NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

1. Basis Of Consolidated Financial Statement Presentation

The accompanying unaudited consolidated condensed financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission and in accordance with the instructions to Form 10-QSB and do not include all the information and footnote disclosures normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America. The information furnished in the interim financial statements includes normal recurring adjustments and reflects all adjustments, which, in the opinion of management, are necessary for a fair presentation of such financial statements. For further information refer to the consolidated financial statements and footnotes thereto included in the Company's most recent audited consolidated financial statements and notes thereto included in its September 30, 2005 annual report on Form 10-KSB. Operating results for the three and nine months ended June 30, 2006 and 2005 are not necessarily indicative of the results that may be expected for the year ending September 30, 2006.

2. Significant Accounting Policies

Use Of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Accounts Receivable

Accounts receivable consist of balances due from sales. The Company monitors accounts receivable and provides allowances when considered necessary. As of June 30, 2006 and September 30, 2005, the Company established an allowance of \$282,186 and \$144,194 respectively.

Investments

Certain investments that management has the intent and ability to hold to maturity are reported at cost, adjusted for amortization of premiums and accretion of discounts that are recognized in interest income using the interest method over the period to maturity.

Marketable and debt securities which management has classified as trading are carried at fair value with net unrealized gains and losses reported in operations. Realized gains and losses on marketable equity and debt securities are recognized upon sale using the specific identification method.

Inventories

Inventories, which consist of raw materials, work-in-process, and finished goods, are stated at the lower of cost or market value, cost being determined using the first in, first out method. Fixed and variable manufacturing costs and overhead are included in the carrying values of finished goods and work-in-process. The Company records reserves for inventory shrinkage and obsolescence,

Table of Contents

when considered necessary. As of June 30, 2006 inventory shrinkage and obsolescence reserves increased \$29,698 from September 30, 2005.

Property, Plant, And Equipment

Property, plant and equipment are carried at cost. Depreciation is provided over the estimated useful lives of the assets using both the straight-line and accelerated methods. The estimated useful lives used to compute depreciation are as follows:

Buildings and improvements	10 to 30 years
Machinery and equipment	4 to 10 years

The cost of maintenance and repairs is charged to expense as incurred; renewals and betterments are capitalized. When properties are retired or otherwise disposed of, the cost of such properties and the related accumulated depreciation are removed from the accounts. Any profit or loss is credited, or charged to income.

Software Costs

The Company capitalizes certain costs associated with software development in accordance with statement of Financial Accounting Standard #86 (FASB No.86) Accounting for the costs of computer software to be sold, leased, or otherwise marketed. The Company amortizes costs over 10 years, the estimated useful life of the asset.

Customer List

Pursuant to the acquisition of Middleton Pest Control, Inc. (Middleton), the Company recorded Customer List as an intangible asset in the amount of \$10,500,000, which amount was determined pursuant to an independent third-party appraisal. The Company is amortizing the Customer List over its estimated economic life of 8 years.

Pursuant to the acquisition of Four Seasons Lawn and Pest Control, Inc. (Four Seasons) by Middleton, the Company recorded Customer List as an intangible asset in the amount of \$204,000. The Company is amortizing the Customer List over its estimated economic life of 8 years.

Pursuant to the acquisition of Spa Creek Services, LLC, D/B/A Pest Environmental Services (Spa Creek) by Middleton, the Company recorded Customer List as an intangible asset in the amount of \$262,000. The Company is amortizing the Customer List over its estimated economic life of 8 years.

Pursuant to the acquisition of Par Pest Control, Inc. D/B/A Paragon Termite & Pest Control (Paragon) by Middleton, the Company recorded Customer List as an intangible asset in the amount of \$562,400. The Company is amortizing the Customer List over its estimated economic life of 8 years.

Pursuant to the acquisition of Pestec Pest Control, Inc. (Pestec) by Middleton, the Company recorded Customer List as an intangible asset in the amount of \$112,628. The Company is amortizing the Customer List over its estimated economic life of 8 years.

Table of Contents

Pursuant to the acquisition of Ron Fee, Inc. (Ron Fee) by Middleton, the Company recorded Customer List as an intangible asset in the amount of \$1,554,000. The Company is amortizing the Customer List over its estimated economic life of 8 years.

Impairment Of Long-Lived Assets And Long-Lived Assets To Be Disposed Of

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the assets exceeds the fair value. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. There were no assets impaired during the nine months ended June 30, 2006 and 2005.

Income (Loss) Per Share

Basic earnings per share amounts are computed by dividing the net income by the weighted average number of common shares outstanding. Diluted earnings per share amounts are computed by dividing net income by the weighted average number of shares of common stock, common stock equivalents, and stock options outstanding during the period.

Revenue Recognition

Sales revenues are recorded when products are shipped and title has passed to unaffiliated customers. Installation revenues are considered earned at the time the project is completed. Maintenance contracts are recorded as unearned revenues at the time of collection and are recognized as income monthly over the term of the contract. Interest and dividends earned on investments are recorded when earned.

Advertising Costs

The Company expenses advertising costs as incurred.

Research And Development

Expenditures for research and development are charged to operations as incurred.

Foreign Currency Translation

Telecom s functional currency is the British Pound Sterling, its local currency. Accordingly, balance sheet accounts are translated at exchange rates in effect at the end of the year and income statement accounts are translated at average exchange rates for the year. Translation gains and losses are included as a separate component of stockholders equity as cumulative translation adjustments. Foreign currency transaction gains and losses are included in other income and expenses.

Table of Contents

Comprehensive Income

Comprehensive income is comprised of net income and other comprehensive income. Other comprehensive income includes certain changes in equity that are excluded from net income. At June 30, 2006 and September 30, 2005, accumulated other comprehensive income was comprised of cumulative foreign currency translation adjustments.

Stock-Based Compensation

Effective January 1, 2006, the Company adopted the provisions of SFAS No. 123 (revised 2004), Share-Based Payment (SFAS No. 123R), using the modified prospective method (with the Black-Scholes fair value model), which requires the Company to recognize expense related to the fair value of stock-based compensation awards. Under the modified prospective method, stock-based compensation expense for the three and nine months ended June 30, 2006 includes compensation expense for all stock-based compensation awards granted prior to, but not yet vested as of, January 1, 2006, based on grant date fair value estimated in accordance with the original provisions of SFAS No. 123,

Accounting for Stock-Based Compensation (SFAS No. 123), and compensation expense for all stock-based compensation awards granted subsequent to January 1, 2006, based on the grant date fair values estimated in accordance with the provisions of SFAS No. 123R. In addition, stock options granted to certain members of the board of directors as payment for services rendered as board members (Board Services) recorded in accordance with SFAS No. 123R are also included in stock-based compensation for the three and nine months ended June 30, 2006.

Accordingly, prior period amounts presented herein have not been restated to reflect the adoption of SFAS No. 123R. Prior to January 1, 2006, the Company accounted for its stock-based compensation plan as permitted by SFAS No. 123, using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25), and made the pro forma disclosures required by SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure (SFAS No. 148) for the three and nine months ended June 30, 2005. All options granted under the Company's 2004 Stock Incentive Plan (discussed in Note 8) and the Company's prior stock option plan had exercise prices equal to the fair market value of the underlying Common Stock on the date of grant. Accordingly, for the three and nine months ended June 30, 2005, stock-based compensation is related to options granted to certain members of the board of directors for Board Services recorded in accordance with APB No. 25.

3. Acquisitions

Acquisition of Middleton Pest Control, Inc.

On June 7, 2005, the Company, Sunair Southeast Pest Holdings, Inc., a wholly owned subsidiary of the Company (Pest Holdings), and the selling shareholders (collectively, the Sellers) of Middleton, entered into a Stock Purchase Agreement (the Stock Purchase Agreement) pursuant to which, on the same date, Pest Holdings acquired from the Sellers 100% of the issued and outstanding shares of capital stock of Middleton. 5. Revolving Line of Credit

The Company has a revolving line of credit with a financial institution. The maximum credit limit is \$20,000,000. Interest is compounded daily based upon the London Interbank Offering Rate (LIBOR) plus a variable percentage based on the leverage ratio. The interest rate at June 30, 2006 was approximately 8%. The revolving line of credit has a commitment fee in the amount of .375% per annum on the average daily unused amount of the aggregate revolving committed amount. The revolver line has an extended maturity date of September 6, 2007. The balance due on the line was \$10,500,000 at June 30, 2006.

The Company, as a term of the revolving credit line, is required to maintain certain loan covenants. As of June 30, 2006, the Company must satisfy a Leverage Ratio between 3.25% and 1.00%, a Fixed Charge Ratio greater than 1.25% and a minimum Consolidated EBITDA (Earnings Before Interest, Tax, Depreciation and Amortization) calculation of \$4,500,000. The Company was in compliance with the Leverage Ratio and the Fixed Charge Ratio, but did not satisfy the requirement of the minimum Consolidated EBITDA. For the nine months ended June 30, 2006 the Company had a Leverage Ratio of 3.13%, a Fixed Charge Ratio of 2.39% and a Consolidated EBITDA of \$3,308,789. The Company received a waiver from the lender waiving the Company's default under the minimum Consolidated EBITDA.

6. Earnings Per Common Share

Basic earnings per share amounts are computed by dividing the net income by the weighted average number of common shares outstanding. Diluted earnings per share amounts are computed by dividing net income by the weighted average number of shares of common stock, common stock equivalents, and stock options outstanding during the period.

7. Preferred Stock

At June 30, 2006, the Company had 8,000,000 authorized shares of preferred stock, no par value, that may be issued at such terms and provisions as determined by the board of directors. None are outstanding.

8. Stock-Based Compensation

Summary of plans

During the fiscal year ended September 30, 2005, the shareholders approved the Company's 2004 Stock Incentive Plan with an aggregate of 800,000 shares of the Company's unissued common stock to be reserved for issuance to key employees as non-qualified stock options. The option price, numbers of shares and grant date are determined at the discretion of the Company's board of directors.

During the quarter ended December 31, 2005, 105,000 stock options were granted at a price of \$5.60 per share. During the quarter ended March 31, 2006, 20,000 stock options were granted at a price of \$5.35 per share and 17,500 stock options were granted at a price of \$6.09 per share. 13,244 stock options at a price of \$11.40 per share and 5,000 stock options at a price of \$5.60 per share were cancelled.

During the quarter ended June 30, 2006, no stock options were granted.

Fair Value

On January 1, 2006, the Company adopted the provisions of SFAS No. 123R which requires the Company to recognize expense related to the fair value of stock-based compensation awards. The Company elected the modified prospective transition method as permitted by SFAS No. 123R and therefore has not restated the financial results for prior periods. Under the modified prospective method, stock-based compensation expense for the three and nine months ended June 30, 2006 includes compensation expense for all stock-based compensation awards granted prior to, but not yet vested as of, January 1, 2006, based on grant date fair value estimated in accordance with the provisions of SFAS No. 123 and compensation expense for all stock-based compensation awards granted subsequent to January 1, 2006, based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123R. In addition, options granted to certain members of the board of directors as payment for Board Services recorded in accordance with SFAS No. 123R and the issuance of restricted stock awards and stock units are also included in stock-based compensation for the three and nine months ended June 30, 2006. The Company recognizes compensation expense for restricted stock awards and restricted stock units on a straight-line basis over the requisite service period of the award. For the three and nine months ended June 30, 2006, the Company expensed \$486,217 compensation expense and is being reflected as selling, general and administrative expenses.

Prior to January 1, 2006, the Company accounted for its stock-based compensation plan as permitted by SFAS No. 123, using the intrinsic value method prescribed in APB No. 25, and made the pro forma disclosures required by SFAS No. 148 for the three and nine months ended June 30, 2005. All options granted under the Company's 2004 Stock Incentive Plan and the Company's prior stock option plan had exercise prices equal to the fair market value of the underlying Common Stock on the date of grant. Accordingly, for the three and nine months ended June 30, 2005, stock-based compensation was recorded in accordance with APB No. 25.

The following table illustrates the effect on net income and net income per share of Common Stock as if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based compensation during the three and nine months ended June 30, 2005:

	Three Months Ended June 30, 2005	Nine Months Ended June 30, 2005
Net income:		
As reported	\$ 229,151	\$ 964,658
Add: Stock-based compensation expense, as reported		
Deduct: Stock-based compensation expense, pro forma	(63,287)	(158,218)

Table of Contents

The fair value of stock-based awards was estimated using the Black-Scholes model with the following weighted-average assumptions for the three and nine months ended June 30, 2006:

	For the Three Months Ended June 30,		For the Nine Months Ended June 30,	
	2006	2005	2006	2005
Expected term (in years)	8	8	8	8
Volatility	31%	31%	31%	31%
Interest rate	4.14%	3.86%	4.14%	3.86%
Dividend yield				
Weighted average fair value at grant date	\$ 4.43	\$ 6.33	\$ 4.43	\$ 6.33

The Company's computation of the expected volatility for the three and nine months ended June 30, 2006 is based primarily upon historical volatility and the expected term of the option. The expected term is based on the historical exercise experience under the share-based plans of the underlying award (including post-vesting employment termination behavior) and represents the period of time the share-based awards are expected to be outstanding. The interest rate is based on the U.S. Treasury yield in effect at the time of grant for a period commensurate with the estimated expected life.

As of June 30, 2006, approximately \$1.4 million of total unrecognized compensation costs related to non-vested stock options is expected to be recognized over a weighted average period of 2 years.

9. Sale of Securities – Private Placement

On January 27, 2006, the Company completed the sale of its securities to investors in a private placement pursuant to purchase agreements, dated December 15, 2005, by and among the Company and the investors of the common stock named therein (the "Purchase Agreements"). Pursuant to the Purchase Agreements, the Company agreed to sell up to an aggregate of 2,857,146 shares of its common stock at a price per share of \$5.25 and warrants to purchase 1,000,000 shares of its common stock (the "Private Placement") at an exercise price of \$6.30 (subject to adjustment) with total gross proceeds (before fees and expenses) to the Company of approximately \$15 million and net proceeds to the Company of approximately \$13.7 million.

11. Recent Accounting Pronouncements:

In November 2004 the FASB issued SFAS No. 151, Inventory Costs (SFAS No. 151). SFAS No. 151 amends the guidance in Accounting Research Bulletin 43, Inventory Pricing, to clarify the accounting for abnormal amounts of idle facility expenses, freight, handling costs and wasted material (spoilage) cost. SFAS No. 151 requires those items to be excluded from the cost of inventory and expensed when incurred. It also requires that the allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. SFAS No. 151 is effective for fiscal years beginning after June 15, 2005. The Company is still evaluating the impact of adopting SFAS No. 151, but the Company does not expect it to have a material impact on its consolidated results of operations or financial position.

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections , a replacement of APB Opinion No. 20 and FASB Statement No. 3. This Statement provides guidance on accounting for reporting of accounting changes and error corrections. This statement is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Company does not expect the statement to have a material effect on its financial statements.

In June 2006, the Financial Accounting Standards Board issued FIN 48, Accounting for Uncertainty in Income Taxes, (FIN 48) a clarification of FASB Statement No. 109, Accounting for Income Taxes. This interpretation clarifies recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to taken in a tax return. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company has not yet determined the impact of this interpretation on its financial statements.

General:

Sunair Services Corporation (Sunair, the Company, us, we or our) is a Florida corporation organized in 1956. We changed our corporate name from Sunair Electronics, Inc. to Sunair Services Corporation in November, 2005. We operate through three business segments: Lawn and Pest Control Services; High Frequency Radio and Telephone Communications. Our Lawn and Pest Control Services segment provides lawn care and pest control services to both residential and commercial customers. Our High Frequency Radio segment designs, manufactures and sells high frequency single sideband communications equipment and develops software and performs the design, integration testing and documentation of Communications, Command, Control, Computers, Intelligence, Surveillance and Reconnaissance, or C⁴ISR, systems utilized for long range voice and data communications in fixed station, mobile and marine for military and governmental applications. Our Telephone Communications segment installs and maintains telephony and fixed wireless systems.

The Lawn and Pest Control Services Segment

On February 8, 2005, we closed a transaction with Coconut Palm Capital Investors II, Ltd. (Coconut Palm), which we entered into on November 17, 2004. Coconut Palm purchased from us 5,000,000 Units for an aggregate purchase price of \$25 million. Each Unit consisted of (i) one share of our common stock, (ii) one warrant to purchase one share of our common stock at an exercise price of \$6.00 per share with a term of three years and (iii) one warrant to purchase one share of our common stock at an exercise price of \$7.00 per share with a term of five years. In connection with the investment by Coconut Palm, we formed a new Lawn and Pest Control Services segment for future acquisitions.

The Lawn and Pest Control Services segment acquired its first company on June 7, 2005, through the acquisition by our subsidiary, Sunair Southeast Pest Holdings, Inc., of all of the outstanding capital stock of Middleton Pest Control, Inc. (Middleton). The aggregate purchase price for the outstanding capital stock of Middleton was \$50 million, which was comprised of: (i) \$35.0 million in cash; (ii) \$5.0 million in the form of a subordinated promissory note; and (iii) 1,028,807 shares of our common stock. On July 29, 2005, Middleton acquired substantially all of the assets of Four Seasons Lawn and Pest Control, Inc. (Four Seasons) for approximately \$1.4 million in cash. On December 16, 2005, Middleton acquired Spa Creek Services, LLC D/B/A Pest Environmental Services (Spa Creek), a pest control and termite services company located in Central Florida for a purchase price of approximately \$5.5 million in cash.

On January 9, 2006 Middleton acquired substantially all of the assets of Par Pest Control, Inc. D/B/A Paragon Termite & Pest Control (Paragon), a pest control and termite services company headquartered in Port St. Lucie, Florida, for approximately \$1,050,000, consisting of \$800,000 cash, \$100,000 in the form of a subordinated promissory note, \$50,000 in transaction costs and 17,036 shares of our common stock valued at \$100,000. On February 28, 2006, Middleton acquired substantially all of the assets of Pestec Pest Control, Inc. (Pestec), a pest control and lawn care services company headquartered in Sarasota, Florida, for approximately \$800,000 consisting of \$600,000 cash, \$175,000 in the form of a subordinated promissory note and \$25,000 in transaction costs. On March 31, 2006, Middleton acquired Ron Fee, Inc. (Ron Fee), a pest control and termite services company located in Central Florida for a purchase price of approximately \$5.2 million, which was comprised of (i) \$4.0 million in cash; and (ii) \$1.2 million in the form of a subordinated promissory note.

On January 27, 2006, we completed the sale of our securities to investors in a private placement pursuant to purchase agreements, dated December 15, 2005, by and among us and the investors of our common stock named therein (the Purchase Agreements). Pursuant to the Purchase

Table of Contents

Agreements, we agreed to sell up to an aggregate of 2,857,146 shares of our common stock at a price per share of \$5.25 and warrants to purchase 1,000,000 shares of our common stock (the Private Placement) at an exercise price of \$6.30 (subject to adjustment) with total gross proceeds (before fees and expenses) to us of approximately \$15 million and net proceeds to us of approximately \$13.7 million.

The sale and issuance of our securities closed in two tranches. The first closing was completed on December 16, 2005, pursuant to which we issued and sold an aggregate of 2,000,003 shares of our common stock and warrants to purchase 700,000 shares of our common stock. The second closing was completed on January 27, 2006, pursuant to which we sold an additional 857,143 shares of our common stock and warrants to purchase 300,000 shares of our common stock.

We used the proceeds from the sale of our securities in the Private Placement to fund acquisitions that have operations in the lawn and pest control services sector. As previously discussed, since our initial acquisition of Middleton, we have made several acquisitions in the Lawn and Pest Control Services segment including Four Seasons, Spa Creek, Paragon, Pestec and Ron Fee. We plan to continue to focus on acquisitions in the southeastern United States including Alabama, Georgia, Louisiana, Mississippi and Florida, but will consider additional super regional acquisitions in other geographic areas. Ultimately, we anticipate that with the formation of our new Lawn and Pest Control Services segment, we no longer will operate solely through our traditional High Frequency Radio segment. Furthermore, as we are able to grow our Lawn and Pest Control Services segment through acquisitions and, eventually through internal organic growth, we contemplate that this new division will become our dominant operation. Accordingly, if we are successful in implementing this strategy, it will represent a fundamental shift in the nature of our business.

We plan to fund future acquisitions in the Lawn and Pest Control Services segment from internally generated funds, amounts available under our revolving line of credit, as discussed below, and funds from the expected eventual divestitures of our High Frequency Radio and Telephone Communications businesses. However, we cannot assure you of the timing of such dispositions, or the amounts that we will receive upon such dispositions. Further, we cannot assure you that the funds available from these sources will be sufficient to finance our acquisition strategy.

Liquidity:

For the nine months ended June 30, 2006, we had negative cash flow from operations of \$1,384,549 due to increases in depreciation and amortization, bad debt reserve and equity based compensation, and decreases due to deferred taxes, prepaid and other current assets, accounts payable, accrued expenses and customer deposits. The primary reason for these increases was due to the acquisitions made in the Lawn and Pest Control Services segment.

Cash flow from operations was negatively impacted by our net loss for the nine months of \$1,646,008.

Cash flows used by investing activities for the nine months ended June 30, 2006 were \$12,574,327 which consisted primarily of costs incurred in the acquisition of Spa Creek and Ron Fee. Costs were also incurred in the purchase of property, plant and equipment as well as software development costs.

Cash flows provided by financing activities for the nine months ended June 30, 2006 were \$12,021,153 provided by proceeds from the sale of common stock, less the repayment of a portion of the line of credit and costs associated with the sale of common stock.

During the nine months of fiscal 2006, we had short term investments and cash or cash equivalents more than adequate to cover known requirements, unforeseen events or uncertainties that might occur. Our known requirements consist of normal operating expenses. During this nine month period, cash and cash equivalents had an average balance of \$2,842,325 as opposed to an average balance of \$12,884,672 for the nine months ending June 30, 2005.

Cash equivalents are

Table of Contents

money market funds that are readily available for immediate use should the occasion arise. It is anticipated that we will remain as liquid during fiscal 2006. Our current ratio as of June 30, 2006 was 1.9 compared to 2.0 as of September 30, 2005.

We record reserves for inventory shrinkage and obsolescence, when considered necessary. For the nine months ended June 30, 2006, inventory shrinkage and obsolescence reserves increased \$29,698 as compared to an increase of \$79,300 for the same period one year ago due to an increase in the write down of obsolete and discontinued products. Accounts receivable consist of balances due from sales. We monitor accounts receivable and provide allowances when considered necessary. As of June 30, 2006, we established an allowance of \$282,186 compared to \$144,194 at September 30, 2005.

Non-cash interim reserves are maintained to cover items such as warranty repairs in process and other charges that may be in dispute. No letters of credit involve foreign exchange.

Capital Resources:

During the nine months ended June 30, 2006, \$441,929 was spent for capital assets. These funds were primarily used for leasehold improvements and equipment. No expenditures are contemplated for extensive maintenance in fiscal 2006. Liabilities consist of current accounts payable, accrued expenses related to the current accounting period, customer deposits, and the current and long-term portion of notes payable.

We have a revolving line of credit with a financial institution. The maximum credit limit is \$20,000,000. Interest is compounded daily based upon the London Interbank Offering Rate (LIBOR) plus a variable percentage based on the leverage ratio. The interest rate at June 30, 2006 was approximately 8%. The revolving line of credit has a commitment fee in the amount of .375% per annum on the average daily unused amount of the aggregate revolving committed amount. The revolving line of credit places certain restrictions on, among other things, our ability to create or incur indebtedness, pay or make dividends or other distributions, create or permit certain liens, enter into transactions with affiliates and merge or consolidate with other entities. The revolving line has an extended maturity date of September 6, 2007. The balance due on the line was \$10,500,000 at June 30, 2006.

The revolving line of credit requires us to maintain specified financial ratios regarding leverage, interest coverage and EBITDA. As of June 30, 2006, we must satisfy a Leverage Ratio between 3.25% and 1.00%, a Fixed Charge Ratio greater than 1.25% and a minimum Consolidated EBITDA (Earnings Before Interest, Tax, Depreciation and Amortization) calculation of \$4,500,000. We were in compliance with the Leverage Ratio and the Fixed Charge Ratio, but did not satisfy the requirement of the minimum Consolidated EBITDA. For the nine months ended June 30, 2006 we had a Leverage Ratio of 3.13%, a Fixed Charge Ratio of 2.39% and a Consolidated EBITDA of \$3,308,789. We received a waiver from the lender waiving our default under the minimum Consolidated EBITDA.

Our failure to comply with our financial ratios in the future could have a material adverse effect on our financial condition and liquidity, including our ability to fund future acquisitions in the Lawn and Pest Control Services segment.

Results of Operations:

The nine months of fiscal year ended 2006 compared to the nine months of fiscal year ended 2005

During the nine months ended June 30, 2006 of the current fiscal year, sales of \$42,894,512 were up 141.8% or \$25,156,679 from the same period one year ago. Of those, sales of \$33,157,360 or 77.3% was attributed to the Lawn and Pest Control Services segment. \$3,891,856 or 9.1% was attributed to the High Frequency Radio segment, and \$5,845,566 or 13.6% was attributed to the wholly owned subsidiaries of Percipia and Telecom, in the Telephone Communications segment. Sales in the High Frequency Radio segment are not recurring businesses, and accordingly, we expect that sales in the High Frequency Radio segment will move back toward a more historical revenue range in 2006.

Table of Contents

Backlog of \$3,761,603 was lower at June 30, 2006 compared to \$4,444,567 at June 30, 2005, due in part to the decrease in sales in the High Frequency Radio segment, which temporarily depleted backlog, offset by increases in backlog at Percipia.

Cost of sales was lower at 47.4% of sales in the first nine months of fiscal 2006 as compared to 57.2% of sales in the first nine months of fiscal 2005. This decrease is primarily due to a change in product mix with lower costs associated with the Lawn and Pest Control Services segment of the business. Cost of Sales for the Lawn and Pest Control Services segment was \$14,537,793 or 43.8%. The High Frequency Radio segment had cost of sales of \$2,256,219 or 58.0% and the Telephone Communications segment was \$3,538,519 or 60.5%. Inventories increased 12.4% or \$921,267 from the same period one year ago primarily due to increases in inventories received from the acquisitions in the Lawn and Pest Control Services segment. We continue our efforts to reduce inventories to lower levels.

Selling, general and administrative expenses increased 280.8% or \$18,237,097 due to the expenses incurred by the newly created home office and overhead associated with increased legal expenses, the acquisition of Middleton and Four Seasons in June and July of fiscal 2005, Pest Environmental in the first quarter of fiscal 2006, Ron Fee in the second quarter of fiscal 2006, and the amortization of customer lists associated with our acquisition of Middleton, Four Seasons and Pest Environmental. Expenses continue to be incurred for expanded market exposure and increased product applications.

Interest income decreased \$212,270 due to funds used for investments in the Lawn and Pest Control Services segment. Interest expense was incurred on obligations incurred on the purchase of Middleton and for the establishment and use of the bank line of credit. Other income increased slightly with reduced activity in this area for fiscal 2006.

Item 3. Controls and Procedures.

(a) Evaluation of disclosure controls and procedures. The term disclosure controls and procedures is defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, or the Exchange Act. This term refers to the controls and procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within required time periods. Our Chief Executive Officer and our Chief Financial Officer have concluded, based on their evaluation as of June 30, 2006, that our disclosure controls and procedures are effective.

(b) Changes in internal control over financial reporting. There have been no changes in our internal control over financial reporting during the quarter ended June 30, 2006 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
