REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Administrative Committee of
Delta Air Lines, Inc.:

We have audited the accompanying statements of net assets available for benefits of the **DELTA FAMILY-CARE SAVINGS PLAN** as of December 31, 2001 and June 30, 2001 and the related statements of changes in net assets available for benefits for the six-month period ended December 31, 2001 and the year ended June 30, 2001. These financial statements and the schedule referred to below are the responsibility of the Administrative Committee of Delta Air Lines, Inc. in its capacity as administrator of the Plan. Our responsibility is to express an opinion on these financial statements and the schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2001 and June 30, 2001 and the changes in its net assets available for benefits for the six-month period ended December 31, 2001 and for the year ended June 30, 2001 in conformity with accounting principles generally accepted in the United States.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DELTA FAMILY-CARE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS AND SCHEDULE

DECEMBER 31, 2001 AND JUNE 30, 2001

1. DESCRIPTION OF PLAN

The following description of the Delta Family-Care Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

The Plan is a defined contribution plan established by Delta Air Lines, Inc. (the Company or Delta). Substantially all Delta and Delta Technology, Inc. (Delta Technology) personnel who are paid on the United States domestic payroll or employed in the Commonwealth of Puerto Rico are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and is intended to qualify under Section 404(c) of ERISA.

Contributions

Employee contributions may be made, at the option of the employee, as pretax contributions or after-tax contributions or as a combination of both pretax and after-tax contributions.

Eligible U.S.-based nonpilot participants who are not highly compensated employees may contribute up to 23% of eligible earnings to the Plan. Eligible nonpilot participants who are highly compensated may contribute up to 13% of eligible earnings to the Plan. Puerto Rico-based employees and Delta Technology participants may contribute up to 10% and 18%, respectively, of eligible earnings. Through December 31, 2000, eligible pilot participants could contribute up to 10% of eligible earnings to the Plan. Effective January 1, 2001, eligible pilot participants who are not highly compensated employees and eligible pilot participants who are highly compensated employees may contribute up to 18% and 13%, respectively, of eligible earnings to the Plan. Effective July 1, 2001, pilots who exceed the IRC Section 401(a)(17) limit in the prior plan year are subject to further restriction of the percentage of earnings which may be deferred into the Plan. For calendar year 2001, the limit is 12%. Contributions are subject to the limits under Section 402(g) of the Internal Revenue Code (the Code).

After the employee has completed 12 months of service, Delta makes a quarterly matching contribution to a participant's account of \$.50 for every \$1 contributed by the participant, up to 2% of the participant's annual earnings, as defined in the plan document.

Effective July 1, 2001, the pilots receive an employer contribution on a monthly basis equal to 3% of eligible earnings. Effective July 1, 2001, pilots no longer receive the quarterly company matching contribution discussed above.

The first \$1,600 (\$1,550 for the plan year ended June 30, 2001 and increased by \$50 per plan year) of these company contributions (the Annual Cap) to a participant's account is invested in the Delta Preferred Stock Fund, which consists of both Delta Series B ESOP Convertible Preferred Stock (Preferred Stock) and Delta Common Stock (Common Stock). The remainder, if any, of Delta's contributions to a participant's account during a plan year will be allocated among investment options (Note 2) in the same proportion as the participant directs for his/her own contributions. However, Delta's matching contributions in excess of the Annual Cap shall be made in Common Stock for noncollectively bargained, highly compensated employees, as determined under the Code, as amended.

Table of Contents

- 2 -

Delta Technology participants may receive an additional annual contribution equal to 5% of their annual salary.

Vesting

Delta participants are immediately vested in all contributions to their accounts plus actual earnings thereon. Delta Technology participants are immediately vested in contributions to their accounts with the exception of the additional annual contribution they receive, which vests ratably over a three-year period. Forfeitures from the Delta Technology participants' accounts are used to offset employer contributions to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and plan earnings (losses) and charged with administrative expenses on a per participant basis as well as any withdrawals made. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Account Distributions

Upon retirement or eligibility for long-term disability, a participant's non-ESOP (Employee Stock Ownership Plan) account balance may be distributed in the form of a single-sum cash payment, cash payments in monthly variable installments for a definite period not to exceed life expectancy, or variable monthly installments to be paid over the life expectancy of the participant and the participant's beneficiary.

Upon termination of employment for reasons other than retirement or long-term disability, a participant's non-ESOP account balance may be distributed as a lump-sum cash payment or the participant may elect to defer distribution.

A participant's ESOP account balance may be distributed as a lump-sum cash payment or, at the participant's election, in Common Stock when distribution of the non-ESOP portion of the account begins.

While employed, a participant may elect to withdraw all after-tax contributions, pre-1989 matching contributions, and the earnings thereon. Under certain hardship circumstances, a participant may also make an in-service withdrawal of pretax contributions.

Loans to Participants

Participants may borrow against a portion of their plan account balances. The loans are repaid, generally through regular payroll deductions, over a period not to exceed four years. The principal amounts of the loans are assets of the Plan and earn interest, which represents income to the borrowing participant, at a fixed rate equal to the average of the secured loan interest rate and the unsecured loan interest rate of the Delta Employees' Credit Union at the initiation of the loan (10% at December 31, 2001).

2. INVESTMENT OPTIONS

The investment options available to participants consist of numerous mutual funds and several actively managed portfolios, including the Delta Common Stock Fund which invests primarily in Common Stock. A brokerage window was added to the Plan effective October 1, 2001. The brokerage window provides access to mutual funds available through the Fidelity Funds Network®.

Table of Contents

- 3 -

All available investment options are participant-directed except the Delta Preferred Stock Fund, which consists of employer contributions (both Preferred Stock and Common Stock) only. Participants who are age 55 and have completed ten years of participation in the Plan may diversify their account balance out of the Delta Preferred Stock Fund.

Accounts are limited to 30 investment options at any time (excluding individual mutual funds purchased through the brokerage window), and payroll deductions are required to be allocated in 5% increments (to no more than 20 investment options at a time). Participants are not permitted to allocate more than 50% of their contributions to the Delta Common Stock Fund.

3. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting. As a result of negotiations with the pilots union, the year-end for the Plan has been changed to December 31. Therefore, the accompanying financial statements present the Plan's net assets available for benefits as of December 31, 2001 and June 30, 2001 (the previous plan year-end) and the changes in net assets available for benefits for the six-month period ended December 31, 2001 and the year ended June 30, 2001.

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires plan management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Certain prior year amounts have been reclassified to conform with the current year presentation.

Investments

Investments, except for guaranteed investment contracts and Preferred Stock, are stated at fair value as determined from the publicly stated price information at the end of each trading day.

The Preferred Stock is stated at fair value, which is determined based on the greater of (a) the market price of the Delta Common Stock into which each preferred share is convertible (Note 6) and (b) \$72 per share.

The Plan's investment contracts are fully benefit-responsive and, therefore, are presented at contract value (cost plus accrued income). The fair value of the investment contracts held by the Plan at December 31, 2001 and June 30, 2001 was approximately \$580,875,000 and \$525,945,000, respectively. The investment performance for the investment contracts for the six-month period ended December 31, 2001 was 2.91%. The average yield for the investment contracts for the year ended June 30, 2001 was 6.42%. The weighted average crediting rates for the investment contracts for the six-month period ended December 31, 2001 and for the year ended June 30, 2001 were 5.63% and 6.04%, respectively. Certain guaranteed investment contracts (GICs) held by the Plan are synthetic; that is, the Plan owns certain fixed income marketable securities, and a third party provides a wrapper that guarantees a minimum rate of return and provides benefit responsiveness. At December 31, 2001, the fair value of the assets underlying the synthetic GICs and the value of the related wrapper contracts was \$505,799,000 and \$(14,425,000), respectively. At June 30, 2001, the fair value of the underlying assets of the synthetic GICs and the value of the related wrapper contracts were \$437,973,000 and \$(5,650,000), respectively. Interest rates on the synthetic GICs are generally reset quarterly by the issuer and are guaranteed to be set at a rate not less than 0%

Table of Contents

- 4 -

Investment securities, in general, are exposed to various risks, including interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The fair values of individual investments that represent 5% or more of the Plan's total net assets as of December 31, 2001 and June 30, 2001 are separately identified as follows (in thousands):

December 31, 2001:	
Fidelity Magellan Fund	\$ 250,654
Fidelity Contrafund	253,501
Fidelity U.S. Equity Index Commingled Fund	279,267
Delta Common Stock	300,188*
Delta Preferred Stock	444,787**
June 30, 2001:	
Fidelity Magellan Fund	261,614
Fidelity Contrafund	264,766
Fidelity U.S. Equity Index Commingled Fund	298,813
Delta Common Stock	387,405*
Delta Preferred Stock	479,911**

* Partially nonparticipant-directed

** Nonparticipant-directed

The net appreciation (depreciation) in fair value of investments includes both net unrealized appreciation (depreciation) on assets held during the year and net realized gains (losses) from the sale of investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date

During the six-month period ended December 31, 2001 and the year ended June 30, 2001, the Plan's investments depreciated in fair value as follows (in thousands):

	December 31, 2001	June 30, 2001
Mutual funds	\$ (210,527)	\$ (993,894)
Delta Common Stock	(126,491)	(52,418)
Delta Preferred Stock	(23,308)	(71,163)
Commingled funds	(6,927)	(30,550)
	\$ (367,253)	\$ (1,148,025)

Table of Contents

- 5 -

Nonparticipant-Directed Investments

Information about the type of investments included in the nonparticipant-directed portion of the net assets available for benefits is as follows as of December 31, 2001 and June 30, 2001 (in thousands):

	December 31, 2001	June 30, 2001
Investments:		
Delta Common Stock	\$ 166,707	\$ 244,506
Delta Preferred Stock	444,787	479,911
Money market fund	13,606	27,889
	\$ 625,100	\$ 752,306

Administrative Expenses

Certain administrative functions of the Plan are performed by officers or employees of Delta. No such officer or employee receives compensation from the Plan. All other administrative expenses of the Plan are paid by the Plan.

4. FEDERAL INCOME TAXES

The Plan has received a letter of determination dated June 4, 1996 from the Internal Revenue Service which states that the Plan, as amended through June 29, 1995, is in compliance with Section 401(a) and applicable subsections of Section 409 of the Code, is an employee stock ownership plan with a cash or deferred arrangement under Section 401(k) of the Code, and satisfies the requirements of Section 4975(e)(7) of the Code. As a result of certain plan administration and operational concerns, the Company intends to seek relief under Revenue Procedure 2001-17. Subject to this relief, in the opinion of Delta's management, the Plan, as of December 31, 2001, continues to be in compliance with Section 401(a) and applicable subsections of Sections 409, 401(k), and 4975(e)(7) and continues to be entitled to an exemption from federal income taxation under Section 501(a); thus, no provision for federal income taxes has been made in the accompanying financial statements.

5. PLAN TERMINATION

Although it has not expressed any intent to do so at this time, Delta has the right under the Plan to discontinue its contributions at any time and to amend or terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

6. EMPLOYEE STOCK OWNERSHIP PLAN

The Plan includes a leveraged ESOP. In connection with the establishment of the ESOP in 1989, Delta sold 6,944,450 shares of Preferred Stock to the ESOP trustee for \$72 per share, or approximately \$500 million. The ESOP trustee initially financed this purchase by borrowing \$493 million from Delta and approximately \$7 million from a bank. The unallocated shares of Preferred Stock are pledged as security on the borrowings.

In 1990, the Plan issued \$481.4 million principal amount of its Guaranteed Serial ESOP notes (ESOP Notes) to third-party lenders and repaid the outstanding principal balances of the original loans. The ESOP Notes and certain related tax indemnities are guaranteed by Delta (Note 7). Therefore, the

Table of Contents

- 6 -

Company is obligated to make annual contributions sufficient to fund principal and interest payments on the ESOP Notes.

Each share of Preferred Stock has a stated value of \$72; bears an annual cumulative cash dividend of 6.00% or \$4.32; is convertible into 1.7155 shares of Common Stock, subject to adjustment in certain circumstances; and has a liquidation preference of \$72 plus any accrued and unpaid dividends. Generally, the Preferred Stock shareholders vote together as a single class with the Common Stock shareholders on matters upon which the Common Stock shareholders are entitled to vote. The Preferred Stock has two votes per share, subject to adjustment in certain circumstances.

The number of shares of Preferred Stock released from the unallocated account for a plan year will generally be the number of shares of Preferred Stock held in the unallocated account multiplied by the ratio that the amount of principal and interest paid on the ESOP Notes, with respect to such plan year, bears to the total amount of principal and interest remaining to be paid (including payments with respect to such plan year). Once shares are released from the unallocated account, they are available to be allocated to participants' accounts as company contributions.

The number of shares of Preferred Stock allocated to participant accounts will be based on a value equal to the higher of \$72 per share or the market value of the shares of Preferred Stock, as defined in the Plan. If, during the plan year, the value of the Preferred Stock released from the unallocated account as a result of the repayment of the ESOP Notes is less than Delta's contributions to the Plan for that year (excluding contributions to Delta Technology participants), this difference will be made up by Delta through (a) prepaying the ESOP Notes to release additional shares of Preferred Stock, (b) contributing cash to the Plan so the Plan's trustee can purchase Common Stock, or (c) contributing shares of Common Stock to the Plan, in each case for allocation to participants' accounts. However, if at the end of the plan year the value of the Preferred Stock released from the unallocated account as a result of the scheduled repayment of the ESOP Notes during that plan year is greater than Delta's contributions to the Plan for that plan year (excluding contributions to Delta Technology participants), then the excess will be allocated as of the end of the plan year among all participants making contributions to the Plan.

The ESOP Notes will be repaid primarily from the Company's contributions and dividends on the Preferred Stock. If dividends on allocated shares are used to repay the ESOP Notes, additional shares of Preferred Stock and Common Stock equal in value to such dividends will be allocated to the accounts of participants who otherwise would have received such dividends.

As of December 31, 2001, 3,405,019 shares of Preferred Stock with a market value, as defined, of approximately \$245,331,000 had been allocated to participants' accounts, and 2,768,288 shares of Preferred Stock with a market value, as defined, of approximately \$199,455,000 were held in the unallocated account.

7. LONG-TERM DEBT

At December 31, 2001, the Plan's long-term debt, including current maturities of \$29,207,000, consisted of \$290,195,000 aggregate principal amount of ESOP Notes with final maturity dates ranging from July 1, 2002 to January 1, 2009 and interest rates ranging from 7.63% to 8.10%. The interest rates on the ESOP Notes are subject to adjustment in the event of certain changes in the federal income tax laws. Subject to certain restrictions, the ESOP Notes may be prepaid at the option of the Plan at any time in whole or in part. Delta may be required to purchase the ESOP Notes at the option of the holders in certain circumstances.

Table of Contents

- 7 -

At December 31, 2001, the annual maturities of the ESOP Notes for the next five years and thereafter are as follows (in thousands):

Years ending December 31:	
2002	\$ 29,207
2003	32,655
2004	36,449
2005	40,621
2006	45,209
After 2006	106,054
	<hr/>
Total	\$290,195
	<hr/>

8. RELATED-PARTY TRANSACTIONS

Certain of the Plan's investments are shares of mutual funds, collective trusts, or interests in cash reserve accounts managed by Fidelity Management Trust Company (the Trustee) or affiliates of the Trustee. Transactions related to such investments qualify as permissible party-in-interest transactions under ERISA. Amounts held in such investments at December 31, 2001 are included in Schedule I. Fees paid by the Plan to an affiliate of the Trustee for record-keeping services totaled \$231,000 and \$888,000 for the six-month period ended December 31, 2001 and for the year ended June 30, 2001, respectively. Fees paid by the Plan for investment management vary by fund and are generally reflected as a reduction in fund earnings.
