(Casino France), a publicly traded French joint stock limited liability company, is the principal shareholder of the Parent. Collectively, Casino France and its subsidiaries own approximately 59.8 percent of the Company's common stock as of June 16, 2002.

The consolidated balance sheet as of June 16, 2002 and the consolidated statements of income and cash flows for the twelve weeks and twenty-four weeks ended June 16, 2002 and June 17, 2001 are unaudited. In the opinion of management, all adjustments which consisted of normal recurring items necessary for a fair presentation of these financial statements in conformity with accounting principles generally accepted in the United States have been included.

These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Form 10-K for the year ended December 30, 2001, as amended.

**2. Restatement of Financial Statements**

On April 22, 2002 the Company announced it had identified certain accounting issues at its Stockton, California broadline foodservice subsidiary impacting prior years previously reported operating results that would cause it to restate its financial statements. The Company's investigation of these matters has resulted in the Company restating its audited financial statements for fiscal years 2001, 2000 and 1999 including the cumulative effect of prior-years restated results in the Company's filing on Form 10-K/A Amendment No. 2. The dollar amounts for the 2001 periods presented in this Form 10-Q reflect the aforementioned restatement adjustments, as applicable.

**3. Fiscal Years**

The Company's fiscal year ends on the Sunday closest to December 31. Each fiscal year consists of twelve-week periods in the first, second and fourth quarters and a sixteen-week period in the third quarter.

**Table of Contents****SMART & FINAL INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****4. Goodwill**

Effective December 31, 2001, the Company adopted Statement of Financial Accounting Standards ( SFAS ) No. 142, Goodwill and Other Intangible Assets . SFAS No. 142 requires that an intangible asset that is acquired shall be initially recognized and measured based on its fair value. The statement also provides that goodwill should not be amortized, but shall be tested for impairment annually, or more frequently if circumstances indicate potential impairment, through a comparison of fair value to its carrying amount. Accordingly, the Company performed a transitional impairment test on its existing goodwill and found no impairment as of June 16, 2002.

The following pro forma information presents the impact on net income and earnings per share had SFAS No. 142 been effective for the twelve weeks and twenty-four weeks ended June 17, 2001, dollars in thousands except per share amounts. **5. Derivatives**

As of June 16, 2002, the Company had interest rate collar agreements with various banks to limit the impact of interest rate fluctuations on floating rate debt. These agreements, expiring during various periods from October 2002 to November 2004, hedge principal amounts of an aggregate of \$100 million and limit the effect of LIBOR fluctuations to interest rate ranges from 4.74% to 8.00%. These agreements are designated as cash flow hedges and are considered fully effective. Accordingly, the effective portions of changes in fair values of these agreements are

**Table of Contents****SMART & FINAL INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

recorded as other comprehensive income ( OCI ) and are reported on the statement of income when the hedged forecasted transaction affects earnings or the hedged item becomes ineffective.

As of June 16, 2002, these agreements had a cumulative loss of \$4,030,000 recorded to OCI as a result of net changes in their fair market values. For the twenty-four weeks ended June 16, 2002, the reduction in the cumulative loss that was recorded to OCI was \$43,000. **8. Income Taxes**

The Company and the Parent are parties to a tax sharing arrangement covering income tax obligations in the state of California. Under this arrangement, the Company has made tax sharing payments to, or received benefits from, the Parent based upon pre-tax income for financial reporting purposes adjusted for certain agreed upon items. Tax sharing payments made by the Company to the Parent were \$218,000 and \$349,000 in the twenty-four weeks ended June 16, 2002 and June 17, 2001, respectively. The Company paid \$55,000 and \$36,000 state income taxes for states other than California in the twenty-four weeks ended June 16, 2002 and June 17, 2001, respectively. The Company paid \$1,070,000 and \$2,150,000 of federal income taxes in the twenty-four weeks ended June 16, 2002 and June 17, 2001, respectively.

**9. Earnings per Common Share**

Earnings per common share is based on the weighted average number of common shares outstanding. Earnings per common share, assuming dilution includes the weighted average number of common stock equivalents outstanding related to employee stock options and other stock agreements.

**10. Segment Reporting**

The Company has two reportable segments: Stores and broadline Foodservice. The Stores segment provides food and related items in bulk sizes and quantities through non-membership grocery warehouse stores. The broadline Foodservice distribution segment provides delivery of food, restaurant equipment and supplies to mainly restaurant customers and Smart & Final stores. Corporate Expense is comprised primarily of the Company's corporate expenses incidental to the activities of the reportable segments and rental income from Smart & Final stores and Smart & Final de Mexico S.A. de C.V. (the Company's 100%-owned subsidiary that holds 50% of a joint venture operating in Mexico). The Company's reportable segments are strategic business units that offer different products and services. They are managed separately because each segment requires different technology and marketing strategies.

The Company does not allocate interest, income taxes or nonrecurring gains and losses to the reportable segments. These costs are included in Corporate Expense below. The Company evaluates performance based on profit or loss from operations before income taxes not including nonrecurring gains and losses.

**11. Legal Actions**

The Company has been named as a defendant in various legal actions arising in the normal conduct of its business. The Company has also been named as defendant in a suit filed on September 13, 2001 in the Superior Court of the State of California for the County of Los Angeles. This suit, *Sergio Camacho vs. Smart & Final Inc.*, was filed by the plaintiff, on his behalf and on behalf of all other Company store managers and assistant managers in California, alleging that the Company misclassified the status of store managers and assistant managers in California as exempt employees for employment purposes. The action seeks to be classified as a class action and seeks unspecified monetary damages. The Company is actively investigating the merits of this action and believes that (a) the merits of this action do not warrant class action status; (b) the Company has certain defenses to the claim; and (c) the ultimate determination of this action will not have a material adverse effect on the Company's results of operations or financial position.

The Company is a defendant in a number of other lawsuits or is otherwise a party to certain litigation arising in the ordinary course from its operations. The Company does not believe that the ultimate determination of these cases will either individually or in the aggregate have a material adverse effect on the Company's results of operations or financial position.

Management continually assesses each store's profitability on a pre-tax profit basis after allocation of corporate expenses. Stores not meeting strategic management objectives for profitability, market penetration, and/or other measures are evaluated for closure or relocation. Generally, stores opened in mature markets are expected to achieve profitability within 18 months of operations. However, there can be no assurance that the Company will be able to open new stores in a timely manner; to hire, train and integrate employees; to continue locating and obtaining favorable store sites; or to adapt distribution, management information and other operating systems sufficiently to support store growth in a successful and profitable manner.

Each of the Company's fiscal years consists of twelve-week periods in the first, second and fourth quarters of the fiscal year and a sixteen-week period in the third quarter.

**Comparison of Twelve Weeks Ended June 16, 2002 with Twelve Weeks Ended June 17, 2001.**

*Sales.* Second quarter 2002 sales were \$476.1 million, up 2.7% from \$463.6 million in the second quarter of 2001.

Store sales increased 5.7%, from \$365.9 million in second quarter 2001 to \$386.6 million in second quarter 2002. Comparable store sales for the second quarter of 2002 increased 3.5%

**Table of Contents**

over the prior year's same quarter. Average comparable transaction size decreased by 0.3% to \$38.69 in the second quarter of 2002.

Foodservice sales decreased 8.4%, from \$97.7 million in the second quarter of 2001 to \$89.5 million in the current year's second quarter. Sales growth in the second quarter of 2002 was adversely affected by the continuation of decreased travel and tourism following the events of September 11, 2001 as well as the general economic downturn.

*Gross Margin.* Gross margin decreased 0.9%, from \$65.3 million in the second quarter of 2001 to \$64.8 million in the current year quarter. As a percentage of sales, gross margin decreased from 14.1% in the prior year's second quarter to 13.6% in second quarter 2002.

Gross margins in the Stores segment increased \$1.6 million to \$58.5 million, but as a percentage of sales, decreased compared to the prior year's same quarter. The decrease in gross margins as a percentage of sales primarily reflects the lower merchandise margins and higher occupancy costs associated with new and relocated stores opened since the second quarter of 2001.

Gross margins in the Foodservice segment decreased \$2.2 million to \$6.3 million. Gross margins as a percentage of sales decreased at both the Florida and northern California units. Warehouse and transportation costs as a percentage of sales increased due to decreased sales and were partially offset by increased merchandise margins. The decrease in gross margin rate in the northern California unit was also impacted by an unfavorable sales mix.

*Operating and Administrative Expenses.* Operating and administrative expenses for the second quarter of 2002 were \$59.0 million, up \$2.0 million, or 3.5%, over the second quarter of 2001. These expenses, as a percentage of sales, increased from 12.3% in the second quarter of 2001 to 12.4% in the second quarter of 2002. Operating and administrative expenses increased in the Stores segment due to increased store labor in support of the program to improve service and support sales as well as increased fringe benefit and utility costs. Operating and administrative expenses decreased in the Foodservice segment due to overall expense reductions in the northern California unit and the continuing cost control in the Florida unit. Corporate expenses decreased primarily due to the gain from sale of property recorded in the second quarter of 2002.

*Interest expense, net.* Interest expense, net increased from \$2.8 million recorded in second quarter 2001 to \$2.9 million in the second quarter of 2002 due to higher average outstanding debt level that was partially offset by rate reductions as a result of the declining market rates.

**Comparison of Twenty-Four Weeks Ended June 16, 2002 with Twenty-Four Weeks Ended June 17, 2001.**

*Sales.* Sales were \$921.0 million, up 3.7% from \$887.8 million, for the twenty-four weeks ended June 16, 2002.

Store sales increased 6.7%, from \$690.5 million in the first half of 2001 to \$736.6 million in first half of 2002. Comparable store sales for the first half of 2002 increased 4.1% over the

**Table of Contents**

prior year's same period. Average comparable transaction size decreased by 0.9% to \$38.14 in the first half of 2002.

Foodservice sales decreased 6.6%, from \$197.3 million in the first half of 2001 to \$184.3 million in the current year's same period. Sales growth in the first half of 2002 was adversely affected by the continuation of decreased travel and tourism following the events of September 11, 2001 as well as the general economic downturn.

*Gross Margin.* Gross margin increased 1.0%, from \$123.1 million in the first half of 2001 to \$124.3 million in the current year's same period. As a percentage of sales, gross margin decreased from 13.9% in the first half of prior year to 13.5% in the first half of 2002.

Gross margins in the Stores segment increased \$2.5 million to \$109.7 million in the first half of 2002, but as a percentage of sales, decreased compared to the first half of 2001. The decrease in gross margins as a percentage of sales primarily reflects the lower merchandise margins and higher occupancy costs associated with new and relocated stores opened during 2001 and in the first two quarters of 2002.

Gross margins in the Foodservice segment decreased \$1.3 million to \$14.6 million in the first half of 2002 when compared to the same period of 2001. Warehouse and transportation costs decreased slightly in the first half of 2002 but as a percentage of sales, increased due to decreased sales and were partially offset by increased merchandise margins. The gross margin rates were also impacted by an unfavorable sales mix in the northern California unit.

*Operating and Administrative Expenses.* Operating and administrative expenses for the first half of 2002 were \$114.4 million, up \$3.3 million, or 3.0%, over the first half of 2001. These expenses, as a percentage of sales, decreased from 12.5% in the equivalent period of 2001 to 12.4% in the first half in 2002. Operating and administrative expenses increased in the Stores segment due to increased store labor in support of the program to improve service and support sales as well as increased fringe benefit and utility costs. Operating and administrative expenses increased slightly in the Foodservice segment as the increase in northern California unit was offset by the decrease in the Florida unit. Corporate expenses decreased primarily due to increased gain from sale of property in the first half of 2002.

*Interest expense, net.* Interest expense, net was \$5.9 million in the first half of 2002, same as in the equivalent period of 2001 as the impact of the increase in the average outstanding debt level was offset by rate reductions as a result of the declining market rates.

**Financial Condition**

Cash and cash equivalents were \$23.0 million at December 30, 2001, and \$27.1 million at June 16, 2002. Operating activities provided cash of \$20.9 million for the twenty-four weeks ended June 16, 2002. For the first half of 2002, net cash used in investing activities was \$22.4 million, comprised of \$23.0 million in capital expenditures in support of Stores and Foodservice segments and \$3.5 million used in other investing activities, partially offset by \$4.1 million proceeds from the sale of store properties. For the first half of 2002, net cash provided by financing activities was \$5.6 million.

During the twenty-four weeks ended June 16, 2002, inventories decreased by \$8.5 million and the related accounts payable decreased \$9.5 million. Trade notes and accounts receivable decreased \$9.5 million. Decreases in inventories and trade notes and accounts receivable were partially offset by decreases in accounts payable, accrued salaries and wages and other accrued liabilities and increased prepaid expenses and other current assets. Changes in operating assets and liabilities generally reflect the timing of receipts and disbursements.

Stockholders' equity increased by \$3.2 million to \$274.8 million at June 16, 2002 as a result of the \$2.6 million net income for the first half of 2002 plus \$0.3 million amortization resulting from restricted stock agreements and \$0.3 million decrease in accumulated OCI. The decrease in accumulated OCI includes primarily the foreign currency translation adjustment.

**Liquidity and Capital Resources**

Historically, the Company's primary source of liquidity has been cash flows from operations. Additionally, the Company has availability under bank credit facilities. Net cash provided by operating activities was \$20.9 million in the first half of 2002 as compared to \$8.0 million in the first half of 2001. The \$20.9 million cash provided by operations was due primarily to \$9.5 million decreased accounts receivable, in both Stores and Foodservice segments, and \$8.5 million decreased inventory. Inventory decreased \$5.8 million in the Stores segment and \$2.7 million in the Foodservice segment. At June 16, 2002, the Company had cash of \$27.1 million, compared to \$23.0 million at December 30, 2001. The Company had \$144.0 million of debt, excluding capital leases, at June 16, 2002, compared to \$137.0 million at December 30, 2001, and stockholders' equity of \$274.8 million at June 16, 2002.

The Company has in place a \$175.0 million three-year senior secured revolving credit facility ( "Credit Agreement" ) with a syndicate of banks that expires on November 30, 2004. As of June 16, 2002, \$139.0 million of revolving debt and \$3.6 million of letters of credit were outstanding. At June 16, 2002, the remaining availability under the Credit Agreement was \$9.5 million according to a formula based on the value of eligible accounts receivable and inventory. As of June 16, 2002, the Company also has in place a five-year operating lease agreement ( "Lease Agreement" ) that provides for financing of three distribution facilities and 15 store locations. There are several banks and financing institutions as well as Casino USA that are participants in the Lease Agreement. Casino USA's share of participation is \$16.1 million.

The Company expects to be able to fund future acquisitions and other cash requirements by a combination of available cash, cash from operations and other borrowings and proceeds from the issuance of equity securities. The Company believes that its sources of funds are

adequate to provide for working capital, capital expenditures, and debt service requirements for the foreseeable future.

**New Accounting Pronouncements**

See Note 4 Goodwill for discussion of the Company's adoption of SFAS No. 142.

**Table of Contents**

**Item 3. *Quantitative and Qualitative Disclosure about Market Risk***

The Company is exposed to market risks relating to fluctuations in interest rates and the exchange rate between the U.S. Dollar and Mexican Peso. The Company's financial risk management objective is to minimize the negative impact of interest rate fluctuations on the Company's earnings and cash flows. As of June 16, 2002, the Company's exposure to foreign currency risk was limited. Additionally, the Company is exposed to the market fluctuations associated with stock the Company received as a result of the demutualization transactions of a mutual insurance company in December 2001. As of June 16, 2002, the fair market value of the stock was \$1.3 million.

*Interest Rate Risk*

Interest rate risk is managed through the use of interest rate collar agreements to limit the impact of interest rate fluctuations on floating rate debt. These agreements, expiring during various periods from October 2002 to November 2004, hedge principal amounts of an aggregate of \$100 million and limit the effect of LIBOR fluctuations to interest rate ranges from 4.74% to 8.00%. These agreements are entered into with major financial institutions thereby minimizing risk of credit loss.

*Foreign Currency Risk*

The Company's exposure to foreign currency risk is limited to the Company's operations under Smart & Final de Mexico S.A. de C.V. ( Smart & Final Mexico ) and the equity earnings in its Mexico joint venture. As of June 16, 2002, such exposure was the \$4.4 million net investment in Smart & Final Mexico, comprised primarily of its Mexico joint venture. The Company's other transactions are conducted in U.S. dollars and are not exposed to fluctuations in foreign currency. The Company does not hedge its foreign currency and therefore is not exposed to such hedging risk.

*Credit Risk*

The Company is exposed to credit risk on trade notes and accounts receivable. The Company provides credit primarily to foodservice distribution customers in the ordinary course of business and performs ongoing credit evaluations. Concentrations of credit risk with respect to trade notes and accounts receivables are limited due to the number of customers comprising the Company's customer base. The Company currently believes its allowance for doubtful accounts is sufficient to cover customer credit risks.
