Item 8.01. Other Events

OGE Energy Corp. (the "Company") is the parent company of Oklahoma Gas and Electric Company ("OG&E"), a regulated electric utility with approximately 828,000 customers in Oklahoma and western Arkansas. In addition, the Company holds a 26.3 percent limited partner interest and a 50 percent general partner interest in Enable Midstream Partners, LP.

As previously reported, on December 18, 2015, OG&E filed an application with the Oklahoma Corporation Commission ("OCC") requesting an annual rate increase of \$92.5 million to begin recovering \$1.6 billion of electrical infrastructure additions since OG&E's last general rate in 2012. The hearing on the merits for OG&E's rate case application was heard by an administrative law judge ("ALJ") and concluded in May 2016. While there is no statutory deadline for the ALJ to make a recommendation or for the OCC to issue a final order, OG&E is allowed to implement interim rates 180 days after the filing of its application with the OCC.

On June 29, 2016, OG&E announced it will implement an annual interim rate increase of \$69.5 million, effective July 1, 2016, and simultaneously reduce the amount it collects from customers for fuel costs. The interim rates are subject to refund of any amount recovered in excess of the rates ultimately approved by the OCC in the rate case.

OG&E cannot predict when the ALJ or OCC will act upon the rate case. The related press release is furnished as Exhibit 99.01 and incorporated herein by reference.
