The primary differences between Net Income as calculated under generally accepted accounting principles ("GAAP") and Cash Available For Distribution ("CAD") result from the timing of income and expense recognition and non-cash events. These differences between CAD and GAAP income include the treatment of loan origination fees, which for CAD purposes are recognized when received but for GAAP purposes are amortized over the life of the associated loan. In addition, there are differences related to non-cash gains and losses associated with bond valuations and sales, non-cash gains and losses associated with changes in market value of derivative financial instruments, amortization of goodwill and intangibles and capitalization of mortgage servicing rights, net of deferred taxes for GAAP purposes, which are not included in the calculation of CAD.

The common shares outstanding reported for Cash Available for Distribution are the actual shares outstanding at the end of the quarter. For GAAP, the weighted average shares outstanding during the period are reported for the basic net income per share calculation. The weighted average shares outstanding for diluted net income per share include the potential dilutive effect from the exercise of options, vesting of restricted shares, conversion of the preferred shares and provision for shares to be awarded under the Midland acquisition earn out provision.

VARIANCE ANALYSIS FOR CAD

3rd Quarter 2002 Compared to 3rd Quarter 2001:

Total income for the third quarter of 2002 increased \$2.4 million over the same period last year due primarily to the following changes: (1) a \$2.1 million increase in collections of interest on bonds, other bond-related investments, other notes and loans; (2) a \$1.3 million decrease in loan origination and brokerage fees due to a \$2.2 million decrease in syndication fees related to tax credit equity transactions (third quarter 2001 includes \$1.2 million in fees related to a tax credit re-syndication) offset by a \$0.9 million increase in origination fees; (3) a \$1.3 million increase in other income due to \$1.7 million in income on the CAPREIT investment offset by a \$0.4 million decrease in cancellation, late and other fees; and (4) a \$0.4 million increase in gain on sales.

Total expenses for the third quarter decreased \$0.1 million over the same period last year due primarily to the following changes: (1) a \$0.6 million decrease in professional fees due primarily to a \$0.4 million adjustment to reflect capitalization of legal expenses related to new securitization programs (these legal expenses had previously been expensed) and a \$0.2 million decrease in fees related to information systems initiatives, as compared with the prior-year period; (2) a \$0.3 million increase in other operating expenses due primarily to software hosting expenses that began in January 2002; (3) a \$0.8 million

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 8-K

increase in interest expense primarily associated with an increase in financing costs associated with on-balance sheet securitizations; and (4) a \$0.5 million decrease in income tax expense due to tax benefits derived from tax losses and deductions generated by the CAPREIT investment.

Year-to-Date 2002 Compared to Year-to-Date 2001:

Total income for the nine months ended September 30, 2002 increased \$9.7 million over the same period last year due primarily to the following changes: (1) a \$6.4 million increase in collections of interest on bonds, other bond-related investments, other notes and loans; (2) a \$0.5 million increase in loan origination and brokerage fees due to a \$3.3 million increase in origination fees offset by a \$2.8 million decrease in syndication fees related to tax credit equity transactions (year-to-date 2001 includes \$2.3 million in fees related to tax credit equity re-syndications); (3) a \$1.9 million increase in other income due to \$2.0 million in income from the CAPREIT investment, a \$0.7 million increase in asset management fees and advisory fees offset by a \$0.6 million decrease in cancellation, late and other fees; and (4) a \$0.5 million increase in gain on sales.

Total expenses for the nine months ended September 30, 2002 increased \$3.1 million over the same period last year due primarily to the following changes: (1) a \$1.2 million increase in salary and related benefits expense associated with 2001 new hires; (2) a \$0.6 million decrease in professional fees due primarily to a \$0.4 million adjustment to reflect capitalization of legal expenses related to new securitization programs (these legal expenses had previously been expensed) and a decrease in fees related to information systems initiatives, as compared with the prior-year period; (3) a \$1.0 million increase in other operating expenses primarily driven by deployment of accounting information systems and other upgrades in technology infrastructure; (4) a \$1.8 million increase in interest expense, primarily associated with an increase in financing costs associated with on-balance sheet securitizations; and (5) a \$0.2 million decrease in income tax expense due to tax benefits derived from tax losses and deductions generated by the CAPREIT investment.

Notes

- (1) For GAAP reporting, the Company records the non-cash change in fair value of its investment in interest rate swaps and other derivative financial instruments through net income. These non-cash gains and losses are not included in the Company's calculation of CAD.

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 8-K

- (2) For GAAP reporting, the Company accounts for its investment in the CAPREIT ventures on the equity accounting method. As a result, the Company reports its share of the income or losses from the underlying properties and assets in the CAPREIT ventures. The income from these ventures includes depreciation expense and changes in the fair value of investments in derivatives. For CAD reporting, the Company records the cash distributions it receives from the ventures as income.
- (3) For GAAP reporting, the Company recognizes non-cash gains and losses associated with the sale of assets or capitalization of mortgage servicing rights. The capitalized mortgage servicing rights are amortized into expense over the estimated life of the serviced loans. The non-cash gains and the associated amortization expense are not included in CAD.
- (4) Origination fees and certain other income amounts are recognized as income when received for CAD purposes, but for GAAP reporting these items are deferred and amortized into income over the life of the associated investment. This adjustment represents the net difference, for the relevant period, between fees taken into income when received for CAD and the amortization of fees recorded for GAAP.
- (5) For GAAP reporting, the Company records valuation allowances and other-than-temporary impairments on its investments in loans, bonds and other bond-related investments. Such non-cash charges do not affect the cash flow generated from the operation of the underlying properties, distributions to shareholders, or the tax-exempt status of the income of the financial obligation under the bonds. Therefore, these items are not included in the calculation of CAD.
- (6) For GAAP reporting, the Company's income tax expense contains both a current and a deferred component. Only the Company's current income tax expense is reflected in CAD.
