Pittsburgh, PA, July 21, 2005 WESCO International, Inc. [NYSE:WCC], a leading provider of electrical MRO products, construction materials, and advanced integrated supply procurement outsourcing services, today announced its 2005 second quarter financial results.

Net sales for the second quarter of 2005 were \$1,062.1 million compared to \$931.0 million in 2004, an increase of 14.1%. Gross margin for the quarter was 18.3% compared to 19.7% for the comparable 2004 quarter. Operating income for the current quarter totaled \$48.9 million versus \$42.9 million in last year's comparable quarter. Depreciation and amortization included in operating income was \$3.7 million for 2005 compared to \$4.6 million in 2004. Net income in 2005's second quarter was \$27.4 million versus \$19.1 million in the comparable 2004 quarter. Diluted earnings per share were \$0.56 per share versus \$0.44 per share in 2004.

Stephen A. Van Oss, Senior Vice President and Chief Financial and Administrative Officer, stated, "Sales levels and productivity continued to accelerate through the quarter as sales per workday and sales per employee reached record levels for the month of June and the quarter. Operating profit and net income improved by 14% and 43%, respectively. Significant gains in operating productivity and effectiveness of expense controls resulted in a 120 basis points improvement in the SG&A expense rate.

Net sales for the six months ended June 30, 2005 were \$2,052.9 million versus \$1,778.8 million in last year's comparable period, a 15.4% increase. Gross margin in the current six-month period was 18.5% versus 19.4% last year and operating income totaled \$87.5 million versus \$69.1 million last year. Depreciation and amortization included in operating income was \$7.6 million versus \$9.7 million last year. Net income for the 2005 year-to-date period, including a charge in the first quarter for redeeming a portion of the Company's senior subordinated notes, was \$38.7 million versus \$28.8 million last year, while diluted earnings per share were \$0.79 per share in 2005 versus \$0.67 per share in 2004.

Chairman and CEO, Roy W. Haley, commented, "Our employees are working on a variety of continuous improvement initiatives, and their superb results are sustaining the positive momentum that makes these excellent financial results possible. We are particularly pleased with the Company's ability to generate double-digit organic growth rates and process new business with high levels of operating productivity. The sales rate for the quarter established new records for top performance as quarterly sales of more than \$1 billion were achieved for the first time. Net income of \$27 million was also a quarterly record, surpassing last year's particularly strong second quarter, and our previous record best performance. Commenting on the economy, Mr. Haley added, "While it will be a challenge to duplicate the growth rates achieved in last year's second half, industrial production and capacity utilization rates remain stable and construction activity is expected to show steady improvement. Accordingly, we believe that double-digit growth rates for organic sales development can be extended for the balance of the year."

WESCO announced today that it is in final negotiations to acquire the assets and business of Fastec Industrial Corp., a premier national distributor of fasteners, cabinet hardware, locking and latching products. Commenting on the planned acquisition, Mr. Van Oss stated, "Fastec has particular strengths in the recreational vehicle industry. It has significant sourcing capabilities in China and is an innovator in the design and development of new products. This acquisition will strengthen and expand our strong position in the manufactured housing and recreational vehicle markets and will be EPS accretive."

Note: Trade accounts receivable has been reduced by \$330 million and \$208 million as of June 30, 2005 and December 31, 2004, respectively, in accordance with WESCO's accounting for its accounts receivable securitization facility. In addition, the carrying value of long-term debt decreased a net \$148.4 million during the six months ended June 30, 2005 primarily as a result of the repurchase of \$123.8 million of the Company's 9 1/8 senior subordinated debt on March 1, 2005.

Total indebtedness (including A/R Securitization Program), net of cash (See Note)	\$ 584.2	\$ 579.2	\$ 591.1

Note: Total indebtedness (including A/R Securitization Program), net of cash is provided by the Company as an additional measure of the Company's leverage. Generally accepted accounting principles require that this financing facility be presented off-balance sheet. As management internally evaluates the A/R Securitization Facility as an additional form of indebtedness, management believes it is helpful to provide the readers of its financial statements an evaluation of its total indebtedness from all sources of financing. Cash and cash equivalents are deducted from this total to determine total indebtedness (including A/R Securitization Program), net of cash. This amount represents the Company's net obligation due under all of its financing facilities.

Less: Increase in A/R Securitization	(122.0)
Less: Capital expenditures	(7.9)
Free cash flow (excluding effects of A/R Securitization Program) (See Note)	\$ 5.3

Note: Free cash flow (excluding the effects of A/R Securitization Program) is provided by the Company as an additional liquidity measure. Generally accepted accounting principles require that changes in this facility be reflected within operating cash flows in the Company's consolidated statement of cash flows. As management internally evaluates the A/R Securitization Facility as an additional form of liquidity, management believes it is helpful to provide the readers of its financial statements with the cash flow from operating activities other than those related to the A/R Securitization Facility. Capital expenditures are deducted from this adjusted operating cash flow amount to determine free cash flow (excluding effects of A/R Securitization Program). This amount represents excess funds available to management to service all of its financing needs (including needs of its A/R Securitization Program) and other investing needs.
