CORE LABORATORIES N.V.
NOTES TO THE UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements include the accounts of Core Laboratories N.V. and its subsidiaries for which we have a controlling voting interest and/or a controlling financial interest. These financial statements have been prepared in accordance with United States ("U.S.") generally accepted accounting principles ("GAAP") for interim financial information using the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, these financial statements do not include all of the information and footnote disclosures required by U.S. GAAP and should be read in conjunction with the financial statements and the summary of significant accounting policies and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2010.

Core Laboratories N.V. uses the equity method of accounting for investments in which it has less than a majority interest and over which it does not exercise control. Non-controlling interest has been recorded to reflect outside ownership attributable to consolidated subsidiaries that are less than 100% owned. In the opinion of management, all adjustments considered necessary for the periods presented have been included in these financial statements. Furthermore, the operating results presented for the three months ended March 31, 2011 may not necessarily be indicative of the results that may be expected for the year ended December 31, 2011.

Core Laboratories N.V.'s balance sheet information for the year ended December 31, 2010 was derived from the 2010 audited consolidated financial statements but does not include all disclosures in accordance with U.S. GAAP.

At our annual meeting on June 10, 2010, the shareholders approved an amendment to increase the authorized shares of our common stock from 100 million to 200 million and to increase the authorized shares of our preference stock from 3 million to 6 million. In addition, shareholders approved the two-for-one stock split authorized by the Supervisory Board and thereby reduced the par value of each share from EUR 0.04 to EUR 0.02. As a result of the stock split, shareholders of record on June 30, 2010 received an additional share of common stock for each common share held. The additional shares were distributed on July 8, 2010. All references in the consolidated financial statements and the accompanying notes to common shares, share prices, per share amounts and stock plans have been restated retroactively for the stock split.

Certain reclassifications were made to prior period amounts in order to conform to the current period presentation. These reclassifications had no impact on the reported net income for the three month period ended March 31, 2011.

References to "Core Lab", "we", "our" and similar phrases are used throughout this Quarterly Report on Form 10-Q and relate collectively to Core Laboratories N.V. and its consolidated subsidiaries.

2. INVENTORIES

Inventories consist of the following (in thousands):

	March 31, 2011 (Unaudited)	December 31, 2010
Finished goods	\$ 28,839	\$ 24,476

Edgar Filing: CORE LABORATORIES N V - Form 10-Q

Parts and materials	7,268	6,727
Work in progress	2,386	2,776
Total inventories, net	\$ 38,493	\$ 33,979

We include freight costs incurred for shipping inventory to customers in the Cost of Sales line of the Consolidated Statements of Operations.

3. GOODWILL AND INTANGIBLES

We account for intangible assets with indefinite lives, including goodwill, in accordance with the applicable accounting guidance, which requires us to evaluate these assets for impairment annually, or more frequently if an indication of impairment has occurred. Based upon our most recent evaluation, we determined that goodwill is not impaired. We amortize intangible assets with a defined term on a straight-line basis over their respective useful lives.

[Return to Index](#)

In 2010, we acquired fracture diagnostics assets for \$9.0 million in cash. The acquisition was recorded in the Production Enhancement business segment and resulted in an increase of \$5.6 million in goodwill and an increase of \$3.2 million in intangible assets. The intangible assets will be amortized over a period of 36 to 60 months.

4. DEBT AND CAPITAL LEASE OBLIGATIONS

Debt is summarized in the following table (in thousands):

	March 31, 2011 (Unaudited)	December 31, 2010
Senior exchangeable notes	\$ 109,839	\$ 156,407
Discount on senior exchangeable notes	(4,523)	(8,864)
Net senior exchangeable notes	\$ 105,316	\$ 147,543

In 2006, Core Laboratories LP, a wholly owned subsidiary of Core Laboratories N.V., issued \$300 million aggregate principal amount of Senior Exchangeable Notes (the "Notes") which are fully and unconditionally guaranteed by Core Laboratories N.V. and mature on October 31, 2011. The Notes bear interest at a rate of 0.25% per year paid on a semi-annual basis.

With the additional amortization of the discount on the Notes, the effective interest rate is 7.48% for the three-month period ended March 31, 2011, which resulted in additional non-cash interest expense of \$2.2 million and \$3.8 million for the three months ended March 31, 2011 and 2010, respectively. Each Note carries a \$1,000 principal amount and is exchangeable into shares of Core Laboratories N.V. common stock under certain circumstances at an exchange price of \$45.62 per share, or 21.9190 shares per Note. Upon exchange, holders will receive cash for the principal amount plus any amount related to fractional shares, and any excess exchange value will be delivered in whole shares of Core Laboratories N.V. common stock at the completion of the valuation period as defined under our Notes agreement. At March 31, 2011, the Notes were trading at 223.0% of their face value which is equivalent to \$135.1 million of value in excess of the aggregate principal amount. At December 31, 2010, the Notes were trading at 197% of their face value which is equivalent to \$151.7 million of value in excess of the aggregate principal amount. There were 109,839 and 156,407 Notes outstanding at March 31, 2011 and December 31, 2010, respectively.

Under the terms of the Notes, defined criteria was met which allowed the Notes to be early exchanged during the first quarter of 2011, and as a result the equity component of the Notes at March 31, 2011 was classified as temporary equity. This balance combined with the debt amount reflects the amount that could result in cash settlement upon exchange. We received ten requests to exchange 46,568 Notes during the first quarter of 2011 which were settled for \$46.6 million in cash and 556,455 shares of our common stock, all of which were treasury shares, resulting in a loss of \$0.6 million. We also received five requests during the first quarter to exchange 808 Notes which we will settle during the second quarter upon completion of the requisite holding period per the Note Indenture agreement.

The same criteria was also met allowing the Notes to be early exchanged during the second quarter of 2011. Subsequent to March 31, 2011, we have received an additional request to exchange five Notes which we will settle during the second quarter.

We maintain a revolving credit facility (the "Credit Facility") that allowed for an aggregate borrowing capacity of \$125.0 million at March 31, 2011. The Credit Facility also provided an option to increase the commitment under the

Credit Facility to \$200.0 million, if certain conditions are met. Subsequently, on April 19, 2011, the Credit Facility was amended increasing the aggregate borrowing capacity to \$300 million with an option to increase the commitment to \$350 million if certain conditions are met. The Credit Facility bears interest at variable rates from LIBOR plus 1.75% to a maximum of LIBOR plus 2.50%. Any outstanding balance under the Credit Facility is due in December 2015 when the Credit Facility matures. Interest payment terms are variable depending upon the specific type of borrowing under this facility. Our available capacity is reduced by outstanding letters of credit and performance guarantees and bonds totaling \$14.1 million at March 31, 2011 relating to certain projects in progress. Our available borrowing capacity under the Credit Facility at March 31, 2011 was \$110.9 million. As of March 31, 2011, we had \$17.8 million of outstanding letters of credit and performance guarantees and bonds in addition to those under the Credit Facility.

The terms of the Credit Facility require us to meet certain financial and operational covenants. We believe that we were in compliance with all such covenants at March 31, 2011. All of our material, wholly owned subsidiaries are guarantors or co-borrowers under the Credit Facility.

[Return to Index](#)

5. PENSIONS AND OTHER POSTRETIREMENT BENEFITS

We provide a noncontributory defined benefit pension plan covering substantially all of our Dutch employees (the "Dutch Plan") who were hired prior to 2007 based on years of service and final pay or career average pay, depending on when the employee began participating. Employees are immediately vested in the benefits earned. We fund the future obligations of the Dutch Plan by purchasing investment contracts from a large multi-national insurance company. The investment contracts are purchased annually and expire after five years at which time they are replaced with new contracts that are adjusted to include changes in the benefit obligation for the current year and redemption of the expired contracts. We determine the fair value of these plan assets with the assistance of an actuary using observable inputs (Level 2). We make annual premium payments to the insurance company, based on each employee's age and current salary.

The following table summarizes the components of net periodic pension cost under this plan for the three months ended March 31, 2011 and 2010 (in thousands):

	Three Months Ended March 31,	
	2011	2010
	(Unaudited)	
Service cost	\$ 335	\$ 323
Interest cost	432	376
Expected return on plan assets	(201)	(119)
Amortization of transition asset	(22)	(22)
Amortization of prior service cost	40	40
Amortization of net loss	84	94
Net periodic pension cost	\$ 668	\$ 692

During the three months ended March 31, 2011, we contributed approximately \$1.9 million, as determined by the insurance company, to fund the estimated 2011 premiums on investment contracts held by the Dutch Plan.

We have adopted a non-qualified deferred compensation plan that allows certain highly compensated employees to defer a portion of their salary, commission and bonus, as well as the amount of any reductions in their deferrals under the deferred compensation plan for employees in the United States (the "Deferred Compensation Plan"), due to certain limitations imposed by the U.S. Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"). The Deferred Compensation Plan also provides for employer contributions to be made on behalf of participants equal in amount to certain forfeitures of, and/or reductions in, employer contributions that participants could have received under the 401(k) Plan in the absence of certain limitations imposed by the Internal Revenue Code. Employer contributions to the Deferred Compensation Plan vest ratably over a period of five years. Contributions to the plan are invested in equity and other investment fund assets, and carried on the balance sheet at fair value. The benefits under these contracts are fully vested and payment of benefits generally commences as of the last day of the month following the termination of services except that the payment of benefits for select executives generally commences on the first working day following a six month waiting period following the date of termination.

On a recurring basis, we use the market approach to value certain assets and liabilities at fair value at quoted prices in an active market (Level 1) and certain assets and liabilities using significant other observable inputs (Level 2). We do not have any assets or liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3). Gains and losses related to the fair value changes in the deferred compensation assets and liabilities are recorded in General and Administrative Expenses in the Consolidated Statements of Operations. The following table

summarizes the fair value balances (in thousands):

(Unaudited)	Fair Value Measurement at March 31, 2011			
	Total	Level 1	Level 2	Level 3
Assets:				
Deferred compensation plan trust assets	\$ 9,806	\$ -	\$ 9,806	\$ -
Liabilities:				
Deferred compensation plan	\$ 14,440	\$ 2,618	\$ 11,822	\$ -

[Return to Index](#)

	Total	Level 1	Level 2	Level 3
Assets:				
Deferred compensation plan trust assets	\$ 8,802	\$ -	\$ 8,802	\$ -
Liabilities:				
Deferred compensation plan	\$ 13,063	\$ 2,275	\$ 10,788	\$ -

6. COMMITMENTS AND CONTINGENCIES

We have been and may from time to time be named as a defendant in legal actions that arise in the ordinary course of business. These include, but are not limited to, employment-related claims and contractual disputes or claims for personal injury or property damage which occur in connection with the provision of our products and services.

Management does not currently believe that any of our pending contractual, employment-related, personal injury or property damage claims and disputes will have a material effect on our future results of operations, financial position or cash flow.

7. EQUITY

During the three months ended March 31, 2011, we repurchased 550,765 of our common shares for \$49.8 million. Included in this total were rights to 6,271 shares valued at \$0.6 million that were surrendered to us pursuant to the terms of a stock-based compensation plan in consideration of the participants' tax burdens that may result from the issuance of common shares under that plan. Such common shares, unless cancelled, may be reissued for a variety of purposes such as future acquisitions, employee stock awards, exchange of the Notes, or settlement of warrants.

In February 2011, we paid a quarterly dividend of \$0.25 per share of common stock. In addition, on April 18, 2011, we declared a quarterly dividend of \$0.25 per share of common stock for shareholders of record on April 28, 2011 and payable on May 27, 2011.

The following table summarizes our changes in equity for the three months ended March 31, 2011 (in thousands):

(Unaudited)	Additional		Accumulated		Non-Controlling Interest	Total Equity
	Common Shares	Paid-In Capital	Retained Earnings	Other Comprehensive Income (Loss)

Transition asset	308	324
Unrecognized net actuarial loss	(5,616)	(5,678)
Total accumulated other comprehensive income (loss)	\$ (6,131)	\$ (6,207)

8. EARNINGS PER SHARE

We compute basic earnings per common share by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per common and potential common shares include additional shares in the weighted average share calculations associated with the incremental effect of dilutive employee stock options, restricted stock awards and contingently issuable shares, as determined using the treasury stock method. The following table summarizes the calculation of weighted average common shares outstanding used in the computation of diluted earnings per share (in thousands):

	Three Months Ended March 31,	
	2011	2010
	(Unaudited)	
Weighted average basic common shares outstanding	45,225	44,836
Effect of dilutive securities:		
Stock options	27	58
Contingent shares	57	29
Restricted stock and other	318	524
Senior exchangeable notes	1,257	1,345
Warrants	2,257	28

Edgar Filing: CORE LABORATORIES N V - Form 10-Q

Weighted average diluted common and potential common shares outstanding	49,141	46,820
--	--------	--------

In 2006, we sold warrants on our common shares, which have an exercise price of \$61.42 per share, and will settle in January 2012. The warrant agreement calls for the net value of these warrants to be settled with Core Laboratories N.V. common shares. Included in the table above are 2,257,000 and 28,000 shares which were added to the share count for the three months ended March 31, 2011 and 2010, respectively, because the average share price exceeded the strike price of the warrants. These shares were included in calculating the impact to our dilutive earnings per share for the three months ended March 31, 2011 and 2010.

9. OTHER (INCOME), NET

The components of other (income) expense, net, were as follows (in thousands):

	Three Months Ended March 31,	
	2011	2010
	(Unaudited)	
(Gain) loss on sale of assets	\$ (63)	\$ (31)
Foreign exchange (gain) loss	(512)	(91)
Interest income	(55)	(12)
Rents and royalties	(451)	(473)
Gain on insurance recovery	(710)	-
Other, net	(80)	(191)
Total other (income), net	\$ (1,871)	\$ (798)

During the third quarter of 2010, an office and laboratory facility was damaged by fire, resulting in the loss of the laboratory portion of the building, as well as some of the laboratory equipment. The final settlement was reached in the first quarter of 2011, which resulted in a gain of \$0.7 million.

Foreign exchange (gains) losses by currency are summarized in the following table (in thousands):

	Three Months Ended March 31,	
	2011	2010
	(Unaudited)	
British Pound	\$ (91)	\$ 258
Canadian Dollar	(419)	(385)
Euro	(66)	(30)
Mexican Peso	106	108
Russian Ruble	(195)	54
Other currencies, net	153	(96)
Total (gain)	\$ (512)	\$ (91)

10. INCOME TAX EXPENSE

The effective tax rates for the three months ended March 31, 2011 and 2010 were 14.0% and 31.8%, respectively. Included in income tax expense is the reversal in the quarter ended March 31, 2011 of \$10.4 million in tax liabilities provided over the period 2007-2010 as a result of recently concluded audits of prior year returns. The liability reversal reflects the impact of positions sustained in certain audits.

11. SEGMENT REPORTING

We operate our business in three reportable segments: (1) Reservoir Description, (2) Production Enhancement and (3) Reservoir Management. These business segments provide different services and utilize different technologies.

Reservoir Description: Encompasses the characterization of petroleum reservoir rock, fluid and gas samples. We provide analytical and field services to characterize properties of crude oil and petroleum products to the oil and gas industry.

- * Production Enhancement: Includes products and services relating to reservoir well completions, perforations, stimulations and production. We provide integrated services to evaluate the effectiveness of well completions and to develop solutions aimed at increasing the effectiveness of enhanced oil recovery projects.
- * Reservoir Management: Combines and integrates information from reservoir description and production enhancement services to increase production and improve recovery of oil and gas from our clients' reservoirs.

[Return to Index](#)

Results for these business segments are presented below. We use the same accounting policies to prepare our business segment results as are used to prepare our Consolidated Financial Statements. We evaluate performance based on income or loss before income tax, interest and other non-operating income (expense). Summarized financial information concerning our segments is shown in the following table (in thousands):

(Unaudited) Three Months Ended March 31, 2011	Reservoir Description	Production Enhancement	Reservoir Management	Corporate & Other 1	Consolidated
Revenues from unaffiliated customers	\$ 107,621	\$ 82,098	\$ 17,014	\$ -	\$ 206,733
Inter-segment revenues	369	308	359	(1,036)	-
Segment operating income	26,438	23,262	6,664	135	56,499
Total assets	271,875	201,970	24,967	98,462	597,274
Capital expenditures	3,303	804	107	165	4,379
Depreciation and amortization	3,482	1,639	180	530	5,831
Three Months Ended March 31, 2010					
Revenues from unaffiliated customers	\$ 104,093	\$ 68,844	\$ 15,400	\$ -	\$ 188,337
Inter-segment revenues	300	294	288	(882)	-
Segment operating income (loss)	25,084	20,943	5,620	(234)	51,413
Total assets	257,184	182,943	18,216	155,807	614,150
Capital expenditures	5,329	672	38	116	6,155
Depreciation and amortization	3,507	1,623	158	466	5,754

(1) "Corporate & Other" represents those items that are not directly related to a particular segment and eliminations.

12. CONDENSED CONSOLIDATING FINANCIAL INFORMATION

Core Laboratories N.V. has fully and unconditionally guaranteed all of the Notes issued by Core Laboratories LP in 2006. Core Laboratories LP is a wholly owned subsidiary of Core Laboratories N.V.

The following condensed consolidating financial information is included so that separate financial statements of Core Laboratories LP are not required to be filed with the U.S. Securities and Exchange Commission (the "SEC"). The condensed consolidating financial statements present investments in both consolidated and unconsolidated affiliates using the equity method of accounting.

The following condensed consolidating financial information presents: balance sheets as of March 31, 2011 and December 31, 2010, statements of operations for each of the three months ended March 31, 2011 and 2010 and the statements of cash flows for each of the three months ended March 31, 2011 and 2010 of (a) Core Laboratories N.V., parent/guarantor, (b) Core Laboratories LP, issuer of public debt securities guaranteed by Core Laboratories N.V., (c) the non-guarantor subsidiaries, (d) consolidating adjustments necessary to consolidate Core Laboratories N.V. and its subsidiaries and (e) Core Laboratories N.V. on a consolidated basis.

13. SUBSEQUENT EVENTS

On April 19 2011, Core Laboratories N.V. and Core Laboratories LP amended its Fifth Amended and Restated Credit Agreement (henceforth referred to as the “Amended Credit Agreement”) with various financial institutions which are parties to the Amended Credit Agreement (collectively, the “Lenders”), and Bank of America, N.A. as administrative agent for the Lenders and as a letter of credit issuing bank.

The Amended Credit Agreement primarily includes the following changes:

- Increases the aggregate borrowing commitment under the existing credit facility from \$125 million to \$300 million;
- In addition, the Amended Credit Agreement provides an option to increase the commitment under the credit facility to \$350 million, if certain conditions are met.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion summarizes the financial position of Core Laboratories N.V. and its subsidiaries as of March 31, 2011 and should be read in conjunction with (i) the unaudited consolidated interim financial statements and notes thereto included elsewhere in this Quarterly Report on Form 10-Q and (ii) the consolidated financial statements and accompanying notes to our Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

General

Core Laboratories N.V. is a Netherlands limited liability company. It was established in 1936 and is one of the world's leading providers of proprietary and patented reservoir description, production enhancement and reservoir management products and services to the oil and gas industry. These products and services can enable our clients to improve reservoir performance and increase oil and gas recovery from their producing fields. Core Laboratories N.V. has over 70 offices in more than 50 countries and employs approximately 5,000 people worldwide.

References to "Core Lab", "we", "our" and similar phrases are used throughout this Quarterly Report on Form 10-Q and relate collectively to Core Laboratories N.V. and its consolidated affiliates.

Our business units have been aggregated into three complementary segments, which provide products and services for improving reservoir performance and increasing oil and gas recovery from new and existing fields.

- * **Reservoir Description:** Encompasses the characterization of petroleum reservoir rock, fluid and gas samples. We provide analytical and field services to characterize properties of crude oil and petroleum products to the oil and gas industry.
- * **Production Enhancement:** Includes products and services relating to reservoir well completions, perforations, stimulations and production. We provide integrated services to evaluate the effectiveness of well completions and to develop solutions aimed at increasing the effectiveness of enhanced oil recovery projects.
- * **Reservoir Management:** Combines and integrates information from reservoir description and production enhancement services to increase production and improve recovery of oil and gas from our clients' reservoirs.

Cautionary Statement Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Certain statements contained in this Management's Discussion and Analysis of Financial Condition and Results of Operations section, including those under the headings "Outlook" and "Liquidity and Capital Resources", and in other parts of this Form 10-Q, are forward-looking. In addition, from time to time, we may publish forward-looking statements relating to such matters as anticipated financial performance, business prospects, technological developments, new products, research and development activities and similar matters. Forward-looking statements can be identified by the use of forward-looking terminology such as "may", "will", "believe", "expect", "anticipate", "estimate", "continue", or other similar words, including statements as to the intent, belief, or current expectations of our directors, officers, and management with respect to our future operations, performance, or positions or which contain other forward-looking

information. These forward-looking statements are based on our current expectations and beliefs concerning future developments and their potential effect on us. While management believes that these forward-looking statements are reasonable as and when made, no assurances can be given that the future results indicated, whether expressed or implied, will be achieved. Our actual results may differ significantly from the results discussed in the forward-looking statements. While we believe that these statements are and will be accurate, a variety of factors could cause our actual results and experience to differ materially from the anticipated results or other expectations expressed in our statements. Such factors include, but are not limited to, the risks and uncertainties summarized below:

[Return to Index](#)

- general and economic business conditions;
- market prices of oil and gas and expectations about future prices;
- cost of producing oil and natural gas;
- the level of drilling and production activity;
- mergers, consolidations and downsizing among our clients;
- coordination by OPEC;
- the impact of commodity prices on the expenditure levels of our clients;
- financial condition of our client base and their ability to fund capital expenditures;
- the physical effects of climatic change, including adverse weather or geologic/geophysical conditions;
- the adoption of legal requirements or taxation relating to climate change that lower the demand for petroleum-based fuels;
- civil unrest or political uncertainty in oil producing or consuming countries;
- level of consumption of oil, gas and petrochemicals by consumers;
- changes in existing laws, regulations, or other governmental actions;
- the business opportunities (or lack thereof) that may be presented to and pursued by us; and
- availability of services and materials for our clients to grow their capital expenditures.

Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in the forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. For a more detailed discussion of some of the foregoing risks and uncertainties, see "Item 1A - Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, as well as the other reports filed by us with the Securities and Exchange Commission ("SEC").

Outlook

We continue our efforts to expand our market presence by opening or expanding facilities in strategic areas and realizing synergies within our business lines. We believe our market presence provides us a unique opportunity to service clients who have global operations in addition to the national oil companies.

We have established internal earnings targets that are based on market conditions existing at the time our targets were established. Based on recent activity levels, we believe that the current level of activities, workflows, and operating margins both outside North America and within North America will grow moderately during 2011.

Results of Operations

Our results of operations as a percentage of applicable revenue were as follows (in thousands):

Operating Results for the Three Months Ended March 31, 2011 Compared to the Three Months Ended March 31, 2010 (unaudited)

Service Revenue

Service revenue increased to \$153.1 million for the first quarter of 2011, up 7% when compared to \$143.4 million for the first quarter of 2010. The increase in service revenue was due, in part, to the increased demand for reservoir rock studies, reservoir fluids phase-behavior studies, and for crude oil testing, inspection, distillation, assay, fractionation and characterization projects worldwide. Our large scale core analyses and reservoir fluid projects combined with our fluid and derived products inspection, calibration and assay work continue to provide meaningful revenue streams in the Middle East, Asia-Pacific and the southern-Atlantic margins off the coasts of West Africa and Brazil. Activity in North American shale plays, especially the liquid-rich plays, has also led to growth in reservoir characterization projects.

Product Sales Revenue

Revenue associated with product sales increased to \$53.6 million for the first quarter of 2011, up 19 % from \$44 .9 million for the first quarter of 2010. The increase in revenue was driven by the acceptance of and demand for our specialized completion products introduced over the last three years which has led to increased market share in North American natural gas and oil shale reservoirs and has increased market penetration in the Middle East, West Africa, and Asia-Pacific perforating markets. These specialized optimizing technologies are focused on high-end well completion and stimulation programs mainly in the Haynesville, Marcellus, Montney and Eagle Ford shale plays and in multi-stage completions in the Bakken, Niobrara and Eagle Ford oil-shale plays. We are also providing high margin completion and recompletion technologies and services to be used in reworking major, giant, and super-giant fields in southern Iraq.

Cost of Services

Cost of services expressed as a percentage of service revenue was 66% for the quarter ended March 31, 2011, unchanged from the same period in 2010.

[Return to Index](#)

Cost of Product Sales

Cost of sales expressed as a percentage of product sales revenue was 67% for the quarter ended March 31, 2011, unchanged from the same period in 2010.

General and Administrative Expenses

General and administrative expenses totaled \$9.5 million for the first quarter of 2011, up from the \$6.4 million incurred in the first quarter of 2010, but up only slightly from \$9.0 million in the previous quarter. The increase in general and administrative expenses was due to compensation related expenses.

Depreciation and Amortization Expense

Depreciation and amortization expense was \$5.8 million for the first quarter of 2011, unchanged from the first quarter of 2010.

Other (Income), Net

Other (income) expense, net consisted of the following for the quarter ended March 31, 2011 and 2010 (in thousands):

	Three Months Ended March 31,	
	2011	2010
	(Unaudited)	
(Gain) on sale of assets	\$ (63)	\$ (31)
Foreign exchange (gain)	(512)	(91)
Interest income	(55)	(12)
Rents and royalties	(451)	(473)
Gain on insurance recovery	(710)	-
Other, net	(80)	(191)
Total other (income), net	\$ (1,871)	\$ (798)

During the third quarter of 2010, an office and laboratory facility was damaged by fire, resulting in the loss of the laboratory portion of the building, as well as some of the laboratory equipment. The final settlement was reached in the first quarter of 2011, which resulted in a gain of \$0.7 million.

Foreign exchange (gains) losses by currency are summarized in the following table (in thousands):

	Three Months Ended March 31,	
	2011	2010
	(Unaudited)	
British Pound	\$ (91)	\$ 258
Canadian Dollar	(419)	(385)
Euro	(66)	(30)
Mexican Peso	106	108
Russian Ruble	(195)	54

Other currencies, net	153	(96)
Total (gain)	\$ (512)	\$ (91)

Loss on Exchange of Senior Exchangeable Notes

Under the terms of the Notes, defined criteria was met which allowed the Notes to be early exchanged during the first quarter of 2011, and as a result the equity component of the Notes at March 31, 2011 was classified as temporary equity. This balance combined with the debt amount reflects the amount that could result in cash settlement upon exchange. We received ten requests to exchange 46,568 Notes during the first quarter of 2011 which were settled for \$46.6 million in cash and 556,455 shares of our common stock, all of which were treasury shares, resulting in a loss of \$0.6 million. We also received five requests during the first quarter to exchange 808 Notes which we will settle during the second quarter upon completion of the requisite holding period per the Note Indenture agreement.

[Return to Index](#)

The same criteria was also met allowing the Notes to be early exchanged during the second quarter of 2011. Subsequent to March 31, 2011, we have received an additional request to exchange five Notes which we will settle during the second quarter.

Interest Expense

Interest expense for the three months ended March 31, 2011 and 2010 was \$2.4 million and \$4.1 million, respectively, which included \$2.2 million and \$3.8 million, respectively, of non-cash interest expense due to the amortization of the discount on the Notes. As 128,819 of our \$1,000 principal amount Notes were exchanged between March 31, 2010 and March 31, 2011, the associated discount was moved to equity resulting in a lower amount of amortization to interest expense.

Income Tax Expense

The effective tax rates for the three months ended March 31, 2011 and 2010 were 14.0% and 31.8%, respectively. Included in income tax expense is the reversal in the quarter ended March 31, 2011 of \$10.4 million in tax liabilities provided over the period 2007-2010 as a result of recently concluded audits of prior year returns. The liability reversal reflects the impact of positions sustained in certain audits.

Segment Analysis

Our operations are managed primarily in three complementary segments - Reservoir Description, Production Enhancement and Reservoir Management. The following tables summarize our results by operating segment for the three months ended March 31, 2011 and 2010 (in thousands):

	Three Months Ended		% Change	
	March 31,	2010	2011/2010	
	2011			
	(Unaudited)			
Revenues:				
R e s e r v o i r				
Description	\$ 107,621	\$ 104,093	3	%
P r o d u c t i o n				
Enhancement	82,098	68,844	19	%
R e s e r v o i r				
Management	17,014	15,400	10	%
Consolidated	\$ 206,733	\$ 188,337	10	%
Operating income				
(loss):				
R e s e r v o i r				
Description	\$ 26,438	\$ 25,084	5	%
P r o d u c t i o n				
Enhancement	23,262	20,943	11	%
R e s e r v o i r				
Management	6,664	5,620	19	%
Corporate and Other ¹	135	(234)	NM	
Consolidated	\$ 56,499	\$ 51,413	10	%

(1) "Corporate and Other" represents those items that are not directly related to a particular segment

"NM" means not meaningful

Reservoir Description

Revenue from the Reservoir Description segment increased 3%, or \$3.5 million, to \$107.6 million in the first quarter of 2011, compared to \$104.1 million in the first quarter of 2010. Although certain North African and Middle Eastern countries have been affected by political instability, this segment's operations continued to benefit from large-scale core analyses and reservoir fluids characterization studies from Asia-Pacific areas, offshore West Africa and the Middle East, including Iraq, Kuwait, and the United Arab Emirates. This segment continued to realize increased demand for reservoir fluids phase-behavior studies, and for crude oil testing, inspection, distillation, assay, fractionation and characterization projects worldwide.

Operating income in the first quarter of 2011 increased by 5%, or \$1.3 million, to \$26.4 million compared to \$25.1 million for the first quarter of 2010. Operating margin for the quarter ended March 31, 2011 was 25%, compared to 24% for the same period in 2010. This segment continues to focus on emphasizing higher value, and thus higher margin services on internationally-based development and production-related crude oil projects in addition to de-emphasizing the more cyclical exploration-related projects.

[Return to Index](#)

Production Enhancement

Revenue from the Production Enhancement segment increased by 19%, or \$13.3 million, to \$82.1 million in the first quarter of 2011 compared to \$68.8 million in the first quarter of 2010. The revenue increase was due to the increased market share of our perforating charges and gun systems particularly in markets relating to horizontal well developments of gas-shale and oil-shale reservoirs, as well as the second phase of a multi-phase field-flood monitoring project in offshore West Africa.

Operating income in the first quarter of 2011 increased by 11%, or \$2.4 million, to \$23.3 million from \$20.9 million for the first quarter of 2010. Operating margins decreased to 28% in the first quarter of 2011 compared to 30% for the same period in 2010. The increase in operating income was primarily driven by our continued market penetration of higher-revenue services including our proprietary and patented diagnostic technologies, such as SpectraChem® Plus+, SpectraScan®, ZeroWash®, and our HERO™ line of perforating charges and gun systems and our new Horizontal Time-Delayed Ballistics Actuated Sequential Transfer (HTD Blast™) perforating system which is used for the perforation of extended-reach horizontal completions. This segment also began providing completion and recompletion technologies and services to be used in the reworking of major, giant, and super-giant fields in southern Iraq.

Reservoir Management

Revenue from the Reservoir Management segment increased by 10% in the first quarter of 2011 compared to the first quarter of 2010. The increase in revenue was due to ongoing interest in several of our existing multi-client reservoir studies including studies in the Montney Shale in northeastern British Columbia and northern Alberta, and the Eagle Ford Shale in south Texas, along with the continued participation in our North American Gas Shale Study and the increased participation in our Worldwide Oil and Natural Gas Shale Reservoir Study, which now contains shale cores from countries spanning the globe. Increased revenue was also provided by our proprietary studies which parallel our joint-industry projects, including studies of offshore Ivory Coast, Ghana and Nigeria, a gas-shale reconnaissance project in Indonesia and detailed proprietary reservoir studies for several companies active in the Wolfberry play in West Texas.

Operating income in the first quarter of 2011 increased 19% to \$6.7 million from \$5.6 million for the first quarter of 2010. The increase in operating income was primarily related to growth in our consortium projects and the delivery of completed consortium projects.

Liquidity and Capital Resources

General

We have historically financed our activities through cash on hand, cash flows from operations, bank credit facilities, or the issuance of debt and equity financing.

We utilize the non-GAAP financial measure of free cash flow to evaluate our cash flows and results of operations. Free cash flow is defined as net cash provided by operating activities (which is the most directly comparable GAAP measure) less capital expenditures. Management believes that free cash flow provides useful information to investors regarding the cash that was available in the period that was in excess of our needs to fund our capital expenditures and operating activities. Free cash flow is not a measure of operating performance under GAAP, and should not be considered in isolation nor construed as an alternative to operating profit, net income (loss) or cash flows from operating, investing or financing activities, each as determined in accordance with GAAP. Free cash flow does not represent residual cash available for distribution because we may have other non-discretionary expenditures

that are not deducted from the measure. Moreover, since free cash flow is not a measure determined in accordance with GAAP and thus is susceptible to varying interpretations and calculations, free cash flow as presented, may not be comparable to similarly titled measures presented by other companies. The following table reconciles this non-GAAP financial measure to the most directly comparable measure calculated and presented in accordance with GAAP for the three months ended March 31, 2011 and 2010 (in thousands):

	Three Months Ended		% Change	
	March 31,		2011/2010	
	2011	2010		
Free cash flow calculation:	(Unaudited)			
Net cash provided by operating activities	\$ 58,022	\$ 62,366	(7	%)
Less: capital expenditures	4,379	6,155	(29	%)
Free cash flow	\$ 53,643	\$ 56,211	(5	%)

[Return to Index](#)

The decrease in free cash flow in 2011 compared to 2010 was primarily attributable to a build-up of inventories as a result of higher demand in 2011 partially offset by an increase in net income and a decrease in capital expenditures.

Cash Flows

The following table summarizes cash flows for the three months ended March 31, 2011 and 2010 (in thousands):

	Three Months Ended March 31,		% Change	
	2011	2010	2011/2010	
Cash provided by/(used in):	(Unaudited)			
Operating activities	\$ 58,022	\$ 62,366	(7	%)
Investing activities	(4,624)	(15,614)	(70	%)
Financing activities	(107,267)	(89,029)	20	%
Net change in cash and cash equivalents	\$ (53,869)	\$ (42,277)	27	%

The decrease in cash flows provided by operating activities was primarily attributable to a build-up of inventories as a result of higher demand in 2011.

Cash flows used in investing activities were higher during the first quarter of 2010 due to an acquisition for \$9.0 million.

The increase in cash flows used in financing activities primarily relates to the early exchange of the Notes. We received 10 requests during the first quarter of 2011 to exchange 46,568 of our \$1,000 face value Notes which were settled during the first quarter of 2011 for \$46.6 million in cash and 556,455 shares of our common stock, all of which were treasury shares. In the first quarter of 2011, our Board of Directors announced an increase of our quarterly dividend resulting in an increase of \$8.6 million in dividends paid during the first quarter of 2011 over the same period of 2010. This was partially offset by a decrease in the number of shares repurchased under our common share repurchase program. In the first three months of 2011, we repurchased 550,765 shares for an aggregate price of \$49.8 million compared to 703,902 shares for an aggregate price of \$86.5 million during the same period in 2010.

Credit Facilities and Available Future Liquidity

In 2006, Core Laboratories LP, a wholly owned subsidiary of Core Laboratories N.V., issued \$300 million aggregate principal amount of Senior Exchangeable Notes which are fully and unconditionally guaranteed by Core Laboratories N.V. and mature on October 31, 2011.

Under the terms of the Notes, defined criteria was met which allowed the Notes to be early exchanged during the first quarter of 2011, and as a result the equity component of the Notes at March 31, 2011 was classified as temporary equity. This balance combined with the debt amount reflects the amount that could result in cash settlement upon exchange. We received 10 requests to exchange 46,568 Notes during the first quarter of 2011 which were settled for \$46.6 million in cash and 556,455 shares of our common stock, all of which were treasury shares, resulting in a loss of \$0.6 million. We also received five requests during the first quarter to exchange 808 Notes which we will settle during the second quarter upon completion of the requisite holding period per the Note Indenture agreement.

The same criteria was also met allowing the Notes to be early exchanged during the second quarter of 2011. Subsequent to March 31, 2011, we have received an additional request to exchange five Notes which we will settle during the second quarter.

We maintain a revolving credit facility (the "Credit Facility") that allowed for an aggregate borrowing capacity of \$125.0 million at March 31, 2011. The Credit Facility also provided an option to increase the commitment under the Credit Facility to \$200.0 million, if certain conditions are met. Subsequently, on April 19, 2011, the Credit Facility was amended increasing the aggregate borrowing capacity to \$300 million with an option to increase the commitment to \$350 million if certain conditions are met. The Credit Facility bears interest at variable rates from LIBOR plus 1.75% to a maximum of LIBOR plus 2.50%. Any outstanding balance under the Credit Facility is due in December 2015 when the Credit Facility matures. Interest payment terms are variable depending upon the specific type of borrowing under this facility. Our available capacity is reduced by outstanding letters of credit and performance guarantees and bonds totaling \$14.1 million at March 31, 2011 relating to certain projects in progress. Our available borrowing capacity under the Credit Facility at March 31, 2011 was \$110.9 million. As of March 31, 2011, we had \$17.8 million of outstanding letters of credit and performance guarantees and bonds in addition to those under the Credit Facility.

[Return to Index](#)

The terms of the Credit Facility require us to meet certain financial and operational covenants. We believe that we were in compliance with all such covenants at March 31, 2011. All of our material, wholly owned subsidiaries are guarantors or co-borrowers under the Credit Facility.

Our ability to maintain and grow our operating income and cash flow depends, to a large extent, on continued investing activities. We are a Netherlands holding company and substantially all of our operations are conducted through subsidiaries. Consequently, our cash flow depends upon the ability of our subsidiaries to pay cash dividends or otherwise distribute or advance funds to us. We believe our future cash flows from operations, supplemented by our borrowing capacity and issuances of additional equity, should be sufficient to fund our debt requirements, capital expenditures, working capital, dividend payments and future acquisitions.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in market risk from the information provided in Item 7A. "Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

Item 4. Controls and Procedures

A complete discussion of our controls and procedures is included in our Annual Report on Form 10-K for the year ended December 31, 2010.

Disclosure Controls and Procedures

Our management, under the supervision of and with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this report. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in our reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of March 31, 2011 at the reasonable assurance level.

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. Further, the design of disclosure controls and internal control over financial reporting must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Changes in Internal Control Over Financial Reporting

There have been no changes in our system of internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, during our fiscal quarter ended March 31, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

CORE LABORATORIES N.V.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

See Note 6 of Consolidated Interim Financial Statements in Part I, Item 1.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the quarter ended March 31, 2011, we issued 556,445 shares of our common stock upon exchange by holders of \$46.6 million aggregate principal amount of our Senior Exchangeable Notes. Such shares were issued in transactions exempt from registration under Section 3(a)(9) of the Securities Act of 1933, as amended.

The following table provides information about purchases of equity securities that are registered by us pursuant to Section 12 of the Exchange Act during the quarter ended March 31, 2011:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of a Publicly Announced Program	Maximum Number of Shares That May Yet be Purchased Under the Program (3)
January 1-31, 2011	378,545	\$ 88.12	378,545	8,136,146
February 1-28, 2011 (1)	76,285	91.53	76,285	8,061,461
March 1-31, 2011 (2)	95,935	98.66	95,935	8,568,881
Total	550,765	\$ 90.43	550,765	

(1) Contains 336 shares valued at approximately \$34 thousand, or \$99.77 per share, surrendered to us by participants in a stock-based compensation plan to settle any personal tax liabilities which may result from the award in February 2011.

(2) Contains 5,935 shares valued at approximately \$0.6 million, or \$100.29 per share, surrendered to us by participants in a stock-based compensation plan to settle any personal tax liabilities which may result from the award in March 2011.

(3) In connection with our initial public offering in September 1995, our shareholders authorized our Management Board to repurchase up to 10% of our issued share capital, the maximum allowed under Dutch law at the time, for a period of 18 months. This authorization was renewed at subsequent annual or special shareholder meetings. At our annual shareholders' meeting on June 10, 2010, following a change in Dutch law that permitted us to repurchase up to 50% of our issued share capital in open market purchases, subject to shareholder approval, our shareholders authorized an extension through December 10, 2011 to purchase up to 25.6% of our issued share capital, consisting of 10% of our issued shares and an additional 15.6% of our issued shares to fulfill obligations relating to the Notes or warrants. The repurchase of shares in the open market is at the discretion of management pursuant to this shareholder authorization.

Item 3. Other Information

The three named executives, Messrs. Demshur, Bergmark and Davis, have previously entered into Employment Agreements restated as of December 31, 2007. As previously disclosed, on March 1, 2010, those Employment Agreements were amended to increase the maximum bonus payable to Mr. Demshur from 150% to 175% and for Messrs. Bergmark and Davis from 100% to 125%. On April 21, 2011, the Company and the three executives executed a second amendment to the Employment Agreements increasing the maximum bonus payable to Mr. Demshur from 175% to 200% and for Messrs. Bergmark and Davis from 125% to 150%. The 2011 amendments are filed herewith.
