Item 1.01. Entry Into a Material Definitive Agreement.

On June 5, 2007, seven new investors became party to the Loan Agreement between Lime Energy Co. (Lime Energy or the Company) previously filed as Exhibit 10.1 to our Form 8-K on May 30, 2007, completing the second and final tranche of the \$5 million three-year convertible note offering. Mr. Richard Kiphart, the Company's Chairman and largest individual stockholder, invested an additional \$100,000 in the second tranche, adding to the \$3 million he invested in the first tranche and the \$1,9 million from the seven new investors. The convertible notes issued in the second tranche, which have the same terms as the notes issued in the first tranche, will mature on May 31, 2010, although they may be prepaid at anytime after May 31, 2008 at the Company's option without penalty and will accrue interest at the rate of 10% per year. Interest will be payable quarterly, 50% in cash and 50% in shares of the Company's common stock valued at the market price of the Company's common stock on the dividend due date. The term notes are convertible at any time at each investor's election at \$1.00 per share, and any time after May 31, 2008 will automatically convert to shares of common stock at \$1.00 per share if the closing price of the Company's common stock exceeds \$1.50 per share for 20 days in any consecutive 30-day period. The notes are secured by all of the Company's assets, but are subordinated to all of the Company's current or future senior lenders, including its current mortgage lender. The Loan Agreement provides for acceleration upon the occurrence of typical events of default, including nonpayment, nonperformance, bankruptcy and collateral impairment.

As part of the second tranche, the Company issued the eight investors four-year warrants to purchase 576,921 shares of its common stock at \$1.04 per share. The form of this warrant was previously filed as exhibit 4.1 to our Form 8-K on May 30, 2007. The shares issued as part of the quarterly interest payments and issuable upon conversion of the notes or exercise of the warrant will not be registered for resale, though the Company has given the investors the right to demand the Company file a registration statement to register a minimum of 1 million of these shares after they have been issued pursuant to an Investor Rights Agreement, which was previously filed as exhibit 10.2 to our Form 8-K on May 30, 2007.

Proceeds from the issuances will be used to fund extended customer receivables, for future potential acquisitions and for general corporate purposes.

The description of the transaction contemplated thereby is not intended to be complete and is qualified in its entirety by the complete text of the Loan Agreement, the Investor Rights Agreement and the Form of Warrant and are incorporated herein by reference.

The Company issued a press release announcing the transaction, a copy of which is attached as exhibit 99.1.
