NOTES TO UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS
(\$ in thousands, except as noted)

(a) Asset Sale

On September 19, 2003, the Company completed the sale of certain of the assets of its leasing and rental and aftermarket parts businesses for approximately \$53.3 million in cash. Net proceeds from the sale were used to repay a portion of its outstanding indebtedness. Loss on the disposition amounted to approximately \$29.9 million, including a \$28.5 million asset impairment charge recorded in the 2003 second quarter. Additionally, the Company anticipates a \$0.6 million loss on the disposition of retained assets. The \$1.4 million loss was derived as follows:

| | |
|-------------------|-----------|
| Assets sold | \$ 53,100 |
| Transaction costs | 1,600 |
| Less proceeds | 53,300 |
| | ----- |
| | \$ 1,400 |
| | ===== |

(b) Refinancing

On August 1, 2003, the Company completed the sale of \$125 million of 3.25% five-year senior unsecured convertible notes convertible into shares of the Company's stock, subject to market and other conditions. The Company used the net proceeds to repay a portion of its outstanding indebtedness. The notes have a conversion price of \$19.20 or a rate of 52.0833 shares per \$1,000 principal amount of note. The notes bear interest at 3.25% per annum payable semi-annually on February 1 and August 1. Costs associated with the transaction amounted to approximately \$4.2 million and will be amortized over the term of the notes.

On September 23, 2003, the Company entered into a \$222 million three-year asset-based loan arrangement that includes a \$47 million term loan and a \$175 million revolver. The new financing will replace existing indebtedness and is expected to substantially lower the Company's cost of debt.

The term loan is secured by Company's property plant and equipment. The revolver is secured by inventory and accounts receivable and the amount available to borrow varies in relation to the balances of those accounts.

Interest on the term loan is variable, based on the London Interbank Offer Rate (LIBOR) plus 300 basis points, decreasing to 275 basis points after six months, or the banks alternative rate as defined in the agreement. Interest on the revolver is at LIBOR plus 275 basis points, decreasing to 250 basis points after six months. The Company pays a commitment fee on the

Edgar Filing: WABASH NATIONAL CORP /DE - Form 8-K

unused portion of the facility at a rate of 37.5 basis points per annum. Additionally, the Company estimates fee associated with the transaction will amount to approximately \$3.5 million, which will be amortized over the term of the loan.

The term loan requires quarterly principal payments of \$1.7 million commencing on January 1, 2004, with the balance due on September 23, 2006. The revolver is due on September 23, 2006. Beginning in March 2005, excess cash flow, as defined, is required to be used to reduce term loan indebtedness.

The loan agreement contains covenants that require, among other things, minimum fixed charge coverage and maximum senior debt to EBITDA coverage. Also, the agreement place limits on capital expenditure and additional borrowings.

- (c) To record the effects of the refinancing. Interest expense on the convertible notes is 3.25%. Interest on the term loan is LIBOR plus 300 basis points, decreasing to 275 basis points after six months. Interest on the revolver is at LIBOR plus 275 basis points, decreasing to 250 basis points after six months. Additionally,

6

interest expense includes an unused facility fee at a rate of 37.5 basis points per annum, letter of credit fees and amortization of deferred loan costs. The average of the 30 day LIBOR was 1.76% for the year ended December 31, 2002 and 1.33% for the six months ended June 30, 2003. The effect of a 12.5 basis point change in LIBOR would change interest expense approximately \$0.2 million and \$0.1 million for the year and six month periods, respectively.

- (d) To record the write off of the unamortized balance of deferred loan costs associated with debt being paid.
- (e) To record the deferred loan costs incurred with the refinancing.
- (f) To record the net effect of the refinancing as follows:
