## U.S. SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, DC 20549

### Form 10-QSB

**Quarterly report under Section 13 or 15(d) of the Securities Exchange Act of 1934**

For the quarterly Period Ended September 30, 2003

**Transition report under Section 13 or 15(d) of the Exchange Act**  
Commission file number 001-15169

### Perficient, Inc.

(exact name of small business issuer as specified in its charter)

**Delaware**  
(state or other jurisdiction  
of incorporation or organization)

**74-2853258**  
(I.R.S. employer  
identification no.)

**1120 South Capital of Texas Highway, Suite 220, Bldg. 3**  
**Austin, TX 78746**

(address of principal executive offices)

**(512) 531-6000**

(Issuer's telephone number, including area code)

**None**

(former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the issuer (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days:

(1) Yes  No

(2) Yes  No

The number of shares of the Issuer's Common Stock outstanding as of September 30, 2003 was 11,009,997.

PERFICIENT, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

## Edgar Filing: PERFICIENT INC - Form 10QSB

The accompanying unaudited financial statements of Perficient, Inc. (the "Company"), have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2003 may not be indicative of the results for the full fiscal year ending December 31, 2003. These unaudited financial statements should be read in conjunction with the Company's financial statements filed with the United States Securities and Exchange Commission in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2002, as amended.

Certain amounts from prior periods have been reclassified to conform to the current period presentation.

### 2. Summary of Significant Accounting Policies

#### Stock-Based Compensation

Statement of Financial Accounting Standards ("SFAS") No. 123, *Accounting for Stock-Based Compensation*, prescribes accounting and reporting standards for all stock-based compensation plans, including employee stock options. As allowed by SFAS No. 123, the Company has elected to account for its employee stock-based compensation in accordance with Accounting Principles Board Opinion No. 25, *Accounting For Stock Issued To Employees* ("APB 25"), which allows the use of the intrinsic value method. The Company's basis for electing accounting treatment under APB 25 is principally due to the incorporation of the dilutive effect of these shares in the reported earnings per share calculation and the presence of pro forma supplemental disclosure of the estimated fair value methodology prescribed by SFAS No. 123 and SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure*. The fair value of options was calculated at the date of grant using the Black-Scholes pricing model with the following weighted-average assumptions for the three and nine months ended September 30, 2002 and 2003: risk free interest rate of 3.5%; dividend yield of 0%; weighted-average expected life of options of 5 years; and a volatility factor of 1.066.

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options which have no vesting restrictions and which are fully transferable. In addition, option valuation models in general require the input of highly subjective assumptions, including the expected stock price volatility. Because the Company's employee stock options have characteristics significantly different than traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a single reliable measure of the fair value of its stock options.

6

The following table illustrates the effect on net income (loss) and earnings per share if the company had applied the fair value recognition provisions of SFAS 123:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2002	2003	2002	2003
Net income (loss) as reported	\$ (507,195)	\$ 424,265	\$ (1,715,845)	\$ 516,188
Total stock-based compensation costs included in the determination of net loss available to common stockholders as reported	74,754	25,889	189,557	110,038
The stock-based employee compensation cost that would have been included in the determination of net income (loss) available to common stockholders if the fair value based method had been applied to all awards	(736,296)	(448,028)	(2,051,609)	(1,624,250)
Pro forma net income (loss)	(1,168,737)	2,126	(3,577,897)	(998,024)

Edgar Filing: PERFICIENT INC - Form 10QSB

Diluted pro forma	\$ (0.14)	\$ (0.00)	\$ (0.69)	\$ (0.11)

**Revenue Recognition**

Revenues are primarily derived from professional services provided on a time and materials basis, with the remaining revenue derived from fixed fee engagements and software sales. For time and material contracts, revenue is recognized and billed by multiplying the number of hours expended in the performance of the contract by the established billing rates. For fixed fee projects, revenue is generally recognized using the proportionate performance method. Provisions for estimated losses on uncompleted contracts are made on a contract-by-contract basis and are recognized in the period in which such losses are determined. Billings in excess of costs plus earnings are classified as deferred revenues. On many projects the Company is also reimbursed for out-of-pocket expenses such as airfare, lodging and meals. These reimbursements are included as a component of revenue in accordance with

7

the Financial Accounting Standards Board's Emerging Issues Task Force 01-14, *Income Statement Characterization of Reimbursements Received for "Out-of-Pocket" Expenses Incurred*. In accordance with the Securities and Exchange Commission's Staff Accounting Bulletin 101, *Revenue Recognition in Financial Statements*, revenue from software resales is recorded on a gross basis provided the Company acts as a principal in the transaction. In the event the Company does not meet the requirements to be considered a principal in the software resale transaction and acts as an agent, the revenue would be recorded on a net basis.

**Intangible Assets**

Intangible assets, primarily resulting from purchase business combinations, are being amortized using the straight-line method with a life of two to three years for employment and non-compete agreements and a life of three to five years for customer relationship intangibles.

On January 1, 2002, the Company adopted SFAS 141, *Business Combinations*, and SFAS No. 142, *Goodwill and Other Intangible Assets*. Under these rules, ratable amortization of intangibles assets with indefinite lives, including goodwill, has been replaced with periodic review and analysis to assess possible impairment. Intangible assets with definite lives must be amortized over their estimated useful lives. In accordance with SFAS No. 142, the Company assesses its goodwill on October 1 of each year or more frequently if events or changes in circumstances indicate that goodwill might be impaired.

**Use of Estimates**

## Edgar Filing: PERFICIENT INC - Form 10QSB

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

### 3. Segment Information

The Company follows the provisions of SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*. SFAS No. 131 requires a business enterprise, based upon a management approach, to disclose financial and descriptive information about its operating segments. Operating segments are components of an enterprise about which separate financial information is available and regularly evaluated by the chief operating decision maker(s) of an enterprise. Under this definition, the Company operates as a single segment for all periods presented. The Company's chief operating decision maker is considered to be the Chief Executive Officer and Chairman of the Board. The chief operating decision maker allocates resources and assesses performance of the business and other activities at the consolidated level.

### 4. Earnings Per Share

The Company follows the provisions of SFAS No. 128, *Earnings Per Share*. Basic earnings per share is computed by dividing net income (loss) available to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per share includes the weighted average number of common shares outstanding and the number of equivalent shares which would be issued related to stock options and warrants using the treasury method, contingently issuable

8

shares, and convertible preferred stock using the if-converted method, unless such additional equivalent shares are anti-dilutive.

The following table presents the calculation of basic and diluted net income (loss) per share:

	Three months ended September 30,		Nine months ended September 30,	
	2002	2003	2002	2003
Net income (loss)	\$ (507,195)	\$ 424,265	\$ (1,715,845)	\$ 516,188
Beneficial conversion charge on preferred stock			(1,672,746)	
Accretion of dividends on preferred stock	(51,419)	(44,899)	(112,427)	(138,025)
Net income (loss) available to common stockholders	\$ (558,614)	\$ 379,366	\$ (3,501,018)	\$ 378,163
<b>Basic:</b>				
Weighted-average shares of common stock outstanding	10,528,683	10,748,580	8,717,203	10,683,958
Weighted-average shares of common stock outstanding subject to contingency	(1,660,100)		(954,710)	(729,714)
Shares used in computing basic net income (loss) per share	8,868,583	10,748,580	7,762,493	9,954,244
<b>Effect of dilutive securities:</b>				
Weighted-average shares of common stock subject to contingency				729,714
Preferred stock		2,902,174		2,947,998

Edgar Filing: PERFICIENT INC - Form 10QSB

	Three months ended September 30,		Nine months ended September 30,	
Stock options		1,385,816		1,095,504
Warrants				
Shares used in computing diluted net income (loss) per share	8,868,583	15,036,570	7,762,493	14,727,460
Basic net income (loss) per share	\$ (0.06)	\$ 0.04	\$ (0.45)	\$ 0.04
Diluted net income (loss) per share	\$ (0.06)	\$ 0.03	\$ (0.45)	\$ 0.04

Diluted net loss per share is the same as basic net loss per share for the three and nine months ended September 30, 2002, as the effect of the assumed exercise of stock options and warrants, the issuance of contingently issuable shares resulting from business combinations, and shares of common stock issuable upon the conversion of convertible preferred stock is antidilutive due to the Company's net loss for those periods. Diluted net loss per share for the three and nine months ended September 30, 2002 excludes common stock equivalents of 5,434,798 and 3,979,087, respectively.

## 5. Recent Accounting Pronouncements

In June 2002, the FASB issued SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. SFAS No. 146 requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of commitment to an exit or disposal plan. This statement is effective for exit or disposal activities initiated after December 31, 2002. The adoption of SFAS No. 146 has not had a material effect on the Company's consolidated financial position or results of operations.

In January 2003, the FASB issued Interpretation No. 46 ("FIN 46"), *Consolidation of Variable Interest Entities*. FIN 46 requires that if an entity has a controlling financial interest in a variable interest entity, the assets, liabilities and results of activities of the variable interest entity should be included in the consolidated financial statements of the entity. FIN 46 is effective immediately for all new variable interest entities created or acquired after January 31, 2003. For variable interest entities created or acquired prior to February 1, 2003, the provisions of FIN 46 must be applied for the first interim or annual period ending after December 15, 2003. Management does not believe that the adoption of FIN 46 will have a material impact on the Company's results of operations or financial position.

In May 2003, the FASB issued SFAS No. 150, *Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity*. SFAS No. 150 establishes standards on the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. The provisions of SFAS No. 150 are effective for financial instruments entered into or modified after May 31, 2003, and to all other instruments that exist as of the beginning of the first interim financial reporting period beginning after June 15, 2003. Management does not believe that the adoption of SFAS No. 150 will have a material impact on the Company's results of operations or financial position.

## Edgar Filing: PERFICIENT INC - Form 10QSB

*the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements may sometimes be identified by such words as "may," "will," "expect," "anticipate," "believe," "estimate" and "continue" or similar words. We believe that it is important to communicate our future expectations to investors. However, these forward-looking statements involve many risks and uncertainties. Our actual results could differ materially from those indicated in such forward-looking statements as a result of certain factors, including but not limited to, those set forth under Risk Factors and elsewhere in this Report on Form 10-QSB. We are under no duty to update any of the forward-looking statements after the date of this Report on Form 10-QSB to conform these statements to actual results.*

*The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our financial statements and notes thereto and the other financial information included elsewhere in this Report on Form 10-QSB.*

We were incorporated in September 1997 and began generating revenue in February 1998. We generate revenue from professional services performed for our end-user customers, and the end-user customers of our software partners. Additionally, we generate revenue from reselling software.

In August 2003 we entered into a one-year extension of our existing services agreement with IBM under which we provide deployment, integration and training services to IBM's WebSphere® customers. The current agreement will terminate on September 1, 2004. Prior to that date, IBM has the right to terminate the agreement upon five (5) days prior written notice. Revenue from IBM was approximately 33% and 36% of total revenue for the three and nine months ended September 30, 2003, respectively. Accordingly, any deterioration in our relationship with IBM could have a material adverse affect on our consulting revenue and net income. Our agreements generally do not obligate our customers to use our services for any minimum amount, or at all, and our customers may use the services of our competitors.

Revenues are primarily derived from professional services provided on a time and materials basis, with the remaining revenue derived from fixed fee engagements and software sales. For time and material contracts, revenue is recognized and billed by multiplying the number of hours expended by our professionals in the performance of the contract by the established billing rates. For fixed fee projects, revenue is generally recognized using the proportionate performance method. Provisions for estimated losses on uncompleted contracts are made on a contract-by-contract basis and are recognized in the period in which such losses are determined. Billings in excess of costs plus earnings are classified as deferred revenues. On many projects we are also reimbursed for out-of-pocket expenses such as airfare, lodging and meals. These reimbursements are included as a component of revenue. Revenue from resold software is recorded on a gross basis provided we act as a principal in the transaction. In the event we do not meet the requirements to be considered a principal in the software resale transaction and act as an agent, the revenue would be recorded on a net basis.

Our revenue and operating results are subject to substantial variations based on our customers' expenditures and the frequency with which we are chosen to perform services for our customers. Revenue from any given customer will vary from period to period. We expect, however, that IBM will remain a significant customer for the foreseeable future. To the extent that IBM, or any other significant customer, uses less of our services or terminates its relationship with us, our revenue could decline substantially.

Our gross margins are affected by trends in the utilization rate of our professionals (defined as the percentage of our professionals' time billed to customers, divided by the total available hours in the

respective period), the salaries we pay our consulting professionals, and the average rate we receive from our customers. If a project ends earlier than scheduled or, as has been the case, we retain professionals in advance of receiving project assignments, our utilization rate will decline and adversely affect our gross margins.

During 2002, we implemented certain workforce reductions and office closures resulting in charges of approximately \$42,000 during the first quarter of 2002, \$345,000 during the second quarter of 2002, and \$192,000 during the fourth quarter of 2002, consisting of severance pay and related benefits for former employees in addition to the costs associated with the closure of the London office. As part of these restructurings, we reduced our workforce by a total of 30 employees, of which 17 were technology professionals and 13 were involved in selling, general administration and marketing. As of September 30, 2003, all restructuring expenses have been paid. There was no restructuring expense for the nine months ended September 30, 2003.

### **Results Of Operations**

*Three months ended September 30, 2002 compared to three months ended September 30, 2003*

## Edgar Filing: PERFICIENT INC - Form 10QSB

*Revenue.* Total gross revenue increased from \$6,349,989 for the three months ended September 30, 2002 to \$7,655,451 for the three months ended September 30, 2003. Services revenue increased from \$5,792,041 for the three months ended September 30, 2002 to \$6,516,153 for the three months ended September 30, 2003. The increase in services revenue resulted from an increase in employee utilization during 2003 compared to 2002. During the three months ended September 30, 2002 and 2003, 33% of our revenue was derived from IBM. Revenue from resold software increased from \$162,289 for the three months ended September 30, 2002 to \$705,463 for the three months ended September 30, 2003. Revenue from reselling software revenue is expected to fluctuate between quarters depending on our customers demand for such software. Generally we are reimbursed for our out-of-pocket expenses incurred in connection with our customers' consulting projects. Reimbursed expenses were \$433,835 for the three months ended September 30, 2003 compared to \$395,659 for the three months ended September 30, 2002. The aggregate amount of reimbursed expenses will fluctuate depending on the location of our customers, the general fluctuation of travel costs such as airfare, and the total number of our projects that require travel. Average billing rate for the three months ended September 30, 2002 and 2003, was \$132 and \$129, respectively. Utilization for the three months ended September 30, 2002 and 2003, was 68% and 80%, respectively. Average billable headcount, excluding subcontractors, was 122 and 113 for the three months ended September 30, 2002 and 2003, respectively.

*Cost of Revenue.* Cost of revenue, consisting of salaries and benefits associated with our technology professionals, subcontractors, cost of resold software, and of reimbursed and project related expenses, increased from \$3,799,459 for the three months ended September 30, 2002 to \$4,806,975 for the three months ended September 30, 2003. The increase in cost of revenue was due to the increase in subcontractor costs from \$112,000 during the three months ended September 30, 2002 to \$489,000 during the three months ended September 30, 2003, combined with a 6% increase in average salaries over the respective quarters. In addition, costs associated with resold software increased by \$426,102 in connection with the increased software revenue during the quarter ended September 30, 2003. Reimbursable expenses will fluctuate with the associated revenue because our customers reimburse us for these costs. Other project related expenses consist of travel and other out-of-pocket costs that are not reimbursed by our customers. These expenses will fluctuate depending generally on outside factors including the cost of travel and the location of our customers.

*Gross Margin.* Gross margin increased from \$2,550,530 for the three months ended September 30, 2002 to \$2,848,476 for the three months ended September 30, 2003. Gross margin as a percentage of revenue was 40% for the three months ended September 30, 2002 and 37% for the three months ended September 30, 2003. The decrease in gross margin as a percentage of revenue is due to the

13

---

increase in average salaries and subcontractor costs as well as the increase in software resales, which generally yield a lower gross margin than our services. Services gross margin was 44% for the three months ended September 30, 2002 and 42% for the three months ended September 30, 2003. Software gross margin was 14% and 20% for the three months ended September 30, 2002 and 2003, respectively. Gross margins can fluctuate depending upon a number of factors including our ability to successfully manage the utilization rates and salaries of our consultants, and the rates we can charge for our services.

*Selling, General and Administrative.* Selling, general and administrative expenses consist of salaries and benefits for sales, executive and administrative employees, training, marketing activities, investor relations, recruiting, non-reimbursable travel costs and expenses, and miscellaneous expenses. Selling, general and administrative expenses decreased from \$2,380,950 for the three months ended September 30, 2002 to \$1,901,659 for the three months ended September 30, 2003. The decrease is the result of deliberate cost reductions, including a \$99,000 reduction in sales and marketing costs, a \$141,000 reduction in administrative salaries and benefits, a \$65,000 reduction in computer equipment leasing costs and other IT related expenses, and a \$58,000 reduction in office and telecommunications expenses. Additionally, accounting and legal fees expenses decreased by \$56,000, and travel and entertainment expenses decreased by \$62,000. Selling, general and administrative expenses as a percentage of revenue decreased from 37% for the three months ended September 30, 2002 to 25% for the three months ended September 30, 2003. The decrease in selling, general and administrative expenses as a percent of revenue is the result of an increase in software resales, for which there are generally less incremental costs, as well as a general reduction of costs in proportion to total revenue during the applicable periods.

*Stock Compensation.* Stock compensation expense consists of non-cash compensation arising from certain option grants to employees with exercise prices below fair market value at the date of grant, option grants made to outside consultants, and compensation expense associated with unvested stock options assumed in business combinations. Stock compensation expense decreased from \$74,754 during the three months ended September 30, 2002 to \$25,889 during the three months ended September 30, 2003.

*Depreciation.* Depreciation expense decreased from \$214,914 during the three months ended September 30, 2002 to \$165,943 during the three months ended September 30, 2003. The decrease is due to a general decrease in purchases along with an increasing number of fully depreciated assets.

*Intangibles Amortization.* Intangibles amortization expense consists of amortization of intangibles arising from our acquisitions of Compete, Inc. in May 2000, Core Objective, Inc. in November 2000, and Vertecon and Javelin in April 2002. Amortization decreased from

## Edgar Filing: PERFICIENT INC - Form 10QSB

\$337,500 during the three months ended September 30, 2002 to \$62,502 during the three months ended September 30, 2003. The decrease in amortization expense reflects the end of the assigned three-year useful life for the Compete intangible assets.

*Interest Income and Expense.* Interest income decreased from \$576 for the three months ended September 30, 2002 to \$297 for the three months ended September 30, 2003. Interest expense during the three months ended September 30, 2003 was \$55,771 and is consistent with interest expense during the three months ended September 30, 2002 of \$54,596.

*Provision for Income Taxes.* We accrue a provision for federal, state and foreign income tax at the applicable statutory rates adjusted for non-deductible expenses, which includes intangibles amortization and deferred stock compensation. Our tax provision rate was 37% for the three and nine months ended September 30, 2003. There was no tax provision for 2002 as a result of the net loss for that period.

14

---

### *Nine months ended September 30, 2002 compared to nine months ended September 30, 2003*

*Revenue.* Total gross revenue increased from \$16,460,457 for the nine months ended September 30, 2002 to \$22,229,582 for the nine months ended September 30, 2003. Services revenue increased from \$14,926,813 for the nine months ended September 30, 2002 to \$18,381,926 for the nine months ended September 30, 2003. The increase in services revenue resulted in part from the additional headcount related to the April 2002 acquisitions of Vertecon and Javelin, which impacted revenue for the full period in 2003, as well as the use of additional subcontractors during 2003. The increase in services revenue is also a result of an improvement in employee utilization. During the nine months ended September 30, 2002 and 2003, 34% and 36%, respectively, of our revenue was derived from IBM. Revenue from resold software increased from \$281,837 for the nine months ended September 30, 2002 to \$2,462,582 for the nine months ended September 30, 2003. Revenue from reselling software is expected to fluctuate between quarters depending on our customers demand for such software. Generally we are reimbursed for our out-of-pocket expenses incurred in connection with our customers' consulting projects. Reimbursed expenses increased from \$1,251,807 for the nine months ended September 30, 2002 to \$1,385,074 for the nine months ended September 30, 2003. The aggregate amount of reimbursed expenses will fluctuate depending on the location of our customers, the general fluctuation of travel costs such as airfare, and the total number of our projects that require travel.

*Cost of Revenue.* Cost of revenue, consisting of salaries and benefits associated with our technology professionals, subcontractor costs, cost of resold software, and reimbursed and project related expenses, increased from \$9,907,450 for the nine months ended September 30, 2002 to \$13,951,519 for the nine months ended September 30, 2003. The increase in cost of revenue is again due to the increase in average salaries as compared to the same period in 2002 as well as an increase in the number of billable employees, and the increase in headcount as a result of the acquisitions of Vertecon and Javelin in April 2002 being included in the full nine months for 2003. Subcontractor costs increased from \$377,000 during the nine months ended September 30, 2002 to \$804,000 during the nine months ended September 30, 2003. In addition, costs associated with resold software increased by \$1,853,700 in connection with the increased software revenue during the nine months ended September 30, 2003. Reimbursable expenses will fluctuate with the associated revenue because our customers reimburse us for these costs. Other project related expenses consist of travel and other out-of-pocket costs that are not reimbursed by our customers. These expenses will fluctuate depending generally on outside factors including the cost of travel and the location of our customers.

*Gross Margin.* Gross margin increased from \$6,553,007 for the nine months ended September 30, 2002 to \$8,278,063 for the nine months ended September 30, 2003. Gross margin as a percentage of revenue was 40% for the nine months ended September 30, 2002 and 37% for the nine months ended September 30, 2003. The decrease in gross margin as a percentage of revenue is primarily due to the increase in average salaries as well as the increase in software resales, which generally yield a lower gross margin than our services. Services gross margin was 44% for the nine months ended September 30, 2002 and 43% for the nine months ended September 30, 2003. Software gross margin was 18% and 15% for the nine months ended September 30, 2002 and 2003, respectively. Gross margins can fluctuate depending upon a number of factors including our ability to successfully manage the utilization rates and salaries of our consultants, and the rates we can charge for our services.

*Selling, General and Administrative.* Selling, general and administrative expenses consist of salaries and benefits for sales, executive and administrative employees, training, marketing activities, investor relations, recruiting, non-reimbursable travel costs and expenses, and miscellaneous expenses. Selling, general and administrative expenses decreased from \$6,139,196 for the nine months ended September 30, 2002 to \$5,763,276 for the nine months ended September 30, 2003. The decrease is the result of deliberate cost reductions, including a \$351,000 reduction in administrative salaries and benefits and a \$199,000 reduction in computer equipment leasing costs and other IT related expenses,

15

---

## Edgar Filing: PERFICIENT INC - Form 10QSB

which were partially offset by an increase in office costs resulting from the inclusion of Javelin and Vertecon office expenses for the full period in 2003. Selling, general and administrative expenses as a percentage of revenue decreased from 37% for the nine months ended September 30, 2002 to 26% for the nine months ended September 30, 2003. The decrease in selling, general and administrative expenses as a percent of revenue is the result of an increase in software resales, for which there are generally less incremental costs, as well as a general reduction of costs in proportion to total revenue during the applicable periods.

*Stock Compensation.* Stock compensation expense consists of non-cash compensation arising from certain option grants to employees with exercise prices below fair market value at the date of grant, option grants made to outside consultants, and compensation expense associated with unvested stock options assumed in business combinations. Stock compensation expense decreased from \$189,557 during the nine months ended September 30, 2002 to \$110,038 during the nine months ended September 30, 2003.

*Depreciation.* Depreciation expense increased from \$483,894 during the nine months ended September 30, 2002 to \$560,543 during the nine months ended September 30, 2003. The increase is related to additional depreciation expense associated with fixed assets recorded as part of the acquisitions of Vertecon and Javelin, which were depreciated for the entire period in 2003.

*Restructuring.* Restructuring expense consists of severance payments and related benefits. Restructuring expense was \$387,621 during the nine months ended September 30, 2002. There was no workforce restructuring during the first nine months of 2003.

*Intangibles Amortization.* Intangibles amortization expense consists of amortization of intangibles arising from our acquisitions of Compete, Inc. in May 2000, Core Objective, Inc. in November 2000, and Vertecon and Javelin in April 2002. Amortization decreased from \$948,024 during the nine months ended September 30, 2002 to \$554,170 during the nine months ended September 30, 2003. The decrease in amortization expense reflects the end of the assigned three-year useful life for the Compete intangible assets.

*Interest Income and Expense.* Interest income decreased from \$16,802 for the nine months ended September 30, 2002 to \$2,926 for the nine months ended September 30, 2003. Interest income during 2002 included approximately \$11,000 of interest recorded on advances made to Vertecon prior to that acquisition, of which there was none during 2003. The remaining decrease is the result of changes in average interest rates and cash balances during the applicable periods. Interest expense was \$131,450 during the nine months ended September 30, 2002 compared to \$199,172 during the nine months ended September 30, 2003. The increase in interest expense is due to an increase of approximately \$20,000 related to capital leases, approximately \$17,000 related to imputed interest expense on the notes issued to the Javelin shareholders, and approximately \$30,000 in collateral monitoring fees and other costs associated with our line of credit facility.

*Provision for Income Taxes.* We accrue a provision for federal, state and foreign income tax at the applicable statutory rates adjusted for non-deductible expenses, which includes intangibles amortization and deferred stock compensation. Our tax provision rate was 37% for the three and nine months ended September 30, 2003. There was no tax provision for 2002 as a result of the net loss for that period.

### **Liquidity And Capital Resources**

We have a line of credit arrangement with Silicon Valley Bank that expires in December 2003. We have begun discussions with Silicon Valley Bank in order to arrange for a credit facility subsequent to the termination of our existing agreement. The current agreement allows us to borrow up to 85% of eligible accounts receivable as defined in the agreement (up to a maximum of \$6,000,000). We are also

16

---

required to comply with certain financial covenants under this agreement. Borrowings under the agreement bear interest at the bank's prime rate plus 1.5% (5.50% as of September 30, 2003). The agreement also provides for a minimum interest payment and early termination fee. As of September 30, 2003, there was \$706,293 outstanding and approximately \$1,947,000 remaining in availability under this line of credit.

In connection with the acquisitions of Javelin and Vertecon, we were required to establish various letters of credit totaling \$750,000 to serve as collateral for certain office space and equipment leases. These letters of credit reduce the borrowings available under our line of credit facility with Silicon Valley Bank. Letters of credit totaling \$500,000 will remain in effect through 2005, and the remaining letter of credit of \$250,000 will remain in effect through 2007.

Net cash provided by operations for the nine months ended September 30, 2003 was \$895,524. As of September 30, 2003, we had \$1,994,094 in cash and working capital of \$3,224,502.

In connection with the acquisition of Javelin, we issued \$1.5 million in notes, of which \$1 million is payable in four equal annual installments on the anniversary of the closing date of the acquisition, and for which we have paid the first installment of \$250,000 in April 2003.

## Edgar Filing: PERFICIENT INC - Form 10QSB

The other \$500,000 is payable in eight equal quarterly installments that commenced in July 2002. Accordingly, we have paid \$62,500 in July 2002, \$62,500 in October 2002, \$62,500 in January 2003, \$62,500 in April 2003, \$62,500 in July 2003, and \$62,500 in October 2003.

We expect to fund our operations during the remainder of 2003 and through 2004 from cash generated from operations and short-term borrowings as necessary from our line of credit facility. The amount of borrowings available to us is based on a percentage of our receivables. We have begun negotiations with Silicon Valley Bank to extend our current line of credit agreement, which will expire in December 2003. If our capital is insufficient to fund our activities in either the short or long term or we are unable to negotiate a new line of credit, we may need to raise additional funds. In the ordinary course of business, we may engage in discussions with various persons in connection with additional financing. If we raise additional funds through the issuance of equity securities, our existing stockholders' percentage ownership will be diluted. These equity securities may also have rights superior to our common stock or outstanding preferred stock. Additional debt or equity financing may not be available when needed or on satisfactory terms. If adequate funds are not available on acceptable terms, we may be unable to expand our services, respond to competition, pursue acquisition opportunities or continue our operations.

### ***Critical Accounting Policies***

Consulting revenues are comprised of revenue from professional services fees recognized primarily on a time and materials basis as performed. For fixed fee engagements, revenue is recognized using the proportionate performance method (based on the ratio of costs incurred to total estimated costs). Provisions for estimated losses on uncompleted contracts are made on a contract-by-contract basis and are recognized in the period in which such losses are determined. Billings in excess of costs plus earnings are classified as deferred revenues. Our normal payment terms are net 30 days. Our agreement with IBM provides for net 60 days payment terms. Reimbursements for out-of-pocket expenses are included in gross revenue. Revenue from resold software is recorded on a gross basis provided that we act as the principal in the transaction. In the event we do not meet the requirements to be considered the principal in the software resale transaction, we record the revenue on a net basis. There is no effect on net income between recording the software sales on a gross basis versus a net basis. We record an expense for the expected losses on uncollectible accounts receivable each period based on known facts and circumstances for the respective period.

We adopted Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets* ("Statement 142") on January 1, 2002. In accordance with Statement 142, we replaced the

17

---

ratable amortization of goodwill and other indefinite-lived intangible assets with a periodic review and analysis of such intangibles for possible impairment. In accordance with Statement 142, we assess our goodwill on October 1 of each year or more frequently if events or changes in circumstances indicate that goodwill might be impaired.

Business acquisitions typically result in goodwill and other intangible assets, and the recorded values of those assets may become impaired in the future. The determination of the value of such intangible assets requires us to make estimates and assumptions that affect our consolidated financial statements. We assess potential impairments to intangible assets on an annual basis or when there is evidence that events or changes in circumstances indicate that the carrying amount of an asset may not be recovered. Our judgments regarding the existence of impairment indicators and future cash flows related to intangible assets are based on operational performance of the acquired businesses, market conditions and other factors. Future events could cause us to conclude that impairment indicators exist and that goodwill associated with the acquired businesses is impaired. Any resulting impairment loss could have an adverse impact on our results of operations by decreasing net income.

### **Recent Accounting Pronouncements**

In June 2002, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. SFAS No. 146 requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of commitment to an exit or disposal plan. This statement is effective for exit or disposal activities initiated after December 31, 2002. The adoption of SFAS No. 146 did not have a material effect on our consolidated financial position or results of operations.

In January 2003, the FASB issued Interpretation No. 46 ("FIN 46"), *Consolidation of Variable Interest Entities*. FIN 46 requires that if an entity has a controlling financial interest in a variable interest entity, the assets, liabilities and results of activities of the variable interest entity should be included in the consolidated financial statements of the entity. FIN 46 is effective immediately for all new variable interest entities created or acquired after January 31, 2003. For variable interest entities created or acquired prior to February 1, 2003, the provisions of FIN 46 must be applied for the first interim or annual period ending after December 15, 2003. We do not believe that the adoption of FIN 46 will have a material impact on our results of operations or financial position.

In May 2003, the FASB issued SFAS No. 150, *Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity*. SFAS No. 150 establishes standards on the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. The provisions of SFAS No. 150 are effective for financial instruments entered into or modified after May 31, 2003, and to all other instruments that exist as of the beginning of the first interim financial reporting period beginning after June 15, 2003. We do not believe that the adoption of SFAS No. 150 will have a material impact on our results of operations or financial position.

## RISK FACTORS

### *Risks Specific to Our Business*

**We have incurred losses during most of the quarters during which we have been in business and we may incur losses in the future.**

We have incurred operating losses in most of the quarters during which we have been in business. Although we have recently achieved profitability, we may not be able to sustain or increase profitability on a quarterly or annual basis in the future. We cannot assure you of any operating results. In future quarters, our operating results may not meet public market analysts' and investors' expectations. If that happens, the price of our common stock will likely fall.

**We have a limited number of customers and the loss of sales to IBM would materially reduce our revenue and net income.**

We have arrangements with a limited number of customers. IBM accounted for 33% of our revenue during the quarters ended September 30, 2002 and 2003. Any termination of our relationship with, or significant reduction or modification of the services we perform for, IBM would materially reduce our revenue and net income.

**The failure of IBM to pay our accounts receivable would materially impact our cash and working capital balances.**

Amounts owed to us by IBM represented 32% of our accounts receivable, or \$2,033,746, as of September 30, 2003. Failure of IBM to pay that amount would have a material adverse effect on our working capital, cash position, business, operating results and financial condition. Failure of IBM to pay us timely could also have a material impact our cash and working capital balances.

**IBM may reduce substantially its use of our services, which would materially reduce our revenue and net income.**

Our current agreement with IBM will expire on September 1, 2004, and may be terminated by IBM prior to that date upon five (5) days written notice. A decision by IBM to reduce the amount of services performed by us or to terminate the agreement would have an adverse effect on our business, operating results and financial condition. In the event IBM decides not to use our services, our revenue and net income could be materially reduced.

**Our customers may not be obligated to use our services.**

Our contracts with some of our customers do not obligate them to use our services. A customer may choose at any time to use another consulting firm or to perform the services we provide through internal resources. Termination of a relationship with certain customers, or the decision of such customers to employ other consulting firms or perform services in-house, could materially harm our business.

**Our quarterly operating results may be volatile and may cause our stock price to fluctuate.**

A high percentage of our operating expenses, particularly personnel and rent, are fixed in advance of any particular quarter. As a result, if we experience unanticipated changes in the number or nature of our projects or in our employee utilization rates, we could experience large variations in quarterly operating results and losses in any particular quarter. Due to these factors, we believe that our historical quarter-to-quarter operating results should not be used to predict our future performance.

## Edgar Filing: PERFICIENT INC - Form 10QSB

Our quarterly revenue, expenses and operating results have varied significantly in the past and are likely to vary significantly in the future. These quarterly fluctuations have been and may continue to be affected by a number of factors, including:

the loss of a significant customer or project;

the number and types of projects that we undertake;

our ability to attract, train and retain skilled management and technology professionals;

seasonal variations in spending patterns;

our employee utilization rates, including our ability to transition our technology professionals from one project to another;

changes in our pricing policies;

our ability to manage costs; and

costs related to acquisitions of other businesses.

In addition, many factors affecting our operating results are outside of our control, such as:

demand for Internet software;

end-user customer budget cycles;

changes in end-user customers' desire for our partners' products and our services;

pricing changes in our industry;

government regulation and legal developments regarding the use of the Internet; and

general economic conditions.

We expect that we may experience seasonal fluctuations in revenues. We expect that revenues in the quarter ending December 31 of a given year may typically be lower than in other quarters in that year as there are fewer billable days in this quarter as a result of vacations and holidays. This seasonal trend may materially affect our quarter-to-quarter operating results.

### **Our revenues are difficult to predict because they are derived from project-based engagements.**

Almost all of our revenues are from project-based client engagements, which vary in size and scope. Our revenue is difficult to predict since a client that accounts for a significant portion of revenues in one period may not generate a similar amount of revenue, if any, in subsequent periods. In addition, because many of our project-based client engagements involve sequential stages, each of which may represent a different contractual commitment, a client may choose not to retain us for subsequent stages of an engagement or for new service projects.

### **Our gross margins are subject to fluctuations as a result of variances in utilization rates.**

Our services gross margins are affected by trends in the utilization rate of our professionals, defined as the percentage of our professionals' time billed to customers divided by the total available hours in a period. Our operating expenses, including employee salaries, rent and administrative expenses are relatively fixed and cannot be reduced on short notice to compensate for unanticipated variations in the number or size of projects in process. If a project ends earlier than scheduled, we may need to redeploy our project personnel. Any resulting non-billable time may adversely affect our gross margins. The absence of long-term contracts and the need for new partners and business create an uncertain revenue stream, which could negatively affect our financial condition.

20

---

**We may not grow, or we may be unable to manage our growth.**

Our success will depend on our ability to increase the number of our partners, end-user customers and our teams of technology professionals. However, we may not grow as planned or at all. Many of our competitors have longer operating histories, more established reputations, more potential partner and end-user customer relationships and greater financial, technical and marketing resources than we do. If we experience growth, our growth will place significant strains on our management, personnel and other resources. If we are unable to grow or manage our growth effectively, this inability will adversely affect the quality of our services and our ability to retain key personnel, and could materially harm our business.

**We may not be able to attract and retain technology professionals, which could affect our ability to compete effectively.**

Our business is labor intensive. Accordingly, our success depends in large part upon our ability to attract, train, retain, motivate, manage and utilize highly skilled technology professionals. Additionally, our technology professionals are at-will employees. Any inability to attract, train and retain highly skilled technology professionals would impair our ability to adequately manage, staff and utilize our existing projects and to bid for or obtain new projects, which in turn would adversely affect our operating results.

**Our success will depend on retaining our senior management team and key technical personnel.**

We believe that our success will depend on retaining our senior management team and key technical personnel. Retention is particularly important in our business as personal relationships are a critical element of obtaining and maintaining our partners. If any of these individuals stop working for us, our level of management, technical, marketing and sales expertise could significantly diminish. These individuals would be difficult to replace, and losing them could seriously harm our business. We may not be able to prevent key personnel, who may leave our employ in the future, from disclosing or using our technical knowledge, practices or procedures. One or more of our key personnel may resign and join a competitor or form a competing company. As a result, we might lose existing or potential clients.

**We face risks associated with finding and integrating acquisitions.**

We made three acquisitions during 2000 and we completed the acquisitions of Vertecon and Javelin in April 2002. We may continue to expand our technological expertise and geographical presence through selective acquisitions. Any acquisitions or investments we make in the future will involve risks. We may not be able to make acquisitions or investments on commercially acceptable terms. If we do buy a company, we could have difficulty retaining and assimilating that company's personnel. In addition, we could have difficulty assimilating acquired products, services or technologies into our operations and retaining the customers of that company. Our operating results may be adversely affected by increased intangibles amortization, stock compensation expense and increased compensation expense attributable to newly hired employees. Furthermore, our management's attention may be diverted from other aspects of our business and our reputation may be harmed if an acquired company performs poorly. These difficulties could disrupt our ongoing business, distract our management and employees, increase our expenses and materially and adversely affect our results of operations. Furthermore, we may incur debt or issue equity securities to pay for any future acquisitions. If we issue equity securities, your ownership share of our common stock will be diluted.

**We may face potential liability to customers if our customers' systems fail.**

Our professional services and software are often critical to the operation of our customers' businesses and provide benefits that may be difficult to quantify. If one of our customers' systems fails, the customer could make a claim for substantial damages against us, regardless of our responsibility for

21

---

that failure. The limitations of liability set forth in our contracts may not be enforceable in all instances and may not otherwise protect us from liability for damages. Our insurance coverage may not continue to be available on reasonable terms or in sufficient amounts to cover one or more large claims. In addition, a given insurer might disclaim coverage as to any future claims. If we experience one or more large claims against us that exceed available insurance coverage or result in changes in our insurance policies, including premium increases or the imposition of large deductible or co-insurance requirements, our business and financial results could suffer.

*Risks Relating to Our Industry*

**The Internet services market demand is subject to uncertainty.**

The market for Internet services is relatively new and is evolving rapidly. Our future growth is dependent upon our ability to provide strategic Internet services that are accepted by our end-user customers. Demand and market acceptance for recently introduced services are subject to a high level of uncertainty. The level of demand and acceptance of strategic Internet services is dependent upon a number of factors, including:

- the growth in consumer access to and acceptance of new interactive technologies such as the Internet;
- companies adopting Internet-based business models; and
- the development of technologies that facilitate two-way communication between companies and targeted audiences.

Significant issues concerning the commercial use of these technologies include security, reliability, cost, ease of use and quality of service. These issues remain unresolved and may inhibit the growth of Internet business solutions providers that use these technologies.

**The demand for Internet software and services has weakened significantly and demand will likely remain weak for some time due to the current economic climate.**

The market for Internet software and services has changed rapidly over the last four years. The market for Internet software and services expanded dramatically during 1999 and most of 2000, but declined significantly in 2001 and 2002. Since the second half of 2000, many companies have experienced financial difficulties or uncertainty, and cancelled or delayed spending on technology initiatives as a result. Our future growth is dependent upon the demand for Internet software and services and our ability to provide strategic Internet services that are accepted by our end-user customers. Demand and market acceptance for Internet services are subject to a high level of uncertainty. If companies continue to cancel or delay their business and technology initiatives or choose to move these initiatives in-house because of the current economic climate, or for other reasons, our business, financial condition and results of operations could be materially and adversely affected.

**Businesses may decrease or delay their use of advanced technologies as a means for conducting commerce.**

Our future success depends heavily on the acceptance and use of advanced technologies as a means for conducting commerce and streamlining operations. We focus our services on the development and implementation of advanced technology strategies and solutions. If the use of these technologies does not grow, or such growth is delayed due to economic uncertainty or other conditions, our revenue could be less than we anticipate and our business, financial condition and results of operations could be materially adversely affected.

**Our business will suffer if we do not keep up with rapid technological change, evolving industry standards or changing partner requirements.**

Rapidly changing technology, evolving industry standards and changing partner needs are common in the Internet professional services market. Accordingly, our success will depend, in part, on our ability to:

- continue to develop our technology expertise;

## Edgar Filing: PERFICIENT INC - Form 10QSB

enhance our current services;

develop new services that meet changing partner and end-user customer needs;

advertise and market our services; and

influence and respond to emerging industry standards and other technological changes.

We must accomplish all of these tasks in a timely and cost-effective manner. We might not succeed in effectively doing any of these tasks, and our failure to succeed could have a material and adverse effect on our business, financial condition or results of operations, including materially reducing our revenue and operating results.

We may also incur substantial costs to keep up with changes surrounding the Internet. Unresolved critical issues concerning the commercial use and government regulation of the Internet include the following:

security;

cost and ease of Internet access;

intellectual property ownership;

privacy;

taxation; and

liability issues.

Any costs we incur because of these factors could materially and adversely affect our business, financial condition and results of operations, including reduced net income.

### **Our market is highly competitive and has low barriers to entry.**

The market for Internet professional services is relatively new, intensely competitive, rapidly evolving and subject to rapid technological change. In addition, there are relatively low barriers to entry into this market. Because of the rapid changes to, and volatility in, the Internet software and service industry, many well-capitalized companies that may have chosen sectors of the industry that are not competitive with our business, including some of our partners, may refocus their activities and resources. As a result, they could deploy their resources and enter into a business that is competitive with ours.

Our current competitors include:

in-house information technology and professional services and support departments of software companies;

systems integrators, such as Sapient Corporation, and SBI and Company;

large consulting firms, such as Accenture, Bearing Point, Deloitte Consulting and Cap Gemini Ernst & Young;

information technology staffing firms, such as Keane, Inc., and Aquent (formerly Renaissance Worldwide); and

other eBusiness solutions service providers engaged by IBM as subcontractors.

Many of our current and potential competitors have longer operating histories, more established reputations and potential partner relationships and greater financial, technical, industry and marketing resources than we do. This may place us at a disadvantage to our competitors, which may harm our ability to grow or maintain revenue or generate net income.

*Risks Relating to Ownership of Our Stock*

**The trading volume of our common stock has been limited and, as a result, our stock price has been, and will likely continue to be, volatile.**

Our common stock is traded on the NASDAQ SmallCap Market under the symbol "PRFT." The trading volume of our common stock has been limited, and the stock prices have been volatile. Our common stock price may continue to be highly volatile and may fluctuate as a result of the limited trading volume.

**Our officers, directors, and 5% and greater stockholders own a large percentage of our voting securities.**

Our executive officers, directors and existing 5% and greater stockholders beneficially own or control greater than 35% of the voting power of our common stock. This concentration of ownership of our common stock may make it difficult for other Perficient stockholders to successfully approve or defeat matters that may be submitted for action by our stockholders. It may also have the effect of delaying, deterring or preventing a change in control of our company.

**It may be difficult for another company to acquire us, and this could depress our stock price.**

Provisions of our certificate of incorporation, by-laws and Delaware law could make it difficult for a third party to acquire us, even if doing so would be beneficial to our stockholders. In addition, under our agreement with IBM, we have granted IBM a right of first offer and a right to terminate its agreement with us with respect to any change of control transaction with a company that has a substantial portion of its business in the web application server product and services market, other than a systems integrator or professional services firm. As a result, a potential acquirer may be discouraged from making an offer to buy us.

**We may need additional capital in the future, which may not be available to us. The raising of any additional capital may dilute your ownership percentage in our stock.**

We believe our existing line of credit and working capital should provide sufficient resources to satisfy our near term capital requirements. Our existing line of credit facility expires in December 2003. If we are unable to renew our line of credit, we may need to obtain an alternate debt financing facility. In the future we may decide to raise additional funds through public or private debt or equity financing in order to:

take advantage of opportunities, including more rapid expansion or acquisitions of, or investments in, businesses or technologies;

develop new services; or

respond to competitive pressures.

Any additional capital raised through the sale of equity will dilute your ownership percentage in our stock. Furthermore, we cannot assure you that any additional financing we may need will be available on terms favorable to us, or at all. In such case, our business results would suffer.

**Item 3. Controls and Procedures**

We performed an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our management, including our CEO and CFO, concluded that our disclosure controls and procedures were effective as of September 30, 2003.

There have been no significant changes in our internal controls or other factors that could significantly affect internal controls subsequent to the date the Company carried out its evaluation.

25

**PART II. OTHER INFORMATION**

**Item 1. Legal Proceedings.**

We are currently not a party to any material legal proceedings.

**Item 4. Submission of Matters to a Vote of Security Holders.**

None.

**Item 6. Exhibits and Reports on Form 8-K.**

**(a) Exhibits.**

Exhibit Number	Description
2.1##	Agreement and Plan of Merger, dated as of September 30, 2001, by and among Perficient, Inc., Perficient Vertecon, Inc., Primary Webworks, Inc. d/b/a Vertecon, Inc., and certain shareholders of Vertecon, Inc.
