UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM N-CSRS

CERTIFIED SHAREHOLDER REPORT OF REGISTERED  
MANAGEMENT INVESTMENT COMPANIES

Investment Company Act file number 811-02090

Van Kampen Bond Fund  
(Exact name of registrant as specified in charter)

522 Fifth Avenue, New York, New York 10036  
(Address of principal executive offices) (Zip code)

Ronald Robison  
522 Fifth Avenue, New York, New York 10036  
(Name and address of agent for service)

Registrant's telephone number, including area code: 212-762-4000

Date of fiscal year end: 6/30

Date of reporting period: 12/31/07

Item 1. Reports to Shareholders.

The Fund's semi-annual report transmitted to shareholders pursuant to Rule 30e-1 under the Investment Company Act of 1940 is as follows:

Welcome, Shareholder

In this report, you'll learn about how your investment in Van Kampen Bond Fund performed during the semiannual period. The portfolio management team will provide an overview of the market conditions and discuss some of the factors that affected investment performance during the reporting period. In addition, this report includes the fund's financial statements and a list of fund investments as of December 31, 2007.

MARKET FORECASTS PROVIDED IN THIS REPORT MAY NOT NECESSARILY COME TO PASS. THERE IS NO ASSURANCE THAT THE FUND WILL ACHIEVE ITS INVESTMENT OBJECTIVE. FUNDS ARE SUBJECT TO MARKET RISK, WHICH IS THE POSSIBILITY THAT THE MARKET VALUES OF SECURITIES OWNED BY THE FUND WILL DECLINE AND THAT THE VALUE OF THE FUND SHARES MAY THEREFORE BE LESS THAN WHAT YOU PAID FOR THEM. ACCORDINGLY, YOU CAN LOSE MONEY INVESTING IN THIS FUND.

# Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

Performance Summary as of 12/31/07

BOND FUND  
SYMBOL: VBF

AVERAGE ANNUAL TOTAL RETURNS	BASED ON MARKET PRICE	BASED ON NAV
10-year	4.46%	5.84%
5-year	3.85	6.12
1-year	0.71	6.35
6-month	2.18	5.48

PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE, WHICH IS NO GUARANTEE OF FUTURE RESULTS, AND CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE FIGURES SHOWN. FOR THE MOST RECENT MONTH-END PERFORMANCE FIGURES, PLEASE VISIT VANKAMPEN.COM OR SPEAK WITH YOUR FINANCIAL ADVISOR. INVESTMENT RETURNS, NET ASSET VALUE (NAV) AND COMMON SHARE MARKET PRICE WILL FLUCTUATE AND FUND SHARES, WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST.

The NAV per share is determined by dividing the value of the fund's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the fund at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the fund's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers BBB Corporate Bond Index is generally representative of corporate bonds. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

1

## Trust Report

FOR THE SIX-MONTH PERIOD ENDED DECEMBER 31, 2007

### MARKET CONDITIONS

Worries surrounding the residential housing downturn persisted throughout the six-month reporting period. Confronted with increasing delinquency rates on subprime loans, high-profile hedge fund collapses, and a series of subprime mortgage related credit downgrades, markets responded severely. This impact was exacerbated by an influx of forced sellers looking to liquidate assets to help meet margin calls and capital withdrawals, which resulted in a flight to quality.

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

As the subprime mortgage crisis worsened, investors grew increasingly concerned about the impact on financial markets, the financial system, and the broader economy, and demanded additional compensation for owning riskier investments. As a result, credit spreads widened sharply. The subprime debacle severely impacted many major banks and Wall Street firms, which took write-downs and losses on the subprime mortgage loans and securities in their portfolios. Some sold stakes to sovereign funds in exchange for cash infusions needed to bolster their balance sheets.

The Federal Open Market Committee (the "Fed") took steps to ease the liquidity crisis, reducing the target federal funds rate by a total of 1 percent in three separate moves between September and the end of the year, bringing the rate to 4.25 percent. These reductions, coupled with the flight to quality, caused yields across the yield curve to decline, but more so on the short end. As a result, the shape of the yield curve ended the year steeper. Overall, U.S. Treasury securities outperformed all other areas of the fixed income market.

Within the investment-grade corporate sector, higher-rated (AAA) issues outpaced the middle investment grade issues. Industrials and utilities handily outpaced financials, which were hit most by the recent liquidity crisis. Overall, short-term issues outperformed intermediate- and long-dated issues.

Within the high yield sector, spreads were at the tightest levels in over twenty years at the end of May. However, over the balance of the year, spreads widened. Various fundamental factors were supportive of the high-yield market throughout the period, including low default rates, moderate economic growth, favorable earnings trends, and relatively low U.S. Treasury yields. However, other factors such as a higher probability of a recession, concerns of higher default rates in 2008, the lingering liquidity crunch, and the inability to finance many of the leveraged buyouts (LBOs) that occurred earlier in the year, weighed heavily on the market. Overall, medium- and higher-rated issues outperformed those with lower ratings.

### PERFORMANCE ANALYSIS

The Fund's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the Fund's portfolio securities, cash and other assets, less all liabilities and

2

preferred shares, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ, as they did during the reporting period. On an NAV basis, the Fund outperformed its benchmark, the Lehman Brothers BBB Corporate Bond Index. On a market price basis, however, the Fund underperformed its benchmark.

TOTAL RETURN FOR THE SIX-MONTH PERIOD ENDED DECEMBER 31, 2007

	BASED ON MARKET PRICE	LEHMAN BROTHERS BBB CORPORATE BOND INDEX
BASED ON NAV	5.48%	2.18%
		3.48%

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be higher or lower than the figures shown. Investment return, net asset value and common share market price will fluctuate and Fund shares, when sold, may be worth more or less than their original cost. See Performance Summary for additional performance information and index definition.

Throughout the period, we employed a defensive interest rate strategy by keeping the Fund's duration (a measure of interest-rate sensitivity) shorter than that of the benchmark Lehman Brothers BBB Corporate Bond Index. Although this defensive positioning detracted from performance as Fed easing and the flight to quality caused interest rates to decline, much of that was offset by the Fund's favorable yield-curve positioning. The Fund was underweighted on the longer end of the curve and overweighted on the intermediate portion of the curve, which was particularly additive to performance as the spread between intermediate- and long-dated yields widened and the curve steepened.

The Fund had a few allocations away from the benchmark Lehman Brothers BBB Corporate Bond Index. One of these was a position in Treasury securities, resulting in an underweight relative to the benchmark in corporate credits. This positioning was additive to performance as Treasuries outperformed corporate credit for the reporting year. The Fund also had a small allocation (approximately two percent) to high-yield securities. These holdings were primarily in the higher-quality segment of the sector, which was beneficial as higher-rated issues generally outperformed lower-rated issues during the period. We are looking for areas to take advantage of recent spread widening and add to corporate positions, but we are cautious as we believe the credit market remains vulnerable to potential credit downgrades and/or an economic downturn.

The Trustees have approved a procedure whereby the Fund may, when appropriate, repurchase its shares in the open market or in privately negotiated transactions at a price not above market value or NAV, whichever is lower at the time of purchase. This may help support the market value of the Fund's shares.

There is no guarantee that any sectors mentioned will continue to perform as discussed herein or that securities in such sectors will be held by the Fund in the future.

Subject to change daily. Provided for informational purposes only and should not be deemed as a recommendation to buy or sell the securities mentioned or securities in the industries shown above. Ratings are as a percentage of total long-term investments. Summary of Investments by Industry Classification is as a percentage of total investments. Securities are classified by sectors that represent broad groupings of related industries. Ratings allocations based upon ratings as issued by Standard and Poor's and Moody's, respectively. Van Kampen is a wholly owned subsidiary of a global securities firm which is engaged in a wide range of financial services including, for example, securities trading and brokerage activities, investment banking, research and analysis, financing and financial advisory services.

4

### CHANGES IN INVESTMENT POLICIES

The fund approved the following changes/clarifications in its investment policies.

Foreign and Non-U.S. Dollar Denominated Securities. The Fund may invest a portion or all of its total assets in securities issued by foreign governments or foreign corporations; provided, however, that the Fund may not invest more than 30% of its total assets in non-U.S. dollar denominated securities.

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

### FOR MORE INFORMATION ABOUT PORTFOLIO HOLDINGS

Each Van Kampen fund provides a complete schedule of portfolio holdings in its semiannual and annual reports within 60 days of the end of the fund's second and fourth fiscal quarters. The semiannual reports and the annual reports are filed electronically with the Securities and Exchange Commission (SEC) on Form N-CSRS and Form N-CSR, respectively. Van Kampen also delivers the semiannual and annual reports to fund shareholders, and makes these reports available on its public Web site, [www.vankampen.com](http://www.vankampen.com). In addition to the semiannual and annual reports that Van Kampen delivers to shareholders and makes available through the Van Kampen public Web site, each fund files a complete schedule of portfolio holdings with the SEC for the fund's first and third fiscal quarters on Form N-Q. Van Kampen does not deliver the reports for the first and third fiscal quarters to shareholders, nor are the reports posted to the Van Kampen public Web site. You may, however, obtain the Form N-Q filings (as well as the Form N-CSR and N-CSRS filings) by accessing the SEC's Web site, <http://www.sec.gov>. You may also review and copy them at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling the SEC at (800) SEC-0330. You can also request copies of these materials, upon payment of a duplicating fee, by electronic request at the SEC's e-mail address ([publicinfo@sec.gov](mailto:publicinfo@sec.gov)) or by writing the Public Reference section of the SEC, Washington, DC 20549-0102.

You may obtain copies of a fund's fiscal quarter filings by contacting Van Kampen Client Relations at (800) 341-2929.

In addition to filing a complete schedule of portfolio holdings with the SEC each fiscal quarter, the Fund makes portfolio holdings information available by periodically providing the information on its public web site, [www.vankampen.com](http://www.vankampen.com). The Fund provides a complete schedule of portfolio holdings on the public web site on a calendar-quarter basis approximately 31 calendar days after the close of the calendar quarter. The Fund also provides Top 10 holdings information on the public web site approximately 15 business days following the end of each month. For more information, call (800) 341-2929.

5

### PROXY VOTING POLICY AND PROCEDURES AND PROXY VOTING RECORD

You may obtain a copy of the Fund's Proxy Voting Policy and Procedures without charge, upon request, by calling toll free (800) 341-2929 or by visiting our Web site at [www.vankampen.com](http://www.vankampen.com). It is also available on the Securities and Exchange Commission's Web site at <http://www.sec.gov>.

You may obtain information regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 without charge by visiting our Web site at [www.vankampen.com](http://www.vankampen.com). This information is also available on the Securities and Exchange Commission's Web site at <http://www.sec.gov>.

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2007 (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Bond Fund (the "Fund") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940 (the "1940 Act"), as amended. The Fund's investment objective is to seek interest income while conserving capital.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

A. SECURITY VALUATION Fixed income investments are stated at value using market quotations or indications of value obtained from an independent pricing service. Investments in securities listed on a securities exchange are valued at their last sale price as of the close of such securities exchange. Listed and unlisted securities for which the last sale price is not available are valued at the mean of the last reported bid and asked prices. For those securities where quotations or prices are not readily available as noted above, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Credit default and interest rate swaps are valued using market quotations from brokers. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Fund may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Fund will segregate assets with its custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At December 31, 2007, there were no when-issued or delayed delivery purchase commitments.

The Fund may invest in repurchase agreements, which are short-term investments in which the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Fund may invest independently in repurchase agreements, or transfer uninvested cash balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements. Repurchase agreements are fully collateralized by the underlying debt security. The Fund will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Fund.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis and dividend income is recorded on the ex-dividend date. Premiums are amortized and discounts are accreted over the expected life of each applicable security.

20

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2007 (UNAUDITED) continued

D. FEDERAL INCOME TAXES It is the Fund's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required. The Fund adopted the provisions of the Financial Accounting Standards Board's ("FASB") Interpretation No. 48 ("FIN 48") Accounting for Uncertainty in Income Taxes on December 31, 2007. FIN 48 sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. The implementation of FIN 48 did not result in any unrecognized tax benefits in the accompanying financial statements. If applicable, the Fund recognizes interest accrued related to unrecognized tax benefits in "Interest Expense" and penalties in "Other" expenses on the Statement of Operations. The Fund files tax returns with the U.S. Internal Revenue Service, New York and various states. Generally, each of the tax years

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

in the four year period ended December 31, 2007, remains subject to examination by taxing authorities.

The Fund intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset these losses against any future realized capital gains. At June 30, 2007, the Fund had an accumulated capital loss carryforward for tax purposes of \$1,225,950, which will expire according to the following schedule:

AMOUNT	EXPIRATION
\$753,340 .....	June 30, 2011
472,610 .....	June 30, 2015

At December 31, 2007, the cost and related gross unrealized appreciation and depreciation were as follows:

Cost of investments for tax purposes.....	\$215,046,252
	=====
Gross tax unrealized appreciation.....	\$ 2,634,529
Gross tax unrealized depreciation.....	(3,916,838)
	-----
Net tax unrealized depreciation on investments.....	\$ (1,282,309)
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Fund declares and pays quarterly dividends from net investment income. Net realized gains, if any, are distributed at least annually. Distributions from net realized gains for book purposes may include short-term capital gains and gains on futures transactions. All short-term capital gains and a portion of futures gains are included as ordinary income for tax purposes.

The tax character of distributions paid during the year ended June 30, 2007 were as follows:

Distributions paid from:	
Ordinary income.....	\$10,723,719
Long-term capital gain.....	-0-
	-----
	\$10,723,719
	=====

21

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2007 (UNAUDITED) continued

As of June 30, 2007, the components of distributable earnings on a tax basis were as follows:

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

Undistributed ordinary income..... \$137,366

Net realized gains or losses may differ for financial reporting and tax purposes primarily as a result of the deferral of losses relating to wash sales transactions, post October losses which are not recognized for tax purposes until the first day of the following fiscal year and gains and losses recognized for tax purposes on open futures transactions on June 30, 2007.

F. EXPENSE REDUCTIONS During the six months ended December 31, 2007, the Fund's custody fee was reduced by \$534 as a result of credits earned on cash balances.

### 2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Fund's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Fund for an annual fee payable monthly as follows:

AVERAGE DAILY NET ASSETS	% PER ANNUM
First \$500 million.....	.42%
Over \$500 million.....	.35%

For the six months ended December 31, 2007, the Fund recognized expenses of approximately \$44,800 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, of which a trustee of the Fund is a partner of such firm and he and his law firm provide legal services as legal counsel to the Fund.

Under separate Accounting Services and Chief Compliance Officer (CCO) Employment agreements, the Adviser provides accounting services and the CCO provides compliance services to the Fund. The costs of these services are allocated to each fund. For the six months ended December 31, 2007, the Fund recognized expenses of approximately \$9,000 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting services to the Fund, as well as the salary, benefits and related costs of the CCO and related support staff paid by Van Kampen. Services provided pursuant to the Accounting Services and CCO Employment agreement are reported as part of "Accounting and Administrative Expenses" on the Statement of Operations.

Certain officers and trustees of the Fund are also officers and directors of Van Kampen. The Fund does not compensate its officers or trustees who are also officers of Van Kampen.

The Fund provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Fund. The maximum annual benefit per trustee under the plan is \$2,500.

22

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2007 (UNAUDITED) continued

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

### 3. CAPITAL TRANSACTIONS

For the six months ended December 31, 2007 and the year ended June 30, 2007, transactions in common shares were as follows:

	FOR THE SIX MONTHS ENDED DECEMBER 31, 2007	FOR THE YEAR ENDED JUNE 30, 2007
Beginning Shares.....	11,308,623	11,362,465
Shares Repurchased*.....	-0-	(53,842)
	-----	-----
Ending Shares.....	11,308,623 =====	11,308,623 =====

\* For the period ended June 30, 2007, the Fund repurchased 53,842 of its shares at an average discount of 8.26% from net asset value per share.

### 4. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments and U.S. Government securities, were \$56,564,270 and \$37,618,006, respectively. The cost of purchases and proceeds from sales of long-term U.S. Government securities, including paydowns on mortgage-backed securities, for the period were \$94,563,985 and \$138,086,951, respectively.

### 5. MORTGAGE BACKED SECURITIES

The Fund may invest in various types of Mortgage Backed Securities. A Mortgage Backed Security (MBS) is a pass-through security created by pooling mortgages and selling participations in the principal and interest payments received from borrowers. Most of these securities are guaranteed by federally sponsored agencies--Government National Mortgage Association (GNMA), Federal National Mortgage Association (FNMA) or Federal Home Loan Mortgage Corporation (FHLMC). A Collateralized Mortgage Obligation (CMO) is a bond which is collateralized by a pool of MBS's.

These securities derive their value from or represent interests in a pool of mortgages, or mortgage securities. Mortgage securities are subject to prepayment risk--the risk that, as mortgage interest rates fall, borrowers will refinance and "prepay" principal. A fund holding mortgage securities that are experiencing prepayments will have to reinvest these payments at lower prevailing interest rates. On the other hand, when interest rates rise, borrowers are less likely to refinance resulting in lower prepayments. This can effectively extend the maturity of a fund's mortgage securities resulting in greater price volatility. It can be difficult to measure precisely the remaining life of a mortgage security or the average life of a portfolio of such securities.

To the extent a fund invests in mortgage securities offered by non-governmental issuers, such as commercial banks, savings and loan institutions, private mortgage insurance companies, mortgage bankers and other secondary market issuers, the Fund may be subject to additional risks. Timely payment of interest and principal of non-governmental issuers are supported by various forms of private insurance or guarantees, including individual loan, title, pool and hazard insurance purchased by the issuer. There can be no assurance that the private insurers can meet their obligations under the policies.

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

An unexpectedly high rate of defaults on the mortgages held by a mortgage pool may adversely affect the value of a mortgage backed security and could result in losses to a Fund.

23

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2007 (UNAUDITED) continued

The risk of such defaults is generally higher in the case of mortgage pools that include subprime mortgages. Subprime mortgages refer to loans made to borrowers with weakened credit histories or with a lower capacity to make timely payment on their mortgages.

### 6. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Fund may use derivative instruments for a variety of reasons, such as to attempt to protect the Fund against possible changes in the market value of its portfolio or to generate potential gain. All of the Fund's portfolio holdings, including derivative instruments, are marked to market each day with the change in value reflected in unrealized appreciation/depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a futures contract. In these instances, the recognition of gain or loss is postponed until the disposal of the security underlying the futures contract. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

Summarized below are specific types of derivative financial instruments used by the Fund.

A. FUTURES CONTRACTS A futures contract is an agreement involving the delivery of a particular asset on a specified future date at an agreed upon price. The Fund generally invests in exchange traded futures contracts on U.S. Treasury securities for duration and risk management purposes and typically closes the contract prior to the delivery date. Upon entering into futures contracts, the Fund maintains an amount of cash or liquid securities with a value equal to a percentage of the contract amount with either a futures commission merchant pursuant to rules and regulations promulgated under the 1940 Act, as amended, or with its custodian in an account in the broker's name. This amount is known as initial margin. During the period the futures contract is open, payments are received from or made to the broker based upon changes in the value of the contract (the variation margin). The risk of loss associated with a futures contract is in excess of the variation margin reflected on the Statement of Assets and Liabilities.

Transactions in futures contracts for the six months ended December 31, 2007, were as follows:

	CONTRACTS
Outstanding at June 30, 2007.....	495
Futures Opened.....	1,564
Futures Closed.....	(1,563)

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

Outstanding at December 31, 2007..... 496

-----  
=====  
=====

B. SWAPS CONTRACTS The Fund may enter into credit default swap contracts for hedging purposes or to gain exposure to a credit in which the Fund may otherwise invest. A credit default swap is an agreement between two parties to exchange the credit risk of an issuer. A buyer of a credit default swap is said to buy protection by paying periodic fees in return for a contingent payment from the seller if the issuer has a credit event such as bankruptcy, a failure to pay outstanding obligations or deteriorating credit while the swap is outstanding.

24

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2007 (UNAUDITED) continued

A seller of a credit default swap is said to sell protection and thus collects the periodic fees and profits if the credit of the issuer remains stable or improves while the swap is outstanding but the seller in a credit default swap contract would be required to pay an agreed-upon amount, which approximates the notional amount of the swap as disclosed in the table following the Portfolio of Investments, to the buyer in the event of an adverse credit event of the issuer. The Fund accrues for the periodic fees on credit default swaps on a daily basis with the net amount accrued recorded within unrealized appreciation/depreciation of swap contracts. Upon cash settlement of the periodic fees, the net amount is recorded as realized gain/loss on swap contracts on the Statements of Operations. Net unrealized gains are recorded as an asset or net unrealized losses are reported as a liability on the Statement of Assets and Liabilities. The change in value of the swap contracts is reported as unrealized gains or losses on the Statement of Operations. Payments received or made upon entering into a credit default swap contract, if any, are recorded as realized gain or loss on the Statement of Operations upon termination or maturity of the swap. Credit default swaps may involve greater risks than if a Fund had invested in the issuer directly. Credit default swaps are subject to general market risk, counterparty risk and credit risk.

The Fund may also enter into interest rate swaps primarily to preserve a return or spread on a particular investment or portion of its portfolio, as a duration management technique or to protect against any increase in the price of securities the Fund anticipates purchasing at a later date. Interest rate swaps are contractual agreements to exchange periodic interest payment streams calculated on a predetermined notional principal amount. Interest rate swaps generally involve one party paying a fixed interest rate and the other party paying a variable rate. The Fund will usually enter into interest rate swaps on a net basis, i.e, the two payment streams are netted out in a cash settlement on the payment date or dates specified in the instrument, with the Fund receiving or paying, as the case may be, only the net amount of the two payments. The Fund accrues the net amount with respect to each interest rate swap on a daily basis. This net amount is recorded within unrealized appreciation/depreciation on swap contracts. Upon cash settlement of the periodic payments, the net amount is recorded as realized gain/loss on swap contracts on the Statement of Operations. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

If there is a default by the counterparty to a swap agreement, the Fund will have contractual remedies pursuant to the agreements related to the transaction. Counterparties are required to pledge collateral daily (based on the valuation of each swap) on behalf of the Fund with a value approximately equal to the

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

amount of any unrealized gain. Cash collateral, when received by the Fund, is recorded with an offsetting liability shown on the Statement of Assets and Liabilities. Reciprocally, when the Fund has an unrealized loss on a swap contract, the Fund has instructed the custodian to pledge cash or liquid securities as collateral with a value approximately equal to the amount of the unrealized loss. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate. Restricted cash, if any, for segregating purposes is shown on the Statement of Assets and Liabilities.

### 7. INDEMNIFICATIONS

The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

25

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2007 (UNAUDITED) continued

### 8. ACCOUNTING PRONOUNCEMENT

In September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. As of December 31, 2007, the Adviser does not believe the adoption of SFAS 157 will impact the amounts reported in the financial statements, however, additional disclosures will be required about the inputs used to develop the measurements of fair value and the effect of certain measurements reported on the Statement of Operations for a fiscal period.

An Important Notice Concerning Our U.S. Privacy Policy

## Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

We are required by federal law to provide you with a copy of our Privacy Policy annually.

The following Policy applies to current and former individual clients of Van Kampen Investments Inc., Van Kampen Asset Management, Van Kampen Advisors Inc., Van Kampen Funds Inc., Van Kampen Investor Services Inc. and Van Kampen Exchange Corp., as well as current and former individual investors in Van Kampen mutual funds, unit investment trusts, and related companies.

This Policy is not applicable to partnerships, corporations, trusts or other non-individual clients or account holders, nor is this Policy applicable to individuals who are either beneficiaries of a trust for which we serve as trustee or participants in an employee benefit plan administered or advised by us. This Policy is, however, applicable to individuals who select us to be a custodian of securities or assets in individual retirement accounts, 401(k) accounts, 529 Educational Savings Accounts, accounts subject to the Uniform Gifts to Minors Act, or similar accounts.

Please note that we may amend this Policy at any time, and will inform you of any changes to this Policy as required by law.

### WE RESPECT YOUR PRIVACY

We appreciate that you have provided us with your personal financial information. We strive to maintain the privacy of such information while we help you achieve your financial objectives. This Policy describes what non-public personal information we collect about you, why we collect it, and when we may share it with others.

We hope this Policy will help you understand how we collect and share non-public personal information that we gather about you. Throughout this Policy, we refer to the non-public information that personally identifies you or your accounts as "personal information."

#### 1. WHAT PERSONAL INFORMATION DO WE COLLECT ABOUT YOU?

To serve you better and manage our business, it is important that we collect and maintain accurate information about you. We may obtain this information from applications and other forms you submit to us, from your dealings with us, from consumer reporting agencies, from our Web sites and from third parties and other sources.
