- (c) The accountant's statement or other exhibit required by Rule 12b-25(c) has been attached if applicable.

PART III -- NARRATIVE

State below in reasonable detail the reasons why Forms 10-K, 20-F, 11-K, 10-Q, N-SAR, or the transition report portion thereof, could not be filed within the prescribed time period.

Prestige Brands Holdings, Inc. (the "Company") was not able to file its Quarterly Report on Form 10-Q for the fiscal quarter ended September 30, 2005 ("Second Quarter 10-Q") by the prescribed due date. The Company intends to file the Second Quarter 10-Q as promptly as practicable, and expects to do so on or before the November 21, 2005 extended deadline.

As indicated in Item 4.02(a) of the Company's Current Report on Form 8-K filed today, November 15, 2005, (the "Restatement 8-K"), which Item 4.02(a) (together with that portion of Exhibit 99.1 of the Restatement 8-K entitled "Restatement of Prior Period Financial Statements") of the Restatement 8-K is hereby incorporated by reference, the Company disclosed that it would restate its financial statements for fiscal year 2003 through the first quarter of fiscal year 2006 and that its previously-filed financial statements for those periods should no longer be relied upon.

The internal review of accounting policies and practices that is referred to in the Restatement 8-K was completed during the latter portion of the week of November 7, 2005, during which time the Audit Committee of the Company's Board of Directors and management made their determinations with respect to the previously-filed financial statements. The Company's inability to file the Second Quarter 10-Q in a timely manner relates to the internal review and the restatement decision. As a result of these matters, which are detailed in the Restatement 8-K and related Exhibit 99.1, the Company has been unable to complete the financial statements and restated financial information that will be included in the Second Quarter 10-Q and, accordingly, could not complete and file the Second Quarter 10-Q within the prescribed time without unreasonable effort or expense. As indicated above, the Company expects to file the Second Quarter 10-Q on or before November 21, 2005.

The Company has determined that the restatements described above potentially resulted from material weaknesses in the Company's internal control over financial reporting. The Company is still assessing the internal control impact of the above adjustments on its evaluation of disclosure controls and

procedures. According to PCAOB Accounting Standard No. 2, An Audit Of Internal

Edgar Filing: Prestige Brands Holdings, Inc. - Form NT 10-Q

Control Over Financial Reporting Performed in Conjunction With an Audit of Financial Statements, a restatement of previously-issued financial statements is at least a significant deficiency and a strong indicator that a material weakness exists with respect to internal control over financial reporting. Management is not required to report on the assessment of its internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 until it files its Annual Report on Form 10-K for the fiscal year ended March 31, 2006. Although it expects its internal control over financial reporting to be effective at that time, if it fails to remediate any condition constituting a material weakness on or before March 31, 2006, the presence of a material weakness at that time would cause management to conclude that its internal controls over financial reporting are ineffective and would cause its external auditors to issue an adverse opinion on the effectiveness of such internal controls.

Forward-looking Information

The information contained in this Form 12b-25 that addresses future results or expectations is considered "forward-looking" information within the definition of the Federal securities laws. Forward-looking information in this document can be identified through the use of words such as "may," "will," "intend," "plan," "project," "expect," "anticipate," "should," "would," "believe," "estimate," "contemplate," "possible," and "point." The forward-looking information is premised on many factors, some of which are outlined below. Actual consolidated results might differ materially from projected forward-looking information if there are any material changes in management's assumptions.

The forward-looking information and statements are or may be based on a series of projections and estimates and involve risks and uncertainties. One risk is that the Company may not successfully remediate control deficiencies in its internal control over financial reporting in a timely manner, which would cause management to conclude at that time that its internal control over financial reporting is ineffective and would result in an adverse opinion on its controls by its independent registered public accounting firm. For additional information regarding other risks that affect the Company, please refer to the Company's Forms 10-K and 10-K/A for the fiscal year ended March 31, 2005.

Management undertakes no obligation to correct or update any forward-looking statements, whether as a result of new information, future events, or otherwise. Persons are advised, however, to consult any further disclosures management makes on related subjects in its reports filed with the Securities and Exchange Commission and in its press releases.
