To the Board of Directors of:
Latin American Casinos, Inc. and Subsidiaries

We have reviewed the accompanying consolidated balance sheets of Latin American Casinos, Inc. and Subsidiaries as of March 31, 2001, and the related consolidated statements of operations, changes in stockholders equity and cash flows for the three months ended March 31, 2001, in accordance with the Statements for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management of Latin American Casinos, Inc.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

The balance sheet for the year ended December 31, 2000 was audited by us and we expressed an unqualified opinion on it in our report dated March 15, 2001, and restated on March 12, 2002 but we have not performed any auditing procedures since that date.

LATIN AMERICAN CASINOS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF MARCH 31, 2001 AND DECEMBER 31, 2000

Note 1. Summary of Significant Accounting Policies

A Business and Organization

Latin American Casinos, Inc. (formerly Repossession Auction, Inc.) is a Delaware corporation incorporated on September 19, 1991. In 1994, the company entered in the gaming and casino business, primarily in Peru and other Latin American countries renting casino type slot machines.

In 1994, the company formed a Peruvian subsidiary; in 1995, the company formed a Colombian subsidiary and in 1997, the company formed a subsidiary in Nicaragua (which has subsequently been liquidated) that are in the gaming and casino business in Latin America (See Note 9C). The operations include the renting of casino slot machines to casino operators. As of March 31, 2001, the company had acquired approximately 8,000 slot machines, approximately 3,000 of which have been acquired for parts and other related equipment, at a total cost of \$3,944,111 including applicable costs for transportation, duty and refurbishing (See Note 10).

B Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the company and its wholly-owned subsidiaries, Latin American Casinos Del Peru S.A. (formerly known as Latin American Casinos, Inc. S.A.) a Peruvian Corporation and Latin American Casinos of Colombia LTDA, a Colombian Corporation effective September 23, 1997. The company incorporated World's Best Rated Cigar Company (World) as a wholly-owned subsidiary of Latin American Casinos, Inc., to distribute quality cigars. It was originally intended that the company would market premium cigars at "off price", and will acquire quality cigars from six South American producers and market them through large retail chains,

Edgar Filing: NUWAY ENERGY INC - Form 10QSB/A

initially on a consignment basis. The cigar operations have been slower than originally anticipated and as of March 31, 2001, the company had expended approximately \$1,190,000 in regard to the cigar operations. LATIN AMERICAN CASINOS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2001, AND DECEMBER 31, 2000

Note 1. Summary of Significant Accounting Policies (Continued)

C Property and Equipment

Property and Equipment are stated at cost. Depreciation is provided on accelerated and straight-line methods over the estimated useful lives of the respective assets. Maintenance and repairs are charged to expense as incurred; major renewals and betterments are capitalized. When items of property or equipment are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is included in the results of operations. Whenever there is a change in events or circumstances, the Company performs an impairment analysis by comparing the future undiscounted cash flows and if they are less than the carrying amount, and impairment charge is recorded to reduce the assets to its estimated fair value.

D Revenue Recognition

Revenue is recognized monthly on the rental of slot machines as the slot machines are placed in service. Typical rental arrangements for slot machines are for one year or less in duration with consistent rent income earned over the life of the lease. As a general rule the company does not incur any significant direct cost with the inception of a lease. All leasing expense, payroll and maintenance of equipment are charged to operations as incurred. Revenue on the sale of cigars are recorded when customer orders are shipped. The cost of cigar sales represents the direct cost of the product sold.

E Statement of Cash Flows

Edgar Filing: NUWAY ENERGY INC - Form 10QSB/A

For purposes of this statement, the company considers all liquid investments purchased with an original maturity of three months or less to be cash equivalents.

F Income (Loss) Per Common Share

Basic earnings per common share and common share equivalent were computed by dividing net (loss) by the weighted average number of shares of common stock outstanding during the period. Fully diluted earnings per share was calculated based on the assumption that the increase in the number of common shares assumed outstanding on conversion are reduced by the number of common shares that are assumed to be purchased with the proceeds from the exercise of the incentive stock options. During 2001 and 2000 all warrants, stock options and underwriter's options (Note 4, 5, 6) were anti-dilutive, and excluded from the computation of basic and diluted earnings (loss) per share. In the future these warrants, stock options, and underwriter options could be dilutive and as such future earnings per share would be diluted by 7,607,496 additional shares.

G Significant Concentration of Credit Risk

The company has concentrated its credit risk for cash by maintaining deposits in banks located within the same geographic region. The maximum loss that would have resulted from risk totaled \$4,266,000 and \$4,320,000 as of March 31, 2001 and December 31, 2000 for the excess of the deposit liabilities reported by the bank over the amounts that would have been covered by federal deposit insurance.

NOTES TO CONSOLIDATED FINANCIAL STATEMENT
AS OF MARCH 31, 2001 AND DECEMBER 31, 2000

Note 1. Summary of Significant Accounting Policies (Continued)

H Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the period reported. Actual results could differ from those estimates. Estimates are used when accounting for uncollectible accounts receivable, obsolescence, equipment depreciation and amortization, taxes, among others.

I Foreign Currency Translation

Edgar Filing: NUWAY ENERGY INC - Form 10QSB/A

For most international operations, assets and liabilities are translated into U.S. dollars at year-end exchange rates, and revenues and expenses are translated at average exchange rates prevailing during the year. Translation adjustments, resulting from fluctuations in exchange rates are recorded as a separate component of shareholders' equity, as other comprehensive income (loss).

J Inventories

Inventory of cigars and related material are stated at the lower of average cost or market.

K Valuation of Company's Stocks Options and Warrants

As permitted under the Statement of Financial Accounting Standards No. 123 (SFAS No.123), Accounting for Stock-Based Compensation, the Company accounts for its stock-based compensation to employees in accordance with the provisions of Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees. As such, compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price. Certain pro forma net income and EPS disclosures for employee stock options grants are also included in the notes to the financial statements as if the fair value method as defined in SFAS No. 123 had been applied. Transactions in equity instruments with non-employees for goods or services are accounted for by the fair value method.

The company expenses all advertising costs as incurred. Included in the statement of operations is approximately \$49,000 and \$34,000 advertising expense charged to operations for the six months ended June 30, 2001 and 2000, respectively. Substantially all advertising expense incurred is paid with a barter transaction.

C Foreign Assets

The accompanying consolidated balance sheets include assets relating to the company's slot machine operations in Peru and Colombia of \$3,520,000 and \$1,264,000 respectively. Although these countries are considered politically and economically stable, it is possible that unanticipated events in foreign countries could disrupt the company's operations. In that regard, the company was informed that in Peru an excise tax has been instituted effective October 1, 1996, on the leases of gaming equipment. The company with others in the industry negotiated with the appropriate governmental agencies and have had the excise tax significantly curtailed. In addition, a significant portion of the company's inventory in cigars is being stored in South America awaiting instructions to deliver them to the Miami location. Revenue from rental operation is entirely earned in Colombia and Peru.

D Lease Commitment

The company's Miami office is obligated for a three year lease for its premises, which expires in September, 2001 and requires monthly rent of \$2,500. In addition, the company is obligated for a two year lease for its warehouse space, at a monthly rent of \$1,400.

Future minimum payments required as of March 31, 2001 on all non cancelable leases in effect that are one year in duration or longer, are as follows:

	Total	Miami Faculty	Warehouse
	-----	-----	-----
Year 2001	\$ 27,600	\$ 15,000	\$ 12,600
Year 2002	16,800	-	16,800
	-----	-----	-----
Total	\$ 44,400	\$ 15,000	\$ 29,400

All other leases are less the 12 month in duration or are on a month to month bases.

Note 9 Impairment Charges

In March 2001, the company sold it's Miami property for an aggregate consideration of \$139,000 and recorded a net loss on disposition of \$64,000. The \$64,000 loss had been recorded as an impairment charge in the restated fiscal year 2000 financial statement. In addition, the company recorded an additional impairment loss due to obsolescence in value for certain slot machine parts of \$194,000. The impairment cost associated with gaming equipment parts was the result of non-usable parts previously recorded as part of the slot machine fixed asset costs on the accompanying balance sheet.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

General

The Company entered the gaming and casino industry in Peru in 1994. Since January 1995, the Company has been engaged in the renting of slot machines and other gaming equipment to licensed gaming establishments in various cities through its wholly owned subsidiaries in South and Central America. In 1994, the Company formed its Peruvian subsidiary in late 1995 the Company formed its Colombian subsidiary.

As of March 31, 2001, the Company had approximately 900 machines under rental contracts in Peru and Colombia.

The Company concentrates its efforts on the rental of used five reel slot machines. These machines were purchased at a fraction of the cost of new machines and are refurbished for use in South and Central America. Whereas a new slot machine would cost approximately \$10,000 plus additional charges for duty, the used slot machines cost approximately \$700 each including freight, duty, and refurbishing expenditures.

In March 1997, the Company expanded its slot machine operations in Colombia to include gaming slot route operations. In January 2000, the Company suspended these route operations due to increasing cost of maintaining these routes.

In September 1997, the Company incorporated World's Best Rated Cigar Company, as a wholly owned subsidiary, to distribute premium cigars. It was originally intended that the company would acquire quality cigars from six manufacturers and market them at "off price" through large retail chains. In February 2000, the marketing strategy was modified to include selling directly to consumers through our web site, www.worldsbestrated.com, and our toll free number. Substantially all advertising expense incurred is paid with barter transactions.

In March 2001, the company sold it's Miami property for an aggregate consideration of \$139,000 and recorded a net loss on disposition of \$64,000. The \$64,000 loss had been recorded as an impairment charge in the restated fiscal year 2000 financial statement. In addition, the company recorded an additional impairment loss due to obsolescence in value for certain slot machine parts of \$194,000. The impairment cost associated with gaming equipment parts was the result of non-usable parts previously recorded as part of the slot machine fixed

asset costs on the accompanying balance sheet.

Results of Operations

First Quarter

Revenues from the rental of slot machines in Peru and Colombia for the three months ended March 31, 2001 decreased by \$91,800 or 38.2 %, to \$148,350 from \$240,150 for the comparable period in 2000. The Company's revenues from cigar sales were \$33,900 in the first quarter of 2001 as compared to sales of \$24,300, an increase of \$9,600 or 39.5% for the same period in 2000.

The decrease in revenues was the result of an overall weakness of the economy in South America and the continued concerns over government-mandated obsolescence, political changes, increased competition as well as the increasing need to replace the older machines on rental with more modern machines.

Selling, general, and administrative expenses incurred in the quarter ended March 31, 2001 decreased \$10,500 or 5.0%, to \$517,000 from \$527,850 for the same period in 2000.

The decrease is due to a reduction in staffing in South America offset by employee severance payments in South America.

Net (loss) for the three months ended March 31, 2001 was (\$576,800) or (\$0.14) per share compared to (\$305,200) loss or (\$0.09) per share for the same period in 2000.

The net loss was attributable to the significant decline in revenues from slot machine operations, the write down of slot machine parts and the loss incurred on the sale, by the company, of it's real estate in Miami.

- 17 -

Through March 31, 2001 the Company expended approximately \$1,190,000 on the establishment of a premium cigar operation; minor additional expenditures for marketing and personnel are expected throughout the year 2001. No significant cost associated with acquisitions of new cigars and related inventory are expected in year 2001. The Company anticipates that it will generate increased revenues from this business in year 2001, although the amount of such increased revenues is, at this time, impossible to forecast. The effect that this business will have on the overall profitability or loss of the Company is uncertain.

Liquidity and Capital Resources

Cash and cash equivalents decreased approximately \$40,900 or less than 1%, to \$4,381,800 at March 31, 2001 from \$4,422,700 at December 31, 2000. The decrease is attributable to the poor results of the slot machine operations, partially offset by the sale of slot machines, and the continued slow growth of the cigar operations.

The Company anticipates that its cash position and interest earned on cash equivalents will be sufficient to meet its cash needs for the next twelve months. The Company does not have any commitments for material capital

expenditures.

(b) Form 8-K, Item 5, Dated January 5, 2001

Forward Looking Statements

From time to time, the Company may publish forward looking statements relating to such matters as anticipated financial performance, business prospects, new products and certain other matters. The words "may", "will", "expect", "anticipate", "continue", "estimate", "project", "intend" and similar expressions are intended to identify such forward looking statements. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. In order to comply with the terms of the safe harbor, the Company notes that a variety of factors could cause its actual results and experience to differ materially from anticipated results and other expectations that may effect the operations, performance, development and results of the Company's business, including the following:

1. Changes in government regulations of gaming, such as the excise tax imposed by Peru, could have an effect on the Company's operations and business.
2. Political factors affecting South and Central America, particularly as they pertain to currency valuation, could affect the Company's business in ways, which are difficult to predict.
3. The agreements, which the Company has with five of its cigar manufacturers, are cancelable upon 60 days written notice. One or more such cancellations could have a material adverse effect on the Company's cigar operations.
4. The Company's cigar operations are subject to all the risks and uncertainties associated with the development of a new enterprise. There can be no assurances that the Company will be able to successfully penetrate the market, or that its cigar operations will become profitable.
5. The Company may be required to raise additional funds to expand its business operations, particularly the cigar business, if it proves successful. There can be no assurances that the Company will be able to raise such funds, either through the sale of equity or debt securities or through commercial sources. The inability to acquire needed capital could have a material adverse effect on the Company's ability to expand.
6. The Company has a recently terminated it's merger negotiations with Digital Convergence Corporation. The Company is exploring potential business opportunities, which if consummated, could dramatically change the operations of the Company.
