**Item 1.01 Entry into a Material Definitive Agreement.**

Purchase and Sale Agreement

As of February 25, 2008, Holly Energy Partners, L.P. (the *Partnership*) and Holly Corporation ( *Holly*, and together with the Partnership, the *Parties* ), entered into a definitive purchase and sale agreement (the *Purchase Agreement*) for the Partnership to acquire certain pipeline and tankage assets from Holly for a purchase price of \$180 million (the *Acquisition*). The purchase price consists of approximately \$171,000,000 in cash and common units of the Partnership valued at approximately \$9,000,000. The pipeline and tankage assets primarily consist of certain crude oil trunk lines and gathering lines, product and crude oil pipelines and tankage that service Holly's Lovington and Artesia, New Mexico refining facilities and Woods Cross refining facilities, near Salt Lake City, Utah, as well as a leased jet fuel terminal. The crude oil trunk line assets consist of the Lovington Delivery System, which is an 80 mile system composed of five separate pipelines that service the Lovington refining facility and several associated crude oil storage tanks, and the Artesia Delivery System, which is a 56 mile system composed of eight separate pipelines that service the Artesia refining facility and several associated crude oil storage tanks. The crude gathering operations are located in West Texas and Southeast New Mexico and consist of 47 miles of crude gathering pipelines, over 675 miles of lease connection pipelines, and an additional 22 crude oil tanks. The products pipeline assets consist of a 36 mile pipeline currently dedicated to jet fuel transportation between the Artesia refining facility and a leased jet fuel terminal at Roswell, New Mexico, a 4 mile pipeline dedicated to transporting refined products from the Woods Cross refining facility to the Chevron Pipeline, and a 2 mile pipeline currently dedicated to transporting refined products from the Woods Cross refining facility to the Pioneer Pipeline. The assets also include a 4 mile pipeline dedicated to crude oil transportation from the Chevron Pipeline to the Woods Cross refining facility. The leased jet fuel terminal that is included in the pipeline and tankage assets is leased from the City of Roswell pursuant to a lease agreement expiring in September 2011 that may be renewed for an additional five year term.

Historically, the pipeline and tankage assets that the Partnership has agreed to acquire from Holly have been operated as part of its more extensive transportation, terminalling, crude oil and refined and intermediate products operations. As a result, Holly has not maintained separate financial statements for these assets.

The Partnership will finance the Acquisition by borrowing approximately \$171 million under its credit facility and the issuance of common units of the Partnership, valued at approximately \$9 million, to subsidiaries of Holly. Pursuant to the terms of the Purchase Agreement, at the closing of the Acquisition the Parties will enter into a 15-year pipelines and tankage agreement (the *Pipelines and Tankage Agreement*) containing minimum annual revenue commitments from Holly, and the Partnership will grant Holly a second mortgage on the transferred assets to secure the Partnership's performance under the Pipelines and Tankage Agreement. Holly controls the general partner of the Partnership and owns a 45% interest in the Partnership (before the issuance of the common units of the Partnership to Holly at the closing of the Acquisition), including the general partner interest.

The description of the Purchase Agreement and Pipelines and Tankage Agreement herein is qualified by reference to the copies of the Purchase Agreement and Pipelines and Tankage Agreement, including exhibits, filed as Exhibits 2.1 and 99.1, respectively, to this report, which are incorporated by reference into this report in their entirety.
