**Notes to Condensed Consolidated Financial Statements**

March 31, 2003  
(Unaudited)

(1)

**Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions and requirements of Form 10-QSB and, therefore, do not include all information and footnotes necessary for a fair presentation of financial position, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States of America. In the opinion of management, such financial statements reflect all adjustments (consisting of normal recurring items) necessary for a fair statement of the results of operations, cash flows and financial position for the interim periods presented. Operating results for the interim periods are not necessarily indicative of the results that may be expected for the full year. These condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the fiscal year ended September 30, 2002, contained in the Company's Annual Report on Form 10-KSB for the fiscal year ended September 30, 2002 (SEC File Number 33-70334-A).

**Current Subsidiaries and Operations**

As used in this Form 10-QSB, the term "Company" refers, unless the context requires otherwise, to International Assets Holding Corporation and its three wholly owned subsidiaries; INTL Trading, Inc. ( "INTL Trading" ) (known as INTLTRADER.COM, INC. prior to a name change on December 9, 2002), INTL Assets, Inc. ( "INTL ASSETS" ) (known as International Asset Management Corp. prior to a name change on January 17, 2003) and IAHC (Bermuda) Ltd. ( "Bermuda" ) (known as OffshoreTrader.com Ltd. prior to a name change on February 7, 2003). All significant intercompany balances and transactions have been eliminated in consolidation.

The Company operates as a wholesale international securities firm. The Company acts as a market maker for equity securities, including American Depositary Receipts ( "ADRs" ), issued by non-U.S. issuers, and trades and invests in debt securities issued by non-U.S. issuers. These activities are primarily conducted through INTL Trading. During the quarter ended March 31, 2003 the Company also began to conduct fixed income trading and investing activities through IAHC (Bermuda) Ltd. ( "Bermuda" ).

(2)

**Sale of Certain Operations**

On December 13, 2001 the Company sold two of its wholly owned subsidiaries, International Assets Advisory, LLC and Global Assets Advisors, LLC, and its 50% membership interest in International Assets New York, LLC ( "IANY" ). These entities were engaged in retail securities, investment brokerage and management. In connection with this transaction, the buyer purchased 80,000 shares of the Company's common stock. The Company received \$907,240 from these transactions. The Company allocated \$827,240 of the proceeds to the sale of the two wholly owned subsidiaries and the 50% interest in IANY.

**Table of Contents**

INTERNATIONAL ASSETS HOLDING CORPORATION AND SUBSIDIARIES

**Notes to Condensed Consolidated Financial Statements, continued**

The Company allocated the remaining \$80,000 to the sale of common shares based on the fair market value of the stock. The Company had a book basis of \$414,231 related to the sale of its interests in the two subsidiaries and IANY. The Company recorded a gain of \$413,009 from the sale during the six months ended March 31, 2002, which was determined by deducting the book basis of \$414,231 from the proceeds of \$827,240.

The December 2001 sale included the Company's retail brokerage activity. Commission revenues from this activity were \$0 and \$404,500 for the six months ended March 31, 2003 and 2002, respectively. Management did not operate, monitor or specifically allocate expenses to this activity in a manner which would allow the Company to determine the profitability of this activity. The December 2001 sale also included the Company's investment management activity. Revenues from this activity were \$0 and \$6,292 for the six months ended March 31, 2003 and 2002, respectively. The investment management activity was directly related to the retail brokerage activity, including substantially the same sales staff, operations and research support. It was separated for purposes of securities licensing and regulation.

**Effects of Recent Accounting Pronouncements and Interpretations**

In November 2002, the FASB issued Interpretation No. 45, Guarantor's Accounting and Disclosure Requirement for Guarantees, Including Indirect Guarantees for Others. The interpretation addresses the disclosure to be made by a guarantor in its interim and annual financial statements about its obligations under guarantees. These disclosure requirements are included in the Commitments and Contingencies disclosure within this Form 10-QSB. The Interpretation also requires the recognition of a liability by a guarantor at the inception of certain guarantees. The Interpretation requires the guarantor to recognize a liability for the non-contingent component of the guarantee, which is the obligation to stand ready to perform in the event that specified triggering events or conditions occur. The initial measurement of this liability is the fair value of the guarantee at inception. The recognition of the liability is required even if it is not probable that payments will be required under the guarantee or if the guarantee was issued with a premium payment or as part of a transaction with multiple elements. The Company has evaluated the provisions of Interpretation No. 45 and determined it has one disclosure item. In December 2001, as part of the sale described in Note 2 above, the Company assumed responsibility for any liabilities related to prior operations of the institutional trading desk. This assumption of liabilities was provided because the Company's trading desk was previously operated under the subsidiary (International Assets Advisory Corp.) that was sold in December 2001. Accordingly, the buyer of the subsidiary never managed the trading activity and did not receive any future benefits from the trading activity.

## INTERNATIONAL ASSETS HOLDING CORPORATION AND SUBSIDIARIES

**Notes to Condensed Consolidated Financial Statements, continued**

In December 2002, the FASB issued SFAS No. 148 - Accounting for Stock - Based Compensation - Transition and Disclosure. This SFAS amends SFAS No. 123 - Accounting for Stock - Based Compensation to provide alternative methods of transition for entities electing the fair value based method of accounting for stock - based employee compensation. This SFAS also requires additional and more prominent disclosure related to accounting methods used for stock -based employee compensation and pro forma amounts related to any period accounted for under the intrinsic method of ABP Opinion 25. The Company will continue its policy to utilize APB Opinion 25 for the treatment of its stock based compensation and, accordingly, no compensation cost has been recognized for its stock options in the condensed consolidated financial statements. The Company is currently evaluating the effects of the disclosure provisions of SFAS 148. Had the Company determined compensation cost based on the fair value at the grant date for its stock options, the Company's net income (loss) per share would be reflected in the pro forma amounts indicated below:

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities. The interpretation addresses the consolidation of variable interest entities. The Company has evaluated the provisions of Interpretation No. 46 and determined it does not have any significant interests in any variable interest entities.

**Agreements for Sale of Preferred Stock and Change in Management**

On October 22, 2002, the Company entered into three Share Subscription Agreements (the Subscription Agreements) with three individual investors for the sale of common shares and preferred shares. On December 6, 2002, the Company and three investors amended the Subscription Agreements to provide for the purchase of only shares of Series A preferred stock and completed the transaction. As a result, the Company received additional capital of \$3,718,750 from the issuance of 2,187,500 Series A preferred shares at a price of \$1.70 per share. The Company received \$3,510,572 after transaction costs of \$208,178 which were

**Notes to Condensed Consolidated Financial Statements, continued**

settled in cash and an additional \$75,000 of transaction costs settled in 44,118 shares of the Company's common stock. The Subscription Agreements provided that the Series A preferred shares would be converted into shares of the Company's common stock upon the approval of the Company's shareholders. The Company's shareholders approved the conversion on February 28, 2003 and the 2,187,500 Series A preferred shares were converted into common shares on a one-for-one basis on the same date.

Pursuant to the Subscription Agreements, the Company agreed to appoint each of the new investors to its Board of Directors and to appoint one of the new investors as Chief Executive Officer and another as President. The Company has entered into employment agreements with both of these individuals. In connection with the transactions contemplated by the Subscription Agreements, the shareholders also approved a new stock option plan and an amendment of the Company's Certificate of Incorporation to require the vote of at least 75% of the Company's shareholders to remove or change the Company's Chairman of the Board. The Subscription Agreements and these transactions are described in the Company's two filings on Form 8-K submitted to the Securities and Exchange Commission on October 24, 2002 and December 10, 2002.

(5)

**Related Party Transactions**

On March 31, 2003, the Company received the final payment from an officer under a loan originally made to the officer on August 28, 2000.

(6)

**Reclassifications**

Certain prior period amounts have been reclassified to conform to current period presentation. These changes had no impact on previously reported results of operations or stockholders' equity.

(7)

**Basic and Diluted Earnings Per Share**

Basic earnings (loss) per share for the six months and three months ended March 31, 2003 and 2002 have been computed by dividing net income (loss) by the weighted average number of common shares outstanding.

Options to purchase 844,055 shares of common stock were excluded from the calculation of diluted earnings per share for the six months ended March 31, 2003 because their exercise prices exceeded the average market price of the common stock for the period.

Diluted loss per share for the three months ended March 31, 2003 and 2002 and for the six months ended March 31, 2002 were the same as basic loss per share because of the anti-dilutive impact of the potential common shares, due to the net loss for each of the periods. No options to purchase shares of common stock were considered in the calculation of diluted loss per share for the three months ended March 31, 2003 and 2002 and for the six months ended March 31, 2002 because of the anti-dilutive impact of the potential common shares, due to the net loss for each of the periods.

**Commitments and Contingent Liabilities**

As of March 31, 2003, the Company was a party to certain litigation. While the Company cannot predict the outcome of this litigation at this time, it is the opinion of management, given the probability of success by the Company, that the resolution of this litigation will not have a material adverse effect on the consolidated financial condition of the Company.

INTL Trading has entered into a fully disclosed clearing agreement dated November 15, 2002 with the Pershing Division of Donaldson, Lufkin & Jenrette Securities Corporation (Pershing). In January 2003, the Company began trading fixed income securities under this agreement. In April 2003, the Company began clearing its equity securities under this agreement. The agreement requires the Company to pay a termination fee when the Company terminates the agreement. The termination fee would be \$100,000 if the Company terminates in one year; \$50,000 if the Company terminates in year two; and reasonable and documentable deconversion-related expenses if the Company terminates in year three or thereafter.

The Company's principal operating activities are market-making and trading in international securities, which are highly competitive and extremely volatile. The earnings of the Company are subject to wide fluctuations because the Company's operations are subject to factors over which the Company has little or no control, particularly the overall volume of trading and the volatility and general level of market prices.

**Results of Operations:**

During the quarter ended March 31, 2003 ( Q2 2003 ), the Company continued to be an active market maker in select international equities, including unlisted ADRs and foreign ordinary shares. The Company also began actively trading select international debt securities, including emerging market sovereign and corporate bonds. In January 2003, the Company opened a New York office to support its expanding activities.

During the second quarter of 2003, the Company hired an additional equity salesperson and an additional operations person. As of March 31, 2003 the Company had 24 full time employees.

The Company's revenues are now derived primarily from trading revenue (net dealer inventory and investment gains) arising from international equity and debt securities activities. Trading revenues for H1 2003 were \$3,631,265, an increase of 99% over H1 2002. The increase in trading revenue stems from the development of new wholesale equity client relationships, retention of existing equity clients and the addition of debt trading activities.

For H1 2003, 99% of the Company's revenues were derived from trading revenue while for H1 2002, 80% of the Company's revenues were derived from trading revenue and 18% of revenues were derived from commissions. The change in revenue composition reflects the re-focusing of the business on wholesale trading and the Company's sale of its retail brokerage activity in December 2001.

**Table of Contents**

H1 2002 included commission revenue of \$404,500 and management and investment advisory fees of \$6,292. No additional revenue was generated in these categories during H1 2003 due to the sale of the retail brokerage operation and the investment advisory business in December 2001.

Interest income (expense), net was \$11,926 for H1 2003 compared to \$8,741 for H1 2002. This decrease is due to lower balances of interest producing assets, including money market balances, and lower market rates during H1 2003.

Dividend income (expense), net was (\$5,089) for the H1 2003 compared to \$7,990 for H1 2002. Dividend expense is generated when the Company holds short equity positions over a dividend record date.

Total expenses increased by approximately 14% to \$3,422,464 for H1 2003, up from \$3,003,986 for H1 2002. This increase in total expenses is mainly due to increases in compensation and benefits, professional fees and promotion expenses. These increases were partially offset by reductions in occupancy and equipment rental, depreciation and amortization and other expenses.

In H1 2003, 43% of total expenses related directly to compensation and benefits, with 33% of compensation and benefits expense being performance based incentives paid to traders. Clearing and related expense accounted for 25% of total expenses, promotion expense 5%, occupancy and equipment rental expense 6% and professional fees 7%.

Compensation and benefits expense for H1 2003 increased by 29% to \$1,456,108 compared to \$1,128,528 for H1 2002. This increase was due to higher performance based compensation due to increased revenues and profitability as well as increased staff levels.

Clearing and related expenses decreased 1% to \$870,021 for H1 2003, down from \$881,021 for the half ended March 31, 2002. This decrease is related to a decline in ADR conversion fees, which was largely offset by an increase in clearing fees arising from an increase in the number of trades processed.

Total promotion expense increased by approximately 82% to \$170,293 for H1 2003 compared to \$93,742 during H1 2002. This increase is primarily due to incremental promotion activities and recruitment undertaken to support the Company's expanding operations.

Occupancy and equipment rental expense decreased by 18% to \$192,277 for H1 2003 compared to \$233,657 for H1 2002 due to a relocation of the Altamonte Springs, Florida corporate office in February 2002 to less expensive leased office space. This saving was offset by several new equipment leases for telephone and computer equipment. The annualized net savings from the relocation of the Florida office are currently anticipated to be over \$150,000. The Company has also entered into a four-year lease for its newly established office in New York, which

**Table of Contents**

commenced operations in January 2003. Future occupancy and equipment rental expenses will reflect the annual commitment of \$77,700 for this new lease.

Professional fees increased by approximately 51% to \$254,733 for H1 2003 compared to H1 2002 due to legal fees related to one pending arbitration and one settled case discussed in more detail in Part II, Item 1 of this Form 10-QSB.

Insurance expense increased by 43% to \$100,092 for H1 2003 compared to H1 2002 due to increases in the cost of health insurance and other insurances. The cost of health insurance also increased due to increases in employee staff.

Depreciation and amortization expense decreased approximately 9% to \$180,392 for H1 2003 compared to H1 2002 due to the disposition of fixed assets related to the sale of the Company's retail activity in December 2001, as well as decreased software amortization due to the completed amortization of certain software previously acquired by the Company.

Other operating expenses decreased approximately 14% to \$198,548 for H1 2003 compared to H1 2002 due to reductions in director's fees and expenses, license and bond fees and reduced communications and technology expenses associated with the retail brokerage activity sold in December 2001.

The Company recognized income tax expense of \$93,866 during H1 2003. The amount of income taxes currently payable for H1 2003 was reduced by the utilization of the previously recognized net operating loss carryforward, a component of the deferred income tax assets. Management analyzed the valuation allowance of the remaining net operating loss carryforward and determined that no change in the amount was necessary at this time. Valuation of deferred tax assets depends upon a number of factors including the predictability of future earnings. Assuming the Company remains profitable, the ultimate realization of the net deferred tax assets, in excess of those amounts reported at March 31, 2003, could result in a future increase in reported earnings. The Company's effective income tax rate was approximately 43% for H1 2003.

The increase in trading revenue stems from the development of new wholesale equity client relationships, retention of existing clients and the addition of international debt trading activities.

For Q2 2003, 99% of the Company's revenues were derived from trading revenue while for Q2 2002, 97% of the Company's revenues were derived from trading revenue.

**Table of Contents**

Interest income (expense), net was \$7,679 for Q2 2003 compared to \$2,565 for Q2 2002. This increase is due to higher balances of interest producing assets, including money market balances during Q2 2003 compared to the same period in Q2 2002.

Dividend income (expense), net was (\$3,712) for Q2 2003 compared to \$3,571 for Q2 2002.

Total expenses increased by approximately 31% to \$1,729,412 for Q2 2003, up from \$1,321,189 for Q2 2002. This increase in total expenses is mainly due to increases in compensation and benefits, promotion, insurance and other expenses, which were partially offset by reductions in professional fees.

In Q2 2003, 42% of total expenses relate directly to compensation and benefits, with 31% of compensation and benefits expense being performance based incentives paid to traders. Clearing and related expense accounted for 26% of total expenses, promotion expense 5%, occupancy and equipment rental expense 6% and professional fees 4%.

Compensation and benefits expense for the Q2 2003 increased by 84% to \$724,836 compared to \$394,949 for Q2 2002. This increase was due to both increased performance compensation and additional staff employed to expand the Company's activities.

Clearing and related expenses decreased less than 1% to \$440,068 for Q2 2003, down from \$441,079 for Q2 2002. This decrease is related to a decrease in ADR conversion fees, which was largely offset by an increase in clearing fees arising from an increase in the number of trades processed.

Total promotion expense increased by approximately 54% to \$87,626 for Q2 2003 compared to \$56,955 during Q2 2002. This increase is primarily due to incremental promotion activities and recruitment undertaken to support the Company's ongoing operations.

Occupancy and equipment rental expense increased by 15% to \$109,343 for the Q2 2003 compared to Q2 2002 due to the costs of the newly established New York office, which became operational in January 2003 and increased equipment rental costs. Future occupancy and equipment rental expenses will reflect the annual commitment of \$77,700 for this new office lease.

Professional fees decreased by approximately 40% to \$72,996 for Q2 2003 compared to Q2 2002 due to one pending arbitration and one settled case further discussed in Part II, Item 1 of this Form 10-QSB.

Insurance expense was \$56,675 for Q2 2003 compared to \$26,557 for Q2 2002. This increase was due to increases in the cost of health insurance due to the increases in employee staff as well as escalation of the costs of various insurance policies.

## **Table of Contents**

Depreciation and amortization expense increased approximately 20% to \$103,236 for Q2 2003 compared to Q2 2002 due primarily to the acquisition of fixed assets for the new New York office.

Other operating expenses increased approximately 36% to \$134,632 for Q2 2003 compared to Q2 2002. This increase was primarily due to increased communication expense and an accrual to cover management's estimate of a liability arising from the Company's guarantee related to the sale of its retail brokerage activity.

The Company recognized income tax benefit of \$43,459 and \$67,201 for Q2 2003 and Q2 2002, respectively. The amount of income tax benefit for Q2 2003 is reduced by income tax expense from the prior quarter.

The Company's effective income tax rate was approximately 34% and 14% for quarters ended March 31, 2003 and 2002. The 14% income tax benefit rate for Q2 2002 differed from the expected U.S. federal income tax rate of 34% because income tax expense generated during the quarter ended December 31, 2001 was reversed during the quarter ended March 31, 2002 due to the quarter's loss exceeding the prior period's profitability.

## **Liquidity and Capital Resources**

Substantial portions of the Company's assets are liquid. The majority of the assets consist of securities inventories, which fluctuate depending on the levels of customer business. At March 31, 2003, approximately 89% of the Company's assets consisted of cash, cash equivalents, receivables from clearing organizations and marketable securities. All assets are financed by the Company's equity capital, short-term borrowings from securities sold, not yet purchased and other payables.

Distributions to the Company from INTL Trading, the Company's broker/dealer subsidiary, are restricted by applicable law and regulations. The Company's right to receive distributions from any subsidiary are also subject to prior claims of the subsidiary's creditors, including customers of INTL Trading.

INTL Trading is subject to the requirements of the SEC and the NASD relating to liquidity and net capital levels. At March 31, 2003, INTL Trading had net capital of \$2,106,501, which was \$1,753,501 in excess of its minimum net capital requirement on that date.

Included in this computation of net capital is a \$500,000 subordinated loan to INTL Trading from the Company made on January 31, 2003. This loan has a scheduled maturity date of February 28, 2004 and an interest rate of 3%. The terms of repayment at scheduled maturity are subject to numerous restrictions based on the then net capital of INTL Trading. If certain net capital requirements of INTL Trading are not maintained, it will not be permitted to repay this subordinated loan until the requirements are satisfied. This inter-company loan has been eliminated from the consolidated balance sheets of the Company.

The Company's total assets and liabilities and the individual components thereof may vary significantly from period to period because of changes relating to customer

## **Table of Contents**

needs and economic and market conditions. The Company's total assets at March 31, 2003 and September 30, 2002, were \$17,052,597 and \$11,572,179, respectively. The Company's operating activities generate or utilize cash resulting from net income or loss earned during the period and fluctuations in its assets and liabilities. The most significant fluctuations arise from changes in the level of customer activity and securities inventory changes resulting from proprietary arbitrage trading strategies dictated by prevailing market conditions.

In addition to normal operating requirements, capital is required to satisfy financing and regulatory requirements. The Company's overall capital needs are continually reviewed to ensure that its capital base can appropriately support the anticipated capital needs of its operating subsidiaries. The excess regulatory net capital of the Company's broker-dealer subsidiary may fluctuate throughout the year reflecting changes in inventory levels and/or composition and balance sheet components.

In the opinion of management, the Company's existing capital and cash flow from operations will be adequate to meet the Company's capital needs for at least the next twelve months in light of known and reasonably estimated trends.

## **Cash Flows**

For the six months ended March 31, 2003, cash and cash equivalents increased by \$1,037,252. Funds used in operating activities were \$2,219,075 for the period ended March 31, 2003, compared to funds provided by operating activities of \$652,002 for March 31, 2002. This use of operating funds in 2003 was primarily due to the change in the composition of securities owned, securities sold, not yet purchased and the net receivable and payable to clearing organization.

During the six months ended March 31, 2003, the Company reported cash used in investing activities of \$246,045. This use for investing activities was primarily due to the purchase of leasehold improvements and equipment of \$272,263, primarily for the Company's new office in New York City. This use of cash was partially offset by the proceeds from the sale of assets of \$4,750 and the payment of \$21,468 with respect to a loan to an officer.

Net cash provided by financing activities was \$3,502,372, which was primarily comprised of the net proceeds from the sale of 2,185,700 shares of preferred stock in December 2002. The Company received \$3,718,750 from the sale, less transaction costs of \$208,178 which were settled in cash, and an additional \$75,000 of transaction costs settled in 44,118 shares of the Company's common stock.

**PART II - OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

As of March 31, 2003, the Company was party to certain litigation, which primarily related to matters arising in the ordinary course of business. While the Company cannot predict the outcome of these actions at this time, it is the opinion of management, given the probability of success by the Company, that the resolution of these matters will not have a material adverse effect on the consolidated financial condition of the Company.

On January 4, 2001, the Company commenced an arbitration proceeding with the NASD related to the sudden departure, on December 19, 2000, of the head of the Company's foreign trading desk and his recruitment of the Company's entire trading staff. This arbitration proceeding was filed against the broker-dealer who became the employer of the recruited employees, two principals of the broker-dealer, two affiliated securities firms of the broker-dealer and two principals of those affiliated firms. The Company alleged that these parties had engaged in raiding, unfair competition, misappropriation of trade secrets and other wrongful actions. On March 14, 2001, the broker-dealer who became the employer and two of its principals responded and filed a counterclaim against the Company. The Company disputed the counterclaim and continues to vigorously defend it. On March 19, 2001, the two affiliated securities firms of the broker-dealer also filed counterclaims as well as claims for attorney's fees. Effective September 30, 2002, the Company agreed to settle its claims against the two affiliated securities firms and the two principals of those firms. Under the settlement, the Company received \$200,000. The Company has continued to pursue its claims against the broker-dealer and the two principals of the broker-dealer. The NASD held an arbitration hearing for this matter during November 2002, which has been continued until September 2003.

**Table of Contents**

On March 31, 2003, the Company settled litigation originally commenced by the Company on April 1, 2002, against a New York Stock Exchange listed company. Under the terms of the settlement, the Company and the defendant agreed to dismiss their respective claims, and no financial payments or restrictive requirements were required by either party. This settlement includes the dismissal of the pending litigation before the Circuit Court in Orange County, Florida as well as dismissal of the NASD arbitration for the same matter.
