AUDIT COMMITTEE REPORT

The Audit Committee of Southern Company (the "Committee") oversees the

Edgar Filing: ALABAMA POWER CO - Form DEF 14C

Company's financial reporting process on behalf of the board of directors of each of the Company and Southern Company. The Committee members are not professionally engaged in the practice of accounting or auditing and are not experts in these fields. The Company's management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements of the Company in the Annual Report with management. The Committee's review process included discussions of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

The independent public accountants are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States. The Committee reviewed with the independent public accountants their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. In addition, the Committee has discussed with the independent public accountants their independence from management and the Company including the matters in the written disclosures required by the Independence Standards Board. The Committee has also considered whether the independent public accountants' provision of non-audit services to the Company is compatible with maintaining their independence.

The Committee discussed the overall scopes and plans with the Company's internal auditors and independent public accountants for their respective audits. The Committee meets with the internal auditors and independent public accountants, with and without management present, to discuss the results of their audits, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting. The Committee held nine meetings during fiscal 2001.

In reliance on the reviews and discussions referred to above, the Committee recommended to the board of directors of Southern Company (and the board approved) that the audited financial statements be included in the Company's Annual Report for the year ended December 31, 2001 and filed with the Securities and Exchange Commission. The Committee also recommended to the board of directors of Southern Company (and the board approved) the selection of the Company's independent public accountants.

CHANGE IN PRINCIPAL PUBLIC ACCOUNTING FIRM

On March 28, 2002, the Board of Directors of Southern Company, upon recommendation of its Audit Committee, decided not to engage Arthur Andersen LLP ("Arthur Andersen") as the Company's principal public accountants and engaged Deloitte & Touche LLP ("Deloitte & Touche") to serve as the Company's principal public accountants for fiscal year 2002.

Arthur Andersen's reports on the consolidated financial statements of the Company and its subsidiaries for the two most recent fiscal years ended December 31, 2001, did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

During the Company's two most recent fiscal years ended December 31, 2001, and the subsequent interim period through March 28, 2002:

- there were no disagreements between the Company and Arthur Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to Arthur Andersen's satisfaction, would have caused them to make reference to the subject matter of the disagreement in connection with their report;
- there were no reportable events as described in Item 304(a)(1)(v) of Regulation S-K; and
- the Company did not consult Deloitte & Touche with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements, or any other matters or reportable events as set forth in Items 304(a)(2)(i) and (ii) of Regulation S-K.

No representative of Deloitte & Touche is expected to be present at the meeting unless prior to the day of the meeting the Company's Corporate Secretary has received written notice from a shareholder addressed to the Corporate Secretary at Alabama Power Company, 600 North 18th Street, Birmingham, Alabama 35291, that such shareholder will attend the meeting and wishes to ask questions of a representative of Deloitte & Touche. Representatives from Arthur Andersen will not be present.

COMPENSATION AND MANAGEMENT SUCCESSION COMMITTEE REPORT

WHAT IS THE EXECUTIVE COMPENSATION PHILOSOPHY?

Southern Company's Compensation and Management Succession Committee's intent is to provide a competitive compensation program that is linked directly to Southern Company's and the Company's strategic business objectives and their short- and long-term operating performance. With the objective of maximizing Southern Company's stockholder value over time, this policy serves to align the interests of executives and Southern Company's stockholders.

WHAT COMPRISES TOTAL EXECUTIVE COMPENSATION?

- Base pay,
- Short-term incentives (annual performance bonuses), and
- Long-term incentives.

TOTAL EXECUTIVE COMPENSATION

Total executive compensation targets are set at the size-adjusted median of the marketplace. The marketplace is defined as a group of large companies in the electric and gas utility industries. Fourteen of these companies are included in the 28 companies that comprise the Standard & Poor's Electric Utility Index.

BASE PAY

A range for base pay is determined for each executive by comparing the base pay at the appropriate peer group of companies described previously. Base pay is set at a level that is at or below the size-adjusted median paid at those companies because of Southern Company's emphasis on incentive compensation in its executive compensation program.

ANNUAL PERFORMANCE BONUSES

Annual bonuses are paid through the Omnibus Incentive Compensation Plan. All named executives participated in this plan in 2001.

PERFORMANCE GOALS

Annual performance bonus levels are based on a percentage of Southern Company's net income from operations. In addition, the annual performance bonuses are reviewed in comparison to the attainment of corporate performance and short-term business unit goals, individual goals and new products and services goals. All performance goals were set at the beginning of the year.

For 2001, the corporate performance goals included specific targets for:

- Southern Company earnings -- earnings per share of Southern Company from operations ("EPS") and
- The Company's net income and return on equity ("ROE").

We believe that accomplishing the corporate goals is essential for the Company's continued success and sustained performance. A target performance level is set for each corporate performance goal. Performance above or below

Edgar Filing: ALABAMA POWER CO - Form DEF 14C

the targets results in proportionately higher or lower bonus payments. The bonus amount is then adjusted, up or down, based on the degree of achievement of the short-term business unit goals related to capital expenditures, cash flow, customer service, plant availability, diversity and individual goals.

8

A target percentage of base pay is established for each executive officer based on position level for target-level performance. Annual performance bonuses based on the achievement of the corporate performance goals, as adjusted for the short-term business unit goals and individual performance, may range from 0 percent of the target to 240 percent. An additional amount of up to 10 percent of the executive's annual performance bonus may be paid for achievement of the new products and services goal at his or her business unit.

No bonuses are paid if performance is below a threshold level or if a minimum earnings level is not reached. Also, no bonuses are paid if Southern Company's current earnings are not sufficient to fund the common stock dividend at the same level as the prior year. We also capped the maximum amount for the annual performance bonus for each named executive officer at 0.6 percent of net income from operations.

ANNUAL BONUS PAYMENTS

Performance met or exceeded the target levels in all areas in 2001, resulting in bonuses that exceeded the target levels.

Mr. Harris' and Mr. McCrary's annual performance bonuses under the Omnibus Incentive Compensation Plan for target-level performance was 75% of each individual's base pay. Each individual's bonus paid for 2001 performance was based 30% on the degree of achievement of the Southern Company EPS goal and 70% on the degree of achievement of the Company's net income and ROE goal. Performance for both goals exceeded the target, resulting in bonus payments to Mr. Harris and Mr. McCrary that exceeded the target. Mr. McCrary also received an award based on achievement of the new products and service goal.

LONG-TERM INCENTIVES

We based a significant portion of our total compensation program on long-term incentives including Southern Company stock options and performance dividend equivalents.

Stock Options -- Executives are granted options with ten-year terms to purchase Southern Company's common stock at the market price on the date of the grant under the terms of the Omnibus Incentive Compensation Plan. The estimated annualized value represented approximately 40 percent of Mr. Harris' total compensation, approximately 30 percent of Mr. McCrary's and 25 to 35 percent for the other executives. The size of prior grants was not considered in determining the size of the grants made in 2001. These options vest over a three-year period.

Performance Dividends -- Executives also are paid performance-based dividend equivalents on most stock options held at the end of the year. Dividend equivalents can range from 25 percent of the common stock dividend rate if total shareholder return, compared to a group of other utility companies, is at the 30th percentile to 100 percent of the dividend rate if it reaches the 90th percentile.

Edgar Filing: ALABAMA POWER CO - Form DEF 14C

For eligible stock options held on December 31, 2001, all executives received 100 percent of the dividend rate, or \$1.34 per share.

POLICY ON INCOME TAX DEDUCTIBILITY OF EXECUTIVE COMPENSATION

Section 162(m) of the Internal Revenue Code limits the deductibility of certain executive's compensation that exceeds \$1 million per year unless the compensation is paid under a performance-based plan as defined in the Internal Revenue Code and that has been approved by shareholders. Southern Company has obtained shareholder approval for its Omnibus Incentive Compensation Plan. However, the policy is to maximize long-term stockholder value, and tax deductibility is only one factor considered in setting compensation.

9

SUMMARY

We believe that the policies and programs described in this report link pay and performance and serve the best interest of Southern Company stockholders. We frequently review the various pay plans and policies and modify them as we deem necessary to continue to attract, retain and motivate talented executives.

- (1) Under the terms of the Omnibus Incentive Compensation Plan, stock option grants were made on February 16, 2001 and April 16, 2001, and vest annually at a rate of one-third on the anniversary date of the grant. Grants fully vest upon termination as a result of death, total disability, or retirement and expire five years after retirement, three years after death or total disability, or their normal expiration date if earlier. The exercise price is the average of the high and low price of Southern Company's common stock on the date granted. Options may be transferred to certain family members, family trusts, and family limited partnerships. The number of options granted on February 16, 2001, and the exercise price thereof were adjusted after the spin-off of Mirant Corporation under the antidilution provisions of the plan such that the options had the same aggregate intrinsic value on the day of the spin-off as the day before.
- (2) A total of 2,435,457 stock options were granted in 2001.
- (3) Value was calculated using the Black-Scholes option valuation model. The actual value, if any, ultimately realized depends on the market value of Southern Company common stock at a future date. Significant assumptions are shown below:

GRANT DATE	VOLATILITY	RISK-FREE RATE OF RETURN	DIVIDEND OPPORTUNITY	TERM	DISCOUNT FORFEITURE	
					BEFORE VESTING	A EXP
2/16/01.....	27.34%	5.10%	50%	10	7.79%	1
4/16/01.....	26.11%	5.14%	50%	10	7.79%	1

These assumptions reflect the effects of cash dividend equivalents paid to participants under the Omnibus Incentive Compensation Plan assuming targets are met.

DEFINED BENEFIT OR ACTUARIAL PLAN DISCLOSURE

The following table sets forth the estimated annual pension benefits payable at normal retirement age under Southern Company's qualified Pension Plan, as well as non-qualified supplemental benefits, based on the stated compensation and years of service with the Southern Company system for the named executive officers at the Company. The amounts shown in the table were calculated according to the final average pay formula and are based on a single life annuity without reduction for joint and survivor annuities or computation of the Social Security offset which would apply in most cases. See "Executive Compensation Information" detailed earlier in this Information Statement for a description of the additional supplemental pension payable to Mr. Harris under an agreement with the Company.
