SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

F O R M 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934 [NO FEE REQUIRED]

For the fiscal year ended December 29, 2001

Commission File Number 1-313

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934 [NO FEE REQUIRED]

THE LAMSON & SESSIONS CO.
(Exact name of Registrant as specified in its charter)

Ohio

34-0349210

(State or other jurisdiction of
incorporation or organization)

(IRS Employer Identification No.)

25701 Science Park Drive
Cleveland, Ohio

44122-7313

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: 216/464-3400

SECURITIES REGISTERED PURSUANT TO SECTION 12(b) OF THE ACT:

TITLE OF EACH CLASS -----	NAME OF EACH EXCHANGE ON WHICH REGISTERED -----
Common Shares, without par value	New York Stock Exchange Pacific Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

The aggregate market value of the voting stock held as of February 8, 2002 by non-affiliates of the Registrant: \$52,801,571.

As of February 8, 2002 the Registrant had outstanding 13,777,608 common shares.

DOCUMENTS INCORPORATED BY REFERENCE

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

Portions of the Proxy Statement for the 2002 Annual Meeting of Shareholders are incorporated by reference into Part III.

PART I

ITEM 1. - BUSINESS

The Lamson & Sessions Co., an Ohio corporation, (the "Company" or "Lamson & Sessions"), founded in 1866, is a diversified manufacturer and distributor of a broad line of thermoplastic electrical, consumer, telecommunications and engineered sewer products for major domestic markets. The markets for thermoplastic electrical conduit, related fittings and accessories, wiring devices and sewer pipe include: the construction, utility and telecommunications industries, municipalities, other government agencies, and contractors; and "do-it-yourself" home remodelers.

PRINCIPAL PRODUCTS AND MARKETS

The Company is engaged in the manufacture and distribution of a broad line of thermoplastic electrical, telecommunications and engineered sewer products. In addition, the Company distributes a wide variety of consumer electrical wiring devices, home security devices, wireless electrical and other wireless products.

All of the Company's thermoplastic electrical products compete with and serve as substitutes for similar metallic products. The Company's engineered sewer pipe products compete with and serve as substitutes for clay, concrete, ductile iron, asbestos cement and polyethylene products. The Company's thermoplastic electrical products offer several advantages over these other products. Specifically, nonmetallic electrical and telecommunications conduit and related fittings and accessories are generally less expensive, lighter and easier to install than metallic products. They do not rust, corrode or conduct electricity. Thermoplastics, either polyvinyl chloride (PVC) or high density polyethylene (HDPE), are the materials of choice to protect fiber optic cable. Thermoplastic sewer pipe weighs less than alternative products, is easier and more economical to install, does not degenerate due to chemical attack as do some competing products, and eliminates avoidable problems which can be caused by infiltration and exfiltration.

Three markets are served, each of which has unique product and marketing requirements. These markets are:

CARLON - INDUSTRIAL, RESIDENTIAL, COMMERCIAL, TELECOMMUNICATIONS AND UTILITY CONSTRUCTION: The major customers served are electrical contractors and distributors, original equipment manufacturers, electric power utilities, cable television (CATV), telephone and telecommunications companies. The principal products sold by this segment include electrical and telecommunications raceway systems and a broad line of nonmetallic enclosures, electrical outlet boxes and fittings. Examples of the applications for the products included in this segment are multi-cell duct systems and HDPE conduit designed to protect underground fiber optic cables, allowing future cabling expansion and flexible conduit used inside buildings to protect communications cable. The 2000 acquisitions of Pyramid Industries, Inc. ("Pyramid") and Ameriduct Worldwide, Inc. ("Ameriduct") are included as part of the Carlon segment.

LAMSON HOME PRODUCTS - CONSUMER: The major customers served are home centers and

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

mass merchandisers for the "do-it-yourself" home repair market. The products included in this segment are electrical outlet boxes, liquidtight conduit, electrical fittings, chimes and lighting controls.

PVC PIPE: This business segment primarily supplies electrical, power and communications conduit to the electrical distribution, telecommunications, consumer and power utility markets. The 1/2-inch to 6-inch electrical and telecommunications conduit is made from PVC and is used to protect wire or fiber optic cables supporting the infrastructure of our power or telecommunications systems.

A breakdown of net sales as a percent of total net sales by major business segment for 2001, 2000 and 1999, is as follows:

(Dollars in thousands)	2001		2000		1999	
Carlton	\$188,161	53%	\$142,979	41%	\$120,975	42%
Lamson Home Products	62,128	18%	63,351	18%	53,401	18%
PVC Pipe	102,383	29%	142,403	41%	117,005	40%
	\$352,672	100%	\$348,733	100%	\$291,381	100%
	=====	=====	=====	=====	=====	=====

See discussion of segment products in Note L of financial statements.

COMPETITION

Each of the three segments in which the Company presently operates is highly competitive based on service, price and quality. Most of the competitors are either national or smaller regional manufacturers who compete with limited product offerings. Unlike a majority of the Company's competitors, the Company manufactures a broad line of thermoplastic products, complementary fittings and accessories. The Company believes that its products will continue to compete favorably. However, certain of the Company's competitors have greater financial resources than the Company, which could adversely affect the Company through price competition strategies.

DISTRIBUTION

The Company distributes its products through a nationwide network of more than 100 manufacturers' representatives and a direct field sales force of approximately 15.

RAW MATERIALS

The Company is a large purchaser of pipe grade PVC and HDPE resins. The Company has entered into supply contracts for PVC which should stabilize its availability for the next several years. HDPE is purchased by the Company from various sources and is readily available.

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

PATENTS AND TRADEMARKS

The Company owns various patents, patent applications, licenses, trademarks and trademark applications relating to its products and processes. While the Company considers that, in the aggregate, its patents, licenses and trademarks are of importance in the operation of its business, it does not consider that any individual patent, license or trademark, or any technically related group, is of such importance that termination would materially affect its business.

SEASONAL FACTORS

Two of the Company's three business segments experience moderate seasonality caused principally by a decrease in construction activity during the winter months. They are subject also to the economic cycles affecting the residential, commercial and industrial construction industries. The Company's consumer products business unit is affected by consumer spending and consumer confidence.

MAJOR CUSTOMERS

Sales to Affiliated Distributors, a buying group within the Carlon and PVC Pipe segments not otherwise affiliated with the Company, totaled approximately 14% of consolidated net sales in 2001, and 17% of consolidated net sales in 2000 and 1999.

BACKLOG

In the Company's three business segments, the order-to-delivery cycle ranges from several days to a few weeks. Therefore, the measurement of backlog is not a significant factor in the evaluation of the Company's prospects.

RESEARCH AND DEVELOPMENT

The Company is engaged in product development programs which concentrate on identifying, creating and introducing innovative applications for thermoplastic and wireless electrical products. The Company maintains a separate product development center in Cleveland, Ohio, to facilitate this effort and improve manufacturing processes. The Company's research and development expenditures totaled \$2.8 million, \$3.3 million and \$3.8 million in 2001, 2000 and 1999, respectively.

ENVIRONMENTAL REGULATIONS

The Company believes that its current operations and its use of property, plant and equipment conform in all material respects to applicable environmental laws and regulations presently in effect. The Company has facilities at numerous geographic locations, which are subject to a range of federal, state and local environmental laws and regulations. Compliance with these laws has, and will, require expenditures on a continuing basis.

During the second quarter of 1999, the Company reached a settlement on litigation involving environmental matters at a property sold by the Company in 1981 whereby the Company agreed to incur costs of certain remediation activities which will occur over several years. The settlement did not have a material impact on the Company's financial position or results of operations.

ASSOCIATES

At December 29, 2001, the Company had 1,115 associates, 902 of whom were employed at the Company's manufacturing facilities and distribution centers. The

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

remainder of associates were primarily employed at the Company's corporate headquarters and product development facilities.

FOREIGN OPERATIONS

The net sales, operating earnings and assets employed outside the United States are not significant. Export sales were approximately 2% of consolidated net sales in 2001, 2000 and 1999, and were made principally to countries in North America.

ITEM 2. - PROPERTIES

The Company owns (O) or leases (L) manufacturing and distribution facilities, which are suitable and adequate for the production and marketing of its products. The Company owns executive and administrative offices, which are located in Cleveland, Ohio, and occupy 68,000 square feet in a suburban office complex. The Company also has research and development offices, located in Cleveland, Ohio, which occupy leased space of 27,000 square feet. The following is a list of the Company's manufacturing and distribution center locations:

MANUFACTURING FACILITIES -----	APPROXIMATE SQUARE FEET -----
Woodland, California (O)	66,000
High Springs, Florida (O)	110,000
Tennille, Georgia (O)	41,000
Clinton, Iowa (O)	124,000
Mountain Grove and Seymour, Missouri (O)	36,000
Bowling Green, Ohio (O)	67,000
Oklahoma City, Oklahoma (O)	172,000
Nazareth, Pennsylvania (O)	59,000
Erie, Pennsylvania (L)	56,000
Cranesville, Pennsylvania (L)	10,000
Pasadena, Texas (O)	52,000
DISTRIBUTION CENTERS -----	
Columbia, South Carolina (L)	350,000
Woodland, California (L)	105,000
Fort Myers, Florida (O)	4,000

The Company operated the above manufacturing facilities at approximately 73% of their productive capacity in 2001.

ITEM 3. - LEGAL PROCEEDINGS

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

On September 23, 1999, the Company announced that a United States District Court jury in the Northern District of Illinois found that the Company willfully infringed on a patent held by Intermatic Incorporated of Spring Grove, Illinois, relating to the design of an in-use weatherproof electrical outlet cover, and awarded Intermatic \$12.5 million in damages plus pre-judgment interest of approximately \$1.5 million. The Company pursued a vigorous appeal and on December 17, 2001 the United States Court of Appeals ruled that, as a matter of law, Lamson & Sessions' products did not infringe Intermatic's

4

patent and that the Company has no liability to Intermatic. The trial jury's earlier verdict in favor of Intermatic in the amount of \$12,500,000, plus pre-judgment and post-judgment interest estimated to be in excess of \$3,000,000, was reversed. Intermatic filed for a rehearing of the ruling to the Court of Appeals en banc, which was denied. Management has no knowledge of Intermatic's intention with respect to any further appeals.

During the first quarter of 2001, the Company settled its litigation against PW Eagle and received a payment of \$2.05 million, representing a partial recovery of costs incurred in current and previous quarters, arising out of the failed sale of the PVC Pipe segment in 1999.

The Company is also a party to various other claims and matters of litigation incidental to the normal course of its business. Management believes that the final resolution of these matters will not have a material adverse affect on the Company's financial position, cash flows or results of operations.

ITEM 4. - SUBMISSION OF MATTERS TO SECURITY HOLDERS

None.

5

EXECUTIVE OFFICERS OF THE REGISTRANT

JOHN B. SCHULZE
Chairman, President and Chief Executive Officer

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

Chairman, President and Chief Executive Officer since January 1990. Age 64.

JAMES J. ABEL

Executive Vice President, Secretary, Treasurer and Chief Financial Officer

Executive Vice President, Secretary, Treasurer and Chief Financial Officer since September 1994. Age 56.

CHARLES E. ALLEN

Senior Vice President

Senior Vice President since September 1989.

Age 61.

NORMAN E. AMOS

Vice President

Vice President, Supply Chain Management since February 21, 2001. Previously was Vice President, Supply Chain Management, August 1, 2000 - February 21, 2001. Previously was Manager, Transportation and Logistics with Xerox Corporation, 1973-2000. Age 56

ALBERT J. CATANI, II

Vice President

Vice President, Manufacturing since August 1995. Age 54.

EILEEN E. CLANCY

Vice President

Vice President, Human Resources since January 2, 2002. Previously was Director of Human Resource Development, December 1995 - December 2001. Previously was Director of Skills Development, July 1995 - December 1995. Age 51

DONALD A. GUTIERREZ

Senior Vice President

Senior Vice President since February 21, 2001. Previously was Vice President since March 1998. Previously was Vice President, Carlon Electrical Products since July 1997. Previously was National Sales Manager since January 1997. Previously was Manager, Distributor Sales August 1996 - January 1997. Previously was in Marketing and Sales with General Electric 1979 - August 1996. Age 44.

CHARLES W. HENNON

Vice President

Vice President and Chief Information Officer since April 1998. Previously was Manager, Business Support Services with Ferro Corporation 1993 - April 1998. Age 56.

LORI L. SPENCER

Vice President

Vice President and Controller since August 1997. Previously was Vice President, Strategic Planning since February 1997. Previously was Director, Financial Planning & Internal Audit, September 1994 - February 1997. Age 43.

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

NORMAN P. SUTTERER
Vice President

Vice President since March 1998. Previously was Vice President Lamson Home Products and Carlon Telecom Systems since January 1994. Age 52.

6

PART II

ITEM 5. - MARKET FOR THE REGISTRANT'S COMMON STOCK AND RELATED SECURITY HOLDER

MATTERS

The Company's Common Stock is traded on the New York Stock Exchange and the Pacific Stock Exchange. High and low sales prices for the common stock are included in Note N to the Consolidated Financial Statements. No dividends were paid in 2001, 2000 or 1999. The approximate number of shareholders of record of the Company's Common Stock at December 29, 2001 was 1,336.

7

ITEM 7. - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND

RESULTS OF OPERATIONS

DISCUSSION OF THE CONSOLIDATED STATEMENTS OF OPERATIONS

THE CONSOLIDATED STATEMENTS OF OPERATIONS present Lamson & Sessions' operating performance over the last three years.

RESULTS OF OPERATIONS

Net sales increased by 1.1% or \$3.9 million in 2001 compared with 2000. Overall, Carlon experienced a growth rate of 31.6% or \$45.2 million for the year 2001 over 2000. Incremental HDPE conduit sales totaled approximately \$53 million primarily from the Pyramid and Ameriduct acquisitions, which were completed in the latter part of 2000. The remainder of Carlon's product sales declined from 2000 levels by approximately 6.3%. This decrease was caused by a general economic slowdown, which persisted throughout the year, and continued contraction in telecommunications infrastructure capital spending. Lamson Home Products had a net sales decline of \$1.2 million or 1.9% in 2001 compared with 2000, as home improvement retailers reduced their inventories during the year in response to softness in sales and inconsistent consumer confidence levels. Lastly, the PVC Pipe business segment net sales dropped 28.1% or \$40 million in 2001 compared with 2000. Pipe volume shipped was up 6.1% while average pricing declined by approximately 31% from 2000. Mix has also shifted this year in the PVC Pipe business as telecommunications-related conduit is down 20% in units shipped, which has been offset by increased electrical conduit shipments, primarily in the first three quarters of the year.

Net sales increased in 2000 to \$348.7 million from \$291.4 million in 1999, representing a 19.7% growth rate. Excluding the two acquisitions made by the Company during the year, net sales would have increased by 14.6%, or \$42.7 million. All three business segments experienced healthy growth during this year. Carlon grew by \$22 million, or 18.2%, primarily from the Pyramid and Ameriduct acquisitions, which added \$14.7 million in combined net sales. This business unit generated a 6% growth from its core electrical and telecommunications products, reflecting price increases early in the year and modest market growth. Lamson Home Products increased its net sales level by \$10 million, or 18.6%, over 1999 to \$63.4 million. This improvement in the top line is almost entirely from additional business at this business segment's second largest customer, as price increases were negligible. The PVC Pipe business had an outstanding year as sales increased by 21.7%, or \$25.4 million, to \$142.4 million. These results reflect a 50% increase in selling price per unit as resin costs were up by an average of 30% during 2000 versus 1999. The Company gave up market share to maintain material spreads as the construction market was very strong throughout the first half of this year. Telecommunications duct volume was up by 12% this year, the mix improving from predominantly electrical conduit to a more balanced product distribution.

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

Gross margin in 2001 was 17.4%, down from the 25.4% margin realized in 2000. This drop was primarily caused by the margin squeeze experienced in the PVC Pipe business, as a continued oversupply of PVC resin in the domestic market has caused PVC Pipe selling prices to be down over 30% from a year ago, while PVC resin costs have declined on average 18% for the year. In addition, the significant mix shift in PVC pipe from telecommunications duct to electrical conduit has had a negative impact on its gross margin. Finally, the Company utilized its manufacturing facilities at a much reduced rate, 73% in 2001 vs. 91% in 2000, generating approximately \$7 million more in unfavorable manufacturing variances during the current year.

Gross margin grew by over 20% to 25.4% in 2000, compared with 21.1% in 1999. This improvement was a result of better margins in both the Carlon and the PVC Pipe businesses from price increases and product mix improvements. Overall distribution and freight costs were around \$5 million less on a comparable basis to 1999, primarily due to the consolidation of distribution operations completed last year and effective management of freight surcharges incurred in 2000.

Operating expenses in 2001 totaled \$53.0 million or 15% of net sales compared with \$54.1 million or 15.5% of net sales in 2000. During the year the Company consolidated the selling, general and administrative processes of the two acquisitions to reduce any redundant costs. In addition, discretionary spending was reduced, as it became evident economic conditions were declining. During 2001, the Company also recorded net gains of \$4.6 million relating to the resolution of the PW Eagle litigation, changes in estimates for certain other litigation and environmental liabilities and a gain on the sale of a non-strategic business. The Company also incurred a restructuring and impairment charge of \$7.7 million to reduce excess capacity, eliminate under-performing product lines and reduce salaried staff of which \$.9 million was included in cost of products sold. In summary, the Company earned \$6.2 million in operating income, or 1.8% of net sales, in 2001 (\$9.4 million, or 2.7%, excluding the restructuring and impairment charge and net gains) vs. \$34.5 million, or 9.9%, of net sales in 2000.

9

Operating expenses were \$54.1 million in 2000 (\$6.1 million higher than 1999), or 15.5%, of net sales compared with 16.5% of net sales in 1999. Continued productivity improvements in general administrative activities offset increases in sales commission and legal, professional and acquisition related expenses. The result was more than a two-and-a-half times increase in operating income to \$34.5 million (9.9% of net sales) in 2000 versus \$13.3 million (4.6% of net sales) in 1999.

Interest expense increased by \$7 million in 2001 due to the acquisition debt of approximately \$113 million added late in 2000. The Company had an average borrowing rate during 2001 of 6.81% compared with 7.85% in 2000.

The Company's earnings before interest, taxes, depreciation and amortization (EBITDA) was \$24.2 million for 2001, compared with the \$45.7 million EBITDA earned in 2000.

FINANCIAL CONDITION

Despite the lower operating income in 2001, the Company focused on generating cash flow from working capital reductions. Working capital was \$31.2 million at the end of 2001 compared with \$58.3 million at the end of 2000. The current ratio decreased to 1.50 in 2001 from 1.76 in 2000 as accounts receivable and inventory declined by a combined \$34.9 million from lower economic activity and improved inventory control, while payables and accruals declined by \$17.7

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

million. Cash flow generated from operating activities was a strong \$30.1 million in 2001 versus \$27.5 million in 2000.

Accounts receivable were \$39.2 million at the end of 2001, compared with \$56.6 million at the end of 2000. Days sales outstanding in 2001 were about 49.5 and approximately the same as the 50.8 days for 2000.

Inventory levels at the end of 2001 were \$42.1 million compared with \$59.6 million at the end of 2000. As a result, annual inventory turns increased from 3.9 times in 2000 to 4.9 times in 2001. All inventory categories have been reduced, however, the largest reduction came in PVC resin and related products for which pounds in inventory were lower and average unit cost at year-end was more than 30% lower than the 2000 year-end levels.

Accounts payable decreased by \$6.6 million in 2001 from the prior year-end, primarily from the purchasing of raw material inventory and lower unit costs for these items.

The current balance in deferred tax assets decreased due to lower than expected 2002 operating results limiting the short term utilization of net operating losses. Accrued liabilities at 2001 year-end were approximately \$11 million less than the prior year, as the final purchase price adjustment for Ameriduct was paid in 2001; incentive compensation is lower in the current year; and legal and environmental liabilities have been adjusted to reflect current evaluations of these items. The current portion of long-term debt has increased to reflect the amortization schedule of term debt provided in our credit agreement. The strong operating cash flow experienced in the fourth quarter of the year allowed the Company to pay down debt by over \$22 million during 2001, a 15.9% reduction.

Capital expenditures totaled approximately \$8.0 million in 2001, compared with \$11.1 million in 2000. The current year spending was primarily for distribution center productivity, new product tooling and quality enhancements.

The Company has adequate credit capacity available to support its current operational expense and capital spending needs as well as those anticipated for the remainder of 2002. However, the Company has been experiencing lower earnings levels in its PVC Pipe business, reflecting an oversupply of raw materials available to support existing market demand as well as extremely low demand levels in the telecommunications infrastructure market, which is expected to continue through 2002. Unless the EBITDA level improves sufficiently, the Company will seek a further amendment to its secured credit agreement in order to prevent a covenant violation and, concurrently, evaluate changes to its capital structure in order to ensure an appropriate degree of financial flexibility. The Company has commenced negotiations of such an amendment so that it can be entered into before a covenant violation occurs.

OUTLOOK

The following paragraphs contain forward-looking comments. The comments are subject to, and the actual future results may be impacted by, the cautionary limitations and factors outlined in the following narrative comments.

The Company's sales have been supported by a very steady residential construction base throughout 2000 and 2001. Housing starts are expected to decline modestly during the first half of 2002 from the 1.5 million unit level to closer to a 1.4 million unit level before trending back up in the second half of 2002. These levels are still fairly strong compared with previous economic downturns. Interest rate cuts should help maintain the level of existing home

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

sales, which contributes to home improvement product sales of Lamson Home Products. Construction spending in the industrial and commercial markets are expected to be weaker than the general market, which may cause a lag in the recovery of our PVC Pipe business segment.

The telecommunications infrastructure market spending remains weak as telephone and cable TV companies capital spending plans continue to be reduced. This situation is not expected to improve appreciably until no earlier than the fourth quarter of 2002, or the first half of 2003. Spending in this market is required long term, we believe, to build out the metropolitan rings, expand corporate and institutional high-speed data and communications networks and to provide broadband services to the home. As part of the restructuring charge taken in 2001, the Company has reduced the capacity of its HDPE assets servicing this market by eliminating excess equipment and consolidating operations. The Company is also exploring other market opportunities such as gas collection, water drainage and sewer markets to better utilize its manufacturing capacity while the telecommunications market remains soft.

We believe that the cost of PVC resin may be near a cyclical floor during the fourth quarter of 2001, as PVC resin manufacturing companies are expressing that they are selling resin for almost their cash cost, and several have announced price increases in the first quarter of 2002. This, along with reduced inventories channel-wide and increased feed stock costs, should cause a stabilization of pricing in the market. Additional PVC resin manufacturing capacity scheduled to be brought up the first part of 2002 along with the lower projected U.S. construction activity the first half of next year, however, will keep the pricing environment competitive. Improvement in the PVC Pipe segment will require further substantial improvement in the PVC export market, particularly in the Pacific rim to absorb the current supply imbalance in the domestic market and stabilize these costs. Should the supply/demand imbalance be resolved by a strengthened export market, price levels in the PVC Pipe business segment could improve quickly and more than offset a modest softening of demand in the industrial/commercial market in 2002.

This Management's Discussion and Analysis of Financial Condition and Results of Operations contains expectations that are forward-looking statements that involve risks and uncertainties within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those expected as a result of a variety of factors, such as: (i) the volatility of resin pricing, (ii) the ability of the Company to pass through raw material cost increases to its customers, (iii) maintaining a stable level of housing starts, telecommunications infrastructure spending, consumer confidence and general construction trends, (iv) further deterioration in the country's general economic condition affecting the markets for the Company's products and (v) the ability of the Company to obtain an amendment to its secured credit agreement.

ITEM 7(a). - MARKET RISK DISCLOSURES

The following discussion about the Company's market risk disclosures involves forward-looking statements. Actual results could differ materially from those projected in the forward-looking statements. The Company is exposed to market risk related to changes in interest rates and commodity prices for PVC and HDPE resins. The Company does not use derivative financial instruments for speculative or trading purposes.

Almost all of the Company's long-term debt obligations bear interest at a variable rate. In order to mitigate the risk associated with interest rate fluctuations, in the first quarter of 2001, the Company entered into two interest rate swap agreements for a total notional amount of \$58.5 million and effectively fixed the variable rate debt at 5.41% and 5.48% plus the Company's risk premium of 1.5% to 3.5%. The notional amount is used to calculate the

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

contractual cash flow to be exchanged and does not represent exposure to credit loss.

These risks and others that are detailed in this Form 10-K must be considered by any investor or potential investor in the Company.

See notes to consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
THE LAMSON & SESSIONS CO. AND SUBSIDIARIES
Three fiscal years ended December 29, 2001

NOTE A--ACCOUNTING POLICIES

FISCAL YEAR: The Company's fiscal year end is the Saturday closest to December 31.

PRINCIPLES OF CONSOLIDATION AND PRESENTATION: The consolidated financial statements include the accounts of the Company and all domestic and foreign subsidiaries after elimination of intercompany items. Certain 2000 and 1999 items have been reclassified to conform with the 2001 financial statement presentation.

RECENT ACCOUNTING STANDARD CHANGES: During 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard (SFAS) No. 142, "Goodwill and Other Intangible Assets," which supersedes Accounting Principles Board Opinion (APBO) No. 17, "Intangible Assets." Goodwill and intangible assets deemed to have indefinite lives will no longer be amortized but will be subject to impairment tests in accordance with SFAS No. 142. Other intangible assets will continue to be amortized over their useful lives. This statement is effective for fiscal years beginning after December 15, 2001 for goodwill and intangible assets acquired before July 1, 2001. However, this statement was effective July 1, 2001 for all goodwill and intangible assets acquired after June 30, 2001. The Company has adopted or will adopt SFAS No. 142 in the required periods. Application of the non-amortization provisions of the statement is expected to improve net results by approximately \$3.6 million for the full year 2002. Prior to the end of the second quarter of 2002, the Company will perform the first step of the required impairment tests of goodwill and intangible assets deemed to have indefinite lives as of December 30, 2001. Management has not yet determined the effect on the Company's results of operations or financial condition of any potential impairment resulting from

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

such tests. Also during 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," which supercedes SFAS No. 121 and parts of APBO No. 30. SFAS No. 144 is effective for fiscal years beginning after December 15, 2001. This statement retains many of the fundamental provisions of SFAS No. 121 relating to assets to be held and used, but excludes goodwill and intangible assets that are not amortized. This statement also supercedes the accounting and reporting provisions for the disposal of a segment of a business found in APBO No. 30. The Company will adopt this statement as required, and management does not believe the adoption will have a material effect on the Company's results of operations, financial condition or liquidity.

USE OF ESTIMATES: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS: The Company considers all investments with an original maturity of three months or less on their acquisition date to be cash equivalents.

INVENTORIES: Inventories are valued at the lower of first-in, first-out (FIFO) cost or market.

FINANCIAL INSTRUMENTS: The Company's carrying value of its financial instruments approximates fair value.

PROPERTY AND DEPRECIATION: Property, plant and equipment are recorded at cost. For financial reporting purposes, depreciation and amortization are computed principally by the straight-line method over the estimated useful lives of the assets. Buildings are depreciated over periods up to 31.5 years. Machinery and equipment is depreciated over periods ranging from 3 years to 15 years. Accelerated methods of depreciation are used for federal income tax purposes.

IMPAIRMENT OF LONG-LIVED ASSETS: The Company evaluates the recoverability of long-lived assets and the related estimated remaining lives at each balance sheet date. The Company would record an impairment charge or change in useful life whenever events or changes in circumstances indicate that the carrying amount may not be recoverable, measured using undiscounted cash flows, or the useful life has changed.

GOODWILL: Goodwill represents the cost in excess of fair value of net assets acquired in business combinations accounted for by the purchase method and is amortized on a straight line basis over the expected period of benefit ranging from 5 to 20 years. Accumulated amortization of goodwill was \$5,923,000 and \$1,318,000 at December 29, 2001 and December 30, 2000, respectively.

INCOME TAXES: The Company accounts for income taxes using the provisions of Statement of Financial Accounting Standards (SFAS) No. 109, "Accounting for Income Taxes." Investment tax credits are recorded using the flow-through method.

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

REVENUE RECOGNITION: Revenues are derived from sales to unaffiliated customers and are recognized when products are shipped and title has transferred.

RESEARCH AND DEVELOPMENT COSTS: Research and Development (R&D) costs consist of Company-sponsored activities to develop new value-added products. R&D costs are expensed as incurred and expenditures were \$2,800,000, \$3,300,000 and \$3,800,000 in 2001, 2000 and 1999, respectively. R&D costs are included in operating expenses in the Consolidated Statements of Operations.

ADVERTISING COSTS: Advertising costs are expensed as incurred and totaled \$3,000,000 per year in both 2001 and 2000 and \$2,300,000 for 1999.

NOTE B--ACQUISITIONS

On September 22, 2000 and December 15, 2000, the Company acquired Pyramid for \$45.4 million and Ameriduct for \$63.8 million plus assumed debt of \$3.9 million plus transaction costs. In addition, pursuant to terms of non-competition agreements, Lamson will pay three former Pyramid shareholders \$6.5 million over a five-year period, including \$1.5 million, which was paid at closing. The acquisitions were funded through the Company's secured credit agreement. Both Pyramid and Ameriduct are leading manufacturers of HDPE conduit used in building telecommunications and utility infrastructure.

The acquisitions have been accounted for by the purchase method and, accordingly, the operating results have been included in the Company's consolidated financial statements and the Carlon business segment since the respective dates of acquisition. The assets acquired and liabilities assumed were recorded at estimated fair values. For financial statement purposes, goodwill relating to these acquisitions is being amortized by the straight-line method over 20 years and the non-compete agreements will be amortized over their five-year term.

In 2001, the Company finalized the purchase price of Ameriduct and completed the allocation of the purchase price allocation of both acquisitions, the result being a net reduction in goodwill of \$2.3 million. A summary of the assets acquired and liabilities assumed after these final purchase price adjustments are as follows:

(Dollars in thousands)

Estimated fair values	
Assets acquired	\$ 48,381
Liabilities assumed	(22,845)
Goodwill	85,273

Purchase price paid	110,809
Less cash acquired	(128)

Net cash paid	\$ 110,681
	=====

19

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--CONTINUED
 THE LAMSON & SESSIONS CO. AND SUBSIDIARIES
 NOTE C--LONG-TERM DEBT AND COMMITMENTS--CONTINUED

In August 2000, the Company completed the refinancing of its previous secured credit agreement by entering into a new five-year, \$125 million revolving credit agreement with a consortium of banks led by Harris Trust of Chicago. In December 2000, in conjunction with the acquisition of Ameriduct, the agreement was amended and increased to a \$194 million facility, consisting of \$48.5 million in term debt and \$145.5 million in a revolver. As of September 30, 2001 the agreement was amended reducing the revolving credit commitments of the lenders to an aggregate \$170 million of which \$38.5 million is available for the issuance of letters of credit. Beginning in the third quarter of 2001, the term portion of this agreement requires principal payments of \$2 million on March 31 and June 30 and \$3.5 million on September 30 and December 31 of each year with a balloon payment in August 2005. This agreement is secured by substantially all of the Company's assets. Interest on this credit facility is at LIBOR plus 1.5% to 3.5%. The specific rate is determined based on the ratio of indebtedness to earnings before interest, taxes, depreciation and amortization and is adjusted quarterly. The rate at December 29, 2001 is 7.24%. In addition to amounts borrowed, letters of credit related to Industrial Revenue Bond financings and other contractual obligations total approximately \$15.8 million under the agreement. The Company's credit agreement contains various restrictive covenants pertaining to maintenance of net worth, certain financial ratios and limits the amount of stock repurchases and dividend payments.

The Company's Industrial Revenue Bond financings include several issues due in annual installments from 2000 through 2023 with interest at variable rates. The weighted average rate for these bonds at December 29, 2001 was 1.78%.

The Company's headquarters is subject to a mortgage payable in equal monthly installments through 2003 with interest at 8.625%.

The aggregate minimum combined maturities of long-term debt for the years 2003 through 2006 are approximately \$12,070,811, \$11,660,000, \$72,760,000 and \$665,000 respectively, with \$7,110,000 due thereafter.

Interest paid was \$9,573,000, \$4,026,000 and \$3,679,000 in 2001, 2000 and 1999, respectively.

Rental expense was \$6,268,000, \$5,861,000 and \$4,908,000 in 2001, 2000 and 1999, respectively. Aggregate future minimum payments related to non-cancelable operating leases with initial or remaining terms of one year or more for the years 2002 through 2006 are approximately \$3,637,000, \$3,129,000, \$2,699,000, \$1,964,000 and \$1,578,000, respectively, with \$5,139,000 due thereafter.

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

NOTE D--DERIVATIVES AND HEDGING

Effective as of December 31, 2000, the Company adopted Statement of Financial Accounting Standards No. (SFAS) 133, "Accounting for Derivative Instruments and Hedging Activities" which was issued in June, 1998 by the Financial Accounting Standards Board (FASB), as amended by SFAS 137, "Accounting for Derivative Instruments and Hedging Activities - Deferral of Effective Date of SFAS 133" and SFAS 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities."

As a result of the adoption of SFAS 133, the Company is required to recognize all derivative financial instruments as either assets or liabilities at fair value. Derivative instruments that are not hedges must be adjusted to fair value through net income. Under the provisions of SFAS 133, changes in the fair value of derivative instruments that are classified as fair value hedges are offset against changes in the fair value of the hedged assets, liabilities, or firm commitments, through net income. Changes in the fair value of derivative instruments that are classified as cash flow hedges are recognized in other comprehensive income until such time as the hedged items are recognized in net income.

20

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--CONTINUED THE LAMSON & SESSIONS CO. AND SUBSIDIARIES NOTE D--DERIVATIVES AND HEDGING--CONTINUED

The adoption of SFAS 133 did not result in any transition adjustment as the Company had no derivative instruments outstanding at December 31, 2000. During the first quarter of 2001, the Company entered into two interest rate swap agreements for a total notional amount of \$58.5 million which effectively fixes interest rates on its variable rate debt at 5.41% and 5.48% plus the Company's risk premium of 1.5% to 3.5%, respectively. These transactions are considered cash flow hedges and, thus, the fair market value at the end of the year \$1,034,000 (net of \$661,000 in tax) loss, has been recognized in other comprehensive income (loss). There is no ineffectiveness on the cash flow hedges, therefore, all changes in the fair value of these derivatives are recorded in equity and not included in the current period's income statement. Approximately \$1,482,000 loss on the fair value of the hedges is classified in current accrued liabilities, with the remaining \$212,000 loss classified as a long-term liability.

The Company has no derivative instruments that are classified as fair value hedges.

NOTE E--PENSION AND OTHER POST-RETIREMENT BENEFIT PLANS

The Company sponsors several qualified and nonqualified pension plans and other post-retirement benefit plans for its current and former employees. The following table provides a reconciliation of the changes in the benefit obligations and fair value of plan assets over each of the two years in the period ended December 29, 2001 and a statement of the funded status at both years end:

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--CONTINUED
 THE LAMSON & SESSIONS CO. AND SUBSIDIARIES
 NOTE E--PENSION AND OTHER POST-RETIREMENT BENEFIT PLANS--CONTINUED

The assumptions used in the measurement of the Company's benefit obligations at December 29, 2001 and December 30, 2000 were:

	PENSION BENEFITS		OTHER B
	2001	2000	2001
	-----	-----	-----
Discount rate	7.2%	7.5%	7.25%
Expected return on plan assets	9.5%	9.5%	
Rate of salary increase	5.0%	5.0%	

For measurement purposes, a 8.5% average health care cost trend rate was used for 2002 (8.8% in 2001). The rate is assumed to decline gradually each year to an ultimate rate of 5.5% in 2008 and thereafter. A 1% change in assumed health care cost trend rates would have the following effects:

(Dollars in thousands)	1% INCREASE	1% DECREASE
	-----	-----
Net periodic benefit cost	\$ 74	\$ (67)
Accumulated post-retirement benefit obligation	\$ 932	\$ (839)

The components of net periodic benefit cost (income) are as follows:

(Dollars in thousands)	PENSION BENEFITS			
	2001	2000	1999	20
	-----	-----	-----	-----
Service cost	\$ 1,054	\$ 886	\$ 1,277	\$
Interest cost	5,280	5,300	5,179	

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

In addition to the defined benefit plans described above, the Company also sponsors a defined contribution plan, which covers substantially all full-time associates. The Company's matching contribution is a minimum of 50% of voluntary employee contributions of up to 6% of wages.

The Company remains contingently liable for certain post-retirement benefits of certain businesses previously sold.

23

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--CONTINUED
 THE LAMSON & SESSIONS CO. AND SUBSIDIARIES
 NOTE F--LITIGATION

On September 23, 1999, the Company announced that a United States District Court jury in the Northern District of Illinois found that the Company willfully infringed on a patent held by Intermatic Incorporated of Spring Grove, Illinois, relating to the design of an in-use weatherproof electrical outlet cover, and awarded Intermatic \$12.5 million in damages plus pre-judgment interest of approximately \$1.5 million. The Company pursued a vigorous appeal and on December 17, 2001 the United States Court of Appeals ruled that, as a matter of law, Lamson & Sessions' products did not infringe Intermatic's patent and that the Company has no liability to Intermatic. The trial jury's earlier verdict in favor of Intermatic in the amount of \$12,500,000, plus pre-judgment and post-judgment interest estimated to be in excess of \$3,000,000, was reversed. Intermatic filed for a rehearing of the ruling to the Court of Appeals en banc, which was denied. Management has no knowledge of Intermatic's intention with respect to any further appeals.

During the first quarter of 2001, the Company settled its litigation against PW Eagle and received a payment of \$2.05 million, (net gain of \$1.6 million) representing a partial recovery of costs incurred in current and previous quarters, arising out of the failed sale of the PVC Pipe segment in 1999.

The Company is also a party to various other claims and matters of litigation incidental to the normal course of its business. Management believes that the final resolution of these matters will not have a material adverse affect on the Company's financial position, cash flows or results of operations.

NOTE G--ENVIRONMENTAL

The Company believes that its current operations and its use of property, plant and equipment conform in all material respects to applicable environmental laws and regulations presently in effect. The Company has facilities at numerous

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

geographic locations, which are subject to a range of federal, state and local environmental laws and regulations. Compliance with these laws has, and will, require expenditures on a continuing basis.

During the second quarter of 1999, the Company reached a settlement on litigation involving environmental matters at a property sold by the Company in 1981 whereby the Company agreed to incur costs of certain remediation activities which will occur over several years. The settlement did not have a material impact on the Company's financial position or results of operations.

NOTE H--COMMON, PREFERRED, PREFERENCE STOCK

The Company has authorized 1,200,000 and 3,000,000 shares of Serial Preferred and Preference Stock, respectively, none of which is issued or outstanding at December 29, 2001 or December 30, 2000. The Company has reserved for issuance 200,000 shares of Cumulative Redeemable Serial Preference Stock, Series II, without par value ("Series II Preference Stock"), which relates to the Rights Agreement, dated as of September 8, 1998, between the Company and National City Bank (the "Rights Agreement").

Under the Company's Rights Agreement, each shareholder has the right to purchase from the Company one one-hundredth of a share of the Series II Preference Stock, subject to adjustment, upon payment of an exercise price of \$44.75. The Rights will become exercisable only after a person or group acquires beneficial ownership of or commences a tender or exchange offer for 15% or more of the Company's Common Shares. Rights held by persons who exceed that threshold will be void. In the event that a person or group acquires beneficial ownership of 15% or more of the Company's Common Shares, or a 15% shareholder merges into or with the Company or engages in one of a number of self-dealing transactions, each Right would entitle its holder to purchase a number of the Company's Common Shares (or, in certain cases, common stock of an acquirer) having a market value of twice the Right's exercise price.

The Company's Board of Directors may, at its option, redeem all Rights for \$0.01 per Right, generally at any time prior to the Rights becoming exercisable. The Rights will expire on September 20, 2008, unless earlier redeemed, exchanged or amended by the Board of Directors.

24

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--CONTINUED THE LAMSON & SESSIONS CO. AND SUBSIDIARIES NOTE I--STOCK COMPENSATION PLANS

Under the 1994 Nonemployee Directors Stock Option Plan, the Company is authorized to issue 160,000 common shares in non-qualified stock options. The stock options become exercisable one year after date of grant and expire at the end of ten years. At December 29, 2001, a total of 69,000 shares were available for future grant of stock options under this Plan.

On May 5, 1998, the Company's 1988 Incentive Equity Performance Plan expired. At December 29, 2001, there were options outstanding under the Plan representing 994,950 shares of the Company's Common Stock. The options outstanding under the Plan may be exercised, pursuant to the terms of the stock option agreements, through April 20, 2008.

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

Under the 1998 Incentive Equity Plan, the Company is authorized to issue 1,950,000 incentive stock options (ISOs), non-qualified stock options, stock appreciation rights (SARs) and restricted or deferred stock. Stock options generally become exercisable, in part, one year after date of grant and expire at the end of ten years. At December 29, 2001, under this Plan, a total of 935,655 shares were available for future grant.

A summary of the status of the Company's three stock compensation plans as of December 29, 2001, December 30, 2000 and January 1, 2000, and changes during the respective years then ended, is presented below:

	2001		2000	
(Shares in thousands)	SHARES	WEIGHTED- AVERAGE EXERCISE PRICE	SHARES	WEIGHT AVERA EXERCI PRIC
Outstanding at beginning of year	1,874	\$ 6.69	1,712	\$ 6
Granted	370	9.77	454	7
Exercised	(128)	5.25	(243)	5
Forfeited	(84)	10.19	(49)	6
Outstanding at end of year	2,032	\$ 7.20	1,874	\$ 6
Options exercisable at year-end	1,410		1,197	
Weighted-average fair value of options granted during the year		\$ 5.28		\$ 4

25

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--CONTINUED
 THE LAMSON & SESSIONS CO. AND SUBSIDIARIES
 NOTE I--STOCK COMPENSATION PLANS--CONTINUED

The following table summarizes information about options outstanding at December 29, 2001:

OPTIONS OUTSTANDING				
RANGE OF	SHARES	WEIGHTED-AVERAGE REMAINING	WEIGHTED-AVERAGE	S

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

EXERCISE PRICES -----	AT 12/29/01 -----	CONTRACTUAL LIFE (YRS) -----	EXERCISE PRICE -----	AT -----
\$ 0-5	265,250	7.07	\$ 4.97	1
5-10	1,718,550	5.72	7.39	1,1
10-15	38,500	7.70	10.88	
15-20	10,000	8.65	17.94	

The Company applies Accounting Principles Board Opinion No. 25 "Accounting for Stock Issued to Employees" and related interpretations in accounting for its stock-based plans. Accordingly, compensation cost has not been recognized for the fixed stock-based compensation plans. Had compensation expense been recognized following SFAS No. 123, "Accounting for Stock-Based Compensation," the Company's pro forma net income and earnings per share would have been as follows:

(Dollars in thousands, except per share data)		2001 -----	2000 -----
Net income	As reported	\$ (3,843)	\$ 21,
	Pro forma	(4,507)	20,
Basic earnings per share	As reported	\$ (0.28)	\$ 1
	Pro forma	(0.33)	1
Diluted earnings per share	As reported	\$ (0.28)	\$ 1
	Pro forma	(0.33)	1

For pro forma calculations, the fair value of each stock option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions used for grants:

	2001 -----	2000 -----	
Expected volatility	57.2%	52.2%	2
Risk-free interest rates	4.87%	6.05%	5
Average expected life	5 years	5 years	5 y

The Company has a deferred compensation plan that provides certain executive officers and directors of the Company with the opportunity to defer receipt of bonus compensation and director's fees. The Company funds these deferred compensation liabilities by making contributions to a Rabbi Trust which invests

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

exclusively in the Company's common shares. In accordance with Emerging Issues Task Force (EITF) 97-14 "Accounting for Deferred Compensation Arrangements Where Amounts Earned Are Held in a Rabbi Trust and Invested," both the trust assets and the related obligation are recorded in equity at cost and offset each other.

26

	-----	-----
Total	\$ (1,600) =====	\$ 8,500 =====

27

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--CONTINUED
THE LAMSON & SESSIONS CO. AND SUBSIDIARIES

NOTE K--INCOME TAXES--CONTINUED

The components of deferred taxes included in the balance sheets as of December 29, 2001 and December 30, 2000 are as follows:

(Dollars in thousands)	2001 -----
Deferred tax assets:	
Net operating loss carryforwards (Federal & State)	\$10,09
Other accruals, credits and reserves	8,49
General business and alternative minimum tax credits	3,07
Post-retirement benefits other than pensions	5,73

Total deferred assets	27,40
Deferred tax liabilities:	
Tax in excess of book depreciation	5,43
Pensions	6,64

Total deferred tax liabilities	12,08

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

Total net deferred tax assets

\$15,32
=====

The Company has available federal net operating loss carryforwards totaling approximately \$27.2 million, which expire in the years 2008 to 2021. The Company also has available general business tax credit carryforwards of \$1.4 million, which expire through 2018 and alternative minimum tax credit carryforwards of approximately \$1.7 million, which may be carried forward indefinitely.

The provision for income taxes is different than the amount computed using the applicable statutory federal income tax rate with the differences summarized below:

(Dollars in thousands)	FISCAL YEARS	
	2001	2000
Tax expense at statutory rates	\$ (1,905)	\$ 10,482
Adjustment due to:		
Change in valuation allowance	--	(2,600)
State and local income taxes	(225)	1,146
Non deductible goodwill	734	268
Other	(204)	(796)
	-----	-----
	\$ (1,600)	\$ 8,500
	=====	=====

Income taxes paid in 2001 and 2000 were \$1,256,000 and \$904,000, respectively. In 1999 the Company received an income tax refund of \$78,000.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--CONTINUED
THE LAMSON & SESSIONS CO. AND SUBSIDIARIES

NOTE L--BUSINESS SEGMENTS

The Company's reportable segments are as follows:

CARLON - INDUSTRIAL, RESIDENTIAL, COMMERCIAL, TELECOMMUNICATIONS AND UTILITY CONSTRUCTION: The major customers served are electrical contractors and

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

distributors, original equipment manufacturers, electric power utilities, cable television (CATV), telephone and telecommunications companies. The principal products sold by this segment include electrical and telecommunications raceway systems and a broad line of nonmetallic enclosures, electrical outlet boxes and fittings. Examples of the applications for the products included in this segment are multi-cell duct systems and HDPE conduit designed to protect underground fiber optic cables, allowing future cabling expansion and flexible conduit used inside buildings to protect communications cable. The 2000 acquisitions of Pyramid and Ameriduct are included as part of the Carlon segment.

LAMSON HOME PRODUCTS - Consumer: The major customers served are home centers and mass merchandisers for the "do-it-yourself" home repair market. The products included in this segment are electrical outlet boxes, liquidtight conduit, electrical fittings, chimes and lighting controls.

PVC PIPE: This business segment primarily supplies electrical, power and communications conduit to the electrical distribution, telecommunications, consumer and power utility markets. The 1/2-inch to 6-inch electrical and telecommunications conduit is made from PVC and is used to protect wire or fiber optic cables supporting the infrastructure of our power or telecommunications systems.

The above schedule shows the operating results by segment excluding the restructuring and impairment charge of \$7.7 million and net gains of \$4.6 million recorded in 2001.

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

THE LAMSON & SESSIONS CO. AND SUBSIDIARIES

NOTE M--RESTRUCTURING, IMPAIRMENT CHARGE AND NET GAINS

Due to the dramatic downturn in the economy in 2001, especially in the telecommunications infrastructure market the Company evaluated all of the Company's facilities and equipment to reduce excess capacity by eliminating or consolidating assets to more efficiently service its markets and lower its fixed cost base. As a result of this evaluation the Company has recognized a \$7.7 million restructuring and impairment charge in the fourth quarter of 2001. Included in this charge is approximately \$3.5 million related to the elimination of approximately 15% of the Company's HDPE capacity through disposal of several excess extrusion lines. The Company had also approved the shutdown and sale of one of its facilities. The facility (asset held for sale at December 29, 2001) was written down by \$1.7 million (included in the \$3.5 million charge) to its estimated fair value. In addition, several under performing product lines in the Carlon and PVC Pipe segments have been eliminated during the fourth quarter of 2001 resulting in a \$2.9 million charge. Approximately \$.9 million of this charge is for obsolete inventory which is included in cost of products sold while the remainder is primarily the write-off and disposal of related manufacturing assets. Also included in the charge is \$.9 million for the write-off of Corporate fixed assets that are obsolete. Finally, the Company reduced its salary workforce by approximately 17% in 2001 of which approximately 10% occurred in the fourth quarter resulting in a \$.4 million charge, representing severance payments which will be paid in the first half of 2002.

The Company recognized net gains of \$4.6 million in 2001 relating to the resolution of litigation (\$1.6 million), changes in accounting estimates for legal and environmental liabilities (\$2.3 million) and the sale of a non-strategic business (\$.7 million).

REPORT OF INDEPENDENT AUDITORS

Board of Directors and Shareholders
The Lamson & Sessions Co.

We have audited the accompanying consolidated balance sheets of The Lamson & Sessions Co. and Subsidiaries as of December 29, 2001 and December 30, 2000, and the related consolidated statements of operations, shareholders' equity and cash flows for each of the three fiscal years in the period ended December 29, 2001. Our audits also included the financial statement schedule listed in the Index at Item 14 (a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of The Lamson & Sessions Co. and Subsidiaries at December 29, 2001 and December 30, 2000, and the consolidated results of their operations and their cash flows for each of the three fiscal years in the period ended December 29, 2001, in conformity with accounting principles generally accepted in the United States. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

/s/ Ernst & Young LLP

Cleveland, Ohio
March 5, 2002

33

STATEMENT OF MANAGEMENT'S RESPONSIBILITY

We have prepared the financial statements and other financial information contained in this Annual Report.

The management of Lamson & Sessions is primarily responsible for the integrity of this financial information. The financial statements were prepared in accordance with accounting principles generally accepted in the United States and necessarily include certain amounts based on management's reasonable best estimates and judgments, giving due consideration to materiality. Financial information contained elsewhere in this Annual Report is consistent with that contained in the financial statements.

Management is responsible for establishing and maintaining a system of internal control designed to provide reasonable assurance as to the integrity and

Edgar Filing: LAMSON & SESSIONS CO - Form 10-K

reliability of financial reporting. The concept of reasonable assurance is based on the recognition that there are inherent limitations in all systems of internal control, and that the cost of such systems should not exceed the benefits to be derived therefrom.

To meet management's responsibility for financial reporting, we have established internal control systems that we believe are adequate to provide reasonable assurance that our assets are protected from loss. These systems produce data used for the preparation of published financial information and provide for appropriate reporting relationships and division of responsibility. All significant systems and controls are reviewed periodically by management in order to ensure compliance and by our independent auditors to support their audit work. It is management's policy to implement a high proportion of recommendations resulting from this review.

The Audit Committee of the Board of Directors, composed solely of outside directors, meets regularly with management and our independent auditors to review accounting, auditing and financial matters. The independent auditors have free access to the Audit Committee, with or without management, to discuss the scope and results of their audits and the adequacy of the system of internal controls.
