**June 2008 Order Comments:**

Order growth trends remained solid in the 10 to 15 percent range for the three months ended in June, led by strength in the Process Management and Industrial Automation business segments. Favorable currency exchange rates contributed approximately 5 percentage points to the increase.

General strength throughout key served markets and a strong global presence continued to impact Process Management order trends favorably. Orders also benefited from the weaker dollar.

Industrial Automation order growth continued to show strength, led by global power generating alternator demand. The weaker dollar also impacted orders favorably.

Edgar Filing: EMERSON ELECTRIC CO - Form 8-K

Network Power order growth moderated for the three months ended in June resulting from comparative softness in telecommunications spending in the U.S. and Europe. This order growth moderation was expected given the very strong 2007 order growth performance, and is indicative of the long-term cycle trend for this business segment.

Order growth increased for Climate Technologies primarily due to the hot weather across many areas of the U.S. as well as continued strength in Asia.

## Edgar Filing: EMERSON ELECTRIC CO - Form 8-K

Appliance and Tools order trends remained consistent with the prior month with strength from the professional tools and non-residential storage businesses more than offset by weakness in the motors, appliance components and residential storage businesses.
