Pioneer Municipal High Income Trust

LETTER TO SHAREOWNERS 4/30/04

Dear Shareowner,

Last year's stock market rally carried over into early 2004 but ran out of steam as investors reassessed the dramatic rise in stock valuations. The technology-rich NASDAQ Composite Index, having risen the fastest, was the first to feel pressure; the Dow Jones Industrial Average and Standard & Poor's 500 soon gave up some gains as well. Heading into April, these major indicators were little changed from year-end levels but well ahead of where they stood a year ago.

In general terms, smaller companies outperformed large companies and emerging markets outpaced developed countries, as both benefited from weakness in the U.S. dollar. Corporate bonds, here and overseas, recorded strong gains. U.S. Treasury issues also performed well, as the Federal Reserve Board signaled that it was in no hurry to raise interest rates, given the mixed economic data it was seeing.

Those mixed economic reports were also responsible for the stock market's sluggishness. While corporate profits expanded at a healthy rate, unemployment remained high and consumer confidence dropped sharply in February. Increased productivity, a company's ability to produce more goods or services for each

Edgar Filing: PIONEER MUNICIPAL HIGH INCOME TRUST - Form N-CSR

hour worked, was a major factor in the disappointing pace of job creation. However, jobs data improved markedly in March when the government reported U.S. employers added over 300,000 jobs, the largest figure in years; at the same time, January and February numbers were revised upward. Payroll expansion reached into most sectors, while employment held steady in manufacturing after a long period of declines. The markets reacted positively to the jobs report. We believe that renewed hiring means companies are optimistic about the outlook for profits in the months ahead. In fact, many businesses are building up inventories in expectation of increased product demand.

The key drivers of the expansion, low interest rates and reduced federal income taxes, remain in place. Consequently, we think the U.S. economy retains impressive growth potential through the rest of this year. An expanding economy could have implications for the way your portfolio is balanced, so an appointment with your professional financial advisor may well be in order.

- + Index comparison begins July 31, 2003. The Lehman Brothers Municipal Bond Index is a widely recognized, unmanaged measure of approximately 15,000 municipal bonds. Bonds in the Index have a minimum credit rating of BBB, were part of at least a \$50 million issuance made within the past five years and have a maturity of at least two years. Lehman Brothers Non-Investment Grade Municipal Bond Index totals over \$26 billion in market value and maintains over 1300 securities. Municipal bonds in this index have the following requirements: maturities of one year or greater, sub investment grade (below Baa or non-rated), fixed coupon rate, dated date greater than 12-31-90, deal size over \$20 million, maturity size of at least \$3 trillion. Index returns are calculated monthly, assume reinvestment of dividends and, unlike Trust returns, do not reflect any fees, expenses or sales charges. You cannot invest directly in the Index.

The performance table and graph do not reflect the deduction of taxes that a shareowner would pay on Trust distributions or the redemption of Trust shares.

PORTFOLIO MANAGEMENT DISCUSSION 4/30/04

This annual report covers the period from the Trust's inception on July 21, 2003, through April 30, 2004. In this time frame, investors in Pioneer Municipal High Income Trust were rewarded with a relatively high amount of tax-free income as well as a substantial amount of price appreciation. In the following interview, David Eurkus, a member of the Trust's management team, reviews the Trust's investment process, strategy and outlook.

Q: How did the Trust perform from inception on July 21, 2003 through April 30, 2004?

A: Since inception, Pioneer Municipal High Income Trust returned 8.14% at net asset value and -4.11% at market price. As of April 30, 2004, the Trust was selling at a discount of market price to net asset value of 7.2%. From July 31, 2003, through April 30, 2004, the Lehman Brothers Municipal Bond Index returned 4.41% and the Lehman Brothers Non-Investment Grade Municipal Bond Index returned 8.92%. At the end of the period, the Trust held 106 issues in 31 states. On April 30, 2004, the Trust's 30-day SEC yield was 7.83%.

Q: What strategies do you use in managing the Trust?

A: We use a top down/bottom-up approach. We consider macroeconomic factors, such as the strength of the economy, the potential for a change in the level of inflation and Federal Reserve monetary policy. On a micro level, we analyze yields compared to U.S. Treasuries or corporate issuers; we look at the strengths of specific economic sectors and review each issuer's credit rating and liquidity. Our extensive research has resulted in the construction of a diversified portfolio of securities with varying maturities and credit quality from a number of sectors and issuers. At the end of the period, 56.2% of the Trust's assets were invested in investment-grade securities - those rated BBB or higher; 43.2% were in

Edgar Filing: PIONEER MUNICIPAL HIGH INCOME TRUST - Form N-CSR

securities rated below investment grade; and 0.6% of the Trust's assets were in cash equivalents. Overall, the average quality of the Trust was Baa/BBB.

We allocated a portion of the Trust's assets to economically sensitive market sectors, areas in which the underlying credit quality of fixed-income securities tends to improve during periods of economic recovery. These included hospital/health care (25.2% of assets), transportation (20.0% of assets) and power/energy (5.3% of assets). Over the past few months, we added to the Trust's position in education bonds (3.3% of assets). The educa-

4

Pioneer High Income Trust

tion sector has seen increased bond issuance, as applications to secondary schools and colleges continue to rise. We took advantage of the Trust's ability to invest in below investment-grade securities, emphasizing sectors whose business prospects would benefit from a stronger economy. Such securities had discounted prices and historically high yields.

Q: During the period, the investment environment changed dramatically. How did this change affect the Trust?

A: From July 2003 through February 2004, economic growth was fairly modest. Inflation was low, interest rates continued to decline and bond prices rose. Against this backdrop, the Trust benefited from the capital appreciation that rising bond prices provided and from a relatively high monthly income stream.

In March, economic statistics began to indicate that the economy was stronger than had been expected. Job growth was robust, inflation began to accelerate and investors assumed that the Federal Reserve would raise interest rates sooner rather than later. In this environment, market interest rates moved substantially higher, triggering a rapid and significant decline in the market value of both taxable and tax-free bonds. While the Trust suffered from the general downturn in bond values, its combination of investment-grade and below investment-grade securities allowed it to continue to provide shareholders with an attractive level of tax-free income.

Q: What is your outlook over the next six months?

A: We are optimistic about the economy and the Trust. We expect the positive trend in GDP growth to continue; and while the Federal Reserve may boost rates, we do not anticipate a significant increase in the near term. We believe the Trust's diversification among economic sectors and geographic regions and its mix of investment-grade quality and higher-yielding bonds have the potential to continue to generate increased income as well as capital appreciation even in a rising interest-rate environment.

Pioneer Municipal High Income Trust

NOTES TO FINANCIAL STATEMENTS 4/30/04

1. Organization and Significant Accounting Policies

Pioneer Municipal High Income Trust (the "Trust") was organized as a Delaware statutory trust on March 13, 2003. Prior to commencing operations on July 21, 2003, the Trust had no operations other than matters relating to its organization and registration as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended, and the sale and issuance to Pioneer Investment Management, Inc. (PIM), the Trust's investment adviser, a wholly owned indirect subsidiary of UniCredito Italiano S.p.A. (UniCredito Italiano), of 6,981 shares of beneficial interest at an aggregate purchase price of \$100,003. PIM has agreed to reimburse the amount by which the aggregate of all the Trust's organizational expenses and offering costs for common shares (other than the sales load) exceeds \$0.03 per share of common share offering. The investment objective of the Trust is to seek a high level of current income exempt from regular federal income tax and the Trust may seek capital appreciation to the extent that it is consistent with its primary investment objective.

The Trust may invest in municipal securities with a broad range of maturities and credit ratings, including both investment grade and below investment grade municipal securities.

Edgar Filing: PIONEER MUNICIPAL HIGH INCOME TRUST - Form N-CSR

The Trust invests in below grade (high yield) municipal securities. Debt securities rated below investment grade are commonly referred to as "junk bonds" and are considered speculative. These securities involve greater risk of loss, are subject to greater price volatility, and are less liquid, especially during periods of economic uncertainty or change, than higher rated debt securities.

The Trust's financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America that require the management of the Trust to, among other things, make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses and gains and losses on investments during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies

19

Pioneer Municipal High Income Trust

NOTES TO FINANCIAL STATEMENTS 4/30/04

(continued)

consistently followed by the Trust, which are in conformity with those generally accepted in the investment company industry:

A. Security Valuation

Security transactions are recorded as of trade date. Securities are valued at prices supplied by independent pricing services, which consider such factors as Treasury spreads, yields, maturities and ratings. Valuations may be supplemented by dealers and other sources, as required. The values of interest rate swaps are determined by obtaining dealer quotations. Securities for which market quotations are not readily available are valued at their fair values as determined by, or under the direction of, the Board of Trustees. As of April 30, 2004, there were no securities fair valued. Discount and premium on fixed income securities are accreted or amortized daily, respectively, on an effective yield to maturity basis and are included in interest income. Interest income is recorded on an accrual basis. Temporary cash investments are valued at amortized cost.

Gains and losses on sales of investments are calculated on the identified cost method for both financial reporting and federal income tax purposes.

B. Federal Income Taxes

It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income and net realized capital gains, if any, to its shareowners. Therefore, no federal income tax provision is required.

The amount and characterization of distributions to shareowners for financial reporting purposes is determined in accordance with federal income tax rules. Therefore, the source of the Trust's distributions may be shown in the accompanying financial statements as either from or in excess of net investment income or net realized gain on investment

Edgar Filing: PIONEER MUNICIPAL HIGH INCOME TRUST - Form N-CSR

transactions, or from paid in-capital, depending on the type of book/tax differences that may exist.

At April 30, 2004, the Trust reclassified \$60,601 to decrease accumulated net investment income and to decrease accumulated net realized loss on investments. The reclassification has no impact on the net asset value of the Trust and presents the Trust's capital accounts on a tax basis.

20

Pioneer Municipal High Income Trust

The tax character of distributions paid to common and preferred shareowners during the period ended April 30, 2004 was as follows:

	2004
Distributions paid from:	
Tax exempt income	\$16,447,073
Long-term capital gain	-
Total	\$16,447,073

The following shows components of distributable earnings on a federal income tax basis at April 30, 2004.

	2004
Undistributed tax-exempt income	\$ 431,774
Capital loss carryforward	(1,170,962)
Unrealized appreciation	12,290,150
Total	\$11,550,962

The difference between book basis and tax basis unrealized appreciation is primarily attributable to the difference between book and tax amortization methods for premiums and discounts on fixed income securities and the tax deferral of losses on wash sales.

C. Automatic Dividend Reinvestment Plan

All common shareowners automatically participate in the Automatic Dividend Reinvestment Plan (the "Plan"), under which participants receive all dividends and capital gain distributions (collectively, "dividends") in full and fractional common shares of the Trust in lieu of cash. Shareowners may elect not to participate in the Plan. Shareowners not participating in the Plan receive all dividends and capital gain distributions in cash. Participation in the Plan is completely voluntary and may be terminated or resumed at any time by notifying Mellon Investor Services LLC, the agent for shareowners in administering the Plan (the "Plan Agent"), prior to any dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Whenever the Trust declares a dividend on common shares payable in cash, participants in the

Edgar Filing: PIONEER MUNICIPAL HIGH INCOME TRUST - Form N-CSR

Plan will receive the equivalent in common shares acquired by the Plan Agent either

Pioneer Municipal High Income Trust

NOTES TO FINANCIAL STATEMENTS 4/30/04

(continued)

(i) through receipt of additional unissued but authorized common shares from the Trust or (ii) by purchase of outstanding common shares on the New York Stock Exchange or elsewhere. If, on the payment date for any dividend the net asset value per common share is equal to or less than the market price per share plus estimated brokerage trading fees ("market premium"), the Plan Agent will invest the dividend amount in newly issued common shares. The number of newly issued common shares to be credited to each account will be determined by dividing the dollar amount of the dividend by the net asset value per common share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance does not exceed 5%. If, on the payment date for any dividend, the net asset value per common share is greater than the market value ("market discount"), the Plan Agent will invest the dividend amount in common shares acquired in open-market purchases. There are no brokerage charges with respect to newly issued common shares. However, each participant will pay a pro rata share of brokerage trading fees incurred with respect to the Plan Agent's open-market purchases. Participating in the Plan does not relieve shareowners from any federal, state or local taxes which may be due on dividends paid in any taxable year. Shareowners holding Plan shares in a brokerage account may not be able to transfer the shares to another broker and continue to participate in the Plan.

2. Management Agreement

PIM manages the Trust's portfolio. Management fees are calculated daily at the annual rate of 0.60% of the Trust's average daily managed assets. "Managed assets" is the average daily value of the Trust's total assets minus the sum of the Trust's liabilities, which liabilities exclude debt related to leverage, short-term debt and the aggregate liquidation preference of any outstanding preferred shares.

In addition, under PIM's management and administration agreements, certain other services and costs are paid by the Trust. PIM has retained Princeton Administrators, L.P., an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, to provide certain administrative services to the Trust on its behalf. The Trust pays Princeton Administrators, L.P. a monthly fee at an annual rate of 0.07% of the average weekly value of the Trust's managed assets, subject to a minimum monthly fee of \$10,000.

Pioneer Municipal High Income Trust

Edgar Filing: PIONEER MUNICIPAL HIGH INCOME TRUST - Form N-CSR

Also, PIM has agreed for the first three years of the Trust's investment operations to limit the Trust's total annual expenses [excluding organizational and offering costs for common and preferred shares, interest expenses, the cost of defending or prosecuting any claim or litigation to which the Trust is a party, (together with any amount in judgment or settlement), indemnification expense or taxes incurred due to the failure of the Trust to qualify as a regulated investment company under the Code or any other non-recurring or non-operating expenses] to 0.80% of the Trust's average daily managed assets. The dividend on any preferred shares is not an expense. Under this agreement, PIM may subsequently recover reimbursed expenses (within three years of being incurred) from the Trust if the Trust's total expenses are less than 0.80% of average daily managed assets. As of April 30, 2004, the Trust's expenses were not reduced under such arrangements.

3. Transfer Agents

Pioneer Investment Management Shareholder Services, Inc. (PIMSS), a wholly owned indirect subsidiary of UniCredito Italiano, through a sub-transfer agency agreement with Mellon Investor Services LLC, provides substantially all transfer agent and shareowner services related to the Trust's common shares at negotiated rates. Deutsche Bank Trust Company Americas is the transfer agent, registrar, dividend paying agent and redemption agent with respect to the Trust's Auction Preferred Shares (APS). The Trust pays Deutsche Bank Trust Company Americas an annual fee, as is agreed to from time to time by the Trust and Deutsche Bank Trust Company Americas, for providing such services.

4. Interest Rate Swaps

The Trust may enter into interest rate swap transactions to attempt to protect itself from increasing dividend or interest expense on its leverage resulting from increasing short-term interest rates. The cost of leverage may rise with an increase in interest rates, generally having the effect of lower yields and potentially lower dividends. Interest rate swaps can be used to "lock in" the cost of leverage and reduce the negative impact that rising short-term interest rates would have on the Trust's leveraging costs.

An interest rate swap is an agreement between two parties, which involves exchanging a floating rate and fixed rate interest payments for a specified period of time. Interest rate swaps involve the accrual

(continued)

and exchange of net interest payments between the parties. For financial reporting purposes, the Trust records the net receivable or payable for the net interest expected to be received or paid as net realized gains or losses from Interest Rate Swaps in the Statement of Operations. During the term of the swap, changes in the value of the swap are recognized as unrealized gains and losses by "marking-to market" to reflect the market value of the swap. When the swap is terminated, the Trust will record a realized gain or loss equal to the difference, if any, between the proceeds from (or cost of) closing the contract and the cost basis of the contract. The Trust is exposed to credit risk in the event of non-performance by the other party to the interest rate swap. However, the Trust does not anticipate non-performance by any counterparty.

Edgar Filing: PIONEER MUNICIPAL HIGH INCOME TRUST - Form N-CSR

Under the terms of the agreement entered into by the Trust, the Trust receives a floating rate of interest and pays a fixed rate of interest for the term. Details of the swap agreement outstanding as of April 30, 2004 were as follows:

Counterparty	Termination Date	Notional Amount (000)	Fixed Rate	Floating Rate	Unrealized Appreciation
UBS AG	April 5, 2009	\$50,000	2.665%	1 month BMA	\$1,136,800

5. Trust Shares

There are an unlimited number of common shares of beneficial interest authorized. Of the 22,120,893 common shares of beneficial interest outstanding at April 30, 2004, PIM owned 6,981 shares.

Transactions in common shares of beneficial interest for the period July 21, 2003 (commencement of investment operations) to April 30, 2004 were as follows:

Shares issued in connection with initial public offering	20,500,000
Shares issued from underwriters' over-allotment option exercised	1,500,000
Reinvestment of distributions	113,912
Net increase in shares outstanding	22,113,912
Shares outstanding at beginning of period	6,981
Shares outstanding at end of period	22,120,893

24

Pioneer Municipal High Income Trust

Offering costs of \$660,000 incurred in connection with the Trust's offering of common shares have been charged to paid-in capital.

The Trust may classify or reclassify any unissued common shares of beneficial interest into one or more series of preferred shares of beneficial interest. On October 2, 2003, the Trust reclassified and issued 4,040 shares of common shares into two series of APS as follows: Series A-2,000 and Series B-2,040. Offering costs of \$214,943 and underwriting discounts of \$1,010,000 have been charged to paid-in capital.

Dividends on Series A and Series B APS are cumulative at a rate which is reset every seven days based on the results of an auction. Dividend rates ranged from 0.45% to 1.25% during the period ended April 30, 2004.

Edgar Filing: PIONEER MUNICIPAL HIGH INCOME TRUST - Form N-CSR

The Trust may not declare dividends or make other distributions on its common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding preferred shares would be less than 200%.

The APS are redeemable at the option of the Trust, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared. The APS are also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of the Trust as set forth in the Agreement and Declaration of Trust are not satisfied.

The holders of APS have voting rights equal to the holders of the Trust's common shares (one vote per share) and will vote together with holders of the common shares as a single class. However, holders of APS are also entitled to elect two of the Trust's Trustees. In addition, the Investment Company Act of 1940, as amended, requires that along with approval by shareowners that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares and (b) take any action requiring a vote of security holders, including, among other things, changes in the Trust's subclassification as a closed-end management investment company or changes in its fundamental investment restrictions.

For the period May 1, 2004 to May 31, 2004, dividends declared on preferred stock totaled \$82,766 in aggregate for the two outstanding preferred share series.

ADDITIONAL INFORMATION (unaudited)

During the period, there have been no material changes in the Trust's investment objective or fundamental policies that have not been approved by the shareowners. There have been no changes in the Trust's charter or By-Laws that would delay or prevent a change in control of the Trust which have not been approved by the shareowners. There have been no changes in the principal risk factors associated with investment in the Trust. There have been no changes in the persons who are primarily responsible for the day-to-day management of the Trust's portfolio.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Trust may purchase, from time to time, its common shares in the open market.

PIONEER FUNDS

APPROVAL OF AUDIT, AUDIT-RELATED, TAX AND OTHER SERVICES PROVIDED BY THE INDEPENDENT AUDITOR

SECTION I - POLICY PURPOSE AND APPLICABILITY

The Pioneer Funds recognizes the importance of maintaining the independence of their outside auditors. Maintaining independence is a shared responsibility involving Pioneer Investment Management, Inc ("PIM"), the audit committee and the independent auditors.

The Funds recognizes that a Fund's independent auditors: 1) possess knowledge of the Funds, 2) are able to incorporate certain services into the scope of the audit, thereby avoiding redundant work, cost and disruption of Fund personnel and processes, and 3) have expertise that has value to the Funds. As a result, there are situations where it is desirable to use the Fund's independent auditors for services in addition to the annual audit and where the potential for conflicts of interests are minimal. Consequently, this policy, which is intended to comply with Rule 210.2-01(C) (7), sets forth guidelines and procedures to be followed by the Funds when retaining the independent audit firm to perform audit, audit-related tax and other services under those circumstances, while also maintaining independence.

Approval of a service in accordance with this policy for a Fund shall also constitute approval for any other Fund whose pre-approval is required pursuant to Rule 210.2-01(c) (7) (ii).

In addition to the procedures set forth in this policy, any non-audit services that may be provided consistently with Rule 210.2-01 may be approved by the Audit Committee itself and any pre-approval that may be waived in accordance with Rule 210.2-01(c) (7) (i) (C) is hereby waived.

Selection of a Fund's independent auditors and their compensation shall be determined by the Audit Committee and shall not be subject to this policy.
