PART I

Item 1. Description of Business.

Business Development.

Corporate Developments.

New Environmental Technologies Corporation (our "Company") was organized under the laws of the State of Nevada on January 7, 1982, under the name "All Things, Inc." Our Company was formed for the purpose of engaging in all lawful businesses. Our Company's initial authorized capital consisted of 100,000,000 shares of \$0.001 par value common voting stock.

On March 21, 1985, Our Company's name was changed to "New Environmental Technologies Corporation."

Effective November 11, 1995, and in accordance with the Nevada Revised Statutes, the Board of Directors of our Company, with the written consent of President and Director, unanimously resolved to reverse split the outstanding shares of its common stock on a basis of 250 for one while retaining its authorized capital, with appropriate adjustments in the stated capital and capital surplus accounts of our Company. All computations hereinafter take

Edgar Filing: NEW ENVIRONMENTAL TECHNOLOGIES CORP - Form 10KSB

into account this reverse split.

Copies of the initial Articles of Incorporation of our Company and the foregoing Certificates of Amendment to the Articles of Incorporation were attached to our Annual Report on Form 10KSB for the year ended December 31, 1999. By this reference our Company's Annual Report on Form 10KSB for the year ended December 31, 1999, is incorporated herein. See Part III, Item 13.

Public Offering.

Our Company conducted a public offering of shares of its common stock pursuant to an S-18 Registration Statement which was filed with the Securities and Exchange Commission on or about March 2, 1982. By this reference, our Company's Registration Statement on Form S-18 is incorporated herein. See Part III, Item 13.

Business.

Our Company has had no material business operations since 1989. Our Company may begin the search for the acquisition of assets, property or business that may benefit our Company and its stockholders once the Board of Directors sets guidelines of industries in which our Company may have an interest.

Our Company is unable to predict the time as to when and if it may actually participate in any specific business endeavor, and will be unable to do so until it determines the particular industries of interest to our Company.

Effect of Existing or Probable Governmental Regulations on Business.

Sarbanes-Oxley Act.

On July 30, 2002, President Bush signed into law the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"). The Sarbanes-Oxley Act imposes a wide variety of new regulatory requirements on publicly-held companies and their insiders. Many of these requirements will affect us. For example:

* Our chief executive officer and chief financial officer must now certify the accuracy of all of our periodic reports that contain financial statements;

* Our periodic reports must disclose our conclusions about the effectiveness of our disclosure controls and procedures; and

* We may not make any loan to any director or executive officer and we may not materially modify any existing loans.

The Sarbanes-Oxley Act has required us to review our current procedures and policies to determine whether they comply with the Sarbanes-Oxley Act and the new regulations promulgated thereunder. We will continue to monitor our compliance with all future regulations that are adopted under the Sarbanes-Oxley Act and will take whatever actions are necessary to ensure that we are in compliance.

Penny Stock.

Edgar Filing: NEW ENVIRONMENTAL TECHNOLOGIES CORP - Form 10KSB

Our common stock is "penny stock" as defined in Rule 3a51-1 of the Securities and Exchange Commission. Penny stocks are stocks:

- * with a price of less than five dollars per share;
- * that are not traded on a "recognized" national exchange;
- * whose prices are not quoted on the NASDAQ automated quotation system; or
- * in issuers with net tangible assets less than \$2,000,000, if the issuer has been in continuous operation for at least three years, or \$5,000,000, if in continuous operation for less than three years, or with average revenues of less than \$6,000,000 for the last three years.

Section 15(g) of the Exchange Act and Rule 15g-2 of the Securities and Exchange Commission require broker/dealers dealing in penny stocks to provide potential investors with a document disclosing the risks of penny stocks and to obtain a manually signed and dated written receipt of the document before making any transaction in a penny stock for the investor's account. You are urged to obtain and read this disclosure carefully before purchasing any of our shares.

Rule 15g-9 of the Securities and Exchange Commission requires broker/dealers in penny stocks to approve the account of any investor for transactions in these stocks before selling any penny stock to that investor.

This procedure requires the broker/dealer to:

- * get information about the investor's financial situation, investment experience and investment goals;
- * reasonably determine, based on that information, that transactions in penny stocks are suitable for the investor and that the investor can evaluate the risks of penny stock transactions;
- * provide the investor with a written statement setting forth the basis on which the broker/dealer made his or her determination; and
- * receive a signed and dated copy of the statement from the investor, confirming that it accurately reflects the investors' financial situation, investment experience and investment goals.

Compliance with these requirements may make it harder for our stockholders to resell their shares.

Reporting Obligations.

Section 14(a) of the Exchange Act requires all companies with securities registered pursuant to Section 12(g) of the Exchange Act to comply with the rules and regulations of the Securities and Exchange Commission regarding proxy solicitations, as outlined in Regulation 14A. Matters submitted to stockholders of our Company at a special or annual meeting thereof or pursuant to a written consent will require our Company to provide our stockholders with the information outlined in Schedules 14A or 14C of Regulation 14; preliminary copies of this information must be submitted to the Securities and Exchange Commission at least 10 days prior to the date that definitive copies of this information are forwarded to our stockholders.

We are also required to file annual reports on Form 10-KSB and quarterly reports on Form 10-QSB with the Securities Exchange Commission on a

Edgar Filing: NEW ENVIRONMENTAL TECHNOLOGIES CORP - Form 10KSB

regular basis, and will be required to timely disclose certain material events (e.g., changes in corporate control; acquisitions or dispositions of a significant amount of assets other than in the ordinary course of business; and bankruptcy) in a current report on Form 8-K.

Small Business Issuer.

The integrated disclosure system for small business issuers adopted by the Securities and Exchange Commission in Release No. 34-30968 and effective as of August 13, 1992, substantially modified the information and financial requirements of a "Small Business Issuer," defined to be an issuer that has revenues of less than \$25,000,000; is a U.S. or Canadian issuer; is not an investment company; and if a majority-owned subsidiary, the parent is also a small business issuer; provided, however, an entity is not a small business issuer if it has a public float (the aggregate market value of the issuer's outstanding securities held by non-affiliates) of \$25,000,000 or more. We are deemed to be a "small business issuer."

The Securities and Exchange Commission, state securities commissions and the North American Securities Administrators Association, Inc. ("NASAA") have expressed an interest in adopting policies that will streamline the registration process and make it easier for a small business issuer to have access to the public capital markets.

Number of Employees.

None.

Item 2. Description of Property.

Our Company has no property or assets; its principal executive office address and telephone number are the business office address and telephone number of David C. Merrell, our Company's President, which are provided at \$100 per month, which is being treated as contributed capital. See Part I, Item 1.

Item 3. Legal Proceedings.

Our Company is not the subject of any pending legal proceedings; and to the knowledge of management, no proceedings are presently contemplated against our Company by any federal, state or local governmental agency.

Further, to the knowledge of management, no director or executive officer is party to any action in which any has an interest adverse to our Company.

Item 4. Submission of Matters to a Vote of Security Holders.

No matter was submitted to a vote of our Company's security holders during the fourth quarter of the period covered by this Annual Report or during the previous two calendar years.

PART II

Item 5. Market for Common Equity and Related Stockholder Matters.

Market Information.

Pink Sheets LLC provided the following quotations. They do not represent actual transactions and they do not reflect dealer markups, markdowns or commissions.

STOCK QUOTATIONS

	CLOSING BID	
Quarter ended:	High	Low
-----	----	---
April 2, 2002 through June 30, 2002	0.03	0.03
September 30, 2002	0.05	0.03
December 31, 2002	0.05	0.05

Since April 2, 2002, our common stock has been quoted on the OTC Bulletin Board of the National Association of Securities Dealers, Inc. ("NASD"). Our symbol is "NEVL." However, management does not expect any established trading market to develop unless and until it has operations. In any event, no assurance can be given that any market for our Company's common stock will develop or be maintained. If a public market ever develops in the future, the sale of "unregistered" and "restricted" shares of common stock pursuant to Rule 144 of the Securities and Exchange Commission by members of management or others may have a substantial adverse impact on any such market; and all of these persons have satisfied the "holding period" under Rule 144.

Recent Sales of "Restricted Securities".

There have been no sales of "restricted securities" or other securities by us during the past three years.

Holders.

The number of record holders of our Company's common stock as of the calendar year ended December 31, 2002 was approximately 864; these numbers do not include an indeterminate number of stockholders whose shares are held by brokers in street name. As of March 19, 2003 there were approximately 864 stockholders.

Dividends.

There are no present material restrictions that limit the ability of our Company to pay dividends on common stock or that are likely to do so in the future. Our Company has not paid any dividends with respect to its common stock, and does not intend to pay dividends in the foreseeable future.

Item 6. Management's Discussion and Analysis or Plan of Operation.

Plan of Operation.

Our Company has not engaged in any material operations during the year end December 31, 2002 or since 1989.

Our Company's plan of operation for the next 12 months is to:(i) consider guidelines of industries in which our Company may have an interest; (ii) adopt a business plan regarding engaging in business in any selected industry; and (iii) to commence such operations through funding and/or the acquisition of a "going concern" engaged in any industry selected.

Our Company's only foreseeable cash requirements during the next 12 months will relate to maintaining our Company in good standing in the State of Nevada, as well as legal and accounting fees. Management does not anticipate that our Company will have to raise additional funds during the next 12 months.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
New Environmental Technologies Corporation
(A Development Stage Company)
Salt Lake City, Utah

We have audited the accompanying balance sheet of New Environmental Technologies Corporation (a development stage company) as of December 31, 2002 and the related statements of operations, stockholders' equity (deficit) and cash flows for the years ended December 31, 2002 and 2001 and from inception on January 7, 1982 through December 31, 2002. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of New Environmental Technologies Corporation (a development stage company) as of December 31, 2002 and the results of its operations and its cash flows for the years ended December 31, 2002 and 2001 and from inception on January 7, 1982 through December 31, 2002 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 4 to the financial statements, the Company is a development stage company and has a deficit working capital and stockholders' deficit along with no significant operating revenues to date which raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 4. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes to the Financial Statements
December 31, 2002 and 2001

NOTE 1 - ORGANIZATION

The financial statements presented are those of New Environmental Technologies Corporation (the Company). The Company was incorporated as All Things, Inc. under the laws of the State of Nevada on January 7, 1982. On March 21, 1985, the Company changed its name to New Environmental Technologies Corporation. The Company was organized for the purpose of engaging in any activity or business not in conflict with the laws of the State of Nevada or of the United States of America.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Accounting Method

The Company's financial statements are prepared using the accrual method of accounting. The Company has elected a December 31 year end.

b. Basic Loss Per Share

Loss per share has been calculated based on the weighted average number of shares of common stock outstanding during the period.

NEW ENVIRONMENTAL TECHNOLOGIES CORPORATION
(A Development Stage Company)
Notes to the Financial Statements
December 31, 2002 and 2001

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Provision for Taxes

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported

Edgar Filing: NEW ENVIRONMENTAL TECHNOLOGIES CORP - Form 10KSB

amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Net deferred tax assets consist of the following components as of December 31, 2002 and 2001:

	2002	2001
Deferred tax assets:		
NOL Carryover	\$ 43,200	\$ 37,426
Deferred tax liabilities:	-	-
Valuation allowance	\$ (43,200)	\$ (37,426)
	-----	-----
Net deferred tax asset	\$ -	\$ -
	=====	=====

The income tax provision differs from the amount of income tax determined by applying the U.S. federal and state income tax rates of 39% to pretax income from continuing operations for the years ended December 31, 2002 and 2001 due to the following:

	2002	2001
Book loss	\$ (5,445)	\$ (7,395)
State tax	(100)	(100)
Other	69	69
Valuation allowance	5,414	7,426
	-----	-----
	\$ -	\$ -
	=====	=====

At December 31, 2002, the Company had net operating loss carryforwards of approximately \$110,900 that may be offset against future taxable income from the year 2002 through 2022. No tax benefit has been reported in the December 31, 2002 financial statements since the potential tax benefit is offset by a valuation allowance of the same amount.

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carryforwards for Federal income tax reporting purposes are subject to annual limitations. Should a change in ownership occur, net operating loss carryforwards may be limited as to use in future years.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Related Party Transactions

A related party has loaned the Company \$23,311 through December 31, 2002 for operating working capital. This amount is unsecured and due upon demand. Interest has been imputed at 8%, resulting in accrued interest of \$4,000 at December 31, 2002.

During the year ended December 31, 2002, management determined that it contributed to the Company services valued at \$750 and rent valued at \$1,200. Contributions for prior years were determined to be minimal and have not been recorded.

e. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

f. Change in Accounting Principles

The Company adopted the provisions of FASB Statement No.145, "Rescission of FASB Statements No. 4, 44, and 62, Amendment of FASB Statement No. 13, and Technical Corrections," FASB Statement No. 146, "Accounting for Costs Associated with Exit or Disposal Activities," FIN 44, "Accounting for Certain Transactions Involving Stock Compensation (an interpretation of APB Opinion No. 25)," and FASB Statement No. 147, "Acquisitions of Certain Financial Institutions an amendment of FASB Statements No. 72 and 144 and FASB Interpretation No. 9." The effect of these adopted provisions on the Company's financial statements was not significant.

In December 2002, the FASB issued Statement No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure - an amendment of FASB Statement No. 123" (SFAS 148). SFAS 148 is effective for fiscal years beginning after December 15, 2003. The Company is currently reviewing SFAS 148.

NOTE 3 - STOCK SPLITS

On August 10, 1984, the Company authorized a 1-for-10 stock split of common stock.

On July 16, 1984, the Company authorized a 1-for-10 stock split of legend stock.

On September 21, 1984, the Company authorized a 1-for-60 stock split of legend stock.

On January 11, 1985, the Company authorized a 1-for-60 stock split of legend stock.

On January 22, 1985, the Company authorized a 60-for-1 stock split of legend stock.

On August 27, 1985, the Company authorized a 1-for-250 stock split of all stock.

The financial statements reflect these stock splits on a retroactive basis.

Notes to the Financial Statements
December 31, 2002 and 2001

NOTE 4 - GOING CONCERN

The Company's financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. In addition, the Company has a deficit in working capital and stockholders' deficit at December 31, 2002. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease development of operations.

In order to continue as a going concern, develop a reliable source of revenues, and achieve a profitable level of operations the Company will need, among other things, additional capital resources. Management's plans to continue as a going concern include raising additional capital through sales of common stock. It is the intent of the Company to seek a merger with an existing, operating company. In the interim, shareholders of the Company are committed to meeting its minimal operating expenses. However, management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.
