20 June 2006

TO THE SHAREHOLDERS

Dear Sir or Madam,

THE COMMISSIONING OF ASIASAT 5

INTRODUCTION

On 28 April 2006 and 8 May 2006, the Company announced that AsiaSat, a wholly owned subsidiary of the Company, had entered into the Construction Agreement and the Launch Contract, respectively, for the commissioning of AsiaSat 5. AsiaSat 5 is a new satellite of Space Systems/Loral 1300 satellite bus with 26 C-band and 14 Ku-band transponders to be constructed and launched pursuant to the Construction Agreement and the Launch Contract. The purpose of this circular is to provide you with further details of the Agreements and the commissioning of AsiaSat 5 as set out below.

-3-

LETTER FROM THE BOARD

THE AGREEMENTS

1. THE CONSTRUCTION AGREEMENT

DATE

28 April 2006

PARTIES

1. The Construction Contractor; and
2. AsiaSat, a wholly owned subsidiary of the Company.

To the best of the knowledge, information and belief of the Directors, having made all reasonable enquiries, the Construction Contractor and its ultimate beneficial owner are third parties independent of the Company and its connected persons.

SUBJECT MATTER

Pursuant to the Construction Agreement, the Construction Contractor will provide for AsiaSat the design, construction, assembly, testing, production and delivery of AsiaSat 5, and other professional services and labour for the construction of AsiaSat 5, including studies, development, research, design, analysis, manufacture, product assurance, product integration, transportation and testing. In addition, the Construction Contractor will provide all necessary technical support to the prospective launch services provider to permit testing integration and launch.

The Construction Contractor will also provide a royalty-free, world-wide, non-exclusive, non-transferable, paid-up license for AsiaSat to use the data and information, including, without limitation to, technical data and information contained in reports, documents, computer programs, diagrams, drawings and graphs that AsiaSat requires for the purpose of the construction and the operation of AsiaSat 5.

The Construction Contractor will further indemnify AsiaSat and defend on its own expenses third party requests, claims, actions and

proceedings for royalty payments, equitable relief or damages against AsiaSat based on any infringement of patent, trade mark, or copy right or trade secret from the manufacturing of the items; and to pay any royalties and other costs in the settlement of such request and the costs and damages finally awarded to the third party on the claim.

CONSIDERATION

US\$95 million (equivalent to approximately HK\$741 million)

-4-

LETTER FROM THE BOARD

COMPLETION

Under the terms of the Construction Agreement, the Construction Contractor shall complete the construction of AsiaSat 5 to be available for shipment to the launch site within 25 months after 28 April 2006.

TITLE

The title to AsiaSat 5 shall pass to AsiaSat at the moment of launch. In the event AsiaSat 5 is not launched within 3 years after it is completed by the Construction Contractor, AsiaSat shall pay all monies payable under the Construction Agreement and have the title to AsiaSat 5 subject to the obtaining of requisite US Government approvals.

OPTION

AsiaSat has an option to order an additional satellite substantially similar to AsiaSat 5 subject to price adjustment based on an indexation computed with reference to the aircraft manufacturing price and employment cost indexes published by the U.S. Department of Labour. AsiaSat intends to exercise this option in the event of an unsuccessful launch of AsiaSat 5. The Company will comply with the requisite requirements under the Listing Rules as and when the option is exercised, and a further announcement will be made if and when required.

2. THE LAUNCH CONTRACT

DATE

8 May 2006

PARTIES

1. The Launch Contractor; and
2. AsiaSat, a wholly owned subsidiary of the Company.

To the best of the knowledge, information and belief of the Directors, having made all reasonable enquiries, the Launch Contractor and its ultimate beneficial owner are third parties independent of the Company and its connected persons.

-5-

LETTER FROM THE BOARD

SUBJECT MATTER

The Launch Contractor shall provide services associated with the launch of AsiaSat 5 in the Baikonur Space Centre in Kazakhstan.

CONSIDERATION

US\$45 million (equivalent to approximately HK\$351 million)

COMPLETION

Under the terms of the Launch Contract, the launch service shall be completed upon the launch of AsiaSat 5, which is scheduled to take place between 1 July 2008 and 31 December 2008 and such schedule can be extended by AsiaSat by written notice in accordance with the terms of the Launch Contract. It is expected that AsiaSat 5 will be launched in the second half of 2008.

TOTAL COST FOR THE COMMISSIONING OF ASIASAT 5

The Directors estimate that the total consideration for the commissioning of AsiaSat 5, including the contract price under the Construction Agreement and the Launch Contract, and the costs of the launch insurance, ground facilities for telemetry, tracking and control, related expenses and capitalised interest under arrangements with various third parties, will be approximately US\$180 million (equivalent to approximately HK\$1,404 million). This estimation is subject to a number of factors including timely completion of AsiaSat 5, certain delays or postponements in launching, the in-orbit performance of AsiaSat 5 after launching. The estimated cost for commissioning of AsiaSat 5 will be fully funded by internal resources of AsiaSat.

The contract price under the Construction Agreement will be paid in cash in stages and the final instalment shall be paid upon completion of in-orbit testing, scheduled to take place 27 months after 28 April 2006, or in the event AsiaSat 5 is completed but not launched, 3 years after it is completed.

The contract price under the Launch Contract will be paid in cash by instalments over a period from 8 May 2006 to one month after the launch.

The contract price and the terms of the Agreements were negotiated on an arm's-length basis having regard to the value of similar assets as quoted by other constructors and based on a previous similar acquisition of a satellite by AsiaSat in 2000. Details of this acquisition in 2000 were published in the Company's announcements and circular dated 7 September 2000, 19 September 2000 and 11 October 2000, respectively.

-6-

LETTER FROM THE BOARD

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

REASONS AND BENEFITS OF THE COMMISSIONING OF ASIASAT 5

AsiaSat 5 will replace AsiaSat 2 at the orbital location of 100.5 degrees East and allow our market competitiveness, strategic position of satellites and the offering of our very best services to be sustained for the years ahead. It will replace all current functions of AsiaSat 2 in C-band coverage, and in Ku-band, provide additional dedicated coverage for South Asia plus a steerable beam.

The C-band payload of AsiaSat 5 will be similar to that of AsiaSat 2 save for some performance upgrades. As for the Ku-band payload, its coverage over China is significantly upgraded and additional coverage is also provided for in South Asia covering, inter alia, India, Pakistan and Bangladesh. In addition, the satellite will carry a steerable antenna that will allow capacity of Ku-band to be deployed in a consistent manner with the market demand anywhere in Asia.

The Directors are of the view that the transactions have been conducted in the ordinary and usual course of business of the Company, on normal commercial terms and the terms of the transactions are fair and reasonable and in the interest of the shareholders of the Company as a whole.

FUTURE PROSPECT

As stated in the annual report of the Company ended 31 December 2005, the Company has reported a creditable result for the year ended 31 December 2005 with an increase of 18% in overall utilisation of satellite transponder capacity compared to 2004 despite the tough market condition. Looking ahead, with the continued improvement in demand in many key markets, the new AsiaSat 5 with enhanced functionalities and coverage replacing the retiring satellite will contribute to the strengthening of the Group's communication platform. As a market leader in Asia, the Group remains totally committed to providing the best satellite services to its customers and continuing to seek growth opportunities.

EFFECT OF TRANSACTION

The acquisition of AsiaSat 5, as disclosed in Appendix II has little impact on the financial position of the Company if the transactions took place and completed on 31 December 2005. The only changes to the financial position were an increase of approximately US\$180 million (equivalent to approximately HK\$1,404 million) in property, plant and equipment with a corresponding decrease in cash and cash equivalents.

According to the schedules of the Construction Agreement and the Launch Contract, AsiaSat 5 will not be launched until the second half of 2008. Thus, the acquisition of AsiaSat 5 has little impact on the earnings of the Company in near term as the satellite will not be in service until probably in the fourth quarter of 2008 at the earliest.

LETTER FROM THE BOARD

INFORMATION TO SHAREHOLDERS

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

The Stock Exchange has granted a waiver in relation to the delay in despatch of the circular regarding the commissioning of AsiaSat 5 until 26 June 2006.

SHAREHOLDERS' APPROVAL

The total consideration for commissioning AsiaSat 5, including the contract price under the Launch Contract, the Construction Agreement and the cost of the launch insurance, is estimated to be approximately US\$180 million (equivalent to approximately HK\$1,404 million) and the Launch Contract, when taken together with the Construction Agreement and the related insurance, will constitute a major transaction of the Company and is subject to the approval of the shareholders of the Company under the Listing Rules. As no shareholder is required to abstain from voting if the Company were to convene a general meeting pursuant to Rule 14.44 of the Listing Rules, the Agreements and the commissioning of AsiaSat 5 will be approved by written shareholders' approval in accordance with rule 14.44 of the Listing Rules. The Company's controlling shareholder, Bowenvale Limited, which owns approximately 69 per cent of the issued share capital of the Company, has given its written approval to the Company on the Construction Agreement, Launch Contract and the commissioning of AsiaSat 5. No Shareholders meeting will be convened to consider the Agreements.

GENERAL INFORMATION

Your attention is also drawn to the general information set out in the Appendices to this circular.

Yours faithfully
For and on behalf of the Board
ROMAIN BAUSCH
CHAIRMAN

These consolidated financial statements have been approved for issue by the Board of Directors on 16 March 2006 and signed on its behalf by Mr. JU Wei Min (Director) and Mr. Peter JACKSON (Director).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 BASIS OF PREPARATION

The consolidated financial statements of the Group have been prepared in accordance with Hong Kong Financial Reporting Standards (HKFRSs) and have been prepared under the historical cost convention.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in note 4.

THE ADOPTION OF NEW/REVISED HKFRSS

In 2005, the Group adopted the new/revised standards and interpretations of HKFRS below, which are relevant to its operations. The 2004 comparatives have been amended as required, in accordance with the relevant requirements.

HKAS 1	Presentation of Financial Statements
HKAS 2	Inventories
HKAS 7	Cash Flow Statements
HKAS 8	Accounting Policies, Changes in Accounting Estimates and Errors
HKAS 10	Events after the Balance Sheet Date
HKAS 12	Income Taxes
HKAS 14	Segment Reporting
HKAS 16	Property, Plant and Equipment
HKAS 17	Leases
HKAS 18	Revenue
HKAS 19	Employee Benefits
HKAS 21	The Effects of Changes in Foreign Exchange Rates
HKAS 23	Borrowing Costs
HKAS 24	Related Party Disclosures
HKAS 27	Consolidated and Separate Financial Statements
HKAS 28	Investments in Associates
HKAS 31	Investments in Joint Ventures
HKAS 33	Earnings per Share
HKAS 36	Impairment of Assets
HKAS 37	Provisions, Contingent Liabilities and Contingent Assets
HKAS 38	Intangible Assets
HKFRS 2	Share-based Payments
HKFRS 3	Business Combinations

The adoption of new/revised HKASs did not result in substantial changes to the Group's existing accounting policies under HK GAAP. In summary:

- HKAS 1 has affected the presentation of minority interests, share of net after-tax results of associates and other disclosures in the consolidated balance sheet, consolidated income statements and consolidated

statement of changes in equity;

-16-

APPENDIX I

FINANCIAL INFORMATION

- HKASs 2, 8, 16, 21, 28 and 36 have affected certain disclosures in the financial statements;
- HKASs 7, 10, 12, 14, 18, 19, 23, 27, 31, 33 and 37 did not have any material impact as the Group's existing accounting policies have already complied with the standards in all material respects; and
- HKAS 24 has affected the identification of related parties and the disclosure of related-party transactions.

The adoption of revised HKAS 17 has resulted in a change in the accounting policy relating to the reclassification of leasehold land and land use rights from property, plant and equipment to operating leases. The up-front prepayments made for the leasehold land and land use rights are expensed in the income statements on a straight-line basis over the period of the lease. In prior years, the leasehold land was accounted for at cost less accumulated depreciation.

The adoption of HKFRS 2 has resulted in a change in the accounting policy for share-based payments. Until 31 December 2004, the provision of share options to employees did not result in an expense in the income statements. Effective on 1 January 2005, the Company expenses the cost of share options in the income statement. As no share option was granted after 7 November 2002, no adjustment was required in the income statements of the respective years (NOTE 2.15).

The adoption of HKFRS 3, HKASs 36 and 38 results in a change in the accounting policy for goodwill. Until 31 December 2004, goodwill was:

- Amortised on a straight line basis over a period of 2 years; and
- Assessed for an indication of impairment at each balance sheet date.

-17-

APPENDIX I

FINANCIAL INFORMATION

In accordance with the provisions of HKFRS 3 (NOTE 2.7):

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

- The Group ceased amortisation of goodwill from 1 January 2005;
- Accumulated amortisation as at 31 December 2004 has been eliminated with a corresponding decrease in the cost of goodwill;
- For the year ended 31 December 2005 and onwards, goodwill is tested annually for impairment, as well as when there is indication of impairment.

The Group has reassessed the useful lives of its intangible assets in accordance with the provisions of HKAS 38. No adjustment resulted from this reassessment.

All changes in the accounting policies have been made in accordance with the transition provisions in the respective standards. All standards adopted by the Group require retrospective application other than:

- HKAS 16 - the initial measurement of an item of property, plant and equipment acquired in an exchange of assets transaction is accounted at fair value prospectively only to future transactions;
- HKFRS 2 - only retrospective application for all equity instruments granted after 7 November 2002 and not vested at 1 January 2005;
- HKFRS 3 - prospectively after the adoption date.

There was no impact on opening retained earnings at 1 January 2004 from the adoption of HKASs 31 and 38, HKFRSs 2 and 3.

2.2 CONSOLIDATION

The consolidated financial statements include the financial statements of the Company and all its subsidiaries made up to 31 December.

(a) SUBSIDIARIES

Subsidiaries are all entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

-19-

APPENDIX I

FINANCIAL INFORMATION

The purchase method of accounting is used to account for the acquisition of subsidiaries. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the income statements.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

In the Company's balance sheet the investments in subsidiaries are stated at cost less provision for impairment losses. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

(b) ASSOCIATES

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights.

Investments in associates are accounted for by the equity method of accounting and are initially recognised at cost. The Group's investment in associates includes goodwill (net of any accumulated impairment loss) identified on acquisition.

The Group's share of its associates' post-acquisition profits or losses is recognised in the income statement, and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

-20-

APPENDIX I

FINANCIAL INFORMATION

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

In the Company's balance sheet the investments in associated companies are stated at cost less provision for impairment losses. The results of associated companies are accounted for by the Company on the basis of dividend received and receivable.

2.3 SEGMENT REPORTING

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is engaged in providing products or services within a particular economic environment that are subject to risks and returns that are different from those of segments operating in other economic environments.

2.4 FOREIGN CURRENCY TRANSLATION

(a) FUNCTIONAL AND PRESENTATION CURRENCY

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in HK dollars, which is the Company's functional and presentation currency.

(b) TRANSACTIONS AND BALANCES

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting

from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

-21-

APPENDIX I

FINANCIAL INFORMATION

Translation differences on non-monetary items, such as equity instruments held at fair value through profit or loss, are reported as part of the fair value gain or loss. Translation difference on non-monetary items, such as equities classified as available-for-sale financial assets, are included in the fair value reserve in equity.

(c) GROUP COMPANIES

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- (ii) income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- (iii) all resulting exchange differences are recognised as a separate component of equity.

2.5 PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Buildings in the course of development for production, rental or administrative purposes or for purposes not yet determined, are carried at cost, less an identified impairment loss. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

-22-

APPENDIX I

FINANCIAL INFORMATION

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are expensed in the income statements during the financial year in which they are incurred.

Depreciation of property, plant and equipment is calculated using the straight-line method to allocate cost or revalued amounts to their residual values over their estimated useful lives, at the following rates per annum:

Satellites:	
- AsiaSat 2	8%
- AsiaSat 3S	6.25%
- AsiaSat 4	6.67%
Buildings	4%
Tracking facilities	10%-20%
Furniture, fixtures and fittings	20%-33%
Other equipment	25%-33%
Motor vehicles	25%
Plant and machinery	20%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

2.6 INTANGIBLE ASSETS - LICENCE

The licence is shown at historical cost. The licence has a definite useful life and is carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of the licence over its estimated useful life (112 months).

-23-

APPENDIX I

FINANCIAL INFORMATION

2.7 IMPAIRMENT OF ASSETS

Assets that have an indefinite useful life are not subject to amortisation, which are at least tested annually for impairment and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

2.8 GOODWILL

Goodwill represents the excess of the cost of an investment over the fair value of the Group's share of the net identifiable assets of the acquired associates at the date of investment. Goodwill on investment of associates is included in interests in associates. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing.

2.9 INVENTORIES

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the first-in, first-out (FIFO) method, comprises all costs of purchase and other costs incurred in bringing the inventories to their present locations and conditions. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

2.10 TRADE AND OTHER RECEIVABLES

Trade and other receivables are recognised initially at fair value less provision for impairment. A provision for impairment of trade and other receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is recognised in the income statement.

-24-

APPENDIX I

FINANCIAL INFORMATION

2.11 CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

2.12 SHARE CAPITAL

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.13 BORROWINGS

Borrowings are recognised initially at fair value, net of transaction costs incurred. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability, including fees and commissions paid to agents, advisers, brokers and dealers, levies by regulatory

agencies and securities exchanges, and transfer taxes and duties. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

2.14 DEFERRED INCOME TAX

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, if the deferred income tax arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss, it is not accounted for. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

-25-

APPENDIX I

FINANCIAL INFORMATION

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, associates and jointly controlled entities, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

2.15 EMPLOYEE BENEFITS

(a) PENSION OBLIGATIONS

The Group participates in defined contribution plans, the Group pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The pension plans are generally funded by payments from employees and by the relevant Group companies. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due and are reduced by contributions forfeited by those employees who leave the scheme prior to vesting fully in the contributions. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(b) SHARE-BASED COMPENSATION

The Group operates an equity-settled, share-based compensation plan. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed over the vesting period is determined by

reference to the fair value of the options granted, excluding the impact of any non-market vesting conditions (for example, profitability and sales growth targets). Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each balance sheet date, the entity revises its estimates of the number of options that are expected to become exercisable. It recognises the impact of the revision of original estimates, if any, in the income statements, and a corresponding adjustment to equity over the remaining vesting period.

(c) PROFIT-SHARING AND BONUS PLANS

The expected cost of profit sharing and bonus payments are recognised as a liability when the Group has a present legal or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made.

-26-

APPENDIX I

FINANCIAL INFORMATION

Liabilities for profit sharing and bonus plans are expected to be settled within 12 months and are measured at the amounts expected to be paid when they are settled.

2.16 PROVISIONS

Provisions for environmental restoration, restructuring costs and legal claims are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Restructuring provisions comprise lease termination penalties and employee termination payments. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

2.17 REVENUE RECOGNITION

Revenue from transponder utilisation is recognised on a straight-line basis over the period of the agreements. The excess of revenue recognised on a straight-line basis over the amount received and receivable from customers in accordance with the contract terms is shown as unbilled receivable.

Revenue from the sale of transponder capacity under transponder purchase agreements is recognised on a straight-line basis from the date of delivery of the transponder capacity until the end of the estimated useful life of the satellite.

Deposits received in advance in connection with the provision of transponder capacity are deferred and included in other payables.

Services under transponder utilisation agreements are generally billed quarterly in advance. Such amounts received in advance and amounts received from the sale of transponder capacity under transponder purchase agreements in excess of amounts recognised as revenue are recorded as deferred revenue. Deferred revenue which will be recognised in the following year is classified under current liabilities and amounts which will be recognised after one year are classified as non-current.

Interest income is accrued on a time basis, by reference to the principal amounts outstanding and at the interest rate applicable.

-27-

APPENDIX I

FINANCIAL INFORMATION

2.18 OPERATING LEASES (AS THE LESSEE)

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are expensed in the income statements on a straight-line basis over the period of the lease.

2.19 DIVIDEND DISTRIBUTION

Dividend distribution to the Company's shareholders is recognised as a liability in the financial statements in the period in which the dividends are approved by the Company's shareholders.

3. FINANCIAL RISK MANAGEMENT

3.1 FINANCIAL RISK FACTORS

The Group's activities expose it to a variety of financial risks: foreign exchange risk, credit risk, and cash flow interest-rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) FOREIGN EXCHANGE RISK

During the year, almost all of the Group's revenues, premiums for satellite insurance coverage and substantially all capital expenditure were denominated in U.S. Dollars. The Group's remaining expenses were primarily denominated in Hong Kong Dollars. At 31 December 2005, almost all the Group's transponder utilisation agreements, transponder purchase agreement, loan agreements, obligations to purchase telemetry, tracking and control equipment were denominated in U.S. Dollars. Hence, the Group does not have any significant currency exposure and does not need to hedge.

-28-

(b) CREDIT RISK

The Group has no significant concentrations of credit risk. The Group maintains provision for impairment of receivables and for estimated losses that result from the inability of its customers to make the required payments. The Group bases its provision on the likelihood of recoverability of account receivables based on past experience and current collection trends that are expected to continue. The Group's evaluation also includes the length of time the receivables are past due and the general business environment.

(c) CASH FLOW INTEREST-RATE RISK

As the Group has no significant interest-bearing assets or liabilities, the Group's income and operating cash flows are substantially independent of changes in market interest rates.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

4.1 CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) ESTIMATED IMPAIRMENT OF GOODWILL

The Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in note 2.7. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of estimates.

-29-

(b) INCOME TAXES

The Group is subject to income taxes in numerous jurisdictions. Significant judgment is required in determining the worldwide provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final

tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

The issue of Indian tax is covered under Contingencies in note 28 below.

(c) USEFUL LIVES OF IN-ORBIT SATELLITES

The Group's operations are capital intensive and it has significant investments in satellites. The carrying value of the Group's in-orbit satellites (AsiaSat 2, AsiaSat 3S and AsiaSat 4) represented 52% of its total assets as of 31 December 2005 (31 December 2004: 59%). The Group estimates the useful lives of satellites in order to determine the amount of depreciation expense to be recorded during the reported period. The useful lives are estimated at the time satellites are put into orbit and are based on historical experience with other satellites as well as the anticipated technological evolution or other environmental changes. If technological changes were to occur more rapidly than anticipated or in a different form than anticipated, the useful lives assigned to these satellites may need to be shortened, resulting in the recognition of increased depreciation in a future period. Similarly, if the actual lives of satellites are longer than the Group has estimated, the Group would have a smaller depreciation expense. As a result, if the Group's estimations of the useful lives of its satellites are not accurate or are required to be changed in the future, the Group's net income in future periods would be affected.

-30-

APPENDIX I

FINANCIAL INFORMATION

(d) REALISABILITY OF THE CARRYING AMOUNTS OF LONG-LIVED ASSETS

The Group is required to evaluate at each balance sheet date whether there is any indication that the carrying amounts of long-lived assets (primarily its satellites) may be impaired. If any such indication exists, the Group should estimate the recoverable amount of the long-lived assets. An impairment loss is recognised for the excess of the carrying amount of such long-lived assets over their recoverable amounts. The value in use is the discounted present value of the cash flows expected to arise from the continuing use of long-lived assets and cash arising from its disposal at the end of its useful life. The estimates of the cash flows are based on the terms and period of existing transponder utilisation agreements ("Existing Agreements").

Modifications to the terms of the Existing Agreements that result in shorter utilisation periods than previously agreed and/or those that result in the reduction in agreed rates will result in a lower recoverable amount (if the discount rate used is not changed); which may, in turn, result in a situation wherein the recoverable amounts are less than the carrying amounts (therefore, an impairment loss would need to be recognised).

5. SALES AND SEGMENT INFORMATION

SALES:

The Group's sales is analysed as follows:

	2005 HK\$'000	2004 HK\$'000

The Group has only one business segment, namely the operation, maintenance and provision of satellite telecommunication systems for broadcasting and telecommunications. The Group's primary reporting format for segment reporting purposes under HKAS 14 "Segment Reporting" is the geographical basis. For the purpose of classification, the country where the customer is incorporated is deemed to be the source of sales. However, the Group's operating assets consist primarily of its satellites which are used, or are intended for use, for transmission to multiple geographical areas and therefore cannot be allocated between geographical segments. Accordingly, no geographical analysis of expenses, assets and liabilities has been presented.

The following table provides an analysis of the Group's sales by geographical markets:

SHARE OPTION SCHEME

A share option scheme is adopted to provide incentives to employees and directors and to promote the long term financial success of the Company. The details of the scheme are as follows:

SCHEME ADOPTED ON 3 JUNE 1996

In accordance with the Company's share option scheme (the "1996 Scheme") adopted pursuant to a resolution passed on 3 June 1996, the Board of Directors of the Company may at their discretion grant options to all permanent, full-time employees of the Company and its subsidiaries, to subscribe for shares in the Company. The primary purpose of the 1996 Scheme was to provide incentives to eligible employees.

The total number of shares in respect of which options may be granted under the 1996 Scheme (including options already exercised) was not permitted to exceed 10% of the issued share capital of the Company at any point in time. The maximum number of share options issued to any employee, based on the subscription price of the options, shall not exceed four times the annual basic salary (excluding bonuses and allowances) of that employee.

-41-

APPENDIX I

FINANCIAL INFORMATION

Options granted must be taken up within 28 days from the date of grant upon payment of HK\$1 per each grant of share options. An option may be exercisable up to 50% on or after the third anniversary of the date of grant, up to 75% on or after the fourth anniversary and fully on or after the fifth anniversary but before the tenth anniversary of the date of offer unless the Board of Directors specifies other periods. The exercise price was determined by the Board of Directors and was based on the average closing price of the shares for the five trading days immediately preceding the date of grant.

The 1996 Scheme was terminated on 25 January 2002 pursuant to a resolution passed on that date.

SCHEME ADOPTED ON 25 JANUARY 2002

A new share option scheme (the "2002 Scheme") was adopted pursuant to a resolution passed on 25 January 2002 for the primary purpose of attracting and retaining the best personnel for the development of the Company's businesses, and providing incentives to employees, Directors, consultants, agents, representatives and advisors, and promoting the long term financial success of the Company. The 2002 Scheme will expire on 24 January 2012.

Under the 2002 Scheme, the Board of Directors of the Company may at their discretion grant options to the employees, including Directors, of the Company or any company that directly, or indirectly through one or more intermediaries, controls or is controlled by, or is under common control with, the Company, to subscribe for shares in the Company. Options granted to a Director, chief executive or substantial shareholder of the Company or any of their respective associates must be approved by the Independent Non-executive Directors of the Company (excluding any Independent Non-executive Director who is also the grantee).

No options have been granted during the year. At 31 December 2002, the number of shares in respect of which options had been granted under the 2002 Scheme was 7,149,500 representing 1.83% of the shares of the Company in issue at that date.

--42--

APPENDIX I

FINANCIAL INFORMATION

The total number of shares in respect of which options may be granted under the 2002 Scheme and any other schemes is not permitted to exceed 30% of the issued share capital of the Company from time to time. In addition, the total number of shares in respect of which options may be granted under the 2002 Scheme and any other schemes must not, in aggregate, exceed 10% of the issued share capital of the Company at the adoption date of the 2002 Scheme, being 39,026,550 shares, without prior approval from the Company's shareholders.

The number of shares in respect of which options may be granted to any individual in any one year is not permitted to exceed 1% of the shares of the Company in issue, without prior approval from the Company's shareholders. Options granted to a substantial shareholder, or an Independent Non-executive Director of the Company, or any of their respective associates under the 2002 Scheme and any other schemes in any one year in excess of 0.1% of the Company's issued share capital or with a value in excess of HK\$5 million must be approved in advance by the Company's shareholders.

Options granted must be taken up within 28 days from the date of grant upon payment of HK\$1 per each grant of share options. The exercise period of the share options granted under the 2002 Scheme shall be determined by the Board of Directors when such options are granted, provided that such period shall not end later than 10 years from the date of grant. The exercise price is determined by the Board of Directors and will not be less than the higher of the closing price of the Company's shares on the date of grant, or the

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

average closing price of the shares for the five trading days immediately preceding the date of grant, or the nominal value of a share of the Company.

No options were granted during the year. Total consideration received in 2002 from employees for taking up the options granted amounted to HK\$105.

The financial impact of share options granted is not recorded in the Company's or the Group's balance sheet until such time as the options are exercised, and no charge is recognised in the income statements in respect of the value of options granted in the year. Upon the exercise of the share options, the resulting shares issued are recorded by the Company as additional share capital at the nominal value of the shares and the excess of the exercise price per share over the nominal value of the shares is recorded by the Company in the share premium account. Options which are lapsed or are cancelled prior to their exercise dates are deleted from the register of outstanding options.

22. INCOME TAX EXPENSE

A significant portion of the Group's profit is treated as earned outside Hong Kong and is not subject to Hong Kong profits tax. Hong Kong profits tax has been provided at the rate of 17.5% (2004: 17.5%) on the estimated assessable profit for the year.

Overseas tax, including the Foreign Enterprises Income Tax in the People's Republic of China, is calculated at 5% to 20% of the gross revenue earned in certain of the overseas jurisdictions.

Details of deferred taxation are set out in note 17.

The Group currently has a tax case in dispute with the Indian tax authorities. Details of this area set out in note 28.

25. EARNINGS PER SHARE

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

BASIC

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the year.

	2005 HK\$'000	2004 HK\$'000
Profit attributable to equity holders of the Company	366,184 =====	431,216 =====
Weighted average number of ordinary shares in issue (thousands)	390,266 =====	390,266 =====
Basic earnings per share (HK\$ per share)	0.94 =====	1.10 =====

DILUTED

Diluted earnings per share is calculated adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Company has share options of dilutive potential ordinary shares. The calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average annual market share price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding share options. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the share options.

28. CONTINGENCIES

Under Indian tax regulations, the Group may be subject to Indian income tax on revenues received by the Group in respect of income from provision of satellite transponder capacity to the Group's customers for purposes of those customers carrying on business in India or earning income from any source in India.

The Indian tax authorities have assessed the Group for income tax as follows:

ASSESSMENT YEAR	AMOUNT HK\$ (approximate)	AMOUNT INR (approximate)
1997-98	20 million	115 million
1998-99	23 million	141 million
1999-00	22 million	127 million
2000-01	14 million	84 million
2001-02	29 million	171 million
2002-03	38 million	210 million
	-----	-----
Total	146 million	848 million
	=====	=====

The Group has filed appeals for each of the assessment years 1997-98 to 2002-03.

No assessment has yet been made for the 2003-04 or 2004-05 assessment years.

-60-

APPENDIX I

FINANCIAL INFORMATION

The Income Tax Appellate Tribunal (the "Tribunal") in an earlier appeal filed against the original assessment for the assessment year 1997-98 held that the Group is liable for Indian income tax under certain circumstances. The Group does not believe that it is liable for the Indian income tax as held by the Tribunal and has filed an appeal against the Tribunal's decision. The tax authorities have also filed an appeal against the Tribunal's decision. Both the appeals have been admitted by the High Court.

In order to obtain a stay of recovery proceedings, the Group has made payments as follows and has recorded these payments as an asset on the assumption that the amounts are recoverable:

ASSESSMENT YEAR	AMOUNT HK\$ (approximate)	AMOUNT INR (approximate)
1997-98	13 million	78 million
1998-99	15 million	88 million
1999-00	10 million	62 million
2000-01	9 million	50 million
2001-02	20 million	119 million
2002-03	27 million	148 million
	-----	-----
Total	94 million =====	545 million =====

In addition, based on the general principles set forth by the Tribunal, the amount of income taxable in India depends on the payments made by the Group's customers to the Group for the purpose of those customers carrying on business in India or earning income from any source in India. As such information is proprietary in nature and has not been provided by the Group's customers, the Group cannot reasonably estimate the taxable income and therefore also cannot estimate the amount of income tax to which the Group may be assessed. Furthermore, as stated above, the Group has filed an appeal against the Tribunal's decision. The appeal has been admitted by the High Court and is pending before the Court. Accordingly, no provision has been recognised for Indian income tax in the Group's financial statements.

APPENDIX I

FINANCIAL INFORMATION

(a) CAPITALISATION OF INTEREST AND BORROWING COSTS

Under HK GAAP, interest on bank loans and related costs of obtaining the loans (including costs incurred in connection with loan facilities) taken out to finance construction of satellites is capitalised during the period of construction. Under US GAAP, the interest cost incurred during the period of construction that could have been avoided if the construction of satellites had not been made, is capitalised. The interest capitalised is computed by applying an average borrowing rate of outstanding debt to the total amount of qualifying assets under construction, not to exceed total interest costs incurred.

In addition, under US GAAP, certain related borrowing costs payable to lenders are excluded from the amounts capitalised.

(b) AMORTISATION AND IMPAIRMENT LOSS OF GOODWILL

Under HK GAAP, HKFRS 3 requires all business combinations for which the agreement date is on or after 1 January 2005 to be accounted for using the purchase method. Goodwill acquired in a business combination will no longer be amortised but will be subject to impairment tests at least annually in accordance with HKAS 36. Upon the adoption of HKFRS 3, the net carrying amount of goodwill carried on the balance sheet is frozen and will be tested for impairment. Goodwill previously taken directly to reserves will no longer be subject to impairment testing and will not be recognised in the income statements when all or part of the business to which the goodwill relates is disposed of. Accordingly, goodwill previously taken directly to reserves will not impact the income statements in the future upon the adoption of HKAS 36.

Under US GAAP, effective from 1 January 2002, goodwill is: (i) no longer amortised, (ii) assigned to a reporting unit and (iii) tested for impairment at least annually. Prior to 1 January 2002, goodwill was amortised over its estimated useful life, not to exceed 40 years under US GAAP.

(c) The amounts included in the reconciliation show the income tax effects of the differences between HK GAAP and US GAAP as described above.

NOTES:

1. The translations of Hong Kong dollar amounts into United States dollars are for convenience only and have been made at a rate of HK\$7.8 to US\$1, the approximate rate of exchange at 31 December 2005. Such translations should not be construed as representations that the Hong Kong dollar amounts could be converted into United States dollars at that or any other rate.

FINANCIAL INFORMATION

3. INDEBTEDNESS

As at the close of business on 14 June 2006, being the Latest Practicable Date for ascertaining information regarding this indebtedness statement prior to the printing of this circular, the Group had no outstanding borrowings.

Apart from intra-group liabilities and normal trade payables, the Group did not have outstanding at the close of business on 14 June 2006 any debt securities issued and outstanding or agreed to be issued, mortgages, charges, debentures or other loan capital or bank overdrafts, loans or other similar indebtedness, or finance leases or hire purchase commitments, liabilities under acceptances or acceptance credits or any guarantees or other material contingent liabilities.

Since 14 June 2006, there has been no material change in the amount of indebtedness of the Group. For the purpose of this indebtedness statement, foreign currency amounts have been translated into Hong Kong dollars at the approximate rates of exchange in effect at the close of business on the Latest Practicable Date.

Details of the contingent liabilities of the Group as at 31 December 2005 are set out in Note 28 to the Company's audited consolidated financial statements for the year ended 31 December 2005 on pages 60 and 61 of this circular. Subsequently the Group received an assessment from the Indian Tax Authority for the assessment year 2003/04 amounting to HK\$43 million, which increases the contingent liabilities of the Group from HK\$146 million to HK\$189 million. Save as disclosed, the Directors are not aware any material change in the contingent liabilities at the date of this circular.

In addition to the above, as at the Latest Practicable Date, the Group had no outstanding claims in respect of pending litigation as defined in the paragraph headed "Litigation" of Appendix III to this circular.

4. WORKING CAPITAL

In the absence of unforeseen circumstances and taking into account the Group's available funds on hand, the Directors are of the opinion that the Group has sufficient working capital for its present requirements for at least 12 months from the date of publication of this circular.

The Directors
Asia Satellite Telecommunications Holdings Limited

20 June 2006

Dear Sirs,

We report on the unaudited pro forma financial information of Asia Satellite Telecommunications Holdings Limited (the "Company") and its subsidiaries (hereinafter collectively referred to as the "Group") set out on pages 71 to 73 under the heading of "Unaudited Pro Forma Financial Information" (the "unaudited pro forma financial information") in Appendix II of the Company's circular dated 20 June 2006, in connection with the commissioning of AsiaSat 5 by the Company (the "Circular"). The unaudited pro forma financial information has been prepared by the Directors of the Company, for illustrative purposes only, to provide information about how the commissioning of AsiaSat 5 might have affected the relevant financial information of the Group. The basis of preparation of the unaudited pro forma financial information is set out on pages 71 to 73 of the Circular.

RESPECTIVE RESPONSIBILITIES OF DIRECTORS OF THE COMPANY AND AUDITORS

It is the responsibility solely of the Directors of the Company to prepare the unaudited pro forma financial information in accordance with paragraph 4.29 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and Accounting Guideline 7 "Preparation of Pro Forma Financial Information for Inclusion in Investment Circulars" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA").

-74-

It is our responsibility to form an opinion, as required by paragraph 4.29(7) of the Listing Rules, on the unaudited pro forma financial information and to report our opinion to you. We do not accept any responsibility for any reports previously given by us on any financial information used in the compilation of the unaudited pro forma financial information beyond that owed to those to whom those reports were addressed by us at the dates of their issue.

BASIS OF OPINION

We conducted our engagement in accordance with Hong Kong Standard on Investment Circular Reporting Engagements 300 "Accountants' Reports on Pro Forma Financial Information in Investment Circulars" issued by the HKICPA. Our work, which involved no independent examination of any of the underlying financial information, consisted primarily of comparing the Group's unadjusted statement of assets and liabilities as at 31 December 2005 with the audited consolidated balance sheet of the Group as at 31 December 2005, considering the evidence supporting the adjustments and discussing the unaudited pro forma financial information with the Directors of the Company.

We planned and performed our work so as to obtain the information and explanations we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the unaudited pro forma financial information has been properly compiled by the Directors of the Company on the basis stated, that such basis is consistent with the accounting policies of the Group and that the adjustments are appropriate for the purposes of the unaudited pro forma financial information as disclosed pursuant to paragraph 4.29(1) of the Listing Rules.

The unaudited pro forma financial information is for illustrative purposes only, based on the judgements and assumptions of the Directors of the Company, and because of its hypothetical nature, it does not provide any assurance or indication that any event will take place in the future and may not be indicative of the financial position of the Group as at 31 December 2005 or any future date.

-75-

OPINION

In our opinion:

- (a) the unaudited pro forma financial information has been properly compiled by the Directors of the Company on the basis stated;
- (b) such basis is consistent with the accounting policies of the Group; and
- (c) the adjustments are appropriate for the purposes of the unaudited pro forma financial information as disclosed pursuant to paragraph
