NOTES TO FINANCIAL STATEMENTS

NOTE 1 - BASIS OF PRESENTATION

## Edgar Filing: WORLDTEQ GROUP INTERNATIONAL INC - Form 10QSB

The accompanying unaudited interim financial statements of WorldTeq Group International, Inc. ("WorldTeq") have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission ("SEC"), and should be read in conjunction with the audited financial statements and notes thereto contained in WorldTeq's latest Annual Report filed with the SEC on Form 10-KSB. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year 2002, as reported in the 10-KSB, have been omitted.

ITEM 2 - MANAGEMENT'S DISCUSSION & ANALYSIS

-----

The following discussion and analysis of the financial condition and results of operations should be read in conjunction with the financial statements, related notes, and other detailed information included elsewhere in this Form 10-QSB. Certain information contained below and elsewhere in this Form 10-QSB, including information regarding our plans and strategy for our business, are forward-looking statements. See "Note Regarding Forward-Looking Statements."

This Quarterly Report on Form 10-QSB contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are statements other than historical information or statements of current condition. Some forward-looking statements may be identified by use of terms such as "believes", "anticipates", "intends", or "expects". These forward-looking statements relate to our plans, objectives and expectations for future operations and growth. Other forward-looking statements in this Form 10-QSB include statements regarding synergies and growth expected as a result of future acquisitions, expected growth in earnings, EBITDA, revenue and gross margin, expected decreases in operating expenses, our expectation regarding our ability to consummate future acquisitions. In light of the risks and uncertainties inherent in all such projected operational matters, the inclusion of forward-looking statements in this Form 10-QSB should not be regarded as a representation by us or any other person that any of our objectives or plans will be achieved or that any of our operating expectations will be realized. Our revenues and results of operations are difficult to forecast and could differ materially from those projected in the forward-looking statements contained in this Form 10-QSB as a result of certain risks and uncertainties including, but not limited to, our business reliance on third parties to provide us with technology, infrastructure and content, our ability to integrate and manage acquired technology, assets, companies and personnel, changes in market conditions, the volatile and intensely competitive environment in the telecommunications and Internet industries, the availability of transmission facilities, dependence on call termination agreements, entry into new and

developing markets, risks associated with the international telecommunications industry, customer concentration and attrition, dependence on a few significant foreign and domestic customers and suppliers, international economic and political instability, dependence on effective billing and information systems, rapid technological change, the risk of litigation in connection with the contents of our Web based systems, and our dependence on key employees in a competitive market for skilled personnel. These factors should not be considered complete; we undertake no obligation to release publicly the results of any future revisions we may make to forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

### RECENT DEVELOPMENTS

During the quarter we signed several new agent contracts, added enhancements to our internal billing system that now allows us to offer traditional business long distance, and signed new vendor relationships allowing us to expand our offerings with prepaid cell phone service and unlimited long distance with local service. Additionally, we researched and developed new products, including an exclusive prepay toll-free service that brings the cost of inbound calls to less than 3 cents per minute. We further enhanced our facilities to enable our services integration capabilities with Private Debit Card programs and Master Card platforms. We closed our office in Ohio and outsourced all resources to a single solution provider allowing us to concentrate on marketing.

### RESULTS OF OPERATIONS

Total net sales for the three months ended March 31, 2003 were \$382,444, as compared to \$1,152,111 the same 3 months ended March 31, 2002. Net Income ended March 31, 2003 decreased from \$79,332 to a net loss of (\$145,533) over the same 3 months ended March 31, 2003. This decrease was primarily attributable to market competition, a change in focus for the company away from wholesale customers, sales returns and allowances, and uncollectible debt.

Gross profit as a percentage of revenue has decreased slightly to 45.3% of sales compared to 50% of sales during the same 3 month period in 2002 due primarily to an increase in sales compensation during the quarter. Sales General and administrative increased to 81% of sales from 41.8% of sales over the same 3 months ended March 31, 2002. Net profit margins decreased to a negative 38.3% from 6.88% during the comparable 3 month period. We achieved a net loss of (\$146,533) or (\$.066) per share compared to a net gain of \$79,332 or \$.044 per share during the same three months ended March 31, 2002. These results were primarily due to market competition and uncollectible debt. Gross Margin decreased per the periods covering January 1, 2003 and the same period ended March 31, 2002 to 45.3% of sales in the period ended March 31, 2003.

General and administrative expenses decreased 35.60% to \$310,211 from \$481,738 for the three months ended March 31, 2003, respectively; this was primarily due to the reduction of support staff. Our focus on cost containment and reducing unneeded expenses aided us in limiting the increase of these expenses.

### FINANCIAL CONDITION; LIQUIDITY AND FINANCIAL RESOURCES

## Edgar Filing: WORLDTEQ GROUP INTERNATIONAL INC - Form 10QSB

During the quarter ending March 31, 2003 we eliminated non-productive assets and pared down our workforce to reduce overhead.

Net cash provided by operating activities for 3 months ended March 31, 2003 was (\$109,865). The negative cash provided by operating activities was primarily attributable to the decrease in sales. Net financing activities provided \$80,015. Investing activities used \$79,965 to finance resources to enhance our overall infrastructure and ensure quality, uninterrupted service to our customers.

Cash at end of March 2003 amounted to \$55,000, a decrease of \$171,589 compared to same period last year ending March 31, 2002. Our current assets for March 31, 2003 are lower than our current liabilities by \$675,696. Included in our current liabilities is approximately \$219,196 of disputed amounts that we feel confident will be adjusted in our favor because we did not receive services we contracted for and \$98,750 in shareholder notes payable.

We believe our current cash position March 31, 2003 of \$55,000 should be sufficient along with anticipated operating cash flow to fund our operations for the next 12 months.

We need an additional \$3,000,000 to fund our planned expansion activities in the next 12 months as follows:

We contemplate acquiring selected assets of smaller competitors around the country and centralizing all of their operations, thereby increasing revenue and profitability. The target acquisitions would include Long Distance resellers, Voice Over Internet Protocol Providers, , and calling card providers. We contemplate increasing our deployment of our Financial Services Products as we believe this is the future of small business communications allowing them to take advantage of the cost savings and integration of voice and data. The balance of the funds would be earmarked to assist the company in its goal to obtain NASDAQ small cap trading approval.

We currently have no source of this funding identified. We believe the balance of 2003 will be a cash flow positive year, as our customer base has now reached a greater than break-even point and we have reduced unneeded expenses. Our customer base continues to grow each month, and we believe is diverse enough to avoid sudden interruptions from cancellation by any single customer. Our billing system takes advance credit card payments and ACH debits.
