Calamos Closed-End Funds 41

Letter to Shareholders

(PHOTO OF JOHN P. CALAMOS, SR.)

Dear Fellow Shareholders:

We are pleased to submit to you our annual report for the year ended October 31, 2006. As always, we value and look forward to the opportunity to communicate with you.

At CALAMOS INVESTMENTS, we view our communication with you as vitally important, so we encourage you to review this report carefully. Inside, you will find investment team commentary, share price and NAV performance, fund sector allocation, fund holdings and financial highlights regarding your Calamos closed-end fund. We hope that you find this report both informative and relevant to your investment needs, and we welcome your feedback.

For information about your fund throughout the year, we invite you to visit our website at www.calamos.com. There, you can find the most up-to-date fund information. To help you interpret the big picture, we also post monthly manager commentaries, which provide our latest economic and market outlook.

It has been an exciting year for the CALAMOS INVESTMENTS closed-end funds. All four funds delivered strong performance while continuing to provide a stable monthly distribution to shareholders. In fact, strong performance by the Strategic Total Return Fund (the "Fund") portfolio allowed us to raise its monthly distribution during the period by 11%. The Fund is designed to offer investors a defensive approach to equity participation. By combining equities, convertible bonds and higher-yielding corporate securities, the Fund has the potential to generate capital gains as well as income, taking advantage of its flexibility to manage risk and reward over the full course of a market cycle. In effect, the Fund seeks to participate in long-term upward trends of the equity markets but with the added benefit--and potential downside protection--of a stable monthly distribution. For the 12-month period ended October 31, 2006, the Fund delivered an NAV return of 18.03% and a market price return of 17.99%.

At Calamos, one of our key tenets is to maximize risk-adjusted return. One way to improve total return is to reduce expenses, and one way you can help us reduce expenses is to sign up for e-delivery by visiting our website and clicking on the "Go Paperless!" link. By doing so, you will be able to view important shareholder communications online--including fund prospectuses, shareholder reports and proxy statements--long before the printed publications would have arrived by traditional mail.

We are firm believers in remaining positioned for the long term and have long recognized the impossibility of predicting the exact timing of market shifts. Accordingly, we continue to position our portfolios ahead of events and market turns rather than trying to chase them. Based on our view that the economy is in a period of mid-cycle slowdown, which we explain at greater length in the "Economic and Market Review" that follows, we are emphasizing investments in companies with quality characteristics--such as low debt, high return on invested capital, capable management and well-planned business strategies.

Strategic Total Return Fund
2 ANNUAL REPORT Letter to Shareholders

Economic and Market Review

FOR THE LATEST MARKET AND ECONOMIC OUTLOOK, PLEASE VISIT OUR WEBSITE AT WWW.CALAMOS.COM AND SELECT THE "INDIVIDUAL INVESTORS" BUTTON.

Mid-cycle slowdowns are typically characterized by a number of factors, most of which are present today:

- An end to Fed rate hikes
- Moderation of energy prices
- Slowing in the housing market
- Increasing market volatility
- Moderation of consumer spending
- Declining commodity prices

Historically, mid-cycle slowdowns have been accompanied by a shift in market leadership from cyclical investments to growth-oriented investments. Across the Calamos Funds, we are favoring companies we believe have good prospects for sustainable growth and reduced sensitivity to the economy. Our investment discipline and outlook have led us to a number of traditional large-cap growth companies trading at prices we believe are very attractive relative to the broad market and historical values.

This report is presented for informational purposes and should not be considered investment advice.

During the 12-month period ended October 31, 2006, market participants found themselves distracted by crosscurrents of economic data. In the United States, declines in gross domestic product growth, sliding home prices and

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

rising--though modest--inflation troubled investors. Yet, there was better news as well. The Fed paused its rate tightening in August, improving sentiment somewhat. And despite OPEC's decision to reduce oil supplies, gasoline prices dropped. Furthermore, corporate earnings and balance sheets remained strong.

Broadly, stocks advanced in the U.S. market, with the S&P 500 Index¹ rising 16.34% for the 12-month period. This solid return was achieved at a pace that was far from consistent. After a slow summer, a substantial portion of the S&P 500 Index's performance was earned during the final three months of the period. And, not all stocks were equally rewarded, as growth-oriented stocks trailed value and cyclical issues.

International stocks performed with even greater strength and the MSCI EAFE(R) Index⁽²⁾ gained 28.04% for the 12-month period. Meanwhile, convertible securities and high-yield issues participated in the rise of the equity markets. The Value Line Convertible Index⁽³⁾ returned 10.43% for the 12-month period and the CS High Yield Index⁽⁴⁾ returned 10.29% for the 12-month period.

We believe the U.S. economy--while remaining fundamentally strong--is in the midst of a mid-cycle slowdown. The current environment draws parallels to other mid-cycle slowdowns, including those of the mid-1960s, mid-1980s, and mid-1990s. In each of these periods, the Fed initiated an interest rate tightening campaign that caused a slowdown, first in the investment markets and then in the economy as reflected by waning gross domestic product (GDP) growth. Although no one can predict where a change in the economy will occur, each of these past economic slowdowns was followed by a solid upswing in the markets driven by securities in traditional, stable-growth companies. Accordingly, we believe that the current mid-cycle slowdown can bring considerable opportunity for long-term investors such as ourselves.

Although we do believe the U.S. economy is in the middle of a slowdown, we do not believe a recession is imminent. With three consecutive pauses, we believe the Fed is near or at the end of its tightening phase, and this could serve as a catalyst for stronger growth going forward. Even though gross domestic product growth has declined from the levels achieved during the economic expansion, we believe growth remains respectable and is consistent with what we expect in a period of mid-cycle slowdown. Moreover, our constructive outlook is supported by the current strength in corporate balance sheets and earnings. And, with corporations having cash to spend, we believe that corporate spending will provide the fuel for economic growth. While gasoline prices remain high, they have dropped considerably; this decline, along with increases to wages, could spur increased consumer spending, which we believe will remain helpful for the economy.

As always, we are firm believers in remaining positioned for the long term and we have long recognized the impossibility of predicting the exact timing of market shifts. And, as always, we continue to position our portfolios ahead of events and market turns rather than trying to chase them. Based on our view that the economy is in a period of mid-cycle slowdown, we're emphasizing investments in companies with higher-quality characteristics such as low debt, high return on invested capital, capable management and well-planned business strategies.

Q. HOW DID THE FUND PERFORM OVER THE REPORTING PERIOD?

A. As you know, Calamos Strategic Total Return Fund (CSQ) takes a defensive approach to equity participation. By combining equities, convertible securities and high-yield corporate bonds, the Fund has the potential to generate capital gains as well as income, using its flexibility to manage risk and reward over the full course of a market cycle. Because convertible and high-yield securities tend to follow the movements of their companies' equity counterparts, the Fund can be viewed as having substantial equity sensitivity, yet with significant income potential. In effect, the Fund seeks to participate in the long-term upward trend of the equity markets, but with the added benefit--and potential downside protection--of a level monthly distribution.

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

Based on performance results, the Fund's investment strategy proved its effectiveness these past 12 months. The Fund finished strong for the annual period ended October 31, 2006. Its underlying portfolio (as represented by net asset value or NAV) returned 18.03% during the period, in line with the Fund's market price return of 17.99%. This compares with a return of 16.34% for the all-equity S&P 500 Index. The Fund's robust performance allowed for an increase in its monthly distribution during the period by 11% to \$0.0975 per share. This equated to an annualized distribution rate of 7.85% based on the Fund's market price as of October 31, 2006.

Q. WHAT MAJOR DEVELOPMENTS OCCURRED WITH THE ECONOMY AND MARKET THIS PAST YEAR, AND HOW DID THESE FACTORS AFFECT THE FUND?

A. Rising short-term interest rates were the big story through the first half of 2006, though it had little impact on the Fund's cost of leverage. Many closed-end funds use leverage by borrowing funds at very short-term rates. As short-term interest rates rise, this increases the cost of leverage and can impact the yield and total return of the portfolio. While the Fund does employ leverage through preferred shares, a large share of the cost of leverage was locked in for longer periods earlier in the interest rate

Strategic Total Return Fund
4 ANNUAL REPORT Investment Team Interview

Investment Team Interview

cycle--when rates were lower. Because the cost of leverage was locked in at longer-term fixed rates, the portfolio was not significantly affected by the rising short-term interest rates that marked 2005 and the first half of 2006.

10-YEAR TREASURY FOR THE PERIOD ENDED OCTOBER 31, 2006

(PERFORMANCE GRAPH)

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

10 YEAR TREASURY

Date	Market
----	-----
10/31/2005	4.57%
11/05	4.49%
12/05	4.39%
1/06	4.53%
2/06	4.55%
3/06	4.86%
4/06	5.07%
5/06	5.12%
6/06	5.15%
7/06	4.99%
8/06	4.74%
9/06	4.64%
10/06	4.61%

Long-term interest rates also rose over the period, with the yield on the 10-year Treasury moving from 4.57% at the beginning of the period to 5.15% in June 2006 before falling off in third calendar quarter. Rising long-term interest rates tend to negatively affect high-quality fixed-income securities. The Fund's portfolio combines high-yield corporate bonds and convertible bonds that tend to be more economically sensitive and much less interest-rate sensitive. This was demonstrated over the period as the portfolio benefited from continued economic growth and a general rise in the equity market.

Mixed economic data stirred up investor apprehension at the start of the third calendar quarter of 2006. This anxiety spurred a continuation of the saw-toothed markets of the second quarter, when stocks would rise for a few days or weeks, only to retreat again. By the end of September, however, the landscape had significantly changed. Markets gained a degree of traction, and major stock indexes around the globe posted solid gains for the quarter. Convertible and high-yield securities participated in the equity market upside during the period, earning respectable returns as well.

Despite media reports of decreased consumer spending, a downward revision of gross domestic product (GDP) growth and higher year-over-year inflation, there was considerable good news in the third quarter. The Fed's decision in August to pause its rate increases served to alleviate recession fears, and investors became cautiously hopeful of economic expansion. Corporate earnings remained robust. The release of strong consumer confidence data, in part a reaction to the continuing slide of gasoline prices, encouraged investors as well. In fact, energy prices continued to drop through October, despite OPEC's announcement that it would cut production. These positive events contributed to a robust market with the S&P 500 rising 3.26% in October alone.

AAA	1.4%
AA	1.1
A	10.4
BBB	17.7
BB	24.1
B	29.0
CCC or below	6.7
Not rated	9.6

Data is based on portfolio holdings. Credit quality shown reflects the higher of the ratings of Standard & Poor's Corporation or Moody's Investors Service, Inc. Ratings are relative, subjective and not absolute standards of quality. Excludes equity securities and cash.

Our analysis indicates that the economy is in the midst of a mid-cycle slowdown much like those of 1965, 1985-86 and 1995. However, we don't believe the risk of inflation or recession is high at this time. One significant change that occurred in past mid-cycle slowdowns was a shift from a pro-cyclical market to a more growth-oriented market. We believe the portfolio's emphasis on higher-quality, sustainable growth names and reduction in cyclical sectors positions it well for a rotation in market leadership to stable growth.

Q. WHAT WORKED WELL FOR THE FUND OVER THE PERIOD?

A. The Fund's three major asset classes (equities, high-yield bonds and

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

convertible bonds) posted strong positive returns for the fiscal year, with equities leading the charge. During the period, we made no dramatic shifts in the weightings of asset classes. At period end, equities represented 45% of assets, while high-yield and convertible bonds represented 27% and 28%, respectively. Overall, performance during the period was helped by the Fund's equity sensitivity, reflected in its stock and convertible security allocations. The portfolio's convertible holdings got an added boost as valuations in the convertible market continued to improve over the period. In keeping with our overall strategic positioning, our selection among larger-cap securities also proved advantageous.

From a sector standpoint, all of the portfolio's sector allocations delivered positive performance, with several of the sectors providing double-digit returns. Relative to the all-equity S&P 500 Index, an overweight and security selection in telecommunication services--particularly in the wireless telecommunication services industry--benefited the portfolio. The Fund's selection of information technology securities also bolstered return.

Q. WHAT DETRACTED FROM THE FUND'S PERFORMANCE?

A. Relative to the S&P 500, selection within the financials energy and consumer discretionary sectors dampened performance.

In addition, the portfolio's higher credit quality hindered overall performance, as low-quality issues performed well. From a long-term risk/reward perspective, however, we believe that our rigorous credit research will benefit clients over the full course of a market cycle.

Q. THE FUND USES SWAP AGREEMENTS TO LIMIT THE INTEREST-RATE RISK OF LEVERAGE. WHAT WILL YOU DO AS THESE SWAPS ROLL OFF?

A. In order to avoid a significant impact on the Fund's portfolio, the maturities of the swap agreements have been staggered over a three-year time period. While we will continue to actively evaluate the opportunity to use swaps, given the current economic environment and the low likelihood of near-term interest rate increases, it does not appear to be advantageous to lock in rates by entering into new swap agreements. See the section titled "Leverage" to learn how the Fund uses leverage and swap agreements to enhance total return and manage interest-rate risk.

Strategic Total Return Fund

6 ANNUAL REPORT Investment Team Interview

Investment Team Interview

Q. WHAT IS YOUR OUTLOOK IN THE COMING YEAR AND HOW ARE YOU POSITIONING THE PORTFOLIO ACCORDINGLY?

A. Among the three main asset categories, we do not currently anticipate making major allocation changes, but are open to adjusting weightings as we identify opportunities. Across the portfolio, we are favoring traditional high-quality growth companies with quality characteristics, such as strong balance sheets, capable management and solid prospects for steady earnings growth. Many of these types of companies have seen a great deal of earnings growth in recent years that's not reflected in their stock prices. The portfolio also reflects our economic outlook and identification of global themes that we believe will drive the markets and the economy over the long term.

We continue to emphasize investments in software names and consulting. We

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

believe these information technology companies are well positioned to benefit from multiple trends. For example, as corporations strive to remain competitive in a global economy, they make considerable investment in technology in order to enhance productivity. Given the strong state of corporate balance sheets, we expect capital expenditures to bolster these information technology companies. Moreover, information technology companies continue to be the source of innovations that are changing the world; and consumer demand remains extremely robust.

We have also increased allocations to consumer discretionary and health care, in keeping with our economic outlook and positive view on the prospects for quality companies with sustainable businesses. In particular, we're favoring health care industries that contain fast-growing, top-line businesses such as biotechnology and services.

In contrast, we are increasingly selective about energy and materials and have pared allocations to these areas. For example, in energy, we are placing less emphasis on companies whose fortunes are most closely tied to fluctuations in crude prices. Of course, we balance these considerations with our use of diversification as a risk management tool. Because no one can predict what will happen next in the world, we do believe it is prudent to maintain allocations across the major sectors of the market.

We believe convertible bonds continue to offer an attractive risk/reward choice for investors. With regard to our convertible holdings, we continue to favor hybrid, equity-sensitive convertibles so that we can continue to participate in any upward movement of the stock market.

The fundamentals of the high-yield market remain solid, and we believe the market looks fairly priced: defaults are low, corporate balance sheets are sound and companies have sufficient cash on hand to service their debts. As high-yield issues are typically more economically sensitive than interest-rate sensitive, these securities should benefit from continued economic growth. While remaining attuned to top-down concerns, we emphasize an issue-by-issue approach in our high-yield portfolios. We look for companies with good return on invested capital and stable or improving credit position; we also favor companies that may benefit from equity issuance or M&A activity. As in many of our other strategies, we have a bias toward sustainable growth companies over those with cyclical vulnerabilities. We are avoiding distressed issues, instead positioning

Strategic Total Return Fund
Investment Team Interview ANNUAL REPORT 7

Investment Team Interview

our portfolios with a bias toward securities in the higher quality tiers of the high-yield universe. Given that the performance of high-yield bonds is equity sensitive, our research seeks to determine the financial strength and prospects of issuing companies--as well as catalysts for upside.

Q. ANY FINAL THOUGHTS FOR INVESTORS?

A. We are firm believers in remaining positioned for the long term and have long recognized the impossibility of predicting the exact timing of market shifts. Accordingly, we continue to attempt to position our portfolios ahead of events and market turns, rather than trying to chase them. Based on our economic outlook, we continue to emphasize investments in companies with quality hallmarks--such as strong balance sheets, capable management and well-planned business strategies. We have found many opportunities to invest in these

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

companies at what we believe are attractive prices. We thank you for your continued support and look forward to helping you attain your financial goals.

NOTES TO SCHEDULE OF INVESTMENTS

Note: Value for Securities denominated in foreign currencies are shown in U.S. dollars.

* 144A securities are those that are exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities are generally issued to qualified institutional buyers ("QIBs"), such as the Fund. Any resale of these securities must generally be effected through a sale that is exempt from registration (e.g. a sale to another QIB), or the security must be registered for public sale. At October 31, 2006, the market value of 144A securities that were not subject to mandatory issuer registration obligations is \$172,686,158 or 7.1% of net assets.

@ Security, or portion of security, is on loan.

Non-income producing security.

++ Variable rate security. The interest rate shown is the rate in effect at October 31, 2006.

& Securities exchangeable or convertible into securities of an entity different than the issuer. Such entity is identified in the parenthetical.

Strategic Total Return Fund
Statements of Changes in Net Assets ANNUAL REPORT 19

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION. CALAMOS Strategic Total Return Fund (the "Fund") was organized as a Delaware statutory trust on December 31, 2003 and is registered under the Investment Company Act of 1940 (the "1940 Act") as a diversified, closed-end management investment company. The Fund commenced operations on March 26, 2004.

The Fund's investment objective is to provide total return through a combination of capital appreciation and current income. Under normal circumstances, the Fund will invest primarily in common and preferred stocks and income producing securities such as investment grade and below investment grade debt securities.

PORTFOLIO VALUATION. Calamos Advisors LLC ("Calamos Advisors") values the Fund's portfolio securities in accordance with policies and procedures on the valuation of securities adopted by the Board of Trustees and under the ultimate supervision of the Board of Trustees.

Portfolio securities that are traded on U.S. securities exchanges, except option securities, are valued at the last current reported sales price at the time as of which the Fund determines its NAV. Securities traded in the over-the-counter ("OTC") market and quoted on The Nasdaq Stock Market are valued at the Nasdaq Official Closing Price ("NOCP"), as determined by Nasdaq, or lacking a NOCP, the last current reported sale price on Nasdaq at the time as of which the Fund determines its NAV.

When a most recent last sale or closing price is not available, portfolio securities, other than option securities, that are traded on a U.S. securities exchange and other securities traded in the OTC market are valued at the mean between the most recent bid and asked quotations in accordance with guidelines adopted by the Board of Trustees. Each option security traded on a U.S. securities exchange is valued at the mid-point of the consolidated bid/ask quote for the option security, also in accordance with guidelines adopted by the Board of Trustees. Each OTC option that is not traded through the Options Clearing Corporation is valued by the counterparty to such option. If the pricing committee determines that the valuation of a security in accordance with the methods described above is not reflective of a fair value for such security, the security, including any thinly-traded security, junk bond or synthetic convertible instrument, is valued at a fair value by the pricing committee, under the ultimate supervision of the Board of Trustees, following the guidelines and/or procedures adopted by the Board of Trustees.

Trading in securities on European and Far Eastern securities exchanges and OTC markets is typically completed at various times before the close of business on each day on which the NYSE is open. Each security trading on these exchanges or OTC markets is evaluated utilizing a systematic fair valuation model provided by an independent pricing service approved by the Board of Trustees. The valuation of each security that meets certain criteria in relation to the valuation model is systematically adjusted to reflect the impact of movement in the U.S. market after the foreign markets close. Securities that do not meet the criteria, or that are principally traded in other foreign markets, are valued as of the last current sale price at the time as of which the Fund determines its NAV, or when reliable market prices or quotations are not readily available, at the mean

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

between the most recent bid and asked quotations as of the close of the appropriate exchange or other designated time, in accordance with guidelines adopted by the Board of Trustees. Trading of foreign securities may not take place on every NYSE business day. In addition, trading may take place in various foreign markets on Saturdays or on other days when the NYSE is not open and on which the Fund's NAV is not calculated. As stated above, if the market prices are not readily available or are not reflective of a security's fair value, the security is valued at a fair value by the pricing committee, under the ultimate supervision of the Board of Trustees, following the guidelines and/or procedures adopted by the Board of Trustees.

The Fund also may use fair value pricing, pursuant to Board of Trustees guidelines and under the ultimate supervision of the Board of Trustees if the value of a foreign security it holds is materially affected by events occurring before their pricing time but after the close of the primary market or exchange on which the security is traded. Those procedures may utilize valuations furnished by pricing services approved by the Board of Trustees, which may be based on market transactions for comparable securities and various relationships between securities that are generally recognized by institutional traders, a computerized matrix system, or appraisals derived from information concerning the securities or similar securities received from recognized dealers in those securities.

Strategic Total Return Fund
20 ANNUAL REPORT Notes to Financial Statements

Notes to Financial Statements

When fair value pricing of securities is employed, the prices of securities used by the Fund to calculate its NAV may differ from market quotations or official closing prices.

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME. Short-term investment transactions are recorded on a trade date basis. Long-term investment transactions are recorded on a trade date plus one basis, except for fiscal quarter ends, which are recorded on trade date. Net realized gains and losses from investment transactions are reported on an identified cost basis. Interest income is recognized using the accrual method and includes accretion of original issue and market discount and amortization of premium. Dividend income is recognized on the ex-dividend date, except that certain dividends from foreign securities are recorded as soon as the information becomes available.

FOREIGN CURRENCY TRANSLATION. Values of investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars using a rate quoted by a major bank or dealer in the particular currency market, as reported by a recognized quotation dissemination service.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

Reported net realized foreign currency gains or losses arise from disposition of foreign currency, the difference in the foreign exchange rates between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the ex-date or accrual date and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes (due to the changes in the exchange rate) in the value of foreign

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

currency and other assets and liabilities denominated in foreign currencies held at period end.

OPTION TRANSACTIONS. For hedging and investment purposes, the Fund may purchase or write (sell) put and call options. One of the risks associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of purchased call options is increased by premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by the Fund on the expiration date as realized gains from written options. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a written put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund as writer of an option bears the market risk of an unfavorable change in the price of the security underlying the written option.

USE OF ESTIMATES. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

INCOME TAXES. No provision has been made for U.S. income taxes because the Fund's policy is to continue to qualify as a regulated investment company under the Internal Revenue Code of 1986, as amended (the "Code") and distribute to shareholders substantially all of its taxable income and net realized gains.

Strategic Total Return Fund
Notes to Financial Statements ANNUAL REPORT 21

Notes to Financial Statements

Dividends and distributions paid to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains is determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. To the extent these "book/tax" differences are permanent in nature such amounts are reclassified within the capital accounts based on their federal tax-basis treatment. These differences are primarily due to differing treatments for foreign currency transactions, contingent payment debt instruments and methods of amortizing and accreting fixed income securities. Financial records are not adjusted for temporary differences.

INDEMNIFICATIONS. Under the Fund's organizational documents, its officers and trustees are indemnified against certain liabilities incurred by them by reason of having been an officer or trustee of the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

NEW ACCOUNTING PRONOUNCEMENTS. On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. At this time, management is evaluating the implications of FIN 48 and its impact on the Fund's financial statements has not yet been determined.

In addition, in September 2006, the Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management is currently evaluating the impact the adoption of SFAS 157 will have on the Fund's financial statements and their disclosures and its impact has not yet been determined.

NOTE 2 - INVESTMENT ADVISOR AND TRANSACTIONS WITH AFFILIATES OR CERTAIN OTHER PARTIES

Pursuant to an investment advisory agreement with Calamos Advisors LLC, the Fund pays an annual fee, payable monthly, equal to 1.00% based on the average weekly managed assets. "Managed assets" means the Fund's total assets (including any assets attributable to any leverage that may be outstanding) minus total liabilities (other than debt representing financial leverage).

Pursuant to a financial accounting services agreement, Calamos Advisors receives a fee payable monthly at the annual rate of 0.0175% on the first \$1 billion of combined assets, 0.0150% on the next \$1 billion of combined assets, and 0.0110% on combined assets above \$2 billion for financial accounting services (for purposes of this calculation "combined assets" means the total of the average daily net assets of Calamos Investment Trust, Calamos Advisors Trust and the average weekly managed assets of Calamos Convertible and High Income Fund, Calamos Convertible Opportunities and Income Fund, Calamos Strategic Total Return Fund and Calamos Global Total Return Fund). Financial accounting services include, but are not limited to, the following: managing expenses and expense payment processing; monitoring the calculation of expense accrual amounts; calculating, tracking, and reporting tax adjustments on all assets and monitoring trustee deferred compensation plan accruals and valuations. The Fund pays its pro rata share of the financial accounting services fee payable to Calamos Advisors based on the Fund's relative portion of combined assets.

The Fund reimburses the advisor for a portion of compensation paid to the Fund's Chief Compliance Officer. This compensation is reported as part of "Trustees' fees and officer compensation" expenses on the Statement of Operations.

Included in the statement of operations under the caption "Earnings credits" is an expense offset of \$41,913, arising from credits on cash balances maintained on deposit.

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

Strategic Total Return Fund
22 ANNUAL REPORT Notes to Financial Statements

Notes to Financial Statements

Certain officers and trustees of the Fund are also officers and directors of Calamos Financial Services LLC ("CFS") and Calamos Advisors. All officers and affiliated Trustees serve without direct compensation from the Fund, except for the Chief Compliance Officer as described above.

The Fund has adopted a deferred compensation plan (the "Plan"). Under the Plan, a trustee who is not an "interested person" (as defined in the 1940 Act) of CFS or Calamos Advisors and has elected to participate in the Plan (a "participating trustee") may defer receipt of all or a portion of his compensation from the Fund. The deferred compensation payable to the participating trustee is credited to the trustee's deferral account as of the business day such compensation would have been paid to the participating trustee. The value of the account increases with contributions to the account or with increases in the value of the measuring shares, and the value of the account decreases with withdrawals from the account or with declines in the value of the measuring shares. Deferred compensation of \$42,866 is included in "Other assets" on the Statement of Assets and Liabilities at October 31, 2006. The Fund's obligation to make payments under the Plan is a general obligation of the Fund and is included on the Statement of Assets and Liabilities as a payable for "Deferred compensation for Trustees" at October 31, 2006.

NOTE 3 - INVESTMENTS

Purchases and sales of investments, other than short-term investments for the year ended October 31, 2006 were as follows:

Purchases	\$1,608,749,243
Proceeds from sales	2,535,554,039

The following information is presented on an income tax basis as of October 31, 2006. Differences between amounts for financial statements and Federal income tax purposes are primarily due to timing differences.

The cost basis of investments for Federal income tax purposes at October 31, 2006 was as follows:

Cost basis of investments	\$3,808,424,259
Gross unrealized appreciation	294,916,081
Gross unrealized depreciation	(95,622,631)
Net unrealized appreciation (depreciation)	\$ 199,293,450

NOTE 4 - INCOME TAXES

For the year ended October 31, 2006, the Fund recorded the following permanent reclassifications to reflect tax character. Results of operations and net assets were not affected by these reclassifications.

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

Paid-in capital	\$	--
Undistributed net investment income (loss)		22,164,698
Accumulated net realized gain/(loss) on investments, written options, foreign currency transactions and interest rate swaps		(22,164,698)

Distributions during the fiscal year ended October 31, 2006 and 2005 were characterized for Federal income tax purposes as follows:

	2006	2005
	-----	-----
DISTRIBUTIONS PAID FROM:		
Ordinary income	\$216,951,537	\$184,587,693
Long-term capital gains	15,065,115	--

Strategic Total Return Fund
Notes to Financial Statements ANNUAL REPORT 23

Notes to Financial Statements

As of October 31, 2006, the components of accumulated earnings/(losses) on a tax basis were as follows:

Undistributed ordinary income	\$	6,370,479
Undistributed capital gains		17,788,433

Total undistributed earnings		24,158,912
Accumulated capital and other losses		--
Net unrealized gains/(losses)		203,671,995

Total accumulated earnings/(losses)		227,830,907
Other		(932,482)
Paid-in capital		2,200,733,859

Net assets applicable to common shareholders		\$2,427,632,284

NOTE 5 - COMMON STOCK

There are unlimited common shares of beneficial interest authorized and 154,514,000 shares outstanding at October 31, 2006. Calamos Advisors owned 16,759 of the outstanding shares at October 31, 2006. Transactions in common shares were as follows:

FOR THE YEAR ENDED	FOR THE YEAR ENDED
OCTOBER 31, 2006	OCTOBER 31, 2005

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

	-----	-----
Beginning shares	154,514,000	154,514,000
Shares issued through reinvestment of distributions	--	--
	-----	-----
Ending shares	154,514,000	154,514,000
	=====	=====

NOTE 6 - FORWARD FOREIGN CURRENCY CONTRACTS

The Fund may engage in portfolio hedging with respect to changes in currency exchange rates by entering into forward foreign currency contracts to purchase or sell currencies. A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. Risks associated with such contracts include, among other things, movement in the value of the foreign currency relative to the U.S. dollar and the ability of the counterparty to perform. The net unrealized gain, if any, represents the credit risk to the Fund on a forward foreign currency contract. The contracts are valued daily at forward exchange rates, and an unrealized gain or loss is recorded. The Fund realizes a gain or loss when a position is closed or upon settlement of the contracts. There were no open forward foreign currency contracts at October 31, 2006.

NOTE 7 - SYNTHETIC CONVERTIBLE SECURITIES

The Fund may establish a "synthetic" convertible instrument by combining separate securities that possess the economic characteristics similar to a convertible security, i.e., fixed-income securities ("fixed-income component", which may be a convertible or non-convertible security) and the right to acquire equity securities ("convertible component"). The fixed-income component is achieved by investing in fixed income securities such as bonds, preferred stocks, and money market instruments. The convertible component is achieved by investing in warrants or options to buy common stock at a certain exercise price, or options on a stock index. In establishing a synthetic instrument, the Fund may pool a basket of fixed-income securities and a basket of warrants or options that produce the economic characteristics similar to a convertible security. Within each basket of fixed-income securities and warrants or options, different companies may issue the fixed-income and convertible components, which may be purchased separately and at different times.

The Fund may purchase synthetic convertible instruments created by other parties, typically investment banks, including convertible structured notes. Convertible structured notes are fixed-income debentures linked to equity. Convertible structured notes have the attributes of a convertible security; however, the investment bank that issued the convertible note assumes the credit risk associated with the investment, rather than the issuer of the underlying common stock into which the note is convertible. Purchasing synthetic convertible securities may offer more flexibility than purchasing a convertible security.

Strategic Total Return Fund
24 ANNUAL REPORT Notes to Financial Statements

Notes to Financial Statements

NOTE 8 - WRITTEN OPTIONS TRANSACTIONS

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

The Fund may engage in options transactions and in doing so achieve the similar objectives to what it would achieve through the sale or purchase of individual securities. Transactions in options written during the year ended October 31, 2006 were as follows:

	NUMBER OF CONTRACTS	PREMIUMS RECEIVED
	-----	-----
Options outstanding at October 31, 2005	2,100	\$ 387,677
Options written	2,900	977,270
Options closed	(3,975)	(1,281,782)
Options expired	(1,000)	(74,741)
Options exercised	(25)	(8,424)
	-----	-----
Options outstanding at October 31, 2006	--	\$ --
	=====	=====

NOTE 9 - PREFERRED SHARES

There are unlimited shares of Auction Rate Cumulative Preferred Shares ("Preferred Shares") authorized. The Preferred Shares have rights as determined by the Board of Trustees. The 43,200 shares of Preferred Shares outstanding consist of seven series, 7,040 shares of M, 7,040 shares of TU, 7,040 shares of W, 7,040 shares of TH, 7,040 shares of F, 4,000 shares of A, and 4,000 shares of B. The Preferred Shares have a liquidation value of \$25,000 per share plus any accumulated but unpaid dividends, whether or not declared.

Dividends on the Preferred Shares are cumulative at a rate typically reset every seven or twenty-eight days based on the results of an auction. Dividend rates ranged from 3.75% to 5.34% for the year ended October 31, 2006. Under the 1940 Act, the Fund may not declare dividends or make other distributions on shares of common stock or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Shares would be less than 200%.

The Preferred Shares are redeemable at the Fund's option, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated but unpaid dividends. The Preferred Shares are also subject to mandatory redemption at \$25,000 per share plus any accumulated but unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of the Fund as set forth in the Statement of Preferences are not satisfied.

The holders of Preferred Shares have voting rights equal to the holders of common stock (one vote per share) and will vote together with holders of shares of common stock as a single class except on matters affecting only the holders of Preferred Shares or only the holders of common stock, when the respective classes vote alone.

NOTE 10 - INTEREST RATE TRANSACTIONS

The Fund may engage in swaps primarily to manage duration and yield curve risk, or as alternatives to direct investments. Unrealized gains are reported as an asset and unrealized losses are reported as a liability on the Statement of Assets and Liabilities. The change in value of swaps, including accruals of periodic amounts of interest to be paid or received on swaps, is reported as unrealized gains or losses in the Statement of Operations. A realized gain or loss is recorded upon payment or receipt of a periodic payment or termination of

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

the swap agreements. Swap agreements are stated at fair value. Notional principal amounts are used to express the extent of involvement in these transactions, but the amounts potentially subject to credit risk are much smaller.

Premiums paid to or by the Fund are accrued daily and included in realized gain (loss) when paid on swaps in the accompanying Statement of Operations. The contracts are marked-to-market daily based on dealer-supplied valuations and changes in value are recorded as unrealized appreciation (depreciation). Gains or losses are realized upon early termination of the contract. Risks may exceed amounts recognized in the Statement of Assets and Liabilities. These risks include changes in the returns of the underlying instruments, failure of the counterparties to perform under the contracts' terms and the possible lack of liquidity with respect to the contracts.

Strategic Total Return Fund
Notes to Financial Statements ANNUAL REPORT 25

Notes to Financial Statements

If the Fund is required to terminate any swap or cap early due to the Fund failing to maintain a required 200% asset coverage of the liquidation value of the outstanding Preferred Shares or the Fund loses its credit rating on its Preferred Shares, then the Fund could be required to make a termination payment, in addition to redeeming all or some of the Preferred Shares.

Details of the swap agreements outstanding as of October 31, 2006 were as follows:

COUNTERPARTY	TERMINATION DATE	NOTIONAL AMOUNT (000)	FIXED RATE (FUND PAYS)	FLOATING RATE (FUND RECEIVES)	UNREALIZED APPRECIATION (DEPRECIATION)
-----	-----	-----	-----	-----	-----
Citibank NA	June 4, 2007	\$150,000	3.61%	1 month LIBOR	\$1,689,351
Citibank NA	June 4, 2009	200,000	4.34%	1 month LIBOR	3,019,649

					\$4,709,000
					=====

NOTE 11 - SECURITIES LENDING

During the year ended October 31, 2006, the Fund loaned certain of its securities to broker-dealers and banks. Any such loan must be continuously secured by collateral in cash or cash equivalents maintained on a current basis in an amount at least equal to the market value of the securities loaned by the Fund. The Fund continues to receive the equivalent of the interest or dividends paid by the issuer on the securities loaned and also receives an additional return that may be in the form of a fixed fee or a percentage of the collateral. The Fund may pay reasonable fees to persons unaffiliated with the Fund for services in arranging these loans. The Fund has the right to call the loan and obtain the securities loaned at any time on notice of not more than five business days. The Fund does not have the right to vote the securities during the existence of the loan but could call the loan in an attempt to permit voting of the securities in certain circumstances. Upon return of the securities loaned, the cash or cash equivalent collateral will be returned to the borrower. In the event of bankruptcy or other default of the borrower, the Fund could

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

experience both delays in liquidating the loan collateral or recovering the loaned securities and losses, including (a) possible decline in the value of the collateral or in the value of the securities loaned during the period while the Fund seeks to enforce its rights thereto, (b) possible subnormal levels of income and lack of access to income during this period, and (c) the expenses of enforcing its rights. In an effort to reduce these risks, Calamos Advisors LLC and the security lending agent will monitor the creditworthiness of the firms to which the Fund lends securities. At October 31, 2006, the Fund had securities valued at \$512,014,547 that were on loan to broker-dealers and banks and \$527,235,000 in cash or cash equivalent collateral.

Average commission rate paid	\$ 0.0342	\$ 0.0342
Asset coverage per preferred share, at end of period(e)	\$ 81,216	\$ 76,000

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

- * Commencement of operations.
- (a) Net of sales load of \$0.675 on initial shares issued and beginning net asset value of \$14.325.
 - (b) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of the period reported. Dividends and distributions are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total return is not annualized for periods less than one year. Brokerage commissions are not reflected. NAV per share is determined by dividing the value of the Fund's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the Fund at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions.
 - (c) Annualized for periods less than one year.
 - (d) Does not reflect the effect of dividend payments to Preferred Shareholders.
 - (e) Calculated by subtracting the Fund's total liabilities (not including Preferred Shares) from the Fund's total assets and dividing this by the number of Preferred Shares outstanding.

Strategic Total Return Fund
Financial Highlights ANNUAL REPORT 27

Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of CALAMOS Strategic Total Return Fund

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of CALAMOS Strategic Total Return Fund (the "Fund") as of October 31, 2006, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years then ended and the financial highlights for each of the two years then ended and for the period from March 26, 2004 (commencement of operations) through October 31, 2004. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2006, by correspondence with the Fund's custodian and brokers. We believe that our audits provide a reasonable basis for

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of October 31, 2006, the results of its operations for the year then ended, the changes in its net assets for each of the two years then ended and the financial highlights for each of the two years then ended and for the period from March 26, 2004 (commencement of operations) through October 31, 2004, in conformity with accounting principles generally accepted in the United States of America.

Strategic Total Return Fund
28 ANNUAL REPORT Report of Independent Registered Public Accounting Firm

Tax Information (unaudited)

We are providing this information as required by the Internal Revenue Code (Code). The amounts shown may differ from those elsewhere in this report due to differences between tax and financial reporting requirements. In January 2007, shareholders will receive Form 1099-DIV which will include their share of qualified dividends and capital gains distributed during the calendar year 2006. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their individual income tax returns.

Under Section 852(b)(3)(c) of the Code, the Fund hereby designates \$15,065,115 as capital gain dividends for the fiscal year ended October 31, 2006.

Under Section 854(b)(2) of the Code, the Fund hereby designates \$53,960,972, or the maximum amount allowable under the Code, as qualified dividends for the fiscal year ended October 31, 2006.

Under Section 854(b)(2) of the Code, the Fund hereby designates 23.66% of the ordinary income dividends as income qualifying for the corporate dividends received deduction for the fiscal year ended October 31, 2006.

Trustee Approval of Management Agreement (unaudited)

The Board of Trustees of the Fund oversees the Fund's management, and, as required by law, determines annually whether to continue the Fund's management agreement with Calamos Advisors under which Calamos Advisors serves as the investment manager for the Fund.

In connection with their most recent consideration regarding the continuation of that agreement, the Trustees received and reviewed information provided by Calamos Advisors in response to detailed requests of the Independent Trustees and their independent legal counsel and discussed with representatives of Calamos Advisors the Fund's operations and the nature and quality of the

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

advisory and other services provided by Calamos Advisors to the Fund. The Trustees also received and reviewed a memorandum from counsel to the Independent Trustees regarding the Trustees' responsibilities in evaluating the management agreement. In the course of their consideration of the agreement, the Independent Trustees were advised by their counsel and, in addition to meeting with management of Calamos Advisors, they met separately in executive session with their counsel.

At a meeting on June 29, 2006, based on their evaluation of the information referred to above and other information, the Trustees determined that the overall arrangements between the Fund and Calamos Advisors were fair and reasonable in light of the nature and quality of the services provided by Calamos Advisors and its affiliates, the fees charged for those services and other matters that the Trustees considered relevant in the exercise of their business judgment. At that meeting the Trustees, including all of the Independent Trustees, unanimously approved continuation of the management agreement through August 1, 2007, subject to earlier termination as provided in the agreement.

In considering the continuation of the management agreement, the Trustees reviewed and analyzed various factors that they determined were relevant, including the factors described below, none of which by itself was considered the sole factor in the Trustees' determinations. However, the material factors and conclusions that formed the basis for the Trustees' determination to approve the continuation of the management agreement are discussed separately below.

NATURE, QUALITY AND EXTENT OF SERVICES

The Trustees reviewed the nature, extent and quality of Calamos Advisors' services to the Fund, taking into account the Fund's investment objective and strategy and the knowledge of the Trustees gained from their regular meetings with management on at least a quarterly basis. In addition, the Trustees reviewed Calamos Advisors' resources and key personnel, especially those who provide investment management services to the Fund. The Trustees also considered other services provided to the Fund by Calamos Advisors, such as managing the execution of portfolio transactions and the selection of broker-dealers for those transactions, monitoring adherence to the Fund's investment restrictions, producing shareholder reports, providing support services for the Board and Board committees, communicating with shareholders, overseeing the activities of other service providers and monitoring compliance with various Fund policies and procedures and with applicable securities laws and regulations.

The Trustees concluded that the nature and extent of the services provided by Calamos Advisors to the Fund were appropriate and consistent with the terms of the management agreement, that the quality of those services had been consistent with or superior to quality norms in the industry and that the Fund was likely to benefit from the continued provision of those services. They also concluded that Calamos Advisors had sufficient personnel, with the appropriate education and experience, to serve the Fund effectively and had demonstrated its continuing ability to attract and retain well-qualified personnel.

PERFORMANCE

The Trustees considered the Fund's performance results over various time periods. They reviewed information comparing the performance of the Fund with the performance of comparable funds and peer groups identified by Lipper Inc., an independent provider of investment company data, and with the Fund's benchmark. The Trustees heard from representatives of Calamos Advisors, who provided additional information with regard to certain aspects of the Lipper materials and answered questions from the Trustees. The Trustees also noted that the Fund had less than three years of performance data, and thus did not have a

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

Strategic Total Return Fund
30 ANNUAL REPORT Trustee Approval of Management Agreement

Trustee Approval of Management Agreement (unaudited)

long-term performance record. The Trustees concluded that the Fund's operating history was too short a period to allow for a meaningful performance comparison.

COSTS OF SERVICES AND PROFITS REALIZED BY CALAMOS ADVISORS

The Trustees examined information on the Fund's fees and expenses in comparison to information for other comparable funds as provided by Lipper. Also, the Trustees reviewed information on fees and expenses for additional funds identified by Calamos Advisors. The Trustees noted that, although the Fund's contractual rate of management fees, actual management fees after fee waivers and overall expense ratio were higher than those of its peer group, each of those data points appeared to be within a range of what was determined to be reasonable.

The Trustees considered the methodology used by Calamos Advisors in determining compensation payable to portfolio managers, the competitive environment for investment management talent, and the competitive market for mutual funds in different distribution channels.

The Trustees reviewed information on the profitability of Calamos Advisors in serving as the Fund's investment manager and of Calamos Advisors and its affiliates in all of their relationships with the Fund, as well as an explanation of the methodology utilized in allocating various expenses among the Fund and other business units. Data was provided to the Trustees with respect to profitability, both on a pre- and post-marketing cost basis. The Trustees also reviewed the annual report of Calamos Advisors' parent company and discussed its corporate structure. The Trustees recognized that profitability comparisons among fund managers are difficult because very little comparative information is publicly available and profitability of any manager is affected by numerous factors, including the organizational structure of the particular manager, the types of funds and other accounts it manages, possible other lines of business, the methodology for allocating expenses and the manager's capital structure and cost of capital. However, based on the information available and taking those factors into account, the Trustees concluded that the profitability of Calamos Advisors regarding the Fund in relation to the services rendered was not unreasonable.

The Trustees also reviewed Calamos Advisors' management fees for its institutional separate accounts and for its subadvised funds (for which Calamos Advisors provides portfolio management services only), as well as managed fees for secondary accounts. Although in most instances its sub-advisory fees, and in many instances its institutional separate accounts fees, for various investment strategies are lower than the management fees charged to the Fund, the Trustees noted that Calamos Advisors performs significant additional services for the Fund that it does not provide to those other clients, including administrative services, oversight of the Fund's other service providers, trustee support, regulatory compliance and numerous other services. Finally, the Trustees considered Calamos Advisors' financial condition, which they found to be sound.

The Trustees concluded that the management fees and other compensation payable by the Fund to Calamos Advisors and its affiliates were reasonable in relation to the nature and quality of the services to be provided, taking into account the fees charged by other advisers for managing comparable mutual funds with similar strategies and the fees Calamos Advisors charges to other clients. The

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

Trustees also concluded that the Fund's overall expense ratio was reasonable, taking into account the quality of services provided by Calamos Advisors and the Fund's investment performance.

ECONOMIES OF SCALE

In reviewing the Fund's fees and expenses, the Trustees examined the potential benefits of economies of scale and whether any economies of scale should be reflected in the Fund's fee structure. They noted that the Fund has had a relatively stable asset base since commencement of operation and that there do not appear to have been any significant economies of scale realized since that time.

Strategic Total Return Fund
Trustee Approval of Management Agreement ANNUAL REPORT 31

Trustee Approval of Management Agreement (unaudited)

OTHER BENEFITS TO CALAMOS ADVISORS

The Trustees also considered benefits that accrue to Calamos Advisors and its affiliates from their relationship with the Fund. The Trustees concluded that, other than the services to be provided by Calamos Advisors and its affiliates pursuant to their agreements with the Fund and the fees payable by the Fund therefor, the Fund and Calamos Advisors may potentially benefit from their relationship with each other in other ways. The Trustees considered Calamos Advisors' use of commissions paid by the Fund on its portfolio brokerage transactions to obtain proprietary research products and services benefiting the Fund and/or other clients of Calamos Advisors. The Trustees concluded that Calamos Advisors' use of "soft" commission dollars to obtain research products and services was consistent with regulatory requirements and is beneficial to the Fund. They concluded that, although Calamos Advisors derives or may derive additional benefits through the use of soft dollars from the Fund's portfolio transactions, the Fund also benefits from the receipt of research products and services acquired through commissions paid on the portfolio transactions of other clients of Calamos Advisors. They also concluded that the Fund's success could attract other business to Calamos Advisors or its other funds and that Calamos Advisors' success could enhance its ability to serve the Fund.

After full consideration of the above factors as well as other factors that were instructive in analyzing continuation of the management agreement for the one-year period ending August 1, 2007, the Trustees, including all of the Independent Trustees, concluded that the continuation of the management agreement with Calamos Advisors was in the best interest of the Fund and its shareholders.

About Closed-End Funds

WHAT IS A CLOSED-END FUND?

A closed-end fund is a publicly traded investment company that raises its initial investment capital through the issuance of a fixed number of shares to

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

investors in a public offering. Shares of a closed-end fund are listed on a stock exchange or traded in the over-the-counter market. Like all investment companies, a closed-end fund is professionally managed and offers investors a unique investment solution based on its investment objective approved by the fund's Board of Directors.

ADVANTAGES OF CLOSED-END FUND INVESTING

- DEFINED ASSET POOL ALLOWS EFFICIENT PORTFOLIO MANAGEMENT--Although closed-end fund shares trade actively on a securities exchange, this doesn't affect the closed-end fund manager because there are no new investors buying into or selling out of the fund's portfolio.
- MORE FLEXIBILITY IN THE TIMING AND PRICE OF TRADES--Investors can purchase and sell shares of closed-end funds throughout the trading day, just like the shares of other publicly traded securities.
- LOWER EXPENSE RATIOS--The expense ratios of closed-end funds are oftentimes less than those of mutual funds. Over time, a lower expense ratio could enhance investment performance.
- CLOSED-END STRUCTURE MAKES SENSE FOR LESS-LIQUID ASSET CLASSES--A closed-end structure makes sense for investors considering less-liquid asset classes, such as high-yield bonds or micro-cap stocks.
- ABILITY TO PUT LEVERAGE TO WORK--Closed-end funds may issue senior securities (such as preferred stock or debentures) or borrow money to "leverage" their investment positions.
- NO MINIMUM INVESTMENT REQUIREMENTS

OPEN-END MUTUAL FUNDS VERSUS CLOSED-END FUNDS

OPEN-END FUND

Issues new shares on an ongoing basis

Issues one class of shares

Sold at NAV plus any sales charge

Sold through the fund's distributor

Fund redeems shares at NAV calculated at the close of business day

CLOSED-END FUND

Issues a fixed number of shares

Can issue senior securities such as preferred stock and bonds

Price determined by the marketplace

Traded in the secondary market

Fund does not redeem shares

Strategic Total Return Fund
About Closed-End Funds ANNUAL REPORT 37

Leverage

USING LEVERAGE TO ENHANCE TOTAL RETURN

Closed-end funds can use leverage which utilizes borrowed money to increase the return on invested capital. The Fund invests the borrowed assets into

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

securities, which we believe will provide a greater total return to investors than the cost of the borrowing.

HIGHLIGHTS ON LEVERAGE

- Leveraging the portfolio allows the investment team to potentially enhance the income and total returns of the Fund.
- In a rising-rate environment, the cost of leverage typically increases. To protect against increases, the investment team has locked in the cost of leverage for a longer term. In leveraged closed-end funds that invest in interest-rate sensitive securities (high-quality traditional fixed income), rising rates can negatively impact a fund in two ways: increasing the cost of leverage and decreasing the value of securities.
- This portfolio does not have notable sensitivity to rising interest rates. Much of the cost of leverage has been locked in, and the portfolio seeks to invest in securities that should be more economically sensitive and less interest rate-sensitive.

MANAGING THE INTEREST RATE RISK OF LEVERAGE

In general, leverage can expose a closed-end fund to the risk of fluctuations in short-term interest rates. As we discussed in the Investment Team Interview, Calamos Investments has taken steps to mitigate some of this risk to our shareholders. Specifically, we hedged the Fund's preferred shares (used these shares as principal) to enter into interest rate swap agreements. In its simplest form, an interest rate swap involves two parties agreeing to exchange or "swap" one set of cash flows for another set. In essence, the agreement allows a party that desires to avoid a variable rate (Calamos) to pay a fixed rate to a party that desires variability.

THE DEALER MARKET FOR INTEREST RATE SWAPS

(FLOW CHART)

Under these agreements, the Fund pays a potentially higher rate for borrowing initially, but that rate is fixed for a period of three to five years, thereby potentially reducing the interest costs that the Fund would otherwise pay over the period based on a floating or variable rate.

Strategic Total Return Fund
38 ANNUAL REPORT Leverage

Level Rate Distribution Policy

USING A LEVEL RATE DISTRIBUTION POLICY TO PROMOTE DEPENDABLE INCOME AND TOTAL RETURN

The goal of the level rate distribution policy is to provide investors a predictable, though not assured, level of cash flow, which can either serve as a stable income stream or, through reinvestment, contribute significantly to long-term total return.

We understand the importance that investors place on the stability of dividends and their ability to contribute to long-term total return, which is why we have instituted a level rate distribution policy for the Fund. Under the policy, monthly distributions paid may include net investment income, net realized short-term capital gains and, if necessary, return of capital. In addition, a

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

limited number of distributions per calendar year may include net realized long-term capital gains. There is no guarantee that the Fund will realize capital gains in any given year. Distributions are subject to re-characterization for tax purposes after the end of the fiscal year. All shareholders with taxable accounts will receive written notification regarding the components and tax treatment for distributions via Form 1099-DIV.

Distributions from the Fund are generally subject to Federal income taxes. For purposes of maintaining the level rate distribution policy, the Fund may realize short-term capital gains on securities that, if sold at a later date, would have resulted in long-term capital gains. Maintenance of a level rate distribution policy may increase transaction and tax costs associated with the Fund.

Automatic Dividend Reinvestment Plan

MAXIMIZING INVESTMENT WITH AN AUTOMATIC DIVIDEND REINVESTMENT PLAN

The Automatic Dividend Reinvestment Plan offers a simple, cost-efficient and convenient way to reinvest your dividends and capital gains distributions in additional shares of the Fund, allowing you to increase your investment in the Fund.

BENEFITS

- **COMPOUNDED GROWTH:** By automatically reinvesting with the Plan, you gain the potential to allow your dividends and capital gains to compound over time.
- **POTENTIAL FOR LOWER COMMISSION COSTS:** Additional shares are purchased in large blocks, with brokerage commissions shared among all plan participants. There is no cost to enroll in the Plan.
- **CONVENIENCE:** After enrollment, the Plan is automatic and includes detailed statements for participants. Participants can terminate their enrollment at any time.

For additional information about the Plan, please contact the Plan Agent, The Bank of New York, at 800.432.8224 or visit us on the web at www.calamos.com/csq.aspx. If you wish to participate in the Plan and your shares are held in your own name, simply call the Plan Agent. If your shares are not held in your name, please contact your brokerage firm, bank, or other nominee to request that they participate in the Plan on your behalf. If your brokerage firm, bank, or other nominee is unable to participate on your behalf, you may request that your shares be re-registered in your own name.

We're pleased to provide our shareholders with the additional benefit of the Fund's Dividend Reinvestment Plan and hope that it may serve your financial plan.

The Calamos Investments Advantage

Calamos' history is one of performing well for our clients through nearly 30 years of advances and declines in the market. We use proprietary risk-management strategies designed to control volatility, maintaining a balance between risk and reward throughout a market cycle.

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

DISCIPLINED INVESTMENT PHILOSOPHY AND PROCESS

Calamos Investments has developed a proprietary research and monitoring process that goes far beyond traditional security analysis. This process applies to each of our investment strategies, with emphasis varying by strategy. When combined with the company-specific research and industry insights of our investment team, the result is nimble dynamic management of a portfolio that allows us to anticipate and adapt to changing market conditions. In each of our investment strategies, from the most conservative to the most aggressive, our goals include maximizing return while controlling risk, protecting principal during volatile markets, avoiding short-term market timing, and maintaining a vigilant long-term outlook.

COMPREHENSIVE RISK MANAGEMENT

Our approach to risk management includes continual monitoring, adherence to our discipline, and a focus on assuring a consistent risk profile during all phases of the market cycle. Incorporating qualitative and quantitative factors as well as a strong sell discipline, this risk-control policy seeks to help preserve investors' capital over the long term.

PROVEN MANAGEMENT TEAM

The Calamos family of mutual funds benefit from our team's decades of experience in the investment industry. We follow a one-team, one-process approach that leverages the expertise of more than 50 investment professionals, led by John P. Calamos, Sr. and Nick P. Calamos, whose investment industry experience dates back to 1970 and 1983, respectively. Through the collective industry experience and educational achievements of our research and portfolio staff, we can respond to the challenges of the market with innovative and timely ideas.

SOUND PROPRIETARY RESEARCH

Over the years, we have invested significant time and resources in developing and refining sophisticated analytical models that are the foundation of the firm's research capabilities, which we apply in conjunction with our assessment of broad themes. We believe evolving domestic policies, the growing global economy, and new technologies present long-term investment opportunities for those who can detect them.

Calamos Investments - 2020 Calamos Court - Naperville, IL 60563-2787
- 800.582.6959 - www.calamos.com

A description of the Calamos Proxy Voting Policies and Procedures and the Fund's proxy voting record for the 12 month period ended June 30, 2006 are available free of charge upon request by calling 800.582.6959, by visiting the Calamos website at www.calamos.com, by writing Calamos at: Calamos Investments, Attn: Client Services, 2020 Calamos Court, Naperville, IL 60563 or by visiting the SEC website at <http://www.sec.gov>.

The Funds file a complete list of their portfolio holdings with the SEC for the first and third quarters each fiscal year on Form N-Q. The Forms N-Q are available free of charge, upon request, by calling or writing Calamos Investments at the phone number or address provided above or by visiting the SEC website at <http://www.sec.gov>. You may also review or, for a fee, copy the forms at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 800.732.0330.

On April 27, 2006, the Fund submitted a CEO annual certification to the NYSE on which the Fund's chief executive officer certified that he was not aware, as of that date, of any violation by the Fund of the NYSE's corporate governance listing standards. In addition, the Fund's report to the SEC on Form N-CSR contains certifications by the fund's principal executive officer and principal financial officer as required by Rule 30a-2(a) under the 1940 Act, relating to, among other things, the quality of the Fund's disclosure controls and procedures and internal control over financial reporting.

CSQANR 1946 2006

ITEM 2. CODE OF ETHICS.

(a) The registrant has adopted a code of ethics (the "Code of Ethics") that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or person performing similar functions.

(b) Not applicable.

(c) The registrant has not amended its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.

(d) The registrant has not granted a waiver or an implicit waiver from its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.

(e) Not applicable.

(f) (1) The registrant's Code of Ethics is attached as an Exhibit hereto.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Trustees has determined that, for the period covered by the shareholder report presented in Item 1 hereto, it has four audit committee financial experts serving on its audit committee, each of whom is an

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

independent Trustee for purpose of this N-CSR item: John E. Neal, Stephen B. Timbers, David D. Tripple and William Rybak. Under applicable securities laws, a person who is determined to be an audit committee financial expert will not be deemed an "expert" for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as a result of being designated or identified as an audit committee financial expert. The designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligation, or liabilities that are greater than the duties, obligations and liabilities imposed on such person as a member of audit committee and Board of Trustees in the absence of such designation or identification.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

a) Audit Fee - \$34,717 and \$54,623 are the aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant to the registrant for the audit of the registrant; annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years.

(b) Audit-Related Fees - \$27,192 and \$64,270 are the aggregate fees billed in each of the last two fiscal years for assurance and related services rendered by the principal accountant to the registrant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item 4.

(c) Tax Fees - \$4,850 and \$9,296 are the aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant to the registrant for tax compliance, tax advice, tax planning and tax return preparation.

There were no fees billed in each of the last two fiscal years for professional services rendered by the principal accountant to the investment adviser for tax compliance, tax advice and tax planning that were required to be pre-approved by the audit committee as described in paragraph (e)(1) of this Item 4.

(d) All Other Fees - \$101,848 and \$0 are the aggregate fees billed in each of the last two fiscal years for products and services provided by the principal accountant to the registrant, other than the services reported in paragraph (a)-(c) of this Item 4.

There were no fees billed in each of the last two fiscal years for products and services provided by the principal accountant to the investment adviser, other than the services reported in paragraphs (a)-

(c) of this Item 4, that were required to be pre-approved by the audit committee as described in paragraph (e)(1) of this Item 4.

(e) (1) Registrant's audit committee meets with the principal accountants and management to review and pre-approve all audit services to be provided by the principal accountants.

The audit committee shall pre-approve all non-audit services to be provided by the principal accountants to the registrant, including the fees and other compensation to be paid to the principal accountants; provided that the pre-approval of non-audit services is waived if (i) the services were not recognized by management at the time of the engagement as non-audit services, (ii) the aggregate fees for all non-audit services provided to the registrant

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

are less than 5% of the total fees paid by the registrant to its principal accountants during the fiscal year in which the non-audit services are provided, and (iii) such services are promptly brought to the attention of the audit committee by management and the audit committee approves them prior to the completion of the audit.

The audit committee shall pre-approve all non-audit services to be provided by the principal accountants to the investment adviser or any entity controlling, controlled by or under common control with the adviser that provides ongoing services to the registrant if the engagement relates directly to the operations or financial reporting of the registrant, including the fees and other compensation to be paid to the principal accountants; provided that pre-approval of non-audit services to the adviser or an affiliate of the adviser is not required if (i) the services were not recognized by management at the time of the engagement as non-audit services, (ii) the aggregate fees for all non-audit services provided to the adviser and all entities controlling, controlled by or under common control with the adviser are less than 5% of the total fees for non-audit services requiring pre-approval under paragraph (e)(1) of this Item 4 paid by the registrant, the adviser or its affiliates to the registrant's principal accountants during the fiscal year in which the non-audit services are provided, and (iii) such services are promptly brought to the attention of the audit committee by management and the audit committee approves them prior to the completion of the audit.

(2) 100% of the services provided to the registrant described in paragraphs (b)-(d) of this Item 4 were pre-approved by the audit committee pursuant to paragraphs (e)(1) of this Item 4. There were no services provided to the investment adviser or any entity controlling, controlled by or under common control with the adviser described in paragraphs (b)-(d) of this Item 4 that were required pre-approved by the audit committee.

(f) No disclosures are required by this Item 4(f).

(g) \$106,698 and \$9,296 are the aggregate non-audit fees billed in each of the last two fiscal years for services rendered by the principal accountant to the registrant. \$31,256 and \$0 are the aggregate non-audit fees billed in each of the last two fiscal years for services rendered by the principal accountant to the investment adviser or any entity controlling, controlled by or under common control with the adviser. All of the aggregate fees billed by the principal accountant

for non-audit services to the registrant's investment adviser relate to services that began prior to the adoption of rules requiring audit committee pre-approval. However, the registrant's audit committee did approve such non-audit services.

(h) No disclosures are required by this Item 4(h).

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant has a separately-designated standing audit committee. The members of the registrant's audit committee are John E. Neal, Joe F. Hanauer, Weston W. Marsh, William R. Rybak, David D. Tripple and Stephen B. Timbers.

ITEM 6. SCHEDULE OF INVESTMENTS

Included in the Report to Shareholders in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

The registrant has delegated the voting of proxies relating to its voting securities to its investment adviser, Calamos Advisors LLC ("Calamos"). A description of Proxy Voting Policies and Procedures of ("Calamos") are included as an Exhibit hereto.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

(a)(1) As of October 31, 2006, the registrant is lead by a team of investment professionals, including the following individuals who are responsible for the day-to-day management of the registrant's portfolio ("portfolio managers"):

NAME -----	POSITIONS HELD WITH THE REGISTRANT -----	PRINCIPAL OCCUPATION(S) DURING PAST FIVE YEARS -----
*John P. Calamos, Sr.	Trustee and President (since 2003)	Chairman, CEO and Co-Chief Investment Officer, Calamos Asset Management, Inc. ("CAM"), Calamos Holdings LLC ("CHLLC") and Calamos Advisors LLC and its predecessor ("Calamos Advisors"), and President and Co-Chief Investment Officer, Calamos Financial Services LLC and its predecessor ("CFS"); Director, CAM
**Nick P. Calamos	Vice President (since 2003)	Senior Executive Vice President and Co-Chief Investment Officer, CAM, CHLLC, Calamos Advisors and CFS

* John P. Calamos, Sr. is an "interested person" of the registrant as defined in the Investment Company Act of 1940.

** Nick Calamos resigned from the board of trustees effective June 28, 2006.

(a)(2) The portfolio managers also have responsibility for the day-to-day management of accounts other than the registrant. Information regarding these other accounts is set forth below.

NUMBER OF OTHER ACCOUNTS MANAGED AND ASSETS BY ACCOUNT TYPE AS OF OCTOBER 31, 2006

	Registered Investment Companies		Other Pooled Investment Vehicles		Other Accounts	
	Accounts -----	Assets -----	Accounts -----	Assets -----	Accounts -----	Assets -----
John P. Calamos, Sr.	18	34,272,794,840	3	157,150,982	24,128	10,943,683
Nick P. Calamos	18	34,272,794,840	3	157,150,982	24,128	10,943,683

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

NUMBER OF ACCOUNTS AND ASSETS FOR WHICH ADVISORY FEE IS PERFORMANCE BASED AS OF OCTOBER 31, 2006

	Registered Investment Companies		Other Pooled Investment Vehicles		Other Accounts	
	Accounts	Assets	Accounts	Assets	Accounts	Assets
John P. Calamos, Sr.	1	298,575,715	2	95,215,600	1	9,326,764
Nick P. Calamos	1	298,575,715	2	95,215,600	1	9,326,764

The registrant's portfolio managers are responsible for managing the registrant and other accounts, including separate accounts and unregistered funds.

Other than potential conflicts between investment strategies, the side-by-side management of both the registrant and other accounts may raise potential conflicts of interest due to the interest held by Calamos in an account and certain trading practices used by the portfolio managers (e.g., cross trades between the registrant and another account and allocation of aggregated trades). Calamos has developed policies and procedures reasonably designed to mitigate those conflicts. For example, Calamos will only place cross-trades in securities held by the registrant in accordance with the rules promulgated under the

Investment Company Act of 1940 and has adopted policies designed to ensure the fair allocation of securities purchased on an aggregated basis.

The portfolio managers advise certain accounts under a performance fee arrangement. A performance fee arrangement may create an incentive for a portfolio manager to make investments that are riskier or more speculative than would be the case in the absence of performance fees. A performance fee arrangement may result in increased compensation to the portfolio managers from such accounts due to unrealized appreciation as well as realized gains in the client's account.

(a) (3) The portfolio managers have each entered into employment agreements that provide for compensation in the form of a minimum annual base salary, a maximum discretionary target bonus and participation in various benefits programs. The amounts paid to portfolio managers and the criteria utilized to determine the amounts are benchmarked against industry specific data provided by third party analytical agencies. The discretionary target bonus is set at a percentage of base salary. Portfolio performance, as measured by risk-adjusted portfolio performance over a rolling three-year period, is utilized to determine the discretionary target bonus. The portfolio managers are also eligible to receive annual equity awards under a long term incentive compensation program.

(a) (4) As of October 31, 2006, the end of the registrant's most recently completed fiscal year, the dollar range of securities beneficially owned by each portfolio manager in the registrant is shown below:

PORTFOLIO MANAGER	REGISTRANT
-----	-----

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

John P. Calamos, Sr. Over \$1,000,000
 Nick P. Calamos Over \$1,000,000

(b) Not applicable.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

PERIOD -----	(A) TOTAL NUMBER OF SHARES (OR UNITS) PURCHASED -----	(B) AVERAGE PRICE PAID PER SHARE (OR UNIT) -----	(C) TOTAL NUMBER OF SHARES (OR UNITS) PURCHASED AS PART OF PUBLICLY ANNOUNCED PLANS OR PROGRAMS -----	(D) MAXIMUM NUMBER (OR APPROXIMATE DOLLAR VALUE) OF SHARES (OR UNITS) THAT MAY YET BE PURCHASED UNDER THE PLANS OR PROGRAMS -----
May 1 to May 31	N/A	N/A	N/A	N/A
June 1 to June 30	N/A	N/A	N/A	N/A
July 1 to July 31	N/A	N/A	N/A	N/A
August 1 to August 31	N/A	N/A	N/A	N/A
September 1 to September 30	N/A	N/A	N/A	N/A
October 1 to October 31	N/A	N/A	N/A	N/A
Total	N/A	N/A	N/A	N/A

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No material changes.

ITEM 11. CONTROLS AND PROCEDURES.

a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures within 90 days of this filing and have concluded that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant in this Form N-CSR was recorded, processed, summarized, and reported timely.

b) There were no changes in the registrant's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the registrant's second fiscal half-year that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

(a) (1) Code of Ethics

(a) (2) (i) Certification of Principal Executive Officer.

Edgar Filing: CALAMOS STRATEGIC TOTAL RETURN FUND - Form N-CSR

(a)(2)(ii) Certification of Principal Financial Officer.
