NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands of dollars except per share amounts)

1.

Interim Financial Information

The unaudited consolidated financial information included in this report has been prepared in conformity with the accounting principles and practices reflected in the consolidated financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2002 filed with the Securities and Exchange Commission under the Securities Exchange Act of 1934. This report should be read in conjunction with the aforementioned Form 10-K. In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of this information have been made. The results of operations for the interim periods are not necessarily indicative of results for a full year.

2.

Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share:

Diluted earnings per common share	\$3.33	\$1.38	\$5.62	\$2.31

3.

Shareholders Equity

Pro forma information regarding net income and earnings per share is required by the Financial Accounting Standards Board (FASB) Statements of Financial Accounting Standards No. (SFAS) 123, as amended by SFAS 148, *Accounting for Stock-Based Compensation Transition and Disclosure*, and has been determined as if the Company had accounted for its employee stock options under the fair value method of that statement.

The following pro forma information shows the Company's net income and earnings per basic and diluted share:

	Three Months Ended		Six Months Ended	
	June 30, 2003	2002	June 30, 2003	2002

4.

Commitments and Contingencies

For additional information, see Pending Legal Proceedings on pages F-31, F-32 and F-33 and Legal Proceedings on pages 15, 16 and 17 of the Form 10-K for the fiscal year ended December 31, 2002, and Legal Proceedings on page 15 of this Form 10-Q.

5.

Exit and Termination Costs

On June 1, 2002, the Company entered into a joint venture agreement with The First American Corporation and combined its real estate valuation operations. Under the terms of the agreement, the Company contributed its former Primis residential appraisal production division, which it acquired in 2000, to First American's eAppraiseIT subsidiary. In connection with the transaction, the Company exited the residential appraisal production business, which had been unprofitable, and recorded a second quarter charge of \$14,132 for exit, termination and other costs. This amount was

comprised of \$4,635 related to lease termination costs, \$2,209 related to employee severance costs and a \$7,288 write down to estimated net realizable value of assets determined not to be redeployable and other miscellaneous exit costs. Additionally, in the first quarter of 2002, the Company recorded \$3,190 of exit and termination costs related to the closing of certain offices and reduction in workforce of its real estate valuation operations. The original amount accrued was reduced by \$3,952 in the fourth quarter of 2002, and \$532 in the first and second quarters of 2003. These reductions were the result of the favorable settlement of real estate, rental and other obligations. Of the remaining accrual, \$10,256 had been paid as of June 30, 2003, leaving \$2,582 which the Company expects to be substantially paid by December 31, 2006.

6.

Variable Interest Entities

In January 2003, FASB issued Interpretation No. 46, *Consolidation of Variable Interest Entities, an interpretation of Accounting Research Bulletin No. 51* (the Interpretation). The Interpretation requires the consolidation of entities in which an enterprise absorbs a majority of the entity's expected losses, receives a majority of the entity's expected residual returns, or both, as a result of ownership, contractual or other financial interests in the entity. Currently, entities are generally consolidated by an enterprise when it has a controlling financial interest through ownership of a majority voting interest in the entity.

The Company is currently evaluating the effects of the issuance of the Interpretation on the accounting for its ownership interest in joint ventures, partnerships, tax advantaged investments and guaranties but does not expect the Interpretation to have a material effect on the financial statements.

Item 2.

Management's Discussion and Analysis of Financial

Condition and Results of Operations

Results of Operations

Operating Revenues

Operating revenues for the second quarter of 2003 were \$834.3 million compared to \$604.0 million in the second quarter of 2002, an increase of 38.1%. Direct revenues increased 50.4% and agency revenues increased 29.2% in the second quarter of 2003 compared to the same period in 2002. The direct revenue improvement reflected a continued increase in the second quarter of 2003 from the already high level of refinancing transactions experienced in the second quarter of 2002. The year over year increase in agency revenue is not as high as the increase in direct revenue due to the typical industry time lag in agents reporting business they have written.

Year to date operating revenues for the period ended June 30, 2003 increased 32.6% over the comparable period of 2002. The factors discussed under the quarterly discussion above also affected the first six months of 2003 compared to the same period of 2002, with direct revenues increasing 40.2% and agency revenues increasing 26.7%.

Direct orders opened in company offices totaled 453,500 and 827,500 in the second quarter and first half of 2003, respectively, compared to 240,200 and 477,800 in the comparable periods of 2002. Direct orders closed in company offices totaled 320,400 and 577,600 in the second quarter and first half of 2003 compared to 177,300 and 361,300 in the comparable periods of 2002. The improvement in 2003 compared to 2002 resulted from the favorable mortgage interest rate environment which strengthened residential refinancings.

Investment Income

Investment income reported for the first six months of 2003 and 2002 was \$26.4 million and \$25.8 million, respectively. The amount reported in 2003 reflects earnings on a larger average investment base offset by lower yields compared to 2002.

Operating Expenses

Operating expenses were \$752.2 million in the second quarter of 2003 compared to \$577.1 million in the second quarter of 2002. Operating expenses in the 2002 period included a one-time charge of \$14.1 million for exit and termination costs. This increase of \$175.1 million was primarily composed of \$85.3 million in agents' commissions resulting from the increase in agency revenue levels and an increase in effective commission rates from 79.2% to 80.2%. The provision for losses increased \$25.0 million. The increase was due to the increase in revenue and a higher provision rate in the second quarter of 2003. The higher provision rate resulted from a higher loss development pattern than had been anticipated for the 2000 and 2001 policy years. Salaries and employee benefits increased \$53.0

million and general, administrative and other increased \$26.0 million in the second quarter of 2003 over 2002. These increases were largely related to increased business volume in 2003 compared to 2002.

Operating expenses were \$1.4 billion in the first half of 2003 compared to \$1.1 billion in the first half 2002. Operating expenses in the 2002 period included one-time charges of \$17.3 million for exit and termination costs. This increase of \$285.0 million was composed primarily of an increase of \$146.8 million in agents' commissions. Salaries and employee benefits increased \$79.8 million, the provision for policy and contract claims increased \$37.2 million and general, administrative and other increased \$38.7 million in the second quarter of 2003 over 2002. The factors discussed under the quarterly discussion above also affected the first six months of 2003 compared to the same period in 2002.

Effective May 31, 2002, the Company entered into a joint venture with the First American Corporation, contributing its appraisal production division to the venture. In connection with this transaction, the Company recorded a one-time charge of \$14.1 million as discussed in footnote 5 of the Notes to Consolidated Financial Statements above.

Net Income

The Company recorded net income of \$62.0 million or \$3.33 per diluted share in the second quarter of 2003, compared to \$25.8 million or \$1.38 per diluted share in the second quarter of 2002. On a pretax basis, the 2002 quarter was negatively impacted by a \$14.1 million charge for exit and termination costs.

For the first six months of 2003 the Company recorded net income of \$104.0 million or \$5.62 per diluted share, compared to \$43.2 million or \$2.31 per diluted share recorded in the first six months of 2002. On a pretax basis, the 2002 period reflected \$17.3 million for exit and termination costs.

Liquidity and Capital Resources

Cash provided by operations in the six month periods ended June 30, 2003 and 2002 was \$165.0 million and \$74.2 million, respectively. As of June 30, 2003, the Company held cash and invested cash of \$290.8 million, fixed maturity securities of \$1.1 billion and equity investments of \$27.6 million.

In February 2003 the board of directors approved a program allocating \$40.0 million to repurchase up to 1.25 million shares or 7% of the Company's outstanding stock over the following twelve months. Through June 30, 2003, 62,000 shares at a cost of \$2.7 million had been repurchased.

On April 25, 2003, the Company entered into an agreement to purchase Orange County Bancorp and its wholly owned subsidiary, Centennial Bank, for \$27,600. The transaction, which is subject to regulatory approval, is anticipated to close in the fourth quarter of 2003.

In view of the historic ability of the Company to generate strong, positive cash flows and its strong cash position and relatively conservative capitalization structure, management believes that the Company will have sufficient liquidity and adequate capital resources to meet both its short- and long-term capital needs. In addition, the Company had \$114.5 million available under a credit facility which was unused at June 30, 2003.

Interest Rate Risk

The following table provides information about the Company's financial instruments that are sensitive to changes in interest rates. For investment securities, the table presents principal cash flows and related weighted interest rates by expected maturity dates. Actual cash flows could differ from the expected amounts.

	Interest Rate Sensitivity Principal Amount by Expected Maturity <u>Average Interest Rate</u> (dollars in thousands)							
	<u>2003</u>	<u>2004</u>	<u>2005</u>	<u>2006</u>	<u>2007</u>	2008 and <u>after</u>	<u>Total</u>	<u>Fair Value</u>

preferred stock:

The Company also has long-term debt of \$189.6 million bearing weighted average interest at 6.46% at June 30, 2003. A .25% change in the interest rate would affect income before income taxes by approximately \$0.5 million annually.

Forward-Looking and Cautionary Statements

Certain information contained in this Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934.

Among other things, these statements relate to the financial condition, results of operation and business of the Company. In addition, the Company and its representatives may from time to time make written or oral forward-looking statements, including statements contained in other filings with the Securities and Exchange Commission and in its reports to shareholders. These forward-looking statements are generally identified by

phrases such as “the Company expects,” “the Company believes” or words of similar import. These forward-looking statements involve certain risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Further, any such statement is specifically qualified in its entirety by the cautionary statements set forth in the following paragraph.

In connection with the title insurance industry in general, factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include the following: (i) the costs of producing title evidence are relatively high, whereas premium revenues are subject to regulatory and competitive restraints; (ii) real estate activity levels have historically been cyclical and are influenced by such factors as interest rates and the condition of the overall economy; (iii) the value of the Company’s investment portfolio is subject to fluctuation based on similar factors; (iv) the title insurance industry may be exposed to substantial claims by large classes of claimants and (v) the industry is regulated by state laws that require the maintenance of minimum levels of capital and surplus and that restrict the amount of dividends that may be paid by the Company’s insurance subsidiaries without prior regulatory approval.

The Company cautions that the foregoing list of important factors is not exclusive. The Company does not undertake to update any forward-looking statement that may be made from time to time by or on behalf of the Company.

Item 3.

Quantitative and Qualitative Disclosures

about Market Risk

The information required by this Item is set forth under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Interest Rate Risk” in Item 2 of this report.

Item 4.

Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to provide assurance that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods required by the Securities and Exchange Commission. As of the end of the period covered by this report, an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures was carried out under the supervision and with the participation of management, including the Company's Chief Executive Officer and Chief Financial Officer. Based on and as of the date of such evaluation, the aforementioned officers concluded that the Company's disclosure controls and procedures were effective. There have been no significant changes in the Company's internal controls or in other factors that could materially affect, or are reasonably likely to materially affect, internal controls subsequent to the date of their last evaluation.

PART II. OTHER INFORMATION

Item 1.

Legal Proceedings

With respect to the Attorney General Suit reported in the Company's Form 10-K for the year ended December 31, 2002, the verification process has been completed with no change in the amounts payable by the Company and its subsidiaries under the settlement agreement approved in the final judgment previously entered by the Sacramento Superior Court.

With respect to the Taylor Suit, also reported in the Company's Form 10-K for the year ended December 31, 2002, on May 23, 2003, the parties reached a settlement on materially the same terms as the settlement reached in the Attorney General Suit, but providing for additional cash payments and future discounts to customers and a cash payment of plaintiffs' attorneys' fees and costs. Management believes the additional amounts payable under the settlement reached in the Taylor Suit are not material. The parties are in the process of documenting the settlement, which will be subject to court approval.

The settlement of the Attorney General Suit provides, and the settlement of the Taylor Suit will provide, that they do not constitute an admission of liability or wrongdoing by the Company or any of its subsidiaries.
