PART I. ITEM 2. PLAN OF OPERATION

PLAN OF OPERATION

The Company plans to continue to design, market, sell and maintain customized and turnkey web sites on the Internet that are hosted by third parties. To date, revenues from these services have been minimal. The Company hopes to generate increased revenue through the expenditure of additional funds for marketing, advertising and promotion, assuming public liquidity allows. The Company believes that the revenue generated from operations may not be sufficient to finance future activities and that it may be necessary to raise additional funds through equity and/or debt financing in the next twelve months. There is no assurance that the Company will be able to generate additional capital for marketing, advertising and promotion and/or other purposes. In the event that only limited additional financing is received, the Company expects its opportunities in the design, marketing, and sale of Internet web sites to be limited. The Company would also consider the sale of its technology.

If the Company is unable to raise additional capital to support our future operations, we may begin exploring business opportunities for possible investments and/or business combinations with companies that may be outside of our original business plan. As of the date of this filing, we have had no discussions and no agreements have been reached with any third parties regarding such an investment or business combination.

The Company is currently maintaining operations through working capital advances provided by an affiliate company owned 100 percent by David Olson, the Company's president. There is no assurance that the affiliate will continue to provide working capital advances for any period of time.

The Company does not intend to hire any additional employees in the foreseeable future. The Company does not intend to make significant equipment purchases or conduct any research and development within the next twelve months.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements within the meaning of federal securities laws. These statements plan for or anticipate the future. Forward-looking statements include statements about our future business plans and strategies, statements about our need for working capital, future revenues, results of operations and most other statements that are not historical in nature. In this Report, forward-looking statements are generally identified by the words "intend", "plan", "believe", "expect", "estimate", and the like. Investors are cautioned not to put undue reliance on forward-looking statements.

Edgar Filing: EASYWEB INC - Form 10QSB

Except as otherwise required by applicable securities statutes or regulations, the Company disclaims any intent or obligation to update publicly these forward-looking statements, whether as a result of new information, future events or otherwise. Because forward-looking statements involve future risks and uncertainties, these are factors that could cause actual results to differ materially from those expressed or implied.
