Pittsburgh, PA, February 3, 2005 WESCO International, Inc. [NYSE:WCC], a leading provider of electrical MRO products, construction materials, and advanced integrated supply procurement outsourcing services, today announced its 2004 fourth quarter financial results.

Net sales for the fourth quarter of 2004 were \$987.9 million versus \$850.1 million in 2003, an increase of 16.2%. Gross margins for the quarter improved by \$24.9 million over the comparable 2003 quarter. Operating income for the current quarter totaled \$39.4 million versus \$24.7 million in last year's comparable quarter, an improvement of 60%. Depreciation and amortization included in operating income was \$4.1 million for 2004 versus \$7.2 million in 2003. Net income in 2004's fourth quarter was \$17.1 million versus \$9.4 million in the comparable 2003 quarter. Earnings per share in the current quarter were \$0.38 per share versus \$0.21 per share in 2003.

For the year 2004, net sales increased 13.8% to \$3,741.3 million versus \$3,286.8 million in 2003. Gross margins in 2004 were 19.0% compared to 18.6% last year, and operating

income totaled \$149.5 million versus \$86.1 million last year. Depreciation and amortization included in operating income was \$18.1 million versus \$22.5 million last year. Net income for 2004 was \$64.9 million compared to \$30.0 million last year, while diluted earnings per share were \$1.47 per share in 2004 versus \$0.65 per share in 2003.

Stephen A. Van Oss, Senior Vice President and Chief Financial and Administrative Officer, stated, "Strong sales momentum and higher margin dollars produced record best performance in virtually all financial metrics for 2004. Earnings per share for the year were a record \$1.47. Earnings per share improved by 125% over 2003 and reflect the strong operating leverage in our business model and excellent execution of our sales and cost initiatives by field and headquarter personnel. Free cash flow of \$18.1 million for the fourth quarter and \$28.5 million for the full year were driven primarily by higher net income, which more than offset increased working capital requirements needed to support sales growth of almost 14%, demonstrating the strong cash generation capacity of our business.

Mr. Van Oss continued, "In December 2004, WESCO successfully completed a \$290 million stock offering comprised of four million shares issued by the Company and seven million shares sold by existing shareholders. The \$100 million of proceeds received from the shares issued by the Company, combined with approximately \$24 million of low-cost debt from existing facilities, will be used to redeem \$124 million of the outstanding and callable Senior Subordinated Notes. The Notes will be redeemed in March 2005. The cost of retiring these Notes will result in a non-recurring charge of \$6.3 million to net income which is comprised of costs for redemption and write-off of original issuance discount costs. The majority of the \$6.3 million will be a non-cash charge. On a going-forward basis, the interest savings from the redeemed Notes makes the issuance of the four million shares of common stock slightly accretive to earnings per share.

Chairman and CEO, Roy W. Haley, commented, "WESCO's fourth quarter and full-year 2004 performance was outstanding. Our sales results have been particularly strong, and our sales and service personnel have delivered record levels of performance and productivity.

Mr. Haley continued, "The economy is showing continued strength on a broad basis. The recovery in industrial markets throughout

2004 has had a positive impact on our results. We are now seeing strengthening in the commercial construction market, particularly the small-and medium-sized projects. We believe the economic fundamentals are favorable for larger-sized projects to materialize during 2005. We are well positioned to fully participate in this market segment as it begins to recover.

###

Teleconference

WESCO will conduct a teleconference to discuss the fourth quarter earnings as described in this News Release on February 3, 2005, at 11:00 a.m. E.D.T. Note: Trade accounts receivable and long-term debt have each been reduced by \$208 million and \$225 million as of December 31, 2004 and December 31, 2003, respectively, in accordance with WESCO's accounting for its accounts receivable securitization facility. In addition, the carrying value of long-term debt increased a net \$1.2 million during the twelve months ended December 31, 2004 as a result of changes in carrying value of the Company's interest rate derivative instruments and as a result of non-cash amortization of discounts associated with the Company's Senior Notes.

	December 31, 2004	December 31, 2003
Total debt	\$ 416.7	\$ 422.2
Plus: A/R Securitization	208.0	225.0
Less: Cash and cash equivalents	(34.5)	(27.5)
 Total indebtedness (including A/R Securitization Program), net of cash (See Note)	 \$ 590.2	 \$ 619.7

Note: Total indebtedness (including A/R Securitization Program), net of cash is provided by the Company as additional measure of the Company's leverage. Generally accepted accounting principles require that this financing facility be presented off-balance sheet. As management internally evaluates the A/R Securitization Facility as an additional form of indebtedness, management believes it is helpful to provide the readers of its financial statements an evaluation of its total indebtedness from all sources of financing. Cash and cash equivalents are deducted from this total to determine total indebtedness (including A/R Securitization Program), net of cash. This amount represents the Company's net obligation due under all of its financing facilities.

	Three Months Ended December 31, 2004		Twelve Months Ended December 31, 2004
Cash flow provided by operations	(\$68.7)	\$	23.6

Less: Capital expenditures	(5.2)		(12.1)
 Free cash flow (excluding effects of A/R Securitization Program) (See Note)		\$	 18.1 \$ 28.5

Note: Free cash flow (excluding the effects of A/R Securitization Program) is provided by the Company as an additional liquidity measure. Generally accepted accounting principles require that changes in this facility be reflected within operating cash flows in the Company's consolidated statement of cash flows. As management internally evaluates the A/R Securitization Facility as an additional form of liquidity, management believes it is helpful to provide the readers of its financial statements with the cash flow from operating activities other than those related to the A/R Securitization Facility. Capital expenditures are deducted from this adjusted operating cash flow amount to determine free cash flow (excluding effects of A/R Securitization Program). This amount represents excess funds available to management to service all of its financing needs (including needs of its A/R Securitization Program) and other investing needs.
