**Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.**

(a) On February 26, 2007, in connection with its ongoing review of past stock option practices, EPIX Pharmaceuticals, Inc. (the Company), together with the Audit Committee of the Company's Board of Directors, determined that it will need to restate its historical financial statements to record additional non-cash charges for stock-based compensation expense related to past stock option grants because the appropriate measurement dates for financial accounting purposes of certain stock option grants differ from the recorded grant dates of those awards.

Accordingly, the Company and the Audit Committee of its Board of Directors have concluded that the financial statements and related notes and financial data for all prior periods, including all annual and interim periods included in the Company's most recently filed 10-K and most recently filed 10-Q, as well as all earnings releases, press releases and similar communications issued by the Company related to those financial statements should no longer be relied upon.

As the Company's review of past stock option practices is ongoing, the Company cannot at this time reasonably estimate the amount of any such charges, the resulting tax and accounting impact, or the impact of the review on internal controls over financial reporting. The Company does not expect that the anticipated restatements will have any material impact on its historical revenues or cash position for any period, other than costs associated with the Company's review and any related tax expenses.

The Company and the chair of the Audit Committee of the Company's Board of Directors have discussed the matters disclosed in this current report on Form 8-K with Ernst & Young LLP, the Company's independent registered public accounting firm.
