NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 QUARTERS ENDED MAY 25, 2003 AND MAY 26, 2002
 (unaudited)

Edgar Filing: MORGANS FOODS INC - Form 10-Q

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES.

The interim consolidated financial statements of Morgan's Foods, Inc. have been prepared without audit. In the opinion of Company Management, all adjustments have been included. Unless otherwise disclosed, all adjustments consist only of normal recurring adjustments necessary for a fair statement of results of operations for the interim periods. Except as noted in the notes to the financial statements, these unaudited financial statements have been prepared using the same accounting principles that were used in preparation of the Company's annual report on Form 10-K for the year ended March 2, 2003.

Certificate of Deposit. During the first quarter of fiscal 2004, the Company issued a letter of credit for \$300,000 in favor of one of its vendors. The letter of credit which expires September 27, 2003 is secured by a \$300,000 certificate of deposit.

NOTE 2. INCOME PER COMMON SHARE.

Basic net income per common share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per common share is based on the combined weighted average number of shares outstanding, which includes the assumed exercise, or conversion of options. In computing diluted net income per common share, the Company has utilized the treasury stock method.

NOTE 3. STOCK OPTIONS.

The Company's outstanding stock options are accounted for using the intrinsic value method, under which compensation cost is measured as the excess, if any, of the quoted market price of the stock at the grant date over the amount an employee must pay to acquire the stock. Had compensation cost for the options granted been determined based on their fair values at the grant dates in accordance with the fair value method of Statement of Financial Accounting Standards ("SFAS") No. 123, Accounting for Stock-Based Compensation, the Company's net income and earnings per share would have been presented at the pro forma amounts indicated below:

	Quarter Ended	
	May 25, 2003	May 26, 2002
Net income as reported	\$ 180,000	\$ 142,000

Edgar Filing: MORGANS FOODS INC - Form 10-Q

NOTE 4. NEW ACCOUNTING STANDARDS.

In June 2001, the Financial Accounting Standards Board ("FASB") issued SFAS No. 143, Accounting for Asset Retirement Obligations, which addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and associated asset retirement costs. The new rules apply to legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development and/or normal operation of long-lived assets. The Company adopted the provisions of SFAS No. 143 beginning in fiscal 2004. The adoption of SFAS No. 143 did not have a material impact on the Company's consolidated financial position or results of operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Description of Business. Morgan's Foods, Inc. ("the Company") operates, through wholly-owned subsidiaries KFC restaurants under franchises from KFC Corporation and Taco Bell restaurants under franchises from Taco Bell Corporation. As of June 27, 2003, the Company operates 75 KFC restaurants, 7 Taco Bell restaurants, 16 KFC/Taco Bell "2n1's" under franchises from KFC Corporation and franchises or licenses from Taco Bell Corporation, 3 Taco Bell/Pizza Hut Express "2n1's" operated under franchisees from Taco Bell Corporation and licenses from Pizza Hut Corporation, 1 KFC/Pizza Hut Express "2n1" operated under a franchise from KFC Corporation and a license from Pizza Hut Corporation and 1 KFC/A&W "2n1" operated under a franchise from KFC Corporation and a license from A&W Restaurants, Inc. The Company's fiscal year is a 52 - 53 week year ending on the Sunday nearest the last day of February.

SUMMARY OF EXPENSES AND OPERATING INCOME AS A PERCENTAGE OF REVENUES

	QUARTER ENDED	
	MAY 25, 2003	MAY 26, 2002
Cost of sales:		
Food, paper and beverage	30.6%	30.5%
Labor and benefits	27.0%	27.3%
Restaurant operating expenses	25.2%	24.8%
Depreciation and amortization	4.0%	4.0%
General and administrative expenses	6.6%	6.9%
Operating income	6.5%	6.5%

Revenues. Revenues for the quarter ended May 25, 2003 were \$19,828,000 compared to \$19,159,000 for the quarter ended May 26, 2002. This increase of \$669,000 was primarily due to a 3.2% increase in comparable restaurant revenues. The increase in comparable restaurant revenues was primarily the result of effective product promotions by the franchisors and increased local advertising during the quarter.

Costs of Sales - Food, Paper and Beverages. Food, paper and beverage costs for the first quarter increased as a percentage of revenue from 30.5% in fiscal 2003 to 30.6% in fiscal 2004. This increase was primarily the result of product promotions during the first quarter of fiscal 2004 having a higher food cost than those which were promoted during the first quarter of fiscal 2003.

Edgar Filing: MORGANS FOODS INC - Form 10-Q

This increase was partially offset by efficiencies gained from higher average restaurant volumes as well as rebates from increased beverage sales.

7

Cost of Sales - Labor and Benefits. Labor and benefits decreased as a percentage of revenue for the quarter ended May 25, 2003 to 27.0% compared to 27.3% for the year earlier quarter. The decrease was primarily due to efficiencies gained from higher average restaurant volumes which were partially offset by increased health care costs.

Restaurant Operating Expenses. Restaurant operating expenses increased as a percentage of revenue to 25.2% in the first quarter of fiscal 2004 compared to 24.8% in the first quarter of fiscal 2003. This increase was primarily due to increased general insurance and local advertising costs which were partially offset by efficiencies gained from higher restaurant volumes.

Depreciation and Amortization. Depreciation and amortization increased to \$803,000 in the current year first quarter from \$764,000 in the prior year first quarter. This increase was a result of restaurant development which was placed in service later in fiscal year 2003.

General and Administrative Expenses. General and administrative expenses were substantially unchanged at \$1,305,000 and \$1,315,000 for the first quarters of fiscal 2004 and 2003 respectively.

Loss on Restaurant Assets. The loss on restaurant assets was unchanged at \$10,000 in the first quarters of fiscal 2004 and 2003.

Operating Income. Operating income in the first quarter of fiscal 2004 increased to \$1,283,000 or 6.5% of revenues compared to \$1,245,000 or 6.5% of revenues for the first quarter of fiscal 2003. Operating income was a consistent percentage of revenues as a result of higher average restaurant volumes being offset by higher cost product promotions, increased health care and general insurance costs and increased depreciation expense.

Interest Expense. Interest expense on bank debt decreased to \$1,109,000 in the first quarter of fiscal 2004 from \$1,141,000 in fiscal 2003 due to lower debt balances during the fiscal 2004 quarter. Interest expense on capitalized leases was substantially unchanged from the prior year first quarter.

Other Income. Other income decreased to \$21,000 in the first quarter of fiscal 2004 from \$54,000 in the first quarter of fiscal 2003 as a result of lower interest income due to decreases in both the interest rate earned and the average cash balance in the first quarter of fiscal 2004.

Provision for Income Taxes. The provision for income taxes was substantially unchanged at \$4,000 and \$2,000 in the first quarters of fiscal 2004 and 2003, respectively.

Liquidity and Capital Resources. Cash flow activity for the twelve weeks of fiscal 2004 and fiscal 2003 is presented in the Consolidated Statements of Cash Flows. Cash provided by operating activities was \$1,222,000 for the twelve weeks ended May 25, 2003. The Company paid scheduled long-term bank and capitalized lease debt of \$664,000 in the first quarter of fiscal 2004.

The quick service restaurant operations of the Company have historically provided sufficient cash flow to service the Company's debt, refurbish and upgrade restaurant properties and cover administrative overhead.

Edgar Filing: MORGANS FOODS INC - Form 10-Q

Management believes that operating cash flow will provide sufficient capital to continue to operate and maintain the KFC, Taco Bell and "2n1" restaurants, service the Company's debt and support required corporate expenses.

8

The Company's debt arrangements require the maintenance of a consolidated fixed charge coverage ratio of 1.2 to 1 regarding all of its mortgage loans and individual restaurant coverage ratios between 1.2 and 1.5 to 1 on certain of its loans. As of March 2, 2003, the Company was not in compliance with the consolidated ratio of 1.2 to 1 or the unit level ratios relating to \$33,346,000 of its debt. The Company has obtained waivers of these violations from the applicable lenders. As these waivers continue through the end of fiscal year 2004, the Company has classified its debt as long term as of March 2, 2003 and May 25, 2003. All payments on the Company's debt have been, and continue to be current and management believes that the Company will continue to be able to service the debt. If the Company does not comply with debt covenants in the future, and if future waivers are not obtained, the lenders will have certain remedies available to them which could include calling of the debt or acceleration of payments. Noncompliance with the requirements of the Company's mortgage debt, if not waived, could also trigger cross-default provisions of other debt agreements.

The Company continues to be out of compliance with certain of the continued listing standards of the American Stock Exchange and was required to submit a revised business plan to the Exchange indicating how the Company would achieve compliance with those standards. Specifically, the Company fell under the guidelines in Section 1003(a)(i) with shareholders' equity of less than \$2,000,000 and has sustained losses from continuing operations and/or net losses in two of its three most recent fiscal years and Section 1003(a)(ii) with shareholder's equity of less than \$4,000,000 and has sustained losses from continuing operations and/or net losses in three out of its four most recent fiscal years.

On March 25, 2003 the Company submitted its revised plan to the staff at the Exchange indicating how it would regain compliance with the continued listing standards and received notice from the Exchange on April 30, 2003 that it has accepted the Company's revised plan. The Exchange has allowed the Company to continue its plan for compliance until August 17, 2003, the end of the Company's second fiscal quarter, at which time the Exchange will reassess the Company's compliance with the continued listing standards. During the term of the extension, the Exchange will monitor the Company's performance and the Company will be required to report to the Exchange any change in its performance which would be inconsistent with the plan which was approved by the Exchange on April 30. Any failure to meet the operating plan which was accepted by the Exchange could result in the commencement of delisting proceedings. If the Company were delisted, or if its common shares were suspended from trading, the liquidity of its common shares could be diminished.

The Company's market risk exposure is primarily due to possible fluctuations in interest rates as they relate to future borrowings. The Company has evaluated the potential effect of a 1.0% increase in these rates on future capital spending plans and believes that there would be no material effect. The Company does not enter into derivative financial investments for trading or speculation purposes. As a result, the Company believes that its market risk exposure is not material to the Company's financial position, liquidity or results of operations.

Commitments. During the first quarter of fiscal year 2004, the Company

Edgar Filing: MORGANS FOODS INC - Form 10-Q

issued a letter of credit for \$300,000 in favor of one of its vendors. The letter of credit which expires September 27, 2003 is secured by a \$300,000 certificate of deposit.

Seasonality. The operations of the Company are affected by seasonal fluctuations. Historically, the Company's revenues and income have been highest during the summer months with the fourth fiscal quarter representing the slowest period. This seasonality is primarily attributable to weather conditions in the Company's marketplace, which consists of portions of Ohio, Pennsylvania, Missouri, Illinois, West Virginia and New York.
