PROXY STATEMENT

The Board of Directors of ARI Network Services, Inc. (the Company) submits the enclosed proxy for the annual meeting to be held on the date, at the time and place and for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders. Each shareholder of record at the close of business on November 2, 2007 will be entitled to one vote for each share of Common Stock registered in such shareholder's name. As of November 2, 2007, the Company had outstanding 6,653,377 shares of common stock, par value \$0.001 (the Common Stock). The presence, in person or by proxy, of a majority of the shares of Common Stock outstanding on the record date is required for a quorum at the meeting. This proxy statement and the accompanying proxy and Annual Report to Shareholders are being sent to the Company's shareholders commencing on or about November 12, 2007.

Any shareholder executing and delivering the enclosed proxy may revoke the same at any time prior to the voting thereof by written notice of revocation given to the Acting Secretary of the Company.

Unless otherwise directed, all proxies will be voted FOR the election of the individuals nominated to serve as director and FOR the other proposals. The directors will be elected by a plurality of votes cast at the meeting (assuming a quorum is present). In other words, the nominees receiving the two largest numbers of votes will be elected. Any shares not voted, whether by withheld authority, broker non-vote or otherwise, will have no effect on the election of directors except to the extent that a failure to vote for an individual results in another individual receiving a larger number of votes. Any votes attempted to be cast against a candidate are not given legal effect and are not counted as votes cast in an election of directors. The other proposals will be approved if the affirmative votes exceed the votes cast against. Broker non-votes and abstentions are counted for purposes of determining whether a quorum is present at the meeting but are not affirmative votes or votes against and, therefore, will have no effect on the outcome of the voting.

CORPORATE GOVERNANCE

The Board of Directors held fourteen meetings in fiscal 2007. Each incumbent director attended 75 percent or more of the combined number of meetings of the Board and of the committees on which such director served, during the period for which he has been a director or served on the committee. Directors are encouraged to attend the annual meeting of shareholders, but the Company has not adopted a formal policy requiring attendance at the annual meeting. Four of the Company's five directors attended the 2006 annual meeting of shareholders.

The Board of Directors currently does not have a formal process for shareholders to send communications to the Board of Directors. Nevertheless, efforts are made to ensure that the views of shareholders are heard by the Board or individual directors, as applicable, and that appropriate responses are provided to shareholders on a timely basis. The Board of Directors believes that informal communications are sufficient to communicate questions, comments and observations that could be useful to the Board. However, shareholders wishing to formally communicate with the Board of Directors may send communications directly to ARI Network Services, Inc., Attention: Chairman, 11425 West Lake Park Drive, Suite 900, Milwaukee, Wisconsin 53224. The Chairman will review such communications and, if appropriate, forward such communications to other board members.

Table of Contents

The Company's Board of Directors has established an audit committee which is currently composed of Mr. Mortimore (chairman) and Mr. Weening. The Board of Directors has adopted a written charter for the audit committee, a copy of which was attached as Appendix A to the proxy statement relating to the Company's 2005 annual meeting of shareholders. Information regarding the functions performed by the audit committee, its membership, and the number of meetings held during fiscal 2007 is set forth in the Report of the Audit Committee, included in this proxy statement. The members of the audit committee are independent under the NASDAQ regarding the independence of directors, including audit committee members. The Board of Directors has determined that Mr. Mortimore, and Mr. Weening are each an audit committee financial expert and are each independent as those terms are defined under the Securities and Exchange Commission regulations and NASDAQ listing standards.

The Company's Board of Directors has established a compensation committee that currently is composed of Mr. Bridge and Mr. Feierstein. The duties of the compensation committee are to approve all executive compensation, to administer the Company's 1991 Incentive Stock Option Plan, the 2000 Employee Stock Purchase Plan, the 1993 Director Stock Option Plan and the 2000 Stock Option Plan and to recommend director compensation for approval by the entire Board. The compensation committee does not have a written charter, and does not engage the services of a compensation consultant in determining or recommending the amount or form of executive or director compensation.

Mr. Dearing makes recommendations to the compensation committee regarding the numbers of options to be granted to the Company's executive officers and other employees based in part on input he receives from the Company's director of human resources. Mr. Dearing also makes recommendations to the compensation committee with respect to other executive compensation, though he recuses himself from portions of compensation committee meetings during which his own compensation is discussed. The Company's chief financial officer has historically made recommendations to the compensation committee regarding director compensation. The compensation committee met three times during fiscal 2007.

The Company's Board of Directors has not established a nominating committee, as decisions regarding Board membership are made by the full Board. Due to the small size of the Company's Board of Directors, as well as the recent lack of turnover in the Board of Directors, the Board has determined not to have a separate nominating committee. Likewise, the Board has not adopted a written charter governing director nominating decisions. Messrs. Bridge, Feierstein, Mortimore and Weening are independent under the NASDAQ listing standards, but Mr. Dearing is not because he is an executive officer of the Company.

The Board will consider candidates for director that are nominated by shareholders in accordance with the procedures set forth in the Company's by-laws. Under the by-laws, nominations, other than those made by the Board of Directors, must be made pursuant to timely notice in proper form to the secretary of the Company. To be timely, a shareholder's request to nominate a person for director, together with the written consent of such person to serve as a director, must be received by the secretary of the Company at the principal office not later than 90 days and not earlier than 150 days prior to the anniversary date of the annual meeting of shareholders in the immediately preceding year. To be in proper written form, the notice must contain certain information concerning the nominee and the shareholder submitting the nomination.

The Board will consider proposed nominees whose names are submitted to it by shareholders. However, it does not have a formal process for that consideration because it believes that the informal consideration process has been adequate given the historical absence of shareholder proposals. The Board intends to review periodically whether a formal policy should be adopted.

The Board has generally identified nominees based upon suggestions by non-management directors, management members and/or shareholders. The Board considers factors important for potential members of the Board, including the individual's integrity, general business background and experience, experience with our industry, and the ability to serve on the Board. The Board does not evaluate proposed nominees differently based on who made the proposal.

Code of Ethics

ARI has adopted a code of ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or controller and persons performing similar functions. The code of ethics is designed to promote honest and ethical conduct, including the ethical handling of conflicts of interest, compliance with applicable laws, and full, accurate, timely and understandable disclosure in reports we send to our shareholders or file with the SEC.

Violations of the code of ethics are to be reported to the audit committee. A copy of the code of ethics may be obtained, without charge, by sending a request to ARI Network Services, Inc., Attention: Corporate Secretary, 11425 West Lake Park Drive, Suite 900, Milwaukee, Wisconsin 53224.

Table of Contents**EXECUTIVE COMPENSATION**

The following table sets forth compensation for the Company's fiscal year ended July 31, 2007 for the Company's Chief Executive Officer and other two most highly compensated executive officers who were serving as executive officers as of such date (to whom we refer collectively as the named executive officers).

Summary Compensation Table

Name and Principal Position	Year	Salary (\$)	Option Awards (\$)(1)	Non-Equity Incentive Plan Compensation (2)	All Other Compensation (\$)(3)	Total (\$)
Brian E. Dearing President and Chief Executive Officer	2007	192,687	53,714	72,596	3,854	322,851
Timothy Sherlock (4) Chief Financial Officer, Secretary, Treasurer and VP of Finance	2007	172,009	24,171	44,700	3,440	244,320
Roy W. Olivier Vice President of Global Sales and Marketing	2007	205,127(5)	50,317	10,753	14,798(6)	280,995

(1) The values set forth in this column represent the dollar amounts recognized in accordance with Financial Accounting Standard No. 123(R) (FAS 123R) with respect to fiscal 2007, disregarding the estimate of forfeitures for service-based vesting conditions. The expense recognized by the Company in accordance with FAS 123R may differ from the amount that will eventually be realized by the named executive

officers. The assumptions used to determine the FAS 123R values are described in Note 8 to the consolidated financial statements in the Company's Annual Report on Form 10-KSB for the fiscal year ended July 31, 2007. For each of Messrs. Dearing and Sherlock, the values represent the expense attributable to option awards granted in prior years to each individual. For Mr. Olivier, the value represents the expense attributable to options granted to him in fiscal 2007.

- (2) Amounts represent annual and long-term incentive payments, respectively, earned during fiscal 2007, as follows:
Mr. Dearing \$13,038 and \$59,558;
Mr. Sherlock \$8,736 and \$35,964; and
Mr. Olivier \$5,376 and \$5,376.
- (3) Amounts represent a Company match under the Company's 401(k) plan.
- (4) Mr. Sherlock resigned his employment with the Company effective September 10, 2007.

- (5) Amount includes sales commissions paid during fiscal 2007 of \$106,050.
- (6) Mr. Olivier served as a consultant to the Company to develop a tactical sales and marketing plan from August 1, 2006 until September 11, 2006, at which time he commenced employment with the Company. In addition to a Company match under the Company's 401(k) plan, this amount includes \$13,000 in consulting fees that he was paid for such service.

Stock Option Grants. All of the Company's stock option grants qualify as incentive stock options up to the \$10,000 per year limitation and vest 25% per year on July 31, provided the participant is an employee of the Company at such date. Options are exercisable up to ten years after the date of grant, one year from the date of a termination of employment upon death or disability of the participant, 90 days from the date of termination for any reason other than cause or immediately upon termination for cause.

Annual Incentive Compensation. Under the Management Incentive Bonus Plan. The annual component of the Company's Management Incentive Bonus Plan provides for annual cash incentives to the participants, which includes all of the executive officers. The amount of the annual incentive opportunity is equally weighted between three objective performance criteria (revenue, operating income and cash, 25% each) and other management objectives (MBOs) agreed upon by the executive officer and the chief executive officer (or Compensation Committee for the CEO) at the beginning of the fiscal year which make up the remaining 25% of each executive officer's annual incentive opportunity. Payouts under each of the cash, operating income, and MBO components of the annual incentives are limited to 50% of the amount payable based on actual results unless the threshold revenue amount (80% of target revenue growth) under the revenue component is achieved. Therefore, because the threshold revenue amount was not achieved for the fiscal year ended July 31, 2007, the actual payouts under each of the cash, operating income and MBO components of the annual plan were limited to 50% of the amounts that would have otherwise been paid if the revenue threshold had been met. The combined results for the fiscal year ended July 31, 2007 under the annual plan

Table of Contents

were between threshold and target performance levels set by the Compensation Committee and resulted in payouts ranging from 27% to 69% of their respective base salaries for the fiscal year ended July 31, 2007. Under the plan, Messrs. Dearing, Sherlock and Olivier each received payouts of 61%, 69% and 27%, respectively, of their base salaries.

Long-Term Incentive Compensation. The executive officers are awarded long-term incentive compensation under the Company's Management Incentive Bonus Plan. These awards are based on a target award equal to the executive's actual fiscal 2007 annual incentive earned, adjusted based on the Company's performance over three consecutive one-year performance periods. The amount of the payout is adjusted on a sliding scale based on the extent to which the Company's revenue plan is achieved for each of the three years, ranging from a floor of 75% of the target award if the Company's revenue plan is not met to a cap of 200% of the target award if revenue equals or exceeds 150% of plan. Beginning with the long-term awards granted in fiscal 2006, one-half of the floor amount (75% of the target award) is paid in Company Common Stock, valued at the time of payment, and the remainder of the award is paid in cash. The award is paid in three annual payments following each of the three years in the performance period, provided the participant is employed by the Company at such time.

Targets for the long-term awards granted in fiscal 2007 will equal the executive officer's actual annual incentive earned for the fiscal year ended July 31, 2007. In addition to an individual executive officer's cap of 200% of his target award, there is a cap (or pool) on the amount of long-term incentive that all participants can earn under the plan. The amount of the long-term incentive pool is equal to 40% of the total target annual incentives for the entire executive management team, made up of the CEO, the CFO, the Vice President of Global Sales and Marketing and Vice President of Business Development and Strategy for the fiscal year ended July 31, 2007 (hereinafter "On Target Incentive Payout" or "OTIP"), adjusted upward if the Company overachieves its fiscal 2007 net income objective. As the Company did not overachieve its fiscal 2007 net income objective, the long-term incentive pool for awards granted in 2007 will be 40% of the OTIP for fiscal 2007, or \$133,200. Payouts will be adjusted as noted above based on the Company's revenue during fiscal years 2008, 2009 and 2010 and paid in installments following each of those fiscal years, provided the participant is employed by the Company at such time.

The Company has entered into Change of Control Agreements (Change of Control Agreements) with each of its executive officers. The Change of Control Agreements are intended to reduce the incentive for officers not to support a transaction that is beneficial to shareholders for fear that their employment would be terminated, retain the services of these officers and provide for continuity of management in the event of any Change of Control, as defined below. These Change of Control Agreements provide that each officer shall receive severance benefits equal to two times the sum of salary and targeted bonuses and medical and dental plan continuation for two years if, within two years following a Change of Control, as defined below, the officer's employment is terminated without cause or by the executive for good reason. For this purpose, good reason is defined to include: (i) a material diminution of or interference with the officer's duties and responsibilities; (ii) a change in the principal workplace of the officer to a location outside of a 50-mile radius from Milwaukee, Wisconsin; (iii) a reduction or adverse change in the salary, bonus, perquisites, benefits, contingent benefits or vacation time previously provided to the officer; or (iv) an unreasonable increase in the workload of the officer. In addition, the officer will receive a prorated portion of the officer's average annual bonus for the preceding three fiscal years. If the officer leaves ARI for any other reason, within two years following a Change of Control, the officer will receive a prorated portion of the officer's average annual bonus for the preceding three fiscal years. The officer is under no obligation to mitigate amounts payable under the Change of Control Agreements. In addition, upon a Change of Control, all stock options and similar awards become immediately vested and all deferred compensation becomes payable.

Company in accordance with FAS 123R may differ from the amount that will eventually be realized by the directors. The assumptions used to determine the FAS 123R values are described in Note 8 to the consolidated financial statements in the Company's Annual Report on Form 10-KSB for the fiscal year ended July 31, 2007. Table of Contents

For fiscal 2007 service, each non-employee director received an annual cash retainer of \$18,000 and an option to purchase 6,000 shares of Company Common Stock, which were granted on December 28, 2006 (50% of which vested on July 31, 2007 and the remaining 50% of which will vest on July 31, 2008). Audit committee members receive an additional \$6,000 per year (\$8,000 for the chairman) and compensation committee members receive an additional \$2,500 per year. The options have a term of ten years and an exercise price equal to the fair market value of the Common Stock on the date of grant. In addition, Mr. Bridge receives fees in the amount of \$4,500 per week in connection with his work on behalf of the Company on various strategic growth opportunities as a member of a Board committee established for such purpose.

CERTAIN TRANSACTIONS

Briggs & Stratton Corporation (Briggs) is one of the Company s customers and owns more than 5% of the Company s stock. Briggs has entered into customer contracts with the Company in the ordinary course business. Generally, the contracts are for one year and renew annually unless either party elects otherwise. The Company invoiced Briggs approximately \$498,000 for products and services provided during fiscal 2007. In addition, during fiscal 2007, Briggs provided graphic design and printing services to the Company for which the Company was charged \$290,000.

Section 16(a) Beneficial Ownership Reporting Compliance

Based solely upon its review of Forms 3, 4 and 5 and amendments thereto furnished to the Company pursuant to Section 16 of the Securities Exchange Act of 1934, as amended, all of such forms were filed on a timely basis by reporting persons during fiscal 2007.

**AMENDMENT OF THE
2000 STOCK OPTION PLAN**

At the annual meeting, shareholders are being asked to approve an amendment to the Company s 2000 Stock Option Plan (the SOP) to increase the number of shares of Common Stock reserved for issuance under the SOP by 500,000 shares from 1,450,000 to 1,950,000. The Board of Directors adopted the amendment on October 31, 2007.

As of November 2, 2007, there were outstanding options to purchase 923,664 shares of Common Stock which have been granted under the SOP but remain unexercised. These outstanding options have a weighted average exercise price of \$1.48473. Of these shares, 800,425 were exercisable as of November 2, 2007. As of November 2, 2007, there were 214,373 shares available for future grants under the SOP.

The Board believes that the number of shares currently available under the SOP is insufficient in light of the Company s need to use options to attract and retain employees and directors. Given the importance of the SOP in the past in attracting and retaining key personnel, and the importance that will be placed on the SOP in the future, particularly in connection with the Company s desire to make acquisitions as one of its growth initiatives, the Board believes that the number of shares available for issuance under the SOP must be increased to allow future option grants to be made.

The Board believes that the grant of options to employees, directors and certain contractors under the SOP, including employees of companies that may be acquired by the Company in the future, is an attractive way for the Company to be able to retain these personnel while conserving the Company s limited cash resources. In addition, the Board believes that granting stock options which vest over an extended period of time provides the optionee with an incentive to remain with the Company and actively contribute towards improving the Company s performance. The Board further believes that employee and director ownership provides a stronger incentive for these personnel to put forth maximum effort for the long term success and growth of the Company in order to see the value of their ownership grow.

Set forth below is a summary of the principal features of the SOP. The following summary, however, does not purport to be a complete description of all the provisions of the SOP. Any shareholder who wishes to obtain a copy of the actual plan document may do so upon written request to the Secretary at the Company s principal offices at 11425 West Lake Park Drive, Suite 900, Milwaukee, Wisconsin 53224.

Description of the Stock Option Plan

All directors, employees, or consultants who provide services to the Company (the Participants) are eligible to receive options to purchase Common Stock under the SOP. As of November 2, 2007, approximately 100 persons were eligible. The SOP is designed to provide additional incentive compensation to Participants and provide them with an opportunity to acquire an equity interest in the Company. The SOP is also designed to attract and retain the Company's non-employee directors.

The SOP is administered by a compensation committee appointed by the Board of Directors. Subject to the provisions of the SOP, the compensation committee has the authority to determine the exercise prices applicable to the options, the eligible participants to whom and the time or times at which options shall be granted, the number of shares of Common Stock subject to each option, and the extent to which options may be exercisable in installments. The compensation committee also has authority to interpret the SOP, and to prescribe, amend and rescind the rules and regulations pertaining to the SOP.

Options granted under the SOP may be either (i) options granted to qualifying employees which are intended to qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended (the Code), or (ii) non-qualified stock options which may be granted to all Participants.

Under the SOP, no Participant may be granted options for more than 500,000 shares during any one-year period. If the proposal is approved by shareholders, the aggregate number of shares of Common Stock that may be issued under the SOP may not exceed 1,950,000. The number of shares reserved under the plan and for which awards may be granted to a Participant may be adjusted, as determined by the compensation committee, in the event of certain changes due to a recapitalization, reclassification, merger, spin-off, stock split, stock dividend, or other increase or decrease. No stock options may be granted under the SOP after December 13, 2010.

Any incentive stock option that is granted under the SOP must be granted at a price no less than the fair market value of the Common Stock on the date of grant (or no less than 110% of the fair market value in the case of holders of 10% or more of the total combined voting power of all classes of stock of the Company or of a subsidiary or parent of the Company). Non-qualified stock options may be granted at the exercise price established by the compensation committee, which may be less than the fair market value of the Common Stock on the date of grant. As of November 2, 2007, the closing price of the Company's Common Stock was \$1.59 per share.

Each incentive stock option granted under the SOP is exercisable for a period not to exceed 10 years from the date of grant (or five years in the case of a holder of more than 10% of the total combined power of all classes of stock of the Company or of a subsidiary or parent of the Company) and shall lapse upon the expiration of the period, or earlier upon termination of the recipient's employment or service with the Company or as determined by the compensation committee. These limitations do not apply to non-qualified stock options. The compensation committee shall determine the period of time during which an option may be exercised following termination of employment or service due to death or disability, or following termination of employment or service due to retirement.

The Board of Directors of the Company may amend the SOP at any time, except if shareholder approval is required under tax, securities or any other applicable law. However, the Board may not make an amendment that has an adverse effect on the rights of any Participant or beneficiary of any award granted under the Plan without written consent to the amendment by the affected Participant.

Federal Income Tax Consequences of the Plan

The grant and exercise of options issued pursuant to the SOP should cause the federal income tax consequences to the Participant and the Company described below.

Incentive Stock Options. Incentive stock options under the SOP are intended to be eligible for the favorable federal income tax treatment accorded incentive stock options under Section 422 of the Code. Incentive stock options generally have the following tax consequences.

There are generally no federal income tax consequences to the optionee or the Company by reason of the grant or exercise of an incentive stock option. However, the exercise of an incentive stock option may increase the optionee's alternative minimum tax liability if any and, to the extent that any incentive stock option is exercisable during any calendar year with respect to shares having, as of the grant date, a fair market value exceeding \$100,000, such excess will be treated as a non-qualified stock option.

If an optionee holds stock acquired through the exercise of an incentive stock option for more than two years from the date on which the option is granted and more than one year from the date on which the shares are transferred to the optionee upon exercise of such option, then any gain or loss on a disposition of such stock

Table of Contents

will be long-term capital gain or loss. However, if the optionee disposes of the stock before the expiration of either of the above holding periods (a disqualifying disposition), at the time of the disqualifying disposition of the option, the optionee will realize taxable ordinary income equal to the lesser of (i) the excess of the fair market value on the date of exercise over the exercise price, or (ii) the optionee's actual gain, if any, on the purchase and sale. The optionee's additional gain or any loss upon the disqualifying disposition will be a capital gain or loss which will be long-term or short-term, depending on whether the stock acquired from exercising the option was held for more than one year.

Upon exercise of an incentive stock option, the excess of the stock's fair market value on the date of exercise over the option exercise price will be considered a tax preference item in calculating the optionee's alternative minimum tax, if any.

To the extent the optionee recognizes ordinary income by reason of a disqualifying disposition, the Company will be entitled to a corresponding compensation expense deduction in the tax year in which the disposition occurs.

Non-Qualified Stock Options. At the time any non-qualified option is granted, the optionee will not recognize any taxable income and the Company will not be entitled to any deduction. When an optionee exercises a non-qualified option, the optionee will generally recognize ordinary income in an amount equal to the excess of the fair market value of the Common Stock received on the date of exercise over the option exercise price. The Company will be entitled to a deduction in an amount equal to the income recognized by the optionee. The basis of the Common Stock received upon the exercise of a non-qualified option will be the exercise price paid plus the amount recognized by the optionee as taxable income attributable to such shares as a result of the exercise.

When an optionee sells stock acquired by the exercise of a non-qualified option, the difference between the amount received and the adjusted tax basis of the stock will be capital gain or loss if such shares constitute a capital asset in the hands of the optionee. The compensation deduction by the Company upon exercise of non-qualified options by the CEO or any of the other four most highly compensated executive officers may be limited by Section 162(m) of the Code, which limits the deductibility of compensation in any one year to \$1,000,000 unless the excess compensation is performance-based.

Plan Benefits

As of the date of this Proxy Statement, none of the 500,000 shares that are subject to shareholder approval have been granted. It is not determinable what options will be received by Participants under the SOP in fiscal 2008. However, the following table provides information concerning options awarded to employees and directors in fiscal 2007 under the SOP.

These services may include audit services, audit-related services, tax services and other services. The audit committee has delegated the authority to grant pre-approval of auditing or allowable non-audit services to the chairman of the audit committee. Each pre-approval decision pursuant to this delegation is to be presented to the full audit committee at its next scheduled meeting.

REPORT OF THE AUDIT COMMITTEE

The primary responsibility of the Committee is to oversee the Company's financial reporting process on behalf of the Board of Directors and to report the results of its activities to the Board. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. A complete description of the Committee's duties is set forth in its charter.

In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements in the Annual Report with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under standards of the Public Company Oversight Board (United States). In addition, the Committee has discussed with the independent auditors the auditors' independence from management and the Company including matters in the written disclosures required by the Independence Standards Board and considered the compatibility of non-audit services with auditors' independence.

The Committee discussed with the Company's independent auditors the overall scope and plans for their audit. The Committee meets with the independent auditors, with and without management present, to discuss the results of their examination and their evaluation of the Company's internal controls, and the overall quality of the Company's financial reporting. The Committee held five meetings during fiscal 2007.

In reliance on the views and discussions referred to above, the Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the Annual Report on Form 10-KSB for the year ended July 31, 2007 for filing with the Securities and Exchange Commission. The Committee has also approved the selection of the Company's independent auditors.
