-

Item 2.02 Results of Operations and Financial Condition.

On April 29, 2016, Ingram Micro Inc. (the “Company” or “Ingram Micro”) issued a press release reporting financial results for the first quarter ended April 2, 2016. The press release is attached hereto as Exhibit 99.1 and incorporated herein by reference.

The information included herein and in Exhibit 99.1 shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing, nor shall it be deemed to form a part of the Company’s public disclosure in the United States or otherwise.

GAAP to Non-GAAP Reconciliation

The attached press release includes financial results prepared in accordance with generally accepted accounting principles (“GAAP”). In addition to GAAP results, Ingram Micro is reporting non-GAAP operating income, non-GAAP operating margin, non-GAAP net income, non-GAAP earnings per diluted share and non-GAAP return on invested capital. These non-GAAP measures exclude charges associated with reorganization, acquisitions, integration and transition costs, including those associated with the company’s previously announced cost savings programs, and the amortization of intangible assets. These non-GAAP financial measures also exclude a charge in the 2015 second and fourth quarters related to an impairment of internally developed software resulting from the company’s decision to stop its global ERP deployment and a charge in the 2015 third quarter for an estimated settlement of employee related taxes assessed in Europe. Non-GAAP net income and non-GAAP earnings per diluted share also exclude the impact of foreign exchange gains or losses related to the translation effect on Euro-based inventory purchases in Ingram Micro’s pan-European entity.

The non-GAAP measures noted above are primary indicators that Ingram Micro’s management uses internally to conduct and measure its business and evaluate the performance of its consolidated operations and operating segments. Ingram Micro’s management believes these non-GAAP financial measures are useful because they provide meaningful comparisons to prior periods and an alternate view of the impact of acquired businesses. These non-GAAP financial measures are used in addition to and in conjunction with results presented in accordance with GAAP. These non-GAAP financial measures reflect an additional way of viewing aspects of our operations that, when viewed with our GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, provide a more complete understanding of factors and trends affecting Ingram Micro’s business. A material limitation associated with these non-GAAP measures as compared to the GAAP measures is that they may not be comparable to other companies with similarly titled items that present related measures differently. The non-GAAP measures should be considered as a supplement to, and not as a substitute for or superior to, the corresponding measures calculated in accordance with GAAP and may not be comparable to similarly titled measures used by other companies.

A reconciliation of GAAP to non-GAAP financial measures for the periods presented is attached to this press release.

Additional Information

In connection with the proposed merger, Ingram Micro will file a proxy statement with the Securities and Exchange Commission (the “SEC”). STOCKHOLDERS ARE ADVISED TO READ THE PROXY STATEMENT WHEN IT BECOMES AVAILABLE BECAUSE IT WILL CONTAIN IMPORTANT INFORMATION. Stockholders may obtain a free copy of the proxy statement (when available) and any other relevant documents filed with the SEC from the SEC’s website at <http://www.sec.gov>. In addition, stockholders will be able to obtain, without charge, a copy of the proxy statement and other relevant documents (when available) from the “Investors” section of Ingram Micro’s website or by contacting Ingram Micro’s investor relations department via e-mail at damon.wright@ingrammicro.com.

Participants in the Solicitation

Ingram Micro and its directors, executive officers and other members of its management and employees as well as Tianjin Tianhai and the HNA Group and their respective directors and officers may be deemed to be participants in

the solicitation of proxies from Ingram Micro's stockholders with respect to the merger. Information about Ingram Micro's directors and executive officers and their ownership of Ingram Micro's common stock is set forth in the proxy statement for Ingram Micro's 2016 Annual Meeting of Stockholders and Ingram Micro's Annual Report on Form 10-K for the fiscal year ended January 2, 2016. Stockholders may obtain additional information regarding the direct and indirect interests of the participants in the solicitation of proxies in connection with the merger, including the interests of Ingram Micro's directors and executive officers in the merger, which may be different than those of Ingram Micro's stockholders generally, by reading the proxy statement (when available) and other relevant documents regarding the merger, which will be filed with the SEC.

Cautionary Statement for the Purpose of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995

The matters in this communication that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act are based on current management expectations. Certain risks may cause such expectations to not be achieved and, in turn, may have a material adverse effect on Ingram Micro's business, financial condition and results of operations. Ingram Micro disclaims any duty to update any forward-looking statements. Important risk factors that could cause actual results to differ materially from those discussed in the forward-looking statements include, without limitation: (1) our acquisition and investment strategies may not produce the expected benefits, which may adversely affect results of operations; (2) changes in macro-economic and geopolitical conditions can affect our business and results of operations; (3) failure to retain and recruit key personnel would harm our ability to meet key objectives; (4) we are dependent on a variety of information systems, which, if not properly functioning, and available, or if we experience system security breaches, data protection breaches, or other cyber-attacks and security risks to our associates, could adversely disrupt our business and harm our reputation and net sales; (5) we operate a global business that exposes us to risks associated with conducting business in multiple jurisdictions; (6) we may become involved in intellectual property disputes that could cause us to incur substantial costs, divert the efforts of management or require us to pay substantial damages or licensing fees; (7) our failure to adequately adapt to industry changes could negatively impact our future operating results; (8) we continually experience intense competition across all markets for our products and services; (9) termination of a key supply or services agreement or a significant change in supplier terms or conditions of sale could negatively affect our operating margins, revenue or the level of capital required to fund our operations; (10) substantial defaults by our customers or the loss of significant customers could negatively impact our business, results of operations, financial condition or liquidity; (11) changes in, or interpretations of, tax rules and regulations, changes in the mix of our business amongst different tax jurisdictions, and deterioration of the performance of our business may adversely affect our effective income tax rates or operating margins and we may be required to pay additional taxes and/or tax assessments, as well as record valuation allowances relating to our deferred tax assets; (12) our goodwill and identifiable intangible assets could become impaired, which could reduce the value of our assets and reduce our net income in the year in which the write-off occurs; (13) changes in our credit rating or other market factors, such as adverse capital and credit market conditions or reductions in cash flow from operations may affect our ability to meet liquidity needs, reduce access to capital, and/or increase our costs of borrowing; (14) we cannot predict the outcome of litigation matters and other contingencies that we may be involved with from time to time; (15) our failure to comply with the requirements of environmental regulations could adversely affect our business; (16) we face a variety of risks in our reliance on third-party service companies, including shipping companies, for the delivery of our products and outsourcing arrangements; (17) changes in accounting rules could adversely affect our future operating results; (18) our quarterly results have fluctuated significantly; (19) despite its global presence, Ingram Micro may fail to proactively identify and tap into emerging markets and geographies; (20) the possibility of our acquisition by Tianjin Tianhai / the HNA Group not being timely completed, if completed at all; and (21) prior to the completion of our acquisition by Tianjin Tianhai / the HNA Group, our business experiencing disruptions due to transaction-related uncertainty or other factors making it more difficult to maintain relationships with vendors, customers, licensees, other business partners or governmental entities, or retain key employees. We have historically instituted, and will continue to institute, changes to our strategies, operations and processes in an effort to address and mitigate risks; however, there are no assurances that Ingram Micro will be successful in these efforts. For a further discussion of significant factors to consider in connection with forward-looking statements concerning Ingram Micro, reference is made to our SEC filings, and specifically to Item 1A-Risk Factors, of our latest Annual Report on Form 10-K.
