Item 9. Regulation FD Disclosure.

In response to a question at its conference call and Web Cast of October 15, 2002, Sandy Spring Bancorp, Inc. ("Bancorp") expressed comfort with the consensus earnings per share estimate of \$0.49 per share for the fourth quarter of 2002 and indicated that analysts' expectations for a 2003 earnings per share increase of approximately 10% were reasonable, based upon current information and expectations.

As stated at the conference call and web cast, such expressions and indications by Bancorp are "forward-looking statements," which involve risk and are subject to significant uncertainties because they are based upon or are affected by management's estimates and projections of future interest rates, loan volume, and other economic conditions and a variety of other matters. Because of these uncertainties, the actual future results may be materially different from the results indicated by these forward-looking statements. Bancorp assumes no duty to update these forward-looking statements in addition to its general disclosure obligations under applicable securities laws. In addition, Bancorp's past results do not necessarily indicate its future results. Current and potential investors are urged to consider these risks and uncertainties before making any investment decision.
