EXHIBIT INDEX

Exhibit 99.1 Presentation Materials for Sunair Services Corporation s Annual Meeting of Shareholders

Exhibit 99.2 Reconciliation of Non-GAAP numbers to GAAP numbers

EBITDA is a non-GAAP number. A reconciliation of GAAP to non-GAAP numbers can be found at www.amstock.com/proxyservices/viewmaterials.asp.

Consolidated EBITDA is a non-GAAP number. A reconciliation of GAAP to non-GAAP numbers can be found at www.amstock.com/proxyservices/viewmaterials.asp.

Non-GAAP Financial Measures

EBITDA is a Non-GAAP financial measure. EBITDA is defined as income (loss) from operations plus net interest expense, provision for income taxes, depreciation and amortization. The Non-GAAP EBITDA measurement has certain material limitations, including:

It does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore any measure that excludes interest expense has material limitations;

It does not include depreciation and amortization expense. Because we use capital assets, depreciation is necessary element of our costs and ability to generate profits. In addition, because a significant portion of our assets consist of customer lists that were acquired in connection with our acquisitions of companies in the Lawn and Pest Control Services segment, amortization is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and amortization expense has material limitations;

It does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, particularly in the future, any measure that excludes tax expense has material limitations; and For the purposes of performing the calculation of EBITDA, we may also add back all non cash equity based compensation.

We have included this non-GAAP financial measure because we believe EBITDA is an indicator of the profitability and performance of our core operations and reflects changes in our operating results. These Non-GAAP financial measures are not intended to be an alternative measure of operating income or gross profit margin as determined in accordance with generally accepted accounting principles. We compensate for these limitations by using Non-GAAP measurements, to assist in the evaluation of our profitability and operating results

Reconciliations of EBITDA plus non cash equity compensation to the income or loss from continuing operations for the fiscal quarters from December 31, 2006 through and including December 31, 2008 are shown below:
