ITEM 2.06. MATERIAL IMPAIRMENTS.

On September 29, 2006, Perot Systems Corporation ("Perot Systems") and Blue Cross & Blue Shield of Rhode Island ("BCBSRI") entered into a mutually beneficial new contract accord. This contract modification to the 10 year outsourcing relationship signed in 2003 relates primarily to the implementation of a replacement for BCBSRI's existing LRSP system. The infrastructure, applications and business process outsourcing portions of the relationship remain substantially the same.

With the contractual changes:

BCBSRI assumes control and gains flexibility over the selection, customization and implementation of a system to replace its current LRSP claims processing software, while obtaining a license to Perot Systems' Payer PÉRADIGM Enterprise Software.

Perot Systems and BCBSRI have ended the prior fixed price arrangement under which Perot Systems was implementing a replacement claims processing system for BCBSRI's existing LRSP system. Under the fixed price implementation arrangement, Perot Systems had recorded deferred costs of approximately \$50 million, which were expected to be amortized over the remaining term of the contract. Because the contract modifications eliminate certain deliverables, Perot Systems will write-down approximately \$40 million of those deferred costs in the third quarter of 2006. In addition, Perot Systems will pay to BCBSRI \$12 million over four years, which is a portion of the \$19 million implementation fee collected in advance of the implementation, but never recognized as revenue. Revenue will not be materially impacted by the contract modification and the contract is expected to be profitable in the fourth quarter of 2006. In addition, Perot Systems will perform future implementation services as requested under a new time and materials contract arrangement.
