include senior loans, unitranche debt (a single debt investment that is a blend of senior and subordinated debt), or subordinated debt (with or without equity features). The junior debt that we invest in that is lower in repayment priority than senior debt is also known as mezzanine

debt. Equity investments may include a minority equity stake in connection with a debt investment or a substantial equity stake in connection with a buyout transaction. In a buyout transaction, we generally invest in senior and/or subordinated debt and equity (preferred and/or voting or non-voting common) where our equity ownership represents a significant portion of the equity, but may or may not represent a controlling interest. In addition, we may fund most or all of the debt and equity capital upon the closing of certain buyout transactions, which may include investments in lower-yielding senior debt. Subsequent to the closing, the portfolio company may refinance all or a portion of the lower-yielding senior debt, which would reduce our investment. Repayments include repayments of senior debt funded by us that was subsequently refinanced or repaid by the portfolio companies.

We intend to take a balanced approach to private equity investing that emphasizes a complementary mix of debt investments and buyout investments. The combination of these two types of investments provides current interest and related portfolio income and the potential for future capital gains. Recently, we have seen junior debt financing opportunities in the market that we believe are unattractive from a risk/return perspective. We believe many of these transactions employ too much leverage and are priced too low relative to the risks inherent in junior debt instruments. To address the currently active merger and acquisition market for private companies, our strategy is to focus on buyout and recapitalization transactions where we can manage risk through the structure and terms of our debt and equity investments and where we can potentially realize more attractive total returns from both current interest and fee income and future capital gains. We are also focusing our debt investing on smaller middle market companies where we can provide both senior and subordinated debt or unitranche debt, where our current yield may be lower than traditional subordinated debt. We believe that providing both senior and subordinated debt or unitranche debt provides greater protection in the capital structures of our portfolio companies.

Investments Funded. Investments funded and the weighted average yield on investments funded for the years ended December 31, 2005, 2004, and 2003, consisted of the following:

	2005 Investments Funded					
	Debt Investments		Buyout Investments		Total	
	Amount	Weighted Average Yield ⁽¹⁾	Amount	Weighted Average Yield ⁽¹⁾	Amount	Weighted Average Yield ⁽¹⁾
(\$ in millions)						
Loans and debt securities:						
Senior loans ⁽³⁾	\$ 76.8	10.0%	\$250.2	6.4%	\$ 327.0	7.2%
Unitranche debt ⁽²⁾	259.5	10.5%			259.5	10.5%
Subordinated debt	296.9	12.3%	330.9	12.5%	627.8	12.4%
Total loans and debt securities	633.2	11.3%	581.1	9.9%	1,214.3	10.6%
Equity	82.5		165.5		248.0	
Total	\$715.7		\$746.6		\$1,462.3	

(1) The weighted average yield on interest-bearing investments is computed as the (a) annual stated interest on accruing interest-bearing investments, divided by (b) total interest-bearing investments funded.

(2) Unitranche debt is a single debt investment that is a blend of senior and subordinated debt. The yield on a unitranche investment reflects the blended yield of senior and subordinated debt combined.

(3) Buyout senior loans funded include \$174.9 million which was repaid during the year.

2004 Investments Funded

(\$ in millions)	Debt Investments		Buyout Investments		Total	
	Amount	Weighted Average Yield ⁽¹⁾	Amount	Weighted Average Yield ⁽¹⁾	Amount	Weighted Average Yield ⁽¹⁾
Loans and debt securities:						
Senior loans	\$ 25.1	9.1%	\$ 140.8	7.2%	\$ 165.9	7.5%
Unitranche debt ⁽²⁾	18.9	13.0%			18.9	13.0%
Subordinated debt	396.4	13.4%	320.1	15.5%	716.5	14.4%
Total loans and debt securities	440.4	13.2%	460.9	13.0%	901.3	13.1%
Equity	72.3		167.2		239.5	
Total	\$ 512.7		\$ 628.1		\$ 1,140.8	

2003 Investments Funded

(\$ in millions)	Debt Investments		Buyout Investments		Total	
	Amount	Weighted Average Yield ⁽¹⁾	Amount	Weighted Average Yield ⁽¹⁾	Amount	Weighted Average Yield ⁽¹⁾
Loans and debt securities:						
Senior loans	\$ 44.6	9.4%	\$ 28.6	2.6%	\$ 73.2	6.7%
Unitranche debt ⁽²⁾	25.0	15.5%			25.0	15.5%
Subordinated debt	354.8	14.6%	1.2	25.0%	356.0	14.6%
Total loans and debt securities	424.4	14.1%	29.8	3.5%	454.2	13.4%
Equity	15.6		28.2		43.8	
Total	\$ 440.0		\$ 58.0		\$ 498.0	

(1) The weighted average yield on interest-bearing investments is computed as the (a) annual stated interest on accruing interest-bearing investments, divided by (b) total interest-bearing investments funded.

(2) Unitranche debt is a single debt investment that is a blend of senior and subordinated debt. The yield on a unitranche investment reflects the blended yield of senior and subordinated debt combined.

In January and February 2006, we funded private finance investments totaling \$525.4 million.

We generally fund new investments using cash. In addition, we may acquire securities in exchange for our common equity. Also, we may acquire new securities through the reinvestment of previously accrued interest and dividends in debt or equity securities, or the current reinvestment of interest and dividend income through the receipt of a debt or equity security (payment-in-kind income). From time to time we may opt to reinvest accrued interest receivable in a new debt or equity security in lieu of receiving such interest in cash.

The level of investment activity for investments funded and principal repayments for private finance investments can vary substantially from period to period depending on the number and size of investments that we make or that we exit and many other factors, including the

amount of debt and equity capital available to middle market companies, the level of merger and acquisition activity for such companies, the general economic environment, and the competitive environment for the types of investments we make. We believe that merger and acquisition activity in the middle market was strong in 2004 and continued into 2005, which has resulted in an increase in private finance investment opportunities, as well as increased repayments. We currently have an active pipeline of new investments under consideration. We believe that merger and acquisition activity for middle market companies will continue to be strong into 2006.

Portfolio Yield. The yield on the private finance loans and debt securities was 13.0% at December 31, 2005, as compared to 13.9% and 15.0% at December 31, 2004 and 2003, respectively. The weighted average yield on the private finance loans and debt securities may fluctuate from year to year depending on the yield on new loans and debt securities funded, the yield on loans and debt securities repaid, the amount of loans and debt securities for which interest is not accruing and the amount of lower-yielding senior or unitranche debt in the portfolio at the end of the year. The yield on the private finance portfolio has declined partly due to our strategy to pursue more buyout and recapitalization transactions, which may include investing in senior debt, as well as pursue unitranche investments.

Outstanding Investment Commitments. At December 31, 2005, we had outstanding private finance investment commitments totaling \$221.6 million, including the following:

\$33.3 million in the form of debt to Promo Works, LLC.

\$20.0 million in the form of debt to Business Loan Express, LLC.

\$14.0 million in the form of debt to S.B. Restaurant Company.

\$12.5 million in the form of equity to eight private venture capital funds.

\$12.0 million in the form of debt and equity to Amerex Group, LLC.

\$7.8 million in the form of debt to Mercury Air Centers, Inc.

\$7.5 million in the form of equity to Pennsylvania Avenue Investors, L.P., a limited partnership controlled by us that invests in private equity buyout funds.

\$6.5 million in co-investment commitments to Pine Creek Equity Partners, LLC.

We have various commitments to Callidus Capital Corporation (Callidus), which owns 80% of Callidus Capital Management, LLC, an asset management company that structures and manages collateralized debt obligations (CDOs), collateralized loan obligations (CLOs), and other related investments. Our commitment to Callidus consisted of the following at December 31, 2005:

(\$ in millions)	Committed Amount	Amount Drawn	Amount Available to be Drawn
Subordinated debt to support warehouse facilities & warehousing activities ⁽¹⁾	\$40.0	\$	\$40.0
Revolving line of credit for working capital	4.0	0.6	3.4
Total⁽²⁾	\$44.0	\$0.6	\$43.4

(1) Callidus has a secured warehouse credit facilities with a third party for up to \$400 million. The facility is used primarily to finance the acquisition of loans pending securitization through a CDO or CLO. In conjunction with this warehouse credit facility, we have agreed to designate our \$40 million subordinated debt commitment for Callidus to draw upon to provide first loss capital as needed to support the warehouse facility.

(2) Subsequent to December 31, 2005, we provided Callidus with a new \$50.0 million revolving credit facility to support its purchase of middle market senior loans pending the sale of such loans to its warehouse credit facilities.

In addition, we had a commitment to Callidus to purchase preferred equity in future CLO transactions of \$32.4 million at December 31, 2005.

In addition to these outstanding investment commitments at December 31, 2005, we may be required to fund additional amounts under earn-out arrangements primarily related to buyout transactions in the future if those companies meet agreed-upon performance targets. We also had commitments to private finance portfolio companies in the form of standby letters of credit and guarantees totaling \$178.6 million. See Financial Condition, Liquidity and Capital Resources.

Our largest investments at value at December 31, 2005, were in Advantage Sales & Marketing, Inc. and Business Loan Express, LLC (BLX). See Results of Operations for a discussion of the net change in unrealized appreciation or depreciation related to these investments.

Advantage Sales & Marketing, Inc. At December 31, 2005, our investment in Advantage Sales & Marketing, Inc. (Advantage) totaled \$257.7 million at cost and \$660.4 million at value, or 16.4% of our total assets, which included unrealized appreciation of \$402.7 million. We completed the purchase of a majority ownership in Advantage in June 2004.

Total interest and related portfolio income earned from our investment in Advantage for the years ended December 31, 2005 and 2004, was as follows:

(\$ in millions)	2005	2004
Interest income	\$30.9	\$15.5
Fees and other income	6.5	5.8
	\$37.4	\$21.3
Total	\$37.4	\$21.3

Interest income from Advantage for the year ended December 31, 2004, included interest income of \$2.2 million which was paid in kind. The interest paid in kind was paid to us through the issuance of additional debt in 2004, which was subsequently paid in cash in 2005.

Net change in unrealized appreciation or depreciation included a net increase in unrealized appreciation on our investment in Advantage of \$378.4 million and \$24.3 million for the years ended December 31, 2005 and 2004, respectively.

Advantage is a sales and marketing agency providing outsourced sales, merchandising, and marketing services to the consumer packaged goods industry. Advantage has offices across the United States and is headquartered in Irvine, CA.

On March 29, 2006, we sold our majority equity interest in Advantage. We retained an equity investment valued at \$15 million as a minority shareholder. Advantage sold for an enterprise value of \$1.05 billion, subject to post-closing adjustments and we realized a gain on our equity sold of approximately \$430 million, also subject to post-closing adjustments. In connection with the transaction, we were repaid our \$184 million in subordinated debt outstanding. As consideration for the common stock sold in the transaction, we received a \$150 million subordinated note, with the balance of the consideration paid in cash. Approximately \$34 million of our proceeds are subject to certain holdback provisions. In addition, there is potential for us to receive additional consideration through an earn-out payment that would be based on Advantage's 2006 audited results. Our realized gain of approximately \$430 million excludes any earn-out amounts.

Business Loan Express, LLC. At December 31, 2005, our investment in BLX totaled \$299.4 million at cost and \$357.1 million at value, or 8.9% of our total assets, which includes unrealized appreciation of \$57.7 million. We acquired BLX in 2000.

Total interest and related portfolio income earned from the Company's investment in BLX for the years ended December 31, 2005, 2004, and 2003, was as follows:

(\$ in millions)	2005	2004	2003
Interest income	\$ 14.3	\$ 23.2	\$ 21.9
Dividend income	14.0	14.8	7.8
Loan prepayment premiums			0.1
Fees and other income	9.2	12.0	16.9
	—	—	—
Total	\$ 37.5	\$ 50.0	\$ 46.7

Interest and dividend income from BLX for the years ended December 31, 2005, 2004, and 2003, included interest and dividend income of \$8.9 million, \$25.4 million, and \$17.5 million, respectively, which was paid in kind. The interest and dividends paid in kind were paid to us through the issuance of additional debt or equity interests. Accrued interest and dividends receivable at December 31, 2005, included accrued interest and fees due from BLX totaling \$5.7 million, of which \$5.5 million was paid in cash in the first quarter of 2006.

Net change in unrealized appreciation or depreciation included a net increase in unrealized appreciation on our investment in BLX of \$2.9 million for the year ended December 31, 2005, a net decrease in unrealized appreciation of \$32.3 million for the year ended December 31, 2004, and a net increase in unrealized appreciation of \$51.7 million for the year ended December 31, 2003.

BLX is a national, non-bank lender that participates in the SBA's 7(a) Guaranteed Loan Program and is licensed by the SBA as a Small Business Lending Company (SBLC). BLX is a nationwide preferred lender, as designated by the SBA, and originates, sells, and services small business loans. In addition, BLX originates conventional small business loans and small investment real estate loans. BLX has offices across the United States and is headquartered in New York, New York. Changes in the laws or regulations that govern SBLCs or the SBA 7(a) Guaranteed Loan Program or changes in government funding for this program could have a material adverse impact on BLX and, as a result, could negatively affect our financial results.

As a limited liability company, BLX's taxable income flows through directly to its members. BLX's annual taxable income generally differs from its book income for the fiscal year due to temporary and permanent differences in the recognition of income and expenses. We hold all of BLX's Class A and Class B interests, and 94.9% of the Class C interests. BLX's taxable income is first allocated to the Class A interests to the extent that dividends are paid in cash or in kind on such interests, with the remainder being allocated to the Class B and C interests. BLX declares dividends on its Class B interests based on an estimate of its annual taxable income allocable to such interests.

We have a commitment to BLX of \$30.0 million in the form of a subordinated revolving credit facility to provide working capital to the company that matures on April 30, 2006. There was \$10.0 million outstanding under this facility at December 31, 2005.

At December 31, 2005, BLX had a three-year \$275.0 million revolving credit facility provided by third party lenders that was scheduled to mature in January 2007. As the controlling equity owner in BLX, we had provided an unconditional guaranty to the revolving credit facility lenders in an amount equal to 50% of the total obligations (consisting of principal, letters of credit issued under the facility, accrued interest, and other fees) of BLX under the revolving credit facility. At December 31, 2005, the principal amount outstanding on the revolving credit facility was \$228.2 million and letters of credit issued under the facility were \$41.7 million. The total obligation guaranteed by us at December 31, 2005, was \$135.4 million. On March 17, 2006, BLX closed on a new three-year \$500.0 million revolving credit facility that matures in March 2009, which replaced the existing facility. The revolving credit facility may be expanded through new or additional commitments up to \$600.0 million at BLX's option. This new facility provides for a sub-facility for the issuance of letters of credit for up to an amount equal to 25% of the committed facility. We have provided an unconditional guaranty to these revolving credit facility lenders in an amount equal to 50% of the total obligations (consisting of principal, letters of credit issued under the facility, accrued interest, and other fees) of BLX under this facility. At March 17, 2006, the principal amount outstanding on the revolving credit facility was \$217.6 million and letters of credit issued under the facility were \$41.7 million. The total obligation guaranteed by us on March 17, 2006, was \$130.0 million. This guaranty can be called by the lenders only in the event of a default under the BLX credit facility. BLX was in compliance with the terms of this facility at March 17, 2006.

At December 31, 2005, we had also provided four standby letters of credit totaling \$34.1 million in connection with four term securitization transactions completed by BLX.

The Hillman Companies, Inc. On March 31, 2004, we sold our control investment in The Hillman Companies, Inc. (Hillman) for a total transaction value of \$510 million, including the repayment of outstanding debt and adding the value of Hillman's outstanding trust preferred shares. We were repaid our existing \$44.6 million in outstanding debt. Total consideration to us from this sale, including the repayment of debt, was \$245.6 million, which included net cash proceeds of \$198.1 million and the receipt of a new subordinated debt instrument of \$47.5 million. During the second quarter of 2004, we sold a \$5.0 million participation in our subordinated debt in Hillman to a third party, which reduced our investment, and no gain or loss resulted from the transaction. For the year ended December 31, 2004, we realized a gain of \$150.3 million on the transaction.

Commercial Real Estate Finance

The commercial real estate finance portfolio at value, investment activity, and the yield on interest-bearing investments at and for the years ended December 31, 2005, 2004, and 2003, were as follows:

	At and for the Years Ended December 31,					
	2005		2004		2003	
	Value	Yield ⁽¹⁾	Value	Yield ⁽¹⁾	Value	Yield ⁽¹⁾
(\$ in millions)						
Portfolio at value:						
CMBS bonds	\$		\$ 373.8	14.6%	\$ 394.0	14.1%
CDO bonds and preferred shares			212.6	16.8%	186.6	16.7%
Commercial mortgage loans	102.6	7.6%	95.0	6.8%	83.6	8.6%
Real estate owned	13.9		16.9		12.8	
Equity interests	10.6		13.0		4.9
