Dear Shareholder:

I am writing to you as the independent chairman of the board of trustees of your Colonial fund. I have been privileged to serve on the board of the Colonial funds for more than three years and on the board of many of the affiliated Columbia funds for more than seven years. On December 8, 2003 the board of trustees elected me the chairman. Over those seven years I have gained a deep sense of responsibility for the continued success of our funds. Needless to say, the entire board shares that commitment to you.

These have been troubling times in the fund industry, with newspapers reporting widely on trading and governance failings. Your board has been energetic over the past year in strengthening our organization and our capacity to effectively oversee the Colonial funds.

First, as already indicated, the trustees in December elected an independent trustee to chair our twelve person board. All of the trustees are completely independent of the advisor and its affiliates except for the president of the funds, Joseph Palombo. Each committee of the board is comprised only of independent trustees.

Second, last year we reconfigured the membership of the four person audit

## Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

committee to include only persons qualifying as "audit committee financial experts" under the demanding standards of the Sarbanes-Oxley legislation. Few audit committees are fortunate to possess such a breadth and depth of financial experience.

Third, we strengthened our oversight capacity by appointing Martha Fox as chief compliance officer of the Colonial funds, reporting directly to your fund's audit committee. We also assigned board members to four separate investment oversight committees, each better able to monitor performance of individual funds.

Fourth, with guidance from our board the investment advisor last year increased its vigilance to identify and discourage trading in open end mutual fund shares by speculators. Monitoring personnel have attempted to identify and reject frequent traders, but frankly that effort by itself cannot be 100% effective. Accordingly, in February 2003 we implemented 2% redemption penalties in the open end international funds most subject to market timing, and we are considering still broader application of redemption fees to curb further attempts to profit from the open end funds by short-term trading. We are also closely monitoring legislative and regulatory initiatives that would aid in preventing abuses of open end funds that currently cannot be detected directly by management or our transfer agent.

Finally, to further align the interests of the trustees with those of our shareholders, the board late last year voted to double the required investment by each trustee in the funds that we oversee. At the same time, new policies were instituted requiring all investment personnel and trustees to hold any mutual fund shares for a minimum of one year (unless extraordinary circumstances warrant an exception to be granted by a board committee).

Undoubtedly, more improvements will be made in the period ahead, but the board wants you to know that we take our responsibilities very seriously and we commit to you our continued efforts to serve your interests.

Sincerely,

/s/ Thomas C. Theobald

DEAR SHAREHOLDER:

It was another solid year for the US bond market. However, the positive gains reported from all major sectors masked an extremely volatile environment. Most of the gains were actually earned in the first half of the reporting period and they were sufficient to offset losses or declining performance in the second half.

From December through mid-June, interest rates generally declined and bond prices rose as the economy struggled to gain a solid footing and the nation prepared to go to war. In June, the yield on the 10-year Treasury note fell to a 45-year low of just over 3.1%. High-yield bonds were the primary beneficiaries of this trend as investors seemed willing to put their fears aside and look to better times ahead. However, after the major military battles of the war were declared over and the economy showed clear signs of picking up, interest rates

## Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

began to rise and bond prices came down in most sectors. The 10-year yield reached a high of 4.4% in August, then moved within a tight range around 4.0% to 4.2% for the remainder of the period. As the environment changed, high-yield and mortgage bonds held up better than other sectors while Treasury bonds lagged.

This reversal of fortune for bonds and a shift of investor enthusiasm back to stocks, which drove equity returns back into double digit territory, serve as a reminder that a diversified portfolio may offer the best opportunity for long-term investment success. Talk to your financial advisor if you're uncertain about the level of diversification of your portfolio. Your advisor can help you keep your investments on track.

As always, thank you for investing in Colonial Funds. We look forward to continuing to serve you in the years ahead.

Sincerely,

/s/ Joseph R. Palombo

Sector breakdowns are calculated as a percentage of net assets (including auction preferred shares). Quality breakdowns are calculated as a percentage of total investments, including short-term obligations. Ratings shown in the quality breakdown represent the highest rating assigned to a particular bond by one of the following nationally-recognized rating agencies: Standard & Poor's Corporation, Moody's Investors Service, Inc. or Fitch Investors Service, Inc.

Because the trust is actively managed, there can be no guarantee that the trust will continue to maintain this quality breakdown or invest in these sectors in the future.

For the 12-month period ended November 30, 2003, Colonial High Income Municipal Trust returned 8.75%, based on investment at net asset value. The trust slightly outperformed its peer group, the Lipper High Yield Municipal Debt Funds Category average, which averaged 8.61%.<sup>(1)</sup>

In the first half of the period, the trust's performance was helped by its underweight in high-yield bonds, which lagged higher-quality issues when

## Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

interest rates were falling. This underweight hurt the trust slightly in the second half of the period, when high-yield, lower-quality bonds outperformed as the economy improved and interest rates rose. Yet, its position in high yield was substantial enough to make a positive overall contribution to the fund's performance.

We kept the trust's duration short relative to its peer group. Duration is a measure of interest rate sensitivity. We lower, or shorten, duration when we expect interest rates to rise and bond prices to fall. This move helped performance as rising interest rates hampered bond returns.

Leveraged positions provided the trust with additional income during the period. We have, in effect, "borrowed against" the trust's investment positions by issuing preferred shares, which pay out a short-term variable rate. When those preferred shares were issued in 1999, we invested the proceeds in bonds with longer maturities. During this reporting period, the payout rate of preferred shares was much lower than the yield the trust earned from those longer-maturity bonds. The trust issued preferred shares because the leverage they provided made it possible to enhance yield. However, the use of leverage increases the likelihood of share price volatility and market risk. In order to reduce that extra price volatility, we can hedge using futures contracts. When we shorten duration (decrease price volatility) using futures, and bond prices rise, we show losses on the futures contracts that are typically offset, at least partially, by unrealized price gains on the bonds held.

Specific issues also contributed positively to performance, including HealthEast, a Minnesota hospital and US Airways (0.7% and 0.3% of total investments, respectively) (2) and other airline bonds. The trust's stake in zero coupon municipal bonds, which did especially well early in the period, further helped returns.

### PORTFOLIO MANAGER'S REPORT (CONTINUED)

The trust's stake in nursing home bonds detracted from performance because many issuers suffered as liability insurance costs soared and some fiscally-strapped states lowered Medicaid payments. We have reduced our nursing home stake. We increased the fund's exposure to more economically-sensitive sectors, such as paper, where we added bonds issued on behalf of Weyerhaeuser (0.2% of total investments), which made a positive contribution to performance.

Going forward, we expect high-yield municipal bonds to do well as the economy improves and interest rates slowly rise.

performance may be higher or lower than the performance data shown.

Tax-exempt investing offers current tax-free income, but it also involves certain risks. The value of the trust shares will be affected by interest rate changes and the creditworthiness of issues held in the trust. Investing in high-yield securities offers the potential for high current income and attractive total return, but involves certain risks. Lower-rated bond risks include default of the issuer and rising interest rates. Interest income from certain tax-exempt bonds may be subject to the federal alternative minimum tax for individuals and corporations.

### NOTES TO FINANCIAL STATEMENTS

November 30, 2003

#### NOTE 1. ORGANIZATION

Colonial High Income Municipal Trust (the "Trust"), is a Massachusetts business trust registered under the Investment Company Act of 1940 (the "Act"), as amended, as a diversified, closed-end management investment company.

#### INVESTMENT GOAL

The Trust seeks to provide high current income, generally exempt from federal income taxes. The Trust's secondary goal is to seek total return.

#### TRUST SHARES

The Trust may issue an unlimited number of common shares. On August 26, 1999, the Trust issued 4,800 Auction Preferred Shares ("APS").

#### NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

##### USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements.

##### SECURITY VALUATION

Debt securities generally are valued by a pricing service approved by the Trust's Board of Trustees, based upon market transactions for normal, institutional-size trading units of similar securities. The service may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Certain securities, which tend to be more thinly traded and of lesser quality, are priced based on fundamental analysis of the financial condition of the issuer and the estimated value of any collateral. Valuations developed through pricing techniques may vary from the actual amounts realized upon sale of the securities, and the potential variation may be greater for those securities valued using fundamental analysis. Debt securities for which quotations are readily available are valued at an

over-the-counter or exchange bid quotation.

Short-term obligations maturing within 60 days are valued at amortized cost, which approximates market value.

Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they are traded.

Investments for which market quotations are not readily available, which tend to be more thinly traded and of lesser quality are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board of Trustees.

### SECURITY TRANSACTIONS

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

### FUTURES CONTRACTS

The Trust may invest in municipal and U.S. Treasury futures contracts. The Trust will invest in these instruments to hedge against the effects of changes in the value of portfolio securities due to anticipated changes in interest rates and/or market conditions, for duration management, or when the transactions are economically appropriate to the reduction of risk inherent in the management of the Trust and not for trading purposes. The use of futures contracts involves certain risks, which include: (1) imperfect correlation between the price movement of the instruments and the underlying securities, (2) inability to close out positions due to differing trading hours, or the temporary absence of a liquid market, for either the instrument or the underlying securities, or (3) an inaccurate prediction by Columbia Management Advisors, Inc. of the future direction of interest rates. Any of these risks may involve amounts exceeding the variation margin recorded in the Trust's Statement of Assets and Liabilities at any given time.

Upon entering into a futures contract, the Trust deposits cash or securities with the broker in an amount sufficient to meet the initial margin requirement. Subsequent payments are made or received by the Trust equal to the daily change in the contract value and are recorded as variation margin payable or receivable and offset in unrealized gains or losses. The Trust also identifies portfolio securities as segregated with the custodian in a separate account in an amount equal to the futures contract. The Trust recognizes a realized gain or loss when the contract is closed or expires.

### OPTIONS

The Fund may write call and put options on futures it owns or in which it may invest. Writing put options tends to increase the fund's exposure to the underlying instrument. Writing call options tends to decrease the Fund's exposure to the underlying instrument. When the Fund writes a call or put option, an amount equal to the premium received is recorded as a liability and subsequently marked-to-market to reflect the current value of the option written. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or closed are added to the proceeds or offset against the amounts paid on the underlying future transaction to determine the realized gain or loss. The Fund as a writer of an option has no control over whether the underlying future may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the future underlying the written option. There is the risk the

Fund may not be able to enter into a closing transaction because of an illiquid market.

The Fund may also purchase put and call options. Purchasing call options tends to increase the Fund's exposure to the underlying instrument. Purchasing put options tends to decrease the Fund's exposure to the underlying instrument. The Fund pays a premium, which is included in the Fund's Statement of Assets and Liabilities as an investment and subsequently marked-to-market to reflect the current value of the option. The risk associated with purchasing put and call options is limited to the premium paid. Premiums paid for purchasing options which expire are treated as realized losses. Premiums paid for purchasing options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying future transaction to determine the realized gain or loss. The Trust's custodian will set aside cash or liquid portfolio securities equal to the amount of the written options contract commitment in a separate account.

#### RESTRICTED SECURITIES

Restricted securities are securities that may only be resold upon registration under federal securities laws or in transactions exempt from registration. In some cases, the issuer of restricted securities has agreed to register such securities for resale at the issuer's expense either upon demand by the Trust or in connection with another registered offering of the securities. Many restricted securities may be resold in the secondary market in transactions exempt from registration. Such restricted securities may be determined to be liquid under criteria established by the Board of Trustees. The Trust will not incur any registration costs upon such resale.

#### DELAYED DELIVERY SECURITIES

The Trust may trade securities on other than normal settlement terms, including securities purchased or sold on a "when-issued" basis. This may increase the risk if the other party to the transaction fails to deliver and causes the Fund to subsequently invest at less advantageous prices. The Trust's custodian will set aside cash or liquid portfolio securities equal to the amount of the delayed delivery commitment in a separate account.

#### INCOME RECOGNITION

Interest income is recorded on the accrual basis. Premium and discount are amortized and accreted, respectively, on all debt securities.

#### FEDERAL INCOME TAX STATUS

The Trust intends to qualify each year as a "regulated investment company" under Subchapter M of the Internal Revenue Code, as amended, by distributing substantially all of its taxable or tax-exempt income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, by distributing in each calendar year substantially all of its net investment income, capital gains and certain other amounts, if any, the Trust will not be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

#### DISTRIBUTIONS TO SHAREHOLDERS

Distributions to common shareholders are recorded on ex-date. Distributions to

## Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

Auction Preferred shareholders are recorded daily and payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on November 30, 2003 was 1.05%. For the year ended November 30, 2003, the Trust declared dividends to Auction Preferred shareholders amounting to \$1,158,676, representing an average APS dividend rate of 0.97%.

### NOTE 3. FEDERAL TAX INFORMATION

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. Reclassifications are made to the Trust's capital accounts for permanent tax differences to reflect income and gains available for distribution (or available capital loss carryforwards) under income tax regulations.

For the year ended November 30, 2003, permanent differences resulting primarily from differing treatments for market discount reclassifications, discount accretion/premium amortization on debt securities and expired capital loss carryforward were identified and reclassified among the components of the Trust's net assets as follows:

| UNDISTRIBUTED<br>NET INVESTMENT INCOME | ACCUMULATED<br>NET REALIZED LOSS | PAID-IN CAPITAL |
|----------------------------------------|----------------------------------|-----------------|
| \$ (8,547)                             | \$5,276,170                      | \$ (5,267,623)  |

Net investment income and net realized gains (losses), as disclosed on the Statement of Operations, and net assets were not affected by this reclassification.

The tax character of distributions paid during the years ended November 30, 2003 and November 30, 2002 was as follows:

|                          | NOVEMBER 30, 2003 | NOVEMBER 30, 2002 |

Capital loss carryforwards of \$5,267,623 were utilized and/or expired during the year ended November 30, 2003 for the Trust. Expired capital loss carryforwards are recorded as a reduction of paid-in capital.

NOTE 4. FEES AND COMPENSATION PAID TO AFFILIATES

On April 1, 2003, Colonial Management Associates, Inc., the previous investment advisor to the Trust, merged into Columbia Management Advisors, Inc. ("Columbia"), formerly known as Columbia Management Co., an indirect,

## Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

wholly-owned subsidiary of FleetBoston Financial Corporation. As a result of the merger, Columbia now serves as the Trust's investment advisor. The merger did not change the way the Trust is managed, the investment personnel assigned to manage the Trust or the fees paid by the Trust.

### INVESTMENT ADVISORY FEE

Columbia is the investment advisor to the Trust and provides administrative and other services. Columbia receives a monthly fee at the annual rate of 0.75% of the Trust's average weekly net assets, including assets applicable to the APS.

### PRICING AND BOOKKEEPING FEES

Columbia is responsible for providing pricing and bookkeeping services to the Trust under a pricing and bookkeeping agreement. Under a separate agreement (the "Outsourcing Agreement"), Columbia has delegated those functions to State Street Corporation ("State Street").

Under its pricing and bookkeeping agreement with the Trust, Columbia receives from the Trust an annual flat fee of \$10,000 paid monthly, and in any month that the Trust's average weekly net assets, including assets applicable to the APS, exceed \$50 million, an additional monthly fee. The additional fee rate is calculated by taking into account the fees payable to State Street under the Outsourcing Agreement. This rate is applied to the average weekly net assets, including assets applicable to the APS, of the Trust for that month. The Trust also pays additional fees for pricing services. For the year ended November 30, 2003, the effective pricing and bookkeeping fee rate was 0.050%. Columbia pays the total fees collected to State Street under the Outsourcing Agreement.

### CUSTODY CREDITS

The Trust has an agreement with its custodian bank under which custody fees may be reduced by balance credits. The Trust could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

### FEES PAID TO OFFICERS AND TRUSTEES

The Trust pays no compensation to its officers, all of whom are employees of Columbia or its affiliates.

The Trust's Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Trust's assets.

### NOTE 5. PREFERRED SHARES

The Trust currently has outstanding 4,800 APS. The APS are redeemable at the option of the Trust on any dividend payment date at the redemption price of \$25,000 per share, plus an amount equal to any dividends accumulated on a daily basis unpaid through the redemption date (whether or not such dividends have been declared).

Under the Act, the Trust is required to maintain asset coverage of at least 200% with respect to the APS as of the last business day of each month in which any APS are outstanding. Additionally, the Trust is required to meet more stringent asset coverage requirements under the terms of the APS Agreement and in accordance with the guidelines prescribed by the APS' rating agencies. Should these requirements not be met, or should dividends accrued on the APS not be paid, the Trust may be restricted in its ability to declare dividends to common

shareholders or may be required to redeem certain APS. At November 30, 2003, there were no restrictions on the Trust.

### NOTE 6. PORTFOLIO INFORMATION

#### PURCHASES AND SALES OF SECURITIES

For the year ended November 30, 2003, the cost of purchases and proceeds from sales of securities, excluding short-term obligations, were \$42,974,746 and \$48,752,264, respectively.

### NOTE 7. DISCLOSURE OF SIGNIFICANT RISKS AND CONTINGENCIES

#### INDUSTRY FOCUS

The Trust may focus its investments in certain industries, subjecting it to greater risk than a trust that is more diversified.

#### HIGH-YIELD SECURITIES

Investing in high-yield securities may involve greater credit risk and considerations not typically associated with investing in U.S. Government bonds and other higher quality fixed income securities. These securities are non-investment grade securities, often referred to as "junk bonds." Economic downturns and industry events may disrupt the high yield market and impair the ability of issuers to repay principal and interest. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high-yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities.

#### GEOGRAPHIC CONCENTRATION

The Trust had greater than 5% of its net assets at November 30, 2003, invested in debt obligations issued by the states of California, Florida, Illinois, Massachusetts, Pennsylvania and Texas and their respective political subdivisions, agencies and public authorities to obtain funds for various purposes. The Trust is more susceptible to economic and political factors adversely affecting issuers of each respective state's specific municipal securities than are municipal bond funds that are not concentrated to the same extent in these issuers.

(a) The Trust changed its fiscal year end from December 31 to November 30.

(b) Per share data was calculated using average shares outstanding during the period.

(c) Effective December 1, 2001, the Trust adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began accreting market discount on all debt securities. The effect of this change, for the year ended November 30, 2002, was to increase the ratio of net investment income to average net assets from 8.31% to 8.36% and increase the ratio of

net investment income (adjusted for dividend payments to preferred shareholders) from 7.48% to 7.53%. The impact to net investment income and net realized and unrealized loss per share was less than \$0.01. Per share data and ratios for periods prior to November 30, 2002, have not been restated to reflect this change in presentation.

- (d) The per share net investment income amount does not reflect the period's reclassification of differences between book and tax basis net investment income.
- (e) Total return at market value assuming all distributions reinvested at prices calculated in accordance with the Dividend Reinvestment Plan.
- (f) Not annualized.
- (g) The benefits derived from custody credits and directed brokerage arrangements, if applicable, had an impact of less than 0.01%.
- (h) Ratios reflect average net assets available to common shares only.
- (i) Annualized.

REPORT OF INDEPENDENT AUDITORS

TO THE TRUSTEES AND THE SHAREHOLDERS OF COLONIAL HIGH INCOME MUNICIPAL TRUST

In our opinion, the accompanying statement of assets and liabilities, including the investment portfolio, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Colonial High Income Municipal Trust (the "Trust") at November 30, 2003, and the results of its operations, the changes in its net assets and its financial highlights for the periods indicated, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Trust's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at November 30, 2003 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

### DIVIDEND REINVESTMENT PLAN

#### COLONIAL HIGH INCOME MUNICIPAL TRUST

Shareholders may elect to have all distributions of dividends and capital gains automatically reinvested by EquiServe Trust Company, N.A. (the "Plan Agent"), as agent under the Trust's Dividend Reinvestment Plan (the "Plan"). Pursuant to the Plan, the provisions of which are described below, shareholders not making such an election will receive all such amounts in cash paid by check mailed directly to the shareholder by the Plan Agent, as the dividend paying agent.

If the Trustees of the Trust declare a dividend or determine to make a capital gain distribution payable either in shares of the Trust or in cash, as shareholders may have elected, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in shares of the Trust. If the market price of the shares on the payment date for the dividend or distribution is equal to or exceeds their net asset value, participants will be issued shares of the Trust at the higher of net asset value or 95% of the market price. If the net asset value exceeds the market price of Trust shares at such time, or if the Trust declares a dividend or other distribution payable only in cash, the Plan Agent will, as agent for Plan participants, buy Trust shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of the Trust's shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the Trust's shares, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Trust. In circumstances in which the net asset value of Trust shares is more than 5% below their market price, participants in the Plan will be issued shares through the Plan at a price exceeding net asset value.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent. When a participant withdraws from the Plan or upon termination of the Plan as provided below, certificates for whole shares credited to the participant's account under the Plan will be issued and a cash payment will be made for any fraction of a share credited to such account. A shareholder's notice of election to participate in or withdraw from the Plan must be received by the Plan Agent before the record date for a dividend in order to be given effect with respect to that dividend.

In the case of shareholders such as banks, brokers or nominees holding shares for others who are the beneficial owners of those shares, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the shareholder of record as representing the total amount registered in such shareholder's name and held for the account of beneficial owners who are to participate in the Plan.

There is no charge to Plan participants for reinvesting dividends or distributions. The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Trust. There will be no brokerage charges with respect to shares issued directly by the Trust as a result of dividends or distributions payable either in stock or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends or distributions.

The automatic reinvestment of dividends and distributions will not relieve participants of any income tax that may be payable on such dividends or distributions.

The Plan may be amended or terminated on 30 days' written notice to Plan participants. All correspondence concerning the Plan should be directed to

Simpson and Woolworth had been directors of 15 Columbia Funds and 20 funds in the CMG Fund Trust. Also effective October 8, 2003, the incumbent trustees of the Fund were elected as directors of the 15 Columbia Funds and as trustees of the 20 funds in the CMG Fund Trust. The new combined Board of Trustees/Directors of the Fund now oversees 119 funds in the Columbia Funds Complex (including the former Liberty Funds, former Stein Roe Funds, Columbia Funds and CMG Funds). Several of these trustees/directors also serve on the Boards of other funds in the Columbia Funds Complex.

The Trustees/Directors serve terms of indefinite duration. The names, addresses and ages of the Trustees/Directors and officers of the Funds in the Columbia Funds complex, the year each was first elected or appointed to office, their principal business occupations during at least the last five years, the number of portfolios overseen by each Trustee/Director and other directorships they hold are shown below. Each officer listed below serves as an officer of each Fund in the Columbia Funds Complex.

(1) In December 2000, the boards of each of the former Liberty Funds and former Stein Roe Funds were combined into one board of trustees responsible for the oversight of both fund groups (collectively, the "Liberty Board"). In October 2003, the trustees on the Liberty Board were elected to the boards of the Columbia Funds (the "Columbia Board") and of the CMG Fund Trust (the "CMG Funds Board"); simultaneous with that election, Patrick J. Simpson and Richard L. Woolworth, who had been directors on the Columbia Board and trustees on the CMG Funds Board, were appointed to serve as trustees of the Liberty Board. The date shown is the earliest date on which a trustee/director was elected or appointed to the board of a Fund in the

ITEM 2. CODE OF ETHICS.

- (a) The registrant has, as of the end of the period covered by this report, adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party.
- (b) During the period covered by this report, there were not any amendments to a provision of the code of ethics adopted in 2(a) above.
- (c) During the period covered by this report, there were not any waivers or implicit waivers to a provision of the code of ethics adopted in 2(a) above.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Trustees has determined that Douglas A. Hacker, Thomas E. Stitzel, Anne-Lee Verville and Richard L. Woolworth, each of whom are members of the registrant's Board of Trustees and Audit Committee, each qualify as an audit committee financial expert. Mr. Hacker, Mr. Stitzel, Ms. Verville and Mr. Woolworth are each independent trustees, as defined in paragraph (a) (2) of this item's instructions and collectively constitute the entire Audit Committee.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Not applicable at this time.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable at this time.

ITEM 6. RESERVED.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Fund has delegated to Columbia Management Advisors, Inc. (the "Advisor") the responsibility to vote proxies relating to portfolio securities held by the Fund. In deciding to delegate this responsibility to the Advisor, the Board of Trustees of the Trust reviewed and approved the policies and procedures adopted by the Advisor. These included the procedures that the Advisor follows when a vote presents a conflict between the interests of the Fund and its shareholders and the Advisor, its affiliates, its other clients or other persons.

The Advisor's policy is to vote all proxies for Fund securities in a manner

## Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

considered by the Advisor to be in the best interest of the Fund and its shareholders without regard to any benefit to the Advisor, its affiliates, its other clients or other persons. The Advisor examines each proposal and votes against the proposal, if, in its judgment, approval or adoption of the proposal would be expected to impact adversely the current or potential market value of the issuer's securities. The Advisor also examines each proposal and votes the proxies against the proposal, if, in its judgment, the proposal would be expected to affect adversely the best interest of the Fund. The Advisor determines the best interest of the Fund in light of the potential economic return on the Fund's investment.

The Advisor addresses potential material conflicts of interest by having predetermined voting guidelines. For those proposals that require special consideration or in instances where special circumstances may require varying from the predetermined guideline, the Advisor's Proxy Committee determines the vote in the best interest of the Fund, without consideration of any benefit to the Advisor, its affiliates, its other clients or other persons. A member of the Proxy Committee is prohibited from voting on any proposal for which he or she has a conflict of interest

by reason of a direct relationship with the issuer or other party affected by a given proposal. Persons making recommendations to the Proxy Committee or its members are required to disclose to the Committee any relationship with a party making a proposal or other matter known to the person that would create a potential conflict of interest.

The Advisor has three classes of proxy proposals. The first two classes are predetermined guidelines to vote for or against specific proposals, unless otherwise directed by the Proxy Committee. The third class is for proposals given special consideration by the Proxy Committee. In addition, the Proxy Committee considers requests to vote on proposals in the first two classes other than according to the predetermined guidelines.

The Advisor generally votes in favor of proposals related to the following matters: selection of auditors (unless the auditor receives more than 50% of its revenues from non-audit activities from the company and its affiliates), election of directors (unless the proposal gives management the ability to alter the size of the board without shareholder approval), different persons for chairman of the board/chief executive officer (unless, in light of the size of the company and the nature of its shareholder base, the role of chairman and CEO are not held by different persons), compensation (if provisions are consistent with standard business practices), debt limits (unless proposed specifically as an anti-takeover action), indemnifications (unless for negligence and or breaches of fiduciary duty), meetings, name of company, principal office (unless the purpose is to reduce regulatory or financial supervision), reports and accounts (if the certifications required by Sarbanes-Oxley Act of 2002 have been provided), par value, shares (unless proposed as an anti-takeover action), share repurchase programs, independent committees, and equal opportunity employment.

The Advisor generally votes against proposals related to the following matters: super majority voting, cumulative voting, preferred stock, warrants, rights, poison pills, reclassification of common stock and meetings held by written consent.

The Advisor gives the following matters special consideration: new proposals, proxies of investment company shares (other than those covered by the predetermined guidelines), mergers/acquisitions (proposals where a hostile

## Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

merger/acquisition is apparent or where the Advisor represents ownership in more than one of the companies involved), shareholder proposals (other than those covered by the predetermined guidelines), executive/director compensation (other than those covered by the predetermined guidelines), pre-emptive rights and proxies of international issuers which block securities sales between submission of a proxy and the meeting (proposals for these securities are voted only on the specific instruction of the Proxy Committee and to the extent practicable in accordance with predetermined guidelines).

In addition, if a portfolio manager or other party involved with a client of the Advisor or Fund account concludes that the interest of the client or Fund requires that a proxy be voted on a proposal other than according to the predetermined guidelines, he or she may request that the Proxy Committee consider voting the proxy differently. If any person (or entity) requests the Proxy Committee (or any of its members) to vote a proxy other than according to a predetermined guideline, that person must furnish to the Proxy Committee a written explanation of the reasons for the request and a description of the person's (or entity's) relationship with the party proposing the matter to shareholders or any other matter known to the person (or entity) that would create a potential conflict of interest.

The Proxy Committee may vary from the predetermined guideline if it determines that voting on the proposal according to the predetermined guideline would be expected to impact adversely the

current or potential market value of the issuer's securities or to affect adversely the best interest of the client. References to the best interest of a client refer to the interest of the client in terms of the potential economic return on the client's investment. In determining the vote on any proposal, the Proxy Committee does not consider any benefit other than benefits to the owner of the securities to be voted.

The Advisor's Proxy Committee is composed of operational and investment representatives of its regional offices as well as senior representatives of the Advisor's equity investments, equity research, compliance and legal functions. During the first quarter of each year, the Proxy Committee reviews all guidelines and establishes guidelines for expected new proposals. In addition to these reviews and its other responsibilities described above, its functions include annual review of its Proxy Voting Policy and Procedures to ensure consistency with internal policies and regulatory agency policies, and development and modification of voting guidelines and procedures as it deems appropriate or necessary.

The Advisor uses Institutional Shareholder Services ("ISS"), a third party vendor, to implement its proxy voting process. ISS provides proxy analysis, record keeping services and vote disclosure services.

### ITEM 8. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable at this time.

### ITEM 9. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

Not applicable at this time.

### ITEM 10. CONTROLS AND PROCEDURES.

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

(a) The registrant's principal executive officer and principal financial officer, based on their evaluation of the registrant's disclosure controls and procedures as of a

date within 90 days of the filing of this report, have concluded that such controls and procedures are adequately designed to ensure that information required to be disclosed by the registrant in Form N-CSR is accumulated and communicated to the registrant's management, including the principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

(b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
