#### Dear Shareholder:

We are pleased to provide you with the semi-annual report for PIMCO Municipal Income Fund III, PIMCO California Municipal Income Fund III and PIMCO New York Municipal Income Fund III (the "Funds") for the six months ended March 31, 2006.

For the six-month period, the national municipal bond market posted positive returns, with the Lehman Brothers Municipal Bond Index returning 0.98% despite four 0.25% rate increases by the Federal Reserve. The California municipal bond market also recorded positive returns, outperforming the national municipal market. The Lehman Brothers California Insured Municipal Bond Index returned 1.22%. New York municipals also outperformed the broader market, with the Lehman Brothers New York Insured Municipal Bond Index returning 1.16% for the period. During the reporting period, the municipal yield curve flattened, with short-term rates climbing higher than long-term rates. This was also the case for the California and New York municipal yield curves.

For the six months ended March 31, 2006, PIMCO Municipal Income Fund III returned 3.30% on net asset value and (1.80)% on market price. PIMCO California Municipal Income Fund III returned 2.50% on net asset value and 8.69% on market price. PIMCO New York Municipal Income Fund III returned 2.13% on net asset value and (3.07)% on market price.

Please review the following pages for specific information on the Funds. (1)Inclusive of net assets attributable to Preferred Shares outstanding.

(2)**Past performance is no guarantee of future results.** Total return is calculated by subtracting the value of an investment in the Fund at the beginning of each specified period from the value at the end of the period and dividing the remainder by the value of the investment at the beginning of the period and expressing the result as a percentage. The calculation assumes that all income dividends have been reinvested at prices obtained under the Fund's dividend reinvestment plan. Total return does not reflect broker commissions or sales charges. Total return for a period more than one year represents the average annual total return.

An investment in the Fund involves risk, including the loss of principal. Total return, price, yield and net asset value will fluctuate with changes in market conditions. This data is provided for information only and is not intended for trading purposes. A portion of the income generated by the Fund may be subject to federal, state and local taxes, and may at times be subject to the alternative minimum tax. Closed-end funds, unlike open-end funds, are not continuously offered. There is a one-time public offering and once issued, shares of closed-end funds are sold in the open market through a stock exchange. Net asset value is total assets applicable to common shareholders less total liabilities divided by the number of common shares outstanding. Holdings are subject to change daily.

(3)Market Price Yield is determined by dividing the annualized current monthly per share dividend to common shareholders by the market price per common share at March 31, 2006.2 PIMCO Municipal Income Funds III Semi-Annual Report | 3.31.06

PIMCO Municipal Income Funds III Notes to Financial Statements March 31, 2006 (unaudited)

1. Organization and Significant Accounting Policies

PIMCO Municipal Income Fund IIII ("Municipal III"), PIMCO California Municipal Income Fund III ("California Municipal III") and PIMCO New York Municipal Income Fund III ("New York Municipal III") collectively referred to as the "Funds" or "PIMCO Municipal Income Funds III", were organized as Massachusetts business trusts on August 20, 2002. Prior to commencing operations on October 31, 2002, the Funds had no operations other than matters relating to their organization and registration as closed-end management investment companies registered under the Investment Company Act of 1940 and the rules and regulations there under, as amended. Allianz Global Investors Fund Management LLC (the "Investment Manager"), serves as the Funds' Investment Manager and is an indirect wholly-owned subsidiary of Allianz Global Investors of America L.P. ("Allianz Global"). Allianz Global is an indirect, majority-owned subsidiary of Allianz AG. The Fund has an unlimited amount of \$0.00001 par value common stock authorized.

Municipal III invests substantially all of its assets in a portfolio of municipal bonds, the interest from which is exempt from federal income taxes. California Municipal III invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal and California state income taxes. New York Municipal III invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal, New York State and New York City income taxes. The Funds will seek to avoid bonds generating interest income which could potentially subject individuals to alternative minimum tax. The issuers' abilities to meet their obligations may be affected by economic and political developments in a specific state or region.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and

disclosures in the financial statements. Actual results could differ from those estimates.

In the normal course of business, the Funds enter into contracts that contain a variety of representations which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds based upon events that have not yet been asserted. However, the Funds expect the risk of any loss to be remote.

The following is a summary of significant accounting policies consistently followed by the Funds:

(a) Valuation of Investments

Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Portfolio securities and other financial instruments for which market quotations are not readily available or if a development/event occurs that may significantly impact the value of a security may be fair-valued, in good faith, pursuant to guidelines established by the Board of Trustees. The Funds' investments are valued daily using prices supplied by an independent pricing service or dealer quotations, or are valued at the last sale price on the exchange that is the primary market for such securities, or the last quoted bid price for those securities for which the over-the-counter market is the primary market or for listed securities in which there were no sales. The independent pricing service uses information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Exchange traded options and futures are valued at the settlement price determined by the relevant exchange. Short-term investments maturing in 60 days or less are valued at amortized cost, if their original term to maturity was 60 days or less, or by amortizing their value on the 61<sup>st</sup> day prior to maturity, if the original term to maturity exceeded 60 days. Securities purchased on a when-issued or delayed-delivery basis are marked to market daily until settlement at the forward settlement value. The prices used by the Funds to value securities may differ from the value that would be realized if the securities were sold and the differences could be material to the financial statements. The Funds' net asset values are determined daily as of the close of regular trading (normally, 4:00 p.m. Eastern time) on the New York Stock Exchange ("NYSE") on each day the NYSE is open for business.

(b) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Interest income is recorded on an accrual basis. Original issue discounts or premiums on debt securities purchased are accreted or amortized daily to non-taxable interest income. Market discount, if any, is accreted daily to taxable income.

### (c) Federal Income Taxes

The Funds intend to distribute all of their taxable income and to comply with the other requirements of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required.

1. Organization and Significant Accounting Policies (continued)

#### (d) Dividends and Distributions - Common Stock

The Funds declare dividends from net investment income monthly to common shareholders. Distributions of net realized capital gains, if any, are paid at least annually. Each Fund records dividends and distributions to its shareholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles. These "book-tax" differences are considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment; temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as dividends and/or distributions of paid-in capital in excess of par.

### (e) Futures Contracts

A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. Upon entering into such a contract, the Funds are required to pledge to the broker an amount of cash or securities, equal to the minimum "initial margin" requirements of the exchange. Pursuant to the contracts, the Funds agree to receive from or pay to the broker an amount of cash or securities equal to the daily fluctuation in the value of the contracts. Such receipts or payments are known as "variation margin" and are recorded by the Funds as unrealized appreciation or depreciation. When the contracts are closed, the Funds record a realized gain or loss equal to the difference between the value of the contracts at the time they were opened and the value at the time they were closed. Any unrealized appreciation or depreciation in the movements in the price of futures contracts, interest rates and the underlying hedged assets, and the possible inability of counterparties to meet the terms of their contracts.

### (f) Option Transactions

The Funds may purchase and write (sell) put and call options on securities for hedging purposes, risk management purposes or as part of its investment strategy. The risk associated with purchasing an option is that the Funds pay a premium whether or not the option is exercised. Additionally, the Funds bear the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from securities sold through the exercise of put options is decreased by the premiums paid.

When an option is written, the premium received is recorded as an asset with an equal liability, which is subsequently adjusted to the current market value of the option written. These liabilities are reflected as options written in the Statement of Assets and Liabilities. Premiums received from writing options which expire unexercised are recorded on the expiration date as a realized gain. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchased transactions, as a realized loss. If a call option written by the Funds is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether there has been a realized gain or loss. If a put option written by the Funds is exercised, the premium reduces the cost basis of the security. In writing an option, the Funds bear the market risk of an unfavorable change in the price of the security underlying the written option. Exercise of a written option could result in the Funds purchasing a security at a price different from the current market value.

## (g) Residual Interest Municipal Bonds ("RIBS")/Residual Interest Tax Exempt Bonds ("RITES")

The Funds invest in RIBS and RITES whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index. RIBS and RITES are created by dividing the income stream provided by the underlying bonds to create two securities, one short-term and one long-term. The interest rate on the short-term component is reset by an index or auction process normally every seven to 35 days. After income is paid on the short-term securities at current rates, the residual income from the underlying bond(s) goes to the long-term securities. Therefore, rising short-term interest rates result in lower income for the longer-term portion, and vice versa. The longer-term bonds may be more volatile and less liquid than other municipal bonds of comparable maturity. Investments in RIBS and RITES typically will involve greater risk than an investment in a fixed-rate bond The Funds may also invest in RIBS and RITES for the purpose of increasing their leverage.

1. Organization and Significant Accounting Policies (continued)

(h) When-Issued/Delayed-Delivery Transactions

The Funds may purchase or sell securities on a when-issued or delayed-delivery basis. The transactions involve a commitment to purchase or sell securities for a predetermined price or yield, with payment and delivery taking place beyond the customary settlement period. When delayed-delivery purchases are outstanding, the Funds will set aside and maintain until the settlement date in a designated account, liquid assets in an amount sufficient to meet the purchase price. When purchasing a security on a delayed-delivery basis, the Funds assume the rights and risks of ownership of the security, including the risk of price and yield fluctuations, and takes such fluctuations into account when determining its net asset value. The Funds may dispose of or renegotiate a delayed-delivery transaction after it is entered into, and may sell when-issued securities before they are delivered, which may result in a realized gain or loss. When a security on a delayed-delivery basis is sold, the Fund does not participate in future gains and losses with respect to the security.

### (i) Custody Credits Earned on Cash Balances

The Funds benefit from an expense offset arrangement with their custodian bank whereby uninvested cash balances earn credits which reduce monthly custodian and accounting agent expenses. Had these cash balances been invested in income producing securities, they would have generated income for the Funds.

2. Investment Manager /Sub-Adviser

Each Fund has entered into an Investment Management Agreement (the "Agreements") with the Investment Manager. Subject to the supervision by each Fund's Board of Trustees, the Investment Manager is responsible for managing, either directly or through others selected by it, each Fund's investment activities, business affairs and administrative

matters. Pursuant to the Agreements, the Investment Manager receives an annual fee, payable monthly, at the annual rate of 0.65% of each Fund's average daily net assets, inclusive of net assets attributable to any preferred shares that may be outstanding. In order to reduce each Fund's expenses, the Investment Manager has contractually agreed to waive a portion of its investment management fee for each Fund at the annual rate of 0.15% of each Fund's average daily net assets, including net assets attributable to any preferred shares that may be outstanding, from the commencement of operations through October 31, 2007, and for a declining amount thereafter through October 31, 2009.

The Investment Manager has retained its affiliate, Pacific Investment Management Company LLC (the "Sub-Adviser") to manage each Fund's investments. Subject to the supervision of the Investment Manager, the Sub-Adviser makes all investment decisions for the Funds. The Investment Manager, not the Funds, pays a portion of the fees it receives to the Sub-Adviser in return for its services, at the maximum annual rate of 0.50% of each Funds average daily net assets, inclusive of net assets attributable to any preferred shares that may be outstanding. The Sub-Adviser has contractually agreed to waive a portion of the fees it is entitled to receive from the Investment Manager, such that the Sub-Adviser will receive 0.26% of each Fund's average daily net assets, including net assets attributable to any preferred shares that may be outstanding. Through October 31, 2007, and will receive an increasing amount not to exceed 0.50% of each Fund's average daily net assets, including net assets, including net assets attributable to any preferred shares that may be outstanding thereafter through October 31, 2009.

#### 7. Legal Proceedings

In June and September 2004, the Investment Manager, certain of its affiliates (Allianz Global Investors Distributors LLC and PEA Capital LLC) and Allianz Global, agreed to settle, without admitting or denying the allegations, claims brought by the Securities and Exchange Commission (the "Commission"), the New Jersey Attorney General and the California Attorney General alleging violations of federal and state securities laws with respect to certain open-end funds for which the Investment Manager serves as investment adviser. Two settlements (with the Commission and New Jersey) related to an alleged "market timing" arrangement in certain open-end funds sub-advised by PEA Capital. Two settlements (with the Commission and California) related to the alleged use of cash and fund portfolio commissions to finance "shelf-space" arrangements with broker-dealers for open-end funds. The Investment Manager and its affiliates agreed to pay a total of \$68 million to settle the claims related to market timing and \$20.6 million to settle the claims related to shelf space. The settling parties also agreed to make certain corporate governance changes. None of the settlements allege that any inappropriate activity took place with respect to the Funds.

Since February 2004, the Investment Manager and certain of its affiliates and their employees have been named as defendants in a number of pending lawsuits concerning "market timing," and "revenue sharing/shelf space/directed brokerage," which allege the same or similar conduct underlying the regulatory settlements discussed above. The market timing lawsuits have been consolidated in a Multi-District Litigation in the United States District Court for the District of Maryland, and the revenue sharing/shelf space/directed brokerage lawsuits have been consolidated in the United States District Court for the District of Connecticut. Any potential resolution of these matters may include, but not be limited to, judgments or settlements for damages against the Investment Manager or its affiliates or related injunctions. The Investment Manager believes that other similar lawsuits may be filed in federal or state courts in the future.

Under Section 9(a) of the 1940 Act, if any of the various regulatory proceedings or lawsuits were to result in a court injunction against the Investment Manager, Allianz Global and/or their affiliates, they and their affiliates would, in the absence of exemptive relief granted by the Commission, be barred from serving as an investment adviser/sub-adviser or principal underwriter for any registered investment company, including the Fund. In connection with an inquiry from the Commission concerning the status of the New Jersey settlement referenced above with regard to any implications under Section 9(a), the Investment Manager and certain of its affiliates, including the Investment Adviser, (together, the "Applicants") have sought exemptive relief from the Commission under Section 9(c) of the 1940 Act. The Commission has granted the Applicants a temporary exemption from the provisions of Section 9(a) with respect to the New Jersey settlement until the earlier of (i) September 13, 2006 and (ii) the date on which the Commission takes final action on their application for a permanent exemptive order. There is no assurance that the Affiliates with respect to any of the other matters referenced above, the Investment Manager or the Affiliates with respect to any of the other matters referenced above, the Investment Manager or the Affiliates with respect to any of the other matters referenced above, the Investment Manager or the affiliates would, in turn, seek similar exemptive relief under Section 9(c) with respect to that matter, although there is no assurance that such exemptive relief under Section 9(c) with respect to that matter, although there is no assurance that such exemptive relief under Section 9(c) with respect to that matter, although there is no assurance that such exemptive relief under Section 9(c) with respect to that matter, although there is no

The Investment Manager and the Sub-Adviser believe that these matters are not likely to have a material adverse effect on the Funds or on their ability to perform their respective investment advisory activities relating to the Funds.

The foregoing speaks only as of the date hereof.
