EASTMAN RECEIVES FAVORABLE IRS RULING

KINGSPORT, Tenn., Nov. 8, 2001 - Eastman Chemical Company (NYSE:EMN) today announced that it has received a favorable ruling from the Internal Revenue Service regarding the tax-free status for the previously announced plan for a spin-off by which Eastman Chemical will be separated into two independent, publicly traded companies -- Eastman Company and Voridian Company.

Under this ruling, shares of Eastman Company can be distributed tax-free to the shareowners of Eastman Chemical. As announced earlier, the name of Eastman Chemical will then be changed to Voridian Company when the spin-off becomes effective.

"We are pleased to receive the favorable ruling from the IRS," said Jim Rogers, CFO. "This favorable ruling is an important step in our progress toward Eastman Chemical becoming two separate companies."

"The closer we get to the actual spin-off date at year-end, the more excited we become about the potential for success for both Eastman Company and Voridian Company," Rogers said. "It's clear that the ability to focus on distinct strategies will better position both companies for growth."

Voridian Company will consist of the PET polymers for container plastics, acetate fibers and polyethylene businesses of the current Eastman Chemical. Allan Rothwell will head up that company as CEO.

Brian Ferguson will be CEO of Eastman Company, which will consist of the specialty chemicals and plastics businesses of what is now Eastman Chemical.

The spin-off has been approved by Eastman Chemical's Board of Directors and will be considered and voted upon by Eastman Chemical shareowners at a special meeting in late December. The definitive proxy statement for the special meeting is expected to be distributed to Eastman Chemical shareowners within the next several days. The definitive proxy statement will also be made available at that time on Eastman Chemical's Web site at www.eastman.com in the investor information section and on the Securities and Exchange Commission's Web site at www.sec.gov. The definitive proxy statement will contain important information about the special meeting and the spin-off and should be read by shareowners when it becomes available.

With headquarters in Kingsport, Eastman Chemical manufactures and markets chemicals, fibers and plastics. The company has approximately 16,500 employees in 30 countries and had 2000 sales of \$5.3 billion. To learn more about Eastman Chemical and its products, visit www.eastman.com.
